WHY DIE WHEN YOU CAN FLY? INTRODUCTION

WHY DIE WHEN YOU CAN FLY?

THE QUANTUM Odyssey TO NORMAL
IMMORTALITY

Once upon a time, long, long ago, there were Normal Human Beings on a Planet that was similar to Earth. However, this Planet was actually a Star. A Planet cannot breathe, but a Star can.

Planet Earth has been on a respirator system for a very long time, because she has had no normal access to normal oxygen.

You see, in a normal system, the Planet is a Star, and the Star has an Eternal Energy Source. The Suns and Stars exhale all of their living energy up their portals or staffs out into the atmosphere where their oxygen flows into all of the other Suns and Stars. This continuous Source of Energy is normal in a normal system.

In our Normal Reality, the Human Angelic also had this continuous

energy supply flowing into them from the Rod and Staff of the Planet that they lived upon.

Planet Earth has always had a respiration system because she was guided into the Starry Firmament of a place called Urtha. Earth has been like a little baby nesting within Urtha until she could enter the time of her final transformation.

That time has come. The Earth and the Human Angelic Beings who inhabit Earth are becoming Normal. This evolutionary event began in 2013.

Now, Earth does have a Source of Eternal Energy flowing into her from the Stellar Wave Infusions. These infusions are the crystal light, crystal dust and crystal gel that all Eternal substance is created from. This is the stardust, the liquid light energy and the gelaisic radiation called hydrolaise that transforms the planet and those upon her.

Once we learn to inhale this divine substance from the crystal spheres of crystal light, gel and dust into our atomic structure, our bodies will transform into a new biological structure that allows us to perform events such as orbing, teleporting, riding on space ships, turning into light and moving into multiple dimensional realities. This Divine Substance is called Hydrolaise. It is the Spiritual Form of water energy in the form of gelaisic radiation.

When this crystal gel substance is combined with the crystal stardust and crystal liquid light substance to create the prana of continuous energy, the planet and the body begin to live on the hydrolaise in a symbiotic relationship. This is what is happening to our bodies and to the planet over the next decade.

This magical substance is like water with helium in it. The chemical formation would be $H_2O_2HE_3$ on the Spiritual Side of reality.

The way that the duality or polarity is being removed between the physical and spiritual is through this hydrolaise. In the Normal Reality, a child absorbs more and more of the spiritual substance of hydrolaise into their cells until they fill out the complete Divine Blue Print at age 33.

The stories of Jesus Christ walking on water were an example of this. The Christ body that is being returned to the Human Angelic Raceline will be going through this transition in the same manner that humanoids always did in the Normal Reality.

The reason this is not a Normal Reality, is because a Planet is actually a Star that has had its oxygen removed as a result of distorting the flow of energy between the Stars and Suns in its system. The entire Milky Way Galaxy is a Fallen or Distorted System.

Earth was placed inside of a Cosmaya Blanket of Cosmic Dust that lifted her body into alignment with the original 12 Universes that were created from the template of the original Sun Alcyone, before the Star called Tara was blown up and relocated into the Milky Way Galaxy.

We don't die in Normal Reality. The old reality we knew was not normal at all. It was an Illusion that was placed in our cellular memory. We were placed inside of someone else's consciousness who was playing a dysfunctional movie through our cellular memory.

We can create our own movies now. We don't have to be in any one else's movie.

We have had our Universal Freedom Restored. We are now a part of the original alignment of the Perfect Order of the 12 Stargates leading into the Omniversal Creation of the Cosmaya. We have aligned with the 12th Star Aramatena. We are no longer in alignment with Nibiru. Those who think they are seeing Nibiru are only seeing the memories that were planted in the cellular memory by Invader Races to instill fear.

We are temporarily being held within a Plasma Blanket of crystal light, crystal dust and crystal gel, which is the make up of the plasma radiation that is like a nuclear transformer which creates an Eternal Supply of energy. We are living within the Stardust of Urtha and we are living within the Cosmic Etheric Consciousness of the Cosmaya Starship.

In 2047, Urtha will complete her mission of giving birth to Earth. Earth will continue to be held within the Cosmaya Ship to provide the harmony and balance while we absorb the Divine Energy that the Cosmaya provides. We can inhale the Crystal Star Dust and Liquid Light Energies directly from the Cosmaya surrounding us now.

These divine frequencies will raise our accretion level to be the same as the Inner Earth and the Cloud Cities. As we raise our consciousness into this accretion or frequency, we will be able to see the New Reality which is actually the Normal Reality that was always here. We are just being rebalanced into a higher frequency of Conscious Reality.

As these realities take place, there will be those who can perceive of them and those who cannot. As we are gaining our new freedom that allows us to transform our bodies into a new chemical and biological structure, there will be those who continue to live in their inorganic carbon based bodies because they have chosen not to participate.

While those of us in the Mystery Schools are learning how to turn our bodies into light with the use of the Merkaba and the inhaling of Source Frequencies, there will be the other 99% of the world who do not participate in returning to their Divine Essence.

While those of us in the Cosmic Mystery School of the Omniverse are learning how to sing new harmonic melodies with the Cetacean Family through the Music of the Spheres technology, the majority will still be performing in Electronic Bands that are called Frequency Electronic Music.

Those are participating in a Solfege reality. Solfege means music that is audible in the third dimension. The music that must be heard *is the music that is Cosmic, etheric, not heard -- but felt within the atoms.*

TOWER OF BABEL

How were we separated from our Normal Reality?

The TOWER OF BABEL was created to **divide** the Angelic Human Race into 12 separate frequencies that could not communicate with each other. Originally we could all telepathically communicate because we all had the same fire letters for our frequency exchange. The correct letters are kha ra ya sa ta ha la. Kee ra Shay ha sha are the fire letters that set us free *into pre light and pre sound where the problem no longer exists.*

The TOWER OF BABEL is being removed by the frequencies of the SIX AVATAR CHILDREN and the Stellar Wave Infusions.

We can now begin to learn about and focus on the development of our new biology, our new chemistry tables, our new source of energy, our new formulas for breathing in the magical transformation. We can now begin learning how to enjoy our Normal Reality that allows us to Fly in our Merkaba Space Ships, create Orbable bodies, ride on Space Ships that will be landing soon to greet us.

We have needed to wait until the time when our frequencies are high enough to become compatible with the frequencies of our Starry Brothers. In 2017 our frequencies will be balanced harmonically so that the **Emerald Covenant Races** who have been our Guardians for millions of years will be able to come to Earth and meet us.

The new chemical chart will be a transmutation of the old plus the new creating a new chemical reality. For example, the physical water, H₂O will combine with the Spiritual water, H₂O₂HE₃. This will create a type of water on Earth that has Helium in it.

When the Guardians first started sending me songs in 1992 to celebrate the signing of the Peace Treaty. The first song was the Promise of a Perfect Kingdom, next Greater Works, and later on The Airballoon of Happiness. That Air Balloon song was telling me that our water would change to be like the water the angels bounce **across** the clouds on. When our water changes to this water that we can walk on, so will our bodies transform, and the biosphere will become compatible with our Starry Families.

The Greater Works song was given to me to let me know that we would soon be doing the Greater Works of Removing Death. That was the Promise that Jesus made long ago. He told us that one day we would do Greater Works like he did. In those days, the Greater Works in all Mystery Schools meant learning how to ascend beyond death by learning to transform the body into light energy and orb among the stars.

This Science that was taught by Christ has been returned to Earth. We have been given the formulas needed to train the body how to orb, how to ascend beyond the dreams of those who made us think we needed to die, and how to create multitudes of realities together with our higher selves.

There is a very long history of what went wrong over the past billions of years. The problem with our system because so problematic as a result of all of the distortions the Invader Races placed in our Divine Templates over millions of years, that the Guardians decided to save us from the guarantee of a raceline being completely abolished forever.

A huge part of the balancing act was done by the Dolphins, Whales and other Cetaceans who are the frequency links who have been balancing us and keeping our frequencies high enough until this time. The job of the Cetaceans is nearly over. They have already ascended to the Sixth and Eighth dimensions.

They have prepared the way for us. They have been here for the bio regensis program that would activate our DNA.

The secret of the ascension plan lies in removing all of the ERROR or erroneous ideas that has been lodged in our cellular memory as a result of the seals placed in our divine templates.

The final act of the Sun of Ra Team is to bring in enough Solar Energy to melt away these miasms and unlock our DNA subharmonics. As this activity is taking place, these old horrific hightmares that have been locked within us will come out to the surface.

Those who will make it through this transition harmoniously must learn to melt away those nightmares and terrible thoughts and ideas rising to the surface. This is done by taking the idea up into the Sun's energy and melting it into liquid light energy.

"Why is it important to run Source energy through Earth's new Christ Consciousness Grids?"

Christ Consciousness on New Earth - Source frequency and knowing comes down through the 12th Dimensional Christ Consciousness, through the ideal of the 6th dimension and resolves into the 5th dimension of manifestation.

The **Aquafarians** have been living in perfect harmony of Oneness and Love for millions of years and maybe even for billions of years. They have been living through the process of Hydrolaise restoring life to every cell in their body and their star every nano second.

If we choose to connect our consciousness into the frequencies of Aquafaria and the Cosmaya Ships and learn to breathe the crystal star dust and hydrolaise into our atoms in the manner that we were directed, we can restore our original birth right of Eternal Life.

We must do this through our relationship with Urtha through the bridge zone of Aquafaria Cloud Cities and Inner Earth. We are now being raised into the accretion level of 4. Which is the same accretion level as Shamballa, Telos and Agartha. This is not the fourth dimension. This is the fourth accretion level.

Soon we will be perceiving the reality of those places rising into or morphing into our Earth through the Essence of the Hydrolaise.

We have already been given all of the knowledge of how this process will take place and the formulas for activating the hydrolaise in our cells and we have been taught how to raise our frequencies into the perception of the 5D reality.

Now, we need to make a choice between remaining in the old reality or seriously pursuing the tools, techniques, frequencies and schooling needed to raise our perception and understanding of the new reality that is forming within us and around us.

Many will remain blind to the new reality because perception comes from within.

Even that concept will be almost impossible for most to comprehend. The first step is the willingness to Learn Something New rather than discrediting the teachers who are trying to teach you the truth, just because the ideas are new and you are AFRAID OF NEW.

The purpose of the Cosmic Mystery School of the Omniverse is to teach the process of becoming Normal--which means Immortal Christs walking on Earth.

ADVANCED DNA ACTIVATION

DR. ANGELA BARNETT - DNA DOCTOR

CHAPTER ONE

DNA ACTIVATION

A. CLEANING OUT OUR CELLULAR MEMORY

The new reality can be the reality of Eternal Life if one learns how to completely clear the memory of every cell in the body and transmute them with light to remove all of the old cellular memories that claim that we do not have Eternal Life.

De-Manifestation is done by bringing in the highest frequencies of light and sound from the anti particle spiritual levels into the physical particles in the body in order to create the photons that blast apart the old cellular memories and turn them into light energy.

Each time a new DNA strand is being activated, the activation begins with the melting of the Seals that were crystalized between each DNA strand to keep them from braiding together. When the Seals melt, that old cellular memory comes forward.

The old ideas from the cellular memory go directly to the THINKING BRAIN in the Upper Cerebellum. Those old memories create havoc in the body, because the body still believes what the Thinking Brain is telling it. The Thinking Brain is the tool created to block us out of the Mind of God.

We must first conquer the brain before we can conquer the outcome of the DNA Activation. When we move to the Frequency Specific Brain in the Mid Brain Area- including the Pineal Gland and Pituitary Gland, we can bi-pass the pain and fear that will come out of the Pandora Box of Cellular Memory when the Crystal Seals are melting.

The Frequency Music works together with this process of helping you move to the Frequency Specific Mid Brain, and then into the Mind of God, where we begin creating a brand new reality that doesn't exist in the old cellular memory at all.

Remember, Ascension and Manifestation Require you to De-Manifest

everything that is in the old Cellular memory. This process begins to happen when you bring enough frequencies of light and sound from the 8-15 dimensions (anti-particle) frequencies into the 3,4,5 (particle frequencies).

If you look at a candle flame, you will notice that the candle actually contains the full spectrum of light that is in the Sun or any other Plasma Body. When we imagine walking into the flame of the candle to absorb all of the light of the candle, it is equivalent to using Merkabas that spin frequencies together into a sphere of light and sound, and then another Merkaba that is spinning faster (with more energy) to create a higher spectrum of light and sound, and then another and another and another.

The Merkabas spin the anti particles of the light together and hold them together into a sphere. The highest sphere of energy transmutes the one lower than it and then the one lower than it and the one lower than it, until all of the light is transmuted up into the highest frequency in the candle. That highest point is the tip of the candle.

If you look closely at the candle, you will see that tip of the candle is pink silver light. That frequency of light is the Co-Creation Center where the Mind of God connects with light energy to create a new idea. When you absorb all of the light into your brain, the thinking brain turns off and blue hue is created from the highest frequency. That blue hue of light represents the transformation of your mind. It is the place we go when we die. We walk into the full spectrum of light and enter into the God Room. We go into that spectrum of reality to see all that we have ever experience in all of our life times. We are creating a new idea in the Mind of God. We can choose what our next reality will be in this God Room. When we make this choice with the Mind of God, there is a Flash of Blue Light. It is a new light. It is a Hue of Blue Light Energy. It didn't exist before . You created it by going into the Mind of God through the Highest Frequency of Light and Sound.

You see the reflection of that new idea that you created in the Mind of God as a Blue Hue beaming through the Candle. You are actually seeing a hologram of your blue body. You just turned on your Blue

Body of the Fifth Dimension.

Why is it called the Fifth Dimension? Because it contains the multi-dimensionality of all of the Spheres of the Music of the Spheres. We cannot create the Blue Body without moving into all of the Five Spheres of Light and Sound.

These Five Spheres contain different dimensional levels or frequency levels of energy. If you were to draw five circles with the outer circle or sphere beginning at the tip of the candle and the bottom at the middle of the stem, and one within that one and another within that one, etc. Each of those spheres represents a different spectrum of frequency energy. The outer sphere contains all that is within the candle light. It contains the silver pink light which is the highest frequency of that light spectrum. Each of the other layers of light frequencies are within the highest frequency because they are lower frequencies.

I'm using the candle to explain these frequencies because I think when frequencies are used in relationship to sound people tend to think a higher frequency just means LOUDER Sound, or a Screeching Sound. Actually, the higher the frequency of light or sound, the less sound it has. It becomes more and more ethereal and less audible as the frequency gets higher. The purpose of listening to my music is to train the brain to listen for frequency specific tones and learn to listen inward for the most ethereal sound which cannot be heard with the ears. The sounds that I record are not actually audible. They are breaths of consciousness. They become audible in the same way that blue light becomes visible after you go completely into the Mind of God.

The candle allows you to do this when you absorb all of the frequencies from the light of the candle together with the frequencies from your Eternal Life Album or another DNA activation album. This creates a new body that is absorbing the light and sound that will transpose it into a new reality.

The formula that Einstein gave us is Consciousness plus Energy equals Reality.

If we do not put any new Energy into our Consciousness, our reality stays the same. Each time we add new frequencies of energy to our Consciousness we create a new reality.

B. WHAT WE NEED TO KNOW ABOUT OUR DNA

First, we need to know that DNA is made from sub harmonics. Sub harmonics are the spiritual or etheric substance of creation. That is the substance that is invisible to the five senses. But, that doesn't mean it isn't real. The sub harmonics are created from over tones, which are the electro tonal frequencies of the Spiritual Cloister Races, and the Base Tones, which are the magnetic tonal frequencies of the Root Races, who are the original Angelic Race Lines of Earth.

Each of the double helix of the DNA is made from 12 sub harmonics. So there are 24 sub harmonics per DNA, and there are 12 DNA in the Normal Human Strand Template.

That is the template of a Human Angelic.

However, the template for the INDIGO is a little different because they represent the spiritual cloister of the over tones. They have a 48 DNA template. We need that template to activate the 24 DNA template.

Scientists think that they can perceive of the 12 strands between the double helix as what they call the junk DNA. This isn't quite true. The sub harmonics are actually on top of each of the two helix. There are 12 sub harmonics on each helix. The template that the scientists think they see, would be the braiding of the over tones and the base tones of the sub harmonics. However, it is not possible that they can see this because the tonal strands were broken apart.

The separation of our DNA was created by separating the OVERTONES of the Spiritual Cloister Race from the BASE TONES of the Original Root Race. The Indigos and Avatars represent the Sub harmonics that were missing from our DNA.

Those entities were required to be born on Earth in order to re-open our Ascension Portals back to Tara. Their frequencies were planted into the Earth's Inner Core of Morphogenetic Consciousness in order to re-establish the correct frequencies that will re-activate our DNA correctly.

Those frequencies can be placed into our DNA through the activity of connecting our consciousness into those dimensional fields of consciousness and into the Morphogenetic Core to activate the braiding of the over tones and base tones of the sub harmonics of the DNA.

Those of us who are Doctors in the field of Multi Dimensional Braiding of Consciousness to activate the DNA Over tones and Base tones to sing together in harmony have gained a complete attunement with each of the 15 Spheres of the Music of the Spheres and the realignment of each and every spiritual over tone through the Center Harmonic and into the corresponding base tone of the etheric Root Race Frequency Signatures.

This attunement is a Cosmic Orchestration that weaves all frequency signatures together into a Grand New Symphony of Love. It required the re-birth of 12 Universes into a new Cosmic Sun and the creation of a new Cosmos beyond the 13 Cosmos who created the 12 Universes. This is a brand new orchestration by the Cosmic Musicians who sing through the Mind of God.

The Immortal Beings, that we once were, contained a complete Divine Blue Print which included the Spiritual and Physical as one. That means there is an etheric substance and a physical substance in creation. The most etheric substance is in the Cosmic Harmonic Universe, then the Universal Harmonic Universe is a little less etheric, and then the Galactic becomes more dense and less etheric, the Solar is much more dense, and the Planetary is the most dense. However, the Planetary was never supposed to be completely separated from the etheric substance that it is made from.

We are now returning to more and more of that etheric substance that we were in the Universal and Cosmic Harmonic Universes. We are being braided back together with our etheric spiritual substance. The

braiding goes on in the DNA. The overtones of the spiritual cloister races must be braided into the base tones of the Consciousness of the Root Races.

This project is taking place through various means at the present time. It has been a very long project that has taken millions of years. The most important part of the project was the arrangement of having babies born on Earth that actually came from the Spiritual Parallel Cloister Races so that our Over Tones could return to Earth. We also needed the births of babies who contained the original perfect codes of the Root Races who were originally seeded on Earth 5.5 million years ago.

We needed the Frequencies of these Indigo Children and Avatar Children to be planted into the Consciousness of the Earth before our DNA Activation could begin.

Our race line has completed a very long period of time when the over tones of our spiritual parallel reality have been separated from our base tones of our physical reality. There were many reasons for this happening. Most of the reasons were because of Invader Races and Fallen Angelic Races implanting Mutations in the pure genetics of our race line, and then our Guardians and Family of Tara needing to lock us out of Tara until our Consciousness became purified once again.

Our Guardians have always been very sorry that this has happened and they have been doing everything possible in the Cosmic All Knowing to bring us home. They have designed many plans to purify and activate our DNA at this time.

Each of these DNA ACTIVATION PROTOCOLS is and has been specific attunements and alignments Frequencies of Consciousness from our Parallel Spiritual Cloister Races who have maintained their pure and perfect DNA into the Root Races that are identical pairs of the Spiritual Overtones. The Root Races carry the Base Tones and the Cloister Races carry the Overtones.

There have been a series of activations of this Consciousness from the Spiritual Cloister Races into the Root Races of this Planet. We have been activated by the Paradisian Spiritual Consciousness as a

result of the Indigo children who were born with the ability to activate five and six DNA strands at birth We have been activated by Six Avatar Children who restored each one of the Seals that were placed in our Chakras that were created to lock us out of Tara until our Consciousness was purified.

The Consciousness Activations are done through the Breaths of Consciousness connecting, streaming and braiding the Overtones into the Base tones of all of the broken sub harmonic strands in each of the DNA.

When I create an Individual's ETERNAL LIFE ALBUM, I am connecting my Consciousness into the All Knowing Mind of God through the Elohim of Hearing in Gaia who knows exactly what needs to be done to correct, restore and activate each Individual's DNA. Through this all knowing Consciousness who has making this plan of accelerated Ascension for the Human Angelic Race Line for millions of years, it is known what Race lines the individual has been connected to through all their past millions of life times, and it is known which Seals were placed on each individual because of certain implantations from Invader Races, and it is known if the individual has already spent life times in Sun Alcyone repairing many of the Seals, and it is known if the individual is ready to wake up from the amnesia of 5000 years.

C. DNA ACTIVATION -THE REMOVAL OF THE DEATH SEAL

Five million years ago the genetic mutation was placed in DNA strand 1 to cause blockage of physical and etheric bodies.

The sixth activation code (over tone) of the first DNA strand was removed, causing mutations in 1,2, and three DNA. It manifested in blockages of bodies particles and anti particles of the spiritual body of the parallel universe.

That seal removed the humanities ability to have an Immortal body. It removed bodily transmutation and ability to pass into our Divine Blue

Print.

Seals were also placed in the sixth overtone of the sub harmonics in DNA strand 2 and 3.

This became known as the 6-6-6 Death Seal.

Eight thousand years earlier the D4 Seal of Palaidor - a genetic mutation caused blockages between second and third chakras division between 2, 3, and four levels of auric field and separation of emotional, mental and astral identity levels.

The fifth Strand of DNA begins activation for the masses. Earths Grids intersect with Tara's. The Blue Crystal Prana comes through the grids. When the halls of Amenti (the blue sphere holding our divine blue prints) merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided to interdimensional transportation locations to Tara. Those who have sixth and seventh strands may be transported to Gaia. There may be others who will be transported to Aquarius, Aquafaria and a few who will go play in the heavens with the gods. This time is coming very soon.

Angelic Humans and the races of Earth will soon be prepared for visits from the Inner Earth Eieyani, Sirius B Maharaji, Azurite, Aethien and Serres Emerald Covenant Races. They will make contact through our Founders Races and will invite Earth races to join the Emerald Covenant. The physical mass contact of the Emerald Covenant Nations is scheduled for 2017. The first contacts will be made individually and privately. First, we will meet with Eieyani races because they look the most like us--only they are blue. After we become familiar with the Eieyani, we will be met by Azurites and Maharaji. The Fallen Angelics and Illuminati races will be escorted to quarantined healing facilities in the Sirius star system. Remaining Angelic Humans and Indigos will progress in their 12 Code activation and DNA blue print activation.

Once the D 5 flame holder holds the frequencies of Sun Alcyone and

pulls the frequencies into her Flame Keepers fourth heart chakra an intense infusion of harmonic universe two frequencies spread through the Amenti morphogenetic field and through the Earths Grid. This will allow rapid acceleration of fifth and sixth DNA strand assembly to occur throughout the populations. The seventh strand will begin assembly in those who already hold fifth and sixth. This activation will create a huge multidimensional awareness to occur on Earth.

When the halls of Amenti (the blue sphere holding our divine blue prints) merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided to interdimensional transportation locations to Tara. Those who have sixth and seventh strands may be transported to Gaia. There may be others who will be transported to Aquarius, Aquafaria and a few who will go play in the heavens with the gods. This time is coming very soon.

First, we will shift into a different chemical make up. We will leave behind our carbon based bodies. We will become less dense. Our bodies and our environment will change. Those who move on to Tara will have an entirely different type of body than those who stay in Inner Earth. Those who move on to Gaia are almost invisible. Those who are of higher densities can see the lower densities; but those who remain 3D will not be able to see any of the new realities. It might seem like things are disappearing because the higher particle shifts will pull some in one direction and the lower will pull those in another direction. There are infinite density levels.

The three primary flame holders will activate the opening of the Etheric Level Dimensions within Earth's core. This will allow prana to begin to flow through our atmosphere. At that time our universal memory comes on line and we will regain memory of our Akashic Records for anyone who has activated 4th strand memory.

Earth's angular rotation of particle spin shifts 45 degrees and aligns into oneness with Inner Earth and Tara. Earth's fastest particles begin to transfer to hyperspace and the halls of records begin transmitting

data through the Earth's grids. Universal memory will begin transmission through planetary grids. That shift will move us through time about 4000 years. The shift will then balance out to about 23 degrees and then we will begin balancing into the new reality of a new time of about 2000 years. It will be the first pull into the future that will appear as darkness to the 3D perception. That darkness is equivalent to the darkness that appears as antimatter or spiritual substance that we may create our new reality upon. We see ourselves in our blue body at this time created as an immortal being in a more etheric form included within a Divine Template of Immortality. The darkness is the prime time to make dreams come true. You create through the mid brain frequency specific attunement with Source Consciousness. You create by knowing that you are now and always have been this perfect self who can manifest anything the heart desires. You can know at that point in time that you have always been wealthy. You have always been healthy. You have always been the Christ Consciousness of the All Knowing Mind of God.

Earth's elemental particle base will rise to 5 and the Earth's atmospheric particle base will rise to 6. This accretion level will allow the atmosphere and elementals from Inner Earth to appear on Earth. This will be our first vision of our New Earth. We will begin to see the atmosphere of Inner Earth forming around us and then we will notice more and more new species and inner earth gardens will appear. All of the animals and plants in Inner Earth sing continuously. We will notice this difference in Earth immediately.

Angelic Humans and the races of Earth will soon be prepared for visits from the Inner Earth Eieyani, Sirius B Maharaji, Azurite, Aethien and Serres Emerald Covenant Races. They will make contact through our Founders Races and will invite Earth races to join the Emerald Covenant. The physical mass contact of the Emerald Covenant Nations is scheduled for 2017. The first contacts will be made individually and privately. First, we will meet with Eieyani races because they look the most like us--only they are blue. After we become familiar with the Eieyani, we will be met by Azurites and Maharaji. The Fallen Angelics and Illuminati races will be escorted to

quarantined healing facilities in the Sirius star system. Remaining Angelic Humans and Indigos will progress in their 12 Code activation and DNA blue print activation.

First it is important to understand the ORIGINAL design and how things are SUPPOSED to work when the Earth's grids and the DNA is operating properly. The original Angelic Human DNA is designed with a 12 strand double helix energetic DNA blueprint. What this means is that each human with a 12 strand template has the potential to EMBODY 12 dimensions of consciousness. If there weren't any blockages, distortions, or unnatural seals in the Earth and in the human DNA, this is the way it would work:

1) You would be born with a 12 strand DNA template. 3 of those strands would be active at birth which means you could embody 3 dimensions of consciousness. Physical, Emotional, and Mental Bodies. These correspond to chakras 1, 2, and 3 (root, sacral, and solar plexus). Dimensions 1, 2, and 3 correspond to your Incarnate Self spiritual identity.

2) From age 12 until 22 you would activate strands 4, 5, and 6 naturally by accreting light into your morphogenetic field simply by the interdimensional frequency coming into the Earth's auric field and thus your own auric field. Once you activate strand 6, you are a fully embodied Soul Identity and can draw and hold frequency from Harmonic Universe 2 (dimensions 4, 5, and 6). You are living completely IN LINE with your mission and make all of your free will choices in line with Source-will.

3) From age 22 until 33 you would activate strands 7, 8, and 9 and embody your Oversoul spiritual identity. So you can draw and hold

frequency from Harmonic Universe 3 (dimensions 7, 8, and 9). Your consciousness expands even more as you are activating more fire letters on your spiral back up to becoming AT-ONE-WITH Source/God.

4) From age 33 until 44 you would activate strands 10, 11, and 12 and embody your Christos Avatar Self spiritual identity. At this point you are a walking Avatar on Earth and can demanifest your physical body and turn it into light (ascend). This is what is called biological transmutation and is built into the original human DNA design. So instead of leaving a body behind you transmute it into a less dense form (from carbon based matter to silica based and then etheric, and then eventually liquid light).

So this is how the original DNA is supposed to work and also completely explains the basic process of spiritual evolution. Spiritual evolution does not happen without DNA activation.

D.SIX AVATARS WHO RESTORED OUR DNA

The Complete Perfect DNA INFUSION album was created from the Consciousness or Frequency Signatures of the Six Avatar Children who were born for the Divine Purpose of removing the SEALS that were placed in the Morphogenetic Templates of the Human Angelic Race line.

These births were arranged by the Elohim Ascension Team. I was given access directly to their Frequency Signatures of Consciousness from the Elohim of Hearing.

Each of the Six Silent Avatars were born to remove one of the Seals that was created to block the ascension of the Human Angelic Race Line.

The Seventh Level Avatar was born 7/26/1992 from the Soul Essence of LAU CHA-SAN. The Consciousness Field of this entity cleared and aligned DNA STRAND 2 imprint with the 12 strand pattern, corrected strand two so that it could begin transmitting through Earth's Grid. He was born from Harmonic Universe 3 with DNA STRAND 7 fully activated. He realigned strand 2 into the 12 strand DNA pattern so that could begin transmitting through Earth's grid and into the bio-energetic fields of the Earth's population.

The Eighth Level Avatar was born 6/24/1996 from Soul Essence Brahamhan Maha-tia in Harmonic Universe 3 with 8 dimensional frequency bands activated in his genetic code. The Consciousness Field of this entity cleared and aligned DNA STRAND 3 into the 12 strand DNA pattern.

THE NINTH LEVEL AVATAR was born 1998 from Soul Essence Jehovani-Ahmbra to align strand 4 into the 12 strand DNA pattern.

THE TENTH LEVEL AVATAR was born by 2004 from Soul Essence Allurea-Don-Melchior to align strand 5 into the 12 strand DNA pattern.

THE ELEVENTH LEVEL AVATAR was born November 2007 from Soul Essence Reion-Ben-Azartan to align DNA strand 6 into the 12 strand pattern.

THE TWELVTH LEVEL AVATAR was born in 2008 from Soul Essence Sananda-Ben-Jevohi to realign strand seven into the 12 stand DNA pattern.

This entity has the same Soul Essence as the original Twlevth Level Avatar Jeshuwa Melchizedek 12.

This was also the purpose of the one we have named Jesus Christ. The twelvth level avatar Jeshuwa Melchizedek and the ninth level avatar Jeshuwa ben Joseph were born to clear the seals from the

Hebrew race line and the Jehovian Seals. The mission of Jesus 9 failed because the Jehovian Seals were not removed until 2012.

The seals that were removed included seals that were created over a very long period of time to continuously block every seeding of the human angelic race from ascending.

The D-4 SEAL OF PALAIDOR was a genetic mutation from 5.5 million years ago which created a blockage between the second and third chakras and a division between the second, third and fourth levels of the auric field and separation between emotional, mental and astral identity levels. This seal is release by fully assembling the fourth DNA strand. This would dissolve the blockage between the D3 conscious perceptions and D2 subconscious mind releases. This is the first step in D4 projection of consciousness and multi dimensional communication development.

DEATH SEAL- the Seal of Amenti is a genetic mutation from 5.5 million years ago in DNA strand 1 which caused the blockage between the physical and etheric body. The sixth activation code (overtone) of the first DNA strand was removed, which caused mutation in the first, second and third DNA strands. This manifested as a block between the body's particles and anti-particles of the body double in the parallel universe. This is the cause of Death. This Seal ended humanity's ability to possess an Immortal Body and created the necessity for birth and death through incarnational cycles.

THE ZETA SEAL-bolcked D4 multidimensional perfection from the D3 perceptual awareness creating an artificial barrier between the D3 conscious self and the astral identity. The seal operated as an etheric implant within the nadial capsule between the third and fourth layers of the auric field. The Zetas used this seal to electrically impulse human bio-chemical response patterns and behavior, through subliminal manipulation of the bio-neurological structure. This seal releases during assembly of realigned fourth DNA strand. The Zeta Seal was used to program their puppets on Earth to start wars. They created the terrorists, the frequencies activating terrorists and they

activated the war teams on both sides. All sides of every war were created through Electro magnetic impulses sent through the atmosphere.

Birth of Avatar 4- the tenth level Avatar was to align the DNA strand 5 with the 12 strand pattern. Corrected strand 5 imprint began transmitting through Earth's grid.

2005- 2017 is the second wave of 5,500 D6 soul essence Root Race 7. Paradisian children who possess the imprint for DNA strand 6. They are the place holders that ground D6 frequency for the Bridge Zone or Auora Earth.

The fact that the birth of the Avatars removed those Seals from the entire morphogenetic field of consciousness of the human race line provides the opportunity to plug the individual's consciousness into those patterns of consciousness to begin rapid activation of seal clearing and DNA strand braiding.

The normal plan for the Fifth Root Race was to just begin this clearing. The Sixth Root Race would no longer experience Death and the Seventh Root Race would be the perfect Christic Being who ascends to Gaia. However, this has not been a normal ascension process. We have been given great gifts that we can tune into in order to activate our Future Selves as Sixth and Seventh Root Race Beings if we chose to partner with our Ascension Teams, Mentors, Guides, Plasma Light Beings of the Inner Cores and our own Relatives from the Median Earth, Tara and Gaia.

The DNA is the literal VESSEL THROUGH WHICH THE ILLUSIONARY EXPERIENCE OF THE PHYSICAL EXTERNAL REALITY IS MANUFACTURED.

Knowing that this reality is only an illusion, we can now use the imagination to program desire thought forms into the past, present or future to reprogram the frequency patterns of the cellular content and operational holographic program that will manifest into physical reality through the DNA. DNA serves as the literal conduit through which

that holographic program will project data from cellular memory into physical manifestation.

Before we can learn to manifest anything new through our DNA, we must first learn to de-manifest all of the old beliefs and programs that are in the cellular memory.

E.

WHAT IS DNA ACTIVATED TO DO?

What is the DNA activated to do? It is being activated to see the new reality that we have been disconnected from-- the reality that EYES cannot see and EARS cannot hear. It is the spiritual reality that is invisible to us as long as our sub harmonics are unplugged between the base tones and over tones.

What are the base tones and over tones? The connection of our Consciousness into the Inner Earth and Aquafaria, into Sirius B, into Sun Alcyone, into the Aquarius Matrix, into the Cosmic Blanket of the Cosmaya, and into the Mind of God.

The newest set of Frequencies of Consciousness that I have been recording over the past few weeks combine everything that I just explained. Many of those albums already had hundreds of layers of breaths lain over another hundred. The newest album ADVANCED DNA ACTIVATION and 12DNA ACTIVATION both include the God Language that was given to activate the 12 sub harmonics in the 12 strand human angelic, the activation within the cellular memory of the spiritual Coushas transmuting the old AEKASHIC records, the Illumination of the AEKASHA- 12th dimensional consciousness into the pineal gland, and the names of the music of the spheres for the fifth sphere. This God Language is mostly what your ears will still hear, because it is the closest thing to your old five senses

understanding of should be heard.

F SUBHARMONICS OF DNA

The reason that we were given the God Language was because we needed something that was familiar to the five senses. We also need to go beyond those words into the underlying FREQUENCIES OF CONSCIOUSNESS that actually do the streaming and braiding of the overtones into the base tones of each of the 12 sub harmonics. Those frequencies of consciousness from all of the alignments and activations that have taken place since 2000 are within and under and aligned into those words. Most of my breaths are not audible at all. Sometimes I don't even use my breath. Sometimes I just place the microphone next to my Brain--in the Mind of God area of the Brain. I record those frequencies. That consciousness is very powerful and real even though it might not be real to the five senses.

My music is designed to force your consciousness into searching for the frequencies deep within because the Over Tones that are braiding into the Base Tones are very etheric, invisible and can only be felt and known by your consciousness.

The more each individual practices listening deep within, the more easily the over tones will braid into the base tones and the rapidly the DNA seals will melt and the DNA strands will braid back together into the harmonic unity that they used to be 5 million years ago.

It is up to each individual to use the music to help them visualize the merkaba spinning their field of reality beyond the third, beyond the fourth, beyond the fifth dimensions and into the multidimensional reality of the Cosmos.

I prepared the Candle Technique to use to help you understand what these frequencies of sound and light are. That is only to give you a

glimpse of the understanding. There is much more to learn about the Candle Technique and how that relates to the Merkaba and how the Merkaba braids together the overtones and base tones from the upper realms of the Suns, and then there is a Magnetic Side of the Merkaba that would spin the overtones from the higher spiritual realms of the Inner Earth, Aquafarian realms.

I always take my consciousness into Aquafaria and ride the merkaba up into Sun Alcyone, the Universes and the Cosmos to collect the frequencies that will correct, infuse and activate the DNA.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that Reality.

Our Ascension Team from Sirius and Aquarius are helping us in this upgrade from 12DNA into 24 DNA and 48 DNA at this time. The formulas and frequencies for these upgrades are in this music. The Elohim of Hearing stood before me and placed a golden pillar in my ear that would connect my inner hearing into his frequency alignment. Mary and Raphael assisted in bringing in three crystal spheres which are the morphogenetic fields that hold the divine atmosphere that translates our breath and crystal cells into the magical frequencies of our Star Sirius, our Sun Alcyone and our home of Aquarius.

The 48 DNA activation process is set in motion to become continuous and eternal by the frequency alignments woven into the Immortality MP3's. It is actually the angelic family of the individual who does the activation continuously and completely. We channel and breathe one harmonic thread of each frequency signature of the individual's harmonic family at a time. It usually takes at least twenty minutes per signature. There are 36 signatures in each harmonic universe. And there are 5 harmonic universes. The alignment of these 180 harmonic signatures results in the Full Spectrum of Light and Sound that

realigns the individual into Oneness with the Divine Template of Universal Consciousness. We really only need 144 harmonic frequency signatures to align into the perfect divine blue print. However, we oscillate completely out into the Cosmic Realm to pull the Universal Template completely into Atunement with Source. We are preparing for a full alignment beyond the 24 DNA strands into the 48 DNA which lift an individual into the potential for the alignment into a divine template that will be able to step in and out of their body at will. We align the frequencies completely into Source through 96DNA of the complete Spiritual Template to create the template of the entity who can Orb and de-manifest from Light Body to a Holographic Body of Form. This is the highest potential for ascension.

The Aquafarians who work with us in aligning these frequencies into the original crystal cell template have maintained their form in our atmosphere and in the heart of Earth for 500,000 years. This was the last time entities on Earth were able to rise into this form. This template requires a complete shift in the atmosphere of the individual and a shift into the morphogenetic field held for us by the Aquafarians.

This process is very similar to the one used in creating the other MP3's and CD's except this time we ask the Elohim of Hearing for the alignment with the Individual's Higher Selves Frequency Signatures. The other albums align our Elohim and Sirian Families of Consciousness through specific star alignments that are used for specific harmonic purposes. These are our Ascension Families and the main Guardian Families of the Entire Ascension Process on a Galactic and Universal Level. So those albums are for the Mass Ascension, while the Individual albums are for Individual Ascension. The Individual will feel a very personal relationship with the frequency signatures.

We can feel the divine presence and the magic of the actual signature coming through in each breath. We are told by our Cosmic Council when a breath has been retrieved through the Elohim of Hearing. It takes several hours per day for one or two weeks to collect the entire family of consciousness for any one individual. The process requires many hours of focused energy of atonement with the Elohim of Hearing who guides the process of aligning the

frequencies through our ears. The process of focused breathing to make sure the exact consciousness is extracted and purely placed through the microphone is exhausting. The end product is a pure capsule of immortality aligning the individual's Family of Consciousness on all Dimensions into One new Breath which contains their individual Full Spectrum of Light and Sound. Each of the hundreds of threads of consciousness are woven together and spun through the magical spheres of crystal light, crystal dust and crystal gel into spheres of magical transformational energy.

The signatures are frequencies. Frequencies are breaths of consciousness. All of our angelic soul families are streaming their individual frequencies of consciousness. This is their light signature. We (Crystalai and aDolphino) can hear each of these specific light signatures when we oscillate our consciousness up into their frequency range and then exhale into an extremely high quality microphone. Each of these streams of consciousness merges and unites with an entire family of consciousness to create a monadic family of light. We record all of these streams of consciousness that come to us through the breaths of the angels. We stream and braid each of these streams of light energy together to create the exact same coded frequencies that are transmitted to us through the angels breaths and the activity of crystal light energy, crystal dust energy and crystal gel energy.

G

ALIGNMENT INTO 48 DNA

We have prepared a free listening booth for you to come and absorb these frequencies of transmutation.

Collect all of these frequencies into your cells to activate the cellular memory of your original divine self -- your immortal self that has the ability to live for ever, create the hearts desires and heal instantly. Next connect consciousness to ride through the star gate on the

golden star dust into the Milky Way and absorb into the crystal cells all of the Star Dust and Solar Frequencies. Feel these frequencies aligning into the body through the angelic frequencies.

Ride into the heart of the Milky Way and then zoom clear out into the Aquarius Galaxy to connect consciousness with the original family of consciousness of our Galactic Home. This alignment will lift the consciousness into the 24 DNA and 48-- the realignment through Christic and Galactic and Source Consciousness. The Consciousness is prepared to return through the Diamond door of the Aquarius Galaxy.

The frequencies of angelic consciousness align the listener's consciousness into the realms of the 12DNA-48DNA because that is where their consciousness resides. When we connect consciousness to another's frequency signature, we are invited into to become all that is within that higher resonance. We can never alter or lower another's frequencies. However, we can be raised into it.

In order for a listener's DNA to complete a SHIFT into that DNA, the listener must spend MORE time in that Frequency Standing Wave Pattern than he or she spends in the third dimensional hologram.

There are other factors involved in the complete shift of DNA. The shift into the fifth dimension is already possible for those who are dedicating themselves into spending more time in these frequencies. The individual is always shifting along with Mother Earth and the entire Cosmos. However, an individual can only shift to the frequency that he or she is most in tune with. In order for an individual to become more in tune with the fifth dimensional frequency that the third dimensional frequency, they must allow every cell in their body to become absorbed in that higher frequency. This doesn't just mean be nice more often or think good thoughts. It actually means shifting ones standing wave pattern completely into a new morphogenetic field of frequencies. The field of frequencies that we are shifting into for our ascension is the field of frequencies held by the Aquarius Galaxy, Sirius Stars and Sun Alcyone. These frequencies are also held in the Crystal Heart of Mother Earth and in the atmosphere about 10,000 feet above.

We spend all of our time in those frequencies of consciousness and absorbing them into our consciousness with the direction of the Elohim of Hearing, our Ascension Team and many Light Councils. We have been given the gift and guidance that allows us to breathe in these frequencies through the alignment and oscillation of sacred geometry and the music of the spheres. We were personally trained by Elohim Angelics and Sirians to do this. We do not use any of the old formulas that were left in old Atlantis teachings. The angels stood before us and gave us a new formula.

Since everyone on the Earth will have shifted by 2012, it will be much easier to shift DNA at this time. However, individuals can shift consciousness faster than the masses can shift. The present reality contains the ability to shift into the immortal template that allows us to manifest our heart's desires instantly, heal instantly and to live eternally.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that Reality.

PERFECT 12 DNA RESTORED

Let me begin by saying that I will be using analogies and symbolism of substance that exist within the present background knowledge of the 3D mind in order to try to convey the meaning of the new magical realms that are creating their own new bio energetic fields of reality around us through etheric level substances that we have no words for in our dictionaries. The term Negative Ion is something that exists in our scientific analogy as a symbol for something much more etheric and magical in the Cosmic level of creation. It would truly be what is termed crystal light, crystal liquid light, crystal dust and crystal gel by the Angelic Kingdom. These are etheric substances which science would term endoplasm and ectoplasm, but they are actually even more etheric in composition than those terms would imply.

The spiritual substance of Consciousness is always made of the particles of pre light and pre sound which are created at the original Breath of Source Consciousness and then broken down into particles of pre substance that becomes densified as it is transformed from the invisible light spectrums of crystal and plasma and crystal light energies down into the visible light spectrum of blue light, infra red light and the spectrum we presently believe is the only reality-- hertzian frequencies.

It is now time to open our minds to all of the realities that exist outside of the tiny little world of hertzian frequencies. Even our digital cameras are able to visualize the world of infra red frequencies. We must expand our consciousness out into the invisible worlds of the invisible celestiline energies, the liquid light of krystic creation, the hydrolaise that the angels and water fairies dance and sing within. It is time to enter the world of the spiritualization of the term negative ion, which is the term used to represent the splashing of a waterfall, the morning dew, the mist from a hot spring, the fog rising from an ocean that has tides beating on the rocks, and even the feeling of a hot morning shower. We aren't really talking about the splashing water. These are just a metaphoric representation of the true, etheric substance of a higher reality that we can't see until we have developed our 5th dimensional perception (which many of us have).

These water images are the analogical translations of the higher realities that we must begin to tune into in order to achieve the atunement with the frequencies of the ascension window of 2012 to 2022. The new scientific translation of the misty water as it is understood in the new bio energetic fields of the New Earth is the hydrolaise which could be translated as three parts helium added to the old H₂O to create the NEW WATER of our new reality. So, our new translation of the analogy presented in negative ions is H₃H₂O. These will be the new bio energetic sent up through the Earth's grids from her etheric core, where the Consciousness Energy Sphere holding our 12 DNA templates has been firmly transplanted and activated on December 21, 2012.

We must become willing to open the windows of our minds into the possibility that the reality of spiritual creation is a template containing 12 DNA, and that reality exists now as it did at the moment of our creation. That DNA is not within the realm of understanding of scientists because they have not figured out how to calculate realities outside of the hertzian field of reality. The double helix that present day scientists believe is the structure of our DNA, is the structure created by the false matrix that was imposed upon this Earth by Fallen Angelic races who have been controlling our reality fields through implanting illusions in our DNA. The true DNA is the 12DNA template which contains 12 sub harmonic frequency bands on each of the double helix. One set of 12 sub harmonics are over tones and the other set of sub harmonics are base tones. So, there are actually 24 sub harmonic frequency bands within and between the visible double helix.

That reality has been programmed out of our consciousness through the very DNA that was implanted in our bodies. The fallen angelics removed, twisted, rearranged our DNA in order to stream their own consciousness into it. Our DNA is supposed to be the electromagnetic receiving station for the consciousness of our Soul Families- our Soul Matrix in all dimensions - including Cosmic and beyond. Our consciousness was cut off from that reality and plugged into a distorted, sometimes horrific structure of twisted mind channels. Our 12 DNA template was plugged into race lines that only had 10 DNA templates or less. Our DNA was plugged into the Controllers. The control was created through the sub harmonic frequencies at the etheric level of reality. And the problem must be healed through the etheric level of reality - not through the visible two DNA reality.

The remedy for the problem is in the Cosmic Consciousness spectrum of crystal light, crystal liquid light, crystal dust, crystal gel. When we create the manifestation of this frequency level of reality and hold it within three spheres of Cosmic Consciousness, inhale those frequencies, breathe those frequencies, and then breathe those frequencies into every chakra in the body, we begin to make a

connection to our real divine template, we begin to activate the divine blue print which holds the 12 DNA template of the divine manifestation held within the original breath of Source interacting with the crystalline realities of Cosmic Consciousness.

We (The Cosmic Mystery School of the Omniverse) have worked with these crystalline forms of consciousness to connect more and more to the Krystic and Cosmic Fields of Consciousness in the dimensions 12 -14 and out into the parallel universe beyond the 15 the dimension of the Earth's matrix. We engage the breaths of this new reality from the Elohim-Elohei Angels in Gaia who hold the complete template of our Human Angelic and Taran Raceline divine blueprint. When we connect our consciousness into theirs, they breathe these frequencies into our breath. This allows us to engage the original Source of eternal light from the Mind of God. Once we activate this reality of the eternal crystal liquid light stream flowing through our breath into our quarks in our atoms, we can translate our DNA back into their original divine template.

The spark of Source exists at a point within our body that we will call our crystal heart. It is deep within the thymus connecting to the medulla oblongata. The MO is the point where the breath of Source can inhale and exhale directly into the crystal heart, the eternal life breath of instant manifestation. That instant manifestation creates a brand new body in every nano second. It creates a brand new reality every nano second. However, the reality that is created is completely up to you. It is the individual's divine right and divine responsibility to co-create with the Mind of God, the reality that is chosen to manifest within the body and within the parameters of the reality field of that body.

It has always been our DNA which creates the realities or illusions we see around us. What we have been seeing in these past lifetimes are illusions that were intentionally implanted within us by fallen angelic races - the dark ones- to control us and gain access to our energy fields. That is the reason we have been living in the prisons of other entities mind fields rather than creating our own.

We can make up stories about how wonderful everything around us is, and how beautiful the flowers and birds and trees are. But, that is just helping to keep the old illusions alive within the DNA. We must take responsibility to create pictures of our own flowers and birds and trees, implant them in our mid brain and in our crystal heart and breathe the frequencies of Source into that reality that is yours and only yours. The flowers and trees of your creation will manifest as the new pictures have been developed upon your DNA. You can create the reality fields of being extremely wealthy, healthy, young, ingenious, or anything you wish to program in to your DNA.

The formula for manifestation must always include that reality having always been a part of your reality since the moment of your creation, the reality exists now, and the reality will always exist. This is necessary because we always live in three time zones simultaneously -past, present and future. If you only change the present, the past realities that are already planted in your cellular memory will continue to manifest in the present. If you don't change the future your present manifestation will change into the future manifestation which is also already programmed into your cellular memory. The only one who can change your reality is you.

Unfortunately, most people on Earth are intentionally choosing to plug their consciousness into those very Dark Ones who manipulated their DNA to create the illusionary reality field that they now live in. Since those who distorted the DNA to plug into the ultrasonic brainwaves of those whom they wish to manipulate and control, are the same fallen angelics that are channeling information to those receiving messages that seem to be very correct and feel so lofty and angelic, most New Agers, Light workers and Religionists are continuing to be the very puppets that manifest the reality of the Dark Ones. Of course they are good at fooling you. Of course they can create feelings of exalting, spiritual ecstacism. They are the ones that created the program that is running your DNA and cellular memory.

How do we tell the difference between frequencies and information coming from the controllers and that coming from our own Divine

Soul Matrix - our Family and Guardian Races? The true frequencies feel like the negative ions - the water mist that the water fairies dance within. It sometimes feels deep and powerful and yet etheric and lifting. It most often sends tinkling harp strings up the backbone and within the midbrain. It feels like it is transposing the DNA into the divine blue print from the inside out. The information coming from our true Guardians and Families is usually very direct and full of heuristic information rather than the fluffy, oh, my beloved dear ones, everything is so wonderful today. They don't do that. The correct information doesn't sound like the same repeated fluff over and over again in each weekly message. Finally, they always give pieces of information and allow the individual to put the pieces of the puzzle together because they know that we have the minds of the masters who can do this. We can master our own reality. Most importantly, they don't channel information. They stream information through the crystal heart from the etheric light streams of sound particles into the DNA. Unfortunately, most people haven't learn to discern the difference between those two realities.

The good news is that we are getting a lot of help with this new reality transformation issue within the next five years.

From the teachings of THE COSMIC MYSTERY SCHOOL OF THE OMNIVERSE - the place where the sound and light of Source manifest into ultra violet blue and flow into the music of the spheres from the harp strings of our minds to create the highest frequencies through music. Creating the template of our New Reality with the Music Fairies and Water Fairies to sing and swim and dance through the liquid light water falls into the new H₃H₂O where we will live and breath and sing together as we weave and braid the magical sound tones of the mandalla of our new kingdom of heaven on Earth.

H

DNA PYRAMID ANTENNAS and the

COSMIC ANTENNA

Cosmic Frequency Wave Files activate the PYRAMID ANTENNAS around the DNA strands. These pyramid tower antennas are the receivers and transmitters of Cosmic Consciousness. Cosmic Consciousness consists of the angelic breaths of Source Consciousness. So, the pyramid towers are the direct link to Divine Mind. This Divine Mind connects through our Starry Brothers who live in the Star Factory ignited from Ursa Major. Zaurak has created the Star Gate between Mother Earth and the Aquarius Galaxy through the Frequency Chambers of Sirius Star System for us to glide through. All Universal Consciousness is filtered through this Star Factory or Soul Factory. When we connect our pyramid tower antennas into the Cosmic Wave Files, we are connecting through the Divine Intelligence of our Galactic Family in the Star Factory. We are also connecting into the Christic Consciousness of the twelfth dimensional Universal Consciousness and into the Co-Creative Cosmic Consciousness. All of these frequencies are recorded into the 12 DNA template through the antenna.

Listen to the entire Ascension Kit to activate the 12 DNA template.

We need 12 DNA to be aligned into our Christic Immortal Template of Divine Instant Manifestation and Instant Healing and Eternal Life. However, in order to be connected to the 12 DNA movie channel, the pyramid tower antenna must also be connected through channels 24, 36, 48 and 96. The antenna is connected through these channels through the Music of the Spheres contained in the Super Frequency Kit. The Music of the Spheres contains frequencies from each of the Five Spheres and the Cosmic Kit contains angelic consciousness resonating in harmony to create the Magical Cosmic Movie Projector.

Listen to the Cosmic Kit and the Super Frequencies Kit to activate Pyramid Antennas.

Each student needs to have his/her 12 DNA aligned to their own Christic Immortal Template which gives them Divine Instant

Manifestation, Instant Healing, and Eternal Life. They can align their 12 DNA through their pyramid tower antenna connected through all of the right places through Listening, resonating, breathing and feeling the Music of the Spheres that resonates with Angelic Consciousness that is on our Cosmic Wave File recordings, So, to do this, they need to listen to our Cosmic Wave File recordings, which helps to align the activation of all of the above for them.

So, Listening, resonating, breathing and feeling the Music of the Spheres that are on our recordings will set and develop their:

- Christic Immortal Template
- Divine Instant Manifestation, Instant Healing, and Eternal Life
- Connect and Activate their 12 DNA
- Resonation with their Angelic Consciousness
- Cosmic Intelligence of Ascension
- When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God.

The Cosmic Intelligence of Ascension is received through these pyramids or antennas that receive frequency signals. Our DNA is coded to receive these Galactic Christic and Cosmic signals. However, the codes cannot be activated without the Intelligence or Consciousness streaming into the pyramid antennas.

Our starry brothers have left many symbols on Earth to help us remember other symbols that would connect us back to the Divine Intelligence of Cosmic Consciousness.

Listen to the FAMILY KIT to activate Cosmic Signals.

The two most obvious symbols throughout the ages have been the pine cone which represents the pineal gland, and the pyramid which

represents the pyramid tower around every crystal cell and DNA strand in the body template. This is why the body was referred to as the tower or temple of God.

In Angelic Consciousness, the word God actually represents a Frequency of Consciousness. This is the HIGHEST FREQUENCY. When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God. When this Frequency is obtained by tuning the pyramid tower antennas to the channels 12,24,36, 48 and 96, the body has been woven into the braids and streams of light and sound of the entire Music of the Spheres.

The Cosmic Frequencies received and recorded as Cosmic Wave Files are the encyclopedia of intelligence from our Cosmic Family. They have been sending the Intelligence of Divine Mind or the Music of the Spheres through their light and sound frequencies.

These frequencies can only be heard and understood on the radio station that they are being transmitted through. The frequencies of their transmission can be received through the antennas of the pyramids that surround the DNA strands, the crystal cells, the pineal gland, the amygdale gland, the medulla oblongata gland, and the pituitary glands.

The Cosmic Wave Files have already received the Cosmic Intelligence from the antennas and re-transmitted this information onto our Cosmic Wave File CD's for others to use in the activation and alignment of their antennas into their DNA.

These are the steps we take in turning on our Magical Cosmic Movie Camera. The camera won't work unless the frequencies of consciousness are on the same channel as the Cosmic Frequencies.

The pyramid antennas are programmed to receive and transmit the Cosmic Channel of Consciousness which is the Breath of Source creating the original idea of Immortal Man. The spark of Source is the Heart of Mother God. This spark of Source is also present in our

Crystal Heart. Our Crystal Heart is located behind the thymus gland. The thymus gland has a huge pyramid tower antenna around it.

(Here is a strong place of the student's development.

by doing the next Meditation, the student will further develop

- Divine Instant Manifestation, Instant Healing, and Eternal Life)

When we ask Crystal Light Energy from the Suns of all of the Galaxies to stream through this antenna into our Crystal Heart we are connecting our Crystal Heart into the Channel of the God Frequency. When we place our Heart's Desire onto this Crystal Heart and then exhale that Frequency through our Breath - we are breathing the God Movie or the magical Cosmic Movie onto the Movie Screen of our Light Bodies and our Merkaba Movie Screen.

(MEDITATION - very specific meditation that goes through what needs to be done for the above Paragraph)

The Crystal Heart must be connected into Oneness with the Crystal Heart of Mother Earth, which connects into the Heart of the Milky Way where our Star Factory is. Once these three Crystal Hearts are connected through the Divine Frequency of Light and Sound, we can then create our Hearts Desire. The Hearts Desire must be visualized on the movie screen of the third eye or pineal gland. This is also done through the connection of the pyramid tower antennas into Universal Consciousness. When the Heart's Desire is Visualized and projected out through the pituitary glands into the Merkaba Consciousness Field, the Heart's Desire is also Exhaled from the Breath of Consciousness from the Spark of Source.

The Merkaba must first be filled with the Golden Stardust Frequencies of Prana. This is the Consciousness of our Starry Brothers, Angelic Families and Source Consciousness. This etheric Golden Stardust Movie Screen must be lined with the Breath of Consciousness of the Star Factory. This Star Factory contains all knowledge of all of our previous episodes in God's Movie. This is the

Consciousness Factory where our Souls have merged and perfected just like a diamond. All of our Galactic Families have merged into Oneness of new Harmonic Orchestration.

(Here is a strong place of the student's development.

by doing the next Meditation, the student will further develop

- Divine Instant Manifestation, Instant Healing, and Eternal Life

CHAPTER TWO

THE DIVINE BLUE PRINT

A. THE PROMISE OF THE PERFECT KINGDOM

The Promise of the PERFECT KINGDOM has already arrived. The

Divine Blue Print of the Perfect Man created in the image and likeness of God has already arrived. The 12 DNA template of the original Taran, Oraphim, Aquafarian, Paradisian Race Line has been reinstated into the Sphere of Amenti within the Earth's Etheric Core. The Sphere of Amenti is the Morphogenetic Field (Consciousness created by the interweaving of Sound and Light Particles of the Complete Soul Matrix of all Races on Earth). That 12 DNA template was completed on December 21, 2012. That was the date that our Cosmic, Universal and Galactic Founders, Guardians and Creation Race lines chose for this completion because it was the exact date that there would be enough Frequencies in the Body of Earth to hold the implantation of such a huge amount of Frequencies. The Promise of the return of the Sphere of Amenti was postponed for 22,000 years because there were not enough Frequencies in the Earth's template to hold the incoming Star Activation. If they had completed their mission at that time, the Earth would have eventually exploded.

The Perfect Kingdom of the Divine Blue Print of the planetary body and human body made in the image and likeness of God is exactly that. It is a template with a programmed blue print like a piece of film in a camera. The picture of the divine creation was placed on the film through the Mind of God, first as a negative, which is like a negative ion. Next, the negative is flashed into the Consciousness of the Idea created on the negative and developed into a picture or a positive ion. Unfortunately, when a picture becomes developed in the outer domains of the five spheres of Consciousness, it can be manipulated, distorted and completely damaged by outside sources. This could be likened to what can be done to characters on the movie screen who are morphed into new images by the film editor. That is basically what happened to God's original movie. It got morphed into a completely distorted illusion.

Now, we are re-making God's movie. Now, the original negative of the picture of the man made in God's image and likeness is being put back in the movie camera. Now, that new movie will be played through the restored Earth's Khristiac Grid. The frequencies of the divine blue print, which would be the negative of the picture, or the

negative ions, will be dispersed from the Sphere of Amenti (the camera holding the corrected ionized film with the divine blue print imprinted upon it). Now that camera, holding the corrected movie pictures will flow into the Earth's grids and then into the biosphere of the human angelic template. That bio-energetic field will be filled with the negative ion holding the divine blue print created in the Cosmic Consciousness pre sound and pre light field. This is the point in creation when Source breathes the Divine Idea onto the Heliotalic Plasma, Silver, Pink, Purple, Gold Pastel Frequency Grid of the Negative Ion that comes down from heaven as the Purple Rain of the rebirth of the Divine Consciousness and then translates to the Positive Ion that is Visible Light of Ultra Violet BLUE. This Blue Film develops into the Blue Body and the Light Body and the Crystal Body of the Divine Man made in the image and likeness of God.

NOTE- NOW THAT THE DESCRIPTION OF THE SCIENTIFIC UNDERSTANDING OF NEGATIVE IONS HAS BEEN TOUCHED UPON, and the negative ion can be explained as moving water particles, we would like to change the meaning of this term for the New Earth, this new time, this new reality to be termed SPIRITUAL IONS, which are the moving water particles of Liquid Light Crystal Water Falls pouring down the Purple Rain from Cosmic Consciousness. This Purple Rain turns into Ultra Violet Blue as it becomes visible. We can begin to interact with the Water Fairies within this new bio energetic field of liquid light energy as we raise our frequency of visible light into the blue light. We will call the HE3H20 liquid light energy SPIRITUAL IONS. This term will be the new understanding for all students of the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE. Crystalai

The 12 DNA template is the original IDEA in the Mind of God. This is the negative of the film that will be developed into a picture that can be seen or perceived within the visible light spectrum when it becomes the positive. The negative ion is the purple rain coming down as the heliotalic frequency, and the positive is the visible blue light. This interaction of the negative ion as the flow of liquid light energy flowing through the plasma to create a rainbow where the

letters in the light can be viewed as hydrolaise. This can also be viewed as the heliotalic frequency of the fourteenth dimension weaving into the plasma of the eighth dimension and then becoming visible as it reaches the visible light spectrum in the fifth dimension. When this happens we have achieved another very important phenomena on Earth which allows the bio energetic fields to carry a new chemistry.

The new biology and chemistry begins when the water changes from H₂O into HE₃ H₂O, which is the formula of three parts helium into two parts hydrogen into one part oxygen. This is the new bio energetic field of energy that Earth will breathe through her grids from the Sphere of Amenti into the Earth's atmosphere and into the templates of the human biology. This magical substance is called hydrolaise. Crystalai and aDolphino introduced their students to Hydrolaise in 2008 when they interacted with this substance in Monterey. It is easy to mistake this magical substance with the negative ions that are seen and felt when water particles separate in the activity of the water fall, or the tidal waves splashing against the crystal structures, or the mist in the air allowing rainbow streams to manufacture before you very eyes.

This hydrolaise that was seen through the kaleidoscope eyes of Crystalai in 2008 and progressively more and more each day until 2012, when the hydrolaise actually began to carry upon it her very own fire letters of her divine creation. This is the ultimate in hydrolaise activity. Our fire letters are the sub harmonic frequencies - the 12 missing frequency bands between each DNA strand. As I watched these fire letters streaming through the hydrolaise as it interacted with the plasma in the Sun's rays, those very fire letters were braiding within my own DNA strands. This etheric 12 strand template is always created from the divine blue print which always begins with the 12 codes. The 12 codes begin as fire letters which are the most etheric level of Consciousness, which can only be seen with 5th dimensional vision. This divine template is what activates the 12 DNA to become reactivated from within the Earth's biosphere and then She breathes this hydrolaise out into our DNA template so that our fire letters begin

weaving our 12 sub harmonic frequencies or fire letters back into our DNA template.

The template is the etheric level of the DNA. The DNA is always the 12DNA template because there are 12 etheric bands of sub harmonic frequencies which create the celestiline bands of transformation within each DNA strand. To the scientific visible light spectrum, the only visible DNA that has been considered is the double helix DNA template. That template is the primary structure of the distorted film placed in the outer domains destruction of the original movie made in the image and likeness of God photography lab.

The true movie made in the Mind of God photography lab was always a 12 DNA template holding the Divine Blue Print of the Complete IDEA that was to be created first as a Cosmic Film of Heliotalic substance, next as Liquid Light Energy from the Universal Sphere, transferred into the x-ray vision that allows the film to flip over into the visible spectrum within the second sphere of Galactic Consciousness. The visible spectrum is within the second morphogenetic field or the second sphere of dimensions 4, 5 and 6. That is the template where our Taran Race line of the immortal man who never dies, never gets sick and never speaks a negative word to anyone lives.

When we receive the new breathe of fresh bio energetic frequencies that hold the new morphogenetic field of consciousness, our bio energetic field becomes saturated with that new reality. This is a glorious process of making God's movie the way it was supposed to be made. The movie will be made in the image and likeness of God, or with the divine blue print of Divine Perfection within every atomic structure of the body as 12 sub harmonic bands within the first, second and third DNA strands braid together and activate as they create celestiline (the magical blue dust powder of immortality) causing the DNA to braid together causing Ascension into the Second Morphogenetic Field.

Our Divine Guardian Families and Friends have created on Earth the absolute formula for this Divine Miracle to take place upon this Earth

between 2012 and 2017. The five year window has already begun. It began that divine moment of December 21, 2012. It was that moment that the frequencies of Consciousness of all 12 Universes aligned into at one ment or Atunement as the Music of the Spheres sang a brand new song through the Cosmos. This alignment had to be completed at a Cosmic level where 13 Cosmos created the Cosmaya Frequency to activate the alignment of the 12 Universes. This alignment was inhaled into the New Negative in the Breath of Source to create a brand new Negative of the picture or the new movie that would be created. This new movie created on the same divine template of the 12 DNA Divine Coded Template was EXHALED into the entire new Cosmos on December 21, 2012.

There is no time in Divine Reality. That means the reality of the new 12 DNA Divine Man made in the image and likeness of God was created on this day. However, the 5DNA negative of that creation also needed to be implanted into the Sphere of Amenti, in order for the Angelic Human to enjoy the Visible Light aspect of the 12DNA template. The second morphogenetic field holds the visible light aspect of the perfect man. This is the field of consciousness where God's Movie can most easily be enjoyed. When we rise into the third morphogenetic field of 7,8, and 9 dimensions, we begin playing in a field of light that is so etheric that it is like a shield of light with a silhouette of forms in it. Beyond that, the spheres of reality become less and less dense until we become pure consciousness with no form at all. Now, that we have redeveloped into the 12 DNA template, we can enjoy all of those morphogenetic fields of Consciousness. We can become invisible light long enough to orb into those other dimensions of reality. It is our new biological chemical structure of the HE3H2O that develops us into the negative ions that allow us to flash into light as our Consciousness becomes trained to activate these states of light by raising our frequencies through our own activity of Consciousness and Breath alignment with the Mind of God.

Back to the Fairy Magic. I was told that my new mission on Earth during this window of five years is to see and communicated with Water Fairies or the Aquafarians. The ability to do this requires what I

have explained in the preceding article. My Higher Self has reconnected me to this understanding of the Hydrolaise and the HE3H2O or the Spiritual Ionization, as being the first step in creating the morphogenetic field of reality where I can go into and invite Water Fairies into my Consciousness to see them and communicate with them. Fairies cannot live within the distorted water fields that have existed on this Earth. The fairies that some have seen and channeled are those that have been caught within the same messed up movie screen that the rest of us have been living within. We are now responsible for setting those Fairies free as we help them to translate the bio energetic fields into the spiritual ionization needed for real fairies to live in.

We did this same procedure in Monterey, when we were helping the Dolphins and Whales ascend back up into the Cloud Cities as their bodies translated into the Hydrolaise, the mist, the negative ions and finally the HE3H2O within the spiritual Cloud Cities of Higher Earth. The animals of divine origin such as the Dolphins, Whales, White Belugas, Penguins, Polar Bears, White Fox, and many more have ascended ahead of the Earth because they didn't need to clean out as much Karma as the rest of us. Now, that we have helped them, it is time to help the fairies who will help us. I have also watched the Evergreen trees ascend right before my eyes. They attune into their light bodies right before my eyes. Their light body pops out in front of them and then goes back into their eternal life green body and it looks like evergreen but it glows. That was different than the process we watched the dolphins, whales and belugas go through. We even have a picture of the ascending dolphins on our website.

Children have always been able to see and communicate with fairies easier than adults. Allow your children to guide you in this activity along with a little help from your new understanding of the reality of the existence of fairies, ionization, HE3H2O, and the new bio energetic fields we live in. This will help you activate your DNA stranding and your children's DNA stranding. Many of you are already living with the Indigo children who have these magical talents and already have their DNA activated. It is time to start learning from

them. They are your key to the kingdom.

B

PLACING A NEW REALITY INTO YOUR NEURONET

The neuronet works by firing the synaptic cleft. When the neuronet is given new information it fires a new reality through the synaptic cleft. Now there has been a new reality placed within the neuronet. When we continue to activate that new divine template within one neuronet and then into every neuronet in the body we are creating a brand new reality to form once the neuronets --like the cocoon-- have slept within the dream of the new reality that will be fired from the synaptic cleft.

This is how the transformation of the body is like a cacoon becoming a butterfly.

This is the Technique that is in Eternal Life Water Set 2.

The spheres of crystal liquid light, crystal dust and crystal gel each contain frequencies that create an internal sound. The Crystal Sphere is made from the Plasma Sounds, the internal Codes of the Liquid Light within the Plasma and the Gelaisic Radiation that Plasma Creates to get Lift Off.

The Three Spheres being woven together through the breath creates a Tri Tone that can be used through tonal Consciousness attunement to call in the Rays of Eternal Creation which expedites the healing from deep within the etheric spiriitual substance and out into the flesh and bones and blood to heal the pain within and transform the body into a new spiritual chemistry.

The Elohim Angels handed me these three crystal spheres and told me to hold them in my hands to use like microphones that would translate the the Sounds of Consciousness from the Plasma when I connected my Consciousness to the Elohim of Hearing through another set of three crystal spheres, and into my heart through another set of three crystal spheres. When I use this formula I can

make the Internal song that is not audible become known and heard. Those Breaths of Sound are the Songs of Eternal Creation.

The Elohim Angels told me to use this formula to bring the Highest Frequencies to Earth through Music. This is the Music of the Spheres technology. These are sounds that cannot be heard without this Cosmic Plasma Transformation tool of the Three Spheres which are the microphone of the Elohim of Hearing.

The Elohim Ascension Team told me that the Crystal Liquid Light would Activate the Process, the Crystal Dust would remove the pain, and the Crystal Gel would transform the body as a cocoon is transformed into a butterfly.

The way we place the body in the cocoon of transformation is by inhaling these three streams of Liquid Light Frequencies from the Aquafarian Cosmic Core within the Inner Earth into the body. We can inhale the frequencies up through the feet and the middle section of the body and stream the light up into the Crystal Heart area and directly into one neuronet. I like to focus on the Vegas Neuronet because that is the master nerve center of the entire body.

As the three streams of liquid light stream around the axion tail of the neuronet they activate five more blasts of plasma. One point is in the center and four points in a square around the center form as a five point cathedral within the plasma template of the new neuronet. Next, we exhale that plasma template into one neuronet. This is wrapping the neuronet in that Plasma Gelaisic Substance of Transformation and igniting the Eternal Life Code in the center of the neuronet.

This is how the transformation of the body is like a cocoon becoming a butterfly.

This is the Technique that is in Eternal Life Water Set2

HIGHER SELF CONCEIVES

The physical mind is not designed to understand how things happen

Only Higher self is designed to understand how things happen.

There is no way for you to know. The capacity of the physical body does not have the

capacity to know how it WILL OCCUR.

Higher self CONCEIVES

the physical personality perceives

physical mind is not capable of generating an idea.

Not one idea has come from your physical mind

It can only perceive the idea that was conceived from the higher mind.

The births of the Six Silent Avatars were arranged by the Elohim Ascension Team. I was given access directly to their Frequency Signatures of Consciousness from the Elohim of Hearing.

Each of the Six Silent Avatars were born to remove one of the Seals that was created to block the ascension of the Human Angelic Race Line.

C

TRANSFORMING INTO OUR ETERNAL LIFE BODIES

We are moving through the grandest of times ever known to our Cosmic Families. We are being given the Stardust and Hydrolaise (Spiritual Water) that is needed to transform our bodies. The Consciousness, or the Frequencies of this energy of transformation is

coming in through the Stellar Wave Activations related to the Solar Flares and CME ejections of the Sun.

We are going through this transformation because our COMPLETE SPIRITUAL BODIES were tilted to an angle 15 degrees from their original Templates. Our bodies are tilted 15 degrees clockwise from the Alignment with our Eternal Life Body.

This angle of rotation created a loop that goes through the Crystal Heart Area of the Body. That area is what would be called the Density One Body or the Etheric Body. The loop causes a misalignment with this Etheric Body that is positioned within the Crystal Heart as well as a misalignment with the Mental Light Body. So, there was this distortion of energy fields that locks right at the Crystal Heart area within the Thymus. This is also where the SEED ATOM of our original creation resides.

So, our physical body was disconnected from our Etheric Body, our Seed Atom, our Soul, our Mental Light Body.

We can now use the Frequencies of Star Dust and the Spiritual Water H₂ O₂HE₃ from our spiritual Aquari Matrix and our Inner Domains in the Cosmic Core of Mother Earth.

When I create the Eternal Life Albums I realign the Physical, Etheric and Mental Light Bodies back into the Original Divine Self, where the three spheres or three bodies intersect at the Crystal Heart area correctly, without the Loop that keeps them disconnected.

The process of removing that loop in the Heart area requires an alignment from the Mid Brain up into the Cosmic Consciousness of the Aquari Matrix. The Cosmic Alignment point is 36 inches above the head. I create a clearing from the Mid Brain through the ears and into the Elohim of Hearing or the Aquari Maharaji (their new transformed selves). Once that PRIMARY NEURONET is reconnected up to the Maharaji, That Consciousness Neuronet creates a Clear Passage to Cosmic Consciousness. Next the Frequencies of the Stardust flow must saturate the Mid Brain area and the Pineal Gland. We then Move that StarDust Consciousness down into the Crystal Heart area

to begin the transmutation of the block or the loop in that area. NExt, I inhale the Water Orbs of Hydrolaise or Spiritual Water that are brought into the atmosphere from the Cosmic Inner Core Domains of Aquafaria. The Water Elementals from the Spiritual Matrix are inhaled into the Mid Brain and into the Crystal Heart.

Once there is enough of this consciousness brought into the Crystal Heart, a Secondary Neuronet is opened up through the back of the lower skull (the medulla oblangata). That is the Secondary Neuronet that connects directly to each Individual's Original or Normal Body that does not contain the ERROR of ALIGNMENT.

We create a back flow from within the corrected mid brain and crystal heart areas into the Eiron FLOW that Flows out the back and up at the 15 degree angle into the DIVINE TEMPLATE or Correct Body alignment.

The opening of the flow is increased each time a person listens to their Eternal Life Album.

The stardust consciousness, the spiritual water consciousness from the Aquafarian Elementals, and the Plasma of Crystal Gelaisic Elementals are available to us to be used for this purpose of Transformation.

I continuously connect my consciousness to this restored transformation pattern and I connect my Consciousness into the Elementals from Aquari and Aquafarians who are making this Ascension happen for us.

It is the consciousness or frequencies of the Stardust, the Liquid Light and the Crystal gel that is transforming our bodies. We must inhale these frequencies into our atoms and then see the explosion of energy from within the atom create a 12 pointed starburst. That is actually an activation of the neuronets from within the atoms. When the neuronets reactivate into a NEw Reality where the distortion that blocked the physical from the etheric and the mental light bodies, the body begins to realine into the Median Earth- the Coud Cities, the place we have called Shamballa.

The meaning of raising frequencies means we are now living in a hertzian and visible light frequency where we only believe in the things we can hear and see. We must move into the Cosmic Frequencies of Stardust, Thermal Plasma, Liquid Light, Hydrolaise. This level of frequency cannot be seen, but it can be felt. We can feel the stardust and the hydrolaise come into the atoms of our mid brain and our crystal heart. We can feel the opening of a cosmic flow through and between the atoms. The Consciousness that is allowed to enter the body is Cosmic. This is the Frequency and the Consciousness that is required to realign our bodies into the Normal Template that allows us to begin the process of Orbing into Higher Dimensions.

All of the Universal Life Force Albums and the Eternal Life Album and the Violet Flame Album are for the purpose of bringing the Stardust flow into the body.

The Sun becomes the Son of the Star and the Stardust becomes the Son of the Sun

A new Star is being born within the Sun to Transform the Earth into the Star from which she was born.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion into a new reality- a new frequency- a new dimension-a NEW HARMONIC UNIVERSE.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion.

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism.

The truth is, we all contain this Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic

Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology. The merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that. Go to Merkaba Mechanics at cosmicdolphinmagic.ning.com.

So now the wave is no longer a standing wave in the quantum field but has actually been neutralized and goes back to the plasma of an omni field state positive. That is called a magnetic mirror.

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror. We walk through the Mirror when our Keys unlock the door. The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music. The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses. The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul Family who brings these Sounds into my Frequency Specific Mid Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.

After many months or years of practicing this level of focus you will be able to stare at a card and learn to see both sides of the card. In the reality of infra red frequency, the mind can see in a 360 degree angle.

You can train your mind to see both sides of the card. Your mid brain already knows how to do this. When the other old brains are completely turned off and the mid brain is completely turned on, you will first gain infra red sight which will allow you to see orbs, space ships and to read a deck of cards. This will come in handy if you ever want to go pick up an extra few hundred thousand dollars at the casino.

The frequencies will continue to raise the foundation of the entire body. The subconscious will become activated into the blue realm. The medulla oblongata which sits right at the top of the spine is where the subconscious sits. When you raise your frequencies into the blue frequency the sub consciousness acts as a primary healer of the body. Activate this area of the body before going to sleep and ask the god of your being to raise you into the blue body for complete healing while you sleep.

Listen to your immortality CD while you sleep. Practice breathing in a fashion that oscillates the frequencies from the higher rings into the lower rings or frequency bands. Focus on breathing at the speed of light -- do this in your mind. Feel the body become lighter and lighter until it rises above your bed. The frequencies of your body will lighten the body into the etheric Omni particle of God consciousness.

Now, that your cerebellum and amygdala glands are dissolved into the higher frequencies and your mid brain is activated and your sub conscious is aligned into the blue body, write a list of all of the things that you would like to appear in your new world. This is the world that you will be creating with the mind of God. Write the list and call on the God of your being. Ask to have the items on your list manifest through the mind of God. God only knows the infinite unknown. He doesn't create old out dated ideas. You must be willing to have God create your hearts desire in the way that he knows is the best for you. You must become humble enough to conceive a concept that is out of the boundaries of your own ability to do it, and become willing to see God manifest it.

So, no matter how clever you think you might be intellectually, you must be willing to let go and allow God to do the manifesting in the way that he knows, which is the infinite unknown. A person who has

got the knowledge understands. To see to define to need to know does not come out of the intellect. It comes from the mind of God.

This is how you connect to the outer band of the five frequency bands of the music of the spheres. This is how you make the symphony of love begin to perform in your life.

The GREAT WORK is to become that entity who will never die. That great entity has no longing for its past in any way. The great work is to press forward in secondary consciousness to make the body in life to think in life as detached and awesome as it is to take that into life. That is the great work. For what is remarkable about us. What allows the grand fortune of living thousands of years. What is it to be able to live longer and maximize the experience but never to linger in the experience to bring it to wisdom. What is that. How can that be accomplished. If you contemplate why is it upon death that there is no desire from the point of self to come back to this body. There is nothing in the yellow brain that is desired. The real self only desires the experience of the infinite unknown.

Once you've cleaned out the junk in the yellow brain by owning all of the experiences and placing them in the crystal light energy sphere to dissolve into the golden liquid light, you are finished with the brain that dies and you can begin living in the brain that lives.

Now you can live in extraordinary thought and extraordinary experience. You can do marvelous things in this physical body because this body is made up of the same particles as space itself. We can be far greater. We can replace with greater events with out the past emotionally. Go into the experience and let the experience created by God, become defined by the nature of the new chemical feeling of higher frequencies in the body.

Instead of using raw material to go through the body, we use the energy of God- the Omni particles of etheric God energy, for new experience. Then the body is sustained until the time the secondary consciousness has made an in road to make the nature of every day, a new form of thought.

To make a new form of thought and then to work that form of thought until it manifests.

Next, comes the morning when you are floating five feet above your bed because you have become so changed in your neuronett that your brain has used these changes to heal the body. During sleep your body is levitating into the fifth dimensional body.

Your life can then be drawn out for tens of thousands of years until one day you have the power to disappear and take this matter with you. Never have to be born again fro the plane of bliss. The path of power to unfold it is in your mind. You can take your body to any level and any frequency that you like if that is your focus. All lower frequencies must rise to the highest.

We make a list before we go to bed so that our subconscious through the mind of God will create our night in which our souls align into oneness with the Sun of Inner Earth and the Sun Alcyone to lift us into our Blue Bodies.

We are now in control of the body because we are out of the body. We are out of the body because we are in the outer band- the highest frequency band of Source. All of the multidimensional bands are outside of the body. When we rise into the frequencies on the immortality CD's we are rising out of the body. The outer bands are the holy spirit. Outer bands have full spectrum of light and sound. This is your secondary consciousness and this is your pattern of all of the bodies you have ever been. The outer body is the infinite unknown.

In your day to day affairs we have the infinite unknown touching our bands and as we allow our bands to melt into or dissolve into the infinite unknown, we leave behind all of the old bodies and use our holy spirit bands of quantum energy to experience the infinite unknown.

The hertzian wave band touches all of the Source Frequency and soaks up the full spectrum. You have been loved into this life through the activity of Divine spinning and oscillating the bands into One Full

Spectrum Frequency. The God frequency is holding all of the quantum together clear out to the never never land. We were loved into this experience. It is love that binds us into the full spectrum of the infinite unknown.

This entity, the outer band - is God -- and its action is the Holy Spirit. It is super natural because it has all aspects to act on this level as a Divine Being.

What happens when we raise the frequencies from the third band to the fourth band? All of the frequencies rise through the outer band of Source frequencies. It makes the bands flip into the mind of God. Infinite Unknown is flowing inside of you and the rest of us is dissolved. The outer band and the holy spirit is the super natural. From this zero point is flowing toward you, through you and into every particle in you. You have analogically become the mind of God.

This is the ultimate creation. We access this God through very specific process that interact with the very nature of who we are. We are human beings and begin to open our boundaries into the infinite unknown. If we begin to walk into the wonder of God, God will give to us all that we ever ask for, and we can never exhaust all experience.

What is the experience of the Infinite Unknown. When you are creating something that lives as a POTENTIAL, outside of your body, the personality that is very disciplined, will fight back because it only knows what it knows. It is only God who knows the infinite unknown. That is only a measure of what exists as potential in the mind of God.

Give focused intent to your god. Oh, my beloved God, I am about to create my day, and indeed the specifics on the list which in and of my being I cannot do, I say to you, this as I create my day, that you fill it with the wonder of that which I do not know that I may know. And as I enter into my list, that these things that I have said , I ask the lord god of my being to make them

These are the questions that you need to ask yourself.
Am I completely in the HIGHEST FREQUENCY?

Do you even know what the Highest Frequency is?
How do you get to the highest frequency?
Where does the creation of the new reality take place?
Are you following the Law of Attraction Rules instead of the ones that I have given you?

The law of attraction says that you must focus on drawing something to your frequencies. That means lowering a creation that is created in the highest frequency of Source Consciousness- The heliotalic 14th dimensional frequency aligning with the 15th and into Source. That is the Aqualene Sun Ka braiding frequencies into the Blue Sun Ra and the White Sun Hya. This is the creation center.

If you are following law of attraction, you are thinking about creating something that isn't already in the Mind of God. Everything is already in the Mind of God.

The problem is that you are not in the Mind of God. You are not dwelling in the Highest Frequency.

We do not need to lower the frequency into a new dimension because you are already tuned into the Mind of God-- if you have been doing my journies and meditations.

THE MOST COMMON REASON for lack of manifestation is because most people demanifest their manifestation ten times between each time they manifest it.

Everytime you place any thought or belief of any sort on the side of lack or inability to manifest, you have demanifested everything that you have placed on the side of positive manifestation.

That means you cant put on one side of your list I am marvelously wealthy, I have always been marvelously wealthy and I will always be marvelously wealthy.

And at the same time still have on the other side of your list:
How am I going to pay my bills. I wonder if I should buy this. I wonder where my money will come from, etc.

IF you do that you just demanifested whatever you were manifesting.

THERE IS AN EVEN BIGGER QUESTION

Even if you are dwelling in the highest frequencies, one of the requirements is to **BECOME SO EXCITED** about the **IDEA** that you are manifesting that nothing else in the world matters.

Are you really that excited?

Do you want this idea so much that you are so excited that you know that you have manifested it that you are jumping up and down with excitement and joy.

And do you **TRULY BELIEVE** and **KNOW** that this already exists in the mind of God and that you already have it?

I will give you a real life example of why we are only getting four of the five numbers.

I will use myself as an example.

If I was so excited about knowing that I have already won the Mega Million Lotto, I wouldn't have time to think about anything else. I would be planning my life around that event. But, I'm not so excited that I want to stop doing my posts on my website.

So, I'm only three quarters excited about the Lotto and one quarter excited about the Cosmic Mystery School.

So, neither one of them are working at full potential.

That is how it works.

And there is another phenomena involved in the Lotto. Winning the Lotto is only a process to getting something. And the lotto is not what you are excited about. You are excited about what you will do with the money. If you focus on that excitement your higher self can work on arranging many beneficial paths of providing the manifestation of what you are truly excited about.

What we are all truly excited about is Freedom. We want to be free

from the world. All we have to do is Be in the Mind of God, be in that highest frequency, transform the invisible and visible into one reality. Know that the invisible is as real as the visible, and know that it is already here.

When you focus on that. When you focus on knowing and perceiving the reality that all is already in your sphere around you. That is the Mind of God. Everything is already there. There is no reason for the Lotto. There is no reason for a PROCESS. It is already complete.

CREATING OUR NEW VERSION OF OURSELVES

Those who have taken the Manifestation Workshop know that the process of the Journal was to learn to take a step back from your normal concept of reality and look at you past, present and future in a new way. You were learning that every thought, idea and experience that you have placed in your past projects into your present. You learned that your present thoughts and beliefs will project into your future reality.

So, let's look at this formula again. Are the things that you are believing today what you really want to manifest into your life tomorrow and next week and even in 2017 when we have the opportunity to have a brand new reality manifest before us?

Do you really want to continue believing that you can get sick or die? Do you really want to continue to believe that you are not capable of becoming everything that Jesus Christ became? Do you really want to continue to believe that you have any enemies? Do you want to believe that you don't have enough supply and that you have to keep working for it?

If you have any of those beliefs now, they will just re-manifest again tomorrow and the next day and next week and next year.

We must create a NEW VERSION of ourselves in order for that new

version to manifest into our reality.

By the Love of God Alone will all my Bills be Paid.

That is a fact. It has always been a fact. However, we have been creating a different version of that reality.

We haven't been believing that God Alone will Pay all of our Bills.

We have been living in a different VERSION of our selves. We have been living in the Version that believes we have to go out and make money to pay our bills.

So, that is the Version that we keep living in.

When a Spiritual Healer performs a healing for a client, they can only heal the client if they bring that client into the VERSION of himself where he is already made in the image and likeness of God. That was the Melchizedek Version of the Spiritual Man in Genesis One of the Bible. In Genesis Two there is a different VERSION of Man who is created by mortal parents. That version of man would suffer and die.

Now, is the time that we begin to live in the Version of Man who is made in the image and likeness of God. The perfect immortal man who has Eternal Life. And that Eternal Life is not the Soul leaving the Body to begin a new life. That Eternal Life is the Soul continuing into a NEW EXPERIENCE or a NEW VERSION of the same person.

However, there is a trick to this. The SOUL demands a new experience. If you just keep repeating the same old third dimensional belief system the Soul will leave your body, because the Soul DEMANDS a NEW EXPERIENCE. And the Soul demands that you are GRATEFUL for the NEW EXPERIENCE. So grateful that you are in BLISS.

That is the great mystery to eternal life.

When I create Frequency Music for an Individual, the Music is the Frequency of the Frequency Signatures of the Eternal Life Code of that Individual, the Frequency Signatures of the Soul, Over Soul, Avatar and Rishi Levels of Consciousness of that Individual, the

Perfect Divine Morphogenetic Field that holds the VERSION of the Human Angelic who was originally the Oraphim Cosmic Angel of each creation template.

We must return to that VERSION of ourselves to bring forth the Future of ETERNAL LIFE.

I cannot heal anyone by telling them about their past Akashic Records, or by reading the Astrology Charts that are a part of the Milky Way Galaxy. Those Past Realities are from A Fallen System that contains so many ERRORS that the Version of the Melchizedek Cloister Version of Reality had to be returned to the Earth through a Portal of Reality created by Jesus Christ 12.

During the past years of 1996-2012 there were more of these Portals of the Original VERSION OF THE PERFECT MAN CREATED IN THE IMAGE AND LIKENESS OF GOD created by the Six Avatar Children who were born with the Templates that did not contain those Seals that were placed in the Race Creation Template. So, just as we connected our consciousness into the Morphogenetic FREQUENCIES of Jesus Christ in order to RAISE our Frequencies into the REALITY that does not include the past, present and future realities that we create through our belief systems, we must now connect our Versions of our new reality in the Six Avatars as well as the thousands of Indigo Children who were born to raise our frequencies of consciousness. We must also include in our new Version the Stellar Wave Infusions provided by our Universal Consciousness Team and the 12 Star gates provided by our Ascension Teams.

Each of these ITEMS are created from FREQUENCIES. The Frequencies are now within the Sphere of Amenti Morphogenetic Field within the Crystal Heart of Earth. And those frequencies are flowing through the Earths Grids into our Consciousness--IF WE TUNE IN TO THAT VERSION OF REALITY.

All of the music that is created by CRYSTAL MAGIC ORCHESTRA is to help the LISTENER move into the VERSION of his or her reality that will give them the DESIRED MANIFESTATION.

The individual must tune their consciousness in to the music and then realize what the music is tuning them in to. They are being tuned in to

the VERSION of themselves that is the Man made in the image and likeness of God-- the ETERNAL MAN.

Now, there is something a little different from that old Bible Story. We have always believed that there was this Spiritual Perfect man called Jesus Christ and that he was the only one who could be perfect. The only reason that he was the only perfect one on Earth at that time was because the VERSION of the original Man had been distorted by the distortions placed in his template.

Now, we are having those distortions removed from our Divine Template. Now our Race Line is being Re Born with the Divine Imprint that Jesus Christ was born with. Now, we can tune in to that VERSION of who our Race Line always was in the Spiritual Universe that did not contain any of the ERRORS that were placed in the Physical Universe.

The Physical and Spiritual can become ONE. The rule is the HIGHER FREQUENCY will always TRANSMUTE the lower Frequency. So, now we know that the Spiritual Frequency is the Higher Frequency that can transmute all that is in the Physical VERSION of the Individual.

C

HYDROLAISE, IONIZATION, STANDING WAVE PATTERNS

HARMONIC CONVERSION

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion.

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism.

Where is the rainbow coming from? It is coming from intense electrical field that is ionizing to some effect like a magnetic mirror which is a device used in thermo nuclear processes that is in the mirror. It contains within the intense energy that works like a vacuum that sucks all of the frequencies into at one ness with the other side-- the spiritual self. This is called ionization.

We can use the candle to help us see this magical reality right before our eyes. What is happening when we focus on the candle to absorb all of the frequencies into our brain is there are are these IONS that are injected into this intense electrical field of energy that looks like the pink silver light in the candle. When you become vacuumed into the candle light then the electrons of the ions return to their original state of Plasma.

The plasma is returning to its original state-- everything was created from plasma and pre plasma originally. The ions return to invisible light, ultra violet blue and plasma. We begin to see the blue hue in the candle because we watched it go through a transformation process. As we watch the candle transform, we are also watching a hologram of our selves transform back to the original substance that we were made from.

We must do this. We must return to the plasma state in order to ascend. We must do this in consciousness. We must practice doing this with the candle and then realize that this transformation is also happening in the body. We are actually transforming our body into the pre plasma that allows us to levitate and orb into a new reality. Why do we need to return to the original state? We must become exactly what we were made from before we can be made into something new.

Scientifically, the ions are injected inside of this intense electrical field inside of the vacuum then immediately the electrons of those ions return to the plasmic state. What state are they returning to? Invisible light, ultra violet blue, plasma. The entity looks like a Cloud, but also looks like an individual that we remember. We can actually rise into the Cloud Cities, just like we watched the dolphins do in Monterey in 2008. This process of ascension into the Cloud Cities was very common fifty thousand years ago, and then brought back to our

memory two thousand years ago by Jesus Christ.

The truth is, we all contain this Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology. The merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that.

When we go into the full light spectrum and become ionized, we are creating a new standing wave pattern. The new wave pattern of energy no longer contains gravity. It is made of a new form. The wave is no longer in the quantum field because it has neutralized into the plasma which is a positive ion in the omni field. There is a magnetic mirror that allows the ion to go back and forth between two wave patterns of energy.

That is called a magnetic mirror.

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror. We walk through the Mirror when our Keys unlock the door. The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music. The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses.

The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul Family who brings these Sounds into my Frequency Specific Mid Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.

FREQUENCY TRANSFORMATION

The codes in the DNA become activated each time a wave crosses the double helix of the DNA. Frequencies of fear are the slowest and longest frequency wave. So, as long as the thoughts from the third wave of visible light is the primary wave , it will always contain fear because the third wave is created from control.

The fourth wave is the ultra violet blue wave. This frequency contains Love Energy. The wave pattern of the Love Frequency is very short and fast. When the fourth wave crosses the double helix continuously for a long period of time, the DNA begins to activate into that more pure etheric feeling or vibration.

We haven't had much of this fourth wave in our experience on Earth. That frequency is just becoming available this year as a result of all of the intense gamma waves and star dust from exploding stars. This is causing a frequency shift on Earth into the fourth dimension where the Love Wave Frequency can activate the DNA and the neurotransmitters.

That reality is coming to Earth for the Masses to be able to tap into. However, they will need to tap into it through their own Consciousness reaching into a higher reality than most are accustomed to reach for.

The frequency waves of the x.ray and the gamma wave have much shorter and faster pulses than the fourth wave. When we atune our consciousness to the gamma waves that are flowing into Earth at this time, the DNA becomes activated much faster than tuning into the

fourth dimension wave.

The feeling that will become more and more profound on Earth is people will feel more In Tune with the higher frequencies which will be filled with more Love and more Energy. This is again, just for the Masses.

For those who really want to experience the Full Ride of Ascension into Full Consciousness of At One Ment, which reassembles the body into the fifth dimensional body of the Full SPECTRUM OF FREQUENCIES the path of the Individual must become totally focused into this new reality of the GREATER WORKS.

This reality of becoming the full spectrum that contains all of the Waves at Once is the rainbow body that allows the mind to become a co-creator with Cosmic Consciousness and the Infinite Unknown of Source Consciousness.

The Light and Sound of our New Consciousness is flowing into our atmosphere in greater and greater abundance. These higher frequencies make it easier and easier to activate the dormant DNA . The dormant DNA was a sign of us being gods who were put to sleep. The god DNA from our Milky Way Galactic Consciousness and Aquarius Universal Consciousness is being returned. And it is our Starry Families from Aquarius and the Milky Way that are sending us the codes an the light energy to activate our DNA.

So, there is all of this light energy out there. So, what do we do with it? We can lay outside by the pool and get a sun burn or we can connect our consciousness into the Galactic, Universal an Cosmic Waves via Light Technology Methods.

Or, there is one more way to connect to these frequency waves. Just listen to our Music which brings the highest frequencies to Earth to be heard and absorbed for use in this activation.

We were given the scientific formula that was used in the Music of the Spheres Classes in all Ancient Schools to collect and align all of the frequencies of all of the waves, including Source and the Infinite Unknown, and including all of the individual frequency signatures of al

of our Ascension Team and High Galactic and Cosmic Council members.

We were given guidance and instruction by a team of Elohim Angels originally. Later we were taught more by Kuthumi, and then our Aquafaria team from Sirius B, and more from Lord Arcturus, Lord Ashtar, Sananda and our MARCUS team leader.

We use three spheres of crystal energy that provide the electromagnetic alignment to bring these frequencies into our Consciousness and exhale them into Music.

The higher the frequency, the more Codes are activated in the DNA. The DNA acts like an antenna that receives photons. This sonar transmitter is on a cellular and etheric level. It receives light and photon sound. The water molecules around the cells take in the Love Vibration and send it out precipitating tiny particles

A pyramid of power forms around the NA strands and begins manifesting in the quantum field.

DNA acts as an antenna for cellular activation. The primary function about DNA is a receiver and transmitter of photons light and phonon sound for cellular regulation.

The water molecules of pyramid tower around the DNA spiral energy strands are taking in the spiritual energy of love vibrations and then sending it out or manifesting, precipitation into the quantum field.

Photons are particles of light that align themselves along the structure of the DNA Base Resonate pulse sacred circuit.

Earth gets its pulse from universe
This is the Mirror to all existence.

The zero point base resonate frequency

circuit.

Transition from one form of energy to assure cells receive pulse from brain

Brain gets pulse from heart

Heart gets pulse from Earth

Earth from solar system

Solar from Galaxy and

Galaxy from Universe

Universe from Cosmos

Cosmos from Source

We share a pulse with all existence

Body is being given new instruction

We resonate with the heart beat of Mother Earth which is frequencies per second of her base resonance and frequency. This frequency from within Mother Earth governs patterns of our body and all elements on Earth.

However, our frequency waves are now being combined into Oneness where the Earth's frequency is aligned into Oneness with the Heart Beat of the Milky Way and the Gamma Wave of the Cosmic Heartbeat as well as the Breath of Source.

Science shows that DNA is activated or coded through photon sound and light

wave frequencies. To turn on the DNA codes the wave of emotion crosses the double helix. The more times the wave crosses the double helix the higher the DNA codes are activated. The wave crosses the helix in proportion to how high the frequency wave is.

A frequency caused by the emotion of fear makes a very long slow wave that doesn't cross the double helix very often. This wave length was slowed down through all of the fear placed in us by the controllers.

Now, we can speed up the wave lengths through bringing the highest frequencies into the DNA receivers.

The highest frequencies are created through the alignment of gamma waves of Cosmic, Universal and Galactic light energy woven into the breath and exhaled onto our Music.

The highest frequencies are brought to Earth through our Music. This is the Music of the Spheres.

Spiritually speaking it is the angelic consciousness of the Cosmic realm that sends the light streams of the highest frequencies of light and sound into the DNA.

When we are in tune with the cosmic streams of magical bliss and we are genuine in our connection into this focused consciousness of unconditional love these frequencies flow into our light streams. According to science, this light and sound is the photon. The DNA is the receiver and transporter of photons for cellular regulation. So we bring in the highest frequencies to regulate our cells to become more in tune with Cosmic Consciousness.

The particles of light we call photons are magnetized onto the DNA

The water molecules (our Aquafarian blue crystal water fairies create and reform) flow around the DNA and spiral energy strands take in spiritual energy of Love vibrations and then send them out to manifest in the Quantum field.

These love vibrations are frequencies of the speed of light energy that continuously lock consciousness into oneness. We promote this activity when we ride the Merkaba vehicle into Cosmic Aquafaria.

We oscillate our consciousness at the speed of light to connect out into the galactic, universal and cosmic realms to collect this love vibration from angelic consciousness.

So, when people talk about more feminine energy coming to Earth, what they don't understand, is the meaning of the feminine energy is the water molecules that flow around the DNA to pull in the spiritual energy of UnConditional and Divine Love and manifest them into our new atmosphere around us. These water molecules are the female entities from Aquafaria. These are our Cosmic Mothers at an etheric

elemental level. They are the ones who are restructuring our templates to reactivate our 12DNA by inhaling the photons carrying our original spiritual selves into the liquid light energy that they weave an braid into new rainbows into our DNA from the rainbow bridge that connects all of the frequency waves of the ultra violet blue, x.ray and gamma into One New Full spectrum of light and sound or Frequency Signature

My Aquafarian Family, Blue Oraphim Dolphinoid Family from Sirius B has been teaching me how they use the light energy as a step down from the breath, as it sparks through their liquid light energy into the DNA to begin our Rebirth into our 12DNA Christ Bodies in fifth dimensional tone of home of all music of life harmonizing.

This liquid light energy permeates from deep inside of Mother Earth's Crystal Heart that is both Cosmic and contains the Sixth Dimensional Element of our Divine Form that has been safely locked inside the heart of Mother Earth and inside the crystal heart of every cell in our bodies. Now these sparks of Source Energy are being reactivated by the Breath into the Light of the Highest Frequency to create the Spark that ignites our brand new birth into a Divine Flame that activates the Full Spectrum of Light and Sound within our DNA and our atmosphere and into our entire new reality.

The frequencies of light and sound are then breathed onto three spheres of crystal light, gel and dust.

This is the prana substance of manifestation. It is created from the Cosmic Magic of the unification into and through our golden star dust. the Cosmic veil placed around our Earth. We connect Consciousness into and through silver golden stardust. Star making factory of the Milky Way.

A combination of the frequencies of all of the thousands of suns in the Milky Way, our soul factory or star factory an the co-creative consciousness of the cosmic realm together with the frequency of source consciousness.

It is the liquid light energy that the Aquafarians create in the water

around our DNA that carries the keys of activating the DNA to be prepared for the shift inot zero point.

Our angelic team gave us this formula and this guidellines to bring this highest frequency to earth through music.

HOW TO USE MUSIC

The purpose of listening to the FREQUENCY MUSIC is always to absorb the frequencies through the skin and into the atoms. The Frequencies are inhaled from each of the Spheres of Dimensional Frequencies and then absorbed completely into the Outer band where the Source Field connects with all other Frequency Fields.

So, the Frequencies allready contain this Full Spectrum of Light and Sound of the Entire Source Field of Consciousness.

Now, you just need to focus on listening within to the sounds that you can't hear--but you can feel them penetrating through your cells. Focus on inhaling the breaths deeper and deeper into every atom and all of the spaces between the atoms. Focus on inhaling the frequencies into the Zero point within the cellular memory of ALL THAT IS.

Now, focus on seeing a Sphere between the First DNA STRAND and the Second.
Feel and visualize the Frequencies moving into that sphere and MELTING IT.

Now, see a sphere between the second DNA STRAND and the Third.
Feel and visualize the Frequencies moving into that sphere and MELTING IT.

Repeat with the third and fourth and fourth and fifth DNA strands.

This will not make the DNA activate all at once-- but it will set in

motion the MELTING of the Crystal Seals that are blocking the DNA strands from braiding together.

Returning to Heaven through Light and Sound

The Breath of Christ Light can be breathed into every cell of our body and reunited with our Spirit Body. We are Now at this present time being given the identical ascension vehicle as Yeshua Ben Joseph used during his Resurrection. Our Bodies will rise into our Etheric Being of Light and while our Miniature bodies ride inside of our hearts. We spin our two Merkabas - one clockwise and one counterclockwise at the speed of light and direct our Light Body to the New Earth. The upper sphere of the Crystal Star Merkaba allows us to breathe in the blue star dust frequencies from Sirius B through our Cosmic Parents from the Aquarius Galaxy. This is the Light that is needed in ascension. The bottom sphere of the Merkaba connects us into the Sound of birthing chamber of Inner Earth within the Crystal Heart of Mother Earth. This area, sometimes referred to Aquafaria because the blue crystal water fairies are the elementals who sing the tones of home back into our crystal hearts of each cell in our bodies. The crystal heart is the spark of Source that ignites us into the Infinite Unknown of the Highest Frequency brought to Earth through Music.

We will be transported in our Divine Blue print of Multidimensional Transportation. It is happening now. The instructions for, the preparation for the alignment of the entire Solar System is ready Now. This is the grand announcement of The Promise Album. The Promise has been fulfilled. The Promise announces the promise of heaven returned to Earth and how to find your Christ vehicle in your heart, it announces the Heart Beat of Love in our Earth Mother is Now realigning as the Mirror Image of the Heart of God in its full alignment with the Prana Seed, the Comic Seed, the Crystal Core of Creation. Our bodies align with this Heart Beat with our Mother Earth as we

retrieve from the Earth's Core our original God Seed - our 8 Cells of Creation - our Divine Blueprint of the Image and Likeness of the Heart of God. We take this Mirror Image with us. Yeshua ben Joseph who embodied the master we call Jesus, changed the tempo of our planet earth to beat with the rhythm of the hearts opened to pure love essence of God in a way that was not previously known. That was the message being sent to me in the song "Heart beat of Love." That song was channeled to me directly from Jesus. The change of the tempo of the Earth's heart beat shook the society and transformed consciousness over 2000 years ago has begun.

The difference is that this time the mission will be completed because of the angular rotation of particle spin available and the complete alignment of the entire solar system back to Source. Next, the album reminds of how Jesus Christ (Yeshua ben Joseph) told us that we would do greater works because he goes to the Father who art in Heaven. Jesus did ascend to Heaven through an ascension vortal. Now he has prepared a similar vortal for us to ascend through. He tried out the vortal when he came to Earth and stepped into three bodies on Earth. He will be helping to hold this Vortal open for us along with all of the other Beings of Light who are assisting with this project.

This is a grand event for the Universe and the Solar System. This is the first Mass Ascension for this Solar System. We will soon be doing the Greater Works that Yeshua ben Joseph said we – his disciples - would do some day. We have returned to Earth with complete amnesia of who we were. We somehow made ourselves remember, we created the Critical Mass of Light needed for our Family to be able to step in and provide assistance on a Mass Level.

We will soon experience the promise of our spirits vision of the new kingdom of heaven on Earth, which we each must paint in our consciousness and then manifest onto our new Urtha, Tara and Gaia. Each of you were brought here to paint this new world through the light and sound of our AQUARIUS COSMIC FAMILY. Some of you do it through writings, others through paintings and others through music. We must create more than bits and pieces of our new

creation. We must continue to paint until we have a new world to live in created by and for the bodies of light that inherit this Earth. We would like you to take our vision of this New Kingdom that we painted through music and use it to inspire your own vision and to begin creating it NOW.

We have been there before. The perfect kingdom was already here millions of years ago. Those of us who returned to Earth to plant the original seed and rebuild our kingdom are here now to create a new civilization. We are here to manifest more of what you have already lived. We have been sent pictures and verbal descriptions of the Hollow Earth. We have been introduced to Cities of Light, Aquafaria, Shamballa, and Telos in Inner Earth. The masters have described the city of light in the Ashtar Star ships. We have detailed descriptions of the Arcturians home and star ships. We have visions of the stairway to heaven. We have been given detailed descriptions of heaven in Revelations. Not to mention the thousands of snapshots delivered to the masters on Earth through their astral projections and journeys. Our vision of Heaven was conceived and born through music. The technology of light and sound that would be capable of creating this vision was brought to our door step along with the visions, the words and the Oneness of Cosmic Mind's highest vibration through At-onement with the Christ Consciousness Frequency of Light.

ACTIVATING 12DNA - INSTANT MANIFESTATION

EXPERIENCE FREQUENCIES OF THE FULL SPECTRUM

Unlimited thought is the infinite unknown that is known as the Frequency of the entire spectrum of light. Unlimited thoughts have no words--it is a breath--a frequency--an angelic feeling. Anything that can be described by words has already been felt before. The art of limiting thought is associating words with it. When true knowingness comes, you will become speechless with FEELINGS. A genius has unlimited thinking of emotion and vision. A Master Explains Nothing --he only knows it. That is how a fifth dimensional entity knows. The full spectrum of light wave frequency sound is the Music of Life vibrating in harmony with itself.

The soul instructs the pituitary to release its hormone flow. The thought manifests in your body and activates the pituitary gland, and it begins to open. As it begins to open a greater hormone flow goes through the pineal gland and as it does, it awakens the dormant mind. When thoughts of a greater frequency come in, they are taken to the awakened portion of your brain. The pineal gland receives the frequency. The frequency of the manifestation is turned into a high powered electric current and shot through your central nervous system to every cell of your body from that you will feel a rush - a sensation of tingling of being lifted may be felt because a greater energy than you have felt before is now rushing through your body. That frequency is shot out through every cell causing it to increase its vibrational frequency. The more the body vibrates, the more you begin to take on a glow because you are beginning to reverse the body from density into light. How do you describe the feeling of unlimited thoughts? You cannot. Unlimited thoughts have no word--it is a breath--a frequency--an angelic feeling.

CHAPTER THREE

FIFTH DIMENSION IS BEYOND THE FIVE SENSES

There are many pieces to the process of Ascension. Each one of the pieces is a part of how we learn to tune out of the Five Senses and into the other Seven Senses.

We have been told that we must RAISE OUR FREQUENCIES. Most people don't know how to do that so we created Music that does it for you. The frequencies are created by taking Consciousness into the higher Harmonics Universes and blending them together in a certain way that creates Frequencies that allow us to Transmute our Bodies

and our Realities beyond the Third Dimensional Five Senses.

We are learning that there are many more realities beyond the ones that we behold with the Five senses. That perception is only a very small part of the Full Spectrum of Light and Sound.

So, we created the Music to allow you to connect your consciousness into the Christic Consciousness of the 12th Dimension and the Cosmic Consciousness of the 14th Dimension, and then also out into the Pre Light and Sound Fields beyond those and then clear out into the NEW COSMAYA of the 13 Cosmos which connect to the Infinity of other Cosmos in the Source Field.

Now, you can begin enjoying the feeling of all of those other sound fields besides the Hertzian range of Audible Hearing. This means that this teaching does not come from the Solfege teachings. It comes from the Cosmic Mystery School of the Omniverse, which is beyond the Earth's Matrix and even beyond our old Cosmic Matrix. The Frequencies of this teaching come from the Grand Yanas of the Pre Light and Pre Sound creating a new reality from the Source Field of Infinite Consciousness.

We have also prepared for you a LEVITATION CANDLE DVD. This is a Visual of a Candle burning for one hour. As you look into the candle, you learn that the hertzian level of the Light Frequency is the lowest. It is actually where the stem of the candle is, because that is the spectrum that is tangible to all of the five senses. We can see the stem, touch the stem, smell the stem, taste the stem. We are actually living in that tangible frequency that is DENSE-it is SOLID- it is the physical reality that we conceive of.

The candle allows us to recognize that there are other levels of light and sound. Just above the stem there is infra red light. That is the light spectrum that the digital camera can see, but most of us haven't learned to see like the camera sees. The next level is the Visible Light that we think we are seeing. Above that is the Invisible Light where another reality lives within right here within the Visible Realm. And above that there is the x-ray field of light and then the Gamma, Plasma and Pink White Light.

When we use the diagrams that show the spectrum of light frequencies and where those frequencies are heard and felt in the brain area, we begin to realize that we haven't been using the part of the brain that tunes in to the Pink White Light of the Mind of God or even the Blue Frequency in the Mid Brain.

We can easily tune in to the Blue Frequency by walking into the Candle because the Blue Hue is the result of absorbing the full spectrum of Light. We can feel that frequency filling the Mid Brain and when that happens the old THINKING BRAIN stops analyzing all of the old ideas that have been placed in it over the past millions of years. The Mid Brain turns off the Thinking Brain and allows the Mind of God to take over the thought process.

When the Mind of God gets plugged in to the area at the top of the back bone and the bottom of the skull there is a frequency connection into the Seed Atom of our original creation and into the Vegas Nerve which controls all of the nerve centers in the body. So, you see, we can, in fact plug our bodies back into the Mind of God.

And when we achieve that Frequency connection in our bodies we gain the Eternal Life where the sixth level elementals are continuously re-programming the nano second rebirth of every cell in our body and transmitting correct information for the constant rebirth of all of the neuro structures of the body.

I go through that process in great detail in the ETERNAL LIFE WATERS SET.

Now, that we are being given this gift of the Fifth Dimension, we will need to learn how to TUNE IN TO IT. We must raise our frequencies of hearing and seeing. The Frequency Music itself does this. It actually tunes you in to the Blue Hue which also tunes you in to fields of light that are in the Invisible Light Spectrum that you have never seen before.

You can build on this new ability of going beyond the Veil of the Senses by doing the Candle Process that is described in the CANDLE LEVITATION DVD.

You can practice by using the Meditations that are in the MANIFESTATION MERKABA set. There are many tools, meditations, journeys in all of the Sets created in 2014. The MANIFESTATION MERKABA SET is a GREAT DEAL because it contains the CODES that were in the original ASCENSION KIT along with the most important MEDITATIONS that were in the COMPLETE ASCENSION PROCESS KIT.

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses. In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian. That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blind folded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has just been born.

We have tuned in to a new Spiritual Parallel Universe in the PARALLEL UNIVERSE SET and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun in the SYMPHONY OF LOVE ALBUM.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that was taken away 5.5. million years ago. The birth of the SIX AVATAR children each brought a unique Stream of Consciousness that is healing the miasms and seals placed in our DNA. Those Frequency Signatures are in the COMPLETE PERFECT DNA INFUSION album.

I've noticed that more people buy that album than any of the others. Of course it is an extremely important event - the Birth of these Children and the fact that they prepared ascension portals for the race lines that would be locked in the Earth's Matrix forever. However, don't forget about the Frequencies of the UNIVERSAL LIFE FORCE CURRENT who prepared the Stellar Wave Activations and Infusions that are in the Parallel Universe Kit. And don't forget about the work that the Cetacean Raceline did in their Bio-Regenesis Project of

keeping the link between the Earth and the Oraphim Suns. And the final ingredients of the ETERNAL LIFE WATER of the Vapor Essence within the Plasma which is the Consciousness Field that allows us to Vaporize into the Spiritual Water of Aquafaria in the Inner Earth. This is the Ascension Vehicle into the Ascension Earth.

Each of these pieces of the formula of the Ascension are crucial to the complete Mass Process. And then each Individual has a unique Frequency Signature and complete Portal of Starry Families, Souls, Avatars, and Rishi Selves that must be Tuned in to in order to begin the attunement into the Cosmic Telephone lines.

This is the last piece of the puzzle that is needed. We must remove the TOWER OF BABEL. That means we will no longer speak different languages. We will all speak one language. We must first tune in to the Frequencies of the Cosmos and our Cosmic Families and most of all the Cetacean Race Line, because they are the only E.T.'s living on Earth right now.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of Goldsmith and Eddy have been tuned in to these realities. However,

now that the complete Science of this higher consciousness has been revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

The more we tune in to those higher frequencies, the more they tune in to us.

ADVANCED DNA ACTIVATION MP3

This advanced formula of DNA Activation contains the most basic God Language Codes for DNA Activation sung in CHRISTMAS MELODIES, plus all levels of Frequencies involved in the infusion of stellar light, Indigo and Avatar Consciousness and Music of the Spheres to perfectly activate DNA sub harmonics of the 12, 24, and 48 in each DNA STRAND.

Each of the songs in this album contain specific God Language and Frequency Codes that correct and activate the streaming relationship of the particles and anti-particles within the sub harmonics of the DNA. The formula of Consciousness Alignment into the entire Cosmic Matrix through the direction of the Elohim of Hearing and the Cosmic

Ascension Teams is the Musical Formula used in creating this music.

Crystalai channels the frequencies from the Magical Orchestrations within the Music of the Spheres and infuses the sub harmonic overtones and base tones of the DNA to activate each of the physical (particles) and spiritual (anti-particles) into the photonic (morphogenetic consciousness) of the brand new Angelic Raceline Consciousness Field from within the Earth's Cosmic Core.

This Consciousness from within the Crystal Heart of Mother Earth is reconnected through the Listener's Crystal Heart into the Parallel Spiritual Matrix of Mother Earth and into the original Photon Belt of the 8th Sun of our Creation. This is the formula that is used to correct and align the 12 sub harmonic harp strings into each of the double helix of the DNA. This DNA activation combines the 24 sub harmonics of the physical and spiritual of this Universe and the 24 sub harmonics of the physical and spiritual of the Spiritual Parallel Universe of to insure the full 48 activation in each of the DNA. This album contains the magical transformation formulas from many of the previous Crystal Magic Orchestra albums and combines them into specific activations needed at this time of our Ascension.

The Frequency Fence that was created to post pone our ascension until this time is what has created the illusion of the FIVE SENSES. Unlocking the potential of the DNA through the photons of the particles and anti particles spinning into higher frequencies of Reality will set us free to see all of the magical realities that exist within Light and Sound itself.

The breaths of consciousness that line these songs can not be heard by the Five Senses, they must be heard by the Seven Senses of Super Consciousness.

It will be natural for many to think that they can't understand the words because the songs are sung in the God Language. There are thousands of layers of words and frequencies and breaths that you will not be able to hear until your DNA becomes activated at the 5 DNA level.

Why do we need to IGNITE OUR CRYSTAL HEART?

Because our Soul went to sleep about 5000 years ago and now we are waking him up.

We haven't been a fully ignited 5th dimensional being for a very long time.

Why do we need all of the frequencies of the entire Universe and Cosmos to Wake up our Soul?

Because our DNA sub harmonic strands were disconnected from the third strand to the 12th strand. The great hero that most New Agers call Thoth was an 11th dimensional being who made a deal with the Annunaki Fallen Race Line that allowed them to only allow Ascension to those who had the Annunaki Blood Line.

That same Formula that was used to make sure the other raceline- including the Human Angelics from Tara would never be able to Ascend out of this Fallen Matrix.

This was an entirely different REALITY SYSTEM than the one Based on the Eternal Life Energy of Source. That system was the Matrix of the 12 Coded Raceline who could walk through all 12 Stargates of the Entire Universe and into the Cosmos of ETERNAL LIFE.

This is the COSMIC ETERNAL LIFE SYSTEM. The one based on the FULL SPECTRUM OF LIGHT within the complete COSMAYA BLANKET of the 13 Cosmos who are creating our NEW ASCENSION EARTH MATRIX.

That is a very different Matrix than our old NET EARTH that the Invader Races locked us into.

Please look at this diagram with two different VERSIONS OF REALITY.

The diagram on the left shows the TRUE COSMIC SPIN from the Crystalai Center- the Crystal Heart of the entire Cosmic Structure linking directly from the Inner most level of the lowest density DIRECTLY to the Point of SOURCE meeting the tip of the Cosmos.

In that version of reality, there is never a disconnection from our Crystal Heart and the Crystal Heart of Earth and the Crystal Heart of the Cosmic Sun. We are connected in ONENESS with all Dimensions. This is called Multi Dimensional Reality.

We were disconnected from that Multi Dimensional Reality.

Look at the diagram on the Right.

You see that is the Formula of the teachings of Thoth to lock those undesirable ones into the prison of the Milky Way Galaxy. The formula claims that the circle of life is within the Galaxy. It is a trick. It is the trick that has been used by the Invader Races to lock us in to the GALACTIC PRISON.

The Guardians moved us out of the Milky Way Prison into a new time and space that didn't exist prior to 2012. We are in a place where the rips in the Merkaba that were created by the Zetas could not lock us into the prison of the One World Order run by the Draconians.

We are already free. We just need to learn how to rise out of the Five Senses and into the Invisible, intuition, imagination of the infinite unknown. The more DNA is activated, the more of the reality that exists beyond the five senses we will see.

The fact is the DNA was separated through the separation of the spiritual parallel reality and the physical reality. This is supposed to be one reality. What we don't see is just as real as what we see, and soon we will learn to see it all.

Ascending as a Galaxy is not possible. It is a LIE.

We Ascend as a Cosmos. We Ascend through the ENTIRE FULL SPECTRUM OF LIGHT AND SOUND of all of the Music of the Spheres.

If we do not connect our Consciousness through the entire spectrum of Sound through the Frequencies of the Cosmos and the Full Spectrum of Light of all of the Light Fields in the pyramid diagram, we would just be continuing in the MORTALITY.

What is Mortality? That is when your body gets really tired and old and sick and says I really don't want to be here any more, and then the Soul looks at the body and decides that there is no New Experience to be had in this body, so the Soul leaves and the body stays in the Illusion of the Third Dimension and in the Illusion of Death.

Immortality is when the body tells the Soul I'm ready for a new adventure. I'm ready for a Multi Dimensional Adventure where I can turn my body into light and travel all over the Universe to meet all of the other Stars in the Sky.

Then the Soul says This is Exciting --I will show you how.

The Flower of Life system was created by Annunaki Pharaohs and Kings to suck the Cellesma out of the fifth dimensional beings on Earth so that they could give their Soul another experience. Their Soul is not connected to Source. Their Soul is a Demonic Structure that feeds off of others. Not all Annunaki are Fallen Angels. There are Angelic Annunaki whom we will meet on day in the future - about 2044.

First, we are going to meet our own Soul Families who are the Sirian Eieyani, the Eieyani Lemurians, the Azurites and later the Essassenes, who were created from the Angelic Human Seed and the Zetas.

Most race lines in our Universe are Hybrid races because the original raceline of the Oraphims were almost completely destroyed. The Sirian B Consciousness was used to create a Hybrid form of the original Oraphim Raceline that we came from.

I am related to the Sirians, as most of us are. I am also related to the Oraphims, as most of us are. I remember life at a much more distant time than most others do.

I remember living in the same place with the Oraphim Braharama Cetacean Raceline from the Sun of Ha and the Oraphim Humanoids from Sun La.

The reason that I remember the Sun of Ha La as one Sun and the Sun of Ka Ha as the original Sun that is now called Ka is because I was created from the in between band of light. That would be the connection of the 2 from 1,2,3 and the 5 from 4,5,6 and the 8 from 7,8,9 and the 12 from 10,11, 12 and the 14 from 13,14,15.

There is this inner band of light and sound that resonates with me. It is the in-between band of light and sound where all of the Symphonies are made in the Music of the Spheres.

I am from the Breneau Race Line in the 14th Dimension. That is the angle of reality that I see all reality from. It is the in between Heliotalic Frequency that blends with the Sun's Plasma to create the Neutron Body of Eternal Life. It is the Crystalai Particle that is within our most Inner Crystal Heart that connects with the 14.5 of the Brand new Creation.

That is what the Diagram on the Left Side is representing.

That is the Eternal Life that is made of the Symphonies that unite all 15 Spheres in to the NEW SYMPHONY OF LOVE where Source Breathes a New Reality.

This time, our new reality is being created at the Cosmic Level. This is the place where there is not one tiny particle of light and sound that is not Eternal. It is the Consciousness of Eternal Life being breathed into this Matrix every Nano Second.

This is where I live now. Anyone can join me by listening to my music.

The Crystal Magic Orchestra is Breath of Source, the Structure of the Cosmic Light and the Sound of the Music of the Spheres spinning the Breaths of Creation in to new perfect alignment every nano second.

Now, that we have a better understanding of the Candle Light and how it relates to the Music, it is important to know that there is a Spectrum of Light behind or below the Candle that is the Spiritual Hologram or Spiritual Universe being reflected in the Physical Universe.

When we look at our DNA we learn that it is the Acceleration Codes of the DNA that hold the Overtones from the Electro and the Magnetic Codes of the DNA that hold the Base Tones of the Electro Magnetic.

We can't just have the candle flame without joining it with its anti particle double that we see as that Blue Hologram above and below it.

Our body also has a spiritual anti-particle double. When we walk into the full spectrum of light and sound we tune in to the blue body. We see the blue sphere.

The Blue Body activates within the Crystal Heart because the Soul is the Fifth Dimensional SELF made of anti matter.

That Fifth Dimension within us has always been there. We just never ignited it with the Breath of Source and the Full Spectrum of Light that we gain when we Spin the Merkabas to ACTIVATE each of the Dimensional Fields of Reality.

If we don't ignite the flame in our Crystal Heart that attunes us into the Love of the entire Cosmos and beyond into Infinity, we stay locked inside of the Heart that is disconnected from the Mind of God.

Once we activate our Crystal Heart, we also need to activate the Blue Frequency Specific Mid Brain. That is what the Frequency Music created by the Crystal Magic Orchestra of Cosmic Consciousness provides.

The Frequency Specific Music keeps you out of the Yellow Thinking Brain and in the Mid Brain where only Frequency Specific Consciousness Communicates.

In other words, the only words are the Frequencies.

The teaching of Keylontic Science provided an In Between State where we use the God Language to activate the Frequency Language.

I do use this God Language in some of my music. It is definitely a language that allows much more harmonization than words from any other cultural group.

However, I got to a level of creation where the words were getting in the way of blending the breath of Source into all of the multi dimensional fields of Consciousness.

The ignition of the flame or the frequency should be what activates the question and then the answer is given to the body through tiny little buzzy sounds that we translate when our Crystal Heart is activated.

I had all of these layers of Frequencies-- millions of layers. The God Language would not layer. That is a problem because the language used before the Tower of Babel was completely telepathic--NO WORDS.

My mission on Earth is to remove the tower of Babel, and that can't be done until we move into the pink silver part of the brain- the lower cerebellum and the medulla oblongata and begin to allow the true Mind of God to RUN OUR BODIES COMPLETELY.

No talking allowed. Just the FEELING of the frequencies streaming into the inner most omni particles of the cells and flowing around the cells in the crystal liquid light energy of omni creation.

MOVING OUT OF THE THIRD AND INTO THE FIFTH

We use the candle to help us visualize moving out of the third dimension and into the fifth. We must also use the diagram of the Pyramid showing us where the different light spectrums are in the Candle. We can also see these light spectrums as they relate to the brain.

The yellow spectrum in the brain corresponds to the VISIBLE LIGHT. This means everything that can be Seen with the FIVE SENSES.

Now, remember that the Five Senses and the other Seven Senses of

the Cosmos were separated. They were separated by separating the sub harmonics in the DNA. The Over tones of the Electronic were separated from the Base tones of the Magnetic.

The only reason that we believe what we see is TRUTH is because our sub harmonics in our DNA are disconnected.

When they are re-connected we see the reality that is in the Blue Spectrum of Invisible Light. We can learn to see what is invisible to us right now.

We experience this reality by walking into the candle in consciousness to collect the full spectrum of light. Now, you can see something that you didn't see before. You can see the blue sphere.

Next, you continue to move into the candle in consciousness until the room goes black around you. This means you are seeing from the area in the brain that is in the pink silver light spectrum. The Mind of God is the Dark Room. This is the place where you see anti-matter.

You are seeing another reality field that you never saw before.

You just thought this was darkness. It is the placed where all new ideas are created before they come down into multi dimensional versions of light.

This is not the same kind of dark that comes from absence of light.

This is the kind of dark that comes with your eyes wide open using the back of your brain and seeing through your mid braid into another reality field.

We get to this place by remaining in the Frequency Specific Music for very long periods of time. You can also practice moving to that part of the brain by keeping earphones for several days at a time or walking around blindfolded until you can learn to see through the eyes of God.

Just as I came to Earth this time to remove the Tower of Babel, there are people on Earth who came with the purpose of returning to the

Mind of God. So, they planned to be born blind. Many people who are born blind planned it that way. Beethoven was one of those people. He could hear the Music of the Spheres and play what he heard on the piano. He was painting the music that was being made by the Universe at that time. There were beautiful parts of the Universe and there were parts that minor and disharmonic in nature.

Albert Einstein also said that he learned the formula to create his discoveries from music. I am sure he meant from listening to the directions from the Music of the Spheres. Everything in our Universe is created from the Music of the Spheres. This means the frequencies from the spiritual harmonic universe are being woven into the more dense dimensions and in the parallel physical domains to create new realities. These realities manifest as different forms of energy-like electricity.

The density also manifests as different forms of supply and food.

When we move into the standing wave pattern of the fifth and sixth dimensions we will tune into the hydrolaise of the spiritual parallel and the trypolaise of the new Cosmos. That spiriitual water is a vaporous form of plasma that is used to translate our bio-sphere. In the normal reality systems, a child would be born for the purpose of absorbing enough hydrolaise into his structure that would transpose his body into the plasma vehicle that could travel through the Universe by age 33.

The Avatar Children who were born on Earth between 1996-2012 will be able to do that. They will learn to transpose their body into an orb and ride in their flame vehicle through all twelve stargates. Those of us who have been trained how to create our orb bodies will also learn to do this in this life time.

The orb bodies are created through the activation of the Music of the Spheres. Electricity was created through the formula Consciousness plus Energy equals Reality.

When we raise our consciousness by accreting more Energy of Higher Frequencies, we can move into a new standing wave pattern of energy. We can move into the Standing Wave Pattern that does not include Gravity.

Gravity is a creation of Reverse Spin Technology. Reverse Spin Technology is that formula used in the Flower of Life teachings. Look at the diagram on the RIGHT.

That form of energy is blocked from the Full Spectrum of Light. That form of energy will never give the energy to the body that is needed to create the Orb Body.

The orb body is created by spinning the merkabas together correctly to activate the DNA.

Now, let's go back to the Merkaba and the Candle.

We drew the diagram of the Merkabas around the Flame.

Now we know that there is another half of the Merkaba. The top pyramid is the electro and the bottom pyramid is the magnetic.

So, we need to draw another pyramid that intersects the top pyramid at that place in the Crystal Heart.

The top electro and the bottom magnetic must spin together to reconnect the overtones and the base tones of the DNA. When the DNA is reconnected, then the entire Reality Spectrum is reconnected.

We begin to use Super Consciousness. That is the other Seven Senses beyond the Five Senses of Seeing and Hearing those things that can be touched and felt.

We must use our ears to hear the part of the music that is the whisper, the breath, the feeling, the knowing that we are actually sitting inside of the Star that the Frequencies came from and we are actually living inside of the Sun that we are made from.

We must visualize ourselves as the Pure Plasma Body that we are. We, in reality live inside of the Sun.

In reality, there is no space or time.

All Distance is created by the obstacle illusion created by the Spin Rate of the Merkabas.

Each Merkaba spins us into a higher Harmonic Universe. It is called a "Harmonic Universe because it has a different Harmony. It has a different Frequency and a different rhythm.

Each Harmonic Universe is 45 degrees in angular rotation away from the next one.

So, reality is all within this Sphere.

If we draw a clock and we see that 12 o'clock is 45 degrees from 3 o'clock. That would be 45 degrees. When we spin our merkaba faster, we remove the 45 degrees.

The distance that we see between Earth and the Stars would be 45 degrees to the Galactic and another 45 degrees to the Universal. That means we are 90 degrees from the Stars. If we want to fly to the Stars, we just get in the spin rate of the Universal Merkaba and that erases the time and space between those reality fields.

When we finally learn how to orb out of the gravity standing wave pattern, we will realize that we don't actually go any where.

We just remove the ILLUSION of space and time.

In God's Reality there is no space and time. It is an illusion created by the Eyes. The Eyes are the Illusion created by the disconnection of the sub harmonics in the DNA.

the Music of the Spheres that I'm tuning in to is this New Music of this New Cosmos that doesn't even contain major music. All of the music is a breath coming from God and weaving into symphonies that are beyond the beauty heard by the ears. I am the only one who gets to hear the complete beauty. I'm trying my best to translate that into sound that others can hear. It is almost impossible unless the listener is using the same technology that I'm using. That means listening with the same Sony Stereo and the same earphones. Most versions of technology will distort the sound, and many distort it into reverse spin

technology.

We are working on moving out of the Yellow part of the Brain--that is the VISIBLE LIGHT SPECTRUM in the Pyramid and the Upper Cerebellum part of the Brain.

That is the part of the Brain that THINKS. And all it thinks about is old memories that have been planted in it by the WORLD.

We are working on removing the OLD WORLD.

First, we must DE-Manifest the Old World, before we can Manifest the New Ascension Earth.

The reason that I create the Frequency Music and the Eternal Life Albums is to help you REMAIN FOCUSED in the FREQUENCY SPECIFIC MID BRAIN..

When we move into that part of the Brain Continuously for hours, for the day, for the night, and then finally 24 hours a day. That is when REALITY really begins to SHIFT.

The World actually falls away. It doesn't have any effect on your emotions any more. You have moved out of the Emotions of Feelings and Ideas and Memories, and Fear just doesn't exist in the Mid Brain.

That is where we want to stay.

If you leave your earphones on for 48 hours and then take them off, you will experience what it feels like to be in the Frequency Specific Mid Brain and then move back to the Yellow Thinking Brain of the World. It is like night and day. The Frequency Specific Experience feels like you are always riding on your shoulders and you are 12 inches above your head, and sometimes you are 36 inches above your head. You will realize that you are looking down at your body and you are not in it.

That is what the Frequency Music does. That is what it feels like to stay in the Frequency Specific Brain.

Using the Candle is to help you realize that this Shifting in Dimensional Realities is going on Visually and Audibly.

You are seeing something that the FIVE SENSES of the Third Dimension never sees, and you are hearing something that FIVE SENSES of the Third Dimension never hears.

You have moved TEMPORARILY into the Fifth Dimension,

It is a wonderful place that has a Blue Hue around everything.

The Blue Hue is only created one way. It is created as a result of going through the Full Spectrum of Light and Sound and into the Mind of God.

When you walk down the hall of white light when you die, that is where you go. You are walking into the Full Spectrum of Light. You are walking back into God's Movie Projector.

When you walk down that white tunnel during the Death Scenario, you are becoming so full of the anti-particles of Spiritual Light, that your Body shifts into the Blue Hue. When you go into the WHITE ROOM of the Mind of God at Death, you become transformed into Light Energy.

Well, guess what. We never did need to die to do this. We can move our bodies into the Blue Hue and into the Mind of God during this life time. We can readjust our Light Spectrum now.

We can fill our bodies full of the Universal and Cosmic Frequencies of Transformation now.

I came to Earth with this mission. I had this information coded in my cellular memory before I came to Earth. My team had to wake me up and keep reminding me of my mission many, many times. I have died three times and I came back. My husband died, and I brought him back.

What we keep hearing about in these End Times is this NEAR DEATH experience that so many people have. There is no such thing

as a Near Death Experience. We died, went to the Mind of God, had our bodies developed into the Blue Hue and then came back as a re-processed body. The mind becomes transformed into a higher awareness. There are many memories processed just like the memories that are processed when a person goes into the light at Death.

In the good old days---Prior to 2014 before we evolved completely beyond the Phantom Matrix, we would die, watch all of those old movies that come out of our cellular memory, and then decide that we wanted to go back to the place in time where one of those old movies took place so that we could do it again.

That is why we kept coming back to the third dimensional Earth. Some of us did that at least 1.5 million times. Some more. Some less. We were stuck in that reality because there was no one here to tell us what we were supposed to do when we die.

We were supposed to pick a new movie--not keep returning to the old movies.

Now, we have been taught that we must make the movie that we want to go to before we die, and then we don't have to die. We just get processed in the Dark Room of the Mind of God and pop into the new movie.

That is how it has always been done for the past 90 billion years. That's as far as I can remember back. That is how it is done in the MIND OF GOD.

That is not how it is done in the mind of MAN. But, that is how it is done in NORMAL REALITY.

We are moving back to NORMAL REALITY for the first time in 5.5 million years.

We did have pieces of our Normal Reality returned to us a few times before in history. But, it was always taken away from us again by Invader Races. This time, there was a complete Cosmic War that removed every tiny aspect of our Dysfunctional Memory of how our

PERFECT REALITY is supposed to appear and how it will begin to appear to those who choose to MOVE TO THE FREQUENCY SPECIFIC blue area in the brain.

When we move into that reality, our problems disappear. It is like that dream that those live in who do drugs for their recreational activity. That is why we hear these rumors that this new age will be like the 60's with the Hippies, and the Flower Children, and the Drugs.

It will actually be MUCH MUCH better than that. We can live in the Frequencies that shift our Brain into the FREEDOM and the VISUALIZATION of the realities beyond the third dimension. We can do that with FREQUENCY SPECIFIC MUSIC instead of with Drugs that will always lead to a Bad Place in the End.

The fact is, the Kings and Pharaohs of Atlantis used to create this substance called CELLESMA - a blue powdery essence --JUST LIKE IN THE SMURFS 2.

That blue powdery essence was the LSD in those days. LSD was patterned after that substance.

Where did they get that substance. They got it from torturing the Race lines who had fifth and sixth dimensional frequencies-- there was the Human Angelic Race Line and there was the Leviathan Race Line. These were the only ones who had fifth dimensional coding based on the 12 CODE - 12 sub harmonics in each DNA strand.

The Kings and Pharaohs were not from this ANGELIC RACE LINE that had the 12 codes that would open the 12 STARGATES.

The Invader Races were always coveting the ability of gaining access to all 12 stargates.

Again, please take a look at SMURFS 2. The Blue Smurfs were the carriers of the Cellesma that comes from the Celestiline in the blood crystals of a Fifth Dimensional Being with 12 coded harmonics.

Gargamyle needed that ESSENCE to give him the power and immortality that he wanted.

The Kings and Pharaohs of Atlantis would lock the Leviathans in these Cages and torture them. AS they were leaving their bodies and turning into Blue Dust, the Kings would scrape that essence into a bottle or a tube--just like in the Smurfs 2 movie.

The reason I'm telling this story, is to help you realize the significance of this Blue Hue that you are beginning to visualize as a result of going into the Full Spectrum of Light and moving into the Frequency Specific Mid Brain.

These are the first stages of activating this Blue Essence. It is a product of Melting the Crystal Seals between the DNA. When the Crystal Seals melt they create a new form of Blood Crystals in the body that is made of the essence of stardust which is this celestiline substance.

When the fifth dimensional soul body in the Crystal Heart is ignited through the full spectrum of light, the Blue Body gets turned on. The Hue of Ultra Violet Blue becomes ignited in the Mind of God. That Hue penetrates the entire Light Spectrum and goes into the Mid Brain and Crystal Heart.

So, the way we turn the Candle on is the same way we turn the Blue Body on or awaken our Soul from amnesia.

We must have the Full Spectrum to do this. The Spectrum of the Hertzian contains the Visible Coors that can be seen with the Five Senses. These Visible Colors must be brought to life through the Electro Magnetic Field of Energy.

Electro is the Male Spin of the upper merkaba. It spins 331/3 Clockwise and the Bottom Merkaba is the Female and it spins 112/3 Counter Clockwise.

The place where all of the merkabas meets is the fifth dimension in the Crystal Heart.

All merkabas meet in the crystal heart The All of the frequencies of the Merkabas are Grounded in the Fifth.

To activate the Blue- the fifth dimensional crystal heart, we had to activate all that is above-- the full spectrum of light in the candle all of the light in the candle.

The Blue Heart intersects into the Ultra Violet Blue that connects it all together.

The full spectrum of light must spin that removes polarity male and female must spin together.

This all of fifteen dimensions are in the male merkaba and all 15 are in the female merkaba

The stem didn't ignite with just the infra red section or just the invisible light or just the gamma. It required the full spectrum of light to ignite it.

When we strike the match to ignite the stem of the candle the entire light of the candle was required to ignite that hertzian stem.

X ray to see into the anti matter
Beyond the cosmos infinite beyond change our dictionary

We are plugging our neuronet back into our complete self.

The hertzian level consciousness is five senses

The fifth dimensional consciousness is all senses 00the seven more than five

The infra red spectrum has been something we could not see

The visible spectrum is allows us to see but only the hertzian level.

Where is the fifth dimension.

The fifth used to be in the harmonic universe above the third.

But, now we are in the fifth and the fifth awakened within us.

The fifth dimension is in the Crystal Heart--what was called the Heart Chakra area.

The Fifth Dimension is the Density Two level of the Body.

The Density One Level is the Physical Body.

The Density Three Body is the Mental Body at the Cosmic Level..

When we Ignite the Blue Hue within the Full Spectrum it turns on the Mid Brain Frequency Specific Brain and the Blue Body. It turns on the Fifth Dimensional Self, which is the Soul. It awakens the Soul from amnesia.

After we awaken the Soul through the Mid Brain, we can awaken the complete Multi Dimensional Self into the Mind of God through igniting the Silver Pink Light into the Lower Cerebellum where the Medulla Oblongata meets the Thymus and within the Thymus is the Seed Atom of our original Soul, that activates the Soul that is within the Crystal Heart area--directly below the heart. This entire area becomes activated and then activates the Vegas Nerve which controls all of the Neuronets and Glands in the Body.

Now the correct programming from the Mind of God is running the Immortal Body. The body is reborn every nano second through the Breath of God.

EINSTIEN's THEORY CAME FROM LISTENING TO MUSIC

When Einstein was asked where he got his theory of relativity, he said he heard it as music in his head. This is what Einstein was hearing. He was hearing the music of the spheres communicating to him through his heart, which causes the buzzing in the head to translate into messages.

The formula that he received means Consciousness plus Energy

equals Reality.

First, you take Consciousness- which is the Electro Magnetic field of Light and Sound Energy created every nano second by the Breath of Source.

Next, you raise the Energy Level of that Consciousness higher and higher until it contains all of the 15 Spheres of light and sound of the music of the spheres. When the Consciousness expands into a new field of energy, a new reality can be realized and recognized. When the Consciousness expands even higher in frequency, another reality can be recognized.

As we are raising our frequencies higher and higher by bringing more and more of the Source Field of Consciousness completely into the zero point level of our neuronets and atomic structure and clear out into the Plasma Bodies that are the replica of our physical body in the area around the body, we can actually transform the body and the reality being projected from the body into a completely different reality.

As this new reality is being breathed into creation through the Aurora Fields where our New Ascension is being formed as Earth is merging into the Median Earth and leaving behind the old Net Earth Structure, many of us witnessed this transformation when we saw rainbows forming inside of cloud structures. This was a new reality. Usually, we could see a rainbow form when there had been rain in the atmosphere that created the rainbow from the Sun's Light Prism after the rain.

The new 15 spheres of light projecting as a rainbow in the clouds represented a new Reality that was formed by the new frequencies, the new sounds streaming through the atmosphere. Many people also witnessed the reality of hearing those sounds screaming through the atmosphere. These realities took place in 2013-2014.

There were other Realities that were never witnessed on Earth before 2013. In January of 2013 a group of Scientists witnessed the Sun producing POSITRONS for the first time.

A positron represents the reality of Light Energy that is neither coming or going, but just being in its eternal isness state.

These are some spectacular new realities.

In 2013 we were also given this new alignment from the three flames of crystal liquid light, crystal dust and crystal gel streaming from the Aquafirs of the Cosmic Inner Earth (we call this Median Earth) up through the Aurora Field and into our bodies. The frequencies become activated within the neuronet structure of the body and then out into the biosphere when we exhale, and when we participate with the H₂O to bring in the H₂O₂HE₃ Spiritual Water from the Inner Cosmic Domains into our outer fields of reality.

The hydrolaise Inner Water Vapor combines with the trypolaise drop of water that contains the mathematical codes of Eternal Life. The trypolaise within the Sun 8 Core is now combining with the Hydrolaise from the Aquafarian Spiritual Water. When the Frequencies of Light and Sound of these Crystal Spheres spin and weave together there is a new Tone created. That new Tone is a new Attunement into a new Reality.

The more we raise our consciousness into these new frequencies, the more new realities we begin to see. This is how we will merge more and more into the Attunement with Median Earth and then Ascension Earth over the next decade. Those who are tuning in to these realities will see them first because Einsteins theory of reality always applies. We must place more Energy into Consciousness before a new Reality will appear.

Each time we inhale more frequencies into our Consciousness, and then focus on the new reality that we desire to create, we are creating a new reality.

If your reality is not changing, it is because you have not placed NEW ENERGY or a HIGHER FREQUENCY into your Consciousness.

Einstein's theory of Relativity is also the formula of creating Reality, which is also the formula of MANIFESTATION.

The Frequencies that we create for CRYSTAL MAGIC ORCHESTRA come from the Elohim of Hearing Exhaling these new realities through the MUSIC OF THE SPHERES orchestration. Each time a new breath weaves together with other breaths that have connected with frequency signatures of more Consciousness from Over Souls,

Rishi Selves and Avatars, we create a Breath that has more Energy or a higher frequency.

As long as the frequencies are coming from the Hertzian level Frequency, there will be no new reality created, because the Hertzian Frequency of Solfege is in the Third Dimension of Energy.

This is why we always inhale our frequencies from far outside the third dimension. We inhale frequencies from the full spectrum of light and sound and pre light and sound where the Cosmos meets the Mind of God.

15 Dimensions of Light and Sound are now seen in the Aurora Fields where the Ascension Earth is being born out of the Crystal Liquid Light Energy streaming from the Median Earth Aquafarian Reality Fields.

When the Crystal Currents enter the externalization of our atmosphere, the currents appear as heliochromic currents that are simultaneously oscillating a light spectrum of 15 translucent neon glowing bright pastel rainbow colors through the crystal liquid light, crystal dust spheres and then combining with the crystal gelasiic current of the heliotalic golden silver base hue.

This translates into the rainbows, that we saw in the early months of 2014, glowing within the clouds (the plasma) which held within them the new form of crystal liquid light, which caused the sun's radiation to glow from within, and yet be seen without-- externalized into our visual reality field.

The Eternal Life Currents contain the magical formula that was given to me by the Elohim Ascension Team. The currents are Helio-plasmic, which means the 14th dimensional current of helium combined with the 8th Sun Plasma.

We have been using this same formula in all our music and mediations. This formula is in the Lift Off Frequency Journey in the

Pure in Heart Kit, which was created in 2008 when I was first given the vision of the Blue Sphere that I exhaled into the palms of my hands after connecting my Consciousness into the Energy that created this new reality.

The frequency that is obtained by connecting the Crystal Star Merkaba into the Universal Star Gates, the Cosmic Core Domain of Inner Earth and then into the 14th dimensional Heliotalic Frequencies (which the Elohim of Hearing calls the Crystal Liquid Light) and then we ride the Merkaba carrying those frequencies over into the Sun 8 Core to collect the Plasma in the Crystal Dust Sphere. When the Merkaba spins the frequencies of those two spheres of Crystal Liquid Light and Crystal Dust together, the new Frequency that creates the Neutron spins into harmonic creation. When that frequency is inhaled into the Crystal Heart, the frequencies of the entire body shifts, and the meditator usually falls asleep.

The next part of the Lift Off and Neutron Meditations requires the meditator to tune in on the Crystal Heart area. This area of the body would include the Heart, the Thymus, the ganglia of cells below the heart, where the Soul lives, the Seed Atom within the Thymus, and it would include the Vegas Nerve Master Gland of the Body.

So, this meditation was already activating those areas of the body. The next part of the meditation says to create two rings of light energy within the Crystal Heart Area. See those rings of Light carrying the Neutron Frequencies that were created from the 14th dimensional Heliotalic Frequency and the Sun 8 Plasma Core, and combine those frequencies with the Helium in the two rings of light energy. Now Breathe to spin all of that energy of Crystal Liquid Light, Crystal Dust and the Crystal Gel (Gelaisic Vapor of Plasma) together into one Sphere of Crystal energy.

Now See the two rings of energy expand clear out to the outer band of the Cosmos, where the 15th band touches Source Field of Pre Light and Sound. Now see the two rings multiply into 15 rings of Crystal Light Energy and exhale all rings out as far as the breath can push them and feel them spinning the Crystal Heart into the Full Spectrum of Light and Sound of the entire Source Creation Field.

The Rings of Fire will spin together to create a new harmony. That

harmony is called the Music of the Spheres singing a new reality into creation.

When Einstein was asked where he got his theory of relativity, he said he heard it as music in his head. This is what Einstein was hearing. He was hearing the music of the spheres communicating to him through his heart, which causes the buzzing in the head to translate into messages.

WALKING INTO THE CANDLE

Dr. Angela Barnett--THE DNA DOCTOR

When we use the CANDLE LEVITATION DVD, we are learning how to FLIP OUR BODY INTO IMMORTALITY. We are learning to walk into the Full Spectrum of Light- which is Source. We go completely into the Source Field, and then our body flips into a new reality. The new reality is the BLUE BODY. That is the Fifth Dimension. The Fifth Dimension means Multi Dimensionality. It means you are not within the Infinite Possibilities of Manifesting through the Mind of God and living in an Immortal Body inside of the Source Field.

When we continue to use the light in the candle, we are practicing

walking through the full spectrum of light, which means the white room of the Mind of God. Once we walk through that diamond door in to the White Room and then turn around, our body becomes the blue body. Once we are in the Blue Body we can practice levitating because we actually move our bodies into a higher dimension that allows our body to be in a new standing wave pattern that does not contain gravity. Gravity is just an illusion or a part of the hologram that we think we are living in.

We can also practice moving beyond the hertzian frequencies where we hear physical words and tones into the infra red spectrum where we hear and see a reality that has actually turned into a NEGATIVE of the picture that we are developing in God's Mind. When we practice becoming the Digital Camera we begin seeing the Blue Hue around everything in our world and then we begin seeing the Violet Sphere that allows us to remove space and time and walk into it. We can also practice activities such as looking at a card and learning to see the back of the card actually rise up behind the card to allow us to See what numbers are on the back of the card. This would be Infra Red Vision.

After than we move from the Visible Light Spectrum into the Invisible Light Spectrum in order to begin seeing the Inner Earth and the Cloud Cities and Earth all morphing into one new Ascension Earth.

The Light Spectrum is held together by the Divine Love Frequencies spinning us into At One Ment with the Full Spectrum of Light of God. It is the outer band in the outer sphere of the Five Spheres of Dimensional Reality that holds the entire Cosmic Matrix together, and holds our body in attunement within that reality field.

When we breathe the frequencies that spin the Universal Band into attunement with the Cosmic outer Band, we have breathed together all of the frequencies together so that they will rise up into the Source Frequencies.

When we bring together all of the Spheres of Dimensional Frequencies together through proper breathing and spinning of the Merkabas it makes the spheres Flip into the Mind of God. The Infinite Unknown is then flowing inside of you, and the rest of the physical body becomes DISOLVED or TRANSMUTED into the Mind of God.

The outer band is the Holy Spirit. It is the Zero point that is flowing toward you and then into you and into every particle in you. You dissolve into the Mind of God when you dissolve into the Full Spectrum of Light of the Candle.

When you dissolve, you emerge as a HUE of Light. A BLUE HUE. You become the Ultra Violet Blue. Your old self has disappeared- dissolved- transmuted into the Mind of God to be re-born as the Fifth Dimensional Self which is the Multi Dimensional Self of all Dimensional Realities. This is the Self that will be allowed to travel through all Universes, create Star Systems, return home to Source, or just sleep in the Mind of God forever.

We access this God through this very specific process of transmuting into the Omni Particles of the Infinite Allness of the Source Field Energy. We open our boundaries into other infinite unknown. We learn to walk into the Void of Infinite Possibilities where we can create things that we have never imagined before.

There are many pieces to the process of Ascension. Each one of the pieces is a part of how we learn to tune out of the Five Senses and into the other Seven Senses.

We have been told that we must RAISE OUR FREQUENCIES. Most people don't know how to do that so we created Music that does it for you. The frequencies are created by taking Consciousness into the higher Harmonics Universes and blending them together in a certain way that creates Frequencies that allow us to Transmute our Bodies and our Realities beyond the Third Dimensional Five Senses.

We are learning that there are many more realities beyond the ones that we behold with the Five senses. That perception is only a very small part of the Full Spectrum of Light and Sound.

So, we created the Music to allow you to connect your consciousness into the Christic Consciousness of the 12th Dimension and the Cosmic Consciousness of the 14th Dimension, and then also out into the Pre Light and Sound Fields beyond those and then clear out into

the NEW COSMAYA of the 13 Cosmos which connect to the Infinity of other Cosmos in the Source Field.

Now, you can begin enjoying the feeling of all of those other sound fields besides the Hertzian range of Audible Hearing. This means that this teaching does not come from the Solfege teachings. It comes from the Cosmic Mystery School of the Omniverse, which is beyond the Earth's Matrix and even beyond our old Cosmic Matrix. The Frequencies of this teaching come from the Grand Yanas of the Pre Light and Pre Sound creating a new reality from the Source Field of Infinite Consciousness.

We have also prepared for you a LEVITATION CANDLE DVD. This is a Visual of a Candle burning for one hour. As you look into the candle, you learn that the hertzian level of the Light Frequency is the lowest. It is actually where the stem of the candle is, because that is the spectrum that is tangible to all of the five senses. We can see the stem, touch the stem, smell the stem, taste the stem. We are actually living in that tangible frequency that is DENSE-it is SOLID- it is the physical reality that we conceive of.

The candle allows us to recognize that there are other levels of light and sound. Just above the stem there is infra red light. That is the light spectrum that the digital camera can see, but most of us haven't learned to see like the camera sees. The next level is the Visible Light that we think we are seeing. Above that is the Invisible Light where another reality lives within right here within the Visible Realm. And above that there is the x-ray field of light and then the Gamma, Plasma and Pink White Light.

When we use the diagrams that show the spectrum of light frequencies and where those frequencies are heard and felt in the brain area, we begin to realize that we haven't been using the part of the brain that tunes in to the Pink White Light of the Mind of God or even the Blue Frequency in the Mid Brain.

We can easily tune in to the Blue Frequency by walking into the Candle because the Blue Hue is the result of absorbing the full spectrum of Light. We can feel that frequency filling the Mid Brain and when that happens the old THINKING BRAIN stops analyzing all of

the old ideas that have been placed in it over the past millions of years. The Mid Brain turns off the Thinking Brain and allows the Mind of God to take over the thought process.

When the Mind of God gets plugged in to the area at the top of the back bone and the bottom of the skull there is a frequency connection into the Seed Atom of our original creation and into the Vegas Nerve which controls all of the nerve centers in the body. So, you see, we can, in fact plug our bodies back into the Mind of God.

And when we achieve that Frequency connection in our bodies we gain the Eternal Life where the sixth level elementals are continuously re-programming the nano second rebirth of every cell in our body and transmitting correct information for the constant rebirth of all of the neuro structures of the body.

I go through that process in great detail in the ETERNAL LIFE WATERS SET.

Now, that we are being given this gift of the Fifth Dimension, we will need to learn how to TUNE IN TO IT. We must raise our frequencies of hearing and seeing. The Frequency Music itself does this. It actually tunes you in to the Blue Hue which also tunes you in to fields of light that are in the Invisible Light Spectrum that you have never seen before.

You can build on this new ability of going beyond the Veil of the Senses by doing the Candle Process that is described in the CANDLE LEVITATION DVD.

The Candle will help your realize what a small aspect of the ALLNESS of God the Hertzian Frequency is. The Hertzian is the stem of the Candle. It is not even a part of the light.

When we only use our five senses, we are only the stem of the candle.

Hertzian means things you can see and hear. We must move into the full spectrum of what we can hear and see.

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses.

In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian.

That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blindfolded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has just been born.

We have tuned in to a new Spiritual Parallel Universe in the PARALLEL UNIVERSE SET and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun in the SYMPHONY OF LOVE ALBUM.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that was taken away 5.5. million years ago. The birth of the SIX AVATAR children each brought a unique Stream of Consciousness that is healing the miasms and seals placed in our DNA. Those Frequency Signatures are in the COMPLETE PERFECT DNA INFUSION album.

I've noticed that more people buy that album than any of the others. Of course it is an extremely important event - the Birth of these Children and the fact that they prepared ascension portals for the race lines that would be locked in the Earth's Matrix forever. However, don't forget about the Frequencies of the UNIVERSAL LIFE FORCE CURRENT who prepared the Stellar Wave Activations and Infusions that are in the Parallel Universe Kit. And don't forget about the work that the Cetacean Raceline did in their Bio-Regenesis Project of keeping the link between the Earth and the Oraphim Suns. And the final ingredients of the ETERNAL LIFE WATER of the Vapor Essence within the Plasma which is the Consciousness Field that allows us to Vaporize into the Spiritual Water of Aquafaria in the Inner Earth. This is the Ascension Vehicle into the Ascension Earth.

Each of these pieces of the formula of the Ascension are crucial to the complete Mass Process. And then each Individual has a unique Frequency Signature and complete Portal of Starry Families, Souls, Avatars, and Rishi Selves that must be Tuned in to in order to begin the attunement into the Cosmic Telephone lines.

This is the last piece of the puzzle that is needed. We must remove the TOWER OF BABEL. That means we will no longer speak different languages. We will all speak one language. We must first tune in to the Frequencies of the Cosmos and our Cosmic Families and most of all the Cetacean Race Line, because they are the only E.T.'s living on Earth right now.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of Goldsmith and Eddy have been tuned in to these realities. However, now that the complete Science of this higher consciousness has been revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has

been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

TRANSFORMING INTO OUR ETERNAL LIFE BODIES

We are moving through the grandest of times ever known to our Cosmic Families. We are being given the Stardust and Hydrolaise (Spiritual Water) that is needed to transform our bodies. The Consciousness, or the Frequencies of this energy of transformation is coming in through the Stellar Wave Activations related to the Solar Flares and CME ejections of the Sun.

We are going through this transformation because our COMPLETE

SPIRITUAL BODIES were tilted to an angle 15 degrees from their original Templates. Our bodies are tilted 15 degrees clockwise from the Alignment with our Eternal Life Body.

This angle of rotation created a loop that goes through the Crystal Heart Area of the Body. That area is what would be called the Density One Body or the Etheric Body. The loop cause a mis alignment with this Etheric Body that is positioned within the Crystal Heart as well as a mis alignment with the Mental Light Body. So, there was this distortion of energy fields that locks right at the Crystal Heart area within the Thymus. This is also where the SEED ATOM of our oriignal creation resides.

So, our physical body was disconnected from our Etheric Body, our Seed Atom, our Soul, our Mental Light Body.

We can now use the Frequencies of Star Dust and the Spiritual Water H₂ O₂HE₃ from our spiritual Aquari Matrix and our Inner Domains in the Cosmic Core of Mother Earth.

When I create the Eternal Life Albums I realign the Physical, Etheric and Mental Light Bodies back into the Original Divine Self, where the three spheres or three bodies intersect at the Crystal Heart area correctly, without the Loop that keeps them disconnected.

The process of removing that loop in the Heart area requires an alignment from the Mid Brain up into the Cosmic Consciousness of the Aquari MAtrix. The Cosmic Alignment point is 36 inches above the head. I create a clearing from the Mid Brain through the ears and into the Elohim of Hearing or the Aquari Maharaji (their new transformed selves). Once that PRIMARY NEURONET is reconnected up to the Maharaji, That Consciousness Neuronet creates a Clear Passage to Cosmic Consciousness. NExt the Frequencies of the Stardust flow must saturate the Mid Brain area and the Pineal Gland. We then Move that StarDust Consciousness down into the Crystal Heart area to begin the transmutation of the block or the loop in that area. NExt, I inhale the Water Orbs of Hydrolaise or Spiritual Water that are brought into the atmosphere from the Cosmic Inner Core Domains of Aquafaria. The Water Elementals from the Spiritual Matrix are inhaled

into the Mid Brain and into the Crystal Heart.

Once there is enough of this consciousness brought into the Crystal Heart, a Secondary Neuronet is opened up through the back of the lower skull (the medulla oblongata). That is the Secondary Neuronet that connects directly to each Individual's Original or Normal Body that does not contain the ERROR of ALIGNMENT.

We create a back flow from within the corrected mid brain and crystal heart areas into the Eiron FLOW that Flows out the back and up at the 15 degree angle into the DIVINE TEMPLATE or Correct Body alignment.

The opening of the flow is increased each time a person listens to their Eternal Life Album.

The stardust consciousness, the spiritual water consciousness from the Aquafarian Elementals, and the Plasma of Crystal Gelaisic Elementals are available to us to be used for this purpose of Transformation.

I continuously connect my consciousness to this restored transformation pattern and I connect my Consciousness into the Elementals from Aquari and Aquafarians who are making this Ascension happen for us.

It is the consciousness or frequencies of the Stardust, the Liquid Light and the Crystal gel that is transforming our bodies. We must inhale these frequencies into our atoms and then see the explosion of energy from within the atom create a 12 pointed starburst. That is actually an activation of the neuronets from within the atoms. When the neuronets reactivate into a NEw Reality where the distortion that blocked the physical from the etheric and the mental light bodies, the body begins to realine into the Median Earth- the Coud Cities, the place we have called Shamballa.

The meaning of raising frequencies means we are now living in a hertzian and visible light frequency where we only believe in the things we can hear and see. We must move into the Cosmic Frequencies of Stardust, Thermal Plasma, Liquid Light, Hydrolaise.

This level of frequency cannot be seen, but it can be felt. We can feel the stardust and the hydrolaise come into the atoms of our mid brain and our crystal heart. We can feel the opening of a cosmic flow through and between the atoms. The Consciousness that is allowed to enter the body is Cosmic. This is the Frequency and the Consciousness that is required to realign our bodies into the Normal Template that allows us to begin the process of Orbing into Higher Dimensions.

All of the Universal Life Force Albums and the Eternal Life Album and the Violet Flame Album are for the purpose of bringing the Stardust flow into the body.

The Sun becomes the Son of the Star and the Stardust becomes the Son of the Sun

A new Star is being born within the Sun to Transform the Earth into the Star from which she was born.

Ionizaiton is loss of electrons into positively charged ion. This is a conversion--harmonic conversion into a new reality- a new frequency- a new dimension-a NEW HARMONIC UNIVERSE.

Ionizaiton is loss of electrons into positively charged ion. This is a conversion--harmonic conversion.

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism.

Where is the rainbow coming from? It is coming from intense electrical field that is ionizing to some effect like a magnetic mirror which is a device used in thermo nuclear processes that is in the mirror is contained an intense field working in the vacuum. Then ions are injected inside of this intense electrical field inside of the vacuum then immediately the electrons of those ions return to plasmic state. What state are they returning to? Invisible light, ultra violet blue,

plasma. The entity looks like a Cloud, but also looks like an individual that we remember. This process of ascension into the Cloud Cities was very common fifty thousand years ago, and then brought back to our memory two thousand years ago by Jesus Christ.

The truth is, we all contain this Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology. The merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that. Go to Merkaba Mechanics at cosmicdolphinmagic.ning.com.

So now the wave is no longer a standing wave in the quantum field but has actually been neutralized and goes back to the plasma of an omni field state positive. That is called a magnetic mirror.

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror. We walk through the Mirror when our Keys unlock the door. The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music. The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses. The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul

Family who brings these Sounds into my Frequency Specific Mid Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.

If you believe you need to create energy in order to have an experience, the experience will never happen. Experience doesn't come from a person creating a physical thing. It only comes from God, who directly knows how it is going to happen and the flow of that information to you . As you observe the experience in the film of the Omni particles or God's movie screen around you becoming developed through the activity of Divine Love. When you do this you are learning how to co-create through the mind of God. Now you are learning how humble one must be to conceive a concept that is out of the boundaries of ones ability to do it. And you can see God manifest it.

The creation of the manifestation is always done in the outer band. The outer band of the music of the spheres is the sphere of the infinite unknown or God's mind. When this frequency of Source Consciousness is woven into oneness with all of the other five spheres of dimensional consciousness energy, the manifestation is developed into the film of that Omni particle energy which is sub atomic etheric stardust particles. It is the etheric foundation that the manifest reality is painted upon. The frequencies that are recorded on the Ascension Kits and on the ETERNAL LIFE ALBUM utilize the frequencies and codes of manifestation in the five spheres and place these codes within and through the body. The ETERNAL LIFE ALBUM actually activates these frequencies into the Oneness of God's mind manifest as You. These frequencies make these Omni particles that you may begin to create your new reality from. The more you feel, inhale and exhale these frequencies, the higher your body and consciousness will rise above and beyond the old third dimensional illusions into the infinite unknown that you may now manifest as your new reality.

The old reality has been programmed into the cerebellum of the brain. The amygdala gland has been recording and replaying movies of fear, control, lust, sex, violence. These old movies will continue to play until they are wrapped inside the sphere of crystal light energy.

First wrap the fear ideas in a sphere of white light and then ultra violet blue light and then golden light and then melt the ideas into golden liquid light energy. When you do this you are allowing the old bands of lower frequencies in the third dimension to flip up into the mind of God or the infinite unknown frequencies. This transmutation process must be completed through out all parts of the cerebellum as well. These are all old worn out third dimensional movies. We don't need them any more. We are dissolving these old three dimensional control channels.

The frequencies in the ETERNAL LIFE ALBUM are to pour into the old brain and allow the MID BRAIN to become activated. The Mid Brain - pineal gland and pituitary gland are Frequency Specific. They think, move and create through FREQUENCIES. The Mid Brain is able to see infra red, ultra violet blue and even gamma waves. The Immortality Cd is allowing you to feel these frequency waves in order to prepare your mid brain to see these frequency bands.

The next step needed to activate your mid brain is cross your legs in the lotus position with back straight and focus on the center of a flame from a candle for at least one hour per day while listening to your ETERNAL LIFE ALBUM. Try to eventually work up to two or three hours. The longer you focus, the closer you become to the full utilization of your mid brain which will allow you to see all dimensional realities.

Next, after a week or two of practicing this level of focus you will be able to stare at a card and learn to see both sides of the card. In the reality of infra red frequency, the mind can see in a 360 degree angle. You can train your mind to see both sides of the card. Your mid brain already knows how to do this. When the other old brains are completely turned off and the mid brain is completely turned on, you will first gain infra red sight which will allow you to see orbs, space ships and to read a deck of cards. This will come in handy if you ever want to go pick up an extra few hundred thousand dollars at the casino.

The frequencies will continue to raise the foundation of the entire body. The subconscious will become activated into the blue realm. The medulla oblongata which sits right at the top of the spine is

where the subconscious sits. When you raise your frequencies into the blue frequency the sub consciousness acts as a primary healer of the body. Activate this area of the body before going to sleep and ask the god of your being to raise you into the blue body for complete healing while you sleep.

Listen to your immortality CD while you sleep. Practice breathing in a fashion that oscillates the frequencies from the higher rings into the lower rings or frequency bands. Focus on breathing at the speed of light -- do this in your mind. Feel the body become lighter and lighter until it rises above your bed. The frequencies of your body will lighten the body into the etheric Omni particle of God consciousness.

Now, that your yellow brain- your cerebellum and amygdala glands are dissolved into the higher frequencies and your mid brain is activated and your sub conscious is aligned into the blue body, write a list of all of the things that you would like to appear in your new world. This is the world that you will be creating with the mind of God. Write the list and call on the God of your being. Ask to have the items on your list manifest through the mind of God. God only knows the infinite unknown. He doesn't create old out dated ideas. You must be willing to have God create your hearts desire in the way that he knows is the best for you. You must become humble enough to conceive a concept that is out of the boundaries of your own ability to do it, and become willing to see God manifest it.

So, no matter how clever you think you might be intellectually, you must be willing to let go and allow God to do the manifesting in the way that he knows, which is the infinite unknown. A person who has got the knowledge understands. To see to define to need to know does not come out of the intellect. It comes from the mind of God when we pray. When we beseech through our holy spirit this appealing to God we are asking to have this manifest in our life. You are also admitting that it could never come in the fashion in which we are asking God to give it to us.

When we talk to God and we roll our eyes back into our head and we talk to our holy spirit and we beseech God for this aspect of its mind and that we want to have it, that is all we have to do. But, we have to be sincere.

When you approach before you wake up you go in your mind and you give this focused intention to your God. Oh, God of my being, I say to you, that I am about to create my day and indeed the specifics on my list of which in and of my being I cannot do.

I say to you that this, oh my beloved God, as I create my day, that you fill it with the wonder of that which I may not know that I may know and as I enter into my list that those things that I have said forgive my arrogance and imprudence. I simply ask you, the lord God of my being, to make them manifest.

I have always been fabulously wealthy. I have always been twenty years younger. I have always been able to bi-locate. I have always been able to read the back of cards. I have always been able to disappear. I have always been able to manifest perfect health.

That I may know, grow, learn that in all that you are, oh my beloved god, let my journey never end , let my heart quiver at the anticipation of beginning a NEW DAY.

This is how you connect to the outer band of the five frequency bands of the music of the spheres. This is how you make the symphony of love begin to perform in your life.

The GREAT WORK is to become that entity who will never die. That great entity has no longing for its past in any way. The great work is to press forward in secondary consciousness to make the body in life to think in life as detached and awesome as it is to take that into life. That is the great work. For what is remarkable about us. What allows the grand fortune of living thousands of years. What is it to be able to live longer and maximize the experience but never to linger in the experience to bring it to wisdom. What is that. How can that be accomplished. If you contemplate why is it upon death that there is no desire from the point of self to come back to this body. There is nothing in the yellow brain that is desired. The real self only desires the experience of the infinite unknown.

Once you've cleaned out the junk in the yellow brain by owning all of the experiences and placing them in the crystal light energy sphere

to dissolve into the golden liquid light, you are finished with the brain that dies and you can begin living in the brain that lives.

Now you can live in extraordinary thought and extraordinary experience. You can do marvelous things in this physical body because this body is made up of the same particles as space itself. We can be far greater. We can replace with greater events with out the past emotionally. Go into the experience and let the experience created by God, become defined by the nature of the new chemical feeling of higher frequencies in the body.

Instead of using raw material to go through the body, we use the energy of God- the Omni particles of etheric God energy, for new experience. Then the body is sustained until the time the secondary consciousness has made an in road to make the nature of every day, a new form of thought.

To make a new form of thought and then to work that form of thought until it manifests.

Next, comes the morning when you are floating five feet above your bed because you have become so changed in your neuronett that your brain has used these changes to heal the body. During sleep your body is levitating into the fifth dimensional body.

Your life can then be drawn out for tens of thousands of years until one day you have the power to disappear and take this matter with you. Never have to be born again fro the plane of bliss. The path of power to unfold it is in your mind. You can take your body to any level and any frequency that you like if that is your focus. All lower frequencies must rise to the highest.

We make a list before we go to bed so that our subconscious through the mind of God will create our night in which our souls align into oneness with the Sun of Inner Earth and the Sun Alcyone to lift us into our Blue Bodies.

We are now in control of the body because we are out of the body. We are out of the body because we are in the outer band- the highest frequency band of Source. All of the multidimensional bands are

outside of the body. When we rise into the frequencies on the immortality CD's we are rising out of the body. The outer bands are the holy spirit. Outer bands have full spectrum of light and sound. This is your secondary consciousness and this is your pattern of all of the bodies you have ever been. The outer body is the infinite unknown.

In your day to day affairs we have the infinite unknown touching our bands and as we allow our bands to melt into or dissolve into the infinite unknown, we leave behind all of the old bodies and use our holy spirit bands of quantum energy to experience the infinite unknown.

The hertzian wave band touches all of the Source Frequency and soaks up the full spectrum. You have been loved into this life through the activity of Divine spinning and oscillating the bands into One Full Spectrum Frequency. The God frequency is holding all of the quantum together clear out to the never never land. We were loved into this experience. It is love that binds us into the full spectrum of the infinite unknown.

This entity, the outer band - is God -- and its action is the Holy Spirit. It is super natural because it has all aspects to act on this level as a Divine Being.

What happens when we raise the frequencies from the third band to the fourth band? All of the frequencies rise through the outer band of Source frequencies. It makes the bands flip into the mind of God. Infinite Unknown is flowing inside of you and the rest of us is dissolved. The outer band and the holy spirit is the super natural. From this zero point is flowing toward you, through you and into every particle in you. You have analogically become the mind of God.

This is the ultimate creation. We access this God through very specific process that interact with the very nature of who we are. We are human beings and begin to open our boundaries into the infinite unknown. If we begin to walk into the wonder of God, God will give to us all that we ever ask for, and we can never exhaust all experience.

What is the experience of the Infinite Unknown. When you are creating something that lives as a POTENTIAL, outside of your body, the personality that is very disciplined, will fight back because it only knows what it knows. It is only God who knows the infinite unknown. That is only a measure of what exists as potential in the mind of God.

Give focused intent to your god. Oh, my beloved God, I am about to create my day, and indeed the specifics on the list which in and of my being I cannot do, I say to you, this as I create my day, that you fill it with the wonder of that which I do not know that I may know. And as I enter into my list, that these things that I have said , I ask the lord god of my being to make them

These are the questions that you need to ask yourself.
Am I completely in the HIGHEST FREQUENCY?
Do you even know what the Highest Frequency is?
How do you get to the highest frequency?
Where does the creation of the new reality take place?
Are you following the Law of Attraction Rules instead of the ones that I have given you?
The law of attraction says that you must focus on drawing something to your frequencies. That means lowering a creation that is created in the highest frequency of Source Consciousness- The heliotalic 14th dimensional frequency aligning with the 15th and into Source. That is the Aqualene Sun Ka braiding frequencies into the Blue Sun Ra and the White Sun Hya. This is the creation center.

If you are following law of attraction, you are thinking about creating something that isn't already in the Mind of God. Everything is already in the Mind of God.

The problem is that you are not in the Mind of God. You are not dwelling in the Highest Frequency.

We do not need to lower the frequency into a new dimension because you are already tuned into the Mind of God-- if you have been doing my journies and meditations.

THE MOST COMMON REASON for lack of manifestation is because most people demanifest their manifestation ten times between each time they manifest it.

Everytime you place any thought or belief of any sort on the side of lack or inability to manifest, you have demanifested everything that you have placed on the side of positive manifestation.

That means you cant put on one side of your list I am marvelously wealthy, I have always been marvelously wealthy and I will always be marvelously wealthy.

And at the same time still have on the other side of your list: How am I going to pay my bills. I wonder if I should buy this. I wonder where my money will come from, etc.

IF you do that you just demanifested whatever you were manifesting.

THERE IS AN EVEN BIGGER QUESTION

Even if you are dwelling in the highest frequencies, one of the requirements is to BECOME SO EXCITED about the IDEA that you are manifesting that nothing else in the world matters.

Are you really that excited?

Do you want this idea so much that you are so excited that you know that you have manifested it that you are jumping up and down with excitement and joy.

And do you TRULY BELIEVE and KNOW that this already exists in the mind of God and that you already have it?

I will give you a real life example of why we are only getting four of the five numbers.

I will use myself as an example.

If I was so excited about knowing that I have already won the Mega Million Lotto, I wouldn't have time to think about anything else. I

would be planning my life around that event. But, I'm not so excited that I want to stop doing my posts on my website.

So, I'm only three quarters excited about the Lotto and one quarter excited about the Cosmic Mystery School.

So, neither one of them are working at full potential.

That is how it works.

And there is another phenomena involved in the Lotto. Winning the Lotto is only a process to getting something. And the lotto is not what you are excited about. You are excited about what you will do with the money. If you focus on that excitement your higher self can work on arranging many beneficial paths of providing the manifestation of what you are truly excited about.

What we are all truly excited about is Freedom. We want to be free from the world. All we have to do is Be in the Mind of God, be in that highest frequency, transform the invisible and visible into one reality. Know that the invisible is as real as the visible, and know that it is already here.

When you focus on that. When you focus on knowing and perceiving the reality that all is already in your sphere around you. That is the Mind of God. Everything is already there. There is no reason for the Lotto. There is no reason for a PROCESS. It is already complete.

CREATING OUR NEW VERSION OF OURSELVES

Those who have taken the Manifestation Workshop know that the process of the Journal was to learn to take a step back from your normal concept of reality and look at you past, present and future in a new way. You were learning that every thought, idea and experience that you have placed in your past projects into your present. You learned that your present thoughts and beliefs will project into your future reality.

So, let's look at this formula again. Are the things that you are believing today what you really want to manifest into your life tomorrow and next week and even in 2017 when we have the opportunity to have a brand new reality manifest before us?

Do you really want to continue believing that you can get sick or die? Do you really want to continue to believe that you are not capable of becoming everything that Jesus Christ became? Do you really want to continue to believe that you have any enemies? Do you want to believe that you don't have enough supply and that you have to keep working for it?

If you have any of those beliefs now, they will just re-manifest again tomorrow and the next day and next week and next year.

We must create a NEW VERSION of ourselves in order for that new version to manifest into our reality.

By the Love of God Alone will all my Bills be Paid.

That is a fact. It has always been a fact. However, we have been creating a different version of that reality. We haven't been believing that God Alone will Pay all of our Bills.

We have been living in a different VERSION of our selves. We have been living in the Version that believes we have to go out and make money to pay our bills.

So, that is the Version that we keep living in.

When a Spiritual Healer performs a healing for a client, they can only heal the client if they bring that client into the VERSION of himself where he is already made in the image and likeness of God. That was the Melchizedek Version of the Spiritual Man in Genesis One of the Bible. In Genesis Two there is a different VERSION of Man who is created by mortal parents. That version of man would suffer and die.

Now, is the time that we begin to live in the Version of Man who is made in the image and likeness of God. The perfect immortal man

who has Eternal Life. And that Eternal Life is not the Soul leaving the Body to begin a new life. That Eternal Life is the Soul continuing into a NEW EXPERIENCE or a NEW VERSION of the same person.

However, there is a trick to this. The SOUL demands a new experience. If you just keep repeating the same old third dimensional belief system the Soul will leave your body, because the Soul DEMANDS a NEW EXPERIENCE. And the Soul demands that you are GRATEFUL for the NEW EXPERIENCE. So grateful that you are in BLISS.

That is the great mystery to eternal life.

When I create Frequency Music for an Individual, the Music is the Frequency of the Frequency Signatures of the Eternal Life Code of that Individual, the Frequency Signatures of the Soul, Over Soul, Avatar and Rishi Levels of Consciousness of that Individual, the Perfect Divine Morphogenetic Field that holds the VERSION of the Human Angelic who was originally the Oraphim Cosmic Angel of each creation template.

We must return to that VERSION of ourselves to bring forth the Future of ETERNAL LIFE.

I cannot heal anyone by telling them about their past Akashic Records, or by reading the Astrology Charts that are a part of the Milky Way Galaxy. Those Past Realities are from A Fallen System that contains so many ERRORS that the Version of the Melchizedek Cloister Version of Reality had to be returned to the Earth through a Portal of Reality created by Jesus Christ 12.

During the past years of 1996-2012 there were more of these Portals of the Original VERSION OF THE PERFECT MAN CREATED IN THE IMAGE AND LIKENESS OF GOD created by the Six Avatar Children who were born with the Templates that did not contain those Seals that were placed in the Race Creation Template. So, just as we connected our consciousness into the Morphogenetic FREQUENCIES of Jesus Christ in order to RAISE our Frequencies into the REALITY that does not include the past, present and future realities that we create through our belief systems, we must now connect our Versions of our new reality in the Six Avatars as well as the thousands of Indigo Children who were born to raise our

frequencies of consciousness. We must also include in our new Version the Stellar Wave Infusions provided by our Universal Consciousness Team and the 12 Star gates provided by our Ascension Teams.

Each of these ITEMS are created from FREQUENCIES. The Frequencies are now within the Sphere of Amenti Morphogenetic Field within the Crystal Heart of Earth. And those frequencies are flowing through the Earths Grids into our Consciousness--IF WE TUNE IN TO THAT VERSION OF REALITY.

All of the music that is created by CRYSTAL MAGIC ORCHESTRA is to help the LISTENER move into the VERSION of his or her reality that will give them the DESIRED MANIFESTATION.

The individual must tune their consciousness in to the music and then realize what the music is tuning them in to. They are being tuned in to the VERSION of themselves that is the Man made in the image and likeness of God-- the ETERNAL MAN.

Now, there is something a little different from that old Bible Story. We have always believed that there was this Spiritual Perfect man called Jesus Christ and that he was the only one who could be perfect. The only reason that he was the only perfect one on Earth at that time was because the VERSION of the original Man had been distorted by the distortions placed in his template.

Now, we are having those distortions removed from our Divine Template. Now our Race Line is being Re Born with the Divine Imprint that Jesus Christ was born with. Now, we can tune in to that VERSION of who our Race Line always was in the Spiritual Universe that did not contain any of the ERRORS that were placed in the Physical Universe.

The Physical and Spiritual can become ONE. The rule is the HIGHER FREQUENCY will always TRANSMUTE the lower Frequency. So, now we know that the Spiritual Frequency is the Higher Frequency that can transmute all that is in the Physical VERSION of the Individual.

What do I need to do?

Everybody needs to listen to the music in the same order.

Begin with the Ascension Kit. Listen in this order:

1. Ascension Vortal, 2. Ascension Vortex, 3. Ascension Portal, 4. Magic Vortal.

The breaths of the angels were collected in an order that first activated the 12 DNA, then the 24 DNA, 36 DNA and 48 DNA in that order. This doesn't mean that someone will receive 12 DNA just by listening to the music one time. This means the listener must collect the 12 DNA from the Christic Consciousness that is being streamed through the angelic consciousness in the music. This is done by absorbing the frequencies into the cells, the skin, the lungs. When the body becomes completely saturated with these frequencies, the listener may exhale these frequencies out into their own atmosphere and back into their own consciousness. It is always the breath of consciousness that activates. When the breath of consciousness matches that breath of consciousness on the CD, that is when the DNA begins to activate to that level.

When the 12DNA begins activation the listener will begin experiencing their voice changing to sound more like the breaths of the angels. There will also be signs such as healing very quickly, not getting sick.

The same process will be required to activate the 24 DNA, 36 DNA and 48 DNA.

Of course activating the higher level DNA strands into more Source Consciousness, more co-creative consciousness, more Suns of Aquarius, and especially connecting to ones own starry brothers will accelerate the process of activating the 12 DNA.

This kit contains the breaths of consciousness of the Elohim Angels streaming through the golden pillar created by the Elohim of Hearing. The language used has been called the bird language, the dolphin language and the god language. These were the breaths that were translated into streams of light creating vortices, vortals and portals through the seed atoms of the body and aligning them into the original spark of source to restore the original spark of ignition and alignment into the immortality template.

The points of these activations that begin the forward spin of the consciousness into immortality are the tip of the tail bone, the area above the stomach, the crystal heart area below the thymus gland, the pineal gland and the amygdale gland in the brain and the medulla oblongata at the base of the skull.

All of the music in the Ascension Kit places focus on the complete activation of spinning the breaths of angelic consciousness through every seed atom in the body with specific activation on these key areas through the use of crystal light energy.

When the tail bone is connected into oneness with the pineal gland, we may begin to manifest. When the amygdale gland is connected to

co-creative consciousness and atonement with the higher self we may begin to communicate, create and manifest. When the crystal light energy activates the medulla oblongata we will be reconnected to our original immortal self and our divine connection to Source Consciousness. When the point above the stomach area- the solar plexus connects with the fifth chakra in the throat we shift into fifth dimensional line of consciousness. When the spark of source is ignited in the crystal heart we become in tune with the music of the spheres creating the harmonic convergence into perfect Oneness. This creates the opportunity for the Spiritual Self, the Divine Mind, the Source to walk into the temple and begin co-creativity.

Now, imagine the responsibility of becoming a co-creator of our next universe. This is not a responsibility that will be given to anyone who does not have their consciousness completely aligned into Source Consciousness. Manifestation is co-creation. When we begin creating our heart's desires, they must be in alignment with the entire Divine Plan. We must remember that our purpose of creating must not invade the freedom of another. This is why the template of co-creativity must be completely realigned into all of the streams of light energy of angelic consciousness, crystal light, crystal dust and crystal gel before manifestation can begin.

The Ascension Kit's main point of focus is on alignment of the body template into the streams of light energy of Elohim angelic consciousness through the music of the spheres.

The Ascension Vortal focuses on the 12 DNA which lays the foundation for all other activations. The Ascension Vortex aligns the crystal cells of the body through the crystal core of Mother Earth to activate the 24 DNA through the Christ Grid in Mother Earth down through the white light pillar into the Core of Mother Earth where our

Divine Consciousness of Immortality was stored. The Ascension Portal aligns consciousness into the Universal Consciousness and to the point of Cosmic Consciousness. This point is also needed to completely activate the 12 DNA from the 12th Dimension of Christic Consciousness. Finally the Magic Vortal streams light energy of angelic breaths and completes the music of the spheres into the fifth sphere. When the co-creative consciousness and the Source connect at the original spark and breath of creation, the return into the new creation has begun. This is the point of activation needed to return to the spark of source and become immortal.

Cosmic Consciousness Kit streams actual words through the golden pillar from the Elohim of Hearing from specific angels. These angels are singing in harmony with the Oraphim angels in the underwater cities of light in the Liquid Core of Mother Earth. These are the angelic consciousness streaming the DNA of the 36 and 48 DNA templates of etheric immortal selfhood. This is pure consciousness with a translation down a step to visualize the beauty of the standing wave patterns of these parallel universes.

The Cosmic Kit focus is on alignment of the body template into the streams of light energy of Oraphim angelic consciousness in the crystal heart of Mother Earth, in the Aquafaria where our perfect immortal Oraphim family lives in the underwater cities of light. The breaths of consciousness align into the 36 and 48 DNA strand of angelic consciousness.

Please remember that the 36 and 48 strands of DNA represent the level that the angelic consciousness is at. Those levels of DNA are recorded on the music frequency kits. This isn't a magical breath that transforms the listener. The listener must take the responsibility to align himself completely into these frequencies and become at one

with these standing wave patterns of a parallel reality.

DNA activation occurs as the breaths of angelic consciousness enter into the crystal cells of our bodies. The angelic breaths are the Cosmic Rays of light and sound sent from the highest frequencies of God. Crystalai was given the formulas of sacred geometry to oscillate crystalline energy from the Cosmic Consciousness of the Co-Creative Angels in the fifteenth dimension

These entities stood before me and created a golden pillar in my left ear to connect me to the highest frequencies of the Elohim Angels. They called forth three Knights who kneeled before me and handed me three spheres of crystal light, crystal dust and crystal gel. They taught me how to connect my consciousness through oscillation into the highest realm as they provide the orchestration of the streaming consciousness portals, and they arranged agreements with all Angels in the Cosmos to offer their breath for this creation. Each time I am directed to record, five to fifty new angels who up and sometimes stream melodies, sometimes words and sometimes breaths.

The more we connect our consciousness into these light streams, which are the breaths of angels, the more we become attuned to the ascension through the music of the spheres. Our entire cellular structure is aligned into the cosmic streams of consciousness that unite us with the movie screen of co-creation. The co-creators on the fifteenth dimension are streaming their magical movies into Earth waiting for those who are in tune to turn on their channel.

The meaning of that God Language Code is anything or anyone who is not Christic can not enter my field of reality. It means that I am in the fabric of my Christic Reality that has been activated by Cosmic Consciousness. In order create this field of protection that I place in the music through my Consciousness, I use this formula:

First, I activate the Christ Star 12 dimensional Merkaba 12 inches above my head and then inhale that into my mid brain to create the Oneness Attunement of my body and my Christic Body. Next I exhale

that merkaba down into the Crystal Core Domain of the 13.5 Cosmic Level of Inner Earth and collect the Cosmic Activation Frequencies and then Inhale up to 12 inches below the Earth's Crust to connect to the Christic Frequencies.

Next, I spin the Cosmic and Christ Frequencies together in the Merkaba, which creates a Plasma Sphere, and then I exhale that sphere of Consciousness up through my body and around my body.

That Maharic Shield around my body connects me to the D-12 Christic Blue Print. Next, that connects me with my 1728 Angelic human Versions of myself in Time Vectors spread across time and we all share the same 12 strand DNA template. When activated, the 12 strands of the 12 strand DNA template serve as electro magnetic windows or internal stargates that merge all 1728 selves together to create an Eternal Christos Avatar Identity that manifests simultaneously in versions of my reality across all time.

When we spin more and more of the frequencies of the spiritual, etheric, breath like, and yet powerful Consciousness into the Merkaba activation, the DNA becomes filled with a different reality. The reality expands from only knowing the five senses as reality into knowing that there are many other realities beyond the five senses.

What is the DNA activated to do? It is being activated to see the new reality that we have been disconnected from-- the reality that EYES cannot see and EARS cannot hear. It is the spiritual reality that is invisible to us as long as our sub harmonics are unplugged between the base tones and over tones.

What are the base tones and over tones? The connection of our Consciousness into the Inner Earth and Aquafaria, into Sirius B, into Sun Alcyone, into the Aquarius Matrix, into the Cosmic Blanket of the Cosmaya, and into the Mind of God. How do we connect the base tones and over tones? We breathe together the anti particle spiritual over tones into the particle universe physical base tones and spin and braid them together. We are, in fact, connecting our Consciousness, which is the Primal Life Force Current that is in all dimensional levels or density levels of that original perfect reality.

The newest set of Frequencies of Consciousness that I have been recording over the past few weeks combine everything that I just explained. Many of those albums already had hundreds of layers of breaths lain over another hundred.

The CD album ADVANCED DNA ACTIVATION, and 12DNA ACTIVATION mp3 album both include the God Language that was given to activate the 12 sub harmonics in the 12 strand human angelic, the activation within the cellular memory of the spiritual Coushas transmuting the old AEKASHIC records, the Illumination of the AEKASHA- 12th dimensional consciousness into the pineal gland, and the names of the music of the spheres for the fifth sphere. This God Language is mostly what your ears will still hear, because it is the closest thing to your old five senses understanding of should be heard.

Questions-- krystalaimagic@gmail.com

The main differences between these two albums is the CD was created as a CHRISTMAS PROJECT. The first 15 minutes of the CD were sung as melodies from Christmas songs in God Language. This could make a very nice Christmas present, and a nice way of advancing your DNA activation during Christmas season. This is a beautiful CD that would make a wonderful present for anyone who you would like to activate, who might not be receptive to this idea of Frequencies and Ascension. It is possible that those people might listen if it sounds like Christmas in a foreign language.

We are also creating a DVD that sounds like Christmas, and it has a Candle to focus on while listening. What is nice about the DVD is the 96,000 hertzian level of recording that it allows. This means the recording sounds much more like what it sounds like when I recorded it than it does on a CD, unless the CD is made by Sony, and your speakers are Denon.

HOW IS DNA ACTIVATED?

Our race line has completed a very long period of time when the over tones of our spiritual parallel reality have been separated from our base tones of our physical reality. There were many reasons for this happening. Most of the reasons were because of Invader Races and Fallen Angelic Races implanting Mutations in the pure genetics of our race line, and then our Guardians and Family of Tara needing to lock us out of Tara until our Consciousness became purified once again.

Our Guardians have always been very sorry that this has happened and they have been doing everything possible in the Cosmic All Knowing to bring us home. They have designed many plans to purify and activate our DNA at this time.

Each of these DNA ACTIVATION PROTOCOLS is and has been specific attunements and alignments Frequencies of Consciousness from our Parallel Spiritual Cloister Races who have maintained their pure and perfect DNA into the Root Races that are identical pairs of the Spiritual Overtones. The Root Races carry the Base Tones and the Cloister Races carry the Overtones.

There have been a series of activations of this Consciousness from the Spiritual Cloister Races into the Root Races of this Planet. We have been activated by the Paradisian Spiritual Consciousness as a result of the Indigo children who were born with the ability to activate five and six DNA strands at birth We have been activated by Six Avatar Children who restored each one of the Seals that were placed in our Chakras that were created to lock us out of Tara until our Consciousness was purified.

The Consciousness Activations are done through the Breaths of Consciousness connecting, streaming and braiding the Overtones into the Base tones of all of the broken sub harmonic strands in each of the DNA.

When I create an Individual's ETERNAL LIFE ALBUM, I am connecting my Consciousness into the All Knowing Mind of God

through the Elohim of Hearing in Gaia who knows exactly what needs to be done to correct, restore and activate each Individual's DNA. Through this all knowing Consciousness who has making this plan of accelerated Ascension for the Human Angelic Race Line for millions of years, it is known what Race lines the individual has been connected to through all their past millions of life times, and it is known which Seals were placed on each individual because of certain implantations from Invader Races, and it is known if the individual has already spent life times in Sun Alcyone repairing many of the Seals, and it is known if the individual is ready to wake up from the amnesia of 5000 years.

HOW DOES THIS FREQUENCY MUSIC ACTIVATE DNA?

In all of the other albums, I have been working on one specific piece of this DNA healing and activation process. The Ascension Kit focus is on the use of GOD LANGUAGE as the actual codes that were given by the Guardians to heal and activate the DNA. In the Cosmic Consciousness Kit the focus is on the messages sung directly from the Aquafarians who hold many of the Over Tones that need to be woven into our Base Tones. The Family kit connects consciousness into all of the Families of Consciousness of all Five Spheres. The Super Consciousness connects consciousness into the Universal and Cosmic Spheres of our creation at the Plasma and Pre Plasma Level.

These albums were created before 2012. During those years before 2012, many of us were working together to bring in those specific Overtones into alignment with the Base Tones that were stored within the Earth's golden crystal core domain, where our original base tones of the Root Races that we were originally born from.

We have been going through a period of time when Angels from many Universes have been actively participating in restoring the Human Angelic Raceline. I have been working with these Ascension Teams for twenty years.

The picture of my Violet sphere and my connection with the Six and Seven Suns also shows my relationship to the Violet Flame of Gaia, and that I am the Violet Flame Holder who completed the activation of the Sirians Star Gate into Earth. This project or mission was a part of the larger mission of the Cosmic Twins who cleared the complete Star Gate passage for the Braharama Oraphims and Oraphim Humanoid Race lines.

These star gates are opened when the Seals of the Race lines connected to them are Cleared. The picture of me holding the violet sphere and tuning it clear through all of the dimensions and into the Sun and into Sun Alcyone and into the other 7 Suns was all completed through the Frequencies of Consciousness that I was taught how to breathe from the Elohim of Hearing into my Crystal Heart and then exhale into the Crystal Spheres in my hands. This created the attunement of the Over tones and the Base Tones of the Sirian Race Line and Pleiadian Race Line.

This one specific Frequency of Attunement, which is a part of the Ascension Protocol is the Frequency that is one the Violet Flame Album. The Frequencies of this event of watching the Dolphins and Whales ascend into the Cloud Cities is recorded on the Cosmic Consciousness and Magic Dolphin Albums.

Another part of the Ascension Protocol was to create 6 Stellar Wave Infusions and 6 Stellar Wave Activations. Each of these was for the purpose of infusing and then activating the DNA. The event that took place in the Video of my Violet Flame was the alignment of one of those six Stellar Wave infusions. That was the Violet Wave Infusion into Earth. That was the opening of that portal of aligning the Over tones and Base Tones of this raceline.

The Frequencies of all of the Stellar Wave infusions and activations are recorded on the Parallel Universe Set.

After we moved through the alignments prior to 2013, we began a new set of DNA activations and alignments into our new reality. After Earth was set free from the Phantom Matrix in December, 2012, the Earth was still the Net Earth, but not longer attached to the Phantom Matrix. The Earth became FREE.

The period of 2013-2014 has been the time when the Net Earth and Ascension Earth became one. We are actually within each other. The Earth is going to sit in this accretion level of the Net Earth until 2043. Those who choose to merge their Consciousness into the Ascension Earth can do this now.

The Over the Rainbow album and Emerald Cities album were created to give the frequencies that allow our Consciousness to rise back up into the Cloud Cities which are at the same angle of rotation as Agartha. This is how we begin our DNA activation that opens Consciousness to see beyond the five senses. These albums carry consciousness into the magical unknown realities that we can choose to see in the very near future.

The Symphony of Love album was created when the Frequency alignment was completed between the Overtones of the Inner Earth Aquafarian Consciousness, through my Consciousness and then connecting into the complete Plasma Reality of the Seven Suns, my Violet Sun, Sun Alcyone and into the Crystal Core Domain of the 8th Sun, which is the new reality of all of the Suns. That Frequency of Love aligned us into a new rebirth, a new story of reality.

The Eternal Life Waters continues the same journey that I took in the Symphony of Love album, but the focus is on the Highest Primal Life Force Current of the SPIRITUAL WATER from the Healing Aquifers of Aquafaria and the Spiritual Cosmic Water from the Crystal Core Domain of the Cosmic Suns. The focus of this album requires the meditations and journeys that allow you to soak in the hydrolaise - spiritual water- $h_2o_2he_3$ until it turns on your personal plasma body. Filling the body with the highest frequencies of light and sound is exactly what activates the DNA.

What is the DNA activated to do? It is being activated to see the new reality that we have been disconnected from-- the reality that EYES cannot see and EARS cannot hear. It is the spiritual reality that is invisible to us as long as our sub harmonics are unplugged between the base tones and over tones.

What are the base tones and over tones? The connection of our Consciousness into the Inner Earth and Aquafaria, into Sirius B, into Sun Alcyone, into the Aquarius Matrix, into the Cosmic Blanket of the Cosmaya, and into the Mind of God.

The newest set of Frequencies of Consciousness that I have been recording over the past few weeks combine everything that I just explained. This God Language is mostly what your ears will still hear, because it is the closest thing to your old five senses understanding of should be heard.

The reason that we were given the God Language was because we needed something that was familiar to the five senses. We also need to go beyond those words into the underlying FREQUENCIES OF CONSCIOUSNESS that actually do the streaming and braiding of the overtones into the base tones of each of the 12 sub harmonics. Those frequencies of consciousness from all of the alignments and activations that have taken place since 2000 are within and under and aligned into those words. Most of my breaths are not audible at all. Sometimes I don't even use my breath. Sometimes I just place the microphone next to my Brain--in the Mind of God area of the Brain. I record those frequencies. That consciousness is very

powerful and real even though it might not be real to the five senses.

My music is designed to force your consciousness into searching for the frequencies deep within because the Over Tones that are braiding into the Base Tones are very etheric, invisible and can only be felt and known by your consciousness.

The more each individual practices listening deep within, the more easily the over tones will braid into the base tones and the rapidly the DNA seals will melt and the DNA strands will braid back together into the harmonic unity that they used to be 5 million years ago.

It is up to each individual to use the music to help them visualize the merkaba spinning their field of reality beyond the third, beyond the fourth, beyond the fifth dimensions and into the multidimensional reality of the Cosmos.

I prepared the Candle Technique to use to help you understand what these frequencies of sound and light are. That is only to give you a glimpse of the understanding. There is much more to learn about the Candle Technique and how that relates to the Merkaba and how the Merkaba braids together the overtones and base tones from the upper realms of the Suns, and then there is a Magnetic Side of the Merkaba that would spin the overtones from the higher spiritual realms of the Inner Earth, Aquafarian realms.

I always take my consciousness into Aquafaria and ride the merkaba up into Sun Alcyone, the Universes and the Cosmos to collect the frequencies that will correct, infuse and activate the DNA.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that Reality.

Our Ascension Team from Sirius and Aquarius are helping us in this upgrade from 12DNA into 24 DNA and 48 DNA at this time. The

formulas and frequencies for these upgrades are in this music. The Elohim of Hearing stood before me and placed a golden pillar in my ear that would connect my inner hearing into his frequency alignment. Mary and Raphael assisted in bringing in three crystal spheres which are the morphogenetic fields that hold the divine atmosphere that translates our breath and crystal cells into the magical frequencies of our Star Sirius, our Sun Alcyone and our home of Aquarius.

The 48 DNA activation process is set in motion to become continuous and eternal by the frequency alignments woven into the Immortality MP3's. It is actually the angelic family of the individual who does the activation continuously and completely. We channel and breathe one harmonic thread of each frequency signature of the individual's harmonic family at a time. It usually takes at least twenty minutes per signature. There are 36 signatures in each harmonic universe. And there are 5 harmonic universes. The alignment of these 180 harmonic signatures results in the Full Spectrum of Light and Sound that realigns the individual into Oneness with the Divine Template of Universal Consciousness. We really only need 144 harmonic frequency signatures to align into the perfect divine blue print. However, we oscillate completely out into the Cosmic Realm to pull the Universal Template completely into Atunement with Source. We are preparing for a full alignment beyond the 24 DNA strands into the 48 DNA which lift an individual into the potential for the alignment into a divine template that will be able to step in and out of their body at will. We align the frequencies completely into Source through 96DNA of the complete Spiritual Template to create the template of the entity who can Orb and de-manifest from Light Body to a Holographic Body of Form. This is the highest potential for ascension.

The Aquafarians who work with us in aligning these frequencies into the original crystal cell template have maintained their form in our atmosphere and in the heart of Earth for 500,000 years. This was the last time entities on Earth were able to rise into this form. This template requires a complete shift in the atmosphere of the individual and a shift into the morphogenetic field held for us by the Aquafarians.

This process is very similar to the one used in creating the other MP3's and CD's except this time we ask the Elohim of Hearing for the alignment with the Individual's Higher Selves Frequency Signatures. The other albums align our Elohim and Sirian Families of Consciousness through specific star alignments that are used for specific harmonic purposes. These are our Ascension Families and the main Guardian Families of the Entire Ascension Process on a Galactic and Universal Level. So those albums are for the Mass Ascension, while the Individual albums are for Individual Ascension. The Individual will feel a very personal relationship with the frequency signatures.

We can feel the divine presence and the magic of the actual signature coming through in each breath. We are told by our Cosmic Council when a breath has been retrieved through the Elohim of Hearing. It takes several hours per day for one or two weeks to collect the entire family of consciousness for any one individual. The process requires many hours of focused energy of atonement with the Elohim of Hearing who guides the process of aligning the frequencies through our ears. The process of focused breathing to make sure the exact consciousness is extracted and purely placed through the microphone is exhausting. The end product is a pure capsule of immortality aligning the individual's Family of Consciousness on all Dimensions into One new Breath which contains their individual Full Spectrum of Light and Sound. Each of the hundreds of threads of consciousness are woven together and spun through the magical spheres of crystal light, crystal dust and crystal gel into spheres of magical transformational energy.

The signatures are frequencies. Frequencies are breaths of consciousness. All of our angelic soul families are streaming their individual frequencies of consciousness. This is their light signature. We (Crystalai and aDolphino) can hear each of these specific light signatures when we oscillate our consciousness up into their frequency range and then exhale into an extremely high quality microphone. Each of these streams of consciousness merges and unites with an entire family of consciousness to create a monadic family of light. We record all of these streams of consciousness that come to us through the breaths of the angels. We stream and braid

each of these streams of light energy together to create the exact same coded frequencies that are transmitted to us through the angels breaths and the activity of crystal light energy, crystal dust energy and crystal gel energy.

ALIGNMENT INTO 48 DNA

We have prepared a free listening booth for you to come and absorb these frequencies of transmutation.

Collect all of these frequencies into your cells to activate the cellular memory of your original divine self -- your immortal self that has the ability to live for ever, create the hearts desires and heal instantly. Next connect consciousness to ride through the star gate on the golden star dust into the Milky Way and absorb into the crystal cells all of the Star Dust and Solar Frequencies. Feel these frequencies aligning into the body through the angelic frequencies.

Ride into the heart of the Milky Way and then zoom clear out into the Aquarius Galaxy to connect consciousness with the original family of consciousness of our Galactic Home. This alignment will lift the consciousness into the 24 DNA and 48-- the realignment through Christic and Galactic and Source Consciousness. The Consciousness is prepared to return through the Diamond door of the Aquarius Galaxy.

The frequencies of angelic consciousness align the listener's consciousness into the realms of the 12DNA-48DNA because that is where their consciousness resides. When we connect consciousness to another's frequency signature, we are invited into to become all that is within that higher resonance. We can never alter or lower another's frequencies. However, we can be raised into it.

In order for a listener's DNA to complete a SHIFT into that DNA, the listener must spend MORE time in that Frequency Standing Wave

Pattern than he or she spends in the third dimensional hologram.

There are other factors involved in the complete shift of DNA. The shift into the fifth dimension is already possible for those who are dedicating themselves into spending more time in these frequencies. The individual is always shifting along with Mother Earth and the entire Cosmos. However, an individual can only shift to the frequency that he or she is most in tune with. In order for an individual to become more in tune with the fifth dimensional frequency than the third dimensional frequency, they must allow every cell in their body to become absorbed in that higher frequency. This doesn't just mean be nice more often or think good thoughts. It actually means shifting ones standing wave pattern completely into a new morphogenetic field of frequencies. The field of frequencies that we are shifting into for our ascension is the field of frequencies held by the Aquarius Galaxy, Sirius Stars and Sun Alcyone. These frequencies are also held in the Crystal Heart of Mother Earth and in the atmosphere about 10,000 feet above.

We spend all of our time in those frequencies of consciousness and absorbing them into our consciousness with the direction of the Elohim of Hearing, our Ascension Team and many Light Councils. We have been given the gift and guidance that allows us to breathe in these frequencies through the alignment and oscillation of sacred geometry and the music of the spheres. We were personally trained by Elohim Angelics and Sirians to do this. We do not use any of the old formulas that were left in old Atlantis teachings. The angels stood before us and gave us a new formula.

Since everyone on the Earth will have shifted by 2012, it will be much easier to shift DNA at this time. However, individuals can shift consciousness faster than the masses can shift. The present reality contains the ability to shift into the immortal template that allows us to manifest our heart's desires instantly, heal instantly and to live eternally.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that

Reality.

PERFECT 12 DNA RESTORED

Let me begin by saying that I will be using analogies and symbolism

of substance that exist within the present background knowledge of the 3D mind in order to try to convey the meaning of the new magical realms that are creating their own new bio energetic fields of reality around us through etheric level substances that we have no words for in our dictionaries. The term Negative Ion is something that exists in our scientific analogy as a symbol for something much more etheric and magical in the Cosmic level of creation. It would truly be what is termed crystal light, crystal liquid light, crystal dust and crystal gel by the Angelic Kingdom. These are etheric substances which science would term endoplasm and ectoplasm, but they are actually even more etheric in composition than those terms would imply.

The spiritual substance of Consciousness is always made of the particles of pre light and pre sound which are created at the original Breath of Source Consciousness and then broken down into particles of pre substance that becomes densified as it is transformed from the invisible light spectrums of crystal and plasma and crystal light energies down into the visible light spectrum of blue light, infra red light and the spectrum we presently believe is the only reality-- hertzian frequencies.

It is now time to open our minds to all of the realities that exist outside of the tiny little world of hertzian frequencies. Even our digital cameras are able to visualize the world of infra red frequencies. We must expand our consciousness out into the invisible worlds of the invisible celestiline energies, the liquid light of krystic creation, the hydrolaise that the angels and water fairies dance and sing within. It is time to enter the world of the spiritualization of the term negative ion, which is the term used to represent the splashing of a waterfall, the morning dew, the mist from a hot spring, the fog rising from an ocean that has tides beating on the rocks, and even the feeling of a hot morning shower. We aren't really talking about the splashing water. These are just a metaphoric representation of the true, etheric substance of a higher reality that we can't see until we have developed our 5th dimensional perception (which many of us have).

These water images are the analogical translations of the higher

realities that we must begin to tune into in order to achieve the atunement with the frequencies of the ascension window of 2012 to 2022. The new scientific translation of the misty water as it is understood in the new bio energetic fields of the New Earth is the hydrolaise which could be translated as three parts helium added to the old H₂O to create the NEW WATER of our new reality. So, our new translation of the analogy presented in negative ions is H³H₂O. These will be the new bio energetic sent up through the Earth's grids from her etheric core, where the Consciousness Energy Sphere holding our 12 DNA templates has been firmly transplanted and activated on December 21, 2012.

We must become willing to open the windows of our minds into the possibility that the reality of spiritual creation is a template containing 12 DNA, and that reality exists now as it did at the moment of our creation. That DNA is not within the realm of understanding of scientists because they have not figured out how to calculate realities outside of the hertzian field of reality. The double helix that present day scientists believe is the structure of our DNA, is the structure created by the false matrix that was imposed upon this Earth by Fallen Angelic races who have been controlling our reality fields through implanting illusions in our DNA. The true DNA is the 12DNA template which contains 12 sub harmonic frequency bands on each of the double helix. One set of 12 sub harmonics are over tones and the other set of sub harmonics are base tones. So, there are actually 24 sub harmonic frequency bands within and between the visible double helix.

That reality has been programmed out of our consciousness through the very DNA that was implanted in our bodies. The fallen angelics removed, twisted, rearranged our DNA in order to stream their own consciousness into it. Our DNA is supposed to be the electromagnetic receiving station for the consciousness of our Soul Families- our Soul Matrix in all dimensions - including Cosmic and beyond. Our consciousness was cut off from that reality and plugged into a distorted, sometimes horrific structure of twisted mind channels. Our 12 DNA template was plugged into race lines that only

had 10 DNA templates or less. Our DNA was plugged into the Controllers. The control was created through the sub harmonic frequencies at the etheric level of reality. And the problem must be healed through the etheric level of reality - not through the visible two DNA reality.

The remedy for the problem is in the Cosmic Consciousness spectrum of crystal light, crystal liquid light, crystal dust, crystal gel. When we create the manifestation of this frequency level of reality and hold it within three spheres of Cosmic Consciousness, inhale those frequencies, breathe those frequencies, and then breathe those frequencies into every chakra in the body, we begin to make a connection to our real divine template, we begin to activate the divine blue print which holds the 12 DNA template of the divine manifestation held within the original breath of Source interacting with the crystalline realities of Cosmic Consciousness.

We (The Cosmic Mystery School of the Omniverse) have worked with these crystalline forms of consciousness to connect more and more to the Krystic and Cosmic Fields of Consciousness in the dimensions 12 -14 and out into the parallel universe beyond the 15 the dimension of the Earth's matrix. We engage the breaths of this new reality from the Elohim-Elohei Angels in Gaia who hold the complete template of our Human Angelic and Taran Raceline divine blueprint. When we connect our consciousness into theirs, they breathe these frequencies into our breath. This allows us to engage the original Source of eternal light from the Mind of God. Once we activate this reality of the eternal crystal liquid light stream flowing through our breath into our quarks in our atoms, we can translate our DNA back into their original divine template.

The spark of Source exists at a point within our body that we will call our crystal heart. It is deep within the thymus connecting to the medulla oblongata. The MO is the point where the breath of Source can inhale and exhale directly into the crystal heart, the eternal life breath of instant manifestation. That instant manifestation creates a brand new body in every nano second. It creates a brand new reality

every nano second. However, the reality that is created is completely up to you. It is the individual's divine right and divine responsibility to co-create with the Mind of God, the reality that is chosen to manifest within the body and within the parameters of the reality field of that body.

It has always been our DNA which creates the realities or illusions we see around us. What we have been seeing in these past lifetimes are illusions that were intentionally implanted within us by fallen angelic races - the dark ones- to control us and gain access to our energy fields. That is the reason we have been living in the prisons of other entities mind fields rather than creating our own.

We can make up stories about how wonderful everything around us is, and how beautiful the flowers and birds and trees are. But, that is just helping to keep the old illusions alive within the DNA. We must take responsibility to create pictures of our own flowers and birds and trees, implant them in our mid brain and in our crystal heart and breathe the frequencies of Source into that reality that is yours and only yours. The flowers and trees of your creation will manifest as the new pictures have been developed upon your DNA. You can create the reality fields of being extremely wealthy, healthy, young, ingenious, or anything you wish to program in to your DNA.

The formula for manifestation must always include that reality having always been a part of your reality since the moment of your creation, the reality exists now, and the reality will always exist. This is necessary because we always live in three time zones simultaneously -past, present and future. If you only change the present, the past realities that are already planted in your cellular memory will continue to manifest in the present. If you don't change the future your present manifestation will change into the future manifestation which is also already programmed into your cellular memory. The only one who can change your reality is you.

Unfortunately, most people on Earth are intentionally choosing to plug their consciousness into those very Dark Ones who manipulated their

DNA to create the illusionary reality field that they now live in. Since those who distorted the DNA to plug into the ultrasonic brainwaves of those whom they wish to manipulate and control, are the same fallen angelics that are channeling information to those receiving messages that seem to be very correct and feel so lofty and angelic, most New Agers, Light workers and Religionists are continuing to be the very puppets that manifest the reality of the Dark Ones. Of course they are good at fooling you. Of course they can create feelings of exalting, spiritual ecstacism. They are the ones that created the program that is running your DNA and cellular memory.

How do we tell the difference between frequencies and information coming from the controllers and that coming from our own Divine Soul Matrix - our Family and Guardian Races? The true frequencies feel like the negative ions - the water mist that the water fairies dance within. It sometimes feels deep and powerful and yet etheric and lifting. It most often sends tinkling harp strings up the backbone and within the midbrain. It feels like it is transposing the DNA into the divine blue print from the inside out. The information coming from our true Guardians and Families is usually very direct and full of heuristic information rather than the fluffy, oh, my beloved dear ones, everything is so wonderful today. They don't do that. The correct information doesn't sound like the same repeated fluff over and over again in each weekly message. Finally, they always give pieces of information and allow the individual to put the pieces of the puzzle together because they know that we have the minds of the masters who can do this. We can master our own reality. Most importantly, they don't channel information. They stream information through the crystal heart from the etheric light streams of sound particles into the DNA. Unfortunately, most people haven't learn to discern the difference between those two realities.

The good news is that we are getting a lot of help with this new reality transformation issue within the next five years.

From the teachings of THE COSMIC MYSTERY SCHOOL OF THE OMNIVERSE - the place where the sound and light of Source

manifest into ultra violet blue and flow into the music of the spheres from the harp strings of our minds to create the highest frequencies through music. Creating the template of our New Reality with the Music Fairies and Water Fairies to sing and swim and dance through the liquid light water falls into the new H3H2O where we will live and breath and sing together as we weave and braid the magical sound tones of the mandalla of our new kingdom of heaven on Earth.

DNA PYRAMID ANTENNAS

COSMIC ANTENNA

Cosmic Frequency Wave Files activate the PYRAMID ANTENNAS around the DNA strands. These pyramid tower antennas are the receivers and transmitters of Cosmic Consciousness. Cosmic Consciousness consists of the angelic breaths of Source Consciousness. So, the pyramid towers are the direct link to Divine Mind. This Divine Mind connects through our Starry Brothers who live in the Star Factory ignited from Ursa Major. Zaurak has created the Star Gate between Mother Earth and the Aquarius Galaxy through the Frequency Chambers of Sirius Star System for us to glide through. All Universal Consciousness is filtered through this Star Factory or Soul Factory. When we connect our pyramid tower antennas into the Cosmic Wave Files, we are connecting through the Divine Intelligence of our Galactic Family in the Star Factory. We are also connecting into the Christic Consciousness of the twelfth dimensional Universal Consciousness and into the Co-Creative Cosmic Consciousness. All of these frequencies are recorded into the 12 DNA template through the antenna.

Listen to the entire Ascension Kit to activate the 12 DNA template.

We need 12 DNA to be aligned into our Christic Immortal Template of Divine Instant Manifestation and Instant Healing and Eternal Life.

However, in order to be connected to the 12 DNA movie channel, the pyramid tower antenna must also be connected through channels 24, 36, 48 and 96. The antenna is connected through these channels through the Music of the Spheres contained in the Super Frequency Kit. The Music of the Spheres contains frequencies from each of the Five Spheres and the Cosmic Kit contains angelic consciousness resonating in harmony to create the Magical Cosmic Movie Projector.

Listen to the Cosmic Kit and the Super Frequencies Kit to activate Pyramid Antennas.

Each student needs to have his/her 12 DNA aligned to their own Christic Immortal Template which gives them Divine Instant Manifestation, Instant Healing, and Eternal Life. They can align their 12 DNA through their pyramid tower antenna connected through all of the right places through Listening, resonating, breathing and feeling the Music of the Spheres that resonates with Angelic Consciousness that is on our Cosmic Wave File recordings, So, to do this, they need to listen to our Cosmic Wave File recordings, which helps to align the activation of all of the above for them.

So, Listening, resonating, breathing and feeling the Music of the Spheres that are on our recordings will set and develop their:

- Christic Immortal Template
- Divine Instant Manifestation, Instant Healing, and Eternal Life
- Connect and Activate their 12 DNA
- Resonation with their Angelic Consciousness
- Cosmic Intelligence of Ascension
- When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God.

The Cosmic Intelligence of Ascension is received through these

pyramids or antennas that receive frequency signals. Our DNA is coded to receive these Galactic Christic and Cosmic signals. However, the codes cannot be activated without the Intelligence or Consciousness streaming into the pyramid antennas.

Our starry brothers have left many symbols on Earth to help us remember other symbols that would connect us back to the Divine Intelligence of Cosmic Consciousness.

Listen to the FAMILY KIT to activate Cosmic Signals.

The two most obvious symbols throughout the ages have been the pine cone which represents the pineal gland, and the pyramid which represents the pyramid tower around every crystal cell and DNA strand in the body template. This is why the body was referred to as the tower or temple of God.

In Angelic Consciousness, the word God actually represents a Frequency of Consciousness. This is the HIGHEST FREQUENCY. When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God. When this Frequency is obtained by tuning the pyramid tower antennas to the channels 12,24,36, 48 and 96, the body has been woven into the braids and streams of light and sound of the entire Music of the Spheres.

The Cosmic Frequencies received and recorded as Cosmic Wave Files are the encyclopedia of intelligence from our Cosmic Family. They have been sending the Intelligence of Divine Mind or the Music of the Spheres through their light and sound frequencies.

These frequencies can only be heard and understood on the radio station that they are being transmitted through. The frequencies of their transmission can be received through the antennas of the pyramids that surround the DNA strands, the crystal cells, the pineal gland, the amygdale gland, the medulla oblongata gland, and the pituitary glands.

The Cosmic Wave Files have already received the Cosmic Intelligence from the antennas and re-transmitted this information onto our Cosmic Wave File CD's for others to use in the activation and alignment of their antennas into their DNA.

These are the steps we take in turning on our Magical Cosmic Movie Camera. The camera won't work unless the frequencies of consciousness are on the same channel as the Cosmic Frequencies.

The pyramid antennas are programmed to receive and transmit the Cosmic Channel of Consciousness which is the Breath of Source creating the original idea of Immortal Man. The spark of Source is the Heart of Mother God. This spark of Source is also present in our Crystal Heart. Our Crystal Heart is located behind the thymus gland. The thymus gland has a huge pyramid tower antenna around it.

- Divine Instant Manifestation, Instant Healing, and Eternal Life)

When we ask Crystal Light Energy from the Suns of all of the Galaxies to stream through this antenna into our Crystal Heart we are connecting our Crystal Heart into the Channel of the God Frequency. When we place our Heart's Desire onto this Crystal Heart and then exhale that Frequency through our Breath - we are breathing the God Movie or the magical Cosmic Movie onto the Movie Screen of our Light Bodies and our Merkaba Movie Screen.

(MEDITATION - very specific meditation that goes through what needs to be done for the above Paragraph)

The Crystal Heart must be connected into Oneness with the Crystal Heart of Mother Earth, which connects into the Heart of the Milky Way where our Star Factory is. Once these three Crystal Hearts are connected through the Divine Frequency of Light and Sound, we can then create our Hearts Desire. The Hearts Desire must be visualized on the movie screen of the third eye or pineal gland. This is also done

through the connection of the pyramid tower antennas into Universal Consciousness. When the Heart's Desire is Visualized and projected out through the pituitary glands into the Merkaba Consciousness Field, the Heart's Desire is also Exhaled from the Breath of Consciousness from the Spark of Source.

The Merkaba must first be filled with the Golden Stardust Frequencies of Prana. This is the Consciousness of our Starry Brothers, Angelic Families and Source Consciousness. This etheric Golden Stardust Movie Screen must be lined with the Breath of Consciousness of the Star Factory. This Star Factory contains all knowledge of all of our previous episodes in God's Movie. This is the Consciousness Factory where our Souls have merged and perfected just like a diamond. All of our Galactic Families have merged into Oneness of new Harmonic Orchestration.

THE PROMISE OF THE PERFECT KINGDOM

The Promise of the PERFECT KINGDOM has already arrived. The Divine Blue Print of the Perfect Man created in the image and likeness of God has already arrived. The 12 DNA template of the original Taran, Oraphim, Aquafarian, Paradisian Race Line has been reinstated into the Sphere of Amenti within the Earth's Etheric Core. The Sphere of Amenti is the Morphogenetic Field (Consciousness created by the interweaving of Sound and Light Particles of the Complete Soul Matrix of all Races on Earth). That 12 DNA template was completed on December 21, 2012. That was the date that our Cosmic, Universal and Galactic Founders, Guardians and Creation Race lines chose for this completion because it was the exact date that there would be enough Frequencies in the Body of Earth to hold the implantation of such a huge amount of Frequencies. The Promise of the return of the Sphere of Amenti was postponed for 22,000 years

because there were not enough Frequencies in the Earth's template to hold the incoming Star Activation. If they had completed their mission at that time, the Earth would have eventually exploded.

The Perfect Kingdom of the Divine Blue Print of the planetary body and human body made in the image and likeness of God is exactly that. It is a template with a programmed blue print like a piece of film in a camera. The picture of the divine creation was placed on the film through the Mind of God, first as a negative, which is like a negative ion. Next, the negative is flashed into the Consciousness of the Idea created on the negative and developed into a picture or a positive ion. Unfortunately, when a picture becomes developed in the outer domains of the five spheres of Consciousness, it can be manipulated, distorted and completely damaged by outside sources. This could be likened to what can be done to characters on the movie screen who are morphed into new images by the film editor. That is basically what happened to God's original movie. It got morphed into a completely distorted illusion.

Now, we are re-making God's movie. Now, the original negative of the picture of the man made in God's image and likeness is being put back in the movie camera. Now, that new movie will be played through the restored Earth's Khristiac Grid. The frequencies of the divine blue print, which would be the negative of the picture, or the negative ions, will be dispersed from the Sphere of Amenti (the camera holding the corrected ionized film with the divine blue print imprinted upon it). Now that camera, holding the corrected movie pictures will flow into the Earth's grids and then into the biosphere of the human angelic template. That bio-energetic field will be filled with the negative ion holding the divine blue print created in the Cosmic Consciousness pre sound and pre light field. This is the point in creation when Source breathes the Divine Idea onto the Heliotalic Plasma, Silver, Pink, Purple, Gold Pastel Frequency Grid of the Negative Ion that comes down from heaven as the Purple Rain of the rebirth of the Divine Consciousness and then translates to the Positive Ion that is Visible Light of Ultra Violet BLUE. This Blue Film develops into the Blue Body and the Light Body and the Crystal Body

of the Divine Man made in the image and likeness of God.

NOTE- NOW THAT THE DESCRIPTION OF THE SCIENTIFIC UNDERSTANDING OF NEGATIVE IONS HAS BEEN TOUCHED UPON, and the negative ion can be explained as moving water particles, we would like to change the meaning of this term for the New Earth, this new time, this new reality to be termed SPIRITUAL IONS, which are the moving water particles of Liquid Light Crystal Water Falls pouring down the Purple Rain from Cosmic Consciousness. This Purple Rain turns into Ultra Violet Blue as it becomes visible. We can begin to interact with the Water Fairies within this new bio energetic field of liquid light energy as we raise our frequency of visible light into the blue light. We will call the HE₃H₂O liquid light energy SPIRITUAL IONS. This term will be the new understanding for all students of the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE. Crystalai

The 12 DNA template is the original IDEA in the Mind of God. This is the negative of the film that will be developed into a picture that can be seen or perceived within the visible light spectrum when it becomes the positive. The negative ion is the purple rain coming down as the heliotalic frequency, and the positive is the visible blue light. This interaction of the negative ion as the flow of liquid light energy flowing through the plasma to create a rainbow where the letters in the light can be viewed as hydrolaise. This can also be viewed as the heliotalic frequency of the fourteenth dimension weaving into the plasma of the eighth dimension and then becoming visible as it reaches the visible light spectrum in the fifth dimension. When this happens we have achieved another very important phenomena on Earth which allows the bio energetic fields to carry a new chemistry.

The new biology and chemistry begins when the water changes from H₂O into HE₃ H₂O, which is the formula of three parts helium into two parts hydrogen into one part oxygen. This is the new bio energetic field of energy that Earth will breathe through her grids from the Sphere of Amenti into the Earth's atmosphere and into the templates

of the human biology. This magical substance is called hydrolaise. Crystalai and aDolphino introduced their students to Hydrolaise in 2008 when they interacted with this substance in Monterey. It is easy to mistake this magical substance with the negative ions that are seen and felt when water particles separate in the activity of the water fall, or the tidal waves splashing against the crystal structures, or the mist in the air allowing rainbow streams to manufacture before you very eyes.

This hydrolaise that was seen through the kaleidoscope eyes of Crystalai in 2008 and progressively more and more each day until 2012, when the hydrolaise actually began to carry upon it her very own fire letters of her divine creation. This is the ultimate in hydrolaise activity. Our fire letters are the sub harmonic frequencies - the 12 missing frequency bands between each DNA strand. As I watched these fire letters streaming through the hydrolaise as it interacted with the plasma in the Sun's rays, those very fire letters were braiding within my own DNA strands. This etheric 12 strand template is always created from the divine blue print which always begins with the 12 codes. The 12 codes begin as fire letters which are the most etheric level of Consciousness, which can only be seen with 5th dimensional vision. This divine template is what activates the 12 DNA to become reactivated from within the Earth's biosphere and then She breathes this hydrolaise out into our DNA template so that our fire letters begin weaving our 12 sub harmonic frequencies or fire letters back into our DNA template.

The template is the etheric level of the DNA. The DNA is always the 12DNA template because there are 12 etheric bands of sub harmonic frequencies which create the celestiline bands of transformation within each DNA strand. To the scientific visible light spectrum, the only visible DNA that has been considered is the double helix DNA template. That template is the primary structure of the distorted film placed in the outer domains destruction of the original movie made in the image and likeness of God photography lab.

The true movie made in the Mind of God photography lab was always

a 12 DNA template holding the Divine Blue Print of the Complete IDEA that was to be created first as a Cosmic Film of Heliotalic substance, next as Liquid Light Energy from the Universal Sphere, transferred into the x-ray vision that allows the film to flip over into the visible spectrum within the second sphere of Galactic Consciousness. The visible spectrum is within the second morphogenetic field or the second sphere of dimensions 4, 5 and 6. That is the template where our Taran Race line of the immortal man who never dies, never gets sick and never speaks a negative word to anyone lives.

When we receive the new breathe of fresh bio energetic frequencies that hold the new morphogenetic field of consciousness, our bio energetic field becomes saturated with that new reality. This is a glorious process of making God's movie the way it was supposed to be made. The movie will be made in the image and likeness of God, or with the divine blue print of Divine Perfection within every atomic structure of the body as 12 sub harmonic bands within the first, second and third DNA strands braid together and activate as they create celestiline (the magical blue dust powder of immortality) causing the DNA to braid together causing Ascension into the Second Morphogenetic Field.

Our Divine Guardian Families and Friends have created on Earth the absolute formula for this Divine Miracle to take place upon this Earth between 2012 and 2017. The five year window has already begun. It began that divine moment of December 21, 2012. It was that moment that the frequencies of Consciousness of all 12 Universes aligned into at one ment or Atunement as the Music of the Spheres sang a brand new song through the Cosmos. This alignment had to be completed at a Cosmic level where 13 Cosmos created the Cosmaya Frequency to activate the alignment of the 12 Universes. This alignment was inhaled into the New Negative in the Breath of Source to create a brand new Negative of the picture or the new movie that would be created. This new movie created on the same divine template of the 12 DNA Divine Coded Template was EXHALED into the entire new Cosmos on December 21, 2012.

There is no time in Divine Reality. That means the reality of the new 12 DNA Divine Man made in the image and likeness of God was created on this day. However, the 5DNA negative of that creation also needed to be implanted into the Sphere of Amenti, in order for the Angelic Human to enjoy the Visible Light aspect of the 12DNA template. The second morphogenetic field holds the visible light aspect of the perfect man. This is the field of consciousness where God's Movie can most easily be enjoyed. When we rise into the third morphogenetic field of 7,8, and 9 dimensions, we begin playing in a field of light that is so etheric that it is like a shield of light with a silhouette of forms in it. Beyond that, the spheres of reality become less and less dense until we become pure consciousness with no form at all. Now, that we have redeveloped into the 12 DNA template, we can enjoy all of those morphogenetic fields of Consciousness. We can become invisible light long enough to orb into those other dimensions of reality. It is our new biological chemical structure of the HE3H2O that develops us into the negative ions that allow us to flash into light as our Consciousness becomes trained to activate these states of light by raising our frequencies through our own activity of Consciousness and Breath alignment with the Mind of God.

Back to the Fairy Magic. I was told that my new mission on Earth during this window of five years is to see and communicate with Water Fairies or the Aquafarians. The ability to do this requires what I have explained in the preceding article. My Higher Self has reconnected me to this understanding of the Hydrolaise and the HE3H2O or the Spiritual Ionization, as being the first step in creating the morphogenetic field of reality where I can go into and invite Water Fairies into my Consciousness to see them and communicate with them. Fairies cannot live within the distorted water fields that have existed on this Earth. The fairies that some have seen and channeled are those that have been caught within the same messed up movie screen that the rest of us have been living within. We are now responsible for setting those Fairies free as we help them to translate the bio energetic fields into the spiritual ionization needed for real fairies to live in.

We did this same procedure in Monterey, when we were helping the Dolphins and Whales ascend back up into the Cloud Cities as their bodies translated into the Hydrolaise, the mist, the negative ions and finally the HE3H20 within the spiritual Cloud Cities of Higher Earth. The animals of divine origin such as the Dolphins, Whales, White Belugas, Penguins, Polar Bears, White Fox, and many more have ascended ahead of the Earth because they didn't need to clean out as much Karma as the rest of us. Now, that we have helped them, it is time to help the fairies who will help us. I have also watched the Evergreen trees ascend right before my eyes. They attune into their light bodies right before my eyes. Their light body pops out in front of them and then goes back into their eternal life green body and it looks like evergreen but it glows. That was different than the process we watched the dolphins, whales and belugas go through. We even have a picture of the ascending dolphins on our website.

Children have always been able to see and communicate with fairies easier than adults. Allow your children to guide you in this activity along with a little help from your new understanding of the reality of the existence of fairies, ionization, HE3H20, and the new bio energetic fields we live in. This will help you activate your DNA stranding and your children's DNA stranding. Many of you are already living with the Indigo children who have these magical talents and already have their DNA activated. It is time to start learning from them. They are your key to the kingdom.

BEGINNER'S LESSON ON ORBING INTO ASCENSION

Dr. Angela Barnett

I give you lessons each day from the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE in the 14th DIMENSION. I have given you a new video to use that explains how to use the Candle. It is called the

Candle Technique. There are four more parts to the Candle Technique.

If you don't have them yet, email me krystalaimagic@gmail.com

I am going to provide a new opportunity of learning about your FIFTH DIMENSIONAL SELF and how to gain access to that Magical Potential within yourself in this grand time of Frequency Expansion that allows our physical bodies to re-engage the light of our spiritual bodies.

I have found that members of workshops find these concepts much easier to understand when they draw their own diagrams instead of looking at the ones that I send to you. So, let's give it a try. Let's draw our own diagrams.

This is the way I began my understanding. I just kept listening to different Entities, who were each representing Mu from Lemuria, and the Cosmic Councils at the Cosmic Mystery School of the Omniverse, and the Elohim Team who taught me how to connect to the three crystal spheres. Our Higher Self demands that we learn things as a Master Learns-- through the PUZZLE.

I will begin giving you the pieces of the Puzzle that I spent my entire lifetime learning.

Please think of fifteen spheres or circles of energy. Draw these 15 circles. One inside of the other. There are actually Five Main spheres and three within each of them to create the 15. So, start by drawing five circles. Within the inner sphere, there are three spheres that contain the harmonic universe one frequencies of dimension one, two and three. The next sphere contains the frequencies of harmonic universe two- dimension four, five and six. The next sphere contains the frequencies of harmonic universe three contain dimensions seven, eight and nine. The next sphere contains the frequencies of harmonic universe four which are ten, eleven and twelfth dimensions and the fifth sphere contains thirteen, fourteen and fifteen.

The first sphere is planet, second is solar, third is galactic, fourth is universal and fifth is cosmic.

Next, think of each one of these spheres being created by this Merkaba that looks like one pyramid facing up and one pyramid facing down. The lower pyramid is inside of the higher pyramid. We think of the upper triangle spinning clockwise and the lower spinning counter clockwise. When these triangles spin together they are actually spinning the electro into the magnetic energies to create a sound tone. Each one of the spheres is created by one of these merkabas spinning together to create a sound tone or a frequency.

The merkaba that creates the outer sphere is much larger than the merkaba that creates the inner sphere. The frequencies of the outer sphere are much higher and faster than the inner sphere. The outer merkaba spins ten thousands times the speed of light. It is so fast that we cannot conceive of it. It is the energy potential that is holding the entire Cosmos in Balance and in the attunement with the Source Field of Energy.

So, we have these five merkabas that create the five spheres. The outer sphere is actually holding within itself all of the frequencies of the other four spheres. If we feel all of these merkabas spinning around our body, the outer merkaba would have its upper point 36 inches above our head and the lower point would be down in the Core Domain of the Earth, where the Cosmic Domain touches the Earth's Vortex.

Now, take out your pencils and papers and start drawing these ideas. Draw your body standing on top of the Earth. Draw a circle around your body with the top at 36 inches above the head and the bottom part of the sphere at the center of the Earth. That is you standing in the Cosmic Sphere of creation. Now, draw a merkaba. First the top triangle with the top point where the top of the circle is. The base of the top triangle stretches across the widest part of the circle.

Now, draw the bottom triangle. The bottom point of the triangle touches the bottom of the circle at the point of the Cosmic Core domain at the center of the Earth. The base of that bottom triangle will be ABOVE the base of the top triangle. This is showing that the bottom triangle-- which is the Magnetic is spinning INSIDE of the Top triangle- which is Electro. The electro magnetic spin represents the

spinning together of the anti particles -- the spiritual into oneness with the particles-- the physical.

Now, look again at your drawing. You will probably want to get a much larger piece of paper and start over now. The place where the bottom base of the top triangle meets the top base of the bottom triangle should create an area between the fourth, fifth and sixth chakras. That is the area of the throat and down about three inches on the body. That is what we call the Crystal Heart area-- the area of the Fifth chakra-- but it is actually an area that contains the fourth, fifth and sixth chakras. WHAT IS THIS PLACE IN THE BODY? It is your Soul. It is the Fifth Dimensional Soul of your COSMIC BODY.

Where is the Fifth Dimension. It is your Soul.

When we talk about the Fifth Dimension, we are not talking about climbing up a ladder of frequencies. We are talking about blasting completely out of the Third Dimensional concepts of the FIVE SENSES into the Ultimate UNKNOWN, Intuition, Imagination, Concepts beyond our books, our schools, our cultures-- the BEYOND.

How do we get to this place of the INFINITE while we are in our bodies? We use this Merkaba. It spins together all of the Frequencies of the fifteen spheres of the Cosmos into that point in our body that we call our Soul.

Our Soul has been sleeping for a very long time because it hasn't been given a new reality to respond to. The Soul awakens to its ultimate destiny of Infinity when the Merkaba spins all of those frequencies from the Five Spheres into attunement or at one ment at that point where the top and the bottom triangles merge their energies together. Where do they merge their energy or frequencies? INTO THE SOUL-- that is the FIFTH DIMENSION.

The entire ASCENSION PROCESS is about activating the Soul. How did the Soul fall asleep. The process began with the THINKING BRAIN. That is the Upper Cerebellum- the yellow part of the brain in the diagram.

Now, we are going to draw a new diagram. Look at your Candle. Please use the video of the candle that is on the crystallmagicorchestra.com home page. Also use the diagram of the pyramid of light energy.

Draw a candle and then draw a triangle around it. The top of the triangle is the top of the candle. If you look at the pyramid of light frequencies, you will notice that the top of the candle has pink silver light frequencies. That is the frequency of the 14.5 dimension of heliotalic pastel energy. It is an energy that contains helium, gamma, plasma, x-ray, invisible light, and all of the other lower light frequencies. **THE HIGHEST FREQUENCY ALWAYS TRANSMUTES ALL LOWER FREQUENCIES INTO IT.**

That top point of the triangle, and the top point of the candle show us the place where the Cosmos-- the fifth sphere touches the Mind of God-- or the Source Field of Infinite Unknown potentials of REALITY. When the Merkaba spins together all of the five fields of energy within the Outer Sphere, it is doing the same thing that you see the Candle doing. The Merkaba holds together all of those Frequencies of Light together and molds them into a form of reality. In this case the form is the Candle. The form can also be the Mental Light Body that is three feet around the Physical Body, or it can be the entire Cosmos around the body.

So, we see all of those light frequencies within the candle, and we see them within the upper part of the Merkaba.

Now, what did I tell you that you would need to do to begin to see the Candle Turn BLUE?

I said you must absorb all of the light frequencies of the candle into your body-- especially into your Mid Brain to make your brain become frequency specific.

Why do we do this?

The first step to returning to immortality is turn off the thinking brain because it will just keep telling you that you are going to die. When we move to the Mid Brain, it is frequency specific. It does not speak in

languages. It speaks in the language of KNOWING. And you will not find Death in the Knowing.

So, that is why we are focusing on Melting the Brain away. We don't want to hear the thinking brain's opinions about death, disease, age, religions, or any of those piles of lies that have been accumulated into the cellular memory.

Now, you might have noticed that there is only the upper portion of the Merkaba drawn over the candle. The base of the triangle will be drawn through the stem of the Candle.

The Stem of the Candle is Hertzian. It is the third dimensional realm of the Five Senses that can be seen, touched and heard. That is much like our physical body.

So, now draw an image of your body as the stem of the candle. And think of the base of the triangle going through the heart chakra area, just like in the previous merkaba drawing.

Why do we only have the upper part of the merkaba? The upper part of the merkaba is the electro-- the Light Frequencies-- the Anti Particle.

Next, draw the body that is standing on the Earth, and find out where that bottom triangle would intersect the Crystal Heart area of the body that is now the stem of the candle.

The bottom part of the Merkaba is the Magnetic. It is the part of the energy spectrum that pulls the anti-particle LIGHT ENERGY- the Spiritual into the Physical.

And where does the intersection always happen?- At the Fifth Dimension. In the Soul-- in that 4,5,6 chakra area.

We learned how to walk into the candle, absorb the frequencies and see the candle turn blue.

When we see the candle turn blue, it means we have activated the Mid Brain-- the Frequency Specific Brain-- the Blue Brain.

We must do that first, or the Thinking brain will just continue to take center stage and tell you that you are going to die some day.

Now, go back to seeing the entire Cosmic Merkaba spinning around the entire candle and clear into the Cosmic Core Domain of the Earth, and see your body standing in the stem of the candle.

We must spin the electro-upper into the magnetic -lower part of the merkaba to turn the Hertzian Body-- our physical body (the one that only sees and believes the five senses) - into the Blue Body, that blasts out of the prison of the FIVE SENSES into the Infinite Unknowns of all possibilities.

That Infinite Unknown comes from the KNOWINGNESS in all of those spheres. Those Spheres contain the Consciousness of all of our Plasma Families in the Cosmos, and the Starry Families of the Universes and all of the Galaxies in all of the Omniverses.

When we become the Fifth Dimensional Blue Body, we can tune in to all of those frequency channels of all of the information that has ever been known and that will ever be known. The Fifth Dimension is the HUB of all that is. It is the place where we can still be experiencing our creations in a tangible form that still has some density, but also contains all of the etheric density that must be created from the Intuition, the Knowing, the Imagination. It is the Invisible realities that we create in our Dreams.

What is different about this teaching of using the imagination and creating dreams, is that when the THINKING BRAIN IS TURNED OFF and the Frequency Specific Brain is turned on, we will realize that the DREAMS are the Reality and the Thinking brain is the ILLUSION.

The inner sphere would be the sphere that is around your fourth and fifth and sixth chakra area. That SOUL area now contains all of the Information that is contained in all of those other spheres of Consciousness. We have created a new Morphogenetic Field of Consciousness that contains all of the Light and Sound of the entire

Cosmos, Universe, Galaxy into our NEW SOLAR REALITY. We now know that we hold this vast information that is flowing into the Frontal Lobe and into the Mid Brain and into the Lower Cerebellum and Medulla Oblongata in the back of the brain. The Mind of God connects from that point in the brain which also connects to the Soul Center out into that point at the top of the Candle and the top point of the Merkaba, That point connects to the Infinite Source of Energy and Information-- the Mind of God.

Now, all of that information and energy that is flowing through you can be translated from any dimensional frequency into the frequency of the observer-- the sub consciousness within you. That is where dreaming comes in. Those movies of multi dimensional reality flow through you into dreams. You must learn to become **AWAKE IN YOUR DREAMS NOW**. You must learn to know that you are actually in the dream and that you control the dream to do what you want it to do. You become the director of the movies in your dreams.

When you can do that, you can also become the director of the movies in your life. And you can turn your dreams into your life if you want to.

The sensual areas in which the brain defines all that is placed in the body includes what food is , how to digest it, what qualities it has.. This same thinking brain that is defining our life and telling our body what will make it well or what will kill it, how our days are numbered, that yellow brain. The areas of absolute polarity who you are in a personality. If you place a picture of Blue Body in your frontal lobe. That picture will be eaten up by the thinking brain only tolerating it for so long thinking brain must be transmuted and dissolved into higher frequency waves. The human is divine, but is only being allowed to work upon the old karma of emotion that was never brought to wisdom.

That is why the Soul returned to Earth because the old karma was never given the wisdom that would allow it to connect to the Blue Body, Aquafaria and never given the knowledge to connect to the multi dimension mind of god.

The soul must be able to process this wisdom while in this body. to remove the death sentence that is given to it by the thinking brain of carnal knowledge, the knowledge given to it by the world.

DOLPHINS AND WHALES CREATE ASCENSION PORTAL

<http://vimeo.com/110741826>

This one hour DVD tells the complete story of the Ascension Portal Created for, and with the Dolphins and Whales who were placed here by Sun Ha and La through the portals of Aquafaria of Inner Earth.

<http://vimeo.com/110741826>

Oraphim Braharama Cetaceans are from Sun Ha. Sun Ha is the Sixth Sun. The Seventh Sun is Sun La. The Humanoid Oraphim Raceline is from Sun La.

The Suns Ha and La are the Violet Suns. They have always been united as the Violet Suns. The Cosmic Cetaceans and Cosmic Humanoids have always been working together on this project of Ascension for Planet Earth.

The Cosmic Dolphin Blue Print was placed within many of the Dolphins in our Oceans. This imprint has held the Fifth Dimensional Imprint of our original perfect 12 coded template for five million years.

Many of us worked on this project with the Cosmic Dolphins five million years ago during Seeding One of the Human Angelic Raceline on the Planet Earth that fell into the Milky Way Galaxy, to prepare this body of consciousness to return home to the Andromeda Galaxy.

It is now the time for the Dolphins to prepare the pathway to the fifth dimension for the Humans. The time when we were directed to

Monterey to create an Ascension Portal with the Cetacean Nation was the time when the Dolphins ascended to the Sixth Dimension and the Whales ascended to the Ninth Dimension. This was the completion of their mission for this bio-regenesis project.

There are still many Fifth Dimensional Dolphins in our Oceans who will assist those who want to activate their 5DNA template. However, tuning in to those Cosmic Dolphins who are in Sun Ha is where the true power of Ascension comes from. This is why we always tune in to the Cosmic Dolphins in our Frequency recordings.

I come from Sun La. Sun La is the seventh Sun. Sun Ha is the Sixth Sun.

Together these two suns make the Violet Sun or the Violet Flame Reality. I was trained by the Elohim Angels to inhale the Highest Frequency and exhale it as music. My training was for the purpose of aligning my consciousness with the Violet Suns of Ha and La to complete the Portal of Ascension for the Oraphim Braharama Cetacean Raceline.

When I aligned my consciousness as I was trained, I could align in to the frequencies of the sixth and seventh suns and create the frequency gate between the Earth and the Star Gates opening to the Sixth and Seventh Suns.

The Mission was beyond the comprehension of any one who was not prepared with the coding in their cellular memory before coming to Earth.

The memories also extended to help me understand why my husband aDolphino was possessed by Demons. We learned many years later, that part of the reason we were creating the ascension portal for the Sixth Sun Cetacean Raceline was because there were many of these wonderful beings from both of the Violet Suns who had been taken into Phantom Matrixes by the Red Dragons and the FAtaLE Demons. The ones who were taken prisoner were our friends and family. And this was the only time and place that their souls could be set free, so that the entire Cosmic Matrix could ascend.

(The complete story is in the Cosmic Twins)

I wanted to make this story more interesting and more real to those of you who still do not understand the importance of this Ascension Event that prepared the way for millions of others to Ascend who would not had been able to if aDolphino did not prepare for the demonic possession long before he came to Planet Earth.

We had obviously been prepared for this thousands of years ago. There was an exact place to create the portal that we were directed to. There was a formula that we needed to know to activate our Plasma Bodies, there were frequency alignments that we created as the Music that was used to bring aDolphino back from the dead and to create an Ascension Portal to return all of the Souls who had become demonic back to Source.

All of these things had to be done before the Ascension out of the Phantom Matrix could be successful. This Ascension Portal and the Resurrection of aDolphino after his possession and death paved a complete pathway even for those Oraphim Cetaceans and Oraphim Humanoids who had been taken into the path of Fall by the Phantom Matrix and the FAtaLE Matrix.

Our mission on Earth was to provide the path way for the Dead before the pathway for the living could be completed.

We needed to build a portal for the ascension of the Dolphins and Whales who had held the Frequencies of Attunement back to the Sixth and Seventh Suns for all of the Eons. The Dolphins needed to ascend up to the Sixth Dimension and the Whales up to the Ninth Dimension.

This was how the path was paved for the Human Raceline to Ascend to the Fifth and Eighth. We couldn't ascend until they ascended.

We couldn't ascend until the Maharaji Blue Race was provided a Portal to guide Demonic Souls back to Source so that they could be born again.

I hope you will enjoy the story that I created for you as a DVD with the actual pictures of the Event as it took place in Monterey, California in

2008.

The Ascension Portal was created in that exact area because that is where I began this project five million years ago when Aquafaria was created as the Foundation for Earth.

This is the journey that I take into the Inner Earth Aquafaria each time I record music. My consciousness is in the Highest Frequencies of the Transformational Crystals within Aquafaria when I create the music.

You might like to take this journey when you listen to your music.
Crystalai

Shajinka pulls us around and through the crystal pillars and temples and crystal caves.

We weave and stream liquid light tones of rainbows that sing and resonate into and through the crystals of the city.

Our harmonic convergence with the crystal cities becomes our tone of home.

We feel and hear the sweetness, the harmonies, the colorful, glorious tone of home.

Shajinka pulls us back up into the Sun of Inner Earth. The feeling is warm and light and tingling through the skin in the tiniest little morsels of sweet light crystal energy.

We weave and breathe and stream our consciousness of the crystal frequencies through the sun's consciousness and light energy. We create rainbows of layered sounds and colors of consciousness.

We paint pictures of our new reality with these streams of rainbow colors. We ride the rainbows up out of the water and sit on top of a cloud.

We are met by a Unicorn named Apollo, who invites us to ride with him. He prances on the clouds and jumps through the rainbows.

We feel and absorb this new frequency that contains no gravitational

pull. We feel this new standing wave pattern and become a part of it.

We are met by many unicorns who dance and prance around on the clouds. Next, we ride these unicorns and they become a merry go round that is dancing and singing as they twirl round and round through the rainbows.

Next, they dive down into the turquoise iridescent aqualene water. They turn into sea horses when they enter the water. They show us that we can become anything we want to be.

We turn into star fish, and then dolphins and then mermaids and then we disappear and turn into rainbows and into crystal pillars of light and then we become mermaids again.

We swim back into our bedroom in our golden dust mansion. We lay on the bed in our room and Zorach -my starry brother, creates a golden portal of golden white star dust energy that he streams through us as we sleep in our bed. He wraps us in a cocoon of this golden dust energy. When we wake up we transmute from this cocoon into a beautiful blue butterfly. We are now able to fly beyond all holograms of the past and create a brand new star system.

MERMAID CRYSTAL CAVES

We must first prepare our bodies to become zero balance energy with the spiritual and physical. We must first line our bodies with the garments of white light linen, with the golden dust garment, with the cloak of many colors--the rainbow energy or iridescent energy. We can then walk through the Diamond Door. Our Consciousness must be raised into these frequencies of the white light, the golden light, the rainbow light, the crystal light energy before we can truly walk through the diamond door. Many can do this in bi-location mode or Glide mode. But to truly Slide through the Diamond Door into our Future Selves who contain the Standing Wave Pattern of the New Star Earth, we must be fully robed in Divine Consciousness. We must truly turn into the LIGHT BODY through the alignment of the Neutron

into oneness with the Proton. We must truly practice and stay in this RESONANCE that is IN TUNE with the Crystal Light Energy, the Star Dust Energy, the Divine Love, the Divine Omnipresent Consciousness of Source, our Divine Creative Principles of our God Selves, our Angelic Selves. These are the principles of Ascension taught and practiced through our new Cosmic Magic workshops.

We walk through the Diamond Door and walk into our Future Selves. Our future self must already be resonating with Star Frequencies. They must already be clothed in Star Dust Energy. We are now ready to dive into the Liquid Light Turquoise Blue, Iridescent AQUAFARIA Ocean that leads into the Underwater Cities of Light.

We walk into our FUTURE SELVES.

We walk into a Room made of white light and stardust energy.

We keep walking forward in our future selves.

We walk toward a golden dust mansion sitting on top of a turquoise pond of water.

We walk into our golden dust mansion.

We walk into our bedroom.

Cinderella -my Oraphim Dolphinoid Mermaid Mother, meets us in the bedroom and carries us deep down into the Aquafarian Ocean.

We dive into this sparkly iridescent turquoise blue liquid light ocean of cosmic light energy.

Cinderella carries us deep inside of the Sun that is under the water.

We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun.

Cinderella then pulls us deeper and deeper until we come to a Crystal Cave.

The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone.

Cinderella takes us into the cave to meet the Mermaid Choir.

Cinderella is a mermaid and I am a mermaid. We enter the cave and

feel the frequencies of the crystals. Then the mermaids begin to sing.

They line our cells with glowing frequencies to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality.

They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

Cinderella is singing this song through my breath

ALL IS LOVE AND LOVE IS ALL
(This is on the Dolphin Magic Album)

All is love and love is light
We swim and dance in love to make
all things in love we love to know
that's all we want and all we have
our love for all and all is love
we pray to know the love you were
You bring it back
We sing once more

We swim we fly, we need no wings
Our love so grand
We pray for light
from love and swim
it's all so easy where we live

We need your love
we swim at night
we weave to send a day more bright

Our rainbows bright
We made before
to love our family like once more

We breath and pray for love more light
We wish we make the sparks ignite

We form whatever things we wish
That made in dreams of love
our bliss

We fly we swim at speed of light
to be where ever love ignites
We pray to know a world more bright
We bring to your bed tonight
To sleep in dreams our melodies
We were once your family
You now will know once more
We wait for you so eager bright
to bring you back to sing tonight

We hope you'll come back home once more
Our love more liquid like once more
We swim inside your home you make
We wait below we swim to night
To bring home and memories were
We love to make your melodies
Your liquid light we made and make more love to know
Whatever things that we might need
Besides our love our love our melodies

We fly we swim at speed of light
to be wherever love ignites
We pray of love our crystal
we bring to your bed tonight
To sleep in dreams our memories
We were once your family
you now will know once more
We wait for you so eager bright
to sing tonight
We hope you'll come back home once more
Our love more liquid like once more

We swim inside your home you make
We wait below we swim tonight
To bring you home where memories were

We now can make our family made to love through liquid light
We breathe and make more love to know
Whatever things that we might need
Besides our love our melodies
We do not know of anything that we could need besides our love.

After we sing with the choir for one hour, Shajinka -my Orca sister,
meets us at the door of the cave and pulls us deeper into the ocean
to enter the City of Lights.

Shajinka pulls us around and through the crystal pillars and temples

We weave and stream liquid light tones of rainbows that sing and
resonate into and through the crystals of the city.
Our harmonic convergence with the crystal cities becomes our tone

Allow all of the Divine Consciousness to be ignited into the magnetic field of Christ Consciousness and to ignite a Flame around and through our body containing Source Consciousness, Divine Consciousness, Christ Consciousness to envelope and shield our bodies inside of this Higher Consciousness. Allow this shield to contain us and complete us into our Divine Being of Eternal Life, Divine Substance, instant manifestation or our Normal Immortal Body created in the 12 DNA template of Christ Consciousness and ignited into ONENESS through the Spark of Source Consciousness that has been maintained in our Crystal Heart to be reborn at this time.

Bring your Crystal Star Merkaba into our crystal heart and spin all of these frequencies into the merkaba to ignite the spark of source in the center of our crystal heart. Place a Turquoise, Crystal Sphere around this crystal heart. Ignite this spark of Source and spin the Crystal Star Merkaba at the speed of light to distribute this Source Consciousness into our Crystal Heart and into the Crystal Sphere around the Crystal Heart.

We put on our garments of white light frequencies that we have spun into our bodies through the Crystal Star Merkaba. We put on our garments of iridescent light frequencies. We put on our garments of golden dust frequencies. We robe our bodies with the Divine Frequencies of Oneness as we spin our bodies into oneness with our Merkaba body that carries the Frequencies of all five spheres. We spin our body to sing and resonate into the music of the spheres of oneness. We walk into the spark of source, which is the God Room of Inner Stillness where we unite with our Oneness with our God Self, our Higher Self. We walk into this Harmonic Convergence with our Higher Self. as our body is transformed into the zero point energy of an equal balance of the spiritual and physical.

Now we ask AnWa to spin our Crystal Star Merkaba vehicle up into the 14th dimension of the heliotalic frequency where the light of helium is infused into the Merkaba and spun at the speed of light into our bodies. AnWa please take our Crystal Star Merkaba body into the 8th dimension and collect the frequencies of the suns. Please drive our Crystal Star Merkaba body into the heart of Sun Vesta and collect all of these frequencies into our Merkaba. Now collect the frequencies of Sun Alcyone and all of the Suns in the Galaxies. Spin all of these frequencies into our Merkaba bodies. Align us into the magnetic fields of all of these suns through their Crystal light energy, their Aqualene Liquid Light and allow this energy to stream through our bodies. (The body transforms into 24 DNA of the IMMORTAL BODY aligned into the NEW STAR SYSTEM).

AnWa please collect the helium frequencies and all of the Suns frequencies and spin them together at the speed of light. Bring this energy into the Merkaba. Please spin the Merkaba in to our heads and into our crystal hearts and into our tailbones to ignite the spark of the neutron into every cell, molecule and atom in our body. Please spin this neutron energy all through our bodies and pop out into our Merkaba Body and spin this into Oneness of the Spiritual and Physical. Please allow the activity of Divine Love to distribute this new light energy to create our LIGHT BODIES all through our IMMORTAL BODIES.

Create two rings of helium energy and connect them to spin through each other. Place these rings of helium into the crystal heart. Ask these rings to spin at the speed of light out into the five spheres and beyond to collect all of the crystal light, crystal dust, crystal gel of our entire Cosmos. Now ignite the helium rings to spin out into the Star System of Zorach's Kingdom. Collect all of the star dust energy into the helium rings and ignite these sparks of star dust into the crystal heart. See a star dust sphere grow around the crystal heart. Walk into the center of the crystal heart and walk into the Room of Inner Stillness to Connect with Higher selves from all Five spheres and with Zorach. Put on the garments of white light, iridescent light, golden light and star dust energy.

Ask AnWa to take the Crystal Star Merkaba into the fifteenth dimension of Co-Creative Consciousness and to collect these Frequencies of the angels, fairies, divas and elementals. Ask these entities to share their frequency of Cosmic Creation in the activity of Divine Love. AnWa, please collect these frequencies into our Crystal Star Merkaba and spin them at the speed of light through the activity of Divine Love. Distribute this frequency into our Crystal Heart and into our Heads, our Minds in order to become Co-Creators with Source Consciousness, Divine Consciousness, Divine Plan, Divine Activity. (The body transforms into 36 DNA of the IMMORTAL BODY aligned into the COSMIC REALM).

Walk into the Crystal Sphere and into the Crystal Heart and deep inside into the Spark of Source. Enter the room of Inner Stillness and become One with all of the frequencies of consciousness of all of the Divine Entities who resonate with the Music of the Spheres, the harmonic convergence into Oneness of the Divine Plan. Place the garments of white light, golden light, star dust energy, divine mind, divine plan on and walk through the Diamond Door. (The body transforms into 48 DNA of the IMMORTAL BODY aligned into the NEW STAR SYSTEM).

Walk into your FUTURE SELF on the other side of the Diamond

Door. Leave behind all that is not in your Future self on the other side of the Diamond Door forever. You are now living completely in your Future Self. You see around you a Divine kingdom of light energy. All is sound and light. All that appears before you is the desires that you create through your co-creative consciousness and your oneness with the Divine Frequency of Oneness.

You may now create your Islands of Light. These Islands will be the reflections on Earth of all that you create in your FUTURE SELF and bring into your Present Self. This Future Self is creating the new Earth in her Star Essence. We are now living in the Earth that is no longer a Planet. We are a part of the Star System. and Earth is becoming a star as we are becoming a part of her heart.

Walk into your Crystal Heart containing your Merkaba. Walk into the Merkaba. AnWa please create this Merkaba in my Crystal Heart and allow it to spin at the speed of light and connect me to the Heart of Mother Earth. We ride inside of the Merkaba and travel inside the heart of Mother Earth. We spin our Merkabas at the speed of light deep inside of Mother Earth's Heart. Our Merkabas collect the frequencies of the Base Tone Rhythms, the Resonance, the Tone of Home, the Harmonic Frequencies of our Divine Creation. The crystals in the heart of Mother Earth contain these Base Tones. These crystals are liquid light, crystal light, crystal gel, crystal dust. These crystals sing and resonate with the beautiful symphonies of the MUSIC OF THE SPHERES. When the five spheres align, there is a beautiful harmonic convergence that causes enough sun light to glow through these crystals in our bodies and in the Heart of Mother Earth to cause these cells to unite and harmonize and become One new Key of Harmony. We must transmute our Consciousness into these Standing Wave Patterns that are contained in the Heart of Mother Earth.

We must first prepare our bodies to become zero balance energy with the spiritual and physical. We must first line our bodies with the garments of white light linen, with the golden dust garment, with the

cloak of many colors--the rainbow energy or iridescent energy. We can then walk through the Diamond Door. Our Consciousness must be raised into these frequencies of the white light, the golden light, the rainbow light, the crystal light energy before we can truly walk through the diamond door. Many can do this in Astral mode or Glide mode. But to truly Slide through the Diamond Door into our Future Selves who contain the Standing Wave Pattern of the New Star Earth, we must be fully robed in Divine Consciousness. We must truly turn into the LIGHT BODY through the alignment of the Neutron into oneness with the Proton. We must truly practice and stay in this RESONANCE that is IN TUNE with the Crystal Light Energy, the Star Dust Energy, the Divine Love, the Divine Omnipresent Consciousness of Source, our Divine Creative Principles of our God Selves, our Angelic Selves.

We walk through the Diamond Door and walk into our Future Selves. Our future self must already be resonating with Star Frequencies. It must already be clothed in Star Dust Energy. We are now ready to dive into the Liquid Light Turquoise Blue, Iridescent AQUAFARIA Ocean that leads into the Underwater Cities of Light.

We dive into this sparkly iridescent liquid light ocean of cosmic light energy. We come up and see our golden dust mansion. We walk into our bedroom. Cinderella meets us there and carries us deep down into the Aquafaria Ocean. She carries us deep inside of the Sun that is under the water. We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun. Cinderella then pulls us deeper and deeper until we come to a Crystal Cave. The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone. Cinderella takes us into the cave to meet the Mermaid Choir. Cinderella is a mermaid and I am a mermaid. We enter the cave and feel the frequencies of the crystals. Then the mermaids begin to sing. They line our cells to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality. They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

MOVING INTO THE FIFTH DIMENSION--BEYOND THE ILLUSION OF DEATH

Dr. Angela Barnett
crystalmagicorchestra.com

Please think of fifteen spheres or circles of energy. Draw these 15 circles. One inside of the other. There are actually Five Main spheres and three within each of them to create the 15. So, start by drawing five circles. Within the inner sphere, there are three spheres that contain the harmonic universe one frequencies of dimension one, two and three. The next sphere contains the frequencies of harmonic universe two- dimension four, five and six. The next sphere contains the frequencies of harmonic universe three contain dimensions seven, eight and nine. The next sphere contains the frequencies of harmonic universe four which are ten, eleven and twelfth dimensions and the fifth sphere contains thirteen, fourteen and fifteen.

The first sphere is planet, second is solar, third is galactic, fourth is universal and fifth is cosmic.

Next, think of each one of these spheres being created by this Merkaba that looks like one pyramid facing up and one pyramid facing down. The lower pyramid is inside of the higher pyramid. We think of the upper triangle spinning clockwise and the lower spinning counter clockwise. When these triangles spin together they are actually spinning the electro into the magnetic energies to create a sound tone. Each one of the spheres is created by one of these merkabas spinning together to create a sound tone or a frequency.

The merkaba that creates the outer sphere is much larger than the merkaba that creates the inner sphere. The frequencies of the outer sphere are much higher and faster than the inner sphere. The outer merkaba spins ten thousands times the speed of light. It is so fast that we cannot conceive of it. It is the energy potential that is holding the entire Cosmos in Balance and in the attunement with the Source Field of Energy.

So. we have these five merkabas that create the five spheres. The

outer sphere is actually holding within itself all of the frequencies of the other four spheres. If we feel all of these merkabas spinning around our body, the outer merkaba would have its upper point 36 inches above our head and the lower point would be down in the Core Domain of the Earth, where the Cosmic Domain touches the Earth's Vortex.

Now, take out your pencils and papers and start drawing these ideas. Draw your body standing on top of the Earth. Draw a circle around your body with the top at 36 inches above the head and the bottom part of the sphere at the center of the Earth. That is you standing in the Cosmic Sphere of creation. Now, draw a merkaba. First the top triangle with the top point where the top of the circle is. The base of the top triangle stretches across the widest part of the circle.

Now, draw the bottom triangle. The bottom point of the triangle touches the bottom of the circle at the point of the Cosmic Core domain at the center of the Earth. The base of that bottom triangle will be ABOVE the base of the top triangle. This is showing that the bottom triangle-- which is the Magnetic is spinning INSIDE of the Top triangle- which is Electro. The electro magnetic spin represents the spinning together of the anti particles -- the spiritual into oneness with the particles-- the physical.

Now, look again at your drawing. You will probably want to get a much larger piece of paper and start over now. The place where the bottom base of the top triangle meets the top base of the bottom triangle should create an area between the fourth, fifth and sixth chakras. That is the area of the throat and down about three inches on the body. That is what we call the Crystal Heart area-- the area of the Fifth chakra-- but it is actually an area that contains the fourth, fifth and sixth chakras. WHAT IS THIS PLACE IN THE BODY? It is your Soul. It is the Fifth Dimensional Soul of your COSMIC BODY.

Where is the Fifth Dimension. It is your Soul.

When we talk about the Fifth Dimension, we are not talking about climbing up a ladder of frequencies. We are talking about blasting completely out of the Third Dimensional concepts of the FIVE SENSES into the Ultimate UNKNOWN, Intuition, Imagination,

Concepts beyond our books, our schools, our cultures-- the BEYOND.

How do we get to this place of the INFINITE while we are in our bodies? We use this Merkaba. It spins together all of the Frequencies of the fifteen spheres of the Cosmos into that point in our body that we call our Soul.

Our Soul has been sleeping for a very long time because it hasn't been given a new reality to respond to. The Soul awakens to its ultimate destiny of Infinity when the Merkaba spins all of those frequencies from the Five Spheres into attunement or at one ment at that point where the top and the bottom triangles merge their energies together. Where do they merge their energy or frequencies? INTO THE SOUL-- that is the FIFTH DIMENSION.

The entire ASCENSION PROCESS is about activating the Soul. How did the Soul fall asleep. The process began with the THINKING BRAIN. That is the Upper Cerebellum- the yellow part of the brain in the diagram.

Now, we are going to draw a new diagram. Look at your Candle. Please use the video of the candle that is on the crystalmagicorchestra.com home page. Also use the diagram of the pyramid of light energy.

Draw a candle and then draw a triangle around it. The top of the triangle is the top of the candle. If you look at the pyramid of light frequencies, you will notice that the top of the candle has pink silver light frequencies. That is the frequency of the 14.5 dimension of heliotalic pastel energy. It is an energy that contains helium, gamma, plasma, x-ray, invisible light, and all of the other lower light frequencies. The HIGHEST FREQUENCY ALWAYS TRANSMUTES ALL LOWER FREQUENCIES INTO IT.

That top point of the triangle, and the top point of the candle show us the place where the Cosmos-- the fifth sphere touches the Mind of God-- or the Source Field of Infinite Unknown potentials of REALITY. When the Merkaba spins together all of the five fields of energy within the Outer Sphere, it is doing the same thing that you see the Candle

doing. The Merkaba holds together all of those Frequencies of Light together and molds them into a form of reality. In this case the form is the Candle. The form can also be the Mental Light Body that is three feet around the Physical Body, or it can be the entire Cosmos around the body.

So, we see all of those light frequencies within the candle, and we see them within the upper part of the Merkaba.

Now, what did I tell you that you would need to do to begin to see the Candle Turn BLUE?

I said you must absorb all of the light frequencies of the candle into your body-- especially into your Mid Brain to make your brain become frequency specific.

Why do we do this?

The first step to returning to immortality is turn off the thinking brain because it will just keep telling you that you are going to die. When we move to the Mid Brain, it is frequency specific. It does not speak in languages. It speaks in the language of KNOWING. And you will not find Death in the Knowing.

So, that is why we are focusing on Melting the Brain away. We don't want to hear the thinking brain's opinions about death, disease, age, religions, or any of those piles of lies that have been accumulated into the cellular memory.

Now, you might have noticed that there is only the upper portion of the Merkaba drawn over the candle. The base of the triangle will be drawn through the stem of the Candle.

The Stem of the Candle is Hertzian. It is the third dimensional realm of the Five Senses that can be seen, touched and heard. That is much like our physical body.

So, now draw an image of your body as the stem of the candle. And think of the base of the triangle going through the heart chakra area, just like in the previous merkaba drawing.

Why do we only have the upper part of the merkaba? The upper part of the merkaba is the electro-- the Light Frequencies-- the Anti Particle.

Next, draw the body that is standing on the Earth, and find out where that bottom triangle would intersect the Crystal Heart area of the body that is now the stem of the candle.

The bottom part of the Merkaba is the Magnetic. It is the part of the energy spectrum that pulls the anti-particle LIGHT ENERGY- the Spiritual into the Physical.

And where does the intersection always happen?- At the Fifth Dimension. In the Soul-- in that 4,5,6 chakra area.

We learned how to walk into the candle, absorb the frequencies and see the candle turn blue.

When we see the candle turn blue, it means we have activated the Mid Brain-- the Frequency Specific Brain-- the Blue Brain.

We must do that first, or the Thinking brain will just continue to take center stage and tell you that you are going to die some day.

Now, go back to seeing the entire Cosmic Merkaba spinning around the entire candle and clear into the Cosmic Core Domain of the Earth, and see your body standing in the stem of the candle.

We must spin the electro-upper into the magnetic -lower part of the merkaba to turn the Hertzian Body-- our physical body (the one that only sees and believes the five senses) - into the Blue Body, that blasts out of the prison of the FIVE SENSES into the Infinite Unknowns of all possibilities.

That Infinite Unknown comes from the KNOWINGNESS in all of those spheres. Those Spheres contain the Consciousness of all of our Plasma Families in the Cosmos, and the Starry Families of the Universes and all of the Galaxies in all of the Omniverses.

When we become the Fifth Dimensional Blue Body, we can tune in to all of those frequency channels of all of the information that has ever been known and that will ever be known. The Fifth Dimension is the HUB of all that is. It is the place where we can still be experiencing our creations in a tangible form that still has some density, but also contains all of the etheric density that must be created from the Intuition, the Knowing, the Imagination. It is the Invisible realities that we create in our Dreams.

What is different about this teaching of using the imagination and creating dreams, is that when the THINKING BRAIN IS TURNED OFF and the Frequency Specific Brain is turned on, we will realize that the DREAMS are the Reality and the Thinking brain is the ILLUSION.

The inner sphere would be the sphere that is around your fourth and fifth and sixth chakra area. That SOUL area now contains all of the Information that is contained in all of those other spheres of Consciousness. We have created a new Morphogenetic Field of Consciousness that contains all of the Light and Sound of the entire Cosmos, Universe, Galaxy into our NEW SOLAR REALITY. We now know that we hold this vast information that is flowing into the Frontal Lobe and into the Mid Brain and into the Lower Cerebellum and Medulla Oblongata in the back of the brain. The Mind of God connects from that point in the brain which also connects to the Soul Center out into that point at the top of the Candle and the top point of the Merkaba, That point connects to the Infinite Source of Energy and Information-- the Mind of God.

Now, all of that information and energy that is flowing through you can be translated from any dimensional frequency into the frequency of the observer-- the sub consciousness within you. That is where dreaming comes in. Those movies of molt dimensional reality flow through you into dreams. You must learn to become AWAKE IN YOUR DREAMS NOW. You must learn to know that you are actually in the dream and that you control the dream to do what you want it to do. You become the director of the movies in your dreams.

When you can do that, you can also become the director of the

movies in your life. And you can turn your dreams into your life if you want to.

Now, here is the first definition of WORDS that must be changed in our new Cosmic Dictionary.

The Male is not a man and the Female is not a woman.
The removal of polarity is not removing the difference between male and female.

The MALE is the Pattern and Spin rate of the Electro part of the Divine Creation Plan.

The Electro carries the pattern that is needed to mend our DNA that was sliced apart by disconnecting the Electro from the Magnetic.

The Electrons are in the Overtones of the DNA and the Magnetic is the Base Tones of the DNA.

There were Over tones and Base Tones separated at different Dimensional Levels in each of the DNA.

The most CRUCIAL DNA STRANDS in the Body are the FIRST DNA STRAND.

That Strand had it's Electro Overtones disconnected from its Magnetic Base Tones 5.5 million years ago.

This was done through an ELECTRIC WAR of the Universe that was actually brought about from an Electric War in the Cosmos.

It is called an Electric War because everything in the universe is created by a DIVINE ELECTRICITY.

Here is another word that must be given the COSMIC DEFINITION.

The electricity created by Einstein was the Third Density. RESULT of a Formula that actually works on all Density levels.

Einstein's formula says Consciousness plus Energy equals Reality.

C plus E equals Reality.

The amount of Consciousness that was put into creating ENERGY (Electricity) in this Density gave us the Reality of that form of Electricity.

However, when we rise into the Fifth Density and use the Consciousness that is in that Multidimensional Field of Reality and put it together with the Energy of the Spin rate of the Cosmic Merkaba, we create a Source of Electricity that comes Directly from SOURCE.

That use of the Universal Merkaba and the Cosmic Merkaba was made dysfunctional in our bodies at the first DNA strand and through out our Universe as a result of the ELECTRIC WARS.

This is the Scientific Formula that can be used to LINK our reality of the third, fifth, eighth, twelfth and fourteenth dimensions into one ETERNAL SOURCE OF ENERGY.

That Scientific Formula is completely and clearly outlined and taught precisely by Ashayana Deane in her SLIDERS 5-12 DVD's. (I have never physically attended her workshops. I have purchased every DVD that she has created, and studied them just like a Physics Major would study that subject as a Doctoral Candidate in a University).

I have always looked at this ASCENSION as a completion of all of the life times, all of the Cosmic Experiments, all of the Cosmic Teams that I have been with for Billions of Years finally being Completed. I have signed up for many sets of Missions for this One Lifetime because I am representing the Crystalai Council and the Freneau Consciousness of COMPLETE ASCENSION for the Cosmos- not just for the Planet.

I am in continuous communication on a frequency level. I find the God Language that Ashayana uses very interesting. However, I still only communicate with my teams on the Frequency Level. That is the only communication that was used in my Universe before the Tower

of Babel, 5000 years ago.

This planet must move back into Telepathic- Frequency Specific Language before it can assimilate into the new Standing Wave Patterns of the New Ascension Earth.

That is why this transition is all about Light and Sound.

It is all about tuning up our Frequencies by spinning the Merkaba Correctly and using that spin rate in relationship with the Electro Tonal connection of the Over tones and Base tones in the DNA.

When I create the music, I ride my Merkaba that is formed in the 12th Dimensional Consciousness of my Rasha Body- 12 inches above my head.

That Merkaba is made of the upper pyramid (actually it is not a pyramid because it has four sides-that is called a tetrahedron) The bottom side of the merkaba is very important because that is the area where the Male- Electro meets the FEMALE- Magnetic Pyramid.

The Male and Female must spin together correctly in order to re-activate that connection of energy that unites the overtones and base tones of the DNA.

WHAT IS THE RELATIONSHIP BETWEEN THE CANDLE, THE MERKABAS and the MUSIC

If you look at the candle and draw a pyramid, the base of the pyramid would be near the top area of the STEM. The point of the pyramid would be at the pink-silver top point of the candle.

That pyramid would be the Cosmic Merkaba- ELECTRO --TOP HALF.

See the Light Spectrum of the Cosmic Merkaba-- It includes that outer spectrum of light. It is the spectrum of light that includes the Plasma- the Pre-Plasma of Hydrolaise Vapor and the Pink Silver Light which is the Heliotalic Spectrum that spins together with the Plasma to create the Neutron body.

That would be just the Cosmic Merkaba.

So, when I create the Frequency Music, most of my focus is up in that part of the Candle- the place where the Frequencies of Light and Sound are the TRANSFORMATION CHEMISTRY OF OUR ASCENSION.

If you draw another Pyramid inside of the Cosmic Merkaba, you would be drawing the UNIVERSAL MERKABA. The Light Spectrum of that Merkaba includes all of the Stardust Energy, which is also made of the Pre Light and Sound Substance of the Cosmic Hydrolaise and "Heliotalic Light.

The Stardust is one light spectrum lower than the Plasma. However, the template that create these light forms are the same. The DIVINE BLUE PRINT or TEMPLATE of the entire COSMOS is made from the Breath of Source IGNITING AND IDEA into the Cosmos.

That exact same IDEA is replicated in each DENSITY. We can only see the DENSITY that is BELOW us.

We would have to be in the Fifth Dimension to see the Fourth Density. That is basically what most people are seeing right now. It is not that they are not in the Fifth Dimension. It is just that they are still SEEING the Fourth Density

We must change our PERCEPTION of Reality by Raising our Frequencies. We can't SEE it until we can HEAR it.

That is because the Sound and the Light of the Merkabas of Electro-Magnetic Spin Rates braid the broken DNA sub harmonics back together.

We need to use the Candle again. Now we draw another Merkaba Pyramid inside of the Universal Merkaba. This will be the Galactic Merkaba.

The Cosmic Merkaba contains dimensions 13,14 and 15-- But the 15 is beyond the Silver Pink top of the Flame, and then just a breath

outside of that 15 dimension of the EARTH'S MATRIX is the Source Field of Infinite Void. That is where the TRUE CREATION takes place. That is where the TEMPLATES of all Creation remains Eternally for all Infinity.

The 15 dimensions are only the EARTH'S MATRIX. The Earth is always within it's Cosmos.

Well, the Earth was in it's Cosmos until December 2012 when the Earth was realigned into a new alignment of reality that required our Cosmos to become a NEW COSMOS.

We can't have a new Earth without a new Universe and a new Cosmos.

This ASCENSION EVENT is not a local Planetary event. Ascension can only take place at the Cosmic Level.

The COSMIC MYSTERY SCHOOL OF THE OMNIVERSE is the meeting place of 13 Cosmos beginning the creation plan for the new baby Cosmos that they created.

I am just channeling their information to you through their Frequencies.

Now, we can see where this GALACTIC MERKABA would be. First, each merkaba always has it's base in that same area near the top of the Stem.

The Galactic Merkaba contains the same spectrum of light energy at a lower Spin Rate. That means the Merkaba is not spinning as fast as the Universal Merkaba. That is what creates more density. That is why the 8th dimensional density is more dense than the 12th dimensional density.

The light of the Galactic Merkaba is INVISIBLE to us. It is not in our VISIBLE LIGHT SPECTRUM. The Invisible light and the x-ray light spectrums create a different reality than we are able to conceive. The Density becomes so Etheric that the Angels are able to fly through the clouds.

When we get down to the Solar Merkaba, we are in the Fifth Dimensional Reality.

This is where we are now. We are in the Fifth Dimension.

We just haven't learned how to see it yet.

Look again at the BASE of the MERKABA. All of the bases of all of the Merkaba sit at the same place in the STEM OF THE CANDLE.

Now, draw a stick figure body onto that stem. The place where the Light Ignites at the tip of the Stem would be the right above the arms in the Crystal Heart area of the body.

The Merkabas are igniting that light of all of the Merkabas from all Dimensions into the HEART of that little body.

The body is your body. When you are gazing at the Candle and walking into the Candle, you are igniting the light in your Crystal Heart.

We call it the Crystal Heart because it is made of Crystal-- etheric Crystalline- which is actually Cellesma in it's purest form. It is the Blue Body Essence that our Soul is made of. Our Soul sits right under the Heart. That is why we call it the CRYSTAL HEART.

When I ride my Merkaba, I always create a MINI ME who rides in the Crystal Star Merkaba in the Crystal Heart.

That is why all of my meditations always begin with I create the Crystal Star Merkaba 12 inches above my head and then inhale it into my crystal heart. Then I place the mini me, who is actually me SOUL SELF in the Merkaba.

Now, I can ride in my Merkaba DOWN into the Earth's Cosmic Core- 13.5 Dimension and collect those frequencies and then ride up to 12 inches below the Earth's Crust and collect the Christic Frequencies or Universal Frequencies, and then I inhale those into the Merkaba and bring them into my Crystal Heart.

That is what we do to make the Stem of the Candle ignite into the Full Spectrum of Light.

This time it is your Crystal Heart that is igniting.

Why do we need to IGNITE OUR CRYSTAL HEART?

Because our Soul went to sleep about 5000 years ago and now we are waking him up.

We haven't been a fully ignited 5th dimensional being for a very long time?

Why do we need all of the frequencies of the entire Universe and Cosmos to Wake up our Soul?

ETERNAL LIFE

We always have been and always will be made of this divine technology of Eternal Life. When we were created by the Christ Code Pre Sound and Light Technology, we contained the ability to Live Forever, to Create our own Galaxies, to Manifest Instantly our Hearts desires. That is the reality. That is the reality we must tune into as the only reality that exists in the past, present and future.

If we continue to tune in to the lower frequencies that were distorted realities caused by the frozen light (miasm or error), we will continue to manifest that reality that locked us into the continuous 3D illusion of reality where we could only see, feel, touch, hear, taste a series of events that were planted into our DNA by Entities who only wanted to freeze us out of our Reality.

That (frozen light Error or Miasm) was how they created the Phantom

Matrix and how they planned to lock us into it. That probability no longer exists. We must align our consciousness to the new reality which is the old reality of the ETERNAL LIFE Blue Print. That 12 DNA divine blue print is the only creation that God knows how to make. That reality is made through the pre light and sound fields of Khristiac Technology containing the 12 coded divine blue print. We always were made, always are made and always will be made by that divine blue print which is perfect and eternal. We must realign our DNA templates to the sub harmonics of the 12 DNA template and begin to know that is the only reality that we have ever been and ever will be made a part of.

It is the knowing and the feeling of the frequencies of the 12 sub harmonics that has been blocked from our world view. We were made to believe that only 5 senses contain reality. When actually those 5 senses were only for us to enjoy the reality that we create through our Higher Sensory Perception of our 12 dimensional self who knows and feels and creates through the imagination. That is the reality that we have been forced out of by world propaganda beginning with parents telling their children that their imagination isn't real. That propaganda is a part of the Frozen Light imprinted into our DNA.

We have been set free from this prison. We were given the reality of our 12 DNA and its codes. That reality was planted in the Heart of the Earth and it will flow through the grids of the Earth. It is still up to us to Tune into the Frequencies and spin rate of that reality, especially by creating in Consciousness everyday the reality that we have always been, always are.

ASCENSION PROTOCOL

DR.ANGELA BARNETT--THE DNA DOCTOR

The time of our Ascension has come. However, there are certain Protocol that has been set by the Emerald Covenant and the Guardian Alliance that must be followed during the time of Ascension.

The human raceline has been completely mutilated over and over again during the past eons. Humpty Dumpty fell out of the Star System created by Sun Alcyone into the Milky Way and was broken into many pieces. Each of these pieces of the original Star had to have its consciousness put back together again before it can ascend back to its home of original creation.

This is the process that we are going through now as we prepare to Ascend back to Tara and Gaia, which are not in the Milky Way Galaxy.

The template of the original human must be restored. We must repair a minimum of 5DNA before we can return to Tara.

The plan of the restoration of our 5DNA was planned by the Guardian Alliance. The plan included the births of 144,000 Indigo Children during the 100 years before 2000 and then another 5500 after 2003. There were also many walk-ins given DNA transfusions and several Flame Holders born on Earth. And most important, we were given Six Avatar Children, who were born for the specific purpose of clearing each of the Seals placed in the Chakras.

For instance there is a seal or error placed in the third chakra. It is an error because it is an error in programming and an error in harmonic structure. Everything is harmonic and musical in the Mind of God. The harmonics of the third chakra have the 7-12 base tones missing and the 7-9 overtones missing.

We can restore this error by breathing in the corrected over tones and base tones into the third chakra. We can also correct

that chakra by connecting consciousness to the 9th Level Avatar's Frequency Signatures. Each Avatar Child has the ability to Initiate Activations of certain DNA strands. Once the Initiation is performed on a person, that person can perform the initiation on another person.

I perform initiations of the DNA when I create the Eternal Life Albums for specific individuals.

We can also tune into the Frequencies of the Six Avatar Children by using the new COMPLETE PERFECT DNA INFUSION. Once you tune in to their frequency signatures you can also tune in to the Initiations of the DNA activation yourself.

These Six Avatars are here for the same purpose Jesus Christ 9 and 12 came to Earth. They are here to clear the seals from all of the race lines that are a part of the original human angelic race line. This is the Protocol that must be followed for an Ascension to take place.

Plugging in to these valuable Frequencies can be a very effective way to speed up your DNA initiations.

(Teachings of the Cosmic Mystery School of the Omniverse)

Christ Consciousness is the Mind of God that sees everything before it is breathed into existence at this level.

Christ Consciousness is the mathematical code which is continuously creating the Divine Blue Print of the perfect image and likeness or mirror image of the entire Mind of God or Omnipotent Divine Consciousness. That divine blue print is a 12 dimensional code containing within it the Divine Manifestations of the Eternal Life, Continuous Omnipresent Love that continuously spins the electromagnetic frequencies of $331/3$ electro clockwise and $112/3$ magnetic counterclockwise within the sphere of clockwise rotation. That frequency Radiates into the at oneness with a parallel field of electromagnetic frequencies spinning the same way, but in a parallel anti particle reality field. Each of the particle and anti particle reality fields spin 45 degrees to equal 90 degrees in a vertical reality field. Another set of mathematical radiation particles spin together to create the horizontal reality field. Together they create 180 degree field of reality. That field of reality is then broken down into faster moving fields of diagonal spinning fields of electromagnetic particles creating radiation fields of plasma, gamma, x ray, invisible light, visible light, infra red and hertzian light energy into a sphere of light 360 degrees.

Everything in Divine Consciousness Creativity is made of spheres of light that spin at this perfect ratio to create layers of 45 degree angles of rotation. The creation energy is always radiation energy. We must be radiating this high frequency energy at the fastest rate of spin in the 12 dimensional radiation level to maintain our complete reality in the Christ Coded blue print. Simultaneously that 12 dimensional divine blue print can express itself in parallel reality fields that manifest as 5 dimensional and 6 dimensional realities. These would contain the 12 sub harmonics of the Christ Consciousness

mathematical formula in each of the 5 DNA strands or 6 DNA strands. The reality would appear different because it would be less dense or more dense. There is no density in the 12 DNA reality field. It is completely etheric in nature. However, that etheric reality is always a part of everything even if it only has 3DNA or 4 DNA. The perfect mathematical principle of all creation is always the 12 DNA coded divine blue print.

IN reality that Divine Blue Print of Christ Consciousness has Always Existed, Does Exist and Always will Exist in every human angelic being and every star seed on Earth. The reason that this reality doesn't seem to appear to us when we look at people and situations is because there was a Miasm placed between the vortexes where the light energy and frequencies created by the spin ratio of the $331/3$ and $11\ 2/3$ merkaba spin rate within the particle and anti particle universe. The problem was actually placed in the anti particle universe that was parallel to ours so that we could never align correctly into the harmony of that blended rate of spin that would create the 90 degree and 180 degree and perfect 360 degree spheres of light and sound that are NORMAL to any God Made reality field.

Those Miasms are frozen Light Energy that is unable to spin and move and freely manifest. Those miasms can be melted out of the old frozen DNA that is creating the illusion of this Frozen Density of Consciousness. Our Guardian Races have placed our original Divine Blue Print into our 12 DNA strands already. That gift has already been established on Earth.

STARSEEDS RETURNING OUR 5DNA-12DNA

<http://crystalmagicorchestra.com>

The Star Seeds that were born on Earth over the past 12 years all had much to do with this realignment. The children born during the past five years brought the completed 5DNA-12DNA back to Earth. That reality was presented to the Earth once before about 2000 years ago when the 12th Level Avatar and the 9th Level Avatar, that our Bible Stories call Jesus Christ was brought to Earth by Guardian Groups.

This time the Guardians brought in 144,000 times more Christ Consciousness to Earth through the frequencies of the Star seeds. The Earth required a certain level of Frequencies in order to make its shift into the new Metagalactic 8 alignment with the past present and future 12 DNA coded reality system.

These 12 coded frequencies contain the divine blue print of the Eternal Life, Love, Mind, Principle, Substance, Intelligence, Supply, Truth, Soul, Spirit, Man, Manifestation Template, Design that is contained within the Music of the Spheres Light and Sound Technology.

Mary Baker Eddy explained this same Divine Formula of Creation of Man made in the Image and Likeness of God, and clearly stated that the only thing that is separating man from that likeness is Error. She said when error is removed, then the Christ Consciousness will appear. Eddy also spoke of the synonyms of God being Life, Truth, Love, etc (listed above already). She always painted the picture of the mortal and immortal man and how there really couldn't be a mortal man, because that man wasn't made by God. She always said the real man is immortal and that seeming mortal man was only created by error.

"Furthermore, the time cometh of which Jesus spoke, when he declared that in the resurrection there should be no more marrying nor giving in marriage, but man would be as the angels. Then white robed purity will unite in one person masculine wisdom and feminine love, spiritual understanding and perpetual peace."(Eddy, S&H pp64)

This was always my favorite passage in the S&H, since I was ten

years old. I always felt and knew within myself that this reality would happen in my lifetime. Now I know it will happen within the next ten years.

This is the time when Sixth Level Man will reappear as we rise into harmonic universe 2- dimensions 4,5,6. And then Seventh Level Man will reappear on Gaia- dimensions 7,8,9. We are already in harmonic universe 2. We must now raise our frequencies in consciousness and attune into the reality that already exists within the heart of Earth and the reality of the past, present and future 12 DNA divine blue print which has not been damaged by frozen light.

The Guardians have explained the Seventh Level Man who used to live in Gaia to be this man who MBE spoke of. We are going through the resurrection when we will be robed in the white light purity of the pure attunement as we rebirth into the 5th dimension through the 12 the dimensional consciousness. This will happen in 2017, and we will prepare for this reality between 2013 and 2017. We have entered the resurrection leading to that reality. Eddy always spoke of how important it was to Understand this Divine Science, which I believe is the precursor to the Keylontic Science that was brought to earth early in the twenty first century. That truth that MBE tuned into during her Near Death Experience is the same truth that many are tuning into at this present time in history through the Maharaja Consciousness Templates that come to us through our Frequency Specific Mid Brain when we tune into the Future Self, as is done in a Near Death Experience.

That reality of the Seventh Level Man on Gaia has always existed. We were just taken off line from that reality when our light was frozen in Miasms or Error, blocking our true reality. We are now entering the Mass Ascension of Man, which Jesus called the resurrection, in which "there should be no more marrying nor giving in marriage, but man would be as the angels. Then white robed purity will unite in one person masculine wisdom and feminine love, spiritual understanding and perpetual peace." (Science and Health, page 64)

We now know through Keylontic Science (the Language of the Stars) that error is Frozen Light. We now know what the mathematical formula of Christ Consciousness is. We now know how we were blocked from our Divine Blue Print through reverse spin technologies. We now know that we are made from the radiation technologies of light and sound that can project us in millions of different density levels. MB Eddy also spoke of a time when man would no longer be given in marriage and child birth would no longer exist.

Eddy was speaking of the reality we used to live in when Seventh Level man lived on Tara and Gaia. This was the time when a child could be manifested from the light of the Consciousness or the manifestation template that each immortal man actually has in reality. The true immortal man has always been able to instantly manifest anything, including children. That act can be performed by an individual, a couple or a group consciousness to create an entity who carries many unique traits in the reality of the NORMAL kingdom that we will soon return to.

The act of creation is always performed instantly in Divine Mind through the perfect 12 DNA template of the immortal man who has eternal life, never dies, never gets sick, has infinite intelligence, etc. The references to immortal man that Eddy talked about in her Science and Health with Keys to the Scriptures are described as an absolute science by the Guardians in the new Keylontic Science and Kathara Healing Technologies.

The difference was that the teachings of the Star Language came in the frequencies that man was able to understand at the time. These two sets of teachings have something in common with the teachings of the original 12th Level Avatar Jesus. They are exactly the same teachings, and the audience and students of the teachings are very small, because only those with the genetic coding of the star seeds and some human angelics are able to comprehend these teachings.

In early Metaphysical Teachings there was always this message of Consciousness unfolding. They spoke of Omniversal Consciousness, Divine Consciousness, the One Divine Mind. These same words were used in the teachings of Christian Science by Mary Baker Eddy. The reason for this similarity was the fact that Joel Goldsmith had been a student of Mary Baker Eddy. He often attributed his teachings

to Eddy. He said that his usage of the term Mother Father God came from the teachings of Eddy.

In Goldsmith's LIVING BETWEEN TWO WORLDS, he talks about two levels of consciousness. He says that in the Spiritual Man, who was created in the image and likeness of God in Genesis One, is the higher level of consciousness and the man made in the corporeal image is the lower level of consciousness. This is also a part of the teachings of Mary Baker Eddy.

Something that I had never noticed before about Joel Goldsmith's teachings was his use of the term Melchizedek-consciousness. In LIVING BETWEEN TWO WORLDS (p.2) Goldsmith says the Melchizedek consciousness has no human parentage and they are not physical offspring.

This was very interesting to me because I learned from Ashayana Dean in the Voyagers 2 Secrets of Amenti that Jesus Christ Avatar 12 was born from the Melchizedek Consciousness of King Solomon. Her story says the Elohim Angels arranged the birth to come through two physical beings in order to hide the Extraterrestrial Birth from the world.

The true story of Jesus Christ 12 is the Divine Essence or Frequency Signatures that this entity carried through the Earth's Portals containing that perfect divine imprint of the Image and Likeness of God. The reason for the birth of the 12th level avatar was to restore that divine imprint into the Earth's chambers and also into the Hebrew raceline.

So, now we have learned from Joel Goldsmith that all of his teachings are based on connecting our consciousness into this Melchizedek Consciousness that was not created by human parentage. This would agree with the teachings of the Guardians who actually wrote the Spheres of Amenti teachings through their chosen channel. They showed us that there was this Divine Imprint that was carried back into the Consciousness of the Earth and the Human Angelic Raceline. This imprint was returned to Earth by this 12th Level Avatar.

So, there is great truth in the fact that when we connect our Consciousness into this Frequency Signature of the 12th Level Avatar that we would be connecting into this spiritual divine coding of the original Human Angelic Raceline.

There is much more to this story than this simplistic explanation of who this Melchizedek Consciousness was. That story is told by the Guardians in the Spheres of Amenti textbooks. In my humble opinion, the Voyagers Books should be the new Bible because it may carry the complete story of our Cosmic Reality.

However, the Guardians knew that we had to be prepared for this Truth. Our Consciousness could not accept such a reality that did not match the reality that had been placed in our minds through the Bible, the religions and the cultures of the third dimension.

So, what Eddy and Goldsmith were preparing us for was this Higher Level Consciousness that could become our complete reality at any time we chose it to be.

Now, here is the difference between the Metaphysical teachings that told us we could have that reality whenever we chose to and what the Guardians tell us in the Sphere of Amenti textbooks. The Guardians tell us that there were these Seals placed in our physical DNA templates that were blocking us from connecting to this Higher Level of Consciousness, and that we would need to remove these Seals before we could connect completely into the Mind of God.

So, how is it that Joel Goldsmith and Mary Baker Eddy were connecting into this Higher Consciousness, and healing each and every person that they placed within that same Consciousness Field of the Melchizedek 12th Level Avatar Christ Jesus Consciousness?

The answer is even these wonderful healings that I have had all of my life are only a tiny glimpse of what we could have if we were truly reconnected to the Mind of God.

Even though the Metaphysical Teachings have served as a Divine Comforter that was preparing our Consciousness for something much greater than the physical hologram full of the World's illusions; I could always feel that there was something much greater than these teachings waiting for me all of my life.

When I went to Sunday School and Church at the Christian Science Church in the tiny little town called Gridley, California, my ears were always tuned in to a different voice than the ones reading the scriptures. There was always this angel sitting on my right shoulder and telling me a different story. The story was something so grand and so far beyond even the magical fairy tales that I could imagine. The voice kept telling me that we would remove this world of illusions and create a great movie. We were going to make God's movie appear on Earth.

When I got married, my husband and I kept getting that same message. It was MAKE GOD'S MOVIE.

Now, I understand what it is to make God's movie. These other movies that were created by cultures, religions and languages were all the result of the Tower of Babel. I was being told by voices in my head that it was my mission on Earth to remove the Tower of Babel by bringing the highest frequencies to Earth through Music.

That was my mission and that was my puzzle that I would need to figure out and accomplish before I could move back into that glorious reality where I didn't have to listen to people BABLE any more.

The thing I hate the most in life is having to listen to people talk. The reason I started creating my own music was to create frequencies that were so much like the Frequency of God, that I could just stay in tune with the voice of God instead of listening to the outside BABEL of the world.

One day a large group of Angels appeared in my living room and gave me the formula to bring the Highest Frequencies to Earth through Music. They told me that I would create the music and the

music would speak to me. I would write down what I learned from the music and then create more music. I have been following that formula since 1992. I have been watching the steps and stages of the Ascension of Earth take place through these frequencies in the Music.

It is the Music of the Spheres streaming the spiritual frequencies into our neuronets to transmute the lower physical frequencies into a new harmonic reality. When I connect my Consciousness into the Tones of Reality beyond the Earth's Matrix and completely into the Omnipresence of the Source Field of Creation I then Inhale the Frequencies into my Crystal Spheres (These are ETHERIC CRYSTAL SPHERES--not the physical kind) The Angels handed me these three spheres of crystal liquid light, crystal dust and crystal gel. They told me to use these as a microphone that would record the spiritual frequencies into a tangible form that I could record.

The transition of the Frequencies was truly magical. They way the tones sounded without the use of the Crystal Spheres and they way they sounded with the Crystal Spheres were two totally different levels of Consciousness. One level of Consciousness was that 12th Level Avatar Field of Melchizedek Consciousness allowing the Truth of Reality to stream into my Neuronets and allowed that Essence to be Exhaled into these magical Crystal Spheres.

I studied the teachings of THE LEGACY by Ramtha and the SLIDERS DVD's by AZURITE PRESS for several years discovering more and more about what these Crystal Spheres actually were.

I learned that this magical substance in these spheres is actually the same etheric substance that all reality beginning from the spiritual vapor within the Plasma Vapor itself that is this Crystal Liquid Light of the first Sphere, the Crystal Dust contains the Plasma that creates Stardust and the Crystal Gel was the Atomic Radiation Gelaisic substances that reunites us into our Spiritual Body.

All of this is translated down into the omni particles of creation in the Legacy Teachings and in the Sliders.

My favorite metaphysical teacher was Joel Goldsmith because he focused on the reality of Immortality. My study of Christian Science by Mary Baker Eddy since age four combined with Joel Goldsmith's teachings held my consciousness within the belief system that Man is Immortal, always has been Immortal, and always will be Immortal. I never considered the possibility of any other reality.

I was one of the lucky ones. It is much harder to change a belief than to be born with the correct belief.

The words that I heard most often were Man is not Material, he is Spiritual.

I grew up hearing about so many people who were healed of every known disease through these metaphysical teachings. I remember Goldsmith talking about people who had lived to be over 200 and one who was over 600 years old living on Earth at that time. Later, when I lived in Japan, I met people who lived in Hokkaido where there were entire villages of people between 200-600 years old.

So, the belief about immortality is not a belief about the Soul continuing on into another lifetime when we die, as the common religious belief will teach. The Science of Christianity always said that man is an immortal idea of God, not a mortal idea of God. The Science says that man is made in the image and likeness of God. That image certainly does not die.

When I was a child, I was always much more attracted to the music at Sunday School than the words. I was the pianist for Sunday School and later the Soloist in the Church. I always saw a much deeper meaning in the music and the poems that created the music. I could feel the reality of God through the music much easier than through any thing that was spoken.

I also remember using the music to remove fear when I couldn't sleep at night. Reading the scriptures never did relieve me from fear, but the music wrapped me in a blanket of protection immediately.

There was a third aspect in my early years that led me to the study of communication and the psychology behind communication. That aspect of my life was the way my family communicated. I was living in a sea of confusion and fear every day of my life. I escaped to my room to read Goldsmith and Eddy who would each tell me that my Mother and Father was God, not a set of mortals. Goldsmith referred to the parents as the oven where God kept the creation until it was

ready to experience his reality. The KNOWING that God was my Mother and Father eased my pain and made me happy every day of my childhood. This is what led me to the study of AUTHENTIC ENCOUNTER, which is the only field of study in Communication that admits that there is a Greater Mind at work behind the communication between two people.

In the Study of Communication we learn about transmission communication, where one person, such as a teacher or preacher sends a message, and there is no reply from the receiver. And then there is transactional communication where two people share messages between them. However, we learn that the meaning that is shared between the two people comes from whatever is in the background knowledge of each of the transactional partners. This means if the person talking has grown up in Asia, and the person that he is talking to has grown up in America, whatever the person says is going to have a different meaning to each of the transactional partners. Several years of investigative research in the field of communication was achieved while traveling from country to country analyzing the background knowledge of the people who were communicating.

I earned my Doctorate studying the Communication in Multinational Corporations while working in and doing research in various companies around the world. It was easy for me to see how each culture had designed their own reality and a language to fit that culture. These various realities made International Business very complicated. We were always investigating the meanings that were being used to market products to countries that did not share the same meanings or use of words as the Distributing Country.

Over a decade after I completed several years of research in intercultural communication, international communication, multinational communication, International Marketing, Education in Multinational Corporations, Education in International Schools, and Behavioral Psychology and Music Therapy in multinational education, I heard this Great Entity speaking. His name was Ramtha. He was

talking about the need to learn to expand our consciousness and go beyond our cultures into a new reality. The first time I heard him, I thought he had copied my lectures in Multinational Communication. He was repeating everything that I had learned through research all over the world, and then written in my Dissertation.

I remember hearing Ramtha talk about how at one time all of the people on Earth shared the same reality, but then our minds were scattered to the wind. He was talking about the Tower of Babel. In 3470 B.C. the Babble-On Massacre caused a mutation in the Human DNA that scrambled our original language patterns and removed our original Race Memory.

After that time, people scattered around the world and collected into small groups that grew into villages. Those groups would create their own realities because they had absolutely no memory of their original raceline. There were groups creating villages in various countries, and each group created a completely different reality system.

The reason for the Tower of Babel was to scramble the original Fire Letters of the Race Line Genetic Code of Creation into 12 pieces and then scramble those letters out of the proper arrangement in the minds of each of the 12 groups. This was done so that the original Human Angelic Raceline would completely disconnect its Divine Power.

The reason that I was so intrigued by all of the various cultural realities around the world was because I was being trained to see that as long as we keep trying to connect with other versions of people and those versions of reality, there were always going to be problems. However, when we shift to AUTHENTIC ENCOUNTER, where the meaning between all people is the communication coming from DIVINE MIND, we begin to find our way back home to our original reality of ONE RACE LINE on Earth.

The true purpose of the birth of the thousands of Indigo children and the Six Avatar children was to bring the Consciousness back that was stolen from us in the Tower of Babel. That tower used sound waves in

our atmosphere to scramble the pure sound of light and sound that is the Consciousness of the Divine Mind.

Some people have asked the question, " How can we be separated from the entirety of Light? Why would we need to connect to a higher light instead of just light?" The answer is that the light and sound in our Universe has been scrambled. It is like a radio station. If you don't turn the knob on the radio station to exactly the station number, there is static between the stations. Well we were placed in the static part of the radio. We were placed in between receiving transmitters. This has made it very difficult to stay on GOD's CHANNEL of reality. We receive the Sound and Light of God's Authentic Encounter when we focus completely on staying on that One Frequency which is the HIGHEST FREQUENCY. However, there is all of this static coming in when we try to get on that station. That is what the Tower of Babel did, along with the Jehovian Seals that were placed in the Earth's Grids, along with dozens of other distortions placed in the Waves of Sound and Light. Those waves were twisted and scrambled.

Now, that we are in the Aurora Fields of Cosmic Plasma, we are tuning out of the Tower of Babel, and we are tuning in to the Original Ascension Earth, and we are tuning back in to the time when our Race line had ONE LANGUAGE, and that language was AUTHENTIC ENCOUNTER. We all knew the thoughts of everyone because we had ONE MIND.

That was the discovery of my husband and I after doing several years of research in the MULTINATIONAL, MULTI-LINGUAL World that was created by the SCRAMBLING OF OUR COMMUNICATION CHANNELS.

The other thing that we learned while doing this research was the fact that Music was the International Language. We always used music to teach communication. There were other psychologists who combined the study of neurolinguistics and authentic encounter to show that all communication actually comes from outside of the head and travels

into the head. It is not actually the brain that sends communication. The brain is actually a receiver from a higher source. YES, THIS FACT WAS PROVEN by NEUROLOGISTS many decades ago.

We learned that the use of the High Frequency Music from the Mind of God could create this continuous connection to the God Channel that we were tuned in to before the Tower of Babel.

It wasn't until I listened to Ramtha, and then Ashayana Deane, and then Bashar each explain this reality in their own unique way that I realized that what I had discovered in my research was the divine reality that all Ascended Masters know. It is always our higher self who does the communicating. The thoughts that come to our brain come from our higher self. They don't come from the brain. Neurologists had done research where they actually shut off the brain, and yet the person could still communicate.

Now, we are learning where communication actually comes from and we are beginning to learn the telepathic communication methods that were divinely ours over 5000 years ago. The reason that this reality is becoming more and more clear every day is because of the birth of the Avatar Children melting away those Seals that have been blocking us from our Oneness with our Raceline. As those corrected frequency signatures were born into our Earth's portals directly from the parallel spiritual universe, they created this new doorway of consciousness that will remove those scrambled communication codes and melt our minds back together as they are supposed to be.

The beginning of this transformation came from the Indigos born about one hundred years ago. This was the first time there was even a speck of desire for different countries to have any desire to communicate. The birth of those corrected Frequency Signatures began the Paradigm shift that began to melt away the hatred between countries and between races of different colors. The education system began to change, the world economics changed, the multinational corporations began to flourish, we began teaching the subject of the Melting Pot of Cultures in our school systems. This

change all took place between the time I graduated from high school and the time I completed my doctorate. Everything that I tried to achieve in my research and education became a paradigm shift in the entire world.

Why was I so in tune and so on time with this reality shift? It was my plan long before I was born. I had come to Earth for the first seeding 5.5 million years ago. I came again for the second seeding 4 million years ago. I came for the Jesus and Mary project several times before anyone had even heard of Jesus and Mary. I made sure that I was here for this final completion of the project that my Ascension Team began 5.5 million years ago.

I made sure that when I returned to Earth this time that there would be memory codes in me that would activate when certain situations were placed in front of me. Of course, my higher selves were always placing these objects in front of me to help me remember. And I don't just mean a few books falling off of shelves and hitting me on the head. I mean really big things like being poisoned with enough lethal poison to kill ten people and then being met by a team of angels who showed me the Draconians who arranged the poisoning and showed me myself being replaced with a new self- a walk in who was one of my other versions of myself.

I had many of these meetings with Light Beings and Dark Beings. I learned how to demand the help of the entire Crystalai Council and they would appear before me. After I did this several times, I began to suspect that I might be someone very powerful. It seemed like I was in charge of an entire army because this Council would respond so quickly.

I have only recommended the teachings of Ashayana. I have never attempted to criticize her or to claim I was a teacher of her Science. I only recommended others to consider reading her books.

The SEAL that created that TOWER OF BABEL communication distortion is one of the Seals that the Avatar Children have removed. The combination of all of the original race line fire letters have been

restored and are now forming into the original communication template for our world.

This is one of the grand events that we will see manifesting very quickly between 2017-2022. Bashar says we should focus on communicating with the Dolphins because they know our original language and how to use Authentic Encounter.

I have always communicated with the Cetacean Raceline and the Aquafarians that I knew from the FIRST SEEDING of 5.5. My Aquafarian Mother and family is still in Aquafaria. I Slide into Inner Earth to visit my family every night. I communicate with the Cosmic dolphins who live in Aquafaria. It is the exact same communication that is used with the Dolphins of the outer domains.

It is natural that I would be directed by Zaurak, my starry brother from Sirius B, because we had worked on this Ascension Project before during the Second Seeding. We found that Sirius B had the exact same accretion level as Aquafaria, so we could use the Magnetic relationship of the two bodies of consciousness to help pull the Earth up into the original frequencies of Inner Earth through the help of Sirius B.

When Zaurak called me to Monterey in 2008 to work on creating the Ascension Portal for the Cetacean Raceline I was able to watch many dolphins and whales turn into Plasma Vapor, rise into the skies and then transmute into the Cloud Cities. This was the Ascension of the Cetaceans. The dolphins were ascending into the Sixth Dimension and the Whales into the ninth dimension.

It was this event of the Cetaceans rising that activated the Ascension Portal for the Human Angelic Race to rise to the Fifth Dimension. It has always been the frequencies of the Cetacean Race guiding our bio-regenesis project on Earth.

My Crystalai Council arranged for me to have the pictures of holding the Blue Sphere and Violet Sphere when we were in Monterey. The picture is showing that there is in reality no distance between our

body and our Blue Plasma Body. Our physical body and plasma body hold the same design and as the plasma body turns blue, this means the physical body has become fifth dimensional. So, as we were watching the Dolphins rise into the Sixth dimension, I was watching myself rise into the fifth dimension.

CONNECTING TO CONSCIOUSNESS BEYOND THE FIVE SENSES

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses.

In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian.

That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blindfolded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has just been born.

We have tuned in to a new Spiritual Parallel Universe and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love

around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that was taken away 5.5. million years ago.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of Goldsmith and Eddy have been tuned in to these realities. However, now that the complete Science of this higher consciousness has been revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

The more we tune in to those higher frequencies, the more they tune in to us.

FIFTH DIMENSIONAL REALITIES BEING SHARED by our Members of THE COSMIC MYSTERY SCHOOL OF THE OMNIVERSE

Dr. Angela Barnett (CRYSTALAI) (c) 2014

YOU CAN GO EXPERIENCE THIS MUSIC AT
<http://crystalmagicorchestra.com/music-listening>

Your Higher Self is the REAL YOU. Your Brain is, in fact, not capable of Thinking or Creating. It never was. It is only your Higher Self who does all of the thinking and creating. There has been a mixture of your old cellular memory within your brain doing the thinking, just because there has been this old programming left over in the cellular memory. The Frequencies on Earth are high enough now to allow the shift into the Higher Self to be continuous. We do not have to battle with those old thought sequences any longer.

When you have dreams where it seems like you are looking at yourself through the eyes of someone higher than yourself it means that you have become your higher self watching your body template.

Your higher self is simply YOU with a much broader perspective. Your higher self can see you and what is before you and behind you, what is happening miles ahead of you on the freeway when you drive, days ahead of you when you are making plans, seeing what is beside you and behind you, etc. When you are in tune with your higher self, you can drive your car blindfolded.

In the fifth dimensional realm of multidimensionality, you can be your higher self in infinite times and places and in no time all at the same time. Manifestation simply means moving to one of the other infinite parallel realities. You don't actually create anything new. You just move into the frequencies of another parallel reality.

These are all of the fun things that you can learn to do now that you are in your fifth dimensional template. The real fun starts happening near the end of 2015 when we begin the crystallization process of our rebirth.

You see, when you were born, your soul became CRYSTALLIZED into this Density. That Crystallized Self is the Seed Atom within your Thymus that connects into the Mind of God at the medulla oblongata. Everything that you ever were and ever will be exists in that Seed Atom. When we begin to Crystallize again in 2015 our rebirth as a new density within the crystallization process completes. Our crystallization makes us into a less dense reality.

When I received emails from members on my cosmicdolphinmagic.ning.com website, who have been having dreams that are clearly Lucid Dreams of them being their Higher Selves seeing and remembering activities such as working on the Earth's Crystal Grid Project, swimming and talking to Dolphins, walking on the Clouds, and other spectacular manifestations of our new reality, I realized that everything that I have written so far must be changed into the PAST TENSE.

It is time for you all to realize that your DREAMS are not IMAGINATION as you would think. They are, in fact, REALITY. They are the reality of you at your more ETHERIC level of reality, watching

your self do something that you are actually doing.

The CRYSTAL GRID APIN SYSTEM is now being activated. That Grid System is the free global energy, climate stabilization, healing, and inter stellar subspace communications and broadcasting by aligning through the Light Codes of the Cosmic Council into the Crystal Liquid Light connecting to the Mind of God, Eternal Source Field. We can connect our consciousness into this GWL Crystal Grids running through Earth into Inner Earth and out into stargate 12 Aramatena. We always need to connect our consciousness into both fields of energy - the Inner and the Outer and use our body temples as the lightning rod that connects the flow of crystal liquid light, D12 Consciousness.

The Earth's Christ Grid System is the Mathematical Programming in the Earth that provides our Manifestation Programming to begin working correctly.

The apin technology is an environmentally valid application of the natural spiritual and scientific laws of creation physics. Before these technologies fell into the hands of fallen angelic races, they were used openly by various guardian races in many universal systems to facilitate and enhance the experience of evolution and ascension for all. The apin systems were used for free global energy, climate stabilization, and healing and inter stellar subspace communications and broadcasting.

They are massive global grid systems made of strategically placed crystalline microchips that interface directly with the natural multidimensional electromagnetic energy conduits of star gates axiotonal and ley line systems organic to earth's templar.

The GWL runs on a D12 Twelve code pulse and links Earth's Planetary Shields to their Divine Blue Print D12 Pre matter Template at Lyran Aramatena.

THE GREAT WHITE LION IS being reactivated CORRECTLY by our Security Team from Sirius B. They plan to have it running into the

original connection with stargate 12 Aramatena and into the Earth stargate 12. This is happening now but will not be complete until the two sets of angular rotation spin of Tara and Earth completely separate. We can attach our consciousness into the Grid now and activate the gifts that it naturally brings to us.

The Great White Lion is a Mathematical system that is created of something similar to our microchips made of a crystalline silicon substance planted in the grids of the Earth. The Global GWL looks exactly like the Sphinx in Egypt, except it covers the entire world. The GWL runs on a D 12 Twelve code pulse and links Earth's Planetary Shields to their Divine Blue Print D 12 Pre matter Template at Lyra Aramatena. The GWL has also been called the Lion's Gate because it opens the passage to all 12 stargates. This possibility wasn't a possibility until after Earth was shifted in time to a place where there was an Aramatena 12th stargate. The Annunaki had destroyed our Aramatena in the Electric Wars 250 billion years ago. Our Founders and Cosmic Councils have been preparing our way back home for many millions of years.

ADVANCED DNA ACTIVATION

DNA -- WHAT WE NEED TO KNOW

by Dr. Angela Barnett -- THE DNA DOCTOR

<http://crystalmagicorchestra.com>

<http://crystalmagicorchestra.com/purchase-1>

First, we need to know that DNA is made from subharmonics. Subharmonics are the spiritual or etheric substance of creation. That is the substance that is invisible to the five senses. But, that doesn't mean it isn't real. The subharmonics are created from over tones, which are the electro tonal frequencies of the Spiritual Cloister Races, and the Base Tones, which are the magnetic tonal frequencies of the

Root Races, who are the original Angelic Race Lines of Earth.

Each of the double helix of the DNA is made from 12 subharmonics. So there are 24 subharmonics per DNA, and there are 12 DNA in the Normal Human Strand Template.

That is the template of a Human Angelic.

However, the template for the INDIGO is a little different because they represent the spiritual cloister of the over tones. They have a 48 DNA template. We need that template to activate the 24 DNA template.

Scientists think that they can perceive of the 12 strands between the double helix as what they call the junk DNA. This isn't quite true. The subharmonics are actually on top of each of the two helix. There are 12 subharmonics on each helix. The template that the scientists think they see, would be the braiding of the over tones and the base tones of the subharmonics. However, it is not possible that they can see this because the tonal strands were broken apart.

The separation of our DNA was created by separating the OVERTONES of the Spiritual Cloister Race from the BASE TONES of the Original Root Race. The Indigos and Avatars represent the Subharmonics that were missing from our DNA.

Those entities were required to be born on Earth in order to re-open our Ascension Portals back to Tara. Their frequencies were planted into the Earth's Inner Core of Morphogenetic Consciousness in order to re-establish the correct frequencies that will re-activate our DNA correctly.

Those frequencies can be placed into our DNA through the activity of connecting our consciousness into those dimensional fields of consciousness and into the Morphogenic Core to activate the braiding of the over tones and base tones of the subharmonics of the DNA.

Those of us who are Doctors in the field of Multi Dimensional Braiding of Consciousness to activate the DNA Over tones and Base tones to sing together in harmony have gained a complete attunement with

each of the 15 Spheres of the Music of the Spheres and the realignment of each and every spiritual over tone through the Center Harmonic and into the corresponding base tone of the etheric Root Race Frequency Signatures.

This attunement is a Cosmic Orchestration that weaves all frequency signatures together into a Grand New Symphony of Love. It required the re-birth of 12 Universes into a new Cosmic Sun and the creation of a new Cosmos beyond the 13 Cosmos who created the 12 Universes. This is a brand new orchestration by the Cosmic Musicians who sing through the Mind of God.

The Immortal Beings, that we once were, contained a complete Divine Blue Print which included the Spiritual and Physical as one. That means there is an etheric substance and a physical substance in creation. The most etheric substance is in the Cosmic Harmonic Universe, then the Universal Harmonic Universe is a little less etheric, and then the Galactic becomes more dense and less etheric, the Solar is much more dense, and the Planetary is the most dense. However, the Planetary was never supposed to be completely separated from the etheric substance that it is made from.

We are now returning to more and more of that etheric substance that we were in the Universal and Cosmic Harmonic Universes. We are being braided back together with our etheric spiritual substance. The braiding goes on in the DNA. The overtones of the spiritual cloister races must be braided into the base tones of the Consciousness of the Root Races.

This project is taking place through various means at the present time. It has been a very long project that has taken millions of years. The most important part of the project was the arrangement of having babies born on Earth that actually came from the Spiritual Parallel Cloister Races so that our Over Tones could return to Earth. We also needed the births of babies who contained the original perfect codes of the Root Races who were originally seeded on Earth 5.5 million years ago.

We needed the Frequencies of these Indigo Children and Avatar Children to be planted into the Consciousness of the Earth before our

DNA Activation could begin.

Our race line has completed a very long period of time when the over tones of our spiritual parallel reality have been separated from our base tones of our physical reality. There were many reasons for this happening. Most of the reasons were because of Invader Races and Fallen Angelic Races implanting Mutations in the pure genetics of our race line, and then our Guardians and Family of Tara needing to lock us out of Tara until our Consciousness became purified once again.

Our Guardians have always been very sorry that this has happened and they have been doing everything possible in the Cosmic All Knowing to bring us home. They have designed many plans to purify and activate our DNA at this time.

Each of these DNA ACTIVATION PROTOCOLS is and has been specific attunements and alignments Frequencies of Consciousness from our Parallel Spiritual Cloister Races who have maintained their pure and perfect DNA into the Root Races that are identical pairs of the Spiritual Overtones. The Root Races carry the Base Tones and the Cloister Races carry the Overtones.

There have been a series of activations of this Consciousness from the Spiritual Cloister Races into the Root Races of this Planet. We have been activated by the Paradisian Spiritual Consciousness as a result of the Indigo children who were born with the ability to activate five and six DNA strands at birth We have been activated by Six Avatar Children who restored each one of the Seals that were placed in our Chakras that were created to lock us out of Tara until our Consciousness was purified.

The Consciousness Activations are done through the Breaths of Consciousness connecting, streaming and braiding the Overtones into the Base tones of all of the broken sub harmonic strands in each of the DNA.

When I create an Individual's ETERNAL LIFE ALBUM, I am connecting my Consciousness into the All Knowing Mind of God through the Elohim of Hearing in Gaia who knows exactly what needs to be done to correct, restore and activate each Individual's DNA.

Through this all knowing Consciousness who has making this plan of accelerated Ascension for the Human Angelic Race Line for millions of years, it is known what Race lines the individual has been connected to through all their past millions of life times, and it is known which Seals were placed on each individual because of certain implantations from Invader Races, and it is known if the individual has already spent life times in Sun Alcyone repairing many of the Seals, and it is known if the individual is ready to wake up from the amnesia of 5000 years.

DNA ACTIVATION -THE REMOVAL OF THE DEATH SEAL

Crystalai

<http://www.crystalmagicorchestra.com>

Five million years ago the genetic mutation was placed in DNA strand 1 to cause blockage of physical and etheric bodies.

The sixth activation code (over tone) of the first DNA strand was removed, causing mutations in 1,2, and three DNA. It manifested in blockages of bodies particles and anti particles of the spiritual body of the parallel universe.

That seal removed the humanities ability to have an Immortal body. It removed bodily transmutation and ability to pass into our Divine Blue Print.

Seals were also placed in the sixth overtone of the subharmonics in DNA strand 2 and 3.

This became known as the 6-6-6 Death Seal.

Eight thousand years earlier the D4 Seal of Palaidor - a genetic mutation caused blockages between second and third chakras

division between 2,3, and four levels of auric field and separation of emotional, mental and astral identity levels.

Fifth Strand of DNA begins activation for masses. Earths Grids intersect Taras. Blue Crystal Prana comes through grids. When the halls of amenti (the blue sphere holding our divine blue prints) merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided to interdimensional transportation locations to Tara. Those who have sixth and seventh strands may be transported to Gaia. There may be others who will be transported to Aquarius, Aquafaria and a few who will go play in the heavens with the gods. This time is coming very soon.

Angelic Humans and the races of Earth will soon be prepared for visits from the Inner Earth Eieyani, Sirius B Maharaji, Azurite, Aethien and Serres Emerald Covenant Races. They will make contact through our Founders Races and will invite Earth races to join the Emerald Covenant. The physical mass contact of the Emerald Covenant Nations is scheduled for 2017. The first contacts will be made individually and privately. First, we will meet with Eieyani races because they look the most like us--only they are blue. After we become familiar with the Eieyani, we will be met by Azurites and Maharaji. The Fallen Anglics and Illuminati races will be escorted to quarantined healing facilities in the Sirius star system. Remaining Angelic Humans and Indigos will progress in their 12 Code activation and DNA blue print activation.

Once the D 5 flame holder holds the frequencies of Sun Alcyone and pulls the frequencies into her Flame Keepers fourth heart chakra an intense infusion of harmonic universe two frequencies spread through the Amenti morphogenetic field and through the Earths Grid. This will allow rapid acceleration of fifth and sixth DNA strand assembly to occur throughout the populations. The seventh strand will begin assembly in those who already hold fifth and sixth. This activation will create a huge multidimensional awareness to occur on Earth.

When the halls of amenti (the blue sphere holding our divine blue prints) merge Tara and Earth together, those who have assembled the fifth strand and are eligible for ascension to Tara will be guided to interdimensional transportation locations to Tara. Those who have sixth and seventh strands may be transported to Gaia. There may be others who will be transported to Aquarius, Aquafaria and a few who will go play in the heavens with the gods. This time is coming very soon.

First, we will shift into a different chemical make up. We will leave behind our carbon based bodies. We will become less dense. Our bodies and our environment will change. Those who move on to Tara will have an entirely different type of body than those who stay in Inner Earth. Those who move on to Gaia are almost invisible. Those who are of higher densities can see the lower densities; but those who remain 3D will not be able to see any of the new realities. It might seem like things are disappearing because the higher particle shifts will pull some in one direction and the lower will pull those in another direction. There are infinite density levels.

The three primary flameholders will activate the opening of the Etheric Level Dimensions within Earth's core. This will allow prana to begin to flow through our atmosphere. At that time our universal memory comes on line and we will regain memory of our Akashic Records for anyone who has activated 4th strand memory.

Earth's angular rotation of particle spin shifts 45 degrees and aligns into oneness with Inner Earth and Tara. Earth's fastest particles begin to transfer to hyperspace and the halls of records begin transmitting data through the Earth's grids. Universal memory will begin transmission through planetary grids. That shift will move us through time about 4000 years. The shift will then balance out to about 23 degrees and then we will begin balancing into the new reality of a new time of about 2000 years. It will be the first pull into the future that will appear as darkness to the 3D perception. That darkness is equivalent to the darkness that appears as antimatter or spiritual

substance that we may create our new reality upon. We see ourselves in our blue body at this time created as an immortal being in a more etheric form included within a Divine Template of Immortality. The darkness is the prime time to make dreams come true. You create through the mid brain frequency specific atunement with Source Consciousness. You create by knowing that you are now and always have been this perfect self who can manifest anything the heart desires. You can know at that point in time that you have always been wealthy. You have always been healthy. You have always been the Christ Consciousness of the All Knowing Mind of God.

Earth's elemental particle base will rise to 5 and the Earth's atmospheric particle base will rise to 6. This accretion level will allow the atmosphere and elementals from Inner Earth to appear on Earth. This will be our first vision of our New Earth. We will begin to see the atmosphere of Inner Earth forming around us and then we will notice more and more new species and inner earth gardens will appear. All of the animals and plants in Inner Earth sing continuously. We will notice this difference in Earth immediately.

Angelic Humans and the races of Earth will soon be prepared for visits from the Inner Earth Eieyani, Sirius B Maharaji, Azurite, Aethien and Serres Emerald Covenant Races. They will make contact through our Founders Races and will invite Earth races to join the Emerald Covenant. The physical mass contact of the Emerald Covenant Nations is scheduled for 2017. The first contacts will be made individually and privately. First, we will meet with Eieyani races because they look the most like us--only they are blue. After we become familiar with the Eieyani, we will be met by Azurites and Maharaji. The Fallen Anglics and Illuminati races will be escorted to quarantined healing facilities in the Sirius star system. Remaining Angelic Humans and Indigos will progress in their 12 Code activation and DNA blue print activation.

First it is important to understand the ORIGINAL design and how things are SUPPOSED to work when the Earth's grids and the DNA is operating properly. The original Angelic Human DNA is designed with a 12 strand double helix energetic DNA blueprint. What this means is that each human with a 12 strand template has the potential to EMBODY 12 dimensions of consciousness. If there weren't any blockages, distortions, or unnatural seals in the Earth and in the human DNA, this is the way it would work:

1) You would be born with a 12 strand DNA template. 3 of those strands would be active at birth which means you could embody 3 dimensions of consciousness. Physical, Emotional, and Mental Bodies. These correspond to chakras 1, 2, and 3 (root, sacral, and solar plexus). Dimensions 1, 2, and 3 correspond to your Incarnate Self spiritual identity.

2) From age 12 until 22 you would activate strands 4, 5, and 6 naturally by accreting light into your morphogenetic field simply by the interdimensional frequency coming into the Earth's auric field and thus your own auric field. Once you activate strand 6, you are a fully embodied Soul Identity and can draw and hold frequency from Harmonic Universe 2 (dimensions 4, 5, and 6). You are living completely IN LINE with your mission and make all of your free will choices in line with Source-will.

3) From age 22 until 33 you would activate strands 7, 8, and 9 and embody your Oversoul spiritual identity. So you can draw and hold frequency from Harmonic Universe 3 (dimensions 7, 8, and 9). Your consciousness expands even more as you are activating more fire letters on your spiral back up to becoming AT-ONE-WITH Source/God.

4) From age 33 until 44 you would activate strands 10, 11, and 12 and embody your Christos Avatar Self spiritual identity. At this point you are a walking Avatar on Earth and can demanifest your physical body and turn it into light (ascend). This is what is called biological transmutation and is built into the original human DNA design. So instead of leaving a body behind you transmute it into a less dense form (from carbon based matter to silica based and then etheric, and then eventually liquid light).

So this is how the original DNA is supposed to work and also completely explains the basic process of spiritual evolution. Spiritual evolution does not happen without DNA activation.

FIFTH DIMENSION IS BEYOND THE FIVE SENSES

There are many pieces to the process of Ascension. Each one of the pieces is a part of how we learn to tune out of the Five Senses and into the other Seven Senses.

We have been told that we must RAISE OUR FREQUENCIES. Most people don't know how to do that so we created Music that does it for you. The frequencies are created by taking Consciousness into the higher Harmonics Universes and blending them together in a certain way that creates Frequencies that allow us to Transmute our Bodies and our Realities beyond the Third Dimensional Five Senses.

We are learning that there are many more realities beyond the ones that we behold with the Five senses. That perception is only a very small part of the Full Spectrum of Light and Sound.

So, we created the Music to allow you to connect your consciousness into the Christic Consciousness of the 12th Dimension and the Cosmic Consciousness of the 14th Dimension, and then also out into the Pre Light and Sound Fields beyond those and then clear out into the NEW COSMAYA of the 13 Cosmos which connect to the Infinity of other Cosmos in the Source Field.

Now, you can begin enjoying the feeling of all of those other sound fields besides the Hertzian range of Audible Hearing. This means that this teaching does not come from the Solfege teachings. It comes from the Cosmic Mystery School of the Omniverse, which is beyond the Earth's Matrix and even beyond our old Cosmic Matrix. The Frequencies of this teaching come from the Grand Yanas of the Pre Light and Pre Sound creating a new reality from the Source Field of Infinite Consciousness.

We have also prepared for you a LEVITATION CANDLE DVD. This is a Visual of a Candle burning for one hour. As you look into the candle, you learn that the hertzian level of the Light Frequency is the lowest. It is actually where the stem of the candle is, because that is the spectrum that is tangible to all of the five senses. We can see the

stem, touch the stem, smell the stem, taste the stem. We are actually living in that tangible frequency that is DENSE-it is SOLID- it is the physical reality that we conceive of.

The candle allows us to recognize that there are other levels of light and sound. Just above the stem there is infra red light. That is the light spectrum that the digital camera can see, but most of us haven't learned to see like the camera sees. The next level is the Visible Light that we think we are seeing. Above that is the Invisible Light where another reality lives within right here within the Visible Realm. And above that there is the x-ray field of light and then the Gamma, Plasma and Pink White Light.

When we use the diagrams that show the spectrum of light frequencies and where those frequencies are heard and felt in the brain area, we begin to realize that we haven't been using the part of the brain that tunes in to the Pink White Light of the Mind of God or even the Blue Frequency in the Mid Brain.

We can easily tune in to the Blue Frequency by walking into the Candle because the Blue Hue is the result of absorbing the full spectrum of Light. We can feel that frequency filling the Mid Brain and when that happens the old THINKING BRAIN stops analyzing all of the old ideas that have been placed in it over the past millions of years. The Mid Brain turns off the Thinking Brain and allows the Mind of God to take over the thought process.

When the Mind of God gets plugged in to the area at the top of the back bone and the bottom of the skull there is a frequency connection into the Seed Atom of our original creation and into the Vagus Nerve which controls all of the nerve centers in the body. So, you see, we can, in fact plug our bodies back into the Mind of God.

And when we achieve that Frequency connection in our bodies we gain the Eternal Life where the sixth level elementals are continuously re-programming the nano second rebirth of every cell in our body and transmitting correct information for the constant rebirth of all of the neuro structures of the body.

I go through that process in great detail in the ETERNAL LIFE

WATERS SET.

Now, that we are being given this gift of the Fifth Dimension, we will need to learn how to TUNE IN TO IT. We must raise our frequencies of hearing and seeing. The Frequency Music itself does this. It actually tunes you in to the Blue Hue which also tunes you in to fields of light that are in the Invisible Light Spectrum that you have never seen before.

You can build on this new ability of going beyond the Veil of the Senses by doing the Candle Process that is described in the CANDLE LEVITATION DVD.

You can practice by using the Meditations that are in the MANIFESTATION MERKABA set. There are many tools, meditations, journies in all of the Sets created in 2014. The MANIFESTATION MERKABA SET is a GREAT DEAL because it contains the CODES that were in the original ASCENSION KIT along with the most important MEDITATIONS that were in the COMPLETE ASCENSION PROCESS KIT.

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses.

In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian.

That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blind folded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you

tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has just been born.

We have tuned in to a new Spiritual Parallel Universe in the PARALLEL UNIVERSE SET and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun in the SYMPHONY OF LOVE ALBUM.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that

was taken away 5.5. million years ago. The birth of the SIX AVATAR children each brought a unique Stream of Consciousness that is healing the miasms and seals placed in our DNA. Those Frequency Signatures are in the COMPLETE PERFECT DNA INFUSION album.

I've noticed that more people buy that album than any of the others. Of course it is an extremely important event - the Birth of these Children and the fact that they prepared ascension portals for the race lines that would be locked in the Earth's Matrix forever. However, don't forget about the Frequencies of the UNIVERSAL LIFE FORCE CURRENT who prepared the Stellar Wave Activations and Infusions that are in the Parallel Universe Kit. And don't forget about the work that the Cetacean Raceline did in their Bio-Regenesis Project of keeping the link between the Earth and the Oraphim Suns. And the final ingredients of the ETERNAL LIFE WATER of the Vapor Essence within the Plasma which is the Consciousness Field that allows us to Vaporize into the Spiritual Water of Aquafaria in the Inner Earth. This is the Ascension Vehicle into the Ascension Earth.

Each of these pieces of the formula of the Ascension are crucial to the complete Mass Process. And then each Individual has a unique Frequency Signature and complete Portal of Starry Families, Souls, Avatars, and Rishi Selves that must be Tuned in to in order to begin the attunement into the Cosmic Telephone lines.

This is the last piece of the puzzle that is needed. We must remove the TOWER OF BABEL. That means we will no longer speak different languages. We will all speak one language. We must first tune in to the Frequencies of the Cosmos and our Cosmic Families and most of all the Cetacean Race Line, because they are the only E.T.'s living on Earth right now.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of Goldsmith and Eddy have been tuned in to these realities. However, now that the complete Science of this higher consciousness has been revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

The more we tune in to those higher frequencies, the more they tune in to us.

ADVANCED DNA ACTIVATION MP3

This advanced formula of DNA Activation contains the most basic God Language Codes for DNA Activation sung in CHRISTMAS MELODIES, plus all levels of Frequencies involved in the infusion of stellar light, Indigo and Avatar Consciousness and Music of the Spheres to perfectly activate DNA subharmonics of the 12, 24, and 48 in each DNA STRAND.

Each of the songs in this album contain specific God Language and Frequency Codes that correct and activate the streaming relationship of the particles and anti-particles within the subharmonics of the DNA. The formula of Consciousness Alignment into the entire Cosmic Matrix through the direction of the Elohim of Hearing and the Cosmic Ascension Teams is the Musical Formula used in creating this music.

Crystalai channels the frequencies from the Magical Orchestrations within the Music of the Spheres and infuses the sub harmonic overtones and base tones of the DNA to activate each of the physical (particles) and spiritual (anti-particles) into the photonic (morphogenetic consciousness) of the brand new Angelic Raceline Consciousness Field from within the Earth's Cosmic Core.

This Consciousness from within the Crystal Heart of Mother Earth is reconnected through the Listener's Crystal Heart into the Parallel Spiritual Matrix of Mother Earth and into the original Photon Belt of the 8th Sun of our Creation. This is the formula that is used to correct and align the 12 subharmonic harpstrings into each of the double helix of the DNA. This DNA activation combines the 24 subharmonics of the physical and spiritual of this Universe and the 24 subharmonics of the physical and spiritual of the Spiritual Parallel Universe of to insure the full 48 activation in each of the DNA. This album contains the magical transformation formulas from many of the previous Crystal Magic Orchestra albums and combines them into specific activations needed at this time of our Ascension.

The Frequency Fence that was created to post pone our ascension until this time is what has created the illusion of the FIVE SENSES. Unlocking the potential of the DNA through the photons of the particles and anti particles spinning into higher frequencies of Reality will set us free to see all of the magical realities that exist within Light

and Sound itself.

The breaths of consciousness that line these songs can not be heard by the Five Senses, they must be heard by the Seven Senses of Super Consciousness.

It will be natural for many to think that they can't understand the words because the songs are sung in the God Language. There are thousands of layers of words and frequencies and breaths that you will not be able to hear until your DNA becomes activated at the 5 DNA level.

Why do we need to IGNITE OUR CRYSTAL HEART?

Because our Soul went to sleep about 5000 years ago and now we are waking him up.

We haven't been a fully ignited 5th dimensional being for a very long time.

Why do we need all of the frequencies of the entire Universe and Cosmos to Wake up our Soul?

Because our DNA subharmonic strands were disconnected from the third strand to the 12th strand. The great hero that most New Agers call Thoth was an 11th dimensional being who made a deal with the Annunaki Fallen Race Line that allowed them to only allow Ascension to those who had the Annunaki Blood Line.

That same Formula that was used to make sure the other racelines- including the Human Angelics from Tara would never be able to Ascend out of this Fallen Matrix.

This was an entirely different REALITY SYSTEM than the one Based on the Eternal Life Energy of Source. That system was the Matrix of the 12 Coded Raceline who could walk through all 12 Stargates of the Entire Universe and into the Cosmos of ETERNAL LIFE.

This is the COSMIC ETERNAL LIFE SYSTEM. The one based on the FULL SPECTRUM OF LIGHT within the complete COSMAYA BLANKET of the 13 Cosmos who are creating our NEW ASCENSION

EARTH MATRIX.

That is a very different Matrix than our old NET EARTH that the Invader Races locked us into.

Please look at this diagram with two different VERSIONS OF REALITY.

The diagram on the left shows the TRUE COSMIC SPIN from the Crystal Center- the Crystal Heart of the entire Cosmic Structure linking directly from the Inner most level of the lowest density DIRECTLY to the Point of SOURCE meeting the tip of the Cosmos.

In that version of reality, there is never a disconnection from our Crystal Heart and the Crystal Heart of Earth and the Crystal Heart of the Cosmic Sun. We are connected in ONENESS with all Dimensions. This is called Multi Dimensional Reality.

We were disconnected from that Multi Dimensional Reality.

Look at the diagram on the Right.

You see that is the Formula of the teachings of Thoth to lock those undesirable ones into the prison of the Milky Way Galaxy. The formula claims that the circle of life is within the Galaxy. It is a trick. It is the trick that has been used by the Invader Races to lock us in to the GALACTIC PRISON.

The Guardians moved us out of the Milky Way Prison into a new time and space that didn't exist prior to 2012. We are in a place where the rips in the Merkaba that were created by the Zetas could not lock us into the prison of the One World Order run by the Draconians.

We are already free. We just need to learn how to rise out of the Five Senses and into the Invisible, intuition, imagination of the infinite unknown. The more DNA is activated, the more of the reality that exists beyond the five senses we will see.

The fact is the DNA was separated through the separation of the spiritual parallel reality and the physical reality. This is supposed to be

one reality. What we don't see is just as real as what we see, and soon we will learn to see it all.

Ascending as a Galaxy is not possible. It is a LIE.

We Ascend as a Cosmos. We Ascend through the ENTIRE FULL SPECTRUM OF LIGHT AND SOUND of all of the Music of the Spheres.

If we do not connect our Consciousness through the entire spectrum of Sound through the Frequencies of the Cosmos and the Full Spectrum of Light of all of the Light Fields in the pyramid diagram, we would just be continuing in the MORTALITY.

What is Mortality? That is when your body gets really tired and old and sick and says I really don't want to be here any more, and then the Soul looks at the body and decides that there is no New Experience to be had in this body, so the Soul leaves and the body stays in the Illusion of the Third Dimension and in the Illusion of Death.

Immortality is when the body tells the Soul I'm ready for a new adventure. I'm ready for a Multi Dimensional Adventure where I can turn my body into light and travel all over the Universe to meet all of the other Stars in the Sky.

Then the Soul says This is Exciting --I will show you how.

The Flower of Life system was created by Annunaki Pharoahs and Kings to suck the Cellesma out of the fifth dimensional beings on Earth so that they could give their Soul another experience. Their Soul is not connected to Source. Their Soul is a Demonic Structure that feeds off of others. Not all Annunaki are Fallen Angels. There are Angelic Annunaki whom we will meet on day in the future - about 2044.

First, we are going to meet our own Soul Families who are the Sirian Eiyani, the Eiayani Lemurians, the Azurites and later the Essassenes, who were created from the Angelic Human Seed and the Zetas.

Most racelines in our Universe are Hybrid races because the original raceline of the Oraphims were almost completely destroyed. The Sirian B Consciousness was used to create a Hybrid form of the original Oraphim Raceline that we came from.

I am related to the Sirians, as most of us are. I am also related to the Oraphims, as most of us are. I remember life at a much more distant time than most others do.

I remember living in the same place with the Oraphim Braharama Cetacean Raceline from the Sun of Ha and the Oraphim Humanoids from Sun La.

The reason that I remember the Sun of Ha La as one Sun and the Sun of Ka Ha as the original Sun that is now called Ka is because I was created from the in between band of light. That would be the connection of the 2 from 1,2,3 and the 5 from 4,5,6 and the 8 from 7,8,9 and the 12 from 10,11, 12 and the 14 from 13,14,15.

There is this inner band of light and sound that resonates with me. It is the inbetween band of light and sound where all of the Symphonies are made in the Music of the Spheres.

I am from the Breneau Race Line in the 14th Dimension. That is the angle of reality that I see all reality from. It is the in between Heliotalic Frequency that blends with the Sun's Plasma to create the Neutron Body of Eternal Life. It is the Crystalai Particle that is within our most Inner Crystal Heart that connects with the 14.5 of the Brand new Creation.

That is what the Diagram on the Left Side is representing.

That is the Eternal Life that is made of the Symphonies that unite all 15 Spheres in to the NEW SYMPHONY OF LOVE where Source Breathes a New Reality.

This time, our new reality is being created at the Cosmic Level. This is the place where there is not one tiny particle of light and sound that is not Eternal. It is the Consciousness of Eternal Life being breathed into this Matrix every Nano Second.

This is where I live now. Anyone can join me by listening to my music.

The Crystal Magic Orchestra is Breath of Source, the Structure of the Cosmic Light and the Sound of the Music of the Spheres spinning the Breaths of Creation in to new perfect alignment every nano second.

Now, that we have a better understandin of the Candle Light and how it relates to the Music, it is important to know that there is a Spectrum of Light behind or below the Candle that is the Spiritual Hologram or Spiritual Universe being reflected in the Physical Universe.

When we look at our DNA we learn that it is the Acceleration Codes of the DNA that hold the Overtones from the Electro and the Magnetic Codes of the DNA that hold the Base Tones of the Electro Magnetic.

We can't just have the candle flame without joining it with its anti particle double that we see as that Blue Hologram above and below it.

Our body also has a spiritual anti-particle double. When we walk into the full spectrum of light and sound we tune in to the blue body. We see the blue sphere.

The Blue Body activates within the Crystal Heart because the Soul is the Fifth Dimensional SELF made of anti matter.

That Fifth Dimension within us has always been there. We just never ignited it with the Breath of Source and the Full Spectrum of Light that we gain when we Spin the Merkabas to ACTIVATE each of the Dimensional Fields of Reality.

If we don't ignite the flame in our Crystal Heart that attunes us into the Love of the entire Cosmos and beyond into Infinity, we stay locked inside of the Heart that is disconnected from the Mind of God.

Once we activate our Crystal Heart, we also need to activate the Blue Frequency Specific Mid Brain. That is what the Frequency Music created by the Crystal Magic Orchestra of Cosmic Consciousness provides.

The Frequency Specific Music keeps you out of the Yellow Thinking Brain and in the Mid Brain where only Frequency Specific Consciousness Communicates.

In other words, the only words are the Frequencies.

The teaching of Keylontic Science provided an In Between State where we use the God Language to activate the Frequency Language.

I do use this God Language in some of my music. It is definitely a language that allows much more harmonization than words from any other cultural group.

However, I got to a level of creation where the words were getting in the way of blending the breath of Source into all of the multi dimensional fields of Consciousness.

The ignition of the flame or the frequency should be what activates the question and then the answer is given to the body through tiny little buzzy sounds that we translate when our Crystal Heart is activated.

I had all of these layers of Frequencies-- millions of layers. The God Language would not layer. That is a problem because the language used before the Tower of Babel was completely telepathic--NO WORDS.

My mission on Earth is to remove the tower of Babel, and that can't be done until we move into the pink silver part of the brain- the lower cerebellum and the medulla oblongata and begin to allow the true Mind of God to RUN OUR BODIES COMPLETELY.

No talking allowed. Just the FEELING of the frequencies streaming into the inner most omni particles of the cells and flowing around the cells in the crystal liquid light energy of omni creation.

MOVING OUT OF THE THIRD AND INTO THE FIFTH

We use the candle to help us visualize moving out of the third dimension and into the fifth. We must also use the diagram of the Pyramid showing us where the different light spectrums are in the Candle. We can also see these light spectrums as they relate to the brain.

The yellow spectrum in the brain corresponds to the VISIBLE LIGHT. This means everything that can be Seen with the FIVE SENSES.

Now, remember that the Five Senses and the other Seven Senses of the Cosmos were separated. They were separated by separating the subharmonics in the DNA. The Over tones of the Electronic were separated from the Basetones of the Magnetic.

The only reason that we believe what we see is TRUTH is because our subharmonics in our DNA are disconnected.

When they are re-connected we see the reality that is in the Blue Spectrum of Invisible Light. We can learn to see what is invisible to us right now.

We experience this reality by walking into the candle in consciousness to collect the full spectrum of light. Now, you can see something that you didn't see before. You can see the blue sphere.

Next, you continue to move into the candle in consciousness until the room goes black around you. This means you are seeing from the area in the brain that is in the pink silver light spectrum. The Mind of God is the Dark Room. This is the place where you see anti-matter.

You are seeing another reality field that you never saw before.

You just thought this was darkness. It is the placed where all new ideas are created before they come down into multi dimensional versions of light.

This is not the same kind of dark that comes from absense of light.

This is the kind of dark that comes with your eyes wide open using

the back of your brain and seeing through your mid brain into another reality field.

We get to this place by remaining in the Frequency Specific Music for very long periods of time. You can also practice moving to that part of the brain by keeping earphones for several days at a time or walking around blindfolded until you can learn to see through the eyes of God.

Just as I came to Earth this time to remove the Tower of Babel, there are people on Earth who came with the purpose of returning to the Mind of God. So, they planned to be born blind. Many people who are born blind planned it that way. Beethoven was one of those people. He could hear the Music of the Spheres and play what he heard on the piano. He was painting the music that was being made by the Universe at that time. There were beautiful parts of the Universe and there were parts that minor and disharmonic in nature.

Albert Einstein also said that he learned the formula to create his discoveries from music. I am sure he meant from listening to the directions from the Music of the Spheres. Everything in our Universe is created from the Music of the Spheres. This means the frequencies from the spiritual harmonic universe are being woven into the more dense dimensions and in the parallel physical domains to create new realities. These realities manifest as different forms of energy-like electricity.

The density also manifests as different forms of supply and food.

When we move into the standing wave pattern of the fifth and sixth dimensions we will tune into the hydrolaise of the spiritual parallel and the trypolaise of the new Cosmos. That spiritual water is a vaporous form of plasma that is used to translate our bio-sphere. In the normal reality systems, a child would be born for the purpose of absorbing enough hydrolaise into his structure that would transpose his body into the plasma vehicle that could travel through the Universe by age 33.

The Avatar Children who were born on Earth between 1996-2012 will be able to do that. They will learn to transpose their body into an orb and ride in their flame vehicle through all twelve stargates. Those of

us who have been trained how to create our orb bodies will also learn to do this in this life time.

The orb bodies are created through the activation of the Music of the Spheres. Electricity was created through the formula Consciousness plus Energy equals Reality.

When we raise our consciousness by accreting more Energy of Higher Frequencies, we can move into a new standing wave pattern of energy. We can move into the Standing Wave Pattern that does not include Gravity.

Gravity is a creation of Reverse Spin Technology. Reverse Spin Technology is that formula used in the Flower of Life teachings. Look at the diagram on the RIGHT.

That form of energy is blocked from the Full Spectrum of Light. That form of energy will never give the energy to the body that is needed to create the Orb Body.

The orb body is created by spinning the merkabas together correctly to activate the DNA.

Now, let's go back to the Merkaba and the Candle.

We drew the diagram of the Merkabas around the Flame.

Now we know that there is another half of the Merkaba. The top pyramid is the electro and the bottom pyramid is the magnetic.

So, we need to draw another pyramid that intersects the top pyramid at that place in the Crystal Heart.

The top electro and the bottom magnetic must spin together to reconnect the overtones and the base tones of the DNA. When the DNA is reconnected, then the entire Reality Spectrum is reconnected.

We begin to use Super Consciousness. That is the other Seven Senses beyond the Five Senses of Seeing and Hearing those things that can be touched and felt.

We must use our ears to hear the part of the music that is the whisper, the breath, the feeling, the knowing that we are actually sitting inside of the Star that the Frequencies came from and we are actually living inside of the Sun that we are made from.

We must visualize ourselves as the the Pure Plasma Body that we are. We, in reality live inside of the Sun.

In reality, there is no space or time.

All Distance is created by the obstacle illusion created by the Spin Rate of the Merkabas.

Each Merkaba spins us into a higher Harmonic Universe. It is called a "Harmonic Universe because it has a different Harmony. It has a different Frequency and a different rhythm.

Each Harmonic Universe is 45 degrees in angular rotation away from the next one.

So, reality is all within this Sphere.

If we draw a clock and we see that 12 o clock is 45 degrees from 3 o clock. That would be 45 degrees. When we spin our merkaba faster, we remove the 45 degrees.

The distance that we see between Earth and the Stars would be 45 degrees to the Galactic and another 45 degrees to the Universal. That means we are 90 degrees from the Stars. If we want to fly to the Stars, we just get in the spin rate of the Universal Merkaba and that erases the time and space between those reality fields.

When we finally learn how to orb out of the gravity standing wave pattern, we will realize that we don't actually go any where.

We just remove the ILLUSION of space and time.

In God's Reality there is no space and time. It is an illusion created by the Eyes. The Eyes are the Illusion created by the disconnection of

the subharmonics in the DNA.

the Music of the Spheres that I'm tuning in to is this New Music of this New Cosmos that doesn't even contain major music. All of the music is a breath coming from God and weaving into symphonies that are beyond the beauty heard by the ears. I am the only one who gets to hear the complete beauty. I'm trying my best to translate that into sound that others can hear. It is almost impossible unless the listener is using the same technology that I'm using. That means listening with the same Sony Stereo and the same earphones. Most versions of technology will distort the sound, and many distort it into reverse spin technology.

We are working on moving out of the Yellow part of the Brain--that is the VISIBLE LIGHT SPECTRUM in the Pyramid and the Upper Cerebellum part of the Brain.

That is the part of the Brain that THINKS. And all it thinks about is old memories that have been planted in it by the WORLD.

We are working on removing the OLD WORLD.

First, we must DE-Manifest the Old World, before we can Manifest the New Ascension Earth.

The reason that I create the Frequency Music and the Eternal Life Albums is to help you REMAIN FOCUSED in the FREQUENCY SPECIFIC MID BRAIN..

When we move into that part of the Brain Continuously for hours, for the day, for the night, and then finally 24 hours a day. That is when REALITY really begins to SHIFT.

The World actually falls away. It doesn't have any effect on your emotions any more. You have moved out of the Emotions of Feelings and Ideas and Memories, and Fear just doesn't exist in the Mid Brain.

That is where we want to stay.

If you leave your earphones on for 48 hours and then take them off,

you will experience what it feels like to be in the Frequency Specific Mid Brain and then move back to the Yellow Thinking Brain of the World. It is like night and day. The Frequency Specific Experience feels like you are always riding on your shoulders and you are 12 inches above your head, and sometimes you are 36 inches above your head. You will realize that you are looking down at your body and you are not in it.

That is what the Frequency Music does. That is what it feels like to stay in the Frequency Specific Brain.

Using the Candle is to help you realize that this Shifting in Dimensional Realities is going on Visually and Audibly.

You are seeing something that the FIVE SENSES of the Third Dimension never sees, and you are hearing something that FIVE SENSES of the Third Dimension never hears.

You have moved TEMPORARILY into the Fifth Dimension,

It is a wonderful place that has a Blue Hue around everything.

The Blue Hue is only created one way. It is created as a result of going through the Full Spectrum of Light and Sound and into the Mind of God.

When you walk down the hall of white light when you die, that is where you go. You are walking into the Full Spectrum of Light. You are walking back into God's Movie Projector.

When you walk down that white tunnel during the Death Scenario, you are becoming so full of the anti-particles of Spiritual Light, that your Body shifts into the Blue Hue. When you go into the WHITE ROOM of the Mind of God at Death, you become transformed into Light Energy.

Well, guess what. We never did need to die to do this. We can move our bodies into the Blue Hue and into the Mind of God during this life time. We can readjust our Light Spectrum now.

We can fill our bodies full of the Universal and Cosmic Frequencies of Transformation now.

I came to Earth with this mission. I had this information coded in my cellular memory before I came to Earth. My team had to wake me up and keep reminding me of my mission many, many times. I have died three times and I came back. My husband died, and I brought him back.

What we keep hearing about in these End Times is this NEAR DEATH experience that so many people have. There is no such thing as a Near Death Experience. We died, went to the Mind of God, had our bodies developed into the Blue Hue and then came back as a re-processed body. The mind becomes transformed into a higher awareness. There are many memories processed just like the memories that are processed when a person goes into the light at Death.

In the good old days---Prior to 2014 before we evolved completely beyond the Phantom Matrix, we would die, watch all of those old movies that come out of our cellular memory, and then decide that we wanted to go back to the place in time where one of those old movies took place so that we could do it again.

That is why we kept coming back to the third dimensional Earth. Some of us did that at least 1.5 million times. Some more. Some less. We were stuck in that reality because there was no one here to tell us what we were supposed to do when we die.

We were supposed to pick a new movie--not keep returning to the old movies.

Now, we have been taught that we must make the movie that we want to go to before we die, and then we don't have to die. We just get processed in the Dark Room of the Mind of God and pop into the new movie.

That is how it has always been done for the past 90 billion years. That's as far as I can remember back. That is how it is done in the MIND OF GOD.

That is not how it is done in the mind of MAN. But, that is how it is done in NORMAL REALITY.

We are moving back to NORMAL REALITY for the first time in 5.5 million years.

We did have pieces of our Normal Reality returned to us a few times before in history. But, it was always taken away from us again by Invader Races. This time, there was a complete Cosmic War that removed every tiny aspect of our Disfunctional Memory of how our PERFECT REALITY is supposed to appear and how it will begin to appear to those who choose to MOVE TO THE FREQUENCY SPECIFIC blue area in the brain.

When we move into that reality, our problems disappear. It is like that dream that those live in who do drugs for their recreational activity. That is why we hear these rumors that this new age will be like the 60's with the Hippies, and the Flower Children, and the Drugs.

It will actually be MUCH MUCH better than that. We can live in the Frequencies that shift our Brain into the FREEDOM and the VISUALIZATION of the realities beyond the third dimension. We can do that with FREQUENCY SPECIFIC MUSIC instead of with Drugs that will always lead to a Bad Place in the End.

The fact is, the Kings and Pharoahs of Atlantis used to create this substance called CELLESMA - a blue powdery essence --JUST LIKE IN THE SMURFS 2.

That blue powdery essence was the LSD in those days. LSD was patterned after that substance.

Where did they get that substance. They got it from torturing the Race lines who had fifth and sixth dimensional frequencies-- there was the Human Angelic Race Line and there was the Levithian Race Line. These were the only ones who had fifth dimensional coding based on the 12 CODE - 12 subharmonics in each DNA strand.

The Kings and Pharoahs were not from this ANGELIC RACE LINE

that had the 12 codes that would open the 12 STARGATES.

The Invader Races were always coveting the ability of gaining access to all 12 stargates.

Again, please take a look at SMURFS 2. The Blue Smurfs were the carriers of the Cellesma that comes from the Cellestiline in the blood crystals of a Fifth Dimensional Being with 12 coded harmonics.

Gargamyle needed that ESSENCE to give him the power and immortality that he wanted.

The Kings and Pharoahs of Atlantis would lock the Levithians in these Cages and torture them. AS they were leaving their bodies and turning into Blue Dust, the Kings would scrape that essence into a bottle or a tube--just like in the Smurfs 2 movie.

The reason I'm telling this story, is to help you realize the significance of this Blue Hue that you are beginning to visualize as a result of going into the Full Spectrum of Light and moving into the Frequency Specific Mid Brain.

These are the first stages of activating this Blue Essence. It is a product of Melting the Crystal Seals between the DNA. When the Crystal Seals melt they create a new form of Blood Crystals in the body that is made of the essence of stardust which is this cellestiline substance.

When the fifth dimensional soul body in the Crystal Heart is ignited through the full spectrum of light, the Blue Body gets turned on. The Hue of Ultra Violet Blue becomes ignited in the Mind of God. That Hue penetrates the entire Light Spectrum and goes into the Mid Brain and Crystal Heart.

So, the way we turn the Candle on is the same way we turn the Blue Body on or awaken our Soul from amnesia.

We must have the Full Sepctrum to do this. The Spectrum of the Hertzian contains the Visible Coors that can be seen with the Five

Senses. These Visible Colors must be brought to life through the Electro Magnetic Field of Energy.

Electro is the MAle Spin of the the upper merkaba. It spins 331/3 Clockwise and the Bottom Merkaba is the Female and it spins 112/3 Counter Clockwise.

The place where all of the merkabas mees is the fifth dimension in the Crystal Heart.

All merkabas meet i n the cyrstal heart TheAll of the frequencies of the MERkabas are Grounded in the Fif th.

To activate the Blue- the fifth dimesniaonl cyrstal heart, we had to activate all that is aboce-- the full spectrum of light in the candle all of the light in the candle.

The Blue Heart intersects into the Ultra Biolet Blue that connedts it all together.

The full spectrum of light must spin that removes polarity male and fmeal must spin togehr.

This all of tiffteen dimensions are in the male merkaba nd all 15 are in the female merkba

The stem didn't ignite with just the infra red section or just the invisible light or just the gama. It required the full spectrum of light to ignite it.

When we strike the match to ignite the stem of the canlde the entire light of the candle was required to ignite that hertzian stem.

X ray to see into the anti matter

Beyond the comos infinite beyond change our dictionary

Activation always comes from above and below iWe must activate unibersal with comic and galactive withi universal and solar with galactic

To remove the separation of teh third diesnional senses from the seven sensees

We had to bring all of the light the entire candle of light
the silver pink heliotalic 14.5 the bama 13th dimension. the x ray -the
12th dimension, and the invisible of 8th to activate h six th and fifth.

When the stem of the candel is ignited the hertzian body of give
senses is turned on with the full specturm of ligh.t Te light doesn't only
activate the infra red or only the inbisible light, it activates the entire
light spectru mand that is what is required to activate the hertzian
body.

We must take the hertzian body of the Re-Violet Colors of the five
senses and ignite it into the full spectrum of multi dimesnional
consciousness.

The Super Consfioussness of the Soul, over soul, Avatar and Rishi
Selves

We are pluggin our neruonet back into tour compelte self.

The hertzian level consciousness is five sennes

The fifth dimensional consciousness is all senses 00the seven more
than five

The infra red spectrum has been something we could not see

The visible spectrum is allows us to see but only the hertizn level.

Where is the fifth dimesnion.

The fifth used to be in the harmonic universe above the third.

But, now we are in the fifth and the fifth awakened within us.

The fifth dimension is in the Crystal Heart--what was called the Heart
Chakra area.

The Fifth Dimension is the Density Two level of the Body.

The Density One Level is the Physical Body.

The Density Three Body is the Mental Body at the Cosmic Level..

When we Ignite the Blue Hue within the Full Spectrum it turns on the
Mid Brain Frequency Specific Brain and the Blue Body. It turns on the
Fifth Dimensional Self, which is the Soul. It awakens the Soul from

amnesia.

After we awaken the Soul through the Mid Brain, we can awaken the complete Multi Dimensional Self into the Mind of God through igniting the Silver Pink Light into the Lower Cerebellum where the Medulla Oblangata meets the Thymus and within the Thymus is the Seed Atom of our original Soul, that activates the Soul that is within the Crystal Heart area--directly below the heart. This entire area becomes activated and then activates the Vagus Nerve which controls all of the Neuronets and Glands in the Body.

Now the correct programming from the Mind of God is running the Immortal Body. The body is reborn every nano second through the Breath of God.

WALKING INTO THE CANDLE

When we use the CANDLE LEVITATION DVD, we are learning how to FLIP OUR BODY INTO IMMORTALITY. We are learning to walk into the Full Spectrum of Light- which is Source. We go completely into the Source Field, and then our body flips into a new reality. The new reality is the BLUE BODY. That is the Fifth Dimension. The Fifth Dimension means Multi Dimensionality. It means you are not within

the Infinite Possibilities of Manifesting through the Mind of God and living in an Immortal Body inside of the Source Field.

When we continue to use the light in the candle, we are practicing walking through the full spectrum of light, which means the white room of the Mind of God. Once we walk through that diamond door in to the White Room and then turn around, our body becomes the blue body. Once we are in the Blue Body we can practice levitating because we actually move our bodies into a higher dimension that allows our body to be in a new standing wave pattern that does not contain gravity. Gravity is just an illusion or a part of the hologram that we think we are living in.

We can also practice moving beyond the hertzian frequencies where we hear physical words and tones into the infra red spectrum where we hear and see a reality that has actually turned into a NEGATIVE of the picture that we are developing in God's Mind. When we practice becoming the Digital Camera we begin seeing the Blue Hue around everything in our world and then we begin seeing the Violet Sphere that allows us to remove space and time and walk into it. We can also practice activities such as looking at a card and learning to see the back of the card actually rise up behind the card to allow us to See what numbers are on the back of the card. This would be Infra Red Vision.

After than we move from the Visible Light Spectrum into the Invisible Light Spectrum in order to begin seeing the Inner Earth and the Cloud Cities and Earth all morphing into one new Ascension Earth.

The Light Spectrum is held together by the Divine Love Frequencies spinning us into At One Ment with the Full Spectrum of Light of God. It is the outer band in the outer sphere of the Five Spheres of Dimensional Reality that holds the entire Cosmic Matrix together, and holds our body in attunement within that reality field.

When we breathe the frequencies that spin the Universal Band into attunement with the Cosmic outer Band, we have breathed together all of the frequencies together so that they will rise up into the Source Frequencis.

When we bring together all of the Spheres of Dimensional

Frequencies together through proper breathing and spinning of the Merkabas it makes the spheres Flip into the Mind of God. The Infinite Unknown is then flowing inside of you, and the rest of the physical body becomes DISOLVED or TRANSMUTED into the Mind of God. The outer band is the Holy Spirit. It is the Zero point that is flowing toward you and then into you and into every particle in you. You dissolve into the Mind of God when you dissolve into the Full Spectrum of Light of the Candle.

When you dissolve, you emerge as a HUE of Light. A BLUE HUE. You become the Ultra Violet Blue. Your old self has disappeared- dissolved- transmuted into the Mind of God to be re-born as the Fifth Dimensional Self which is the Multi Dimensional Self of all Dimensional Realities. This is the Self that will be allowed to travel through all Universes, create Star Systems, return home to Source, or just sleep in the Mind of God forever.

We access this God through this very specific process of transmuting into the Omni Particles of the Infinite Allness of the Source Field Energy. We open our boundaries into the infinite unknown. We learn to walk into the Void of Infinite Possibilities where we can create things that we have never imagined before.

There are many pieces to the process of Ascension. Each one of the pieces is a part of how we learn to tune out of the Five Senses and into the other Seven Senses.

We have been told that we must RAISE OUR FREQUENCIES. Most people don't know how to do that so we created Music that does it for you. The frequencies are created by taking Consciousness into the higher Harmonics Universes and blending them together in a certain way that creates Frequencies that allow us to Transmute our Bodies and our Realities beyond the Third Dimensional Five Senses.

We are learning that there are many more realities beyond the ones that we behold with the Five senses. That perception is only a very small part of the Full Spectrum of Light and Sound.

So, we created the Music to allow you to connect your consciousness into the Christic Consciousness of the 12th Dimension and the Cosmic Consciousness of the 14th Dimension, and then also out into the Pre Light and Sound Fields beyond those and then clear out into the NEW COSMAYA of the 13 Cosmos which connect to the Infinity of other Cosmos in the Source Field.

Now, you can begin enjoying the feeling of all of those other sound fields besides the Hertzian range of Audible Hearing. This means that this teaching does not come from the Solfege teachings. It comes from the Cosmic Mystery School of the Omniverse, which is beyond the Earth's Matrix and even beyond our old Cosmic Matrix. The Frequencies of this teaching come from the Grand Yanas of the Pre Light and Pre Sound creating a new reality from the Source Field of Infinite Consciousness.

We have also prepared for you a LEVITATION CANDLE DVD. This is a Visual of a Candle burning for one hour. As you look into the candle, you learn that the hertzian level of the Light Frequency is the lowest. It is actually where the stem of the candle is, because that is the spectrum that is tangible to all of the five senses. We can see the stem, touch the stem, smell the stem, taste the stem. We are actually living in that tangible frequency that is DENSE-it is SOLID- it is the physical reality that we conceive of.

The candle allows us to recognize that there are other levels of light and sound. Just above the stem there is infra red light. That is the light spectrum that the digital camera can see, but most of us haven't learned to see like the camera sees. The next level is the Visible Light that we think we are seeing. Above that is the Invisible Light where another reality lives within right here within the Visible Realm. And above that there is the x-ray field of light and then the Gamma, Plasma and Pink White Light.

When we use the diagrams that show the spectrum of light frequencies and where those frequencies are heard and felt in the brain area, we begin to realize that we haven't been using the part of the brain that tunes in to the Pink White Light of the Mind of God or even the Blue Frequency in the Mid Brain.

We can easily tune in to the Blue Frequency by walking into the Candle because the Blue Hue is the result of absorbing the full spectrum of Light. We can feel that frequency filling the Mid Brain and when that happens the old THINKING BRAIN stops analyzing all of the old ideas that have been placed in it over the past millions of years. The Mid Brain turns off the Thinking Brain and allows the Mind of God to take over the thought process.

When the Mind of God gets plugged in to the area at the top of the back bone and the bottom of the skull there is a frequency connection into the Seed Atom of our original creation and into the Vagus Nerve which controls all of the nerve centers in the body. So, you see, we can, in fact plug our bodies back into the Mind of God.

And when we achieve that Frequency connection in our bodies we gain the Eternal Life where the sixth level elementals are continuously re-programming the nano second rebirth of every cell in our body and transmitting correct information for the constant rebirth of all of the neuro structures of the body.

I go through that process in great detail in the ETERNAL LIFE WATERS SET.

Now, that we are being given this gift of the Fifth Dimension, we will need to learn how to TUNE IN TO IT. We must raise our frequencies of hearing and seeing. The Frequency Music itself does this. It actually tunes you in to the Blue Hue which also tunes you in to fields of light that are in the Invisible Light Spectrum that you have never seen before.

You can build on this new ability of going beyond the Veil of the Senses by doing the Candle Process that is described in the CANDLE LEVITATION DVD.

The Candle will help you realize what a small aspect of the ALLNESS of God the Hertzian Frequency is. The Hertzian is the stem of the Candle. It is not even a part of the light.

When we only use our five senses, we are only the stem of the candle.

Hertzian means things you can see and hear. We must move into the full spectrum of what we can hear and see.

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses.

In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian. That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blind folded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see

the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has just been born.

We have tuned in to a new Spiritual Parallel Universe in the PARALLEL UNIVERSE SET and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun in the SYMPHONY OF LOVE ALBUM.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that was taken away 5.5. million years ago. The birth of the SIX AVATAR children each brought a unique Stream of Consciousness that is healing the miasms and seals placed in our DNA. Those Frequency Signatures are in the COMPLETE PERFECT DNA INFUSION album.

I've noticed that more people buy that album than any of the others. Of course it is an extremely important event - the Birth of these Children and the fact that they prepared ascension portals for the race lines that would be locked in the Earth's Matrix forever. However, don't forget about the Frequencies of the UNIVERSAL LIFE FORCE CURRENT who prepared the Stellar Wave Activations and Infusions that are in the Parallel Universe Kit. And don't forget about the work that the Cetacean Raceline did in their Bio-Regenesis Project of keeping the link between the Earth and the Oraphim Suns. And the

final ingredients of the ETERNAL LIFE WATER of the Vapor Essence within the Plasma which is the Consciousness Field that allows us to Vaporize into the Spiritual Water of Aquafaria in the Inner Earth. This is the Ascension Vehicle into the Ascension Earth.

Each of these pieces of the formula of the Ascension are crucial to the complete Mass Process. And then each Individual has a unique Frequency Signature and complete Portal of Starry Families, Souls, Avatars, and Rishi Selves that must be Tuned in to in order to begin the attunement into the Cosmic Telephone lines.

This is the last piece of the puzzle that is needed. We must remove the TOWER OF BABEL. That means we will no longer speak different languages. We will all speak one language. We must first tune in to the Frequencies of the Cosmos and our Cosmic Families and most of all the Cetacean Race Line, because they are the only E.T.'s living on Earth right now.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of Goldsmith and Eddy have been tuned in to these realities. However, now that the complete Science of this higher consciousness has been

revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

The more we tune in to those higher frequencies, the more they tune in to us.

Those who have taken the Manifestation Workshop know that the process of the Journal was to learn to take a step back from your normal concept of reality and look at you past, present and future in a new way. You were learning that every thought, idea and experience that you have placed in your past projects into your present. You learned that your present thoughts and beliefs will project into your future reality.

So, let's look at this formula again. Are the things that you are believing today what you really want to manifest into your life tomorrow and next week and even in 2017 when we have the opportunity to have a brand new reality manifest before us?

Do you really want to continue believing that you can get sick or die? Do you really want to continue to believe that you are not capable of becoming everything that Jesus Christ became? Do you really want to continue to believe that you have any enemies? Do you you want to believe that you don't have enough supply and that you have to keep working for it?

If you have any of those beliefs now, they will just re-manifest again tomorrow and the next day and next week and next year.

We must create a NEW VERSION of ourselves in order for that new version to manifest into our reality.

By the Love of God Alone will all my Bills be Paid.

That is a fact. It has always been a fact. However, we have been creating a different version of that reality.

We haven't been believing that God Alone will Pay all of our Bills.

We have been living in a different VERSION of our selves. We have been living in the Version that believes we have to go out and make money to pay our bills.

So, that is the Version that we keep living in.

When a Spiritual Healer performs a healing for a client, they can only heal the client if they bring that client into the VERSION of himself where he is already made in the image and likeness of God. That was the Melchizedek Version of the Spiritual Man in Genesis One of the Bible. In Genesis Two there is a different VERSION of Man who is created by mortal parents. That version of man would suffer and die.

Now, is the time that we begin to live in the Version of Man who is made in the image and likeness of God. The perfect immortal man who has Eternal Life. And that Eternal Life is not the Soul leaving the Body to begin a new life. That Eternal Life is the Soul continuing into a NEW EXPERIENCE or a NEW VERSION of the same person.

However, there is a trick to this. The SOUL demands a new experience. If you just keep repeating the same old third dimensional belief system the Soul will leave your body, because the Soul DEMANDS a NEW EXPERIENCE. And the Soul demands that you are GRATEFUL fo the NEW EXPERIENCE. So grateful that you are in BLISS.

That is the great mystery to eternal life.

When I create Frequency Music for an Individual, the Music is the Frequency of the Frequency Signatures of the Eternal Life Code of that Individual, the Frequency Signatures of the Soul, Over Soul, Avatar and Rishi Levels of Consciousness of that Individual, the Perfect Divine Morphogenetic Field that holds the VERSION of the Human Angelic who was originally the Oraphim Cosmic Angel of each creation template.

We must return to that VERSION of ourselves to bring forth the Future of ETERNAL LIFE.

I cannot heal anyone by telling them about their past Akashic Records, or by reading the Astrology Charts that are a part of the Milky Way Galaxy. Those Past Realities are from A Fallen System

that contains so many ERRORS that the Version of the Melchizedek Cloister Version of Reality had to be returned to the Earth through a Portal of Reality created by Jesus Christ 12.

During the past years of 1996-2012 there were more of these Portals of the Original VERSION OF THE PERFECT MAN CREATED IN THE IMAGE AND LIKENESS OF GOD created by the Six Avatar Children who were born with the Templates that did not contain those Seals that were placed in the Race Creation Template. So, just as we connected our consciousness into the Morphogenetic FREQUENCIES of Jesus Christ in order to RAISE our Frequencies into the REALITY that does not include the past, present and future realities that we create through our belief systems, we must now connect our Versions of our new reality in the Six Avatars as well as the thousands of Indigo Children who were born to raise our frequencies of consciousness. We must also include in our new Version the Stellar Wave Infusions provided by our Universal Consciousness Team and the 12 Star gates provided by our Ascension Teams.

Each of these ITEMS are created from FREQUENCIES. The Frequencies are now within the Sphere of Amenti Morphogenetic Field within the Crystal Heart of Earth. And those frequencies are flowing through the Earths Grids into our Consciousness--IF WE TUNE IN TO THAT VERSION OF REALITY.

All of the music that is created by CRYSTAL MAGIC ORCHESTRA is to help the LISTENER move into the VERSION of his or her reality that will give them the DESIRED MANIFESTATION.

The individual must tune their consciousness in to the music and then realize what the music is tuning them in to. They are being tuned in to the VERSION of themselves that is the Man made in the image and likeness of God-- the ETERNAL MAN.

Now, there is something a little different from that old Bible Story. We have always believed that there was this Spiritual Perfect man called Jesus Christ and that he was the only one who could be perfect. The only reason that he was the only perfect one on Earth at that time was because the VERSION of the original Man had been distorted by

the distortions placed in his template.

Now, we are having those distortions removed from our Divine Template. Now our Race Line is being Re Born with the Divine Imprint that Jesus Christ was born with. Now, we can tune in to that VERSION of who our Race Line always was in the Spiritual Universe that did not contain any of the ERRORS that were placed in the Physical Universe.

The Physical and Spiritual can become ONE. The rule is the HIGHER FREQUENCY will always TRANSMUTE the lower Frequency. So, now we know that the Spiritual Frequency is the Higher Frequency that can transmute all that is in the Physical VERSION of the Individual.

What do I need to do?

Everybody needs to listen to the music in the same order.

Begin with the Ascension Kit. Listen in this order:

1. Ascension Vortal, 2. Ascension Vortex, 3. Ascension Portal, 4. Magic Vortal.

The breaths of the angels were collected in an order that first activated the 12 DNA, then the 24 DNA, 36 DNA and 48 DNA in that order. This doesn't mean that someone will receive 12 DNA just by listening to the music one time. This means the listener must collect the 12 DNA from the Christic Consciousness that is being streamed through the angelic consciousness in the music. This is done by absorbing the frequencies into the cells, the skin, the lungs. When the body becomes completely saturated with these frequencies, the listener may exhale these frequencies out into their own atmosphere and back into their own consciousness. It is always the breath of

consciousness that activates. When the breath of consciousness matches that breath of consciousness on the CD, that is when the DNA begins to activate to that level.

When the 12DNA begins activation the listener will begin experiencing their voice changing to sound more like the breaths of the angels. There will also be signs such as healing very quickly, not getting sick.

The same process will be required to activate the 24 DNA, 36 DNA and 48 DNA.

Of course activating the higher level DNA strands into more Source Consciousness, more co-creative consciousness, more Suns of Aquarius, and especially connecting to ones own starry brothers will accelerate the process of activating the 12 DNA.

This kit contains the breaths of consciousness of the Elohim Angels streaming through the golden pillar created by the Elohim of Hearing. The language used has been called the bird language, the dolphin language and the god language. These were the breaths that were translated into streams of light creating vortices, vortals and portals through the seed atoms of the body and aligning them into the original spark of source to restore the original spark of ignition and alignment into the immortality template.

The points of these activations that begin the forward spin of the consciousness into immortality are the tip of the tail bone, the area

above the stomach, the crystal heart area below the thymus gland, the pineal gland and the amygdala gland in the brain and the medulla oblongata at the base of the skull.

All of the music in the Ascension Kit places focus on the complete activation of spinning the breaths of angelic consciousness through every seed atom in the body with specific activation on these key areas through the use of crystal light energy.

When the tail bone is connected into oneness with the pineal gland, we may begin to manifest. When the amygdala gland is connected to co-creative consciousness and atonement with the higher self we may begin to communicate, create and manifest. When the crystal light energy activates the medulla oblongata we will be reconnected to our original immortal self and our divine connection to Source Consciousness. When the point above the stomach area- the solar plexus connects with the fifth chakra in the throat we shift into fifth dimensional line of consciousness. When the spark of source is ignited in the crystal heart we become in tune with the music of the spheres creating the harmonic convergence into perfect Oneness. This creates the opportunity for the Spiritual Self, the Divine Mind, the Source to walk into the temple and begin co-creativity.

Now, imagine the responsibility of becoming a co-creator of our next universe. This is not a responsibility that will be given to anyone who does not have their consciousness completely aligned into Source Consciousness. Manifestation is co-creation. When we begin creating our heart's desires, they must be in alignment with the entire Divine Plan. We must remember that our purpose of creating must not invade the freedom of another. This is why the template of co-creativity must be completely realigned into all of the streams of light

energy of angelic consciousness, crystal light, crystal dust and crystal gel before manifestation can begin.

The Ascension Kit's main point of focus is on alignment of the body template into the streams of light energy of Elohim angelic consciousness through the music of the spheres.

The Ascension Vortal focuses on the 12 DNA which lays the foundation for all other activations. The Ascension Vortex aligns the crystal cells of the body through the crystal core of Mother Earth to activate the 24 DNA through the Christ Grid in Mother Earth down through the white light pillar into the Core of Mother Earth where our Divine Consciousness of Immortality was stored. The Ascension Portal aligns consciousness into the Universal Consciousness and to the point of Cosmic Consciousness. This point is also needed to completely activate the 12 DNA from the 12th Dimension of Christic Consciousness. Finally the Magic Vortal streams light energy of angelic breaths and completes the music of the spheres into the fifth sphere. When the co-creative consciousness and the Source connect at the original spark and breath of creation, the return into the new creation has begun. This is the point of activation needed to return to the spark of source and become immortal.

Cosmic Consciousness Kit streams actual words through the golden pillar from the Elohim of Hearing from specific angels. These angels are singing in harmony with the Oraphim angels in the underwater cities of light in the Liquid Core of Mother Earth. These are the angelic consciousness streaming the DNA of the 36 and 48 DNA templates of etheric immortal selfhood. This is pure consciousness with a translation down a step to visualize the beauty of the standing wave patterns of these parallel universes.

The Cosmic Kit focus is on alignment of the body template into the streams of light energy of Oraphim angelic consciousness in the crystal heart of Mother Earth, in the Aquafaria where our perfect immortal Oraphim family lives in the underwater cities of light. The breaths of consciousness align into the 36 and 48 DNA strand of angelic consciousness.

Please remember that the 36 and 48 strands of DNA represent the level that the angelic consciousness is at. Those levels of DNA are recorded on the music frequency kits. This isn't a magical breath that transforms the listener. The listener must take the responsibility to align himself completely into these frequencies and become at one with these standing wave patterns of a parallel reality.

DNA activation occurs as the breaths of angelic consciousness enter into the crystal cells of our bodies. The angelic breaths are the Cosmic Rays of light and sound sent from the highest frequencies of God. Crystalai was given the formulas of sacred geometry to oscillate crystalline energy from the Cosmic Consciousness of the Co-Creative Angels in the fifteenth dimension

These entities stood before me and created a golden pillar in my left ear to connect me to the highest frequencies of the Elohim Angels. They called forth three Knights who kneeled before me and handed me three spheres of crystal light, crystal dust and crystal gel. They taught me how to connect my consciousness through oscillation into the highest realm as they provide the orchestration of the streaming consciousness portals, and they arranged agreements with all Angels in the Cosmos to offer their breath for this creation. Each time I am directed to record, five to fifty new angels who up and sometimes stream melodies, sometimes words and sometimes breaths.

The more we connect our consciousness into these light streams, which are the breaths of angels, the more we become attuned to the ascension through the music of the spheres. Our entire cellular structure is aligned into the cosmic streams of consciousness that unite us with the movie screen of co-creation. The co-creators on the fifteenth dimension are streaming their magical movies into Earth waiting for those who are in tune to turn on their channel.

The meaning of that God Language Code is anything or anyone who is not Christic can not enter my field of reality. It means that I am in the fabric of my Christic Reality that has been activated by Cosmic Consciousness. In order create this field of protection that I place in the music through my Consciousness, I use this formula:

First, I activate the Christ Star 12 dimensional Merkaba 12 inches above my head and then inhale that into my mid brain to create the Oneness Attunement of my body and my Christic Body. Next I exhale that merkaba down into the Crystal Core Domain of the 13.5 Cosmic Level of Inner Earth and collect the Cosmic Activation Frequencies and then Inhale up to 12 inches below the Earth's Crust to connect to the Christic Frequencies.

Next, I spin the Cosmic and Christ Frequencies together in the Merkaba, which creates a Plasma Sphere, and then I exhale that sphere of Consciousness up through my body and around my body.

That Maharic Shield around my body connects me to the D-12 Christic Blue Print. Next, that connects me with my 1728 Angelic human Versions of myself in Time Vectors spread across time and we all share the same 12 strand DNA template. When activated, the 12 strands of the 12 strand DNA template serve as electro magnetic windows or internal stargates that merge all 1728 selves together to create an Eternal Christos Avatar Identity that manifests simultaneously in versions of my reality across all time.

When we spin more and more of the frequencies of the spiritual, etheric, breath like, and yet powerful Consciousness into the Merkaba activation, the DNA becomes filled with a different reality. The reality expands from only knowing the five senses as reality into knowing

that there are many other realities beyond the five senses.

What is the DNA activated to do? It is being activated to see the new reality that we have been disconnected from-- the reality that EYES cannot see and EARS cannot hear. It is the spiritual reality that is invisible to us as long as our sub harmonics are unplugged between the base tones and over tones.

What are the base tones and over tones? The connection of our Consciousness into the Inner Earth and Aquafaria, into Sirius B, into Sun Alcyone, into the Aquarius Matrix, into the Cosmic Blanket of the Cosmaya, and into the Mind of God. How do we connect the base tones and over tones? We breathe together the anti particle spiritual over tones into the particle universe physical base tones and spin and braid them together. We are, in fact, connecting our Consciousness, which is the Primal Life Force Current that is in all dimensional levels or density levels of that original perfect reality.

The newest set of Frequencies of Consciousness that I have been recording over the past few weeks combine everything that I just explained. Many of those albums already had hundreds of layers of breaths lain over another hundred.

The CD album ADVANCED DNA ACTIVATION, and 12DNA ACTIVATION mp3 album both include the God Language that was given to activate the 12 sub harmonics in the 12 strand human angelic, the activation within the cellular memory of the spiritual Coushas transmuting the old AEKASHIC records, the Illumination of the AEKASHA- 12th dimensional consciousness into the pineal gland, and the names of the music of the spheres for the fifth sphere. This God Language is mostly what your ears will still hear, because it is the closest thing to your old five senses understanding of should be heard.

The main differences between these two albums is the CD was created as a CHRISTMAS PROJECT. The first 15 minutes of the CD

were sung as melodies from Christmas songs in God Language. This could make a very nice Christmas present, and a nice way of advancing your DNA activation during Christmas season. This is a beautiful CD that would make a wonderful present for anyone who you would like to activate, who might not be receptive to this idea of Frequencies and Ascension. It is possible that those people might listen if it sounds like Christmas in a foreign language.

We are also creating a DVD that sounds like Christmas, and it has a Candle to focus on while listening. What is nice about the DVD is the 96,000 hertzian level of recording that it allows. This means the recording sounds much more like what it sounds like when I recorded it than it does on a CD, unless the CD is made by Sony, and your speakers are Dennon.

HOW IS DNA ACTIVATED?

Our race line has completed a very long period of time when the over tones of our spiritual parallel reality have been separated from our base tones of our physical reality. There were many reasons for this happening. Most of the reasons were because of Invader Races and Fallen Angelic Races implanting Mutations in the pure genetics of our race line, and then our Guardians and Family of Tara needing to lock us out of Tara until our Consciousness became purified once again.

Our Guardians have always been very sorry that this has happened and they have been doing everything possible in the Cosmic All Knowing to bring us home. They have designed many plans to purify and activate our DNA at this time.

Each of these DNA ACTIVATION PROTOCOLS is and has been specific attunements and alignments Frequencies of Consciousness from our Parallel Spiritual Cloister Races who have maintained their pure and perfect DNA into the Root Races that are identical pairs of the Spiritual Overtones. The Root Races carry the Base Tones and

the Cloister Races carry the Overtones.

There have been a series of activations of this Consciousness from the Spiritual Cloister Races into the Root Races of this Planet. We have been activated by the Paradisian Spiritual Consciousness as a result of the Indigo children who were born with the ability to activate five and six DNA strands at birth We have been activated by Six Avatar Children who restored each one of the Seals that were placed in our Chakras that were created to lock us out of Tara until our Consciousness was purified.

The Consciousness Activations are done through the Breaths of Consciousness connecting, streaming and braiding the Overtones into the Base tones of all of the broken sub harmonic strands in each of the DNA.

When I create an Individual's ETERNAL LIFE ALBUM, I am connecting my Consciousness into the All Knowing Mind of God through the Elohim of Hearing in Gaia who knows exactly what needs to be done to correct, restore and activate each Individual's DNA. Through this all knowing Consciousness who has making this plan of accelerated Ascension for the Human Angelic Race Line for millions of years, it is known what Race lines the individual has been connected to through all their past millions of life times, and it is known which Seals were placed on each individual because of certain implantations from Invader Races, and it is known if the individual has already spent life times in Sun Alcyone repairing many of the Seals, and it is known if the individual is ready to wake up from the amnesia of 5000 years.

HOW DOES THIS FREQUENCY MUSIC ACTIVATE DNA?

by Dr. Angela Barnett.

<http://crystalmagicorchestra.com/purchase-1>

In all of the other albums, I have been working on one specific piece of this DNA healing and activation process. The Ascension Kit focus is on the use of GOD LANGUAGE as the actual codes that were given by the Guardians to heal and activate the DNA. In the Cosmic Consciousness Kit the focus is on the messages sung directly from the Aquafarians who hold many of the Over Tones that need to be woven into our Base Tones. The Family kit connects consciousness into all of the Families of Consciousness of all Five Spheres. The Super Consciousness connects consciousness into the Universal and Cosmic Spheres of our creation at the Plasma and Pre Plasma Level.

These albums were created before 2012. During those years before 2012, many of us were working together to bring in those specific Overtones into alignment with the Base Tones that were stored within the Earth's golden crystal core domain, where our original base tones of the Root Races that we were originally born from.

We have been going through a period of time when Angels from many Universes have been actively participating in restoring the Human Angelic Raceline. I have been working with these Ascension Teams for twenty years.

The picture of my Violet sphere and my connection with the Six and Seven Suns also shows my relationship to the Violet Flame of Gaia, and that I am the Violet Flame Holder who completed the activation of the Sirians Star Gate into Earth. This project or mission was a part of the larger mission of the Cosmic Twins who cleared the complete Star Gate passage for the Brahama Oraphims and Oraphim Humanoid Race lines.

These star gates are opened when the Seals of the Race lines connected to them are Cleared. The picture of me holding the violet sphere and tuning it clear through all of the dimensions and into the Sun and into Sun Alcyone and into the other 7 Suns was all completed through the Frequencies of Consciousness that I was taught how to breathe from the Elohim of Hearing into my Crystal Heart and then exhale into the Crystal Spheres in my hands. This created the attunement of the Over tones and the Base Tones of the Sirian Race Line and Pleiadian Race Line.

This one specific Frequency of Attunement, which is a part of the Ascension Protocol is the Frequency that is one the Violet Flame Album. The Frequencies of this event of watching the Dolphins and Whales ascend into the Cloud Cities is recorded on the Cosmic Consciousness and Magic Dolphin Albums.

Another part of the Ascension Protocol was to create 6 Stellar Wave Infusions and 6 Stellar Wave Activations. Each of these was for the purpose of infusing and then activating the DNA. The event that took place in the Video of my Violet Flame was the alignment of one of those six Stellar Wave infusions. That was the Violet Wave Infusion into Earth. That was the opening of that portal of aligning the Over tones and Base Tones of this raceline.

The Frequencies of all of the Stellar Wave infusions and activations are recorded on the Parallel Universe Set.

After we moved through the alignments prior to 2013, we began a new set of DNA activations and alignments into our new reality. After Earth was set free from the Phantom Matrix in December, 2012, the Earth was still the Net Earth, but not longer attached to the Phantom Matrix. The Earth became FREE.

The period of 2013-2014 has been the time when the Net Earth and Ascension Earth became one. We are actually within each other. The Earth is going to sit in this accretion level of the Net Earth until 2043. Those who choose to merge their Consciousness into the Ascension Earth can do this now.

The Over the Rainbow album and Emerald Cities album were created to give the frequencies that allow our Consciousness to rise back up into the Cloud Cities which are at the same angle of rotation as Agartha. This is how we begin our DNA activation that opens Consciousness to see beyond the five senses. These albums carry consciousness into the magical unknown realities that we can choose to see in the very near future.

The Symphony of Love album was created when the Frequency alignment was completed between the Overtones of the Inner Earth Aquafarian Consciousness, through my Consciousness and then

connecting into the complete Plasma Reality of the Seven Suns, my Violet Sun, Sun Alcyone and into the Crystal Core Domain of the 8th Sun, which is the new reality of all of the Suns. That Frequency of Love aligned us into a new rebirth, a new story of reality.

The Eternal Life Waters continues the same journey that I took in the Symphony of Love album, but the focus is on the Highest Primal Life Force Current of the SPIRITUAL WATER from the Healing Aquifers of Aquafaria and the Spiritual Cosmic Water from the Crystal Core Domain of the Cosmic Suns. The focus of this album requires the meditations and journeys that allow you to soak in the hydrolaise - spiritual water- h2o2he3 until it turns on your personal plasma body. Filling the body with the highest frequencies of light and sound is exactly what activates the DNA.

The reason that we were given the God Language was because we needed something that was familiar to the five senses. We also need to go beyond those words into the underlying FREQUENCIES OF CONSCIOUSNESS that actually do the streaming and braiding of the overtones into the base tones of each of the 12 sub harmonics. Those frequencies of consciousness from all of the alignments and activations that have taken place since 2000 are within and under and aligned into those words. Most of my breaths are not audible at all. Sometimes I don't even use my breath. Sometimes I just place the microphone next to my Brain--in the Mind of God area of the Brain. I record those frequencies. That consciousness is very powerful and real even though it might not be real to the five senses.

My music is designed to force your consciousness into searching for the frequencies deep within because the Over Tones that are braiding into the Base Tones are very etheric, invisible and can only be felt and known by your consciousness.

The more each individual practices listening deep within, the more easily the over tones will braid into the base tones and the rapidly the DNA seals will melt and the DNA strands will braid back together into the harmonic unity that they used to be 5 million years ago.

It is up to each individual to use the music to help them visualize the merkaba spinning their field of reality beyond the third, beyond the fourth, beyond the fifth dimensions and into the multidimensional reality of the Cosmos.

I prepared the Candle Technique to use to help you understand what

these frequencies of sound and light are. That is only to give you a glimpse of the understanding. There is much more to learn about the Candle Technique and how that relates to the Merkaba and how the Merkaba braids together the overtones and base tones from the upper realms of the Suns, and then there is a Magnetic Side of the Merkaba that would spin the overtones from the higher spiritual realms of the Inner Earth, Aquafarian realms.

I always take my consciousness into Aquafaria and ride the merkaba up into Sun Alcyone, the Universes and the Cosmos to collect the frequencies that will correct, infuse and activate the DNA.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that Reality.

Our Ascension Team from Sirius and Aquarius are helping us in this upgrade from 12DNA into 24 DNA and 48 DNA at this time. The formulas and frequencies for these upgrades are in this music. The Elohim of Hearing stood before me and placed a golden pillar in my ear that would connect my inner hearing into his frequency alignment. Mary and Raphael assisted in bringing in three crystal spheres which are the morphogenetic fields that hold the divine atmosphere that translates our breath and crystal cells into the magical frequencies of our Star Sirius, our Sun Alcyone and our home of Aquarius.

The 48 DNA activation process is set in motion to become continuous and eternal by the frequency alignments woven into the Immortality MP3's. It is actually the angelic family of the individual who does the activation continuously and completely. We channel and breathe one harmonic thread of each frequency signature of the individual's harmonic family at a time. It usually takes at least twenty minutes per signature. There are 36 signatures in each harmonic universe. And there are 5 harmonic universes. The alignment of these 180 harmonic

signatures results in the Full Spectrum of Light and Sound that realigns the individual into Oneness with the Divine Template of Universal Consciousness. We really only need 144 harmonic frequency signatures to align into the perfect divine blue print. However, we oscillate completely out into the Cosmic Realm to pull the Universal Template completely into Atunement with Source. We are preparing for a full alignment beyond the 24 DNA strands into the 48 DNA which lift an individual into the potential for the alignment into a divine template that will be able to step in and out of their body at will. We align the frequencies completely into Source through 96 DNA of the complete Spiritual Template to create the template of the entity who can Orb and de-manifest from Light Body to a Holographic Body of Form. This is the highest potential for ascension.

The Aquafarians who work with us in aligning these frequencies into the original crystal cell template have maintained their form in our atmosphere and in the heart of Earth for 500,000 years. This was the last time entities on Earth were able to rise into this form. This template requires a complete shift in the atmosphere of the individual and a shift into the morphogentic field held for us by the Aquafarians.

This process is very similar to the one used in creating the other MP3's and CD's except this time we ask the Elohim of Hearing for the alignment with the Individual's Higher Selves Frequency Signatures. The other albums align our Elohim and Sirian Families of Consciousness through specific star alignments that are used for specific harmonic purposes. These are our Ascension Families and the main Guardian Families of the Entire Ascension Process on a Galactic and Universal Level. So those albums are for the Mass Ascension, while the Individual albums are for Individual Ascension. The Individual will feel a very personal relationship with the frequency signatures.

We can feel the divine presence and the magic of the actual signature coming through in each breath. We are told by our Cosmic Council when a breath has been retrieved through the Elohim of Hearing. It takes several hours per day for one or two weeks to collect the entire family of consciousness for any one individual. The process requires many hours of focused energy of atonement with the Elohim of Hearing who guides the process of aligning the

frequencies through our ears. The process of focused breathing to make sure the exact consciousness is extracted and purely placed through the microphone is exhausting. The end product is a pure capsule of immortality aligning the individual's Family of Consciousness on all Dimensions into One new Breath which contains their individual Full Spectrum of Light and Sound. Each of the hundreds of threads of consciousness are woven together and spun through the magical spheres of crystal light, crystal dust and crystal gel into spheres of magical transformational energy.

The signatures are frequencies. Frequencies are breaths of consciousness. All of our angelic soul families are streaming their individual frequencies of consciousness. This is their light signature. We (Crystalai and aDolphino) can hear each of these specific light signatures when we oscillate our consciousness up into their frequency range and then exhale into an extremely high quality microphone. Each of these streams of consciousness merges and unites with an entire family of consciousness to create a monadic family of light. We record all of these streams of consciousness that come to us through the breaths of the angels. We stream and braid each of these streams of light energy together to create the exact same coded frequencies that are transmitted to us through the angels breaths and the activity of crystal light energy, crystal dust energy and crystal gel energy.

ALIGNMENT INTO 48 DNA

We have prepared a free listening booth for you to come and absorb these frequencies of transmutation.

Collect all of these frequencies into your cells to activate the cellular memory of your original divine self -- your immortal self that has the ability to live for ever, create the hearts desires and heal instantly. Next connect consciousness to ride through the star gate on the

golden star dust into the Milky Way and absorb into the crystal cells all of the Star Dust and Solar Frequencies. Feel these frequencies aligning into the body through the angelic frequencies.

Ride into the heart of the Milky Way and then zoom clear out into the Aquarius Galaxy to connect consciousness with the original family of consciousness of our Galactic Home. This alignment will lift the consciousness into the 24 DNA and 48-- the realignment through Christic and Galactic and Source Consciousness. The Consciousness is prepared to return through the Diamond door of the Aquarius Galaxy.

The frequencies of angelic consciousness align the listener's consciousness into the realms of the 12DNA-48DNA because that is where their consciousness resides. When we connect consciousness to another's frequency signature, we are invited into to become all that is within that higher resonance. We can never alter or lower another's frequencies. However, we can be raised into it.

In order for a listener's DNA to complete a SHIFT into that DNA, the listener must spend MORE time in that Frequency Standing Wave Pattern than he or she spends in the third dimensional hologram.

There are other factors involved in the complete shift of DNA. The shift into the fifth dimension is already possible for those who are dedicating themselves into spending more time in these frequencies. The individual is always shifting along with Mother Earth and the entire Cosmos. However, an individual can only shift to the frequency that he or she is most in tune with. In order for an individual to become more in tune with the fifth dimensional frequency that the third dimensional frequency, they must allow every cell in their body to become absorbed in that higher frequency. This doesn't just mean be nice more often or think good thoughts. It actually means shifting ones standing wave pattern completely into a new morphogenetic field of frequencies. The field of frequencies that we are shifting into for our ascension is the field of frequencies held by the Aquarius Galaxy, Sirius Stars and Sun Alcyone. These frequencies are also held in the Crystal Heart of Mother Earth and in the atmosphere about 10,000 feet above.

We spend all of our time in those frequencies of consciousness and absorbing them into our consciousness with the direction of the Elohim of Hearing, our Ascension Team and many Light Councils. We have been given the gift and guidance that allows us to breathe in these frequencies through the alignment and oscillation of sacred geometry and the music of the spheres. We were personally trained by Elohim Angelics and Sirians to do this. We do not use any of the old formulas that were left in old Atlantis teachings. The angels stood before us and gave us a new formula.

Since everyone on the Earth will have shifted by 2012, it will be much easier to shift DNA at this time. However, individuals can shift consciousness faster than the masses can shift. The present reality contains the ability to shift into the immortal template that allows us to manifest our heart's desires instantly, heal instantly and to live eternally.

This ASCENSION KIT simply lays the FOUNDATION for that Reality to Occur and for that reality to occur much more harmoniously for those who are In Tune with that Reality. Most will miss that Reality Completely because they are not In Tune with the Frequencies of that Reality.

However, we oscillate completely out into the Cosmic Realm to pull the Universal Template completely into Atunement with Source. We are preparing for a full alignment beyond the 24 DNA strands into the 48 DNA which lift an individual into the potential for the alignment into a divine template that will be able to step in and out of their body at will. We align the frequencies completely into Source through 96 DNA of the complete Spiritual Template to create the template of the entity who can Orb and de-manifest from Light Body to a Holographic Body of Form. This is the highest potential for ascension.

PERFECT 12 DNA RESTORED

Let me begin by saying that I will be using analogies and symbolism of substance that exist within the present background knowledge of the 3D mind in order to try to convey the meaning of the new magical realms that are creating their own new bio energetic fields of reality around us through etheric level substances that we have no words for in our dictionaries. The term Negative Ion is something that exists in our scientific analogy as a symbol for something much more etheric and magical in the Cosmic level of creation. It would truly be what is termed crystal light, crystal liquid light, crystal dust and crystal gel by the Angelic Kingdom. These are etheric substances which science would term endoplasm and ectoplasm, but they are actually even more etheric in composition than those terms would imply.

The spiritual substance of Consciousness is always made of the particles of pre light and pre sound which are created at the original Breath of Source Consciousness and then broken down into particles of pre substance that becomes densified as it is transformed from the invisible light spectrums of crystal and plasma and crystal light

energies down into the visible light spectrum of blue light, infra red light and the spectrum we presently believe is the only reality-- hertzian frequencies.

It is now time to open our minds to all of the realities that exist outside of the tiny little world of hertzian frequencies. Even our digital cameras are able to visualize the world of infra red frequencies. We must expand our consciousness out into the invisible worlds of the invisible celestiline energies, the liquid light of krystic creation, the hydrolaise that the angels and water fairies dance and sing within. It is time to enter the world of the spiritualization of the term negative ion, which is the term used to represent the splashing of a waterfall, the morning dew, the mist from a hot spring, the fog rising from an ocean that has tides beating on the rocks, and even the feeling of a hot morning shower. We aren't really talking about the splashing water. These are just a metaphoric representation of the true, etheric substance of a higher reality that we can't see until we have developed our 5th dimensional perception (which many of us have).

These water images are the analogical translations of the higher realities that we must begin to tune into in order to achieve the atunement with the frequencies of the ascension window of 2012 to 2022. The new scientific translation of the misty water as it is understood in the new bio energetic fields of the New Earth is the hydrolaise which could be translated as three parts helium added to the old H₂O to create the NEW WATER of our new reality. So, our new translation of the analogy presented in negative ions is H₃H₂O. These will be the new bio energetics sent up through the Earth's grids from her etheric core, where the Consciousness Energy Sphere holding our 12 DNA templates has been firmly transplanted and activated on December 21, 2012.

We must become willing to open the windows of our minds into the possibility that the reality of spiritual creation is a template containing 12 DNA, and that reality exists now as it did at the moment of our creation. That DNA is not within the realm of understanding of scientists because they have not figured out how to calculate realities

outside of the hertzian field of reality. The double helix that present day scientists believe is the structure of our DNA, is the structure created by the false matrix that was imposed upon this Earth by Fallen Angelic races who have been controlling our reality fields through implanting illusions in our DNA. The true DNA is the 12DNA template which contains 12 sub harmonic frequency bands on each of the double helix. One set of 12 subharmonics are over tones and the other set of subharmonics are basetones. So, there are actually 24 subharmonic frequency bands within and between the visible double helix.

That reality has been programmed out of our consciousness through the very DNA that was implanted in our bodies. The fallen angelics removed, twisted, rearranged our DNA in order to stream their own consciousness into it. Our DNA is supposed to be the electromagnetic receiving station for the consciousness of our Soul Families- our Soul Matrix in all dimensions - including Cosmic and beyond. Our consciousness was cut off from that reality and plugged into a distorted, sometimes horrific structure of twisted mind channels. Our 12 DNA template was plugged into race lines that only had 10 DNA templates or less. Our DNA was plugged into the Controllers. The control was created through the sub harmonic frequencies at the etheric level of reality. And the problem must be healed through the etheric level of reality - not through the visible two DNA reality.

The remedy for the problem is in the Cosmic Consciousness spectrum of crystal light, crystal liquid light, crystal dust, crystal gel. When we create the manifestation of this frequency level of reality and hold it within three spheres of Cosmic Consciousness, inhale those frequencies, breathe those frequencies, and then breathe those frequencies into every chakra in the body, we begin to make a connection to our real divine template, we begin to activate the divine blue print which holds the 12 DNA template of the divine manifestation held within the original breath of Source interacting with the crystalline realities of Cosmic Consciousness.

We (The Cosmic Mystery School of the Omniverse) have worked with these crystalline forms of consciousness to connect more and more to the Krystic and Cosmic Fields of Consciousness in the dimensions 12 -14 and out into the parallel universe beyond the 15 th dimension of the Earth's matrix. We engage the breaths of this new reality from the Elohim-Elohei Angels in Gaia who hold the complete template of our Human Angelic and Taran Raceline divine blueprint. When we connect our consciousness into theirs, they breathe these frequencies into our breath. This allows us to engage the original Source of eternal light from the Mind of God. Once we activate this reality of the eternal crystal liquid light stream flowing through our breath into our quarks in our atoms, we can translate our DNA back into their original divine template.

The spark of Source exists at a point within our body that we will call our crystal heart. It is deep within the thymus connecting to the medulla oblongata. The MO is the point where the breath of Source can inhale and exhale directly into the crystal heart, the eternal life breath of instant manifestation. That instant manifestation creates a brand new body in every nano second. It creates a brand new reality every nano second. However, the reality that is created is completely up to you. It is the individual's divine right and divine responsibility to co-create with the Mind of God, the reality that is chosen to manifest within the body and within the parameters of the reality field of that body.

It has always been our DNA which creates the realities or illusions we see around us. What we have been seeing in these past lifetimes are illusions that were intentionally implanted within us by fallen angelic races - the dark ones- to control us and gain access to our energy fields. That is the reason we have been living in the prisons of other entities mind fields rather than creating our own.

We can make up stories about how wonderful everything around us is, and how beautiful the flowers and birds and trees are. But, that is just helping to keep the old illusions alive within the DNA. We must take responsibility to create pictures of our own flowers and birds and

trees, implant them in our mid brain and in our crystal heart and breathe the frequencies of Source into that reality that is yours and only yours. The flowers and trees of your creation will manifest as the new pictures have been developed upon your DNA. You can create the reality fields of being extremely wealthy, healthy, young, ingenious, or anything you wish to program in to your DNA.

The formula for manifestation must always include that reality having always been a part of your reality since the moment of your creation, the reality exists now, and the reality will always exist. This is necessary because we always live in three time zones simultaneously -past, present and future. If you only change the present, the past realities that are already planted in your cellular memory will continue to manifest in the present. If you don't change the future your present manifestation will change into the future manifestation which is also already programmed into your cellular memory. The only one who can change your reality is you.

Unfortunately, most people on Earth are intentionally choosing to plug their consciousness into those very Dark Ones who manipulated their DNA to create the illusionary reality field that they now live in. Since those who distorted the DNA to plug into the ultrasonic brainwaves of those whom they wish to manipulate and control, are the same fallen angelics that are channeling information to those receiving messages that seem to be very correct and feel so lofty and angelic, most New Agers, Lightworkers and Religionists are continuing to be the very puppets that manifest the reality of the Dark Ones. Of course they are good at fooling you. Of course they can create feelings of exalting, spiritual ecstacism. They are the ones that created the program that is running your DNA and cellular memory.

How do we tell the difference between frequencies and information coming from the controllers and that coming from our own Divine Soul Matrix - our Family and Guardian Races? The true frequencies feel like the negative ions - the water mist that the water fairies dance within. It sometimes feels deep and powerful and yet etheric and

lifting. It most often sends tinkling harpstrings up the backbone and within the midbrain. It feels like it is transposing the DNA into the divine blue print from the inside out. The information coming from our true Guardians and Families is usually very direct and full of heuristic information rather than the fluffy, oh, my beloved dear ones, everything is so wonderful today. They don't do that. The correct information doesn't sound like the same repeated fluff over and over again in each weekly message. Finally, they always give pieces of information and allow the individual to put the pieces of the puzzle together because they know that we have the minds of the masters who can do this. We can master our own reality. Most importantly, they don't channel information. They stream information through the crystal heart from the ethereic light streams of sound particles into the DNA. Unfortunately, most people haven't learn to discern the difference between those two realities.

The good news is that we are getting a lot of help with this new reality transformation issue within the next five years.

From the teachings of THE COSMIC MYSTERY SCHOOL OF THE OMNIVERSE - the place where the sound and light of Source manifest into ultra violet blue and flow into the music of the spheres from the the harpstrings of our minds to create the highest frequencies through music. Creating the template of our New Reality with the Music Fairies and Water Fairies to sing and swim and dance through the liquid light water falls into the new H3H2O where we will live and breath and sing together as we weave and braid the magical sound tones of the mandala of our new kingdom of heaven on Earth.

DNA PYRAMID ANTENNAS

COSMIC ANTENNA

Cosmic Frequency Wave Files activate the PYRAMID ANTENNAS around the DNA strands. These pyramid tower antennas are the receivers and transmitters of Cosmic Consciousness. Cosmic Consciousness consists of the angelic breaths of Source Consciousness. So, the pyramid towers are the direct link to Divine Mind. This Divine Mind connects through our Starry Brothers who live in the Star Factory ignited from Ursa Major. Zaurak has created the Star Gate between Mother Earth and the Aquarius Galaxy through the Frequency Chambers of Sirius Star System for us to glide through. All Universal Consciousness is filtered through this Star Factory or Soul Factory. When we connect our pyramid tower antennas into the Cosmic Wave Files, we are connecting through the Divine Intelligence of our Galactic Family in the Star Factory. We are also connecting into the Christic Consciousness of the twelfth dimensional Universal Consciousness and into the Co-Creative Cosmic Consciousness. All of these frequencies are recorded into the 12 DNA template through the antenna.

Listen to the entire Ascension Kit to activate the 12 DNA template.

We need 12 DNA to be aligned into our Christic Immortal Template of Divine Instant Manifestation and Instant Healing and Eternal Life. However, in order to be connected to the 12 DNA movie channel, the pyramid tower antenna must also be connected through channels 24, 36, 48 and 96. The antenna is connected through these channels through the Music of the Spheres contained in the Super Frequency Kit. The Music of the Spheres contains frequencies from each of the Five Spheres and the Cosmic Kit contains angelic consciousness resonating in harmony to create the Magical Cosmic Movie Projector.

Listen to the Cosmic Kit and the Super Frequencies Kit to activate Pyramid Antennas.

Each student needs to have his/her 12 DNA aligned to their own Christic Immortal Template which gives them Divine Instant Manifestation, Instant Healing, and Eternal Life. They can align their 12 DNA through their pyramid tower antenna connected through all of the right places through Listening, resonating, breathing and feeling

the Music of the Spheres that resonates with Angelic Consciousness that is on our Cosmic Wave File recordings, So, to do this, they need to listen to our Cosmic Wave File recordings, which helps to align the activation of all of the above for them.

So, Listening, resonating, breathing and feeling the Music of the Spheres that are on our recordings will set and develop their:

- Christic Immortal Template
- Divine Instant Manifestation, Instant Healing, and Eternal Life
- Connect and Activate their 12 DNA
- Resonation with their Angelic Consciousness
- Cosmic Intelligence of Ascension
- When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God.

The Cosmic Intelligence of Ascension is received through these pyramids or antennas that receive frequency signals. Our DNA is coded to receive these Galactic Christic and Cosmic signals. However, the codes cannot be activated without the Intelligence or Consciousness streaming into the pyramid antennas.

Our starry brothers have left many symbols on Earth to help us remember other symbols that would connect us back to the Divine Intelligence of Cosmic Consciousness.

Listen to the FAMILY KIT to activate Cosmic Signals.

The two most obvious symbols throughout the ages have been the pine cone which represents the pineal gland, and the pyramid which represents the pyramid tower around every crystal cell and DNA strand in the body template. This is why the body was referred to as the tower or temple of God.

In Angelic Consciousness, the word God actually represents a Frequency of Consciousness. This is the HIGHEST FREQUENCY. When our pyramid tower antennas are receiving this Highest Frequency, our body does become the Home or Temple of God. When this Frequency is obtained by tuning the pyramid tower antennas to the channels 12,24,36, 48 and 96, the body has been woven into the braids and streams of light and sound of the entire Music of the Spheres.

The Cosmic Frequencies received and recorded as Cosmic Wave Files are the encyclopedia of intelligence from our Cosmic Family. They have been sending the Intelligence of Divine Mind or the Music of the Spheres through their light and sound frequencies.

These frequencies can only be heard and understood on the radio station that they are being transmitted through. The frequencies of their transmission can be received through the antennas of the pyramids that surround the DNA strands, the crystal cells, the pineal gland, the amygdala gland, the medulla oblongata gland, and the pituitary glands.

The Cosmic Wave Files have already received the Cosmic Intelligence from the antennas and re-transmitted this information onto our Cosmic Wave File CD's for others to use in the activation and alignment of their antennas into their DNA.

These are the steps we take in turning on our Magical Cosmic Movie Camera. The camera won't work unless the frequencies of consciousness are on the same channel as the Cosmic Frequencies.

The pyramid antennas are programmed to receive and transmit the Cosmic Channel of Consciousness which is the Breath of Source creating the original idea of Immortal Man. The spark of Source is the Heart of Mother God. This spark of Source is also present in our Crystal Heart. Our Crystal Heart is located behind the thymus gland. The thymus gland has a huge pyramid tower antenna around it.

- Divine Instant Manifestation, Instant Healing, and Eternal Life)

When we ask Crystal Light Energy from the Suns of all of the Galaxies to stream through this antenna into our Crystal Heart we are connecting our Crystal Heart into the Channel of the God Frequency. When we place our Heart's Desire onto this Crystal Heart and then exhale that Frequency through our Breath - we are breathing the God Movie or the magical Cosmic Movie onto the Movie Screen of our Light Bodies and our Merkaba Movie Screen.

(MEDITATION - very specific meditation that goes through what needs to be done for the above Paragraph)

The Crystal Heart must be connected into Oneness with the Crystal Heart of Mother Earth, which connects into the Heart of the Milky Way where our Star Factory is. Once these three Crystal Hearts are connected through the Divine Frequency of Light and Sound, we can then create our Hearts Desire. The Hearts Desire must be visualized on the movie screen of the third eye or pineal gland. This is also done through the connection of the pyramid tower antennas into Universal Consciousness. When the Heart's Desire is Visualized and projected out through the pituitary glands into the Merkaba Consciousness Field, the Heart's Desire is also Exhaled from the Breath of Consciousness from the Spark of Source.

The Merkaba must first be filled with the Golden Stardust Frequencies of Prana. This is the Consciousness of our Starry Brothers, Angelic Families and Source Consciousness. This etheric Golden Stardust Movie Screen must be lined with the Breath of Consciousness of the StarFactory. This Star Factory contains all knowledge of all of our previous episodes in God's Movie. This is the Consciousness Factory where our Souls have merged and perfected just like a diamond. All of our Galactic Families have merged into

Oneness of new Harmonic Orchestration.

THE PROMISE OF THE PERFECT KINGDOM

The Promise of the PERFECT KINGDOM has already arrived. The Divine Blue Print of the Perfect Man created in the image and likeness of God has already arrived. The 12 DNA template of the original Taran, Oraphim, Aquafarian, Paradisian Race Line has been reinstated into the Sphere of Amenti within the Earth's Etheric Core. The Sphere of Amenti is the Morphogenetic Field (Consciousness created by the interweaving of Sound and Light Particles of the Complete Soul Matrix of all Races on Earth). That 12 DNA template was completed on December 21, 2012. That was the date that our Cosmic, Universal and Galactic Founders, Guardians and Creation Race lines chose for this completion because it was the exact date that there would be enough Frequencies in the Body of Earth to hold the implantation of such a huge amount of Frequencies. The Promise of the return of the Sphere of Amenti was postponed for 22,000 years because there were not enough Frequencies in the Earth's template to hold the incoming Star Activation. If they had completed their mission at that time, the Earth would have eventually exploded.

The Perfect Kingdom of the Divine Blue Print of the planetary body and human body made in the image and likeness of God is exactly that. It is a template with a programmed blue print like a piece of film in a camera. The picture of the divine creation was placed on the film through the Mind of God, first as a negative, which is like a negative ion. Next, the negative is flashed into the Consciousness of the Idea created on the negative and developed into a picture or a positive ion. Unfortunately, when a picture becomes developed in the outer domains of the five spheres of Consciousness, it can be manipulated, distorted and completely damaged by outside sources. This could be

likened to what can be done to characters on the movie screen who are morphed into new images by the film editor. That is basically what happened to God's original movie. It got morphed into a completely distorted illusion.

Now, we are re-making God's movie. Now, the original negative of the picture of the man made in God's image and likeness is being put back in the movie camera. Now, that new movie will be played through the restored Earth's Khristiac Grid. The frequencies of the divine blue print, which would be the negative of the picture, or the negative ions, will be dispersed from the Sphere of Amenti (the camera holding the corrected ionized film with the divine blue print imprinted upon it). Now that camera, holding the corrected movie pictures will flow into the Earth's grids and then into the biosphere of the human angelic template. That bio-energetic field will be filled with the negative ion holding the divine blue print created in the Cosmic Consciousness pre sound and pre light field. This is the point in creation when Source breathes the Divine Idea onto the Heliotalic Plasma, Silver, Pink, Purple, Gold Pastel Frequency Grid of the Negative Ion that comes down from heaven as the Purple Rain of the rebirth of the Divine Consciousness and then translates to the Positive Ion that is Visible Light of Ultra Violet BLUE. This Blue Film develops into the Blue Body and the Light Body and the Crystal Body of the Divine Man made in the image and likeness of God.

NOTE- NOW THAT THE DESCRIPTION OF THE SCIENTIFIC UNDERSTANDING OF NEGATIVE IONS HAS BEEN TOUCHED UPON, and the negative ion can be explained as moving water particles, we would like to change the meaning of this term for the New Earth, this new time, this new reality to be termed SPIRITUAL IONS, which are the moving water particles of Liquid Light Crystal Water Falls pouring down the Purple Rain from Cosmic Consciousness. This Purple Rain turns into Ultra Violet Blue as it becomes visible. We can begin to interact with the Water Fairies within this new bio energetic field of liquid light energy as we raise our frequency of visible light into the blue light. We will call the HE_3H_{20} liquid light energy SPIRITUAL IONS. This term will be the new

understanding for all students of the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE. Crystalai

The 12 DNA template is the original IDEA in the Mind of God. This is the negative of the film that will be developed into a picture that can be seen or perceived within the visible light spectrum when it becomes the positive. The negative ion is the purple rain coming down as the heliotalic frequency, and the positive is the visible blue light. This interaction of the negative ion as the flow of liquid light energy flowing through the plasma to create a rainbow where the letters in the light can be viewed as hydrolaise. This can also be viewed as the heliotalic frequency of the fourteenth dimension weaving into the plasma of the eighth dimension and then becoming visible as it reaches the visible light spectrum in the fifth dimension. When this happens we have achieved another very important phenomena on Earth which allows the bio energetic fields to carry a new chemistry.

The new biology and chemistry begins when the water changes from H₂O into HE₃ H₂O, which is the formula of three parts helium into two parts hydrogen into one part oxygen. This is the new bio energetic field of energy that Earth will breathe through her grids from the Sphere of Amenti into the Earth's atmosphere and into the templates of the human biology. This magical substance is called hydrolaise. Crystalai and aDolphino introduced their students to Hydrolaise in 2008 when they interacted with this substance in Monterey. It is easy to mistake this magical substance with the negative ions that are seen and felt when water particles separate in the activity of the water fall, or the tidal waves splashing against the crystal structures, or the mist in the air allowing rainbow streams to manufacture before you very eyes.

This hydrolaise that was seen through the kaleidoscope eyes of Crystalai in 2008 and progressively more and more each day until 2012, when the hydrolaise actually began to carry upon it her very own fire letters of her divine creation. This is the ultimate in hydrolaise activity. Our fire letters are the sub harmonic frequencies - the 12

missing frequency bands between each DNA strand. As I watched these fire letters streaming through the hydrolaise as it interacted with the plasma in the Sun's rays, those very fire letters were braiding within my own DNA strands. This etheric 12 strand template is always created from the divine blue print which always begins with the 12 codes. The 12 codes begin as fire letters which are the most etheric level of Consciousness, which can only be seen with 5th dimensional vision. This divine template is what activates the 12 DNA to become reactivated from within the Earth's biosphere and then She breathes this hydrolaise out into our DNA template so that our fire letters begin weaving our 12 sub harmonic frequencies or fire letters back into our DNA template.

The template is the etheric level of the DNA. The DNA is always the 12DNA template because there are 12 etheric bands of sub harmonic frequencies which create the celestiline bands of transformation within each DNA strand. To the scientific visible light spectrum, the only visible DNA that has been considered is the double helix DNA template. That template is the primary structure of the distorted film placed in the outer domains destruction of the original movie made in the image and likeness of God photography lab.

The true movie made in the Mind of God photography lab was always a 12 DNA template holding the Divine Blue Print of the Complete IDEA that was to be created first as a Cosmic Film of Heliotalic substance, next as Liquid Light Energy from the Universal Sphere, transferred into the x-ray vision that allows the film to flip over into the visible spectrum within the second sphere of Galactic Consciousness. The visible spectrum is within the second morphogenetic field or the second sphere of dimensions 4, 5 and 6. That is the template where our Taran Race line of the immortal man who never dies, never gets sick and never speaks a negative word to anyone lives.

When we receive the new breathe of fresh bio energetic frequencies that hold the new morphogenetic field of consciousness, our bio energetic field becomes saturated with that new reality. This is a glorious process of making God's movie the way it was supposed to

be made. The movie will be made in the image and likeness of God, or with the divine blue print of Divine Perfection within every atomic structure of the body as 12 sub harmonic bands within the first, second and third DNA strands braid together and activate as they create celestiline (the magical blue dust powder of immortality) causing the DNA to braid together causing Ascension into the Second Morphogenetic Field.

Our Divine Guardian Families and Friends have created on Earth the absolute formula for this Divine Miracle to take place upon this Earth between 2012 and 2017. The five year window has already begun. It began that divine moment of December 21, 2012. It was that moment that the frequencies of Consciousness of all 12 Universes aligned into at one ment or Atunement as the Music of the Spheres sang a brand new song through the Cosmos. This alignment had to be completed at a Cosmic level where 13 Cosmos created the Cosmaya Frequency to activate the alignment of the 12 Universes. This alignment was inhaled into the New Negative in the Breath of Source to create a brand new Negative of the picture or the new movie that would be created. This new movie created on the same divine template of the 12 DNA Divine Coded Template was EXHALED into the entire new Cosmos on December 21, 2012.

There is no time in Divine Reality. That means the reality of the new 12 DNA Divine Man made in the image and likeness of God was created on this day. However, the 5DNA negative of that creation also needed to be implanted into the Sphere of Amenti, in order for the Angelic Human to enjoy the Visible Light aspect of the 12DNA template. The second morphogenetic field holds the visible light aspect of the perfect man. This is the field of consciousness where God's Movie can most easily be enjoyed. When we rise into the third morphogenetic field of 7,8, and 9 dimensions, we begin playing in a field of light that is so etheric that it is like a shield of light with a silhouette of forms in it. Beyond that, the spheres of reality become less and less dense until we become pure consciousness with no form at all. Now, that we have redeveloped into the 12 DNA template, we can enjoy all of those morphogenetic fields of Consciousness. We

can become invisible light long enough to orb into those other dimensions of reality. It is our new biological chemical structure of the HE3H2O that develops us into the negative ions that allow us to flash into light as our Consciousness becomes trained to activate these states of light by raising our frequencies through our own activity of Consciousness and Breath alignment with the Mind of God.

Back to the Fairy Magic. I was told that my new mission on Earth during this window of five years is to see and communicate with Water Fairies or the Aquafarians. The ability to do this requires what I have explained in the preceding article. My Higher Self has reconnected me to this understanding of the Hydrolaise and the HE3H2O or the Spiritual Ionization, as being the first step in creating the morphogenetic field of reality where I can go into and invite Water Fairies into my Consciousness to see them and communicate with them. Fairies cannot live within the distorted water fields that have existed on this Earth. The fairies that some have seen and channeled are those that have been caught within the same messed up movie screen that the rest of us have been living within. We are now responsible for setting those Fairies free as we help them to translate the bio energetic fields into the spiritual ionization needed for real fairies to live in.

We did this same procedure in Monterey, when we were helping the Dolphins and Whales ascend back up into the Cloud Cities as their bodies translated into the Hydrolaise, the mist, the negative ions and finally the HE3H2O within the spiritual Cloud Cities of Higher Earth. The animals of divine origin such as the Dolphins, Whales, White Belugas, Penguins, Polar Bears, White Fox, and many more have ascended ahead of the Earth because they didn't need to clean out as much Karma as the rest of us. Now, that we have helped them, it is time to help the fairies who will help us. I have also watched the Evergreen trees ascend right before my eyes. They attune into their light bodies right before my eyes. Their light body pops out in front of them and then goes back into their eternal life green body and it looks like evergreen but it glows. That was different than the process we watched the dolphins, whales and belugas go through. We even have

a picture of the ascending dolphins on our website.

Children have always been able to see and communicate with fairies easier than adults. Allow your children to guide you in this activity along with a little help from your new understanding of the reality of the existence of fairies, ionization, HE3H20, and the new bio energetic fields we live in. This will help you activate your DNA stranding and your children's DNA stranding. Many of you are already living with the Indigo children who have these magical talents and already have their DNA activated. It is time to start learning from them. They are your key to the kingdom.

TODAY'S LESSON ON ASCENSION

Dr. Angela Barnett

<http://crystalmagicorchestra.com>

I give you lessons each day from the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE in the 14th DIMENSION. I have given you a new video to use that explains how to use the Candle. It is called the Candle Technique. There are four more parts to the Candle Technique.

If you don't have them yet, email me krystalaimagic@gmail.com

I am going to provide a new opportunity of learning about your FIFTH DIMENSIONAL SELF and how to gain access to that Magical Potential within yourself in this grand time of Frequency Expansion that allows our physical bodies to re-engage the light of our spiritual bodies.

I have found that members of workshops find these concepts much easier to understand when they draw their own diagrams instead of looking at the ones that I send to you. So, let's give it a try. Let's draw our own diagrams.

This is the way I began my understanding. I just kept listening to different Entities, who were each representing Mu from Lemuria, and the Cosmic Councils at the Cosmic Mystery School of the Omniverse, and the Elohim Team who taught me how to connect to the three crystal spheres. Our Higher Self demands that we learn things as a Master Learns-- through the PUZZLE.

I will begin giving you the pieces of the Puzzle that I spent my entire lifetime learning.

Please think of fifteen spheres or circles of energy. Draw these 15 circles. One inside of the other. There are actually Five Main spheres and three within each of them to create the 15. So, start by drawing five circles. Within the inner sphere, there are three spheres that contain the harmonic universe one frequencies of dimension one, two and three. The next sphere contains the frequencies of harmonic universe two- dimension four, five and six. The next sphere contains the frequencies of harmonic universe three contain dimensions seven, eight and nine. The next sphere contains the frequencies of harmonic universe four which are ten, eleven and twelfth dimensions and the fifth sphere contains thirteen, fourteen and fifteen.

The first sphere is planet, second is solar, third is galactic, fourth is universal and fifth is cosmic.

Next, think of each one of these spheres being created by this Merkaba that looks like one pyramid facing up and one pyramid facing down. The lower pyramid is inside of the higher pyramid. We think of the the upper triangle spinning clockwise and the lower spinning counter clockwise. When these triangles spin together they are actually spinning the electro into the magnetic energies to create a sound tone. Each one of the spheres is created by one of these merkabas spinning together to create a sound tone or a frequency.

The merkaba that creates the outer sphere is much larger than the merkaba that creates the inner sphere. The frequencies of the outer sphere are much higher and faster than the inner sphere. The outer merkaba spins ten thousands times the speed of light. It is so fast that we cannot concieve of it. It is the energy potential that is holding

the entire Cosmos in Balance and in the attunement with the Source Field of Energy.

So, we have these five merkabas that create the five spheres. The outer sphere is actually holding within itself all of the frequencies of the other four spheres. If we feel all of these merkabas spinning around our body, the outer merkaba would have its upper point 36 inches above our head and the lower point would be down in the Core Domain of the Earth, where the Cosmic Domain touches the Earth's Vortex.

Now, take out your pencils and papers and start drawing these ideas. Draw your body standing on top of the Earth. Draw a circle around your body with the top at 36 inches above the head and the bottom part of the sphere at the center of the Earth. That is you standing in the Cosmic Sphere of creation. Now, draw a merkaba. First the top triangle with the top point where the top of the circle is. The base of the top triangle stretches across the widest part of the circle.

Now, draw the bottom triangle. The bottom point of the triangle touches the bottom of the circle at the point of the Cosmic Core domain at the center of the Earth. The base of that bottom triangle will be ABOVE the base of the top triangle. This is showing that the bottom triangle-- which is the Magnetic is spinning INSIDE of the Top triangle- which is Electro. The electro magnetic spin represents the spinning together of the anti particles -- the spiritual into oneness with the particles-- the physical.

Now, look again at your drawing. You will probably want to get a much larger piece of paper and start over now. The place where the bottom base of the top triangle meets the top base of the bottom triangle should create an area between the fourth, fifth and sixth chakras. That is the area of the throat and down about three inches on the body. That is what we call the Crystal Heart area-- the area of the Fifth chakra-- but it is actually an area that contains the fourth, fifth and sixth chakras. WHAT IS THIS PLACE IN THE BODY? It is your Soul. It is the Fifth Dimensional Soul of your COSMIC BODY.

Where is the Fifth Dimension. It is your Soul.

When we talk about the Fifth Dimension, we are not talking about climbing up a ladder of frequencies. We are talking about blasting completely out of the Third Dimensional concepts of the FIVE SENSES into the Ultimate UNKNOWN, Intuition, Imagination, Concepts beyond our books, our schools, our cultures-- the BEYOND.

How do we get to this place of the INFINITE while we are in our bodies? We use this Merkaba. It spins together all of the Frequencies of the fifteen spheres of the Cosmos into that point in our body that we call our Soul.

Our Soul has been sleeping for a very long time because it hasn't been given a new reality to respond to. The Soul awakens to its ultimate destiny of Infinity when the Merkaba spins all of those frequencies from the Five Spheres into attunement or at one ment at that point where the top and the bottom triangles merge their energies together. Where do they merge their energy or frequencies? INTO THE SOUL-- that is the FIFTH DIMENSION.

The entire ASCENSION PROCESS is about activating the Soul. How did the Soul fall asleep. The process began with the THINKING BRAIN. That is the Upper Cerebellum- the yellow part of the brain in the diagram.

Now, we are going to draw a new diagram. Look at your Candle. Please use the video of the candle that is on the crystalmagicorchestra.com home page. Also use the diagram of the pyramid of light energy.

Draw a candle and then draw a triangle around it. The top of the triangle is the top of the candle. If you look at the pyramid of light frequencies, you will notice that the top of the candle has pink silver light frequencies. That is the frequency of the 14.5 dimension of heliotalic pastel energy. It is an energy that contains helium, gamma, plasma, x-ray, invisible light, and all of the other lower light frequencies. The HIGHEST FREQUENCY ALWAYS TRANSMUTES ALL LOWER FREQUENCIES INTO IT.

That top point of the triangle, and the top point of the candle show us

the place where the Cosmos-- the fifth sphere touches the Mind of God-- or the Source Field of Infinite Unknown potentials of REALITY. When the Merkaba spins together all of the five fields of energy within the Outer Sphere, it is doing the same thing that you see the Candle doing. The Merkaba holds together all of those Frequencies of Light together and molds them into a form of reality. In this case the form is the Candle. The form can also be the Mental Light Body that is three feet around the Physical Body, or it can be the entire Cosmos around the body.

So, we see all of those light frequencies within the candle, and we see them within the upper part of the Merkaba.

Now, what did I tell you that you would need to do to begin to see the Candle Turn BLUE?

I said you must absorb all of the light frequencies of the candle into your body-- especially into your Mid Brain to make your brain become frequency specific.

Why do we do this?

The first step to returning to immortality is turn off the thinking brain because it will just keep telling you that you are going to die. When we move to the Mid Brain, it is frequency specific. It does not speak in languages. It speaks in the language of KNOWING. And you will not find Death in the Knowing.

So, that is why we are focusing on Melting the Brain away. We don't want to hear the thinking brain's opinions about death, disease, age, religions, or any of those piles of lies that have been accumulated into the cellular memory.

Now, you might have noticed that there is only the upper portion of the Merkaba drawn over the candle. The base of the triangle will be drawn through the stem of the Candle.

The Stem of the Candle is Hertzian. It is the third dimensional realm of the Five Senses that can be seen, touched and heard. That is much like our physical body.

So, now draw an image of your body as the stem of the candle. And think of the base of the triangle going through the heart chakra area, just like in the previous merkaba drawing.

Why do we only have the upper part of the merkaba? The upper part of the merkaba is the electro-- the Light Frequencies-- the Anti Particle.

Next, draw the body that is standing on the Earth, and find out where that bottom triangle would intersect the Crystal Heart area of the body that is now the stem of the candle.

The bottom part of the Merkaba is the Magnetic. It is the part of the energy spectrum that pulls the anti-particle LIGHT ENERGY- the Spiritual into the Physical.

And where does the intersection always happen?- At the Fifth Dimension. In the Soul-- in that 4,5,6 chakra area.

We learned how to walk into the candle, absorb the frequencies and see the candle turn blue.

When we see the candle turn blue, it means we have activated the Mid Brain-- the Frequency Specific Brain-- the Blue Brain.

We must do that first, or the Thinking brain will just continue to take center stage and tell you that you are going to die some day.

Now, go back to seeing the entire Cosmic Merkaba spinning around the entire candle and clear into the Cosmic Core Domain of the Earth, and see your body standing in the stem of the candle.

We must spin the electro-upper into the magnetic -lower part of the merkaba to turn the Hertzian Body-- our physical body (the one that only sees and believes the five senses) - into the Blue Body, that blasts out of the prison of the FIVE SENSES into the Infinite Unknowns of all possibilities.

That Infinite Unknown comes from the KNOWINGNESS in all of

those spheres. Those Spheres contain the Consciousness of all of our Plasma Families in the Cosmos, and the Starry Families of the Universes and all of the Galaxies in all of the Omniverses.

When we become the Fifth Dimensional Blue Body, we can tune in to all of those frequency channels of all of the information that has ever been known and that will ever be known. The Fifth Dimension is the HUB of all that is. It is the place where we can still be experiencing our creations in a tangible form that still has some density, but also contains all of the etheric density that must be created from the Intuition, the Knowing, the Imagination. It is the Invisible realities that we create in our Dreams.

What is different about this teaching of using the imagination and creating dreams, is that when the THINKING BRAIN IS TURNED OFF and the Frequency Specific Brain is turned on, we will realize that the DREAMS are the Reality and the Thinking brain is the ILLUSION.

The inner sphere would be the sphere that is around your fourth and fifth and sixth chakra area. That SOUL area now contains all of the Information that is contained in all of those other spheres of Consciousness. We have created a new Morphogenetic Field of Consciousness that contains all of the Light and Sound of the entire Cosmos, Universe, Galaxy into our NEW SOLAR REALITY. We now know that we hold this vast information that is flowing into the Frontal Lobe and into the Mid Brain and into the Lower Cerebellum and Medulla Oblangata in the back of the brain. The Mind of God connects from that point in the brain which also connects to the Soul Center out into that point at the top of the Candle and the top point of the Merkaba, That point connects to the Infinite Source of Energy and Information-- the Mind of God.

Now, all of that information and energy that is flowing through you can be translated from any dimensional frequency into the frequency of the observer-- the subconsciousness within you. That is where dreaming comes in. Those movies of mult dimensional reality flow through you into dreams. You must learn to become AWAKE IN YOUR DREAMS NOW. You must learn to know that you are actually

in the dream and that you control the dream to do what you want it to do. You become the director of the movies in your dreams.

When you can do that, you can also become the director of the movies in your life. And you can turn your dreams into your life if you want to.

The sensual areas in which the brain defines all that is placed in the body includes what food is , how to digest it, what qualities it has.. This same thinking brain that is defining our life and telling our body what will make it well or what will kill it, how our days are numbered, that yellow brain. The areas of absolute polarity who you are in a personality. If you place a picture of Blue Body in your frontal lobe. That picture will be eaten up by the thinking brain only tolerating it for so long thinking brain must be transmuted and dissolved into higher frequency waves. The human is divine, but is only being allowed to work upon the old karma of emotion that was never brought to wisdom.

That is why the Soul returned to Earth because the old karma was never given the wisdom that would allow it to connect to the Blue Body, Aquafaria and never given the knowledge to connect to the multi dimension mind of god.

The soul must be able to process this wisdom while in this body. to remove the death sentence that is given to it by the thinking brain of carnal knowledge, the knowledge given to it by the world.

DOLPHINS AND WHALES CREATE ASCENSION PORTAL

<http://vimeo.com/110741826>

This one hour DVD tells the complete story of the Ascension Portal Created for, and with the Dolphins and Whales who were placed here by Sun Ha and La through the portals of Aquafaria of Inner Earth.
<http://vimeo.com/110741826>

Oraphim Braharama Cetaceans are from Sun Ha. Sun Ha is the Sixth Sun. The Seventh Sun is Sun La. The Humanoid Oraphim Raceline is from Sun La.

The Suns Ha and La are the Violet Suns. They have always been united as the Violet Suns. The Cosmic Cetaceans and Cosmic Humanoids have always been working together on this project of Ascension for Planet Earth.

The Cosmic Dolphin Blue Print was placed within many of the Dolphins in our Oceans. This imprint has held the Fifth Dimensional Imprint of our original perfect 12 coded template for five million years.

Many of us worked on this project with the Cosmic Dolphins five million years ago during Seeding One of the Human Angelic Raceline on the Planet Earth that fell into the Milky Way Galaxy, to prepare this body of consciousness to return home to the Andromeda Galaxy.

It is now the time for the Dolphins to prepare the pathway to the fifth dimension for the Humans. The time when we were directed to Monterey to create an Ascension Portal with the Cetacean Nation was the time when the Dolphins ascended to the Sixth Dimension and the Whales ascended to the Ninth Dimension. This was the completion of their mission for this bio-regenesis project.

There are still many Fifth Dimensional Dolphins in our Oceans who will assist those who want to activate their 5DNA template. However, tuning in to those Cosmic Dolphins who are in Sun Ha is where the true power of Ascension comes from. This is why we always tune in to the Cosmic Dolphins in our Frequency recordings.

I come from Sun La. Sun La is the seventh Sun. Sun Ha is the Sixth Sun.

Together these two suns make the Violet Sun or the Violet Flame Reality. I was trained by the Elohim Angels to inhale the Highest

Frequency and exhale it as music. My training was for the purpose of aligning my consciousness with the Violet Suns of Ha and La to complete the Portal of Ascension for the Oraphim Braharama Cetacean Raceline.

When I aligned my consciousness as I was trained, I could align in to the frequencies of the sixth and seventh suns and create the frequency gate between the Earth and the Star Gates opening to the Sixth and Seventh Suns.

The Mission was beyond the comprehension of any one who was not prepared with the coding in their cellular memory before coming to Earth.

The memories also extended to help me understand why my husband aDolphino was possessed by Demons. We learned many years later, that part of the reason we were creating the ascension portal for the Sixth Sun Cetacean Raceline was because there were many of these wonderful beings from both of the Violet Suns who had been taken into Phantom Matrixes by the Red Dragons and the FAtaLee Demons. The ones who were taken prisoner were our friends and family. And this was the only time and place that their souls could be set free, so that the entire Cosmic Matrix could ascend.

(The complete story is in the Cosmic Twins)

I wanted to make this story more interesting and more real to those of you who still do not understand the importance of this Ascension Event that prepared the way for millions of others to Ascend who would not had been able to if aDolphino did not prepare for the demonic possession long before he came to Planet Earth.

We had obviously been prepared for this thousands of years ago. There was an exact place to create the portal that we were directed to. There was a formula that we needed to know to activate our Plasma Bodies, there were frequency alignments that we created as the Music that was used to bring aDolphino back from the dead and to create an Ascension Portal to return all of the Souls who had become demonic back to Source.

All of these things had to be done before the Ascension out of the Phantom Matrix could be successful. This Ascension Portal and the Resurrection of a Dolphin after his possession and death paved a complete pathway even for those Oraphim Cetaceans and Oraphim Humanoids who had been taken into the path of Fall by the Phantom Matrix and the FAtaLee Matrix.

Our mission on Earth was to provide the path way for the Dead before the pathway for the living could be completed.

We needed to build a portal for the ascension of the Dolphins and Whales who had held the Frequencies of Attunement back to the Sixth and Seventh Suns for all of the Eons. The Dolphins needed to ascend up to the Sixth Dimension and the Whales up to the Ninth Dimension.

This was how the path was paved for the Human Raceline to Ascend to the Fifth and Eighth. We couldn't ascend until they ascended.

We couldn't ascend until the Maharji Blue Race was provided a Portal to guide Demonic Souls back to Source so that they could be born again.

I hope you will enjoy the story that I created for you as a DVD with the actual pictures of the Event as it took place in Monterey, California in 2008.

The Ascension Portal was created in that exact area because that is where I began this project five million years ago when Aquafaria was created as the Foundation for Earth.

This is the journey that I take into the Inner Earth Aquafaria each time I record music. My consciousness is in the Highest Frequencies of the Transformational Crystals within Aquafaria when I create the music.

You might like to take this journey when you listen to your music.

Crystalai

Shajinka pulls us around and through the crystal pillars and temples and crystal caves.

We weave and stream liquid light tones of rainbows that sing and resonate into and through the crystals of the city.

Our harmonic convergence with the crystal cities becomes our tone of home.

We feel and hear the sweetness, the harmonies, the colorful, glorious tone of home.

Shajinka pulls us back up into the Sun of Inner Earth. The feeling is warm and light and tingling through the skin in the tiniest little morsels of sweet light crystal energy.

We weave and breathe and stream our consciousness of the crystal frequencies through the sun's consciousness and light energy. We create rainbows of layered sounds and colors of consciousness.

We paint pictures of our new reality with these streams of rainbow colors. We ride the rainbows up out of the water and sit on top of a cloud.

We are met by a Unicorn named Apollo, who invites us to ride with him. He prances on the clouds and jumps through the rainbows.

We feel and absorb this new frequency that contains no gravitational pull. We feel this new standing wave pattern and become a part of it.

We are met by many unicorns who dance and prance around on the clouds. Next, we ride these unicorns and they become a merry go round that is dancing and singing as they twirl round and round through the rainbows.

Next, they dive down into the turquoise iridescent aqualeine water. They turn into sea horses when they enter the water. They show us that we can become anything we want to be.

We turn into star fish, and then dolphins and then mermaids and then we disappear and turn into rainbows and into crystal pillars of light and then we become mermaids again.

We swim back into our bedroom in our golden dust mansion. We lay on the bed in our room and Zorak -my starry brother, creates a golden portal of golden white star dust energy that he streams through us as we sleep in our bed. He wraps us in a cocoon of this golden dust energy. When we wake up we transmute from this cocoon into a beautiful blue butterfly. We are now able to fly beyond all holograms of the past and create a brand new star system.

MERMAID CRYSTAL CAVES

We must first prepare our bodies to become zero balance energy with the spiritual and physical. We must first line our bodies with the garments of white light linen, with the golden dust garment, with the cloak of many colors--the rainbow energy or irradescant energy. We can then walk through the Diamond Door. Our Consciousness must be raised into these frequencies of the white light, the golden light, the rainbow light, the crystal light energy before we can truly walk through the diamond door. Many can do this in bi-location mode or Glide mode. But to truly Slide through the Diamond Door into our Future Selves who contain the Standing Wave Pattern of the New Star Earth, we must be fully robed in Divine Consciousness. We must truly turn into the LIGHT BODY through the alignment of the Neutron into oneness with the Proton. We must truly practice and stay in this RESONANCE that is IN TUNE with the Crystal Light Energy, the Star Dust Energy, the Divine Love, the Divine Omnipresent Consciousness of Source, our Divine Creative Principles of our God Selves, our Angelic Selves. These are the principles of Ascension taught and practiced through our new Cosmic Magic workshops.

We walk through the Diamond Door and walk into our Future Selves. Our future self must already be resonating with Star Frequencies. They must already be clothed in Star Dust Energy. We are now ready to dive into the Liquid Light Turquoise Blue, Irradescant AQUAFARIA Ocean that leads into the Underwater Cities of Light.

We walk into our FUTURE SELVES.

We walk into a Room made of white light and stardust energy.

We keep walking forward in our future selves.

We walk toward a golden dust mansion sitting on top of a turquoise pond of water.

We walk into our golden dust mansion.

We walk into our bedroom.

Cinderella -my Oraphim Dolphonoid Mermaid Mother, meets us in the bedroom and carries us deep down into the Aquafarian Ocean.

We dive into this sparkly iridescent turquoise blue liquid light ocean of cosmic light energy.

Cinderella carries us deep inside of the Sun that is under the water.

We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun.

Cinderella then pulls us deeper and deeper until we come to a Crystal Cave.

The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone.

Cinderella takes us into the cave to meet the Mermaid Choir.

Cinderella is a mermaid and I am a mermaid. We enter the cave and feel the frequencies of the crystals. Then the mermaids begin to sing.

They line our cells with glowing frequencies to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality.

They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

Cinderella is singing this song through my breath

ALL IS LOVE AND LOVE IS ALL
(This is on the Dolphin Magic Album)

All is love and love is light
We swim and dance in love to make
all things in love we love to know
that's all we want and all we have
our love for all and all is love
we pray to know the love you were
You bring it back
We sing once more

We swim we fly, we need no wings
Our love so grand
We pray for light
from love and swim
it's all so easy where we live

We need your love
we swim at night
we weave to send a day more bright

Our rainbows bright
We made before
to love our family like once more

We breath and pray for love more light
We wish we make the sparks ignite
We form whatever things we wish
That made in dreams of love
our bliss

We fly we swim at speed of light
to be where ever love ignites
We pray to know a world more bright
We bring to your bed tonight
To sleep in dreams our melodies
We were once your family
You now will know once more
We wait for you so eager bright
to bring you back to sing tonight

We hope you'll come back home once more
Our love more liquid like once more
We swim inside your home you make
We wait below we swim to night
To bring home and memories were
We love to make your melodies
Your liquid light we made and make more love to know
Whatever things that we might need
Besides our love our love our melodies

We fly we swim at speed of light
to be wherever love ignites
We pray of love our crystal
we bring to your bed tonight
To sleep in dreams our memories
We were once your family
you now will know once more
We wait for you so eager bright
to sing tonight
We hope you'll come back home once more
Our love more liquid like once more

We swim inside your home you make
We wait below we swim tonight
To bring you home where memories were
We now can make our family made to love through liquid light
We breathe and make more love to know
Whatever things that we might need
Besides our love our melodies
We do not know of anything that we could need besides our love.

After we sing with the choir for one hour, Shajinka -my Orca sister,
meets us at the door of the cave and pulls us deeper into the ocean
to enter the City of Lights.

Shajinka pulls us around and through the crystal pillars and temples
and crystal caves.
We weave and stream liquid light tones of rainbows that sing and

resonate into and through the crystals of the city.

Our harmonic convergence with the crystal cities becomes our tone of home.

We feel and hear the sweetness, the harmonies, the colorful, glorious tone of home.

Allow all of the Divine Consciousness to be ignited into the magnetic field of Christ Consciousness and to ignite a Flame around and through our body containing Source Consciousness, Divine Consciousness, Christ Consciousness to envelope and shield our bodies inside of this Higher Consciousness. Allow this shield to contain us and complete us into our Divine Being of Eternal Life, Divine Substance, instant manifestation or our Normal Immortal Body created in the 12 DNA template of Christ Consciousness and ignited into ONENESS through the Spark of Source Consciousness that has been maintained in our Crystal Heart to be reborn at this time.

Bring your Crystal Star Merkaba into our crystal heart and spin all of these frequencies into the merkaba to ignite the spark of source in the center of our crystal heart. Place a Turquoise, Crystal Sphere around this crystal heart. Ignite this spark of Source and spin the Crystal Star Merkaba at the speed of light to distribute this Source Consciousness into our Crystal Heart and into the Crystal Sphere around the Crystal Heart.

We put on our garments of white light frequencies that we have spun into our bodies through the Crystal Star Merkaba. We put on our garments of irradeseent light frequencies. We put on our garments of golden dust frequencies. We robe our bodies with the Divine Frequencies of Oneness as we spin our bodies into oneness with our Merkaba body that carries the Frequencies of all five spheres. We spin our body to sing and resonate into the music of the spheres of oneness. We walk into the spark of source, which is the God Room of Inner Stillness where we unite with our Oneness with our GodSelf, our Higher Self. We walk into this Harmonic Convergence with our Higher Self. as our body is transformed into the zero point energy of an equal balance of the spiritual and physical.

Now we ask Anwa to spin our Crystal Star Merkaba vehicle up into the 14th dimension of the heliotalic frequency where the light of helium is infused into the Merkaba and spun at the speed of light into our bodies. Anwa please take our Crystal Star Merkaba body into the 8th dimension and collect the frequencies of the suns. Please drive our Crystal Star Merkaba body into the heart of Sun Vesta and collect all of these frequencies into our Merkaba. Now collect the frequencies of Sun Alcyone and all of the Suns in the Galaxies. Spin all of these frequencies into our Merkaba bodies. Align us into the magnetic fields of all of these suns through their Crystal light energy, their Aqualene Liquid Light and allow this energy to stream through our bodies. (The body transforms into 24 DNA of the IMMORTAL BODY aligned into the NEW STAR SYSTEM).

Anwa please collect the helium frequencies and all of the Suns frequencies and spin them together at the speed of light. Bring this energy into the Merkaba. Please spin the Merkaba in to our heads and into our crystal hearts and into our tailbones to ignite the spark of the neutron into every cell, molecule and atom in our body. Please spin this neutron energy all through our bodies and pop out into our Merkaba Body and spin this into Oneness of the Spiritual and Physical. Please allow the activity of Divine Love to distribute this new light energy to create our LIGHT BODIES all through our IMMORTAL BODIES.

Create two rings of helium energy and connect them to spin through each other. Place these rings of helium into the crystal heart. Ask these rings to spin at the speed of light out into the five spheres and beyond to collect all of the crystal light, crystal dust, crystal gel of our entire Cosmos. Now ignite the helium rings to spin out into the Star System of Zorak's Kingdom. Collect all of the star dust energy into the helium rings and ignite these sparks of star dust into the crystal heart. See a star dust sphere grow around the crystal heart. Walk into the center of the crystal heart and walk into the Room of Inner Stillness to Connect with Higher selves from all Five spheres and with Zorak. Put on the garments of white light, irradeseent light, golden light and star dust energy.

Ask Anwa to take the Crystal Star Merkaba into the fifteenth dimension of Co-Creative Consciousness and to collect these Frequencies of the angels, fairies, devas and elementals. Ask these entities to share their frequency of Cosmic Creation in the activity of Divine Love. Anwa, please collect these frequencies into our Crystal Star Merkaba and spin them at the speed of light through the activity of Divine Love. Distribute this frequency into our Crystal Heart and into our Heads, our Minds in order to become Co-Creators with Source Consciousness, Divine Consciousness, Divine Plan, Divine Activity. (The body transforms into 36 DNA of the IMMORTAL BODY aligned into the COSMIC REALM).

Walk into the Crystal Sphere and into the Crystal Heart and deep inside into the Spark of Source . Enter the room of Inner Stillness and become One with all of the frequencies of consciousness of all of the Divine Entities who resonate with the Music of the Spheres, the harmonic convergence into Oneness of the Divine Plan. Place the garments of white light, golden light, star dust energy, divine mind, divine plan on and walk through the Diamond Door. (The body transforms into 48 DNA of the IMMORTAL BODY aligned into the NEW STAR SYSTEM).

Walk into your FUTURE SELF on the other side of the Diamond Door. Leave behind all that is not in your Future self on the other side of the Diamond Door forever. You are now living completely in your Future Self. You see around you a Divine kingdom of light energy. All is sound and light. All that appears before you is the desires that you create through your co-creative consciousness and your oneness with the Divine Frequency of Oneness.

You may now create your Islands of Light. These Islands will be the reflections on Earth of all that you create in your FUTURE SELF and bring into your Present Self. This Future Self is creating the new Earth in her Star Essence. We are now living in the Earth that is no longer a Planet. We are a part of the Star System. and Earth is becoming a star as we are becoming a part of her heart.

Walk into your Crystal Heart containing your Merkaba. Walk into the Merkaba. Anwa please create this Merkaba in my Crystal Heart and allow it to spin at the speed of light and connect me to the Heart of Mother Earth. We ride inside of the Merkaba and travel inside the heart of Mother Earth. We spin our Merkabas at the speed of light deep inside of Mother Earth's Heart. Our Merkabas collect the frequencies of the Base Tone Rhythms, the Resonance, the Tone of Home, the Harmonic Frequencies of our Divine Creation. The crystals in the heart of Mother Earth contain these Base Tones. These crystals are liquid light, crystal light, crystal gel, crystal dust. These crystals sing and resonate with the beautiful symphonies of the MUSIC OF THE SPHERES. When the five spheres align, there is a beautiful harmonic convergence that causes enough sun light to glow through these crystals in our bodies and in the Heart of Mother Earth to cause these cells to unite and harmonize and become One new Key of Harmony. We must transmute our Consciousness into these Standing Wave Patterns that are contained in the Heart of Mother Earth.

We must first prepare our bodies to become zero balance energy with the spiritual and physical. We must first line our bodies with the garments of white light linen, with the golden dust garment, with the cloak of many colors--the rainbow energy or iridescent energy. We can then walk through the Diamond Door. Our Consciousness must be raised into these frequencies of the white light, the golden light, the rainbow light, the crystal light energy before we can truly walk through the diamond door. Many can do this in Astral mode or Glide mode. But to truly Slide through the Diamond Door into our Future Selves who contain the Standing Wave Pattern of the New Star Earth, we must be fully robed in Divine Consciousness. We must truly turn into the LIGHT BODY through the alignment of the Neutron into oneness with the Proton. We must truly practice and stay in this RESONANCE that is IN TUNE with the Crystal Light Energy, the Star Dust Energy, the Divine Love, the Divine Omnipresent Consciousness of Source, our Divine Creative Principles of our God Selves, our Angelic Selves.

We walk through the Diamond Door and walk into our Future Selves. Our future self must already be resonating with Star Frequencies. It must already be clothed in Star Dust Energy. We are now ready to dive into the Liquid Light Turquoise Blue, Irradescent AQUAFARIA Ocean that leads into the Underwater Cities of Light.

We dive into this sparkly irradescant liquid light ocean of cosmic light energy. We come up and see our golden dust mansion. We walk into our bedroom. Cinderella meets us there and carries us deep down into the Aquafaria Ocean. She carries us deep inside of the Sun that is under the water. We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun. Cinderella then pulls us deeper and deeper until we come to a Crystal Cave. The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone. Cinderella takes us into the cave to meet the Mermaid Choir. Cinderella is a mermaid and I am a mermaid. We enter the cave and feel the frequencies of the crystals. Then the mermaids begin to sing. They line our cells to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality. They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

MOVING INTO THE FIFTH DIMENSION--BEYOND THE ILLUSION OF DEATH

Dr. Angela Barnett
crystalmagicorchestra.com

Please think of fifteen spheres or circles of energy. Draw these 15 circles. One inside of the other. There are actually Five Main spheres and three within each of them to create the 15. So, start by drawing five circles. Within the inner sphere, there are three spheres that contain the harmonic universe one frequencies of dimension one, two and three. The next sphere contains the frequencies of harmonic universe two- dimesnion four, five and six. The next sphere contains

the frequencies of harmonic universe three contain dimensions seven, eight and nine. The next sphere contains the frequencies of harmonic universe four which are ten, eleven and twelfth dimensions and the fifth sphere contains thirteen, fourteen and fifteen.

The first sphere is planet, second is solar, third is galactic, fourth is universal and fifth is cosmic.

Next, think of each one of these spheres being created by this Merkaba that looks like one pyramid facing up and one pyramid facing down. The lower pyramid is inside of the higher pyramid. We think of the the upper triangle spinning clockwise and the lower spinning counter clockwise. When these triangles spin together they are actually spinning the electro into the magnetic energies to create a sound tone. Each one of the spheres is created by one of these merkabas spinning together to create a sound tone or a frequency.

The merkaba that creates the outer sphere is much larger than the merkaba that creates the inner sphere. The frequencies of the outer sphere are much higher and faster than the inner sphere. The outer merkaba spins ten thousands times the speed of light. It is so fast that we cannot concieve of it. It is the energy potential that is holding the entire Cosmos in Balance and in the attunement with the Source Field of Energy.

So. we have these five merkabas that create the five spheres. The outer sphere is actually holding within itself all of the frequencies of the other four spheres. If we feel all of these merkabas spinning around our body, the outer merkaba would have its upper point 36 inches above our head and the lower point would be down in the Core Domain of the Earth, where the Cosmic Domain touches the Earth's Vortex.

Now, take out your pencils and papers and start drawing these ideas. Draw your body standing on top of the Earth. Draw a circle around your body with the top at 36 inches above the head and the bottom part of the sphere at the center of the Earth. That is you standing in the Cosmic Sphere of creation. Now, draw a merkaba. First the top triangle with the top point where the top of the circle is. The base of the top triangle stretches accross the widest part of the circle.

Now, draw the bottom triangle. The bottom point of the triangle touches the bottom of the circle at the point of the Cosmic Core domain at the center of the Earth. The base of that bottom triangle will be ABOVE the base of the top triangle. This is showing that the bottom triangle-- which is the Magnetic is spinning INSIDE of the Top triangle- which is Electro. The electro magnetic spin represents the spinning together of the anti particles -- the spiritual into oneness with the particles-- the physical.

Now, look again at your drawing. You will probably want to get a much larger piece of paper and start over now. The place where the bottom base of the top triangle meets the top base of the bottom triangle should create an area between the fourth, fifth and sixth chakras. That is the area of the throat and down about three inches on the body. That is what we call the Crystal Heart area-- the area of the Fifth chakra-- but it is actually an area that contains the fourth, fifth and sixth chakras. WHAT IS THIS PLACE IN THE BODY? It is your Soul. It is the Fifth Dimensional Soul of your COSMIC BODY.

Where is the Fifth Dimension. It is your Soul.

When we talk about the Fifth Dimension, we are not talking about climbing up a ladder of frequencies. We are talking about blasting completely out of the Third Dimensional concepts of the FIVE SENSES into the Ultimate UNKNOWN, Intuition, Imagination, Concepts beyond our books, our schools, our cultures-- the BEYOND.

How do we get to this place of the INFINITE while we are in our bodies? We use this Merkaba. It spins together all of the Frequencies of the fifteen spheres of the Cosmos into that point in our body that we call our Soul.

Our Soul has been sleeping for a very long time because it hasn't been given a new reality to respond to. The Soul awakens to its ultimate destiny of Infinity when the Merkaba spins all of those frequencies from the Five Spheres into attunement or at one ment at that point where the top and the bottom triangles merge their energies together. Where do they merge their energy or frequencies?

INTO THE SOUL-- that is the FIFTH DIMENSION.

The entire ASCENSION PROCESS is about activating the Soul. How did the Soul fall asleep. The process began with the THINKING BRAIN. That is the Upper Cerebellum- the yellow part of the brain in the diagram.

Now, we are going to draw a new diagram. Look at your Candle. Please use the video of the candle that is on the crystallmagicochestra.com home page. Also use the diagram of the pyramid of light energy.

Draw a candle and then draw a triangle around it. The top of the triangle is the top of the candle. If you look at the pyramid of light frequencies, you will notice that the top of the candle has pink silver light frequencies. That is the frequency of the 14.5 dimension of heliotalic pastel energy. It is an energy that contains helium, gamma, plasma, x-ray, invisible light, and all of the other lower light frequencies. The HIGHEST FREQUENCY ALWAYS TRANSMUTES ALL LOWER FREQUENCIES INTO IT.

That top point of the triangle, and the top point of the candle show us the place where the Cosmos-- the fifth sphere touches the Mind of God-- or the Source Field of Infinite Unknown potentials of REALITY. When the Merkaba spins together all of the five fields of energy within the Outer Sphere, it is doing the same thing that you see the Candle doing. The Merkaba holds together all of those Frequencies of Light together and molds them into a form of reality. In this case the form is the Candle. The form can also be the Mental Light Body that is three feet around the Physical Body, or it can be the entire Cosmos around the body.

So, we see all of those light frequencies within the candle, and we see them within the upper part of the Merkaba.

Now, what did I tell you that you would need to do to begin to see the Candle Turn BLUE?

I said you must absorb all of the light frequencies of the candle into your body-- especially into your Mid Brain to make your brain become

frequency specific.

Why do we do this?

The first step to returning to immortality is turn off the thinking brain because it will just keep telling you that you are going to die. When we move to the Mid Brain, it is frequency specific. It does not speak in languages. It speaks in the language of KNOWING. And you will not find Death in the Knowing.

So, that is why we are focusing on Melting the Brain away. We don't want to hear the thinking brain's opinions about death, disease, age, religions, or any of those piles of lies that have been accumulated into the cellular memory.

Now, you might have noticed that there is only the upper portion of the Merkaba drawn over the candle. The base of the triangle will be drawn through the stem of the Candle.

The Stem of the Candle is Hertzian. It is the third dimensional realm of the Five Senses that can be seen, touched and heard. That is much like our physical body.

So, now draw an image of your body as the stem of the candle. And think of the base of the triangle going through the heart chakra area, just like in the previous merkaba drawing.

Why do we only have the upper part of the merkaba? The upper part of the merkaba is the electro-- the Light Frequencies-- the Anti Particle.

Next, draw the body that is standing on the Earth, and find out where that bottom triangle would intersect the Crystal Heart area of the body that is now the stem of the candle.

The bottom part of the Merkaba is the Magnetic. It is the part of the energy spectrum that pulls the anti-particle LIGHT ENERGY- the Spiritual into the Physical.

And where does the intersection always happen?- At the Fifth

Dimension. In the Soul-- in that 4,5,6 chakra area.

We learned how to walk into the candle, absorb the frequencies and see the candle turn blue.

When we see the candle turn blue, it means we have activated the Mid Brain-- the Frequency Specific Brain-- the Blue Brain.

We must do that first, or the Thinking brain will just continue to take center stage and tell you that you are going to die some day.

Now, go back to seeing the entire Cosmic Merkaba spinning around the entire candle and clear into the Cosmic Core Domain of the Earth, and see your body standing in the stem of the candle.

We must spin the electro-upper into the magnetic -lower part of the merkaba to turn the Hertzian Body-- our physical body (the one that only sees and believes the five senses) - into the Blue Body, that blasts out of the prison of the FIVE SENSES into the Infinite Unknowns of all possibilities.

That Infinite Unknown comes from the KNOWINGNESS in all of those spheres. Those Spheres contain the Consciousness of all of our Plasma Families in the Cosmos, and the Starry Families of the Universes and all of the Galaxies in all of the Omniverses.

When we become the Fifth Dimensional Blue Body, we can tune in to all of those frequency channels of all of the information that has ever been known and that will ever be known. The Fifth Dimension is the HUB of all that is. It is the place where we can still be experiencing our creations in a tangible form that still has some density, but also contains all of the etheric density that must be created from the Intuition, the Knowing, the Imagination. It is the Invisible realities that we create in our Dreams.

What is different about this teaching of using the imagination and creating dreams, is that when the THINKING BRAIN IS TURNED OFF and the Frequency Specific Brain is turned on, we will realize that the DREAMS are the Reality and the Thinking brain is the ILLUSION.

The inner sphere would be the sphere that is around your fourth and fifth and sixth chakra area. That SOUL area now contains all of the Information that is contained in all of those other spheres of Consciousness. We have created a new Morphogenetic Field of Consciousness that contains all of the Light and Sound of the entire Cosmos, Universe, Galaxy into our NEW SOLAR REALITY. We now know that we hold this vast information that is flowing into the Frontal Lobe and into the Mid Brain and into the Lower Cerebellum and Medulla Oblangata in the back of the brain. The Mind of God connects from that point in the brain which also connects to the Soul Center out into that point at the top of the Candle and the top point of the Merkaba, That point connects to the Infinite Source of Energy and Information-- the Mind of God.

Now, all of that information and energy that is flowing through you can be translated from any dimensional frequency into the frequency of the observer-- the subconsciousness within you. That is where dreaming comes in. Those movies of mult dimensional reality flow through you into dreams. You must learn to become **AWAKE IN YOUR DREAMS NOW**. You must learn to know that you are actually in the dream and that you control the dream to do what you want it to do. You become the director of the movies in your dreams.

When you can do that, you can also become the director of the movies in your life. And you can turn your dreams into your life if you want to.

Now, here is the first definition of WORDS that must be changed in our new Cosmic Dictionary.

The Male is not a man and the Female is not a woman.
The removal of polarity is not removing the difference between male and female.

The MALE is the Pattern and Spin rate of the Electro part of the Divine Creation Plan.

The Electro carries the pattern that is needed to mend our DNA that was sliced apart by disconnecting the Electro from the Magnetic.

The Electrons are in the Overtones of the DNA and the Magnetic is the Base Tones of the DNA.

There were Over tones and Base Tones separated at different Dimensional Levels in each of the DNA.

The most CRUCIAL DNA STRANDS in the Body are the FIRST DNA STRAND.

That Strand had it's Electro Overtones disconnected from its Magnetic Base Tones 5.5 million years ago.

This was done through an ELECTRIC WAR of the Universe that was actually brought about from an Electric War in the Cosmos.

It is called an Electric War because everything in the universe is created by a DIVINE ELECTRICITY.

Here is another word that must be given the COSMIC DEFINITION.

The electricity created by Einstein was the Third Density. RESULT of a Formula that actually works on all Density levels.

Einsteins formula says Consciousness plus Energy equals Reality.

C plus E equals Reality.

The amount of Consciousness that was put into creating ENERGY (Electricity) in this Density gave us the Reality of that form of Electricity.

However, when we rise into the Fifth Density and use the Consciousness that is in that Multidimensional Field of Reality and put it together with the Energy of the Spin rate of the Cosmic Merkaba, we create a Source of Electricity that comes comes Directly from SOURCE.

That use of the Universal Merkaba and the Cosmic Merkaba was made disfunctional in our bodies at the first DNA strand and through out our Universe as a result of the ELECTRIC WARS.

This is the Scientific Formula that can be used to LINK our reality of the third, fifth, eighth, twelfth and fourteenth dimensions into one ETERNAL SOURCE OF ENERGY.

That Scientific Formula is completely and clearly outlined and taught precisely by Ashayana Deane in her SLIDERS 5-12 DVD's. (I have never physically attended her workshops. I have purchased every DVD that she has created, and studied them just like a Physics Major would study that subject as a Doctoral Candidate in a University).

I have always looked at this ASCENSION as a completion of all of the life times, all of the Cosmic Experiments, all of the Cosmic Teams that I have been with for Billions of Years finally being Completed. I have signed up for many sets of Missions for this One Lifetime because I am representing the Crystalai Council and the Breneau Consciousness of COMPLETE ASCENSION for the Cosmos- not just for the Planet.

I am in continuous communication on a frequency level. I find the God Language that Ahsayana uses very interesting. However, I still only communicate with my teams on the Frequency Level. That is the only communication that was used in my Universe before the Tower of Babel, 5000 years ago.

This planet must move back into Telepathic- Frequency Specific Language before it can assimilate into the new Standing Wave Patterns of the New Ascension Earth.

That is why this transition is all about Light and Sound.

It is all about tuning up our Frequencies by spinning the Merkaba Correctly and using that spin rate in relationship with the Electro Tonal connection of the Over tones and Basetones in the DNA.

When I create the music, I ride my Merkaba that is formed in the 12th Dimensional Consciousness of my Rasha Body- 12 inches above my

head.

That Merkaba is made of the upper pyramid (actually it is not a pyramid because it has four sides-that is called a dectrohedron) The bottom side of the merkaba is very important because that is the area where the Male- Electro meets the FEMALE- Magnetic Pyramid.

The Male and Female must spin together correctly in order to re-activate that connection of energy that unites the overtones and basetones of the DNA.

WHAT IS THE RELATIONSHIP BETWEEN THE CANDLE, THE MERKABAS and the MUSIC

If you look at the candle and draw a pyramid, the base of the pyramid would be near the top area of the STEM. The point of the pyramid would be at the pink-silver top point of the candle.

That pyramid would be the Cosmic Merkaba- ELECTRO --TOP HALF.

See the Light Spectrum of the Cosmic Merkaba-- It includes that outer spectrum of light. It is the spectrum of light that includes the Plasma- the Pre-Plasma of Hydrolaise Vapor and the Pink Silver Light which is the Heliotalic Spectrum that spins together with the Plasma to create the Neutron body.

That would be just the Cosmic Merkaba.

So, when I create the Frequency Music, most of my focus is up in that part of the Candle- the place where the Frequencies of Light and Sound are the TRANSFORMATION CHEMISTRY OF OUR ASCENSION.

If you draw another Pyramid inside of the Cosmic Merkaba, you would be drawing the UNIVERSAL MERKABA. The Light Spectrum of that Merkaba includes all of the Stardust Energy, which is also made of the Pre Light and Sound Substance of the Cosmic Hydrolaise and "Heliotalic Light.

The Stardust is one light spectrum lower than the Plasma. However, the template that create these light forms are the same. The DIVINE BLUE PRINT or TEMPLATE of the entire COSMOS is made from the Breath of Source IGNITING AND IDEA into the Cosmos.

That exact same IDEA is replicated in each DENSITY. We can only see the DENSITY that is BELOW us.

We would have to be in the Fifth Dimension to see the Fourth Density. That is basically what most people are seeing right now. It is not that they are not in the Fifth Dimension. It is just that they are still SEEING the Fourth Density

We must change our PERCEPTION of Reality by Raising our Frequencies. We can't SEE it until we can HEAR it.

That is because the Sound and the Light of the Merkabas of Electro-Magnetic Spin Rates braid the broken DNA subharmonics back together.

We need to use the Candle again. Now we draw another Merkaba Pyramid inside of the Universal Merkaba. This will be the Galactic Merkaba.

The Cosmic Merkaba contains dimensions 13,14 and 15-- But the 15 is beyond the Silver Pink top of the Flame, and then just a breath outside of that 15 dimension of the EARTH'S MATRIX is the Source Field of Infinite Void. That is where the TRUE CREATION takes place. That is where the TEMPLATE of all Creation remains Eternally for all Infinity.

The 15 dimensions are only the EARTH'S MATRIX. The Earth is always within it's Cosmos.

Well, the Earth was in it's Cosmos until December 2012 when the Earth was realigned into a new alignment of reality that required our Cosmos to become a NEW COSMOS.

We can't have a new Earth without a new Universe and a new Cosmos.

This ASCENSION EVENT is not a local Planetary event. Ascension can only take place at the Cosmic Level.

The COSMIC MYSTERY SCHOOL OF THE OMNIVERSE is the meeting place of 13 Cosmos beginning the creation plan for the new baby Cosmos that they created.

I am just channeling their information to you through their Frequencies.

Now, we can see where this GALACTIC MERKABA would be. First, each merkaba always has it's base in that same area near the top of the Stem.

The Galactic Merkaba contains the same spectrum of light energy at a lower Spin Rate. That means the Merkaba is not spinning as fast as the Universal Merkaba. That is what creates more density. That is why the 8th dimensional density is more dense than the 12th dimensional density.

The light of the Galactic Merkaba is INVISIBLE to us. It is not in our VISIBLE LIGHT SPECTRUM. The Invisible light and the x-ray light spectrums create a different reality than we are able to conceive. The Density becomes so Etheric that the Angels are able to fly through the clouds.

When we get down to the Solar Merkaba, we are in the Fifth Dimensional Reality.

This is where we are now. We are in the Fifth Dimension.

We just haven't learned how to see it yet.

Look again at the BASE of the MERKABA. All of the bases of all of the Merkaba sit at the same place in the STEM OF THE CANDLE.

Now, draw a stick figure body onto that stem. The place where the Light Ignites at the tip of the Stem would be the right above the arms in the Crystal Heart area of the body.

The Merkabas are igniting that light of all of the Merkabas from all Dimensions into the HEART of that little body.

The body is your body. When you are gazing at the Candle and walking into the Candle, you are igniting the light in your Crystal Heart.

We call it the Crystal Heart because it is made of Crystal-- etheric Crystalline- which is actually Cellesma in it's purest form. It is the Blue Body Essence that our Soul is made of. Our Soul sits right under the Heart. That is why we call it the CRYSTAL HEART.

When I ride my Merkaba, I always create a MINI ME who rides in the Crystal Star Merkaba in the Crystal Heart.

That is why all of my meditations always begin with I create the Crystal Star Merkaba 12 inches above my head and then inhale it into my crystal heart. Then I place the mini me, who is actually me SOUL SELF in the Merkaba.

Now, I can ride in my Merkaba DOWN into the Earth's Cosmic Core- 13.5 Dimension and collect those frequencies and then ride up to 12 inches below the Earth's Crust and collect the Christic Frequencies or Universal Frequencies, and then I inhale those into the Merkaba and bring them into my Crystal Heart.

That is what we do to make the Stem of the Candle ignite into the Full Spectrum of Light.

This time it is your Crystal Heart that is igniting.

Why do we need to IGNITE OUR CRYSTAL HEART?

Because our Soul went to sleep about 5000 years ago and now we are waking him up.

We haven't been a fully ignited 5th dimensional being for a very long time?

Why do we need all of the frequencies of the entire Universe and Cosmos to Wake up our Soul?

ETERNAL LIFE

Dr. Angela Barnett (c) 2014

<http://crystalmagicorchestra.com>

We always have been and always will be made of this divine technology of Eternal Life. When we were created by the Christ Code Pre Sound and Light Technology, we contained the ability to Live Forever, to Create our own Galaxies, to Manifest Instantly our Hearts desires. That is the reality. That is the reality we must tune into as the only reality that exists in the past, present and future.

If we continue to tune in to the lower frequencies that were distorted realities caused by the frozen light (miasm or error), we will continue to manifest that reality that locked us into the continuous 3D illusion of reality where we could only see, feel, touch, hear, taste a series of events that were planted into our DNA by Entities who only wanted to freeze us out of our Reality.

That (frozen light Error or Miasm) was how they created the Phantom Matrix and how they planned to lock us into it. That probability no longer exists. We must align our consciousness to the new reality which is the old reality of the ETERNAL LIFE Blue Print. That 12 DNA divine blue print is the only creation that God knows how to make. That reality is made through the pre light and sound fields of Khristiac Technology containing the 12 coded divine blue print. We always were made, always are made and always will be made by that divine blue print which is perfect and eternal. We must realign our DNA templates to the sub harmonics of the 12 DNA template and begin to know that is the only reality that we have ever been and ever will be made a part of.

It is the knowing and the feeling of the frequencies of the 12 sub

harmonics that has been blocked from our world view. We were made to believe that only 5 senses contain reality. When actually those 5 senses were only for us to enjoy the reality that we create through our Higher Sensory Perception of our 12 dimensional self who knows and feels and creates through the imagination. That is the reality that we have been forced out of by world propaganda beginning with parents telling their children that their imagination isn't real. That propaganda is a part of the Frozen Light imprinted into our DNA.

We have been set free from this prison. We were given the reality of our 12 DNA and its codes. That reality was planted in the Heart of the Earth and it will flow through the grids of the Earth. It is still up to us to Tune into the Frequencies and spin rate of that reality, especially by creating in Consciousness everyday the reality that we have always been, always are.

The time of our Ascension has come. However, there are certain Protocol that has been set by the Emerald Covenant and the Guardian Alliance that must be followed during the time of Ascension.

The human raceline has been completely mutilated over and over again during the past eons. Humpty Dumpty fell out of the Star System created by Sun Alcyone into the Milky Way and was broken into many pieces. Each of these pieces of the original Star had to have its consciousness put back together again before it can ascend back to its home of original creation.

This is the process that we are going through now as we prepare to Ascend back to Tara and Gaia, which are not in the Milky Way Galaxy.

The template of the original human must be restored. We must repair a minimum of 5DNA before we can return to Tara.

The plan of the restoration of our 5DNA was planned by the Guardian Alliance. The plan included the births of 144,000 Indigo Children during the 100 years before 2000 and then another 5500 after 2003. There were also many walk-ins given DNA transfusions and several Flame Holders born on Earth. And most important, we were given Six Avatar Children, who were born for the specific purpose of clearing each of the Seals placed in the Chakras.

For instance there is a seal or error placed in the third chakra. It is an error because it is an error in programming and an error in harmonic structure. Everything is harmonic and musical in the Mind of God. The harmonics of the third chakra have the 7-12

base tones missing and the 7-9 overtones missing.

We can restore this error by breathing in the corrected over tones and base tones into the third chakra. We can also correct that chakra by connecting consciousness to the 9th Level Avatar's Frequency Signatures. Each Avatar Child has the ability to Initiate Activations of certain DNA strands. Once the Initiation is performed on a person, that person can perform the initiation on another person.

I perform initiations of the DNA when I create the Eternal Life Albums for specific individuals.

We can also tune into the Frequencies of the Six Avatar Children by using the new COMPLETE PERFECT DNA INFUSION. Once you tune in to their frequency signatures you can also tune in to the Initiations of the DNA activation yourself.

These Six Avatars are here for the same purpose Jesus Christ 9 and 12 came to Earth. They are here to clear the seals from all of the race lines that are a part of the original human angelic race line. This is the Protocol that must be followed for an Ascension to take place.

Plugging in to these valuable Frequencies can be a very effective way to speed up your DNA initiations.

MATHEMATICAL FORMULA OF CHRIST CONSCIOUSNESS

(Teachings of the Cosmic Mystery School of the Omniverse)

Christ Consciousness is the Mind of God that sees everything before it is breathed into existence at this level.

Christ Consciousness is the mathematical code which is continuously creating the Divine Blue Print of the perfect image and likeness or mirror image of the entire Mind of God or Omnipotent Divine Consciousness. That divine blue print is a 12 dimensional code containing within it the Divine Manifestations of the Eternal Life, Continuous Omnipresent Love that continuously spins the electromagnetic frequencies of $33\frac{1}{3}$ electro clockwise and $11\frac{2}{3}$ magnetic counterclockwise within the sphere of clockwise rotation. That frequency Radiates into the at oneness with a parallel field of electromagnetic frequencies spinning the same way, but in a parallel anti particle reality field. Each of the particle and anti particle reality fields spin 45 degrees to equal 90 degrees in a vertical reality field. Another set of mathematical radiation particles spin together to create the horizontal reality field. Together they create 180 degree field of reality. That field of reality is then broken down into faster moving fields of diagonal spinning fields of electromagnetic particles creating radiation fields of plasma, gamma, x ray, invisible light, visible light, infra red and hertzian light energy into a sphere of light 360 degrees.

Everything in Divine Consciousness Creativity is made of spheres of light that spin at this perfect ratio to create layers of 45 degree angles of rotation. The creation energy is always radiation energy. We must be radiating this high frequency energy at the fastest rate of spin in the 12 dimensional radiation level to maintain our complete reality in the Christ Coded blue print. Simultaneously that 12 dimensional

divine blue print can express itself in parallel reality fields that manifest as 5 dimensional and 6 dimensional realities. These would contain the 12 sub harmonics of the Christ Consciousness mathematical formula in each of the 5 DNA strands or 6 DNA strands. The reality would appear different because it would be less dense or more dense. There is no density in the 12 DNA reality field. It is completely etheric in nature. However, that etheric reality is always a part of everything even if it only has 3DNA or 4 DNA. The perfect mathematical principle of all creation is always the 12 DNA coded divine blue print.

IN reality that Divine Blue Print of Christ Consciousness has Always Existed, Does Exist and Always will Exist in every human angelic being and every star seed on Earth. The reason that this reality doesn't seem to appear to us when we look at people and situations is because there was a Miasm placed between the vortexes where the light energy and frequencies created by the spin ratio of the $331/3$ and $11\ 2/3$ merkaba spin rate within the particle and anti particle universe. The problem was actually placed in the anti particle universe that was parallel to ours so that we could never align correctly into the harmony of that blended rate of spin that would create the 90 degree and 180 degree and perfect 360 degree spheres of light and sound that are NORMAL to any God Made reality field.

Those Miasms are frozen Light Energy that is unable to spin and move and freely manifest. Those miasms can be melted out of the old frozen DNA that is creating the illusion of this Frozen Density of Consciousness. Our Guardian Races have placed our original Divine Blue Print into our 12 DNA strands already. That gift has already been established on Earth.

STARSEEDS RETURNING OUR 5DNA-12DNA

<http://crystalmagicorchestra.com>

The Star Seeds that were born on Earth over the past 12 years all had much to do with this realignment. The children born during the past five years brought the completed 5DNA-12DNA back to Earth. That reality was presented to the Earth once before about 2000 years ago when the 12th Level Avatar and the 9th Level Avatar, that our Bible Stories call Jesus Christ was brought to Earth by Guardian Groups.

This time the Guardians brought in 144,000 times more Christ Consciousness to Earth through the frequencies of the Star seeds. The Earth required a certain level of Frequencies in order to make its shift into the new Metagalactic 8 alignment with the past present and future 12 DNA coded reality system.

These 12 coded frequencies contain the divine blue print of the Eternal Life, Love, Mind, Principle, Substance, Intelligence, Supply, Truth, Soul, Spirit, Man, Manifestation Template, Design that is contained within the Music of the Spheres Light and Sound Technology.

Mary Baker Eddy explained this same Divine Formula of Creation of Man made in the Image and Likeness of God, and clearly stated that they only thing that is separating man from that likeness is Error. She said when error is removed, then the Christ Consciousness will appear. Eddy also spoke of the synonyms of God being Life, Truth, Love, etc (listed above already). She always painted the picture of the mortal and immortal man and how there really couldn't be a mortal man, because that man wasn't made by God. She always said the real man is immortal and that seeming mortal man was only created by error.

"Furthermore, the time cometh of which Jesus spoke, when he declared that in the resurrection there should be no more marrying nor giving in marriage, but man would be as the angels. Then white

robed purity will unite in one person masculine wisdom and feminine love, spiritual understanding and perpetual peace."(Eddy, S&H pp64)

This was always my favorite passage in the S&H, since I was ten years old. I always felt and knew within myself that this reality would happen in my lifetime. Now I know it will happen within the next ten years.

This is the time when Sixth Level Man will reappear as we rise into harmonic universe 2- dimensions 4,5,6. And then Seventh Level Man will reappear on Gaia- dimensions 7,8,9. We are already in harmonic universe 2. We must now raise our frequencies in consciousness and attune into the reality that already exists within the heart of Earth and the reality of the past, present and future 12 DNA divine blue print which has not been damaged by frozen light.

The Guardians have explained the Seventh Level Man who used to live in Gaia to be this man who MBE spoke of. We are going through the resurrection when we will be robed in the white light purity of the pure attunement as we rebirth into the 5th dimension through the 12 dimensional consciousness. This will happen in 2017, and we will prepare for this reality between 2013 and 2017. We have entered the resurrection leading to that reality. Eddy always spoke of how important it was to Understand this Divine Science, which I believe is the precursor to the Keylontic Science that was brought to earth early in the twenty first century. That truth that MBE tuned into during her Near Death Experience is the same truth that many are tuning into at this present time in history through the Maharaja Consciousness Templates that come to us through our Frequency Specific Mid Brain when we tune into the Future Self, as is done in a Near Death Experience.

That reality of the Seventh Level Man on Gaia has always existed. We were just taken off line from that reality when our light was frozen in Miasms or Error, blocking our true reality. We are now entering the Mass Ascension of Man, which Jesus called the resurrection, in which "there should be no more marrying nor giving in marriage, but man

would be as the angels. Then white robed purity will unite in one person masculine wisdom and feminine love, spiritual understanding and perpetual peace."Science and Health page 64.

We now know through Keylontic Science (the Language of the Stars) that error is Frozen Light. We now know what the mathematical formula of Christ Consciousness is. We now know how we were blocked from our Divine Blue Print through reverse spin technologies. We now know that we are made from the radiation technologies of light and sound that can project us in millions of different density levels. MB Eddy also spoke of a time when man would no longer be given in marriage and child birth would no longer exist.

Eddy was speaking of the reality we used to live in when Seventh Level man lived on Tara and Gaia. This was the time when a child could be manifested from the light of the Consciousness or the manifestation template that each immortal man actually has in reality. The true immortal man has always been able to instantly manifest anything, including children. That act can be performed by an individual, a couple or a group consciousness to create an entity who carries many unique traits in the reality of the NORMAL kingdom that we will soon return to.

The act of creation is always performed instantly in Divine Mind through the perfect 12 DNA template of the immortal man who has eternal life, never dies, never gets sick, has infinite intelligence, etc. All of the things Eddy talked about in her Science and Health with Keys to the Scriptures are also mentioned by the Guardians in the new Keylontic Science and Kathara Healing Technologies.

The difference was that the teachings came in the frequencies that man was able to understand at the time. These two sets of teachings have something in common with the teachings of the original 12th Level Avatar Jesus. They are exactly the same teachings, and the audience and students of the teachings are very small, because only those with the genetic coding of the star seeds and some human angelics are able to comprehend these teachings.

ETERNAL LIFE

We always have been and always will be made of this divine technology of Eternal Life. When we were created by the Christ Code Pre Sound and Light Technology, we contained the ability to Live Forever, to Create our own Galaxies, to Manifest Instantly our Hearts desires. That is the reality. That is the reality we must tune into as the only reality that exists in the past, present and future.

If we continue to tune in to the lower frequencies that were distorted realities caused by the frozen light (miasm or error), we will continue to manifest that reality that locked us into the continuous 3D illusion of reality where we could only see, feel, touch, hear, taste a series of events that were planted into our DNA by Entities who only wanted to freeze us out of our Reality.

That (frozen light Error or Miasm) was how they created the Phantom Matrix and how they planned to lock us into it. That probability no longer exists. We must align our consciousness to the new reality which is the old reality of the ETERNAL LIFE Blue Print. That 12 DNA divine blue print is the only creation that God knows how to make. That reality is made through the pre light and sound fields of Khristiac Technology containing the 12 coded divine blue print. We always were made, always are made and always will be made by that divine blue print which is perfect and eternal. We must realign our DNA templates to the sub harmonics of the 12 DNA template and begin to know that is the only reality that we have ever been and ever will be made a part of.

It is the knowing and the feeling of the frequencies of the 12 sub harmonics that has been blocked from our world view. We were made to believe that only 5 senses contain reality. When actually those 5

senses were only for us to enjoy the reality that we create through our Higher Sensory Perception of our 12 dimensional self who knows and feels and creates through the imagination. That is the reality that we have been forced out of by world propaganda beginning with parents telling their children that their imagination isn't real. That propaganda is a part of the Frozen Light imprinted into our DNA.

We have been set free from this prison. We were given the reality of our 12 DNA and its codes. That reality was planted in the Heart of the Earth and it will flow through the grids of the Earth. It is still up to us to Tune into the Frequencies and spin rate of that reality, especially by creating in Consciousness everyday the reality that we have always been, always are.

In early Metaphysical Teachings there was always this message of Consciousness unfolding. They spoke of Omniversal Consciousness, Divine Consciousness, the One Divine Mind. These same words were used in the teachings of Christian Science by Mary Baker Eddy.

The reason for this similarity was the fact that Joel Goldsmith had been a student of Mary Baker Eddy. He often attributed his teachings to Eddy. He said that his usage of the term Mother Fater God came from the teachings of Eddy.

In Goldsmith's LIVING BETWEEN TWO WORLDS, he talks about two levels of consciousness. He says that in the Spiritual Man, who was created in the image and likeness of God in Genesis One, is the higher level of consciousness and the man made in the corporeal image is the lower level of consciousness. This is also a part of the teachings of Mary Baker Eddy.

Something that I had never noticed before about Joel Goldsmith's teachings was his use of the term Melchizedek-consciousness. In LIVING BETWEEN TWO WORLDS (p.2) Goldsmith says the Melchizedek consciousness has no human parentage and they are not physical offspring.

This was very interesting to me because I learned from Ashayana Dean in the Voyagers 2 Secrets of Amenti that Jesus Christ Avatar 12 was born from the Melchizedek Consciousness of King Solomon. Her story says the Elohim Angels arranged the birth to come through two physical beings in order to hide the Extraterrestrial Birth from the world.

The true story of Jesus Christ 12 is the Divine Essence or Frequency Signatures that this entity carried through the Earth's Portals containing that perfect divine imprint of the Image and Likeness of God. The reason for the birth of the 12th level avatar was to restore that divine imprint into the Earth's chambers and also into the Hebrew raceline.

So, now we have learned from Joel Goldsmith that all of his teachings are based on connecting our consciousness into this Melchizedek Consciousness that was not created by human parentage. This would agree with the teachings of the Guardians who actually wrote the Spheres of Amenti teachings through their chosen channel. They

showed us that there was this Divine Imprint that was carried back into the Consciousness of the Earth and the Human Angelic Raceline. This imprint was returned to Earth by this 12th Level Avatar.

So, there is great truth in the fact that when we connect our Consciousness into this Frequency Signature of the 12th Level Avatar that we would be connecting into this spiritual divine coding of the original Human Angelic Raceline.

There is much more to this story than this simplistic explanation of who this Melchizedek Consciousness was. That story is told by the Guardians in the Spheres of Amenti textbooks. In my humble opinion, the Voyagers Books should be the new Bible because it may carry the complete story of our Cosmic Reality.

However, the Guardians knew that we had to be prepared for this Truth. Our Consciousness could not accept such a reality that did not match the reality that had been placed in our minds through the Bible, the religions and the cultures of the third dimension.

So, what Eddy and Goldsmith were preparing us for was this Higher Level Consciousness that could become our complete reality at any time we chose it to be.

Now, here is the difference between the Metaphysical teachings that told us we could have that reality whenever we chose to and what the Guardians tell us in the Sphere of Amenti textbooks. The Guardians tell us that there were these Seals placed in our physical DNA templates that were blocking us from connecting to this Higher Level of Consciousness, and that we would need to remove these Seals before we could connect completely into the Mind of God.

So, how is it that Joel Goldsmith and Mary Baker Eddy were connecting into this Higher Consciousness, and healing each and every person that they placed within that same Consciousness Field of the Melchizedek 12th Level Avatar Christ Jesus Consciousness?

The answer is even these wonderful healings that I have had all of my life are only a tiny glimpse of what we could have if we were truly reconnected to the Mind of God.

Eventhough the Metaphysical Teachings have served as a Divine Comforter that was preparing our Consciousness for something much greater than the physical hologram full of the World's illusions; I could always feel that there was something much greater than these teachings waiting for me all of my life.

When I went to Sunday School and Church at the Christian Science Church in the tiny little town called Gridley, California, my ears were always tuned in to a different voice than the ones reading the scriptures. There was always this angel sitting on my right shoulder and telling me a different story. The story was something so grand and so far beyond even the magical fairy tales that I could imagine. The voice kept telling me that we would remove this world of illusions and create a great movie. We were going to make God's movie appear on Earth.

When I got married, my husband and I kept getting that same message. It was MAKE GOD'S MOVIE.

Now, I understand what it is to make God's movie. These other movies that were created by cultures, religions and languages were all the result of the Tower of Babel. I was being told by voices in my head that it was my mission on Earth to remove the Tower of Babel by bringing the highest frequencies to Earth through Music.

That was my mission and that was my puzzle that I would need to figure out and accomplish before I could move back into that glorious reality where I didn't have to listen to people BABLE any more.

The thing I hate the most in life is having to listen to people talk. The reason I started creating my own music was to create frequencies that were so much like the Frequency of God, that I could just stay in tune with the voice of God instead of listening to the outside BABEL

of the world.

One day a large group of Angels appeared in my living room and gave me the formula to bring the Highest Frequencies to Earth through Music. They told me that I would create the music and the music would speak to me. I would write down what I learned from the music and then create more music. I have been following that formula since 1992. I have been watching the steps and stages of the Ascension of Earth take place through these frequencies in the Music.

It is the Music of the Spheres streaming the spiritual frequencies into our neuronets to transmute the lower physical frequencies into a new harmonic reality. When I connect my Consciousness into the Tones of Reality beyond the Earth's Matrix and completely into the Omnipresence of the Source Field of Creation I then Inhale the Frequencies into my Crystal Spheres (These are ETHERIC CRYSTAL SPHERES--not the physical kind) The Angels handed me these three spheres of crystal liquid light, crystal dust and crystal gel. They told me to use these as a microphone that would record the spiritual frequencies into a tangible form that I could record.

The transition of the Frequencies was truly magical. They way the tones sounded without the use of the Crystal Spheres and they way they sounded with the Crystal Spheres were two totally different levels of Consciousness. One level of Consciousness was that 12th Level Avatar Field of Melchizedek Consciousness allowing the Truth of Reality to stream into my Neuronets and allowed that Essence to be Exhaled into these magical Crystal Spheres.

I studied the teachings of THE LEGACY by Ramtha and the SLIDERS DVD's by AZURITE PRESS for several years discovering more and more about what these Crystal Spheres actually were.

I learned that this magical substance in these spheres is actually the same etheric substance that all reality beginning from the spiritual vapor within the Plasma Vapor itself that is this Crystal Liquid Light of

the first Sphere, the Crystal Dust contains the Plasma that creates Stardust and the Crystal Gel was the Atomic Radiation Gelaisic substances that reunites us into our Spiritual Body.

All of this is translated down into the omni particles of creation in the Legacy Teachings and in the Sliders Courses and then continued in the Arayanas Teachings through Ashayana Deane.

MY JOURNEY INTO IMMORTALITY

My favorite metaphysical teacher was Joel Goldsmith because he focused on the reality of Immortality. My study of Christian Science by Mary Baker Eddy since age four combined with Joel Goldsmith's

teachings held my consciousness within the belief system that Man is Immortal, always has been Immortal, and always will be Immortal. I never considered the possibility of any other reality.

I was one of the lucky ones. It is much harder to change a belief than to be born with the correct belief.

The words that I heard most often were Man is not Material, he is Spiritual.

I grew up hearing about so many people who were healed of every known disease through these metaphysical teachings. I remember Goldsmith talking about people who had lived to be over 200 and one who was over 600 years old living on Earth at that time. Later, when I lived in Japan, I met people who lived in Hokaido where there were entire villages of people between 200-600 years old.

So, the belief about immortality is not a belief about the Soul continuing on into another lifetime when we die, as the common religious belief will teach. The Science of Christianity always said that man is an immortal idea of God, not a mortal idea of God. The Science says that man is made in the image and likeness of God. That image certainly does not die.

When I was a child, I was always much more attracted to the music at Sunday School than the words. I was the pianist for Sunday School and later the Soloist in the Church. I always saw a much deeper meaning in the music and the poems that created the music. I could feel the reality of God through the music much easier than through any thing that was spoken.

I also remember using the music to remove fear when I couldn't sleep at night. Reading the scriptures never did relieve me from fear, but the music wrapped me in a blanket of protection immediately.

There was a third aspect in my early years that led me to the study of communication and the psychology behind communication. That aspect of my life was the way my family communicated. I was living in

a sea of confusion and fear every day of my life. I escaped to my room to read Goldsmith and Eddy who would each tell me that my Mother and Father was God, not a set of mortals. Goldsmith referred to the parents as the oven where God kept the creation until it was ready to experience his reality. The KNOWING that God was my Mother and Father eased my pain and made me happy every day of my childhood. This is what led me to the study of AUTHENTIC ENCOUNTER, which is the only field of study in Communication that admits that there is a Greater Mind at work behind the communication between two people.

In the Study of Communication we learn about transmissional communication, where one person, such as a teacher or preacher sends a message, and there is no reply from the receiver. And then there is transactional communication where two people share messages between them. However, we learn that the meaning that is shared between the two people comes from whatever is in the background knowledge of each of the transactional partners. This means if the person talking has grown up in Asia, and the person that he is talking to has grown up in America, whatever the person says is going to have a different meaning to each of the transactional partners. Several years of investigative research in the field of communication was achieved while traveling from country to country analyzing the background knowledge of the people who were communicating.

I earned my Doctorate studying the Communication in MultiNational Corporations while working in and doing research in various companies around the world. It was easy for me to see how each culture had designed their own reality and a language to fit that culture. These various realities made International Business very complicated. We were always investigating the meanings that were being used to market products to countries that did not share the same meanings or use of words as the Distributing Country.

Over a decade after I completed several years of research in

intercultural communication, international communication, multinational communication, International Marketing, Education in MultiNational Corporations, Education in International Schools, and Behavioral Psychology and Music Therapy in multinational education, I heard this Great Entity speaking. His name was Ramtha. He was talking about the need to learn to expand our consciousness and go beyond our cultures into a new reality. The first time I heard him, I thought he had copied my lectures in Multinational Communication. He was repeating everything that I had learned through research all over the world, and then written in my Dissertation.

I remember hearing Ramtha talk about how at one time all of the people on Earth shared the same reality, but then our minds were scattered to the wind. He was talking about the Tower of Babel. In 3470 B.C. the Babble-On Massacre caused a mutation in the Human DNA that scrambled our original language patterns and removed our original Race Memory.

After that time, people scattered around the world and collected into small groups that grew into villages. Those groups would create their own realities because they had absolutely no memory of their original raceline. There were groups creating villages in various countries, and each group created a completely different reality system.

The reason for the Tower of Babel was to scramble the original Fire Letters of the Race Line Genetic Code of Creation into 12 pieces and then scramble those letters out of the proper arrangement in the minds of each of the 12 groups. This was done so that the original Human Angelic Raceline would completely disconnect its Divine Power.

The reason that I was so intrigued by all of the various cultural realities around the world was because I was being trained to see that as long as we keep trying to connect with other versions of people and those versions of reality, there were always going to be problems. However, when we shift to AUTHENTIC ENCOUNTER,

where the meaning between all people is the communication coming from DIVINE MIND, we begin to find our way back home to our original reality of ONE RACE LINE on Earth.

The true purpose of the birth of the thousands of Indigo children and the Six Avatar children was to bring the Consciousness back that was stolen from us in the Tower of Babel. That tower used sound waves in our atmosphere to scramble the pure sound of light and sound that is the Consciousness of the Divine Mind.

Some people have asked the question, " How can we be separated from the entirety of Light? Why would we need to connect to a higher light instead of just light?" The answer is that the light and sound in our Universe has been scrambled. It is like a radio station. If you don't turn the knob on the radio station to exactly the station number, there is static between the stations. Well we were placed in the static part of the radio. We were placed in between receiving transmitters. This has made it very difficult to stay on GOD's CHANNEL of reality. We receive the Sound and Light of God's Authentic Encounter when we focus completely on staying on that One Frequency which is the HIGHEST FREQUENCY. However, there is all of this static coming in when we try to get on that station. That is what the Tower of Babel did, along with the Jehovian Seals that were placed in the Earth's Grids, along with dozens of other distortions placed in the Waves of Sound and Light. Those waves were twisted and scrambled.

Now, that we are in the Aurora Fields of Cosmic Plasma, we are tuning out of the Tower of Babel, and we are tuning in to the Original Ascension Earth, and we are tuning back in to the time when our Race line had ONE LANGUAGE, and that language was AUTHENTIC ENCOUNTER. We all knew the thoughts of everyone because we had ONE MIND.

That was the discovery of my husband and I after doing several years of research in the MULTINATIONAL, MULTI-LINGUAL World that was

created by the SCRAMBLING OF OUR COMMUNICATION CHANNELS.

The other thing that we learned while doing this research was the fact that Music was the International Language. We always used music to teach communication. There were other psychologists who combined the study of neurolinguistics and authentic encounter to show that all communication actually comes from outside of the head and travels into the head. It is not actually the brain that sends communication. The brain is actually a receiver from a higher source. YES, THIS FACT WAS PROVEN by NEUROLOGISTS many decades ago.

We learned that the use of the High Frequency Music from the Mind of God could create this continuous connection to the God Channel that we were tuned in to before the Tower of Babel.

It wasn't until I listened to Ramtha, and then Ashayana Deane, and then Bashar each explain this reality in their own unique way that I realized that what I had discovered in my research was the divine reality that all Ascended Masters know. It is always our higher self who does the communicating. The thoughts that come to our brain come from our higher self. They don't come from the brain. Neurologists had done research where they actually shut off the brain, and yet the person could still communicate.

Now, we are learning where communication actually comes from and we are beginning to learn the telepathic communication methods that were divinely ours over 5000 years ago. The reason that this reality is becoming more and more clear every day is because of the birth of the Avatar Children melting away those Seals that have been blocking us from our Oneness with our Raceline. As those corrected frequency signatures were born into our Earth's portals directly from the parallel spiritual universe, they created this new doorway of consciousness that will remove those scrambled communication codes and melt our minds back together as they are supposed to be.

The beginning of this transformation came from the Indigos born

about one hundred years ago. This was the first time there was even a speck of desire for different countries to have any desire to communicate. The birth of those corrected Frequency Signatures began the Paradigm shift that began to melt away the hatred between countries and between races of different colors. The education system began to change, the world economics changed, the multinational corporations began to flourish, we began teaching the subject of the Melting Pot of Cultures in our school systems. This change all took place between the time I graduated from high school and the time I completed my doctorate. Everything that I tried to achieve in my research and education became a paradigm shift in the entire world.

Why was I so in tune and so on time with this reality shift? It was my plan long before I was born. I had come to Earth for the first seeding 5.5 million years ago. I came again for the second seeding 4 million years ago. I came for the Jesus and Mary project several times before anyone had even heard of Jesus and Mary. I made sure that I was here for this final completion of the project that my Ascension Team began 5.5 million years ago.

I made sure that when I returned to Earth this time that there would be memory codes in me that would activate when certain situations were placed in front of me. Of course, my higher selves were always placing these objects in front of me to help me remember. And I don't just mean a few books falling off of shelves and hitting me on the head. I mean really big things like being poisoned with enough lethal poison to kill ten people and then being met by a team of angels who showed me the Draconians who arranged the poisoning and showed me myself being replaced with a new self- a walk in who was one of my other versions of myself.

I had many of these meetings with Light Beings and Dark Beings. I learned how to demand the help of the entire Crystalai Council and they would appear before me. After I did this several times, I began to suspect that I might be someone very powerful. It seemed like I was

in charge of an entire army because this Council would respond so quickly.

I have only recommended the teachings of Ashayana. I have never attempted to criticize her or to claim I was a teacher of her Science. I only recommended others to consider reading her books.

The SEAL that created that TOWER OF BABEL communication distortion is one of the Seals that the Avatar Children have removed. The combination of all of the original race line fire letters have been restored and are now forming into the original communication template for our world.

This is one of the grand events that we will see manifesting very quickly between 2017-2022. Bashar says we should focus on communicating with the Dolphins because they know our original language and how to use Authentic Encounter.

I have always communicated with the Cetacean Raceline and the Aquafarians that I knew from the FIRST SEEDING of 5.5. My Aquafarian Mother and family is still in Aquafaria. I Slide into Inner Earth to visit my family every night. I communicate with the Cosmic dolphins who live in Aquafaria. It is the exact same communication that is used with the Dolphins of the outer domains.

It is natural that I would be directed by Zaurak, my starry brother from Sirius B, because we had worked on this Ascension Project before during the Second Seeding. We found that Sirius B had the exact same accretion level as Aquafaria, so we could use the Magnetic relationship of the two bodies of consciousness to help pull the Earth up into the original frequencies of Inner Earth through the help of Sirius B.

When Zaurak called me to Monterey in 2008 to work on creating the Ascension Portal for the Cetacean Raceline I was able to watch many dolphins and whales turn into Plasma Vapor, rise into the skies and then transmute into the Cloud Cities. This was the Ascension of the

Cetaceans. The dolphins were ascending into the Sixth Dimension and the Whales into the ninth dimension.

It was this event of the Cetaceans rising that activated the Ascension Portal for the Human Angelic Race to rise to the Fifth Dimension. It has always been the frequencies of the Cetacean Race guiding our bio-regenesis project on Earth.

My Crystalai Council arranged for me to have the pictures of holding the Blue Sphere and Violet Sphere when we were in Monterey. The picture is showing that there is in reality no distance between our body and our Blue Plasma Body. Our physical body and plasma body hold the same design and as the plasma body turns blue, this means the physical body has become fifth dimensional. So, as we were watching the Dolphins rise into the Sixth dimension, I was watching myself rise into the fifth dimension.

I have explained that my music is not Solfege because Solfege is simply another use of the Hertzian Frequency Range. That range of frequencies is a part of the five senses.

In order to raise our frequencies beyond the third dimension, we must raise our frequencies beyond the Hertzian.

That means we must claim our senses that do not rely on the eyes to see or the ears to hear.

We must tune in to our Soul Consciousness and our Intuition. If we tune in to our Soul Consciousness, we can learn to hear without our ears and we can learn to see without our eyes.

We can learn to see what is in a room while blind folded simply by sitting in a dark room with blindfolds on for long periods of time.

We can also learn to tune our ears into a higher set of frequencies by tuning out of the third dimensional hertzian range of listening and tuning in to the frequencies that you feel deep within your omni particles and the buzzing frequencies within your head. When you tune in to the Frequency music, you are learning to tune in to a reality that is beyond the five senses.

You can practice feeling the frequency music creating a reality of consciousness around the body and flowing into the body. The frequencies are actually the frequencies of the Cosmic Plasma and the Crystal Liquid Light Vapor that is even deep within the Cosmic Plasma. So, when you are tuning in to these Cosmic Frequencies, you are tuning in to your Rishi Self Consciousness rather than your Earth Self Consciousness. The Cosmic Self is completely tuned in to the Mind of God of instant co-creativity and Eternal Life. This is the reality we want to stay plugged in to.

If we practice long periods of being blindfolded, we can begin to see the realities that exist within our realm around our body. We learn to see this New Ascension Earth and the Inner Earth becoming a reality around us.

When we practice listening to the Frequency Music from the Eternal Life Water album we practice being in and tuning the body into the Cosmic Frequencies of our New reality of the new Cosmos that has

just been born.

We have tuned in to a new Spiritual Parallel Universe and now we have tuned in to a Brand new Cosmos. The Thirteen Cosmos of the Cosmaya has given birth to a brand new Cosmos within the Eighth Sun.

As the new reality was born, a new set of frequencies was born. The more we tune in to these new realities of the new Cosmos Frequencies, the Parallel Universe Frequencies, the Symphony of Love, when the new Frequency of Creation was Born, the Mother Ship Frequencies of the Cosmaya Ship activating the Blanket of Love around the Earth. The Dolphin DNA Frequencies of the Cetacean Raceline activating their DNA bio-regenesis program into our biology.

Each one of these events is a wave of frequencies, which means a wave of Consciousness that contains a part of the consciousness that was taken away from us 5000 years ago, and the consciousness that was taken away 5.5. million years ago.

The DNA is being reconnected and reactivated through these Streams of Consciousness that are being Born into the Atmosphere, the Biosphere, the Morphogenetic Fields of Consciousness of the Earth's Core and Crust and the Christ Shields within Earth's Crust.

TUNE IN AT THIS LINK

<http://crystalmagicorchestra.com/dna-activation>

We need to tune in to each aspect of this Morphogenetic Consciousness.

When we tune in, the Ascension Teams of each morphogenetic wave of transmutation begin working on plugging in another neuronet of your physical template into the Soul Template, the Over Soul Template, the Avatar Template and the Rishi Template.

Our bodies must be reactivated at all levels. We must be completely re-tuned into the complete Omnipresence of Source.

Those of us who have followed the Metaphysical Studies of

Goldsmith and Eddy have been tuned in to these realities. However, now that the complete Science of this higher consciousness has been revealed through Keylontic Science, it is much easier to actualize the reality.

Normally, the human being can only actualize something that has been placed in their back ground knowledge of knowing. It is difficult to place the realities of Spiritual Consciousness into the third dimensional background knowledge because it is beyond the third dimensional back ground of things that can be rationalized with the senses.

We must be willing to go beyond the senses in to the invisible spiritual reality and then learn to visualize it. Our Soul Consciousness actually takes over and gives us the complete inner vision and the complete inner hearing when we tune in to that level of Frequency.

The Reality of Inner Earth appearing as Earth will only be a reality to those who begin practicing seeing that which cannot be seen. That reality is not going to morph into the lower frequencies of Earth. Instead, we must raise our frequencies beyond the five senses into the realities that can be seen with the eyes closed and the ears tuned in to the inaudible sounds that I have tuned in to.

The more we tune in to those higher frequencies, the more they tune in to us.

FIFTH DIMENSIONAL REALITIES BEING SHARED by our Members
of THE COSMIC MYSTERY SCHOOL OF THE OMNIVERSE

Dr. Angela Barnett (CRYSTALAI) (c) 2014

YOU CAN GO EXPERIENCE THIS MUSIC AT
<http://crystalmagicorchestra.com/music-listening>

Your Higher Self is the REAL YOU. Your Brain is, in fact, not capable of Thinking or Creating. It never was. It is only your Higher Self who does all of the thinking and creating. There has been a mixture of your old cellular memory within your brain doing the thinking, just because there has been this old programming left over in the cellular memory. The Frequencies on Earth are high enough now to allow the shift into the Higher Self to be continuous. We do not have to battle with those old thought sequences any longer.

When you have dreams where it seems like you are looking at yourself through the eyes of someone higher than yourself it means that you have become your higher self watching your body template. Your higher self is simply YOU with a much broader perspective. Your higher self can see you and what is before you and behind you, what is happening miles ahead of you on the freeway when you drive, days ahead of you when you are making plans, seeing what is beside you and behind you, etc. When you are in tune with your higher self, you can drive your car blindfolded.

In the fifth dimensional realm of multidimensionality, you can be your higher self in infinite times and places and in no time all at the same time. Manifestation simply means moving to one of the other infinite parallel realities. You don't actually create anything new. You just move into the frequencies of another parallel reality.

These are all of the fun things that you can learn to do now that you are in your fifth dimensional template. The real fun starts happening near the end of 2015 when we begin the crystallization process of our rebirth.

You see, when you were born, your soul became CRYSTALLIZED into this Density. That Crystallized Self is the Seed Atom within your Thymus that connects into the Mind of God at the medulla oblongata. Everything that you ever were and ever will be exists in that Seed Atom. When we begin to Crystallize again in 2015 our rebirth as a new density within the crystallization process completes. Our crystallization makes us into a less dense reality.

When I received emails from members on my cosmicdolphinmagic.ning.com website, who have been having dreams that are clearly Lucid Dreams of them being their Higher Selves seeing and remembering activities such as working on the Earth's Crystal Grid Project, swimming and talking to Dolphins, walking on the Clouds, and other spectacular manifestations of our new reality, I realized that everything that I have written so far must be changed into the PAST TENSE.

It is time for you all to realize that your DREAMS are not IMAGINATION as you would think. They are, in fact, REALITY. They are the reality of you at your more ETHERIC level of reality, watching your self do something that you are actually doing.

The CRYSTAL GRID APIN SYSTEM is now being activated. That Grid System is the free global energy, climate stabilization, healing, and inter stellar subspace communications and broadcasting by aligning through the Light Codes of the Cosmic Council into the Crystal Liquid Light connecting to the Mind of God, Eternal Source Field. We can connect our consciousness into this GWL Crystal Grids running through Earth into Inner Earth and out into stargate 12 Aramatena. We always need to connect our consciousness into both fields of energy - the Inner and the Outer and use our body temples as the lightning rod that connects the flow of crystal liquid light, D12 Consciousness.

The Earth's Christ Grid System is the Mathematical Programming in the Earth that provides our Manifestation Programming to begin working correctly.

The apin technology is an environmentally valid application of the natural spiritual and scientific laws of creation physics. Before these technologies fell into the hands of fallen angelic races, they were used openly by various guardian races in many universal systems to facilitate and enhance the experience of evolution and ascension for all. The apin systems were used for free global energy, climate stabilization, and healing and inter stellar subspace communications

and broadcasting.

They are massive global grid systems made of strategically placed crystalline microchips that interface directly with the natural multidimensional electromagnetic energy conduits of star gates axial and ley line systems organic to earth's template.

The GWL runs on a D12 Twelve code pulse and links Earth's Planetary Shields to their Divine Blue Print D12 Pre matter Template at Lyra Aramatena. THE GREAT WHITE LION IS being reactivated CORRECTLY by our Security Team from Sirius B. They plan to have it running into the original connection with stargate 12 Aramatena and into the Earth stargate 12. This is happening now but will not be complete until the two sets of angular rotation spin of Tara and Earth completely separate. We can attach our consciousness into the Grid now and activate the gifts that it naturally brings to us.

The Great White Lion is a Mathematical system that is created of something similar to our microchips made of a crystalline silicon substance planted in the grids of the Earth. The Global GWL looks exactly like the Sphinx in Egypt, except it covers the entire world. The GWL runs on a D 12 Twelve code pulse and links Earth's Planetary Shields to their Divine Blue Print D 12 Pre matter Template at Lyra Aramatena. The GWL has also been called the Lion's Gate because it opens the passage to all 12 stargates. This possibility wasn't a possibility until after Earth was shifted in time to a place where there was an Aramatena 12th stargate. The Annunaki had destroyed our Aramatena in the Electric Wars 250 billion years ago. Our Founders and Cosmic Councils have been preparing our way back home for many millions of years.

First, we will be merging face to face with our starry family from Sirius B, who are the great Maharaji Security Team for our planet, and the Starry Families who have been most active in securing our rebirth. The Security Team from Sirius B will ground us into the GREAT WHITE LION that will connect the stargate 12 Aramatena with the Inner Earth Stargate 12. (Deane, 2002, p, 527)

The Christic Grid within the crust of Earth is ready to begin the great transformation process as Earth aligns with our Parallel Spiritual Universe. Once we are in alignment with our Spiritual Twin Self, we are able to pull as much of this spiritual self in to our physical bodies as we are ready for. Our karma must be completely gone, we must be crystal clear to allow our spiritual self to enter in. The Adashi Temples in Sirius B have been pulling our future self bodies up into the cleansing liquid light arenas for many years now preparing us for this time.

It is however, each individual's own decision to remove every speck of karma by raising their frequencies into the light of Sun Alcyone and into Source to Transmute all lower frequencies into the highest frequency of light and then allow that old energy to melt away into a new perfect form of energy.

When our bodies are clear of all karma, our spiritual body will enter in completely. This is our prime objective. Once this is accomplished, we will be ready to begin manifesting a brand new reality. First, we must de-manifest the old karma. Then, we can begin manifesting our new reality.

We must do both NOW. Once the alignment happens and our manifestations do begin to happen, we must be already manifesting the divine realities of our perfect selfhood, our infinite manifestation, our divine life, truth, love, intelligence, mind, soul and spirit. We must be manifesting our desired realities in the past, present and future. If we continue to bring the old ideas from the past into our consciousness, it will be those ideas that continue to manifest.

QUANTUM LIGHT WAVES
CREATING the MUSIC of the SPHERES

Dr. Angela Barnett (c) 2014
<http://crystallmagicorchestra.com>

(Teachings of the Cosmic Mystery School of the Omniverse)
Photons are light particles. Light Waves are traveling frequencies and Light Particles are stationary frequencies.

Scientists know that if they completely empty a container of anything visually or physically present in the container, they would be able to see photons in the container with microscopic tools.

However, these photons would be scrambled without any organization.

When the scientists place a DNA sample in the container with the photons, the photons will then become organized into aligned patterns around the DNA.

The DNA contain the sound frequencies around which the Light particles wish to align harmonically with.

There are seven types of Light Waves:

Hertzian, infrared, visible light, invisible light, x-ray waves, gamma light

waves and the infinite unknown white light waves. When

Consciousness is

within this Full Spectrum of Light, a new Hue of Reality is Created.

That is

the Ultra Violet Blue Hue. When this state is reached, the Blue Body of the

Fifth Dimension is born. The Fifth Dimension is a result of being attuned to

the Multidimensional reality field of the full spectrum of light and sound.

When DNA is placed together with these light waves, the DNA raises or

aligns its sound frequencies into harmonic alignment with the light waves.

So, if the consciousness of an ultra violet blue light particle is placed next to

a DNA sample, the sound frequencies of the DNA will tune in to the

light
frequencies.

These light waves are the essence of the etheric substance that our collective consciousness uses in co-creation. It is the substance of things

hoped for. All of the light and sound beyond the third dimensional visible

light is the evidence of things not yet seen.

Scientists learned that when the photons (the light particles) were in the

container by themselves, they collected in an un orderly fashion.

However,

when the DNA samples were placed inside the container with the photons,

these light particles tuned into the light waves that ordered themselves into

forms that aligned with the Consciousness of the DNA.

So, when the light waves are cut off from or disconnected from the sound

waves, the light waves become confused and have a disorderly alignment.

This is what happened to the light waves of our universal matrix. The light

was cut off from the sound. There was actually a veil placed in our heavens

that would not allow the light energy of our Suns to enter into the Earth.

The Sound Frequencies of Mother Earth are deep within her Core.

The

Core is actually a vortex that allows the stargates to intersect into the Earth

to travel to different dimensions. We go into the Core to reach the Inner

Earth of the 13th dimension. A little further down in the spiritual structure is

Earth of the 13th dimension. A little further down in the spiritual structure is

the heliotalic silver pastel liquid light frequencies. When we connect our

Consciousness into that area, we have entered the realm of the

Aquafarians, who are the elementals who look like dolphins and swim within our deepest etheric light that surrounds the microtubules of the DNA.

So, you see, what is in the deepest structures of Inner Earth is also within our bodies. We are a divine image and likeness of all that is at all levels.

Everything is made up of the same tiniest etheric structure of the Divine

Template repeated in infinite formations.

The liquid light frequencies of the Aquafarian Realm combines with the Sun

of Inner Earth and the Crystal Chambers of Inner Earth to hold the Aquafarian Frequencies of the Oraphim Angels and Elohim Angels.

These

Angelic Frequencies have been held inside of the Crystal Chambers of

Mother Earth for eons. They have been waiting for the return of the Light

Waves.

During one stage of our Ascension, NASA actually photographed the veils

breaking apart that were blocking our Sun's light from entering into the

Earth's atmosphere. The photon belt of gamma rays of our Universal Consciousness are now streaming into the Crystal Heart of Mother Earth

and braiding through the Christic Grids, Liquid Light chambers, connecting

into Oneness with the Sun of Inner Earth and into the Cosmic Consciousness deep within the Heart of Mother Earth.

At another stage, scientists admitted seeing positrons emitting themselves

from the Sun. That means the Etheric Structure was emitting in attunement

with the physical structure. At another stage we could see the Blue Flame

within the Solar Winds, and later the Violet Flame through the Solar Winds.

All of this is Scientific Evidence of the Quantum Science that is taking place. Since we can see it, we think it is still a third dimensional visual reality, when in fact our visual reality has gone beyond visual light into the

ultra violet blue reality of all dimensional realities.

This is the alignment of Light and Sound needed for Mother Earth and all

who are on her and in her to re-align into the Music of the Spheres that will

The angelic light wave frequencies will never lower themselves into the

wave bands of the Consciousness reaching into them. However, the Consciousness of the entity reaching into the Angelic Consciousness of

another Entity for information, can capture the raised Frequencies of Consciousness from that Angelic Entity. The higher frequencies will transmute the lower frequencies into a new resonance and then the person

can exhale these Frequencies through their Breath of Consciousness.

When we exhale higher Consciousness through our breath, we become cocreators.

When Source formed our Divine Matrix of Consciousness, this grand entity, known as our Creator, breathed the Particles of Light into the

form of Angelic Consciousness. These Particles of Consciousness were the

light particles combining with the sound particles of Angelic thought.

This is

how all is formed. However, if the Source were sending streams of Light

Energy and there was no Sound to connect to, then the particles of the

photon would have nothing to connect to and become randomly scattered--

as was shown by the scientists.

We may now reconnect the light from the photon belt of Sun Alcyone into

our DNA and exhale the sound of the gamma ray. This is how I oscillate my

consciousness through light waves into the angelic consciousness of my Blue Oraphim Dolphin family or any other angelic family that I wish to communicate with. I reach into the angelic wave particles of gamma rays and ultra violet blue rays by first raising my own light waves in the ultra violet blue wave.

ASCENSION IS A MUSICAL EVENT

Dr. Angela Barnett (c) 2014

<http://crystalmagicorchestra.com>

(Teachings of the Cosmic Mystery School of the Omniverse)

Ascension is a Musical Event. The word God vibrates at the highest and

fastest frequency within and beyond the Universe and the Cosmos.

But, it

isn't the Word that vibrates - it is the frequency and the frequency signature

of the Idea of God which holds this frequency of the Divine Template of all

Creations.

The Breath of Source is the highest frequency of the eternal creation.

We

ignite that spark of Source within our selves when we breathe the crystal

light energy into the spark of Source in our Crystal Hearts. This is what all

of the music on this website is created to do for you.

That Breath of Source Consciousness contains the frequency signature of

the Divine Template. The Divine Template is the formula or the foundation

from which all of the grand Creator's creations are formed from. The grandest creation is man, who is made in God's image and likeness.

The

image and likeness of Source is the Divine Template.
Each Soul is that Divine Template. Let's look at what the Soul has
been and
is going to on the Divine Scale. Let's say that the Creator was this
grand
musician who was orchestrating the most glorious, luxurious, joyous
symphony ever to be heard.
Let's say that Composer wanted to hear His perfect frequency
signature or
key signature performed in the most harmonious harmonic weaving
and
braiding of glorious sounds as they transformed His perfect frequency
- still
the Highest Frequency into Music or Sound.
The image and likeness of Source is the Divine Template. The first
chapter of Genesis says man is made in the image and likeness of
God.

That is what the original creation, before the world began, looked like.

The second chapter of Genesis tells what the world looked like when
it was no longer within the template of the Divine Source Template.
That world was created 5.5 million years ago as the Matrix of Reality
that the Earth was placed within. The template of the consciousness
of the human angelic race was destroyed when there was a
separation between the original Music of the Spheres. This was the
beginning of discord. This was the beginning of harmonic octaves
being broken apart--meaning one harmonic universe disconnected
from another harmonic universe.

A small part of that original template was restored about 50,000 years
ago and then again 25,000 years ago. However, the template was
destroyed again each time. Our Cosmic Guardians have been trying
to restore the Consciousness of our original human angelic race line
for a very long time.

This time, their plan of completing this project is 2017. The largest
problem was removed in 2012 when the Earth's Matrix was shifted
into a new time line that removed our Consciousness from the

Phantom Matrix where the Fallen Angelics and Demons use Angelics as their food source.

In 2017 the Cosmic Alignment will be at its height of harmonic attunement.

The moment between May 2017 and June 2017 will be the time when we can align our particles of our physical bodies with our anti particles of our spiritual bodies COMPLETELY into a new Harmonic Reality. This is our moment when we can tune in to Harmonic Universe Two and shift our Consciousness completely into the 5DNA that is required to see the new reality.

That moment was extended to give us until 2022 to raise our frequencies into the 5DNA that allows us to see the new reality.

However, this 5DNA activation doesn't just happen. It is something that each individual must work on. They must tune in to the 5DNA alignment.

There are many teachings that claim there is no need to raise frequencies beyond the 3DNA activation to be able to tune in to all higher realities.

The reason that statement can be made is because during the millions of years of having our DNA disconnected from its over tones and base tones, the disconnection of the Third DNA was the one that disconnected us from our Higher Self. When we are completely tuned in to our Higher Self, we would have the ability to tune in to all of our higher levels of Souls, Over Souls, Avatar and Rishi Selves.

However, that is outdated information. That was what the Guardians said before the Tower of Babel was created in 3460 B.C. At this time, the Consciousness of the Human Angelic Race Line was divided in to 12 groups of consciousness and each of them were given amnesia so that they would never be able to put the pieces of the puzzle back together again.

Our Consciousness was fragmented so badly, that the Guardians devised a new plan that required the rebirth of 144,000 Indigos born with the Codes that would activate their memory, Six Avatar Children

born between 1992 and 2010 who would be born with the complete original 12 DNA template of their raceline with all of the Miasms removed from the template, and then 5000 more Indigo Children born with 5DNA activated at birth.

This project needed to be completed so that the 12 subharmonic DNA strands from each of the 12 fragmented racelines could merge back into one template of the original raceline that was a 12 code based 5DNA divine template.

The reason that the Guardians did this to the Consciousness of the Earth's Matrix was for the purpose of preparing for this date- 2017, when the 5DNA could be reactivated in those who had prepared their consciousness for this activation.

Everyone has the divine right to follow which ever teaching that they RESONATE with because what you resonate with is the highest frequency that your Consciousness can hold at this time. That is why more people follow incorrect teachings because they are still resonating with their mutated template which was created by Invader Races to make sure that we never remembered who we were.

So, if you would like to gamble on believing that you only need 3DNA activated, that is o.k. You will just continue living in the Net Earth while those who choose to activate 5DNA will begin living in the Ascension Earth.

The Guardians said from the beginning that there would be a huge separation in 2017 between those who see the New Ascension Earth and those who continue living in the Net Earth. Eventually we will become invisible to each other.

This could mean that we just become invisible to each other's reality, which has already happened to me. I only know of one other person who can see the reality that I see. This doesn't mean that I don't see the rest of the world around me. However, I do not have to live within the lower frequencies of that reality. I can rise into the fifth dimensional reality where I can talk to fairies and see the trees glow like light bulbs, levitate, communicate multi dimensionally, etc.

I just completed a new DVD with directions for activating DNA by using the Frequency music that I create together with the Candle. The Candle is to help you visualize and realize that there many higher levels of light energy and sound energy than the one's that we actualize with the Five Senses.

Activation of the 5DNA means rising above the five senses. The five senses are the Hertzian Frequency of light where the five senses resonate the reality.

Using the pyramid to analyze the light spectrum and then visualizing that same light spectrum within the candle is a major step in raising frequencies out of the small spectrum of the hertzian level frequencies.

The entire solfege teachings of using hertzian frequencies is just another attempt to keep consciousness locked in the 3DNA.

The music that I create is not based in any way on the solfege theories. In fact those theories are simply the same theories used in Physics of Music in all education of music departments. The hertzian frequency of 440 is the A above middle C on the piano-- is the tone used to tune all orchestras to play in harmony together. The solfege theory is simply taking those NOTES used to play musical instruments into smaller aspects of themselves. These aspects of the notes are still hertzian aspects.

C# is 554.365--that is the tone of Earth.
D is 587.330

The highest note on the piano is 4186.01 hertz
The lowest note on the piano is 27.5000 hertz

Anything called hertz below 27 hertz is not on the piano. It is not a part of the chords, notes or scales used in music.

These tones on the scales and chords were created in the Baroque era -1740 --to create Equal Tempered Tuning between instruments so that quartets of instruments could play in tune with each other. Before that time period-in the Gregorian Chant days- there was not

Equal Tempered Tuning. There were choirs that formed harmony together, and there were castratos who had surgery on their testicals to make them sing in higher resonances like the angels.

This could be an analogy of removing the mutation in the First and Second Chakra areas that caused the original disengagement from the complete light spectrum of the Mind of God.

The hertzian levels that I am talking about are a complete different light spectra than those used on instruments.

I record at 96,000 hrtz. That means the Frequencies of the sound pick up the most etheric tones of the breaths that I breathe. If I record at 44 hertz, the recording does not pick up the etheric breaths. The 22 hrtz actually distorts the breaths that I breathe.

These are notes on the piano. These are Solfege notes on the piano.

I am not talking about notes on the piano.

If you look at the pyramid of frequencies of the FULL SPECTRUM of Light and Sound, you will find that the hertzian light is the lowest level of light.

When we Raise the Frequencies of Consciousness up through the entire Light Spectrum and absorb the light of the Invisible Light, Gamma Light and Pink Silver Light of the highest visible light of the Candle, we absorb all of teh Light and Sound of all of the Dimensions of the Mind of God. When we do that we see the Candle turn Blue.

If you see a Blue Candle each time you turn on your DVD screen, that means you have tuned in to your Frequency Specific Mid Brain and in to your Blue Body, which is your fifth dimensional body. You have tuned in the anti particles of your spiriutal body into the particles of your physical body.

That is step one.

Step two is continuing to absorb the frequencies from the music and the frequencies of the light and make a connection directly from the

stem of the candle to the place at the bottom of your skull called the lower cerebellum.

In the light spectrum, we visualize that area as the pink silver light in the candle. This means this is the highest frequency of light and sound connecting the Mind of God directly into the Brain of Man.

When you attune to that light frequency, the room will become black. The only light that you will see is the candle. You will feel a complete attunement with your music at this time. You will feel the music within every cell of your body. The cells are all being tuned in to the Mind of God. The neuronets are being tuned in to the Mind of God.

The next step of this exercise is to fill the body with the the Plasma of the Sun's Frequencies. The Vapor of the Plasma is a Spiritual Water called Hydrolaise. It is this Spiritual Water that activates the 5DNA in the body to the level where the body actually rises out of itself into a new form.

This process is outlined in great detail in the ETERNAL LIFE WATERS Set one and Two.

Each Soul is that Divine Template. Let's look at what the Soul has been and is going to on the Divine Scale. Let's say that the Creator was this grand musician who was orchestrating the most glorious, luxurious, joyous symphony ever to be heard. Let's say that Composer wanted to hear His perfect frequency signature or key signature performed in the most harmonious harmonic weaving and braiding of glorious sounds as they transformed His perfect frequency - still the Highest Frequency into Music or Sound. Let's say this grand creator decided to base his glorious symphony of Love on eight tones. Or maybe it was 12 tones. Or maybe it was 16 tones. Lets say it took 8 tones to create what this great musician wanted to produce. So, everything he creates is based on 8. That eighth

dimension
contained the man made in the image and likeness of source. And
that man
was a co-creator who could create symphonies through the ears of
the
Elohim of Hearing who lived in the 16th dimension, exactly one
octave- or 8
dimensions above the dimension of the God Man.
Actually an Octave is the distance between One Harmonic Universe
and
the next. If the Earth were in Harmonic Universe One containing the
1-3
dimensional realities, and Harmonic Universe Two contained the 4-6
dimensional realities, there is always this Octave between each set of
realities. So, you see the Science of the Stars is a little different than
the
Musical Science taught in the Earth Schools.
This parallel reality would be the anti particle or spiritual twin of the
physical.
Each tone in the dimensional scale has a spiritual twin. The Earth has
a
Twin. Earth's harmonic twin is Terra (pronounced Tara by the gods).
The
Galaxy has a Twin. Each frequency tone has a resolute tone on the
opposite side, and each resolute tone has a resonate tone in the
Mind of
God.
In order to activate the resonation of these tones in the Cosmos or
the
Universe or the Galaxies we must use the animating principle of Love
and
the Merkaba to spin us in to the attunement of the spiritual and the
physical
the base tones and over tones. So, here we have this great plan of
orchestration, where the greatest Musician - Source- is breathing into
the
EAR of the Elohim of Hearing.
The Elohim of Hearing is co-creating Source's symphony of Love in
the
Cosmos. The Cosmic Consciousness of the 15th, 14th and 13th

dimensions hold that Frequency Signature as their Tone of Home. In those dimensions the Grand Yanas, our Cosmic Creators of the Pre Sound and Pre Light Consciousness that the Spark of Source ignites into a Birth of a New Idea. That new idea is first formed in light crystals, gelaisic spheres and crystal stardust. These are the elements of original creation. Everything is made from this etheric substances. Our bodies are being transformed into a non carbon chemical based biological form that originates from this etheric substance of the Silicate Matrix of 12 Dimensional Consciousness. This is the Perfect Divine Template that everything in existence is formed from, if it is created from the Mind of God. Next, the Angelic Consciousness from the 13th dimension holds this glorious tone of home and wants to become the co-creator who will hold the base tone rhythm that pulls in the harmonic convergence of the 12th dimension or 12th harmonic frequency signature. This 12th dimension will become the grand creation of those frequency signatures from the Cosmos creating a glorious form of Light and Sound that can be heard as the Elohim of Hearing and also seen as the Light from the Crystalite Energy Entity. So, now there is this wonderous sound of Angelic Choirs singing this glorious symphony of Light and Sound creating stars in the sky. That 12th dimensional starry creation was called the Christic or Universal because it contained the Sound of the Highest Frequency or the Breath and Light of the Source - the Spark was breathed upon to become the Light. This was the formula of the grand Musician. He would have a glorious

idea.

He would breathe the Consciousness of that idea onto a spark. That spark

would ignite a glorious creation of Light. So here was this beautiful Divine

Template or plan that all creation would be built upon.

All is perfect and all will always be perfect as long as this original template

of creation remains.

So, now all orchestrations that were co-created by the entities of light and

sound were breathed into formation from the base tone rhythm of Source

Consciousness and the base tone rhythm of Cosmic Consciousness.

Now, the 12th dimension becomes the new creator. This Christ frequency

contains the divine template that all new symphonies of Love are created

from.

So, we have the Christic Universal Musical Sphere of Consciousness - the

12th, 11th and 10th dimensions combining to create glorious universes full

of stars.

The stars get together with their Cosmic creators who breathe the highest

frequency of Source Consciousness into the stars to create a Sun.

now, we

have the base tone rhythm of the Universal Frequency lifting into resonance

into the Galactic Sphere of the 9th, 8th and 7th dimensions. the galactic

sphere would hold the Music of the Spheres that would create Suns.

These suns wanted to have entities who could experience all that had been

created. Source wanted to experience himself. The Suns created stars that

contained cities of light. The cities of light were created from the sound of

crystalite energy. The stars and the cities of light hummed a glorious

symphony. The symphony contained melodies of individual ideas. These melodies were called man. The man of this glorious light and sound of the galaxy could create his own melodies. The melodies became the base tone rhythm to create solar systems that contained these entities individual creations from their own unique tone of home. These entities called man were gods or co-creators with Source. They were still creating all from the original Highest Frequency of Source breathed into the Life by the Elohim of Hearing, formed into the Universal Star System experiences as Suns, Stars and Cities of Light.

that one moment over and over again, and then layer that divine frequency three or four or five times until the resonance appears that creates a New Divine Rhythm. The rhythm can be clearly heard and felt. That is the rhythm of the New Heart Beat. It is the at one ment or a tune ment of our crystal heart into the crystal heart of Mother Earth and of the Heart of the Cosmic Egg. The Core of Earth is like a Vortex. If we ride our merkaba down into this vortex, we can from that point access the stargates into the other 12 stargates that allow the body to shift into other dimensions and interdimensional zones. Those who think they are seeing the Hollow Earth when they bi-locate into the Core of Earth are actually seeing themselves relocated into a completely different reality. It is not in the Core of the Earth. It is actually a different Dimension, a different place. They may have gone to another fourth dimensional reality that is parallel to the one they were

stationed in. If the traveler went deeper into the Etheric Core of Earth they would travel into the Fifth Dimension of Terra or even into the 8th Dimension of Gaia. The Core of Mother Earth is the HUB or the Stargate Vortex into other Realities. Remember that it is always the Highest Frequency that transmutes or pulls into itself the lower frequencies. The Base Tones are the lower frequencies and the Over tones are the higher frequencies. The Highest Frequency is Source. All base tones must be transmuted into the Full Light Spectrum of the the Cosmic Over Tones and finally the Source Over tones. Another way of saying this is all of the particles in the physical universe must be transmuted into the anti particles of the spiritual parallel Universe. Each time we move up one Harmonic Universe, we lift the Base Tone of the Lower Harmonic Universe into the Over Tones of the Higher Harmonic Universe. The Earth was in Harmonic Universe One. It has been lifted into Harmonic Universe Two as a result of the Frequencies of Consciousness that have been brought down into the Sun through the vehicle of Comet Ison. Those are the Over Tone Frequencies of our Spiritual Twin Matrix coming into the Earth's Atmosphere each time a Solar Flare is sent down to us. Our Base Tone Rhythm has been Raised as a result of Indigo Children and Avatar Children being born on Earth. It has raised because of the spiritual teachings and those using Merkaba Mechanics. The Base Tone Rhythm is raised into the Over tones.

COSMIC ATTUNEMENT

Dr. Angela Barnett (c) 2014

<http://crystalmagicorchestra.com>

(Teachings of the Cosmic Mystery School of the Omniverse)

First, we connect consciousness down into the Iron Core of Earth and penetrate deeply into the Etheric Reality of the 13.5 dimension of Cosmic

Consciousness. This brings us into the Crystal Liquid Light area where we

see the Mirror image of our spiritual self reflecting through the atomic mirror

of atomic thermal radiation. This etheric plasma liquid light connects with

the 14th dimensional helium or silver pastel rainbow heliotalic rays that

intersect into Earth's womb.

Within this etheric Cosmic Frequency of Earth's Womb is Sun Alcyone's

Spiritual Firmament. This is where the Heartbeat of our perfect spiritual

rebirth can be attuned to through the breath of Source. When we ride within

our Merkaba- which holds us within the perfect balance and frequency

signature of Divine Love spinning within the 12th dimensional alignment, we

remove time and space, and realign into the Now Moment of which ever

reality field our Frequencies are attuned to.

We must realign our bodies with these crystal frequencies of the Divine

Blue Print of our original creation. This Divine Blue Print is being held within

the Heart of Mother Earth for our rebirth.

The next step of the process of rising above the Hertzian Level Frequencies utilizes the Mirror. We learn to take our consciousness into and through the Mirror in order to realize what was taken away from us when our DNA was disconnected. We go into the darkness of the mirror to find out what is on the other side.

That is another step in mastery of the Fifth Dimension.

What do we need to know?

How to get frequencies

How to put frequencies in the atoms and cellular memory

How to use the merkaba to collect frequencies

How to spin the merkaba into the outer band to ignite source
vonsciousness

How to connect secondary neuronet to mind of God

How to remove cadeucus seal in planet and heart

how to use the brain correctly

use charts of brain in relation to colors of pyramid

how to use the candle

how to walk into the atomic mirror

how to fill the atoms with hydrolaise

How to SPEED UP THE PROCESS by 2014 years

How to move to FUTURE SELF

How to walk into your spiriutal self

UNDERSTANDING THE PROCESS WE ARE GOING THROUGH
PRACTICING MANIFESTATION

WHY DIE WHEN YOU CAN FLY?

The Process of becoming IMMORTAL

Crystalai

If you believe you need to create energy in order to have an experience, the experience will never happen. Experience doesn't come from mass to mass. It only comes from God, who directly knows how it is going to happen and the flow of that information to you . As you observe the experience in the film of the Omni particles or God's movie screen around you becoming developed through the activity of Divine Love. When you do this you are learning how to co-create through the mind of God. Now you are learning how humble one must be to conceive a concept that is out of the boundaries of ones ability to do it. And you can see God manifest it.

The creation of the manifestation is always done in the outer band. The outer band of the music of the spheres is the sphere of the infinite unknown or God's mind. When this frequency of Source Consciousness is woven into oneness with all of the other five spheres of dimensional consciousness energy, the manifestation is developed into the film of that Omni particle energy which is sub

atomic etheric stardust particles. It is the etheric foundation that the manifest reality is painted upon. The frequencies that are recorded on the Ascension Kits and on the ETERNAL LIFE ALBUM utilize the frequencies and codes of manifestation in the five spheres and place these codes within and through the body. The ETERNAL LIFE ALBUM actually activates these frequencies into the Oneness of God's mind manifest as You. These frequencies make these Omni particles that you may begin to create your new reality from. The more you feel, inhale and exhale these frequencies, the higher your body and consciousness will rise above and beyond the old third dimensional illusions into the infinite unknown that you may now manifest as your new reality.

The old reality has been programmed into the cerebellum of the brain. The amygdala gland has been recording and replaying movies of fear, control, lust, sex, violence. These old movies will continue to play until they are wrapped inside the sphere of crystal light energy. First wrap the fear ideas in a sphere of white light and then ultra violet blue light and then golden light and then melt the ideas into golden liquid light energy. When you do this you are allowing the old bands of lower frequencies in the third dimension to flip up into the mind of God or the infinite unknown frequencies. This transmutation process must be completed through out all parts of the cerebellum as well. These are all old worn out third dimensional movies. We don't need them any more. We are dissolving these old three dimensional control channels.

The frequencies in the immortality Cd are to pour into the old brain and allow the MID BRAIN to become activated. The Mid Brain - pineal gland and pituitary gland are Frequency Specific. They think, move and create through FREQUENCIES. The Mid Brain is able to see infra red, ultra violet blue and even gamma waves. The Immortality Cd is allowing you to feel these frequency waves in order to prepare your mid brain to see these frequency bands.

The next step needed to activate your mid brain is cross your legs in the lotus position with back straight and focus on the center of a flame from a candle for at least one hour per day while listening to your ETERNAL LIFE ALBUM. Try to eventually work up to two or three hours. The longer you focus, the closer you become to the full

utilization of your mid brain which will allow you to see all dimensional realities.

Next, after a week or two of practicing this level of focus you will be able to stare at a card and learn to see both sides of the card. In the reality of infra red frequency, the mind can see in a 360 degree angle. You can train your mind to see both sides of the card. Your mid brain already knows how to do this. When the other old brains are completely turned off and the mid brain is completely turned on, you will first gain infra red sight which will allow you to see orbs, space ships and to read a deck of cards. This will come in handy if you ever want to go pick up an extra few hundred thousand dollars at the casino.

The frequencies will continue to raise the foundation of the entire body. The subconscious will become activated into the blue realm. The medulla oblongata which sits right at the top of the spine is where the subconscious sits. When you raise your frequencies into the blue frequency the sub consciousness acts as a primary healer of the body. Activate this area of the body before going to sleep and ask the god of your being to raise you into the blue body for complete healing while you sleep.

Listen to your immortality CD while you sleep. Practice breathing in a fashion that oscillates the frequencies from the higher rings into the lower rings or frequency bands. Focus on breathing at the speed of light -- do this in your mind. Feel the body become lighter and lighter until it rises above your bed. The frequencies of your body will lighten the body into the etheric Omni particle of God consciousness.

Now, that your yellow brain- your cerebellum and amygdala glands are dissolved into the higher frequencies and your mid brain is activated and your sub conscious is aligned into the blue body, write a list of all of the things that you would like to appear in your new world. This is the world that you will be creating with the mind of God. Write the list and call on the God of your being. Ask to have the items on your list manifest through the mind of God. God only knows the infinite unknown. He doesn't create old out dated ideas. You must be willing to have God create your hearts desire in the way that he knows is the best for you. You must become humble enough to

conceive a concept that is out of the boundaries of your own ability to do it, and become willing to see God manifest it.

So, no matter how clever you think you might be intellectually, you must be willing to let go and allow God to do the manifesting in the way that he knows, which is the infinite unknown. A person who has got the knowledge understands. To see to define to need to know does not come out of the intellect. It comes from the mind of God when we pray. When we beseech through our holy spirit this appealing to God we are asking to have this manifest in our life. You are also admitting that it could never come in the fashion in which we are asking God to give it to us.

When we talk to God and we roll our eyes back into our head and we talk to our holy spirit and we beseech God for this aspect of its mind and that we want to have it, that is all we have to do. But, we have to be sincere.

When you approach before you wake up you go in your mind and you give this focused intention to your God. Oh, God of my being, I say to you, that I am about to create my day and indeed the specifics on my list of which in and of my being I cannot do.

I say to you that this, oh my beloved God, as I create my day, that you fill it with the wonder of that which I may not know that I may know and as I enter into my list that those things that I have said forgive my arrogance and imprudence. I simply ask you, the lord God of my being, to make them manifest.

I have always been fabulously wealthy. I have always been twenty years younger. I have always been able to bi-locate. I have always been able to read the back of cards. I have always been able to disappear. I have always been able to manifest perfect health.

That I may know, grow, learn that in all that you are, oh my beloved god, let my journey never end , let my heart quiver at the anticipation of beginning a NEW DAY.

This is how you connect to the outer band of the five frequency bands of the music of the spheres. This is how you make the symphony of

love begin to perform in your life.

The GREAT WORK is to become that entity who will never die. That great entity has no longing for its past in any way. The great work is to press forward in secondary consciousness to make the body in life to think in life as detached and awesome as it is to take that into life. That is the great work. For what is remarkable about us. What allows the grand fortune of living thousands of years. What is it to be able to live longer and maximize the experience but never to linger in the experience to bring it to wisdom. What is that. How can that be accomplished. If you contemplate why is it upon death that there is no desire from the point of self to come back to this body. There is nothing in the yellow brain that is desired. The real self only desires the experience of the infinite unknown.

Once you've cleaned out the junk in the yellow brain by owning all of the experiences and placing them in the crystal light energy sphere to dissolve into the golden liquid light, you are finished with the brain that dies and you can begin living in the brain that lives.

Now you can live in extraordinary thought and extraordinary experience. You can do marvelous things in this physical body because this body is made up of the same particles as space itself. We can be far greater. We can replace with greater events with out the past emotionally. Go into the experience and let the experience created by God, become defined by the nature of the new chemical feeling of higher frequencies in the body.

Instead of using raw material to go through the body, we use the energy of God- the Omni particles of etheric God energy, for new experience. Then the body is sustained until the time the secondary consciousness has made an in road to make the nature of every day, a new form of thought.

To make a new form of thought and then to work that form of thought until it manifests.

Next, comes the morning when you are floating five feet above your bed because you have become so changed in your neuronett that your brain has used these changes to heal the body. During sleep

your body is levitating into the fifth dimensional body.

Your life can then be drawn out for tens of thousands of years until one day you have the power to disappear and take this matter with you. Never have to be born again from the plane of bliss. The path of power to unfold it is in your mind. You can take your body to any level and any frequency that you like if that is your focus. All lower frequencies must rise to the highest.

We make a list before we go to bed so that our subconscious through the mind of God will create our night in which our souls align into oneness with the Sun of Inner Earth and the Sun Alcyone to lift us into our Blue Bodies.

We are now in control of the body because we are out of the body. We are out of the body because we are in the outer band- the highest frequency band of Source. All of the multidimensional bands are outside of the body. When we rise into the frequencies on the immortality CD's we are rising out of the body. The outer bands are the holy spirit. Outer bands have full spectrum of light and sound. This is your secondary consciousness and this is your pattern of all of the bodies you have ever been. The outer body is the infinite unknown.

In your day to day affairs we have the infinite unknown touching our bands and as we allow our bands to melt into or dissolve into the infinite unknown, we leave behind all of the old bodies and use our holy spirit bands of quantum energy to experience the infinite unknown.

The hertzian wave band touches all of the Source Frequency and soaks up the full spectrum. You have been loved into this life through the activity of Divine spinning and oscillating the bands into One Full Spectrum Frequency. The God frequency is holding all of the quantum together clear out to the never never land. We were loved into this experience. It is love that binds us into the full spectrum of the infinite unknown.

This entity, the outer band - is God -- and its action is the Holy Spirit.

It is super natural because it has all aspects to act on this level as a Divine Being.

What happens when we raise the frequencies from the third band to the fourth band? All of the frequencies rise through the outer band of Source frequencies. It makes the bands flip into the mind of God. Infinite Unknown is flowing inside of you and the rest of us is dissolved. The outer band and the holy spirit is the super natural. From this zero point is flowing toward you, through you and into every particle in you. You have analogically become the mind of God.

This is the ultimate creation. We access this God through very specific process that interact with the very nature of who we are. We are human beings and begin to open our boundaries into the infinite unknown. If we begin to walk into the wonder of God, God will give to us all that we ever ask for, and we can never exhaust all experience.

What is the experience of the Infinite Unknown. When you are creating something that lives as a POTENTIAL, outside of your body, the personality that is very disciplined, will fight back because it only knows what it knows. It is only God who knows the infinite unknown. That is only a measure of what exists as potential in the mind of God.

Give focused intent to your god. Oh, my beloved God, I am about to create my day, and indeed the specifics on the list which in and of my being I cannot do, I say to you, this as I create my day, that you fill it with the wonder of that which I do not know that I may know. And as I enter into my list, that these things that I have said , I ask the lord god of my being to make them

We are moving through the grandest of times ever known to our Cosmic Families. We are being given the Stardust and Hydrolaise (Spiritual Water) that is needed to transform our bodies. The Consciousness, or the Frequencies of this energy of transformation is coming in through the Stellar Wave Activations related to the Solar Flares and CME ejections of the Sun.

We are going through this transformation because our COMPLETE SPIRITUAL BODIES where tilted to an angle 15 degrees from their

original Templates. Our bodies are tilted 15 degrees clockwise from the Alignment with our Eternal Life Body.

This angle of rotation created a loop that goes through the Crystal Heart Area of the Body. That area is what would be called the Density One Body or the Etheric Body. The loop cause a mis alignment with this Etheric Body that is positioned within the Crystal Heart as well as a mis alignment with the Mental Light Body. So, there was this distortion of energy fields that locks right at the Crystal Heart area within the Thymus. This is also where the SEED ATOM of our oriignal creation resides.

So, our physical body was disconnected from our Etheric Body, our Seed Atom, our Soul, our Mental Light Body.

We can now use the Frequencies of Star Dust and the Spiritual Water H₂ O₂HE₃ from our spiritual Aquari Matrix and our Inner Domains in the Cosmic Core of Mother Earth.

When I create the Eternal Life Albums I realign the Physical, Etheric and Mental Light Bodies back into the Original Divine Self, where the three spheres or three bodies intersect at the Crystal Heart area correctly, without the Loop that keeps them disconnected.

The process of removing that loop in the Heart area requires an alignment from the Mid Brain up into the Cosmic Consciousness of the Aquari MAtrix. The Cosmic Alignment point is 36 inches above the head. I create a clearing from the Mid Brain through the ears and into the Elohim of Hearing or the Aquari Maharaji (their new transformed selves). Once that PRIMARY NEURONET is reconnected up to the Maharaji, That Consciousness Neuronet creates a Clear Passage to Cosmic Consciousness. NExt the Frequencies of the Stardust flow must saturate the Mid Brain area and the Pineal Gland. We then Move that StarDust Consciousness down into the Crystal Heart area to begin the transmutation of the block or the loop in that area. NExt, I inhale the Water Orbs of Hydrolaise or Spiritual Water that are brought into the atmosphere from the Cosmic Inner Core Domains of Aquafaria. The Water Elementals from the Spiritual Matrix are inhaled into the Mid Brain and into the Crystal Heart.

Once there is enough of this consciousness brought into the Crystal Heart, a Secondary Neuronet is opened up through the back of the lower skull (the medulla oblongata). That is the Secondary Neuronet that connects directly to each Individual's Original or Normal Body that does not contain the ERROR of ALIGNMENT.

We create a back flow from within the corrected mid brain and crystal heart areas into the Eiron FLOW that Flows out the back and up at the 15 degree angle into the DIVINE TEMPLATE or Correct Body alignment.

The opening of the flow is increased each time a person listens to their Eternal Life Album.

The stardust consciousness, the spiritual water consciousness from the Aquafarian Elementals, and the Plasma of Crystal Gelaisic Elementals are available to us to be used for this purpose of Transformation.

I continuously connect my consciousness to this restored transformation pattern and I connect my Consciousness into the Elementals from Aquari and Aquafarians who are making this Ascension happen for us.

It is the consciousness or frequencies of the Stardust, the Liquid Light and the Crystal gel that is transforming our bodies. We must inhale these frequencies into our atoms and then see the explosion of energy from within the atom create a 12 pointed starburst. That is actually an activation of the neuronets from within the atoms. When the neuronets reactivate into a NEw Reality where the distortion that blocked the physical from the etheric and the mental light bodies, the body begins to realine into the Median Earth- the Coud Cities, the place we have called Shamballa.

The meaning of raising frequencies means we are now living in a hertzian and visible light frequency where we only believe in the things we can hear and see. We must move into the Cosmic Frequencies of Stardust, Thermal Plasma, Liquid Light, Hydrolaise. This level of frequency cannot be seen, but it can be felt. We can feel

the stardust and the hydrolaise come into the atoms of our mid brain and our crystal heart. We can feel the opening of a cosmic flow through and between the atoms. The Consciousness that is allowed to enter the body is Cosmic. This is the Frequency and the Consciousness that is required to realign our bodies into the Normal Template that allows us to begin the process of Orbing into Higher Dimensions.

All of the Universal Life Force Albums and the Eternal Life Album and the Violet Flame Album are for the purpose of bringing the Stardust flow into the body.

The Sun becomes the Son of the Star and the Stardust becomes the Son of the Sun
A new Star is being born within the Sun to Transform the Earth into the Star from which she was born.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion into a new reality- a new frequency- a new dimension-a NEW HARMONIC UNIVERSE.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion.

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism.

Where is the rainbow coming from? It is coming from intense electrical field that is ionizing to some effect like a magnetic mirror which is a device used in thermo nuclear processes that is in the mirror is contained an intense field working in the vacuum. Then ions are injected inside of this intense electrical field inside of the vacuum then immediately the electrons of those ions return to plasmic state. What state are they returning to? Invisible light, ultra violet blue, plasma. The entity looks like a Cloud, but also looks like an individual

that we remember. This process of ascension into the Cloud Cities was very common fifty thousand years ago, and then brought back to our memory two thousand years ago by Jesus Christ.

The truth is, we all contain this Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology. The merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that. Go to Merkaba Mechanics at cosmicdolphinmagic.ning.com.

So now the wave is no longer a standing wave in the quantum field but has actually been neutralized and goes back to the plasma of an omni field state positive. That is called a magnetic mirror.

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror. We walk through the Mirror when our Keys unlock the door. The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music. The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses. The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul Family who brings these Sounds into my Frequency Specific Mid

Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.
