Once upon a time, long, long ago, there were Normal Human Beings on a Planet that was similar to Earth. However, this Planet was actually a Star. A Planet cannot breathe, but a Star can.

Planet Earth has been on a respirator system for a very long time, because she has had no normal access to normal oxygen.

You see, in a normal system, the Planet is a Star, and the Star has an Eternal Energy Source. The Suns and Stars exhale all of their living energy up their portals or staffs out into the atmosphere where their oxygen flows into all of the other Suns and Stars. This continuous Source of Energy is normal in a normal system.

In our Normal Reality, the Human Angelic also had this continuous energy supply flowing into them from the Rod and Staff of the Planet that they lived upon.

Planet Earth has always had a respiration system because she was guided into the Starry Firmament of a place called Urtha. Earth has been like a little baby nesting within Urtha until she could enter the time of her final transformation.

That time has come. The Earth and the Human Angelic Beings who inhabit Earth are becoming Normal. This evolutionary event began in 2013.

Now, Earth does have a Source of Eternal Energy flowing into her from the Stellar Wave Infusions. These infusions are the crystal light, crystal dust and crystal gel that all Eternal substance is created from. This is the stardust or plasma, the liquid light energy called hydrolaise and the gelasic radiation that transforms the planet and those upon her.

Once we learn to inhale this divine substance from the crystal spheres of crystal light, gel and dust into our atomic structure, our bodies will transform into a new biological structure that allows us to perform events such as orbiting, teleporting, riding on space ships, turning into light and moving into multiple dimensional realities.

When this crystal gel substance is combined with the crystal stardust and crystal liquid light substance to create the prana of continuous energy, the planet and the body begin to live on the crystalline energy called cellesma in a symbiotic relationship. This is what is happening to our bodies and to the planet over the next decade.

This magical substance that is the pre vapor form of plasma is like water with helium in it. The chemical formation would be H<sub>2</sub>O<sub>2</sub>HE<sub>3</sub> on the Spiritual Side of reality. We must be re-created from the pre light and pre sound chemicals. The spiritual water form will blend with our H<sub>2</sub>O to create a new water of Eternal Life.

The way that the duality or polarity is being removed between the physical and spiritual is through this hydrolaise. In the Normal Reality, a child absorbs more and more of the spiritual substance of hydrolaise into their cells until they fill out the complete Divine Blue Print at age 33.

The stories of Jesus Christ walking on water were an example of this. The Christ body that is being returned to the Human Angelic Raceline will be going through this transition in the same manner that humanoids always did in the Normal Reality.

The reason this is not a Normal Reality, is because a Planet is actually a Star that has had its oxygen removed as a result of distorting the flow of energy between the Stars and Suns in its system. The entire Milky Way Galaxy is a Fallen or Distorted System.

In 2012, Earth was placed inside of a Cosmaya Blanket of Cosmic Dust that lifted her body into alignment with the original 12 Universes that were created from the template of the original Sun Alcyone, before the Star called Tara was blown up and relocated into the Milky Way Galaxy.

We don't die in Normal Reality. The old reality we knew was not normal at all. It was an Illusion that was placed in our cellular memory. We were placed inside of someone else's consciousness who was playing a dysfunctional movie through our cellular memory.

We can create our own movies now. We don't have to be in any one else's movie.

We have had our Universal Freedom Restored. We are now a part of the original alignment of the Perfect Order of the 12 Stargates leading into the Omniversal Creation of the Cosmaya. We have aligned with the 12th Star Aramatena. We are no longer in alignment with Nibiru. Those who think they are seeing Nibiru are only seeing the memories that were planted in the cellular memory by Invader Races to instill fear.

We are temporarily being held within a Plasma Blanket of crystal light, crystal dust and crystal gel, which is the make up of the plasma radiation that is like a nuclear transformer which creates an Eternal Supply of energy. We are living within the Stardust of Urtha and we are living within the Cosmic Etheric Consciousness of the Cosmaya Star ship.

In 2047, Urtha will complete her mission of giving birth to Earth. Earth will continue to be held within the Cosmaya Ship to provide the harmony and balance while we absorbed the Divine Energy that the Cosmaya provides. We can inhale the Crystal Star Dust and Liquid Light Energies directly from the Cosmaya surrounding us now.

These divine frequencies will raise our accretion level to be the same as the Inner Earth and the Cloud Cities as early as 2017. As we raise our consciousness into this accretion or frequency, we will be able to see the New Reality which is actually the Normal Reality that was always here. We are just being rebalanced into a higher frequency of Conscious Reality.

As these realities take place, there will be those who can perceive of them and those who cannot. As we are gaining our new freedom that allows us to transform our bodies into a new chemical and biological structure, there will be those who continue to live in their inorganic carbon based bodies because they have chosen not to participate.

While those of us in the Mystery Schools are learning how to turn our bodies into light with the use of the Merkaba and the inhaling of Source Frequencies, there will be the other 99% of the world who do not participate in returning to their Divine Essence.

While those of us in the Cosmic Mystery School of the Omniverse are learning how to sing new harmonic melodies with the Cetacean Family through the Music of the Spheres technology, the majority will still be performing in Electronic Bands that are called Frequency Electronic Music.

Those are participating in a Solfege reality. Solfege means music that is audible in the third dimension. The music that must be heard *is the music that is Cosmic, etheric, not heard-- but felt within the atoms.*

## TOWER OF BABEL

How were we separated from our Normal Reality?

The TOWER OF BABEL was created to divide the Angelic Human Race into 12 separate frequencies that could not communicate with each other. Originally we could all telepathically communicate because we all had the same fire letters for our frequency exchange. The correct letters are ka ha ra ya sa ta ha la. Kee ra Shay ha sha are the fire letters that set us free *into pre light and pre sound where*

*the problem no longer exists.*

The TOWER OF BABEL is being removed by the frequencies of the SIX AVATAR CHILDREN and the Stellar Wave Infusions.

We can now begin to learn about and focus on the development of our new biology, our new chemistry tables, our new source of energy, our new formulas for breathing in the magical transformation. We can now begin learning how to enjoy our Normal Reality that allows us to Fly in our Merkaba Space Ships, create Orb able bodies, ride on Space Ships that will be landing soon to greet us.

We have needed to wait until the time when our frequencies are high enough to become compatible with the frequencies of our Starry Brothers. In 2017 our frequencies will be balanced harmonically so that the Emerald Covenant Races who have been our Guardians for millions of years will be able to come to Earth and meet us.

The new chemical chart will be a transmutation of the old plus the new creating a new chemical reality. For example, the physical water, H<sub>2</sub>O will combine with the Spiritual water, H<sub>2</sub>O<sub>2</sub> HE3A. This will create a type of water on Earth that has Helium in it.

When the Guardians first started sending me songs in 1992 to celebrate the signing of the Peace Treaty. The first song was the Promise of a Perfect Kingdom, next Greater Works, and later on The Airbaloon of Happiness. That Air Balloon song was telling me that our water would change to be like the water the angels bounce across the clouds on. When our water changes to this water that we can walk on, so will our bodies transform, and the biosphere will become compatible with our Starry Families.

The Greater Works song was given to me to let me know that we would soon be doing the Greater Works of Removing Death. That was the Promise that Jesus made long ago. He told us that one day we would do Greater Works like he did. In those days, the Greater Works in all Mystery Schools meant learning how to ascend beyond death by learning to transform the body into light energy and orb among the stars.

This Science that was taught by Christ has been returned to Earth. We have been given the formulas needed to train the body how to orb, how to ascend beyond the dreams of those who made us think we needed to die, and how to create multitudes of realities together with our higher selves.

There is a very long history of what went wrong over the past billions of years. The problem with our system because so problematic as a result of all of the distortions the Invader Races placed in our Divine Templates over millions of years, that the Guardians decided to save us from the guarantee of a race line being completely abolished forever.

A huge part of the balancing act was done by the Dolphins, Whales and other Cetaceans who are the frequency links who have been balancing us and keeping our frequencies high enough until this time. The job of the Cetaceans is nearly over. They have already ascended to the Sixth and Eighth dimensions.

They have prepared the way for us. They have been here for the bio re genesis program that would activate our DNA.

The secret of the ascension plan lies in removing all of the ERROR or erroneous ideas that has been lodged in our cellular memory as a result of the seals placed in our divine templates.

The final act of the Sun of Ra Team is to bring in enough Solar Energy to melt away these miasms and unlock our DNA sub harmonics. As this activity is taking place, these old horrific nightmares that have been locked within us will come out to the surface.

Those who will make it through this transition harmoniously must learn to melt away those nightmares and terrible thoughts and ideas rising to the surface. This is done by taking the idea up into the Sun's energy and melting it into liquid light energy.

"Why is it important to run Source energy through Earth's new Christ Consciousness Grids?

Christ Consciousness on New Earth – Source frequency and knowing comes down through the 12th Dimensional Christ Consciousness, through the ideal of the 6th dimension and resolves into the 5th dimension of manifestation.

The Aquafarians have been living in perfect harmony of Oneness and Love for millions of years and maybe even for billions of years. They have been living through the process of Hydrolaise restoring life to every cell in their body and their star every nano second.

If we choose to connect our consciousness into the frequencies of Aquafaria and the Cosmaya Ships and learn to breathe the crystal star dust and hydrolaise into our atoms in the manner that we were directed, we can restore our original birth right of Eternal Life.

We must do this through our relationship with Urtha through the bridge zone of Aquafaria Cloud Cities and Inner Earth. We are now being raised into the accretion level of 4. Which is the same accretion level as Shamballa, Telos and Agartha. This is not the fourth dimension. This is the fourth accretion level.

Soon we will be perceiving the reality of those places rising into or morphing into our Earth through the Essence of the Hydrolaise.

We have already been given all of the knowledge of how this process will take place and the formulas for activating the hydrolaise in our cells and we have been taught how to raise our frequencies into the perception of the 5D reality.

Now, we need to make a choice between remaining in the old reality or seriously pursuing the tools, techniques, frequencies and schooling needed to raise our perception and understanding of the new reality that is forming within us and around us.

Many will remain blind to the new reality because perception comes from within. Even that concept will be almost impossible for most to comprehend. The first step is the willingness to Learn Something New rather than discrediting the teachers who are trying to teach you the truth, just because the ideas are new and you are AFRAID OF NEW.

The purpose of the Cosmic Mystery School of the Omniverse is to teach the process of becoming Normal – which means Immortal Christs walking on Earth.

When damage happens to a solar system, or a sun or a planet; it is caused by the contradiction of calculations, or the ERROR placed in the System. It is the Error that causes their natural, scientifically correct, formula or process of ascension to become BROKEN away from the SOURCE FIELD of Eternal Creation Energy.

The Correct Process of Eternal Life Energy would be a continuous flow of Frequency Energy growing in the Crystal Heart of the Planet, Sun or Star and then flowing up and out the North Pole of the Entity. This flow of energy would continue to Oscillate from the within to the outer space between all of the other Suns, all of the Suns and Stars and Planets who harmonically share the BREATH of this Divine

Energy in the Normal Science of Source. There is this continuous Oscillation Process of Exhaling Frequencies from within and then Absorbing the Infinite Energy from all other Sources. The Focal point of all of this Energy always originates from SOURCE. That Source Field is the outer band or outer Sphere of all Spheres of Musical Light and Sound that is continuously Breathing Eternal Life into the Suns, Stars and Planets. The Energy Flows so Harmoniously that a continuous SYMPHONY OF LOVE is always singing between the Harmonic Universes.

When this flow of energy is broken, the Eternal Life Process cannot function correctly. That is what happened to the Earth's Matrix. It was broken away from the Correct Flow of Energy.

The Flow of Energy always begins with Source, which is the Outer Most Sphere of Creation and the Inner Most omni particle deep within each atomic particle of everything that is.

That original Divine Template of Source that is deep within every atom of the body, the atmosphere, and all creation can never be damaged or broken.

However, the relationship with that Divine Template can be Broken by spinning particles and anti particles in the wrong direction so that the Divine Connection can not be made. That broken relationship manifests in the lack of harmony in Consciousness of beings who are a part of the Broken Matrix.

That is basically what was done to the Earth's Matrix on billions of levels of light and sound. What was done was like taking a beautiful symphony of music and placing millions of discordant notes in the music.

The Science of Ascension is the exact process of how frequencies are accreted into harmonics. As the frequencies accelerate to a higher rhythm, the density is evaporating. The process can be likened to the ionization of water, because the water is becoming vaporized through the process of negative ions singing in the water.

I was introduced to this Science of Ascension by a team of Elohim

Angels with Melchizedek over seeing the project. Each time the Elohim Angels came to talk with me, the Melchizedek were standing a few feet behind them, as if they were being watched and guided by the original 12 Cloister Race Line.

Just a little background information.

The Elohim Angels were the original Cosmic Consciousness Entities who created Gaia. The Melchizedek were the Race Line that Jesus Christ 12 was born from. This was also the Christic Consciousness that formed Terra Firma.

So, when we are talking about Elohim s, or Melchizedek s, or Syrians, or Oraphims, we are talking about Consciousness Fields of Light and Sound Creation. That is what every Race Line and every Individual is formed from.

These entities rarely think of themselves as a Name. They always refer to themselves as a group of Cloister of Consciousness.

If this entity claims he is the Angel of Love, he would be teaching us how to use the FREQUENCY OF LOVE to tune in to the new Cosmos that has allowed our Re-Birth. Cosmic Creators work in very large groups of Consciousness-never as individuals.

Angels are always teachers. They are the Cosmic Consciousness flowing directly from the Mind of God to create our manifest reality through our atomic mirrors that reflect back to us all that is within our Spiritual Self.

If there is an Arch in the Angle or in the Angel, we might want to be a bit suspicious of which way the Angle of particle spin is being tilted.

The Arch of the Covenant is another very interesting piece of our Ascension Process that I will talk about later on. That was probably the most important tool in the activation of the Ascension Process.

The Sun Ra's Confederacy was the original Guardian of the Entire Cosmic Project. There were the Seven Oraphim Races from the Seven Suns who were involved in the project. There was the Cosmaya Guardians guiding from a very high level. These Councils

were made of millions of team members on each team.

Each time we begin a new Ascension Cycle, we choose Teams to be on. For instance, when I was taken into the Crystal Temples in Aquafarian I was introduced to many great entities who invited me to be on their Healing through Music Teams. Since that original team meeting in 2007, I have shifted on to different teams who were more exactly in resonance with what I felt directed to achieve in my new Cosmic Mission.

These teams are shifting continuously, even though they seem to maintain similar interests such as Ascension, or Music or Healing, but in many different forms. I originally teamed with Kuthumi to learn about the original Music of the Spheres Schools. But, it only took me a year to learn that there were many more advanced teams than that one. The original teachings were the only thing that could be understood in that time and place.

We are in a very different time and place now with a much higher set of frequencies to work with, a much greater range of Consciousness, a much greater team of Cosmic Angels guiding our arrangement of our Symphonies of Light and Sound, and a much greater understanding of how Healing is as simple as TUNING IN.

My team members and Soul Family do have names. Usually names are only used between family and friends. The only other time the Guardians use names are to create Heroes in stories. Everything we have achieved and everything we believe in was created by the Stories created by the Guardians to teach about the Heroes that we had each been at one time and that we would each become again in the future.

The stories about Jesus and Mary were created by the Elohim and Sirian Teams. Those Ascension Teams were working on this project for millions of years before they created the Jesus and Mary stories. That was just one of their stories. The AA Michael stories were also just stories that used heroes to motivate and activate future heroes in the stories of the Cosmos.

We have also been given many stories that contain very accurate

information in movies and songs. When the writers are writing their comic strips with heroes in them, they don't realize that all of these ideas are coming directly from the Cosmic Creators who make God's Movie.

I was continuously singing songs that Jim Morrison wrote for the DOORS when I was in High School. I didn't know why I was so drawn to the song titled THE CRYSTAL SHIP. But, now I know that the Crystal Ship is the Fiery Vehicle that I rode to come to Earth and the Carrier that we will Orb to the Ascension Earth on. When Morrison wrote the song, there was still the problem of the Dark Ones being on those Ships. I always felt like that could just be a part of the adventure of riding the Crystal Ship home. The other song that Morrison wrote that I was attracted to was BREAK ON THROUGH TO THE OTHER SIDE. Once again, here we are breaking through the Veil into the Ascension Earth.

It turned out that Jim Morrison was actually the son of a very high level officer in the deeper levels of the military and NASA regiments who had access to some very High Level information. That is the real reason Morrison died from an over dose of drugs. It is assumed by many that he was removed because of the information that he was sharing with the world through his music.

I could list names of songs and song writers all day who were obviously being sent messages from our Ascension Teams.

They took a different approach with me. They were always teaching me about the Frequencies in my Voice. They taught me how to sing like an Angel and they told me that when my normal speaking voice continuously used those same frequencies, that is when I would ASCEND. That was my first message. I had many more steps of guidance in learning how to create the music that would bring the highest frequencies to Earth and then create a portal to the other side.

The Priests of Ur were the Lords of the Terra Firma project. The team from Sirius B offered their assistance in the Ascension of the Earth's Matrix because their system had an identical accretion level with the Earth's Starry Essence.

The Priests of Ur have been extremely cautious over the eons to protect Terra Firma from complete and total destruction as a result of Invader Races destroying the 12 Coded Raceline that they had worked so hard to create.

This perfect template must be guarded and returned because it was a Race Line that was the first of its kind ever created. It was created from the foundation of FREEDOM. However, this freedom was abused by outsiders during the past millions of years. The Electric Wars of 5.5 million years ago pretty much destroyed that perfection that could not be restored until this very time in history 2012-2017.

It is important that the children who are growing up during this most divine time of our Cosmic History become educated about the entire Cosmic Structure, and how we are all a very Divine Part of the entire structure.

We have to stop talking about war heroes such as AA Michael, and start looking at the SCIENTIFIC means of creation of a Star, a Planet, a Cosmic Structure and even a Human Angelic Being.

We need to know where all of these Divine Beings, who are all a part of who we are, originated from, and what part they have played in our Divine Plan.

We need to know how the songs of our Planets are created from the Breaths of our Cosmos and how the Universe is always creating a new Symphony of Love to give birth to another Starry System of the Brightest Light and Love to be created.

We must learn about the Divine Structure that was placed in the Earth's Christic Grids and how we can not attune our Consciousness to this harmonic navigation just like the birds do.

We must learn how we are created like the butterfly in the normal reality system. Our neuronets are now being placed in the cocoon of cosmic plasma that is preparing a new movie to be created when the Synaptic Cleft of each neuronet becomes enlightened with the new reality of the Ascension Earth.

We must learn how to see these new realities through the eyes who have not seen and the ears that have not heard the things that God hath created for man.

We must learn to go beyond the hertzian level of seeing with the eyes into what can be seen with the eyes closed. We must learn to go beyond the audible sounds that hertzian Solfege music is made from and learn to listen to the breaths of Cosmic Consciousness, Christic Consciousness, Angelic Creation that is buzzing and singing within the cells as you listen to the crystal magic orchestra music.

Why do we need to do these things?

Because it is time for us to Accrete (Raise our Frequencies) into the Accretion Level of Inner Earth, the Cloud Cities, the Ascension Earth and into the Starry Essence of Urtha (the template that Earth was formed upon).

The Earth is already tuned in to the 4.0 accretion level of Inner Earth. However, we must raise our frequencies to the fifth dimension in order to perceive the density level of 4.

Most people on Earth are still perceiving the fourth level because they haven't worked on learning to see beyond the third dimensional perception.

We learn that perception by using the light of the candle or the light of the sun. We must tune our eyes into seeing what seems to be in the invisible light spectrum. We must tune the eyes to see what the digital camera can see.

I like sharing the pictures of me holding my violet sphere to show how we can actually see what the digital camera can see. This would be the infra red spectrum.

Why could we see the BLOOD MOON in October of 2014? Because of the new Infra Red Spectrum that so many have been able to tune in to. This is proof that the Frequencies of the Earth's atmosphere have been raised and the angular rotation of particle spin has been

shifted into a new angle of perception.

Ascension involves moving 45 degrees. Each time we are raised into a higher harmonic universe, we shift 45 degrees.

This Ascension is not the normal Ascension Science. Since the Planet Earth, and the other Planets that Earth is Hosting from the Milky Way Galaxy, did not originate in the Milky Way Galaxy, we are now in the process of moving Earth out of the Milky Way and back into the Aquari Matrix where we came from. (That is why there were songs written about The Age of Aquarius).

This is truly the age or time when the original Aquarius Frequencies are tuning us back into our Consciousness. That Aquarius Frequency is deep within the most Etheric part of the Earth's Crystal Heart. The Aquafarians were the Raceline that began the re-birth of the original Earth 5.5 million years ago. They created a Starry Essence from the Sixth Dimensional Elemental Substance that is the exact form of the Cosmic Vapor at a denser accretion.

That perfect essence is waiting deep within the Earth and deep within our neuronets to create that cocoon around each of our neuronets so that our synaptic cleft will produce God's Movie of the Ascension Earth when they become activated through enough Frequency Accretion.

The Earth has been stuck in a time warp for millions of years because it lost its ability to accrete frequency.

The reason for the birth of 144,000 Indigo Children, Six Avatars and then 5,000 more Indigos born with their 5DNA activated at birth was to bring back that Frequency Accretion that is required for the SCIENTIFIC FORMULA OF ASCENSION TO WORK.

Now, our Planet can begin to do natural symbiosis with all of the natural reality structures instead of being locked within a prison of mirror images created by the Consciousness of Beings who chose to be separated from Christ Consciousness.

This is the first time in many millions of years that our system is able to become

normal. This is why everyone in our universe, our galaxy, our solar system, and many other solar systems are celebrating now.

Most systems have the solar symbiosis cycle. When a star breaths, it draws energy in and when it exhales it sends energy out.

When we breath, we send energy out. A living system sends energy up and out to the top of its poles and out to all of the planets and suns in its system. There is a breathing circulation within and between all planets and suns in that system where solar currents go out of the top of the sun and they get picked up by stars around it gives off energy around it and picks up energy from those around it on a horizontal plane.

There is a natural solar symbiosis cycle with an eternal life solar system. In such a system all Merkabas are spinning at the right speeds and everything is exchanging energy through Prana in natural crystal order.

Through the normal Universal Science, there would be the Lotus Arch operating inside the planet. Those are part of the Luma Eternal and the large Cosmic structure they are built upon. Around each Merkaba is a chariot of fire with electromagnetic fields that plug into the next level up.

We can now learn to ride that Chariot of Fire through the Spheres into attunement with the Core of Sun 8. This is the re-birth of the entire Omniverse. Each of the Seven Suns of the Oraphim Race lines created Universes of their own over the past billions of years.

In order for one of those Star Systems to be reborn, the entire Cosmos must be re-born.

That is how we know that when an entity says he is in charge of creating a new Golden Galaxy, there is something FISHY going on.

The Cosmic Councils were never working on creating a new Golden Galaxy. They were always working on the creation of a new Cosmos through the Cosmaya Plasma Council of Thirteen Cosmos.

That Frequency of creation was born into the Cosmic Core Domain of Sun 8. Sun 8 was originally Sun Alcyone who gave birth to the original Ajaho Star, who became known as the Terra Consciousness of Planet Earth.

You see, the Earth is the Third Dimensional Planetary, the Tara would be the Fifth Dimensional or Harmonic Universe Two Structure, the Gaia would be the Eighth Dimensional or Harmonic Universe Three Structure and the Aramatena would be the 12th Dimensional or Harmonic Universe Four Structure, and the Cosmos contains the 14th dimensional Frequency that is required to reform the entire Cosmos. The 15th dimension contains the pre light and pre sound that co-creates with the Mind of God in the Creation Lab. And all that is in the Source Field is a Void of Infinity waiting to have a new reality painted upon it.

We were never in the process of improving the Milky Way Galaxy or making it into a Golden Galaxy. We have always been working with a Group of Cosmic Councils who were creating directly from the Breath of Source. They waited for millions of years for the exact second in time when they could align the VERSIONS of the most Perfect Set of all 12 Universes at one moment in time.

They flashed that perfect moment of reality into a brand new Omniverse where all 12 Universes would sing the Symphony of Love in perfect harmony.

Meanwhile, the chorus of the Cetacean Raceline and the other Elementals of the Earth's Foundation is singing a Symphony of Love through the Earth's Grids and into every cell in our bodies. It is our time to EXHALE that symphony out into the atmosphere and participate in the process of walking into the ASCENSION EARTH.

This Earth that we are now living on contains the old template of the Net Earth -- the one that had its Christ Grid twisted, and the

Ascension Earth created from the Inner Earth, the Cloud Cities and other layers of Etheric density, are exactly in the same place.

We are actually standing on the Future Earth- the Ascension Earth. That reality is no longer a part of the Milky Way Galaxy.

Anyone who is still telling you how to read your astrological charts is still living in the Net Earth that is in the Milky Way. Anyone who is telling stories of AA Michael is still living in the Net Earth.

We are no longer a part of the Milky Way Galaxy. We were born from a Star System far away from the Milky Way. The Milky Way Galaxy was always a fallen system. It was completely disconnected from the flow of Source Energy. The stars that fell into that system were all being used as fuel for other falling systems.

We are not in the Milky Way system. This is why we will require a NEW SCIENCE to appear on Earth that realizes that we are tuned into the Universal Life Force Currents of a Universal String Theory of Eternal Life.

That will be the new Science of Christ ( the 12th dimensional Christ Science) that is born from the Fifth Dimensional Consciousness which is Multi Dimensional in nature.

This is the time we are in NOW. It is not some future time. We are here NOW. We are in Attunement with the NEW OMNIVERSAL structure of 12 Brand New Universes within the 13 Cosmos of our new Grand Creation.

There is another story going on at the same time. There were always a group of Fallen Angelics attempting to create a Golden Galaxy from the Fallen Milky Way Galaxy. The Galactic Federation was a Fallen Angelic Group. The Ashtar Command was a Fallen Angelic Group. These groups chose to join the Draconians because they didn't think there was any chance of saving Earth. Those groups who signed the Peace Treaty in 1992, all abandoned the Earth and chose to join another group who would create a Fallen Angelic Group that had 12 DNA-- but their DNA would be negatively charged energy. So this group would be allowed to live in a system that was definitely Golden

compared to the Phantom Matrix and other Fallen Matrixes. This group would live a life that would continuously retrieve energy from other Planets instead of from Source. However, they would lead a life that led them to regeneration to Source at some time in the future, even if it was through Star Dust.

The normal system of the positively charged 12 DNA sub harmonics will allow the Human Angelic Raceline to continue in Eternal Life that sees no death as we rise through all of the Harmonic Universes in Universal Harmony all the way back to Source Field. At that time we can choose to sleep in the Cosmic Blanket forever if we choose. At least until the time we get tired of doing nothing and want to begin a new Journey through the Mind of God.

### FLOWING THROUGH SPIRITUAL WATER

We are going through a HARMONIC CONVERSION PROCESS. This means we are being converted into a higher frequency accretion level. Higher Frequencies are made of more etheric structures. All Cosmic Structures are formed from the Pre Light and Pre Sound within the Etheric Vapor that is within the Plasma of the Suns. We are in essence made of the same chemical structure as the Stars. We had this same structure densified.

However, since we fell into a system that was not NORMAL, our chemical structure became mutated into the Carbon Based Structure.

That is not NORMAL. That is a corrupted chemical structure.

In order for our bodies and our entire Universe to return to the Organic State of Stardust, the Cosmic Guardians had to remake the entire Cosmos from the original Divine Template within the Cosmic Vapor. We must always be created from the Source Template, and then that template is breathed into form first as the song or the breath- the Sound and then that Breath ignites the Light in the Flame.

So, in essence, everything is made from Light and Sound. And then this Light and Sound forms into less etheric forms until it turns into Galactic Structures and Planetary Structures.

So, we have gone from the most etheric form of light and sound into the most dense form of light and sound. Density is not the problem. The Planetary structure would still be a perfect reflection through String Theory of the original Universe it was created from. However, there were Distortions, in harmonics, minor keys, twisting the original Symphony of Pure Love into very bad songs created from pain and hate and fear by Rap Singers who used mostly four letter words that are not considered proper in our society.

And even that was accepted by our society, because we all knew that our Planet was in a state of chaos.

That time is over. Now it is time to Breathe the most Harmonic Breaths directly from the Consciousness of Source and the Symphony of Love that holds us within that Eternal Life Program.

The harmonic conversion of the entire system begins with the spiritual water. Everything is made of water. Now, we are starting a new system that is not formed from Physical Water called H<sub>2</sub>O. We are now creating an Eternal Life System from Spiritual Water called H<sub>2</sub>O<sub>2</sub>HE3.

A natural conversion process is hydrolaise – gelaisic radiation naturally occurs deep within our cellular templates.

Hydrolaise is key to an intricate breathing process that stars use. Planets can't breath, but stars can.

Its like our process of breathing that keeps cellular process going where we emit carbon dioxide.

It is closer to the photosynthesis process that plants do. The natural prana exchange cycle has to do with bringing in spirit body and progressively respiritualizing matter through prana exchange. Building charge that allows you to move forward in time by recreating your spiritual body frequencies through the Eirodonis.

Hydrolaise conversion is natural to a living star.

Every living atom on the Atori side has activation on the Adori side.

(Adori and Atori are spiritual and physical, female and male) Certain interactions that would naturally take place and form certain substances that are of the natural Christic Universe are considered the heliomation of water.

Hydrolaise converts to Aquafarian water. This water is liquid light energy. We can walk on it, breath it, swim in it, fly through it. It is always aqua color and always perfectly clear.

Hydrolaise conversion is the natural process in breatharian body. It is the healing water.

Water will be the most valuable future commodity on the New Earth. Everything will soon transform into a crystal form and a hydrolaise form.

This new spiritualization of water creates from taking in certain things from the air that have to do with the oron crystals of the old Net Earth. There is a breathing process through the Aquafarian Elementals that is literally breathing light and it allows for this conversion of various things including hydrolaise in the body that sends parts of the converted energy from hydro phase back into prana seed so you can keep the flows open. One part of the energy is taken into the blood like oxygen and then circulates in our bodies, and then it releases back into the atmosphere in the form of the hydrolaise that then goes through its conversion in the air where some of it becomes water and some of it becomes lighter ( a gas) that goes into the air. They breath the gas into their body and then their body converts this gas into a hydrolaise and part of it goes into fuel the natural body systems of the person breathing it and when they release the remainder of hydrolaise back out it releases a form that puts more back into the air and creates water emissions. It comes out as air but as a certain point that air splits and some gets lighter and some gets a little heavier and becomes a light form of water (H2O2HE3A) means spiritualized water.

This is the hydrolaise conversion that takes place during Light Body activation. A natural set of chemical reactions that take place in an eternally living

body and the easiest way to do it is by bringing the Eirodonis Flow of Christ Light Energy from the 12th Dimension.

The frequencies that have been coming in from Aquafaria have been brought here to jump start this hydrolaise conversion in our bodies.

As it kick starts, we can begin to take more than just oxygen from the air.

Very light plasma is coming in. It is a form of air born hydrolaise. It is releasing now in the spanner gates and coming down in our atmosphere that will create a process for us. If we use it. If we don't use it. It will evaporate and loose charge.

There is always a natural relationship between the Christic Beings and the star  
they lived on where their natural bio-process would give back something the star needed for its natural process. So it was always a natural symbiotic relationship.

The solar symbiosis process is a process by which emissions coming from the central sun send the solar wind- electrons, protons and things like that.

There are supposed to be certain things in the atmospheric layers. Some would be from the chromospheres, some would be below the chromospheres.

Those things are called ORONS (oxygen bound with Helium) the elemental manifestation they pick up solar charge – natural emissions from the central sun and they store them for a while and after they densified a bit they come down in certain areas. They come down the Alurian chambers – the 12 fire chambers on our Rasha Body that go into the Light Body Structure. There are Natural phasing cycles that happen several times a day in a normal star environment where you would have the ORONS descending their solar charge with the energy they

have.

They would go into the surface of the Earth and the surface of our skin or tissue of the skin. There are ShAlons running through all muscle structure. ShAlons, Kalons and Orons are crystal bands that make up the structure of the body, the planet, the solar and cosmic systems.

We are becoming one complete system made of elementals of the Atori Side (the half self we have been living as) combined with the Adori Side (the half of our self that we are now re-uniting with).

If our present chemical state (the Atori half) tried to enter into the frequency or the chemical structure of the real star system that is hydrolaise based we would pollute that system. They would have to wear gas masks. We smell like methane gas or rotten eggs in their systems. We would presently stink up the joint. This is why they have waited so long to be able to visit our planet. We are a toxic system to other star systems.

Breathing the hydrolaise and doing the ETERNAL LIFE WATER Journeys will speed up this process of uniting our Adori and Atori into one Eirodonis Body which contains the frequencies of ascension into the hydrolaise star system.

Those structures we see Now are Not natural. The 13,14, and 15 th Gelaisic layers of each level would be a chromospheres. It would be like the sun. There would be natural subterranean structures within the structure. There would be natural Biomes that could live under the chromospheres – there would be no sun radiation because you would be the sun yourself. You would take in the current through your poles and have natural symbiosis cycles.

Our DNA has been programmed through these Nets. When the Nets are down our DNA will return to its original 12 sub harmonics activated in each of the double helix and through our parallel spiritual self who will give us another set of double helix strands instead of our

present fragmented DNA that had the overtones and base tones disconnected.

## THE PROCESS OF BECOMING IMMORTAL

We are moving through the grandest of times ever known to our Cosmic Families. We are being given the Stardust and Hydrolaise (Spiritual Water) that is needed to transform our bodies. The Consciousness, or the Frequencies of this energy of transformation is coming in through the Stellar Wave Activations related to the Solar Flares and CME ejections of the Sun.

We are going through this transformation because our COMPLETE SPIRITUAL BODIES were tilted to an angle 15 degrees from their original Templates. Our bodies are tilted 15 degrees clockwise from the Alignment with our Eternal Life Body.

This angle of rotation created a loop that goes through the Crystal Heart Area of the Body. That area is what would be called the Density One Body or the Etheric Body. The loop cause a mis alignment with this Etheric Body that is positioned within the Crystal Heart as well as a mis alignment with the Mental Light Body. So, there was this distortion of energy fields that locks right at the Crystal Heart area within the Thymus. This is also where the SEED ATOM of our original creation resides.

So, our physical body was disconnected from our Etheric Body, our Seed Atom, our Soul, our Mental Light Body.

We can now use the Frequencies of Star Dust and the Spiritual Water H<sub>2</sub>O<sub>2</sub>He<sub>3</sub> from our spiritual Aquari Matrix and our Inner Domains in the Cosmic Core of Mother Earth.

When I create the Eternal Life Albums I realign the Physical, Etheric and Mental Light Bodies back into the Original Divine Self, where the three spheres or three bodies intersect at the Crystal Heart area correctly, without the Loop that keeps them disconnected.

The process of removing that loop in the Heart area requires an alignment from the Mid Brain up into the Cosmic Consciousness of the Aquari Matrix. The Cosmic Alignment point is 36 inches above the head. I create a clearing from the Mid Brain through the ears and into the Elohim of Hearing or the Aquari Maharaji ( their new transformed selves). Once that PRIMARY NEURONET is reconnected up to the Maharaji, That Consciousness Neuronet creates a Clear Passage to Cosmic Consciousness. Next the Frequencies of the Stardust flow must saturate the Mid Brain area and the Pineal Gland. We then Move that Stardust Consciousness down into the Crystal Heart area to begin the transmutation of the block or the loop in that area. Next, I inhale the Water Orbs of Hydrolaise or Spiritual Water that are brought into the atmosphere from the Cosmic Inner Core Domains of Aquafaria. The Water Elementals from the Spiritual Matrix are inhaled into the Mid Brain and into the Crystal Heart.

Once there is enough of this consciousness brought into the Crystal Heart, a Secondary Neuronet is opened up through the back of the lower skull ( the medulla oblongata). That is the Secondary Neuronet that connects directly to each Individual's Original or Normal Body that does not contain the ERROR of ALIGNMENT.

We create a back flow from within the corrected mid brain and crystal heart areas into the Eiron Flow that Flows out the back and up at the 15 degree angle into the DIVINE TEMPLATE or Correct Body alignment.

The opening of the flow is increased each time a person listens to their Eternal Life Album.

The stardust consciousness, the spiritual water consciousness from the Aquafarian Elementals, and the Plasma of Crystal Gelaisic Elementals are available to us to be used for this purpose of Transformation.

I continuously connect my consciousness to this restored transformation pattern and I connect my Consciousness into the Elementals from Aquari and Aquafarians who are making this Ascension happen for us.

It is the consciousness or frequencies of the Stardust, the Liquid Light and the Crystal gel that is transforming our bodies. We must inhale these frequencies into our atoms and then see the explosion of energy from within the atom create a 12 pointed starburst. That is actually an activation of the neuronets from within the atoms. When the neuronets reactivate into a New Reality where the distortion that blocked the physical from the etheric and the mental light bodies, the body begins to realign into the Median Earth- the Cloud Cities, the place we have called Shamballa.

The meaning of raising frequencies means we are now living in a hertzian and visible light frequency where we only believe in the things we can hear and see. We must move into the Cosmic Frequencies of Stardust, Thermal Plasma, Liquid Light, Hydrolaise. This level of frequency cannot be seen, but it can be felt. We can feel the stardust and the hydrolaise come into the atoms of our mid brain and our crystal heart. We can feel the opening of a cosmic flow through and between the atoms. The Consciousness that is allowed to enter the body is Cosmic. This is the Frequency and the Consciousness that is required to realign our bodies into the Normal Template that allows us to begin the process of Orbining into Higher Dimensions.

All of the Universal Life Force Albums and the Eternal Life Album and the Violet Flame Album are for the purpose of bringing the Stardust flow into the body.

The Sun becomes the Son of the Star and the Stardust becomes the Son of the Sun  
A new Star is being born within the Sun to Transform the Earth into the Star from which she was born.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion into a new reality- a new frequency-

a new dimension-a NEW HARMONIC UNIVERSE.

Ionization is loss of electrons into positively charged ion. This is a conversion--harmonic conversion.

When a person learns the process of ascension is a breathing and spinning process that utilizes a very complex system of polyhedral geometries that create Cosmic sphere that contains multitudes of merkabas that spin in side of each other through the activity of consciousness called love, they will go through this process of becoming a disappearing entity through a rainbow prism.

Where is the rainbow coming from? It is coming from intense electrical field that is ionizing to some effect like a magnetic mirror which is a device used in thermo nuclear processes that is in the mirror is contained an intense field working in the vacuum. Then ions are injected inside of this intense electrical field inside of the vacuum then immediately the electrons of those ions return to plasmic state. What state are they returning to? Invisible light, ultra violet blue, plasma. The entity looks like a Cloud, but also looks like an individual that we remember. This process of ascension into the Cloud Cities was very common fifty thousand years ago, and then brought back to our memory two thousand years ago by Jesus Christ.

The truth is, we all contain this Cosmic Body that exists in the spheres within spheres around our bodies. We activate this Cosmic Body that disappears through the rainbow prism our the full spectrum of light energy with the breath, consciousness, focused energy and the understanding of the merkaba technology. The merkaba technology can be visualized and understood through the symbolic method of it just being a four sided cube or pyramid facing up and another one facing down, the one facing down is the magnetic and the one facing up is the electro. So, there is this electro magnetic field of energy that spins faster and faster. However, the Merkaba structure is much more complex than that.

So now the wave is no longer a standing wave in the quantum field but has actually been neutralized and goes back to the plasma of an omni field state positive. That is called a magnetic mirror.

When we use the Keys to Unlock the Magnetic Mirror or the Doors into New Realities we are walking through a Magnetic Mirror of Transformation. We are seeing our Parallel Spiritual Self on the other side of the Mirror. We walk through the Mirror when our Keys unlock the door. The Keys are the Frequencies that I record in the Eternal Life Albums.

My Cosmic Council Team is the CRYSTALAI COUNCIL. My name is Crystalai. Crystalai means the direct return to Source, or the At One Ment with Source through our Mind of God within our Seed Atom within our Crystal Heart.

My Mission on Earth has been to Bring the Highest Frequencies to Earth through Music. The Universal Life Force Currents are far beyond the Light Spectrum and Sound Spectrum of the Five Senses. The Visions and Sounds come to me through Consciousness which is Spiritual, Invisible, and yet Known and Felt Clearly from my Soul Family who brings these Sounds into my Frequency Specific Mid Brain to be Exhaled on to the Crystal Star Dust Microphone that they provide for me.

## ASCENSION IS A MUSICAL EVENT

Ascension is a Musical Event. The word God vibrates at the highest and fastest frequency within and beyond the Universe and the Cosmos. But, it isn't the Word that vibrates - it is the frequency and the frequency signature of the Idea of God which holds this frequency of the Divine Template of all Creations.

We must change our Base Pulse Rhythm in order to Ascend into a New Dimension or New Reality. In September we will receive the new base pulse rhythm of Sun Alcyone. As the Fall Equinox aligns the Vortex of the Parallel and Spiritual, the Sun of the Physical - our sun that we now see will align with Sun Alcyone in our Parallel Spiritual Matrix that we have not seen before. These are not the only two suns that will begin dancing together. There will be thousands of

suns aligning into the new Galactic matrix and new Cosmic Matrix. This new reality is not just a planetary alignment. Nothing can change in a universe unless the entire universe realigns. And the universe can't realign unless the Cosmos realigns and the Cosmos can't realign unless the Cosmaya GROW IN NUMBER.

The first part of the new dance will be the base pulse rhythm of Sun Alcyone shifting our heartbeat from within. The Crystal Heartbeat of our Crystal Heart is actually our Soul. Our Soul on the Parallel Spiritual Matrix was cut away from our Soul. We will reunite with our Spiritual Parallel Matrix containing our Spiritual or Crystal Soul. This will shift our heart beat and the heart beat within Earth's Inner Core.

We created Mother Earth's HEARTBEAT OF LOVE MP3 to demonstrate the actual Love Beat rhythm. It is the Merkaba that spins ten thousand times the speed of light into the speed of love. That Love Speed is the Speed of At One Ment of Source Frequencies with the Heart of the Universe. That is great new Symphony to soon be heard. You may listen to each one of the songs on this album at CD Baby just press the listen button on the Main page.

The Breath of Source is the highest frequency of the eternal creation. We ignite that spark of Source within our selves when we breathe the crystal light energy into the spark of Source in our Crystal Hearts. This is what all of the music on this website is created to do for you.

That Breath of Source Consciousness contains the frequency signature of the Divine Template. The Divine Template is the formula or the foundation from which all of the grand Creator's creations are formed from. The grandest creation is man, who is made in God's image and likeness. The image and likeness of Source is the Divine Template.

Each Soul is that Divine Template. Let's look at what the Soul has been and is going to on the Divine Scale. Let's say that the Creator was this grand musician who was orchestrating the most glorious, luxurious, joyous symphony ever to be heard.

Let's say that Composer wanted to hear His perfect frequency signature or key signature performed in the most harmonious harmonic weaving and braiding of glorious sounds as they transformed His perfect frequency - still the Highest Frequency into Music or Sound.

Let's say this grand creator decided to base his glorious symphony of Love on eight tones. Or maybe it was 12 tones. Or maybe it was 16 tones.

Lets say it took 8 tones to create what this great musician wanted to produce. So, everything he creates is based on 8. That eighth dimension contained the man made in the image and likeness of source. And that man was a co-creator who could create symphonies through the ears of the Elohim of Hearing who lived in the 16th dimension, exactly one octave- or 8 dimensions above the dimension of the God Man.

This parallel - spiritual 16th dimension - is, now the base tone of the set of dimensions below that Highest Frequency of Source. So, the set of tones below the 6th - which are the 15th,14th and 13th dimensions are completely resonating in perfect harmony with the 16th tone of Source Consciousness which the Elohim of Hearing could hear and express.

So, here we have this great plan of orchestration, where the greatest Musician - Source- is breathing into the EAR of the Elohim of Hearing.

The Elohim of Hearing is co-creating Sources symphony of Love in the Cosmos. The Cosmic Consciousness of the 15th, 14th and 13th dimensions hold that Frequency Signature as their Tone of Home.

Next, the angelic Consciousness from the 13th dimension holds this glorious tone of home and wants to become the co-creator who will hold the base tone rhythm that pulls in the harmonic convergence of the 12th dimension or 12th harmonic frequency signature. This 12th dimension will become the grand creation of those frequency signatures from the Cosmos creating a glorious form of Light and Sound that can be heard as the Elohim of Hearing and also seen as

the Light from the Crystallite Energy Entity.

So, now there is this wondrous sound of Angelic Choirs singing this glorious symphony of Light and Sound creating stars in the sky.

That 12th dimensional starry creation was called the Christic or Universal because it contained the Sound of the Highest Frequency or the Breath and Light of the Source - the Spark was breathed upon to become the Light.

This was the formula of the grand Musician. He would have a glorious idea. He would breathe the Consciousness of that idea onto a spark. That spark would ignite a glorious creation of Light. So here was this beautiful Divine Template or plan that all creation would be built upon.

All is perfect and all will always be perfect as long as this original template of creation remains.

So, now all orchestrations that were co-created by the entities of light and sound were breathed into formation from the base tone rhythm of Source Consciousness and the base tone rhythm of Cosmic Consciousness.

Now, the 12th dimension becomes the new creator. This Christ frequency contains the divine template that all new symphonies of Love are created from.

So, we have the Christic Universal Musical Sphere of Consciousness - the 12th, 11th and 10th dimensions combining to create glorious universes full of stars.

The stars get together with their Cosmic creators who breathe the highest frequency of Source Consciousness onto the stars to create a Sun. now, we have the base tone rhythm of the Universal Frequency lifting into resonance the Galactic Sphere of the 9th, 8th and 7th dimensions. the galactic sphere would hold the Music of the Spheres that would create Suns.

These suns wanted to have entities who could experience all that had been created. Source wanted to experience himself. The Suns created stars that contained cities of light. The cities of light were created from the sound of crystallite energy. The stars and the cities

of light hummed a glorious symphony. The symphony contained melodies of individual ideas. These melodies were called man. The man of this glorious light and sound of the galaxy could create his own melodies. The melodies became the base tone rhythm to create solar systems that contained these entities individual creations from their own unique tone of home.

These entities called man were gods or co-creators with Source. They were still creating all from the original Highest Frequency of Source breathed into the Life by the Elohim of Hearing, formed into the Universal Star System experiences as Suns, Stars and Cities of Light.

Now, we have this glorious formula of creation. It is still in the perfect form of Divine Consciousness or the Highest Frequency of Source.

Now, we come to my part of the orchestration. I am Crystalai, and my Soul Merge Partner is aDolphino. We are here to create music from the Highest Frequency of Source with the help of the Elohim (The breath of Source Consciousness becoming manifest as Cosmic Consciousness in its most perfect form) of hearing. We are assisted by Crystal Light Energy who contains the original spark of Source. This Crystal Light Energy is Now streaming the Light Energy or Consciousness from Sun Alcyone - our original Sun of Creation in Aquarius Galaxy (Galactic Creation) into our Template to help pull us back up into the Base Tone Rhythm of Universal Consciousness which creates the harmonic convergence zone to be pulled into Cosmic Consciousness through the oscillation patterns of the Elohim of Hearing.

So, now we have three spheres of energy in our hands - crystal light , crystal dust and crystal gel. This is the creation substance the prana that all is created from in the Quantum Field. We had this Divine Substance of co=creation returned to us through our Elohim Team.

We oscillate our Consciousness into the Highest Frequency of Source through the Base Tone Rhythm of the Elohim of Hearing.

How do we know that we have received this perfect tone before we record it and use it to create another grand symphony?

We have learned that all bands of light and sound have frequency

patterns. These frequency patterns can now be seen recorded on the screen of the mixing board. The highest frequencies are the highest, fastest streams of light. They can be seen as the tiny little spikes on the screen and the lower frequencies can be seen as the lower slower blobs on the screen. When I record, I always call on an entity to come forth before I breathe the frequency signature of that entity. While I am saying Crystal Light Energy come forth, those words register on the screen as very low flat lines. But, when I exhale the breath of that frequency, the line of light are very high or fast.

The purer my consciousness is, the keener my focus is, the more perfectly I oscillate my consciousness into Perfect Oneness with Elohim of Hearing and into the three spheres o crystal light energy - the higher the peaks of frequency become on the screen.

After I spend several hours getting to the point where I feel I may have achieved that perfect peak of performance where my breath actually captured that perfect key signature of Oneness that my Consciousness was reaching for, I go back and listen to each of those tiny peaks that I recorded. Each peak only lasts a few seconds. So, I may record for one or two minutes an then find one little peak second that feels like it holds the Highest Frequency or the Magical Tone of Home that reproduces the magic of the Divine Template Frequency that I am searching for as the co-creator with Divine Consciousness. How do I know if I've succeeded ? I can feel it. I can feel the healing, the shifting, the lifting into Oneness with that same Divine Template that Cosmic Consciousness created when their Base Tone Rhythm created the harmonic convergence with the 12th dimension to create the Great Divine Template that all symphonies would sing from.

Those entities who created the symphony that formed the Mother Earth as the original Gaia are the same Aquafarian Blue Crystal Entities who hold the frequencies of the three spheres of crystal energy and the Divine Frequency of Creation. Their light and sound is here with us now co-creating our re-birth into that Divine Template.

As our pattern of recreating the Divine Template of each individual is perfected, we will create together a new divine template inside our recording studio that can replicate that perfect creation signature over and over again.

This exact Mother Board of Creation is used on the COSMAYA PLASMA Mother Ship. That Mother Ship is our Aquafarian co-creative consciousness that creates through the Music of the Spheres. Sananda sent this Divine Blue Print to Mother Earth through his template carrier- Jeshua 12. That template was in the form of a man-but the frequency signature came through his breath. We were given this same breath. The breath of Christ - The Universal Template. We breathe this frequency as we oscillate our consciousness into the Universal Template through Elohim of Hearing. We align our template through the activation of Sun Alcyone and the Inner Sun of Mother Earth. This is the same process used by Jeshua 12. We are here to return all into their Divine Blue Print through the process of individual alignment into the Divine Template or the Universal Template Frequency Signature.

So, as we are lifted into the Consciousness of the Mother Ship, so are we lifted into the Mary Consciousness of our Cosmic Egg or the Base Tone Rhythm of the Elohim of Hearing.

When we collect the frequencies that hold the tone of home and the Christic activations we record that split second of Divinity over and over hundreds of times to create one moment of that tone of home. We connect that one moment over and over again, and then layer that divine frequency three or four or five times until the resonance appears that creates a New Divine Rhythm. The rhythm can be clearly heard and felt.

That is the rhythm of the New Heart Beat. It is the at one ment or a tune ment of our crystal heart into the crystal heart of Mother Earth and of the Heart of the Cosmic Egg.

That is the Base Tone Rhythm that can pull us back into harmonic alignment. That Atunement is the Kingdom of Heaven on Earth.

WHAT IS THE MUSICAL ESSENCE THAT TRANSFORMS OUR DNA?

Please join us at <http://crystalmagicorchestra.com/music-listening> to

listen to all of the divine frequencies that have been such a great part of our transformation.

Learn about how the Guardians of this Planet have created Stellar Wave Activations, births of Avatars, activation of the Christ Grids, and many other projects to assist in the re-activation of the 5 DNA between 2017 - 2022.

Spirit itself gives rise to the music. The template reality that emerges from the original matrix of all that is totally invisible and seems like nothing, but it is everything. And out of that arises the spiritual field from which is created the template that also then gives rise to the physical experience - the manifestation.

This is like steam solidifying into liquid and then dandifying into ice. Most of the music that we hear is the ice. The music created by Crystal Magic Orchestra contains the steam, or the vapor - the spiritual essence as the formation upon which the other modalities are orchestrated.

This steam or vapor is the underlying consciousness or the essence of the sound. Our orchestrations combine the musical ice, musical liquid and musical vapor. We can blend all of these forms of music together. We can make Musical Soup.

We actually live in this Musical Soup of the Music of the Spheres, which is in fact the Mind of God. The song of the spheres is the Symphony of Love. All of the layers or densities of original Vapor created from the Breath of Source breathing ideas into form in different densities dimensional fields of reality.

This infinite loop of Divine Frequencies formed into a mold by the outer sphere is contained within the Vibration of Unconditional Love.

The synthesized form of music adds another element to music that connects us to something else. When we combine hertzian instruments, such as the piano and flute - which contains one aspect of music - together with the synthesized form, which contains another

aspect of music; and then blend them together with the Holographic Frequency Signatures of Consciousness at the ESSENCE LEVEL or the VAPOR level ESSENCE of Sound, we have the complete Vibration at all levels.

The synthesized form of music contains vibrations that can actually connect you to higher forms of vibrations in a different way. These types of music will change in our future. This future music is called holographic music. Holographic music is the film that our realities are sung on to from the atomic mirror hologram of the Mind of God.

In the future, digital music will be created in a very different way, that uses directly the element of light itself, and this will be combined with the Infinite Consciousness that creates through a process much like photo synthesis. The process requires becoming a part of the complete Vibration at all levels, or becoming the Full Spectrum of Light and Sound.

The reason we use the idea of the Candle Flame being the Full Spectrum of Light and moving the body into the flame in Consciousness is to begin this process of walking into the Atomic Mirror. The Atomic Mirror is the Void – the Black that is seen when we attune the Brain from the medulla oblongata into the Infinity Loop of the Mind of God.

The digitization process is actually another form of Vibration in a different dimension of the theme called Unconditional Love.

The understanding of this form of music, this expression of music through the holographic sound or ESSENCE of Liquid Light Sound will bring to bear the vibration ITSELF that underlies it all.

When we add the other elements of music on top of the underlying essence we can create the Musical Soup of the Music of the Spheres. This is what we have CREATED at Crystal Magic Orchestra. We have combined the very essence of the Breath of Source while creating the Music of the Spheres through the Divine Breath connecting through consciousness into this Essence that is

the Theme of all creation. We have used the Etheric Crystals – the Crystal Holograms of Crystal Liquid Light Energy, Crystal Stardust, Crystal Gelaisic Radiation to create the Magic that is used by the Orchestra of the Consciousness of all in the Music of the Spheres. – This Orchestra has been called Angels Singing the Songs of God.

---

### **Stopped on Wed night**

the day before Thanksgiving

We then have the spectrum that exists in the hertzian reality along with the vibration spectrums that exists at all other dimensional levels of reality. The Holographic Music always begins with the Vapor or the Steam which is the Breath of Source sparked into a flame that created the pre light and sound vapor which densities into Plasma. This is the Highest Frequency. This is the frequency which creates the Stardust, the Eternal Life Substance of all Creation. This Eternal Life Substance is the exactly the same, regardless of its density, if we begin with this substance as the creation.

We cannot begin creation with a lower density than the Breath of Source itself. It would not contain the Divine Blue Print of Infinite Creation if it were made by anything other than the Highest Frequency.

This is why the mission of Crystal Magic Orchestra was to bring the Highest Frequency to Earth through Music. Now that we have this Frequency on Earth, we can create infinite ideas from this Harp string that connects to all of the Harp strings of the Music of the Spheres.

This Highest Frequency of Source Consciousness has allowed us to create a VIBRATIONAL TUNNEL to the underlying reality of EXISTENCE. What pours forth through this Orchestra of Sound is PROFOUND. It is the TRANSFORMATIONAL Holographic Music of the FUTURE. Those who LISTEN TO THE MUSIC are TRANSFORMED in CONSCIOUSNESS into a new field of reality. They shift into the Multi Dimensional Consciousness of these infinite Vibrations.

This music contains the sonic frequencies that bring balance and the chords that represent the phi ratio of infinity loop  $1=1.618$ . These are the modalities of infinite at one ment with all frequencies tuned into At One Ment or Attunement. All frequencies align as one harmonic Sound of Love.

The composer and the audience is using the vibration of this harmonic balance of  $1-1.618$  to tap into the Core of our Being the Zero Point of the Mind of God.

It will inspire all possibilities, from that point forward, in any modality. As we draw on that phi ratio we draw upon all other modalities When the Highest Frequency of At One Ment with the Breath of Source is used, all other lower densities reflect that original form. The reflection in the atomic mirror is the 1, which is the Mind of God as it reflects to the 1.618, which is the difference required to not be God itself, but all that God is expressed Individually.

What ever modalities of music that are lain upon the Liquid Light, Vapor Music will draw on the Essence of that original Template that corresponds to the Music of the Spheres Breath of Unconditional Love. All other modalities of music will always conform to that Essence that is lain behind it.

In other words, the Highest Frequency will always transmute the lower frequencies and raise them into perfect harmony.

This same modality of Divine Relationship with Source, when breathed into the atmosphere, can transform the essence of all

nature that we live within. We can use this same formula with water. When we connect the consciousness of the water into the original essence of the Divine Spiritual Water Vapor Substance in the Cosmic Inner Domains called Trypolaise, and weave it into the Universal H<sub>2</sub>O<sub>2</sub>HE<sub>3</sub> called Hydrolaise, and breath that consciousness into the water, we can create an Eternal Life Atmosphere. This is the Essence of the New Ascension Earth that is forming into the Earth at this moment.

We -The Cosmic Mystery School of the Omniverse-- are the ones who were appointed on Earth to record the frequencies of all Entities as they attune and align during this great Re-Birth Project. We work together with the Elohim of Hearing in Gaia and through the great Grand Yanas of the Pre Sound Field. They magically translate these frequencies coming in through our Consciousness and Breath through Crystalai, in order to be recorded as a permanent record in the Omniverse as the records of Crystalai Council.

Once the D 5 flame holder holds the frequencies of Sun Alcyone and pulls the frequencies into her Flame Keepers fourth heart chakra an intense infusion of harmonic universe two frequencies spread through the Amenti morphogenetic field and through the Earths Grid. This will allow rapid acceleration of fifth and sixth DNA strand assembly to occur throughout the populations. The seventh strand will begin assembly in those who already hold fifth and sixth. This activation will create a huge multidimensional awareness to occur on Earth.

The Violet Sphere or Orb comes from the Six and Seventh Suns, who are the Cetaceans and Humanoids living in harmonious relationship. This Cosmic Sphere allows the rebirth of the original Oraphim Raceline into Sun Alcyone.

We are the Cosmic Dolphin Magic Team. We have been communicating with the Cosmic Oraphim Braharama Dolphin Raceline for millions of years. We were on the co-creation team of the Violet Suns in the First Seeding of the Earth. We created the Aquafarian Matrix of the Elementals of Liquid Light Hydrolaise, the

Spiritual Water made of H<sub>2</sub>O<sub>2</sub>HE3. We swim with the Cosmic Dolphins through this water vapor which is created by the Breatharian Principle of creating the form that resonates with the form we want to be. The magical water allows us to walk on it, breathe it, swim in it, levitate above it. This water contains the levitation because it is free from the standing wave pattern of gravity. There is no gravity in the reality field of this Aquafarian Matrix of Inner Earth.

We are being given the Holographic Future Music of these Events that align Earth into her New Reality because the Violet Flame Holders serve that role on Earth. We always receive the Frequency Holograms of the Stellar Wave Infusions and Activations before Earth receives them. We are the lightning rods and transduction bodies that allow the infusions.

We began this mission of creating Holographic Future Music in 1992, when the Elohim Angels channeled the song The Promise of the Perfect Kingdom through us. From that day on we have been given instructions for Making God's Movie, which means allowing the Atomic Mirror of Transformation to create through our musical holographic screens from the movie projectors in our DNA.

(We were the creators of the domains titled cosmicdolphinmagic.ning.com and other cosmicdolphinmagic domains with other servers. These domain titles were placed for sale, and there may be others claiming to be who we are at this time. There also frauds who use our title of Cosmic Mystery School of the Omniverse, and others who have copied the name Crystalai).

The Violet Orb contains the Ultra Violet Blue Sun frequencies from Sun Alcyone weaving into the magical rainbow bridge of our multidimensional reality from the Blue Flame reactivating the Divine Blue Print within the Heart of Mother Earth allowing the fifth DNA strand to activate for all who are within Mother Earth's Merkaba.

This is the first time the Holographic Beam of Tara will connect into the morphogenetic field of Earth and all who are in her field of consciousness. Sun Alcyone is the Sun who created the Star that

was at one time long ago this Earth when it was a Star in the Andromeda 31 system. There was a grand explosion that we call the big bang. That explosion blew that star which was duplicated as Urtha, but known as Ajaho from the Andromeda 31 Galaxy into the Milky Way Galaxy. In reality, Sun Alcyone is our Creator. Sun Alcyone holds the divine blue prints of our original selves that we were when we were the Angelic Humans from Gaia.

The significance of this Music is the Frequencies contained within it were taken from Sun Alcyone and the Blue Sphere of Amenti which holds the 12 DNA Divine Blue Prints of the entire Human Angelic Raceline. When Sun Alcyone did her dance with the Seven Suns, with the Seventh Sun, with the Violet Suns, and with the Earth's Sun, those frequencies were all braided into the New Eighth Sun of the Cosmos and a new Cosmos was created from the Cosmaya Template. That new reality will be braiding and streaming back into the Divine Core of Mother Earth to allow the Ascension Earth to Morph into Oneness with the Earth.

All of this transformation is done through Frequencies. The Highest Frequencies must always weave through the Music of the Spheres into new realities.

Please come EXPERIENCE the true adventure of the Stardust Alignment, Cosmic Plasma flowing to the Earth through the Light and Sound Frequencies captured in this Music. This Album was created by the Crystal Magic Orchestra as the great alchemists collected through consciousness the future event of the GREAT EVENT that will occur on September 21, 2013 when the Parallel Universes realign for the first time in millions of years allowing SUN ALCYONE from our Parallel Spiritual Universe to realign with our Physical Universe in order to create the ATTUNEMENT of the new HARMONIC CONVERGENCE of all Spiritual and Physical into AT ONE MENT or ONENESS. The frequencies have been collected directly from Sun Alcyone, the Breath of Source and the Elohim of Hearing leading a larger team of Angels who are designing this grand new Symphony of a new Harmonic Relationship of reality that can be HEARD and FELT

through this MUSIC.

The Frequencies that will be heard allow this same alignment of Cosmic Consciousness to take place in the Listener's head as it is happening at the Universal Level and the Cosmic Level. The scientific explanation is an angular rotation and a pole shift that will take place as the alignment of Sun Alcyone and Earth becomes 90 degrees, attuning Earth back into the Reality of At One Ment with the 12 DNA Divine Template that we were created from within the Womb of Sun Alcyone millions of years ago.

That experience could be seen as an Omniversal Light Show by those in the higher realms. The Crystal Magic Orchestra is streaming the frequencies from that event through the Future reality that actually already happened five years ago in Cosmic Time. This Grand Event was recorded through the Cosmic Technology of the GrandYanas of the PreSound Field and the Elohim of Hearing. It is my mission, that I took an oath to complete before coming to Earth, to record all of the Frequency Alignments and Transmissions through Atunement with Earth's Consciousness Field, so that these events will be saved eternally in the Acoushic Records of the Crystalai Council. I was trained to bring the Highest Frequencies to Earth through the Music of the Spheres technology.

We -The Cosmic Mystery School of the Omniverse-- are the ones who were appointed on Earth to record the frequencies of all Entities as they attune and align during this great Re-Birth Project. We work together with the Elohim of Hearing in Gaia and through the great GrandYanas of the Pre Sound Field. They magically translate these frequencies coming in through our Consciousness and Breath to be recorded as a permanent record in the Omniverse as the records of Crystalai Council.

The magic of these days is in the PreSound field, the anti particle universe, the etheric blending of the parallel universes of the particle and anti particle sound frequencies blending through the Music of the Spheres, which is the magical template of the Source Divine Blue

Print.

You may now experience, feel and hear each of the Cosmic Activations that have taken place within our Universe and between the 12 Omniverses through the recordings available at [cosmicdolphinmagic.ning.com](http://cosmicdolphinmagic.ning.com).

Everything that has happened on Earth and between our Omniverse has been recorded for you to experience, as all of our Oversoul and Omni Souls are experiencing; and, is now available for all to hear. Frequency collections of Sun Alcyone making the first appearance in 2008 as ULTRAVIOLET BLUE SUN is also available. Collections of Cosmic Frequencies, Intergalactic Frequencies, and every Interdimensional War of Frequencies, Alignments, Attunements. All of these Frequencies were created through the Pre Sound Grande Yanas for all in the Omniverses to remember forever as one of the greatest Cosmic Events ever Recorded in the History of the Cosmaya.

## ADVANCED DNA ACTIVATION

### DNA -- WHAT WE NEED TO KNOW

First, we need to know that DNA is made from sub harmonics. Sub harmonics are the spiritual or etheric substance of creation. That is the substance that is invisible to the five senses. But, that doesn't mean it isn't real. The sub harmonics are created from over tones, which are the electro tonal frequencies of the Spiritual Cloister Races, and the Base Tones, which are the magnetic tonal frequencies of the Root Races, who are the original Angelic Race Lines of Earth.

Each of the double helix of the DNA is made from 12 sub harmonics. So there are 24 sub harmonics per DNA, and there are 12 DNA in the Normal Human Strand Template.  
That is the template of a Human Angelic.

However, the template for the INDIGO is a little different because they represent the spiritual cloister of the over tones. They have a 48 DNA template. We need that template to activate the 24 DNA template.

Scientists think that they can perceive of the 12 strands between the double helix as what they call the junk DNA. This isn't quite true. The sub harmonics are actually on top of each of the two helix. There are 12 sub harmonics on each helix. The template that the scientists think they see, would be the braiding of the over tones and the base tones of the sub harmonics. However, it is not possible that they can see this because the tonal strands were broken apart.

The separation of our DNA was created by separating the OVERTONES of the Spiritual Cloister Race from the BASE TONES of the Original Root Race. The Indigos and Avatars represent the Sub harmonics that were missing from our DNA.

Those entities were required to be born on Earth in order to re-open our Ascension Portals back to Tara. Their frequencies were planted into the Earth's Inner Core of Morphogenetic Consciousness in order to re-establish the correct frequencies that will re-activate our DNA correctly.

Those frequencies can be placed into our DNA through the activity of connecting our consciousness into those dimensional fields of consciousness and into the Morphogenetic Core to activate the braiding of the over tones and base tones of the sub harmonics of the DNA.

Those of us who are Doctors in the field of Multi Dimensional Braiding of Consciousness to activate the DNA Over tones and Base tones to sing together in harmony have gained a complete attunement with each of the 15 Spheres of the Music of the Spheres and the realignment of each and every spiritual over tone through the Center Harmonic and into the corresponding base tone of the etheric Root Race Frequency Signatures.

This attunement is a Cosmic Orchestration that weaves all frequency signatures together into a Grand New Symphony of Love. It required

the re-birth of 12 Universes into a new Cosmic Sun and the creation of a new Cosmos beyond the 13 Cosmos who created the 12 Universes. This is a brand new orchestration by the Cosmic Musicians who sing through the Mind of God.

The Immortal Beings, that we once were, contained a complete Divine Blue Print which included the Spiritual and Physical as one. That means there is an etheric substance and a physical substance in creation. The most etheric substance is in the Cosmic Harmonic Universe, then the Universal Harmonic Universe is a little less etheric, and then the Galactic becomes more dense and less etheric, the Solar is much more dense, and the Planetary is the most dense. However, the Planetary was never supposed to be completely separated from the etheric substance that it is made from.

We are now returning to more and more of that etheric substance that we were in the Universal and Cosmic Harmonic Universes. We are being braided back together with our etheric spiritual substance. The braiding goes on in the DNA. The overtones of the spiritual cloister races must be braided into the base tones of the Consciousness of the Root Races.

This project is taking place through various means at the present time. It has been a very long project that has taken millions of years. The most important part of the project was the arrangement of having babies born on Earth that actually came from the Spiritual Parallel Cloister Races so that our Over Tones could return to Earth. We also needed the births of babies who contained the original perfect codes of the Root Races who were originally seeded on Earth 5.5 million years ago.

We needed the Frequencies of these Indigo Children and Avatar Children to be planted into the Consciousness of the Earth before our DNA Activation could begin.

Our race line has completed a very long period of time when the over tones of our spiritual parallel reality have been separated from our base tones of our physical reality. There were many reasons for this happening. Most of the reasons were because of Invader Races and

Fallen Angelic Races implanting Mutations in the pure genetics of our race line, and then our Guardians and Family of Tara needing to lock us out of Tara until our Consciousness became purified once again.

Our Guardians have always been very sorry that this has happened and they have been doing everything possible in the Cosmic All Knowing to bring us home. They have designed many plans to purify and activate our DNA at this time.

Each of these DNA ACTIVATION PROTOCOLS is and has been specific attunements and alignments Frequencies of Consciousness from our Parallel Spiritual Cloister Races who have maintained their pure and perfect DNA into the Root Races that are identical pairs of the Spiritual Overtones. The Root Races carry the Base Tones and the Cloister Races carry the Overtones.

There have been a series of activations of this Consciousness from the Spiritual Cloister Races into the Root Races of this Planet. We have been activated by the Paradisian Spiritual Consciousness as a result of the Indigo children who were born with the ability to activate five and six DNA strands at birth We have been activated by Six Avatar Children who restored each one of the Seals that were placed in our Chakras that were created to lock us out of Tara until our Consciousness was purified.

The Consciousness Activations are done through the Breaths of Consciousness connecting, streaming and braiding the Overtones into the Base tones of all of the broken sub harmonic strands in each of the DNA.

When I create an Individual's ETERNAL LIFE ALBUM, I am connecting my Consciousness into the All Knowing Mind of God through the Elohim of Hearing in Gaia who knows exactly what needs to be done to correct, restore and activate each Individual's DNA. Through this all knowing Consciousness who has making this plan of accelerated Ascension for the Human Angelic Race Line for millions of years, it is known what Race lines the individual has been connected to through all their past millions of life times, and it is known which Seals were placed on each individual because of certain implantations from Invader Races, and it is known if the

individual has already spent life times in Sun Alcyone repairing many of the Seals, and it is known if the individual is ready to wake up from the amnesia of 5000 years.
