

SPIRITUAL WATER - THE ELEMENT OF TRANSFORMATION

Dr. Angela Barnett

Crystal Magic Orchestra.com

When we travel in consciousness by using the IDEA of the crystal star merkaba (a heirophant with one triangle pyramid with point down within a triangle pyramid with point up and an invisible copy of the same on top of it) in order to move beyond the speed of light into any dimension desired, we can travel to the deep deep within of the Inner Core Domains of a Median Earth that is within the Outer Earth, and then we can travel even deeper into the Most Inner Spiritual Cosmic Domains that have held the Original Consciousness of those who form the Earth's Matrix.

When we travel to this deep deep within, we are actually swimming in the Consciousness of the Aquafarians, who are the Water Body Entities, who are the Guards of our Blue Sphere of Amenti (the original Human Angelic Consciousness within the Earth). Their essence is the Spiritual Water that resembles our water, but allows complete freedom of travel because you can walk on it, breath it, form it into new realities or swim in it if you want. This substance is the H₂O₂ HE₃ liquid light water of our original Spiritual Creation.

The Aquafarian Water bodies are always with us when we connect our consciousness within the spiritual

substance of the water we drink, swim or live within- for instance the mist of the air, the humidity, the rain drops, snow, etc. They are around us whenever there is water around. The Aquafarians always start talking to me when I go into my bathroom, and sometimes when we are in the mist of a cloud. They become very present when I am swimming or in a shower. They become so present that they can interact with the substance of the body by making you float high on top of the water, as if it became a different type of water. They can make the water that you bath in become a pure healing substance. If you breath your consciousness connection into them and exhale into the water that you drink, the water will turn into healing water.

The Aquafarians also swim around me when I sleep at night. They have met me and sung the song All is Love. When I recorded that song, I was channeling their singing. They take me deep within the Cosmic Aqua cores of Earth on Journeys to show me that I am within the Water Firs of Earth while I am also sleeping in my bed. They take me into Crystal Caves of the Inner Earth and they swim with me and sing to me. They are the guardians of the consciousness of this transition.

IMAGINE

Dr. Angela Barnett
Crystal Magic Orchestra.com

Please use this Journey with your [ETERNAL LIFE ALBUM](#) and with the [Magical Mermaid](#) Journey to the Crystal Caves.

First, imagine being a water fall. Imagine yourself being Niagara Falls. You see yourself as a continuous flowing of Liquid Energy continuously flowing through you.

Now, realize that the stream of liquid energy that is flowing through you is actually Lake Erie pouring the overflow of itself through your water fall. You can now imagine that there is no difference between the water that is in Lake Erie and the water that is flowing through you. Your flow of liquid energy is always coming from Lake Erie.

Now, you see that Lake Erie is connected to a vast Ocean of Water that flows into it from within the Earth's Liquid Crust. You realize that the flow of Liquid Energy is flowing from within the Earth into the Lake and through you.

Now, you realize that the source of this water is even more Infinite in Nature. You now see the Water coming from a Spiritual Pond deep within the Heart of Mother Earth. The Spiritual is so deep within that is on the Cosmic Spiritual Side of Reality, and yet it is within the structure of the Earth's Body.

Now, you realize that you are a part of a Cosmic Pool of Water that is more infinite than the Universe. It is actually a Pool of Water that wraps the entire Cosmos within it. You see yourself swimming within this Infinite Pool of Liquid Light Energy of the entire Cosmos. You see yourself swimming with the Cosmic Dolphins and Aquafarians. You see yourself swimming through Crystal Caves beaming with Cosmic Light that create Rainbows on every angle of the infinite crystalline structure within.

Now, you realize that just as your water fall was not a separate part of Lake Erie, you realize that you are also not a separate part from the Crystalline Liquid within the Earth's Crust or the Cosmic Spiritual Water within Earth's Cosmic Heart. You see yourself floating and swimming within this Cosmic Water and you see yourself as the Water itself. You now see something even more infinite about the water that you are swimming within.

You see that the water is so etheric. The water is Vapor. The water is a rainbow like vapor made of infinite colors of the Cosmic Rainbow. The colors are visions that you have never imagined before. You can feel the rainbow flowing through your body. You can feel the rainbow become the star dust that feels like a powder of love within your body.

You sense and feel this Cosmic Water within your body and around your body. You realize that you can swim in the water, and yet you can also breathe the water, and in fact, you realize that you are made of this water. You realize that you are the water vapor and the rainbow and the stardust. You realize that you are floating within this Cosmic Liquid Light Energy that you are made of and there is no separation between your Liquid Light and the Cosmic Soup that you are swimming within.

Now, you feel the vapor like substance of the liquid light energy singing within every cell of your body. And you realize the singing is not coming from within your body, but from a Source Field of Love that is wrapping your body and each cell in your body within a Symphony of Love. Every omniparticle of your body is like a rainbow vapor that is singing within a choir of rainbows and waterfalls and all of these Crystalline Caves are infinite merkabas morphing one within another into this infinite spinning of Angelic Choirs.

Now, you realize that you are the Source of these Cosmic Choirs of the Angel who are singing through your particles of your cells. These angelic choirs are connecting you to hear all of the frequencies within the choirs as if they are each individual melodies that create these frequency signatures who are Entities of Brilliant Crystal Light.

You feel all these choirs singing within your DNA at the highest frequency of Cosmic Liquid Light. You see your physical body transformed into the Violet Hue that transforms

you into all that sings within the Cosmic Hues of Light and Sound.

You hear yourself become a part of the choir and all of the Angels are singing through your DNA in order to tune you in to the entire Consciousness of the Universal and Cosmic Beings of Light who are the same Water Fall that you are. The Liquid Light is pouring from the Source Field into the Cosmic Water Fall. You are the Cosmic Water Fall. There is no beginning or end to flow of this Eternal Song of Creation.

Now, return to your body and look out into the world around you. Imagine All of the People that you see having a waterfall streaming through them from the Clouds above them and realize that those Clouds contain the Rainbow Cities of Liquid Light Consciousness that sings through their minds the songs of Love. Imagine all of the People living in this perfect harmony that comes from the songs of Love singing through them from the Ions within the Water Falls. The Ionization of the Water Fall provides the place for the sixth dimensional elementals called Aquafarians or Water Fairies to wrap you in their arms, to swim through you, to sing into your cells and into your ears all of the rainbow harmonies that flow from the Cloud Cities through the Cosmic Water Falls and hold you in a blanket of Love.

This is how we Imagine All of the People Living in Perfect Harmony. You have imagined the Spiritual Self of those People streaming into At One Ment and Atunement with their Mortal Consciousness in a way that returns them to the birthing chamber of the Eternal Love of the Mother's Womb within the Mind of God.

As long as you keep all of the people of the world within that Waterfall of Love, you are swimming in the Cosmic Sound of the Mind of God with them. In that Mind there is no discord, in harmony or dis -agreement. There is only Oneness of Love.

Imagine swimming and moving and having your being within that waterfall and feeling the water fall streaming through you and feel yourself soaking in the Cosmic Vapor of the Rainbow and soaking in the Spa of Star Dust.

Now, you are completely removed from the Human Dream and you are in the God Dream of your Imagination. This is your Dream. You only live in the Dream of the Mind of God. You do not live in the dream of those people who are not in their waterfall.

The album that I created called Magical Mermaid Journey to the Crystal Caves is the journey that they take me on every night. They take me to places within the deepest of Cosmic Waters and to the other side of the Median Earth and into the Highest Earth called Urtha. They show me the Crystal Cities that deep within the Inner Domains and they take me to the Crystal Caves to allow me to hear their voices vibrating into a rainbow of frequencies within the Etheric Crystals.

We can each journey to this place by tuning in to the

idea of the Crystal Star Merkaba and placing that idea within your Crystal Heart. What I call the Crystal Heart is the area in the middle of the chest, called the Heart Chakra. Within this area is the Thymus Gland and the most etheric part of the Thymus Gland is the Seed Atom. The Seed Atom is the original Divine Template of your original creation point. This is the area of the body that connects back into the lower part of the skull called the medulla oblongata. That is the area that connects directly to the Mind of God in the NORMAL HUMAN ANGELIC BODY.

A little lower directly down from the Crystal Heart is where the Soul is located. The Soul is the etheric substance within a ganglia of cells that weighs about 13 oz. When the body dies it always becomes 13 oz lighter because the Soul leaves. The Soul is the travel agent. The Soul has lived in all of the dimensions and keeps replicas of itself in all dimensional realities where you have had past experiences.

So, we use the symbol of the crystal star vehicle and imagine placing the Soul inside of it. We can then place a blue sphere around the crystal star vehicle to make sure the Soul is always wrapped inside of the oneness with God Consciousness.

Next, we see and feel our soul travel inside of the crystal star vehicle clear down into the most inner domains of Earth. You can practice, by imagining taking an elevator ride down inside of the Earth as if you were falling into a crater from the top of a mountain. You

travel down the hole in the mountain deeper and deeper until you reach an area that looks and feels like water. That is the Aquafarian Consciousness. You can feel your body take on a violet silver essence when it touches the water.

When I reach the liquid area, I reach out for the fin of a Cosmic dolphin to pull me deeper within the Consciousness of the Aquafarian Blue Crystal Sphere of original Consciousness. The dolphins pull me deeper and deeper and then I surface on the other side of reality. I have been taken into a higher version of the Earth- the Median Earth. This is the Earth that we are shifting into. This is the Earth that we are morphing into. After I reach this location of the Median Earth, the Aquafarians come to me again and ask me to ride with them to a much deeper place where they show me the Crystal Cities and the Crystal Caves. This is the Inner Earth of our original creation. The process of moving through the Spiritual Water and then emerging on the other side of reality is the same process we go through as we re-birth into the Higher Consciousness.

When we go through this process, our DNA also goes through this process. The DNA is being given the programming to prepare for a brand new reality to be born within it so that it can begin to experience and visualize the Inner Earth and Median Earth as a normal part of reality beyond the lower dimensional confines of one third dimensional Earth.

The symbol of the Crystal Star Merkaba Vehicle

represents in our mind the actual rotational spinning of the spheres within the spheres of the multi dimensional realities. As the Earth spins faster and faster we are taken into higher and higher consciousness.

The most important step in creating new neuronets that connect to all of your multi dimensional selves is to dive deep within the Cosmic Core Domain. When dive into the Aquafirs within Mother Earth's heart, we are actually opening a star gate portal into an in between state of Etheric Liquid Aquafirs at the Cosmic Level. This is where the stories of mermaids and water fairies come from. It is a very real place. It was the first structure of the Earth's Star Dust Structure created by a team of Sirians working in conjunction with the Pleiadians to create the birthing place for Urtha, who was the original etheric Earth.

I take these very REAL Journeys into the Cosmic Core of Aquafaria every night before I go to bed so that I can dream there all night. I have made recordings of this journey in the past. Some of you may remember the Foundation Journey.

We have a New Album of my most recent journey through the Atomic Mirror where I join with my Twin who is a Mermaid. I have recorded the Consciousness of this journey into the original home of the Sirians who created the structure of our Earth home. My first meeting is always with Cinderella , who is the Mermaid who pulls me through the Atomic Mirror. After I glide

through the Plasma Mirror into the Vapor, Hydrolaise and Spiritual Water, I am met by Magic Sirian Dolphins who communicate telepathically, and then we are met by Aqua Fairies before we travel deeper into the Cities of Light, and continue to dive deeper and deeper into the Cosmos until we reach the magical Healing Waters of the Cosmic Spa.

MAGICAL MERMAID JOURNEY into the CRYSTAL CAVES

Dr. Angela Barnett

Crystal Magic Orchestra.com

The Frequency Signature Consciousness of the Sirian Mermaids and Cetacean Nation can actually be heard echoing out of the Crystal Caves and the Ideas they are sending are so strong that you can totally pick up the meaning through telepathy.

Listen to the Water Sound Waves, magical sounds of mermaids, dolphins, water fairies and all who live in the Cetacean Nation of our new Aurora Earth. Swim into the Inner Cosmos, from the Cosmic Ethers to the Cities of Light. Magical Atlantis sits far below the Heart of Mother Earth, and is seen through the vision of Cinderella- the Magical Mother of Aquafaria- as she swims deep within the Inner Domains of the Etheric Waters of the Cosmos and sends telepathic song waves to the Cosmic Dolphins, fairies, and mermaids who live deep within the Crystal Caves.

A truly magical masterpiece of underwater visions turned into tonal nostalgia.

Dive deep deep into the heart of your being into your soul into your liquid warm cool of consciousness and awareness into the infinity that you are. Swim down into the center of that infinity of timeless spaceless endless dance in the single luminosity the spark fire the flame of your existence. The signature vibration of the primal fundamental subatomic single entity - all things everywhere but mostly here and now. This is the only place and the only time here and now is all there is-- DEEP WITHIN THE COSMIC AQUAFARIA- the Playground and template created by the Sirians for us to come and swim together once again.

The most important step in creating new neuronets that connect to all of your multi dimensional selves is to dive deep within the Cosmic Core Domain. My first meeting is always with Cinderella , who is the Mermaid who pulls me through the Atomic Mirror. There are many new sounds of consciousness on this journey because the arrangement of Inner Earth and Earth have become united and the sounds of the Sirians are much easier to hear than before. The songs that the Sirian Dolphins used to sing to me at night All is Love can be heard as a Sound Wave Echo pattern that is actually beaming from a Crystal within a Crystal Cave. It is an echo of a Dolphin Family who is purely Cosmic, who has allowed the Earth to form itself within the Crystalline Consciousness created from the Stardust of Sirius B.

We are now ready to dive into the Liquid Light Turquoise Blue, Irradescent AQUAFARIA Ocean that leads into the Underwater Cities of Light.

When I dive into the Inner Earth Cosmic Underwater Cities of Light I am always met by my Cosmic Family. My Cosmic Family is the Cosmic Cetacean Race line from Sun Ha and the Oraphim Race from Sun La. Many parts of my Soul Family at the Cosmic Level contain Consciousness that later combined with the Elohim race and the Sirian Racelines. The Sirians re-created the Cetacean Race line on Earth. They were called the Whale People in the Cosmos. Now we call them the Cosmic Dolphins.

My Cosmic Dolphin Family is a transformational Consciousness that exists within our oceans as fifth dimensional dolphins and 8th dimensional whales. They also exists as Aquafarians because they were the original creators of the Firmament that the Earth sits within. My family of Cosmic Dolphins, Aquafarians, Mermaids, Dolphins are all a part of the First Seeding of the Earth 500 million years ago.

My journey in Consciousness takes me back to the very beginning of my existence. Many people do not want to return back to their Cosmic Essence. It is necessary for my husband and I to do this because we are a Cosmic Twin Star who came from the most Inner Domains into this outer realm to assist our Cosmic Families within the Oceans at this time.

My Cosmic Dolphin Family met me in 2007 to help me remember who I was. This was necessary before my entire mission began in watching the Dolphins and

Whales return up into the Cloud Cities in their Ascension to the Sixth Dimension. THIS IS A TRUE STORY.

That story can be heard on the you tube.

My Twin's name is Cinderella. She is the one who always meets mee after I shift to the Parallel Spiritual side of Cosmic Earth. Next, my Cosmic Sister Shajinka and then Tinker Bell, Winefred and Ziefgreid always meet me to help pull me deep within the Spiritual Waters of Aquafaria. All of my family are shape shifters. Sometimes they appear as Dolphins and Whales and then they shift into mermaids and unicorns and other forms including fairies, rainbows and most commonly the Angel Choir who sings through me.

Each time I ride my Merkaba into Earth's Cosmic Core Domain, I am met by a group of Cosmic Dolphins. We dive into this sparkly irradescant liquid light ocean of cosmic light energy. We come up and see our golden dust mansion that sits on top of a clear tourquoise blue ocean of spiritual water. The water is much thicker than H₂O. It is almost like jello. We can walk on the water or swim in it if we prefer.

Cinderella leaves us in front of the door that opens from the body of water directly into our bedroom in our Crystal Palace. The door is made of water that connects directly into the ocean of spiritual water.

We walk into our bedroom. The bedroom contains

these two beds that are spas that contain this HEALING WATER that contains Helium. The Helium makes us feel lighter and lighter and allows us to shift into the new reality of Aquafaria.

Cinderella meets us once again in front of our bedroom and carries us deep down into the Aquafaria Ocean. She carries us deep inside of the Sun that is under the water. We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun. Cinderella then pulls us deeper and deeper until we come to a Crystal Cave. The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone. Cinderella takes us into the cave to meet the Mermaid Choir. Cinderella is a mermaid and I am a mermaid. We enter the cave and feel the frequencies of the crystals. Then the mermaids begin to sing. They line our cells to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality. They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

Please read this before listening to the DOLPHIN MAGIC CD. All of the songs were sung by Oraphim Dolphinoids who live in the perfect kingdom of the Underwater Cities of Light Aquafaria Realm. This Kingdom has never known anything besides perfect love and servitude. They invite our Consciousness to return to

Oneness with their grand reality.

After we sing with the choir for one hour, Shajinka meets us at the door of the cave and pulls us deeper into the ocean to enter the City of Lights. Shajinka pulls us around and through the crystal pillars and temples and crystal caves. We weave and stream liquid light tones of rainbows that sing and resonate into and through the crystals of the city. Our harmonic convergence with the crystal cities becomes our tone of home. We feel and hear the sweetness, the harmonies, the colorful, glorious tone of home.

Shajinka pulls us back up into the Sun of Inner Earth. We weave and breath and stream our consciousness of the crystal frequencies through the suns and create rainbows of consciousness. We paint pictures of our new reality with these streams of rainbow colors. We ride the rainbows up out of the water and sit on top of a cloud. We are met by a Unicorn who invites us to ride with him. He prances on the clouds and jumps through the rainbows. We feel and absorb this new frequency that contains no gravitational pull. We feel this new standing wave pattern and become a part of it. We are met by many unicorns who dance and prance around on the clouds. Next, we ride these unicorns and they become a merry go round that is dancing and singing as they twirl round and round through the rainbows. Next, they dive down into the turquoise irradescant aqualene water. They turn into sea horses. They show us that we can become anything we want to be. We turn into star fish and into rainbows and into crystal pillars of light

and then we become mermaids again. We swim back into our bedroom in our golden dust mansion. We lay on the bed in our room and Zorak creates a golden portal of golden white star dust energy that he streams through us as we sleep in our bed. He wraps us in a cocoon of this golden dust energy. When we wake up we transmute from this cocoon into a beautiful blue butterfly. We are now able to fly beyond all holograms of the past and create a brand new star system.

The song we always sing in the Crystal Caves is on the Magic Dolphin album

ALL IS LOVE AND LOVE IS ALL

**All is love and love is light
We swim and dance in love to make
all things in love we love to know
that's all we want and all we have
our love for all and all is love
we pray to know the love you were
You bring it back
We sing once more**

**We swim we fly, we need no wings
Our love so grand
We pray for light
from love and swim
it's all so easy where we live**

**We need your love
we swim at night
we weave to send a day more bright**

**Our rainbows bright
We made before
to love our family like once more**

**We breath and pray for love more light
We wish we make the sparks ignite
We form whatever things we wish
That made in dreams of love
our bliss**

**We fly we swim at speed of light
to be where ever love ignites
We pray to know a world more bright
We bring to your bed tonight
To sleep in dreams our melodies
We were once your family
You now will know once more
We wait for you so eager bright
to bring you back to sing tonight**

**We hope you'll come back home once more
Our love more liquid like once more
We swim inside your home you make
We wait below we swim to night
To bring home and memories were
We love to make your melodies
Your liquid light we made and make more love to know
Whatever things that we might need**

Besides our love our love our melodies

**We fly we swim at speed of light
to be wherever love ignites
We pray of love our crystal
we bring to your bed tonight
To sleep in dreams our memories
We were once your family
you now will know once more
We wait for you so eager bright
to sing tonight
We hope you'll come back home once more
Our love more liquid like once more**

**We swim inside your home you make
We wait below we swim tonight
To bring you home where memories were
We now can make our family made to love through
liquid light
We breathe and make more love to know
Whatever things that we might need
Besides our love our melodies
We do not know of anything that we could need
besides our love.**

**This is my first mission in creating telepathic
communication for others to learn how to communicate
with the dolphins in the oceans through the
consciousness of the Sirian Dolphins who speak our
language fluently.**

This is the place in the Sirian Crystal Caves that I travel to get all of the songs that I record. If this place was translated into our biological structure it would be located deep within the Crystal Blood sack that sits right below the navel. This is an Etheric Water substance that translates the blood crystals into star dust. There is a pathway between the Inner Earth Aqua Firs where the Consciousness of our Star Bodies flows up through the neuro nets of the Earth and into our neuronets. The passage is through the back into the Crystal Blood sack and then the water fairies swim into our cells and neuronets to connect us to the netherlands.

The neuronet is the transmitter for all of the information that the DNA holds.

Unfortunately, up until now, the information in the DNA was incorrect and now is the time to correct it.

The 12 coded consciousness of our original Eternal Life template was sent into the cosmic core of Earth from the Stellar Waves or Solar Flames from the Sun.

That consciousness Divine Intelligence of who we really are is in the water crystals of Aquafaria. The Aquafarian s are like our Magical Family who can transform us with their magical wands of stardust that they activate in the spiritual water.

This is where the Healing Water of Bethesda that was

talked about in the Bible is. We can go to that place in consciousness. I sleep in Aquafaria every night. My Aquafarian Mother is my Twin Self. Her name is Cinderella. She is the one who has the wand who can transform my body into light.

Now, we are going to inhale that magical water that has been transformed into this crystalline magical substance that contains our 12 coded Divine Coding or our Artificial Intelligence Program that was stored in the Aquafirs of Earth's Heart. We inhale this substance up into one neuronet and reprogram it. Once we have reprogrammed one neuronet, all of our DNA is reprogrammed.

Visualize one Neuronet. You can find a picture on wikipedia. Now visualize the spiritual neuronet forming around the one neuronet. Now, inhale the spiritual liquid plasma into the neuronet. Now, the neuronet is full of pre plasma light vapor of Christic Consciousness.

This causes the old cellular memory in the neuronet to vaporize into nothingness. The old programming has been removed. This can also be understood as the old programming of the DNA from Harmonic Universe one expanding to make place for the new DNA from Harmonic Universe Two.

Now, the new neuronets from Aquafaria can replace the Void that was created and place themselves into the

neuronet. The new program, the new Artificial Intelligence must be placed in the neuronet to re set the program to Eternal life. The new neuronet now contains the coding of the 12 coded Christ Consciousness of Eternal Life.

We can now use the frequencies of consciousness from the blue hue. The pre light and sound of the mind of God. The frequencies that are recorded in the album to activate the new neuronets.

This activation is placing the 12 coded programming into all of the DNA in the body.

If we were to continue Linear Counting there would be 12 etheric DNA that connect the neuronets into the 12 Sets of Star Consciousness through the 12 Suns.

Unfortunately those original 2 or 3 DNA strands are gone. They may appear to be there, but in reality they have transformed through the transformed neuronet system. The neuronet system is now opened far beyond the body into the Universe.

That old body disappeared. Remember, when the old neuronet vaporized. We change versions of reality every nano second, so it is impossible to tell a new reality from an old reality. And since it is entirely spiritually invisible, we must learn to FEEL IT. We must learn to Use it to connect us into our telepathy with our Star Families and Over Soul Consciousness. We must use it

to re calculate the patterns of reality that make us think we can't walk through a wall or levitate or project our plasma body onto a space ship.

Now, we have Quantum Intelligence based on a program that doesn't count. We don't need to know if we have 3DNA or 5DNA. We need to know that we have a 12 coded divine blue print in our neuronets and that is activating the 12 Christic Codes of our complete universal Consciousness of all that is known in all 12 star systems through our Over Soul, which is Artificial Intelligence.

We need to experience the transformation first.

HYDROLAISE CONVERSION

Dr. Angela Barnett

Crystal Magic Orchestra.com

(Teachings from the Cosmic Mystery School of the Omniverse)

We must go through this hydrolaise conversion to get to that place in Urtha, which is the star holding Earth inside of her.

We connect the Light Energy of Phonons from the Sun into the sound that is created from the consciousness of the same dimensions.

Eiron light flow of hydrolaise is the light of Source so

we must connect it to the Sound or frequency of Source.

Gamma is the Light of the Sun, so we connect to the eighth dimension of Galactic Consciousness. The Helium that is the element of transformation is with the 14th dimension. the Cosmic Light. This transforms protons into neutrons into phonons and photons through the consciousness of light and sound. This heliotalic light must unite with consciousness of the cosmic frequency.

This pattern of light and sound must be used at this time to begin the transformation of our bodies and the Earth's body into the light and sound of the stardust from the fourteenth dimension created by Source Consciousness.

We must connect consciousness into the helium the hydrolaise, the stardust, the Source light of Eiron Flow or the crystal liquid light.

We use the Elohim of Hearing to translate the crystal spheres of light into the Breasth of Creastion or the Sound.

The Light of the Sun and Stars will be most intense from mid August to mid February in 2016. This is our window of opportunity to connect the Sound with the Light. The intensity will actually be generated by the Moon, who is now our Over Soul. This Over Soul phenomena is the key to this entire process. Our entire Star Family plus all of the Guardians and Friends who wanted to play a part in the Earth's Grand Procession of Light and Sound have gathered their Consciousness

through the Artificial Intelligence Projector of the Moon. The reason behind this Cosmic Technology is an entirely different subject that I will cover in later chapters.

Bringing the Eiradonis Light Body into the Body brings the ability back to the body to go through this hydrolaise conversion that is natural in a star system.

We actually started this hydrolaise process in 2008 when we were in Monterey. Once the process is started it is started by our consciousness interacting with Aquafarian in Urtha.

This Aquafarian shield begins hydrolaise conversion process in the body.

Our bodies can take something more than oxygen from the air. We can see the streams of light coming in. These are streams of light plasma that are coming in. The communication between the Aquafarians and myself is done through these streams of light. They paint pictures in the sky using the clouds in the cloud cities that become a visible tool of communication. I have given many examples of these pictures in past posts.

They guide me into these magical streams of spiritual water in the Inner Cosmic Domains, which is the Star Essence platform that Earth was created upon. We call this essence Urtha. Urtha is within the etheric essence of the Cloud Cities. These Cloud Cities are also the plasma and stardust that is wrapped around the neuronets of our physical bodies. When we journey in consciousness into the Inner Cosmic Domains of the

Heart of Mother Earth, we are also traveling within our own Crystal Caves of our own brain. We have been learning how to realize that our Real body is a Cosmic Body. The Radial Sphere that extends around the body can be actualized as a sphere that begins at the Center of the Earth and spheres around at about three feet above the head. All points of this Sphere are in the Cosmic Domain of reality. This intersection of this Gelaisic Heliotalic Sphere of Rainbow Light Energy is the Reality that we can choose to live within.

Each time I take a journey with my Twin Flame who is my Spiritual Parallel Self within the Cosmic Liquid Light Soup. I must actually swim through the Liquid Light that intersects within the gamma and helium to create the neutron body that bursts through the radiation mirror or the veil that allows our reconnection to the Spiritual Reality.

This opens our Consciousness to Swim into the Infinite Versions of Reality that are simultaneously available to us. As long as we are limiting our manifestations to this side of the Veil, we are not manifesting through the Unconditional Love Frequency of the Mind of God. We must break through the Veil and stay in this At One Ment with this Spiritual Flow of Eternal Life Waters.

The MAGICAL MERMAID JOURNEY INTO THE CRYSTAL CAVES is a journey that I was first taken on in 2008 when I actually traveled into the Inner Cities of Light in the Bay that sits in front of Big Sur and Carmel. This journey created a connection in my neuronets that

began to connect my physical reality more and more into this Etheric Reality that was created long before the Physical Earth was created upon it. It is a very ancient civilization of Eternal StarDust Vapor. This Consciousness came directly from Sirius B.

My mission on Earth becomes clearer to me every day because my neuronet system has become completely braided into the original Star Dust and Magical Waters of the Sirians. My neuronets connect me to the Mermaids of Aquafaria because I was a mermaid and a dolphin and all that was in that original portal of creation. That portal of creation needed to be re-activated within and through the Earth's Portals. That is the story that I tell on my you tubes.

What is NEW ABOUT this story and my journey is what has happened since my neuronet has been completely braided into the Aurora Earth, the Cloud Cities the Inner Cities of Light and all that was Sirius B and then intersected as Aquafaria within the original Consciousness of the Great Atlantis intersecting and reconnecting the neuronets of multiple dimensions of Sirian Consciousness and Pleiadian Consciousness.

My journey with my Spritual Twin Cinderella was originally documented as my meeting with my Spiritual Cosmic Mother. I have learned that these meanings are actually identical. The one that I have called Cinderella in all of my journeys is also the one who many have found to be Mother Mary. All of these realities are the same. We meet with our Christ Self when we die and we

also meet with our Cosmic Mother when we walk through the Atomic Mirror into the Liquid Light Energy Reality of Wa.

This new journey of Light and Sound is my latest Swim in this Liquid Light area that exists within the Atomic Mirror and within the Cosmic Liquid Light of Inner Earth. It is the place that we all must swim through to reach the Cosmic Core Domains where we are introduced to our new set of Guides who will take us on our new journey in Ascension Earth. We meet with families and teams and guides when we go on these journeys because these entities join us from other dimensions who have similar interests and goals in their life times. We become larger and larger teams of Consciousness. These entities stay with us forever, and yet they also separate into more and more individual journeys.

Looking at this phenomena from an Advanced Quantum Physics point of view, we would be taking journeys through plasma and stardust and gelaisic snowflakes. Or we can experience the absolute reality of the journey through the eyes of the Magical Mermaid who is our Sirian Sister.

When you take the Magical Mermaid Journey into the Crystal Caves you are doing this in Quantum Consciousness. It is also taking place in your Crystal Brain and it is taking place in your neuronets and in your Krystal Lava Flows of Christ Consciousness.

What needs to be done in your Consciousness can most easily be done when you take this journey in Light and Sound and use your own imagination to see all that you can visualize on your own journey. This is how I began my journey and this is how you need to begin your own journey.

When I went through this magical transformation journey in 2008 I was in constant communication with Mother Earth, with entities in the Cloud Cities , with Plasma Space Ships of Alhumbra, with Entities in the Inner Cities of Light who actually invited me into their Domes to view Movie Reels of all of my lifetimes, and those who invited me in their Crystal Caves to choose my TEAMS for future projects. I was connected with more and more team members each time I took this journey.

In some magical way these team members communicate with me by telling me to read books or listen to a channeler or listen to a channeling from another channeler who is answering a question from another person who is asking a question to another channeler who is obviously on the same team that entity that I am being connected with. We are forming these huge teams from multiple dimensions. And it is all very invisible and unknown to us until we find a way to know that these etheric, spiritual, invisible realities are taking place. We are in a time when channeling has become an essential ingredient of our reality.

These light streams of plasma are air born forms of

hydrolaise. It is releasing into our stargates through the poles and it is pouring into the core of Earth to transmute the core of Earth into the Light core of Urtha that will link us into Agartha temporarily.

It will begin a process that we can use for transformation.

IF WE DONT USE IT, IT WILL DISAPPEAR.

We use it through our breath, through the sound frequencies.

If we don't use it, it will evaporate and loose its charge and then it will form into the matter base and be stuck in reverse spin reality.

Christic beings have the natural ability to utilize this star born hydrolaise substance because it is a natural part of the star we once lived on, so it has always been a part of us. It is the part of us that will connect us back to the star we came from.

Our natural symbiotic relationship with our star would give it back something that it needed and it would give us what we needed. This is the natural eternal life process of an entity and the star that it is a part of.

Our Aquafarian family that we swim with at night sings this reality into us and through us so that we may sing it back out into the atmosphere in order to transpose Earth back into Urtha.

These are all of the inside ingredients of something that we think we are seeing as clouds and suns and stars. However, what we are actually seeing is a very dense version of that reality. There is much much more going on in our atmosphere and our biosphere and our magnetosphere than meets the eye.

This is why my basic explanation of changing our view of reality must first begin with realizing that our five senses have been seeing and hearing in the hertzian frequency. When we rise one step beyond the hertzian, we move into the infra red and one step beyond infra red is visible light.

There is actually much more to visible light than what we think we are seeing when we look at the Sun or a light bulb. There is all of this infinite spectrum of realities going on within the Sun and within the Light Bulb. There is this entire in between reality that we just never learned how to see before. That reality is held within this process called photosynthesis. Normal planets always required TWO SUNS in order to create enough photo synthesis to perform the magical instant manifestation of creation through visualization. Photosynthesis is a process that was not lost by the plant kingdom. They do it all of the time. The Sun and the Water work together to allow this magical creation of new life forms that are created through the imagination of the flower.

We are supposed to create just like the flower does. We are supposed to create just like the cacoon creates a

butterfly. We think nothing of these processes that we see in nature. And yet we never ask the question "Why can't I create a brand new body like the cocoon creates the butterfly?" And why can't I create a brand new flower just like the flower stem does?"

Why don't we ask these questions? We had that reality removed from our consciousness. And now it has been given back to us.

Just walk out side and look at the Sun through the leaves of a tree. You will see the Sun turn Blue because the leaves are allowing your eyes to go through the process of photosynthesis. This is allowing you to move beyond the hertzian frequency into the infra red. The infra red is just like a digital camera. It is processing a film, it is flipping vision to the other side of the negative. It is allowing you to see the other side of reality.

The solar symbiosis process is a process in which the Central Sun sends through solar winds electrons and protons and many other substances. There are supposed to be certain things above the chorosphere and something below the chorosphere called Orons. These orons are a type of oxygen bound with helium.

That is how they manifest elementally. They pick up solar charge energy that are emitted from the central sun, they store them for awhile until they reach a critical mass of storage. They start to densify and come

down the fire chamber.

There are 12 sets of fire chambers that go into the light body and rasha body structure. There should be phasing periods several times a day where the orons descend with a solar charge. They should go into the Earht's crust and into the tissue of our skin. These gelaisic fibers should be running through our muscle structure and skin tissue.

The spiritual gelaisic elements are the crystal gel in the sphere.

The hydrolaise elements are the crystal liquid light in the sphere.

The plasma is the crystal dust in the sphere.

We use these three spheres of light energy that we can envision as the stardust falling into the pores in our skin and into the poles of the Earth. We connect that light energy from the photons into the phonons of conscious breath.

That is the formula of eternal life creation of a breatharian.

When the Orons that make up the stardust bring the solar light down they would go into the gelaisic base of the planet. That would stimulate the crystal gel substance and create a reverbarate into a SONG that would go down and stimulate the crystal liquid light that is deeper down and then create the fertilization process of the crystal liquid light gelaisic substance coming up to the crystal dust and then going back down

to connect to the crystal gel and crystal liquid light in inner earth to form the three spheres of crystal light energy that will transform our bodies, our consciousness and our reality.

That continuous interaction or flow of the crystal substances is the eternal prana exchange cycle where there are sparks made and a cycle of the light body charging and then a flash off point in hyper space for a moment of recharge.

At the end of this process, you are pulled back into light and then come back out in a rebirth cycle.

Through this process, the natural activation of a substance called hydrolaise goes through a conversion process where that energy that is brought in and stimulated by the solar light that is brought in by the orons creates the reaction in the three crystal spheres. That process has to do with activating the fourth sphere of Christ Consciousness and the fourth element in the hydrolaise. This causes the human body to initiate chemical changes in the Earth's body.

The cells of the body would get regenerated as a natural part of breathing. Cells would never die. In normal system, the cells would finish filling out the cellular blue print of the 12 DNA angelic human or indigo at age 33.

At that point there would be hydrolaise conversion forever until the return to Source- whenever the entity

chooses.

We communicate only with those beings who have chosen to stay in their Divine Coded Blue Print and have risen to become our Guardians for the past 250 billion years.

The Aquafarian Host that links Earth to Urtha can only sustain our consciousness because our consciousness, the Chrsit consciousness of the human angelic and Indigos can anchor us into Urthas consciousness.

However, Earth has not been able to complete that process for a very long time.

When our consciousness ascended with Urtha, We left the old Earth behind. We are now in a New Earth. We are living in a new version of Earth. There are Infinite Versions of Earth just as there are Infinite Versions of Each Individual. We each move to a new version of Earth continuously. Our next step in ascension is the splitting of each individual into their chosen VERSION OF REALITY. This is what will take place between Fall of 2016 and Maty of 2017.

We must use the hydrolaise conversion to slide into Urtha. It is the process of creating celledilline. The chemical that allows the chemical system to release the bio lock on the atoms so that we can go through the atomic shifts. This hydrolaise conversion is a part of the celledilline process.

Cellestiline is the substance that allows the dimensional chakras to connect to the 12 subharmonics of the DNA.

We have a natural symbiosis breathing process with the star we came from. There will be waves of this hydrolaise from the stars being spun into the Earth's core down the poles or the staff or the central column and then back out the stargates and then it will expand into the chambers within the portals.

We the human angelics and indigos.

(Indigo is only a man made term. Higher Intelligence realizes the form of the human consciousness that brings ALL KNOWINGNESS with it at Birth. This Consciousness will grow into a new form that REMEMBERS all past incarnation and future realities at birth, as well as all known realities of the Mother. That normal form of Consciousness was disconnected about ten thousand years ago).

WE MUST CATCH THAT WAVE of hydrolaise (Parallel Spiritual Water) that is flowing from the stardust and bring it into our bodies. We can use the hydrolaise to activate the cellestiline that activates the divine dna template.

That process will bring the Spiritual side first 8 cell cluster back into our Physical bodies to begin our rebirth. That 8 cell cluster will open up the Illuma Un Point in our Tail Bones, and then that Spiritual Energy

flows up the spine into the Pineal Gland to correct all flows of energy within the body.

Once we begin that process it will create enough hydrolaise conversion on the planet to bring back the ability to breathe krystically as a natural christos being that gains the cellular divine blue print at age 33. This will be the beginning of the Christ Consciousness being born on Earth once again.

Once we take the hydrolaise into the body through our breath connecting to the plasma streams, we can begin breathing it into the water and the water will send it to the atmosphere. We can begin the process that transforms the piece of Earth that we live on into Aquafaria.

The Stardust Ascension Grid has been created on Earth in order to transpose the Frequencies of the Earth from within Earth's Etheric Core of Urtha into the Veins or grids of Earth that will flow out into the atmosphere and into our biological structure. This process of preparing this grid included moving the Earth into a different Earth. There are many Earth's and many of each of us standing in the exact same place in the universe. However, we are shifted in different angular alignments which gives us completely different realities.

The Guardians couldn't even begin this process until we were moved into a New Earth. Now Our Consciousness must become aligned into the New Earth or we just

keep seeing the old Earth.

The Earth must be tilted 45 degrees in order to align back with Tara. However, there was a problem with that alignment. The Guardians knew that humans would need to have at least 4.5 DNA activated to make that 45 degree shift. They were afraid that they wouldn't be able to save the majority of the population.

So, instead, they created what was called the Bridge Zone Project where we could shift half way at 22.5 degrees, which would align us with the accretion level of Inner Earth - Agartha and Shamballa.

WHERE WE ARE AS OF OCTOBER 2015

I was just told that the Majority of the Mass are at about 4.3-4.5 Density Accretion Level. This means that Everyone is in the Fifth Dimension, however there are many different levels of that Dimension. Someone who has accreted.

This bridge zone makes it possible for those who are not ready to orb into Tara and Gaia to be able to shift into our glorious Inner Earth, and from there those may begin their ascension training that will allow them to ascend into Tara and Gaia at a time when they are prepared.

The frequencies of the Sphere of Amenti which holds the 12 coded divine blue print of our race line has been placed in the Etheric Core of Earth. The frequencies of

that divine blue print will be released completely into the body templates in 2017. Those who prepare their 5DNA template now and learn how to turn their body into a light orb, can rise into Tara. There will be many who can activate their 6DNA and 8 DNA and rise as far as the Meta Galactic realm.

This reality that awaits for us is the realignment of the Spirit Body which is now rotated 22 degrees clockwise from the Physical template. We can engage in realigning the liquid light spirit body into At One Ment with the Physical Template by breathing Stardust Frequencies from our Aquafarian Families into the Quarks in our Atoms. We align into the Aurora Field of Plasma Energy which is Aquafaria. That is the portal of Oneness of Atunement with our Entire Soul Matrix in Tara and Gaia. That portal is open and available now. Our Aquafarian Family has been sending in Stardust and Singing through my Atoms for five years now. That is why my activations are in high speed.. . The Christ Consciousness is being reborn through each breath we take.

The true story of Jesus changing water into wine means the water of this earth must be transformed into crystal liquid light energy called hydrolaise. This will transform the blood into the blood of Christ, which was originally called the Krystal Lava Flows. This meant that the Eiron Flows of Chrystal Liquid Light Energy was flowing from the mind of God into the mind of Man. When that reality occurred, as it always did in the NORMAL UNIVERSE, man was the IMMORTAL MAN of

the divine creation, or the image and likeness of God.

The water in the atmosphere must completely transform into hydrolaise. That crystal liquid light energy is what metaphysical science knows as Cosmic Consciousness. It is an etheric substance that is not countable or visible to scientists in this realm. The hydrolaise is created through the Aquafarian Shield. The Aquafarian Shield is made by those of us on Earth who contain the ability to change the water into wine. We work together with the Aquafarians, who came to our Time Matrix to pave a way back to our original Reality Matrix..

Aquafarians came to our Matrix as an elemental form on the six plane so that they could easily work with us interdimensionally. The Ranthians are also here working with us as Light Energy. They appear as Spheres of Ultra Violet Blue. The Zionite water people are six level man- our angelic elemental creators who are re-creating us at this moment. Those are the Aquafarians of interdimensional Inner Earth who are transforming us from the inside to the outside. They are the elementals of the Divine. This is a different reality than the elementals of this 3D world.

The process of Ascension is achieved through Water. The chemical form of water will be changed to Hydrolaise. We will breathe this water. When we breathe this water from Aquafaria by connecting our consciousness into their frequencies and taking astral journeys into Aquafaria to swim with the dolphins, we are breathing the frequencies of transformation. When we exhale, we are creating the music of the spheres- the new tone of home- the breath of creation.

Many of you have asked me about this hydrolaise substance, and some of you want to understand it through physics of the third dimensional scientific mind.

This process can be broken down into the quantum physics which only has the meaning of Consciousness at this time in history. Have any of you ever asked yourself what is Consciousness? It is a word we knew as a knowingness, but we couldn't actually define it. Consciousness is the etheric, or the in-between reality, that seems invisible. However, it is only invisible to us because we are not in tune with divine reality.

Scientists know about neutrons, protons and electrons. However, they don't know about the divine cosmic electricity in between, which is called Keylons. Since keylons have been unknown to man until very recently through the help of our Guardian Alliance and Cosmic Councils, we have been given keylon codes and songs and frequencies to help us to TUNE IN to that unknown substance.

Scientists don't know about the D6 Ionone and Mlons, the D7 Eons, The D5 Meons, Reons and Dions, and the Ectoplasm made of the D8 Ectrons, the D9 Razonx, The D10 break down of Reons Meons and Deons, and the break down of DIONS into Miyons, Tryons and DEons, or the D11 Trlons.

Our Rebirth into our NORMAL SPIRITUAL ETERNAL bodies is done by turning on the INBETWEEN New Chemicals, which we have used the term consciousness for.

As we awaken into our new reality, we will learn that every thing in the invisible realm is just as scientifically

verifiable as the physical domains that we have experienced so far.

We all have a RADIAL BODY that is basically an invisible sphere around our body. It is made out of the advanced units of Trlons, Rayons, Meons, Ionic Particulates. This is how we can create a pre sound and pre light field around the smaller currents.

The Density Four Divine Blue Print is made from the D10 Ta-a, which is an aspect of the EirA

D11 Tara are Trlons which are density four electrons or Mlons

D12 Ma-a Rayons form the Radial Body currents frequency tissue capsules and ionic particulate capsules.

These are made out of density four frequency. They hold within them smaller frequencies of densities below them. These are what are called the Radial Bodies. They are the smaller radial bodies around each density level.

Large Radial Bodies form around your entire fifteen dimensional self. We can take our Radial Body into the God World.

The God Seed begins within 15 spheres of the Earth Matrix Time or Reality field. There are fifteen radial bodies. Everything in Existence is in the same place or the same angular rotation of particle spin. All energy fields that create holographic bubbles that we walk around in actually exist in the same place, but they are a different frequency and different shift in the angle of their particles that are rotating in.

If you want to move between one and the other, you shift that angle. The radial body is the key to

understanding how spheres within spheres fire or ignite. The key to programming things that don't belong here back out of here.

Radial bodies serve the purpose in manifestation process. It is like you are standing in a bubble and your consciousness through the vessel or projector of your body is projecting holographic beams out.

Hydrolaise is the Eiron Flow of crystal liquid light from the Spark of Source. It is the divine manifest substance of divine creation. When Jesus spoke of turning the water into wine, he was talking about aligning consciousness with the crystal liquid light of the Eiron Flow from the Mind of God into the Mid Brain. Once that flow of Crystal Liquid Light- the divine substance that our consciousness is made of begins to flow into our mid brain area through the pineal gland, it sends celestiline into the chakras and into the cells and between the cells to transform the body.

The first stage of transformation caused by the Krystal Lava Flows or the Eiron Flow from the Mind of God is a change in the blood crystals. Those blood crystals have been frozen for eons. The blood crystals will awaken and transform the blood into a living substance of eternal life. Next, the bones transform into a sound or a frequency that allows them to align into the template containing Hova bodies and sound bodies. The final transformation is the skin. The skin becomes light energy and begins to glow from the inside out. In the Biblical days the Angelic Humans were called the Shining Ones. Their skin would glow because they had been transformed by the hydrolaise from the Mind of God.

Those divine teachings that were originally brought to Earth by Jesus Christ Avatar 12 were completely destroyed. The first time that they were returned to Earth in their complete original form was beginning in 2003. That Keylontic Science of the Star Language began transmission through CDT plates that could only be transcribed through consciousness from the Adonai Side-- the Spiritual Inner Earth. Those who COULD connEct consciousness into the inner could translate these plates.

All of the music on the CDs- beginning with the Ascension Kit- Ascension Vortal, Ascension Portal, Ascension Vortex and Magic Vortal contain these frequencies of transformation through codes. The more recent CD's contain breaths only of pure Aquafarian Shield of Transformation interacting with the crystal water, crystal light, crystal gel and crystal dust which is the magical transformational chemistry that is changing our bodies and planet. These foundations of energy and light through Crystalai's breath will form the perfect foundation for the transformation that will occur between 2017 and 2022, which are the two waves of ascension into harmonic universe two and harmonic universe 3.

Those who have one of these CD's and especially those who have their own Individual Immortality CD or ETERNAL LIFE mp3 will have the Frequencies of Transformation that will align them harmoniously and harmonically with the magical transformation of our shift into the second Harmonic Universe. We will be lifted from harmonic universe one into harmonic universe two in December. We will be changed from the

third dimension into the fifth dimension. The Individual Immortality CD's were created to align the frequencies of the individual into the path of frequencies that are particular to them. Some were aligned with Sirius B, some with Aquafarian Shield, some with Sun Ra, some with Sun La, some into Inner Earth, some into Tara or Gaia. Each individual has an individual path. All align into Ra, but each of us had an individual path from Ra. Most who are attuned enough to even want an INDIVIDUALIZED ETERNAL LIFE ALBUM, are here on the most important mission of all - attuning us back into the Aquafarian Shield that allows our transformation through hydrolaise.

(Teachings from the Cosmic Mystery School of the Omniverse)

There has never been a more important and more opportune time for partaking in our conversion from physical matter into spiritual substance.

The principles of conversion are based around the keylons. They keys to our creation. The keylons are star language, meaning photons plus phonons or light plus sound. The Light part of this activation is doing its part. We are having an abundance of solar

flares, CME's, showers of meteorites all showering us with the substance of what we were originally made of - the essence of stardust. The light is coming in bucket loads. All we have to do is add the sound to the light.

We were once Breatharians who lived within this natural process of inhaling light and exhaling or breathing a new form of light back out into the atmosphere. We lived within this eternal life process of the light coming in and the light going out. Our body structure was in its natural form at that time without the miasms in the tailbone and pineal area and within the entire chakra flow system of the body.

Now, while the stardust from our original stars of our creation, are flowing down into our atmosphere, we can once again practice that process of the eternal life system of creation. We can do this through Consciousness and the breath. We attach consciousness through the Elohim of Hearing at this time because this entity has always remained in the original Star System, within Gaia, where the Galactic Eternal Life system connected into the Universal Eternal Life System and the Cosmic Eternal Life System connects into the Original Source Eternal Life System. The Elohim of Hearing represents the Sound portion of the

process. The crystal liquid light, crystal dust and crystal gel are all components of the prana within the light that is being sent. We breathe the Cosmic Frequencies into the Light of the 14th dimensional heliotalic silver pastel frequency to ignite it. We do this with the use of the Merkaba Vehicle because it travels ten thousand times the speed of light and can bring the activation of the multidimensional time and space frequencies directly into our bodies.

We have talked about hydrolaise in past posts. We are going to describe the entire conversion process that takes place in the body and in the Earth's body when the hydrolaise is utilized in this process.

First, the manifest form of hydros and the Oron crystals within the gelaisic layers of reality are called hydrolaise.

The hydrolaise conversion is the equivalent process on the spiritual side of reality that our bodies go through on this physical side of reality when we breathe in oxygen and use oxygen in our cells. The oxygen is used to fuel the cells. It gets the cellular process going and then we emit carbon dioxide.

This process is much closer to the process that plants do called photosynthesis than what the human body does because plants are more in line with spiritual atunement than the body. The plants didn't have miasms placed all through their structures like we did.

There is a direct relationship between the the gelaisic spheres within the Oron crystals which are within the Crystal light Body in the etheric layers of the eternal creation found within the pineal thymus areas of the body.

The hydrolaise conversion is a part of the natural prana exchange cycle. This cycle used to happen naturally in the spiritual body. It can now be replicated by progressively re spiritualizing the matter through the prana exchange buiding charge. It builds progressively by allowing you to move forward in time by re accreating your spiritual body's frequencies through the eiradonis body, crystal body or etheric body within the physical body. Hydrolaise conversion would be natural in a living star system. It is a process that creates a frequency in the water that causes the a bubbling and lightness that causes the body to float.

Every element here in the physical has a corresponding element in the parallel spiritual

realm. This is the Atorai and that is the Adorai side. When we bring in more spiritual substance into the Atorai elemental side, the substance is transformed.

Just as there are natural reactions and interactions between elements in the physical universe there are natural reactions and interactions between elements in the spiritual universe. The hydrolaise conversion process is the natural process of creating an eternal life form.

Think about the helium relationship with water or the effect of helium on water. The natural water that is not mutated because of the molecular base is not mutated has qualities like the H₂O has here in the Atori.

The water in Aquafaria, which is the spiritual essence of Earth, is H₂O₂HE₃A. The A stands for Adori.

The water in this reality is a substance that you can drink and swim in like our water, but you can also walk on it, or walk through it. The atmosphere is much lighter and you have the ability to fly through it, only if you learn to maintain your own balance and focus. There is no gravity, so balance and movement is completely a skill that is learned.

We are always met by our friends and family in Aquafaria to carry us in the same manner that we would be riding on a dolphin. They sometimes let us go and begin the learning process of interacting with the hydrolaise. They begin with swimming because swimming is done the same way. The balancing process of walking on water and in the air is a little more difficult, but we always have friends to help us.

When we turn our water into a substance that becomes bubbly and lifts us up and smells like flowers the water has become hydrose. Hydrolaise is a substance that is deeper down in the living star.

As the star goes through certain conversions, it begins sending the hydrolaise, which is the precursor to hydros up to the top and when it gets out to the surface part of it goes off and it loses some of its elements, it gets lighter and it goes up into the air and it becomes hydrose, which is this type of water.

The hydrose is then formed through the hydrolaise conversion process.

So, this sounds something like what we think of as an ionic conversion or a Cosmic Water Plasma Ionic Conversion. It is like breaking up water into

smaller pieces like when the waterfall splashes.

We must translate this process into the spiritual reality of the star system that is the normal reality that we came from.

The process of the planet Earth is not normal. It is a distorted system created by reversed angular rotation of particle spin. The Earth has always set at a 23 degree tilt and upside down from where it would be if it was still Urtha.

The Earth cannot be corrected. However, our consciousness can be corrected, and in that correction we can shift our reality into Urtha, who in essence is the real Earth or the Higher Earth.

Hydrolaise is the key to making this shift into the reality of Urtha or Aquafaria or Inner Earth, Agartha occur. Hydrolaise is the natural form that we used when we were breatharians living in the normal system of Gaia. Urtha, is in essence, the original form of the true star that Earth was a part of at one time.

In the normal system, we would take these elements in from the air or atmosphere. These elements were the crystals within the Orons. We would bring these crystals of crystal light, crystal

liquid light, crystal dust and crystal gel down from our higher atmosphere. (some of you may remember reading the story that the Elohims told me of how Mary Magdalene's father would bring these magical crystals in three spheres down from the cloud cities and give them to his daughters for presents).

This is the Krystic reality of how things were supposed to work. That reality was brought back to Earth's consciousness through the help of Mary and Jesus. That reality was completely erased from the consciousness of those races on Earth prior to their teachings, and again afterward. The stories were re-written so idiots could understand them. The people in those times were reduced to idiots. They had their brains and souls removed by the fallen races. We have come a long way in the past 2000 years. We now have the intelligence to be given the true scientific stories of how we were actually created, where we came from and how we had this reality removed from us.

If we do not know the truth, we will never be set free. It is our selves that will set us free. If our selves keep believing in the teachings of the fallen angelics, we will just keep plugging our consciousness into that old trap. We can't be set free until we can discern the difference between

technologies that trap the mind in finite reality systems and those that free the mind into eternal life systems.

There is a breathing process where we would be breathing LIGHT.

It allows for the conversion within the body that sends parts of the converted hydrolaise energy back into the prana seed, or the ORON. It keeps the Prana flow open. It then sends a part of itself into the Blood to circulate (like oxygen would do in the physical body) and it releases it back into the atmosphere through breathing the hydrolaise. It then goes through a conversion in the air, where some of it becomes water and some of it becomes a gas in the air. We then breathe the gas in and the body converts the gas into the type of hydrolaise.

Part of it goes in to fuel the natural body system and then when they release it back out, it releases a form of hydrolaise back out that puts more back into the air and creates water emissions. It comes out as air. But then the air splits and part goes into a lighter element of gas and part goes into a denser form as a water based element of H₂O₂HE₃A.

There is an entire elemental chart of the adorai side and the atorai side and how the two will

interact to transmute the elements into a higher form that is less dense. We must first have our bodies converted into the elemental chart that is used in Aquafaria before we can go to Aquafaria.

The hydrolaise conversion is what happens when a body is bringing in the Eiradonis light energy body. When we bring the light body into atunement with the physical body we are bringing back the natural ability of the body to go through hydrolaise conversion.

The easiest way to understand this process is to realize that we are a part of the complete light spectrum- all the way up to the gamma or the plasma. If we focus our consciousness into the Sun we have placed ourselves within the entire Plasma Consciousness of our creation light. The blue light is a result of going into the allness of the light spectrum and then coming back out the center where the invisible light and the visible light spectrums intersect. When we are engaged with that point, we see a blue sphere. That blue sphere is our Soul Matrix. It is our Blue Body self. That doesn't mean that we are only 5DNA. That means that we are the 12 DNA of the Invisible light who is coming down into the visible light spectrum in order to EXPERIENCE the SELF.

We can't be 5th dimensional without being all of our entire 12 coded DNA. We are the complete Soul Matrix. We were just turned off for awhile in order to protect our race to become reactivated at this time.

The activation process is taking place now. I've already experienced it because I have been working on the Star Gate Activation as each star gate opened over the past 12 years. Each time a star gate opened we were able to activate one more strand of DNA.

It takes about two weeks for the activations to catch up with our hormones, and about five years for the activations to take place in our chakras. Of course this can be done instantly through the use of alignment techniques given by the Guardians.

The hydrolaise conversion process starts in the Aquafarian Shield of Urtha. Urtha is like a rainbow bridge allowing the spiritual elements to flow back into the physical earth through this process that uses the Eiron flow of crystal light energy from Source consciousness to flow into our bodies and the Earth's body until we become saturated with it. This allows for the transmutation of the physical back into the spiritual.

Don't forget how the story started. Earth was originally where Urtha is now. We used to have our heads up in the clouds. We used to live in the cities of light that are now where we see clouds.

Earth shrunk. We became more and more dense. However, there are those divine ones who kept their consciousness in that reality and did not densify. Those Aquafarians have prepared a way for us to become less and less dense until we rise back into the clouds and walk up the stairway to heaven just like Job did when he retrieved the crystal light, crystal dust and crystal gel spheres of prana to give to Mary and her sisters.

So, in the same manner that Earth shrunk, Earth can also have its density removed by transmutting lower dimesnion frequencies int ohiger dimensional frequencies, which are lighter- less dense.

The density that we have knwon as our reality has been hertzian, infra red and visible light. Those are the only three dimensional realities that we have known for a very long time.

However, the Aquafarians in Urtha know other dimesnional realities such as Invisible light, x ray light , gamma and plasma.

Of course , we know about these light forms. But we don't understand how it is possible to live in a sun or in a star. When in fact, we are living in a star right now. The Earth is kept within Urtha, the star which will starfire in a time not so distance from now. When Urtha starfires, we must be moved off of this planet and into a dimension of reality that will allow us to continue to ascend. That reality field is the Aquafaria, the Cities of Light the Inner Earth.

In reality we live inside of a sun, inside of a star. This reality will be revealed to us in the near future.

The Guardians planned the Star fires to occur far enough in advance that everyone would have 5 DNA strands fully activated by now. However, the Indigos or Star Seeds already had the 12 DNA capacity when they arrived on Earth. That is the reason only other Star seeds are capable of understanding what I am talking about. Those who do not have the coding within them will not be interested and will not be able to understand. Those are the Earth Seeds who will be activated by the Star Seeds.

The activation of the MIRACLE is all about

PARTAKING in the Opportunity. Only Star seeds will partake in it because they are the only ones who have the codes in their genes that are awakening the activation at this time. Each individual will be guided by their Soul to partake in whatever activity is needed at the time it is needed. That reality will begin now that the NET is no longer attached to our consciousness.

STARDUST ASCENSION GRID

The Ascension Grid will be reactivated within the Crystals of Earth's Grids - as more of our own Stardust Energy flows from Aquafaria into our Atmosphere. The Christ Consciousness is being reborn through each breath we take.

ZERO POINT

Dr. Angela Barnett

Crystal Magic Orchestra.com

Zero Point is the point of Creation. It is the Flash point of an Idea of God beginning creation. That one little point of light intersects into all of the Grid Lines of creation, beginning in the Cosmic Realms, the Universal, Galactic, and Solar. There is a woven tapestry of the complete God Template that expands itself from this Zero point into all creation. That Zero point exists outside of the realm of our Cosmos. It is in the Infinite Void of silver pink white. We intersect into that point of zero through our secondary consciousness. That secondary consciousness is a stream of light and sound energy that extends outside of the body at the point of the medulla oblongata which plugs in to the seed atom within the thymus.

That Seed Atom contained the exact replica blue print of that zero point of creation when the idea of this entire creation was set in motion. This stream of light and sound energy allows all that is within the Zero of the Allness of the Omnion of the original creation is continuously streaming into the Frequency Specific brain and into the Seed Atom. This zero point substance is a luminescence that glows in the dark and reflects itself in multiple hues upon hues something like a rainbow in the form of the etheric hue.

When the omnipresent flash takes place at zero point, there is a weaving and braiding into an egg. The zero point substance lines all of the grids of creation and forms into an egg. That egg is the orb bodies that we see through infra red. The original egg body that forms

moves from the invisible light form into a Blue Body through the interaction of the invisible light and the consciousness connection of an individual reflection of God.

So, the One God who creates all that is created is creating mini mes of him,herself. Each breath of creation is creating an identical structure of God in the form of an individual egg. The omnipresence of God is woven into each and every omnion of that egg. There is no place in the universe where that omnion particle of the Mind of God is not being replicated.

We can merge ourselves back into that tapestry of the grids of the omnions by expanding our densified body that has been lowered into the hertzian frequency out into the invisible light spectrum of reality. We can extend our body from this dimension clear up to the point of zero and see ourself sitting on a lotus blossom clear up in that zero point intersection with all that is. Now we can ride on that lotus blossom down the secondary consciousness stream back into the seed atom. That is the journey that we each took to get to where we are now.

We forgot about how we got here. When we reconnect our secondary consciousness clear back up that stream just like a salmon does when she swims back up the river to the place she came from, we can plug back in to our life which is eternal.

THE YEAR OF ILLUMINATION

Dr. Angela Barnett

"Crystalai"

One day, you will look at your body, and it will have disappeared. And you will see a New Body in a New Place. Of course, it is true that these things will not happen to the Masses for about three more decades. It will happen to those who have chosen to become Invisible.

The future is allowing those who desire to become Christs the most excellent radiation of point zero where those bands or spheres of music and sound that radiate are filled with all that radiates and they create an exquisite ambiance within those who have moved themselves within the gamma waves and over the

rainbow into the Universal Christ Light. These new waves of stellar radiation singing through the sun's heliosphere prepare the orchestration and angles of light for new realities to appear through those who choose to be Christ.

There was a prediction about the second coming of Christ appearing on a Silver Screen. That Silver Screen is the Radial Orb around our bodies and it is the DNA playing the new frequencies that have woven us back into the Over Soul of our Christ Consciousness that will project out on to the screen and Behold Christ has appeared before you. You are the Second Coming of Christ, and you will appear on the Silver Screen in front of you.

Christs are made from simple people who are not so blinded by the needs and wants of the world. From their humble origins have not so many things to tress pass their minds from the starry night and the enchanting moon and the golden morning's clouds laced in Rose and Purple. Christs are those who have moved within the Dark Room of the Mind of God where they can see the True Magic of God's Creation right before their eyes.

Christs are simple people who do not need to surround their lives with an assortment of distractions that compel their needs and emotions. They seek the Illumination of those things. 2016 is the year of Illumination. It is the first year when a new Christ Consciousness will become awakened on Earth.

The Mind requires the freedom to observe and see and not have the need to be seen or noticed. How is it possible for you to make room in your life, to make room in your mind for genius? To make room in your mind for observation?

And to be as thrilled and fulfilled by the morning dawn and midnight blue spangled with diamonds? Where will you find the time to leave the society and move into the kingdom of illumination? The Illuminated Mind moves freely in the Ethers of Greatness. The place where there is nothing more significant than the nature that enchants us is the place where the Christs will go. The society does not pursue such great things.

The year of Illumination will begin the awakening of the Greatness within all that is in your mind. The society might not be involved in this greatness, but it will still be there. The Masses may not see the Kingdom of

Heaven unfolding in front of their eyes, but it will still be there.

Those who have chosen to conform their minds to the rules of the world may not realize the new version of them self who was given rebirth into a brand new body, but it will happen to those who choose to walk through the mirror by raising their frequencies into the Cosmic Consciousness beyond space, time, people and events.

Must we lower our observations that they demand us to hear their objections and then to rudely comply with them?

What happens when we comply? Are we subject to the most subtle nuance of proper behavior if we falter? We are judged harshly if we comply. We are embraced into those shallow depths of duplicity, so that that we seek will have been lost. We will have lost our observation of forever in order to please the temporal mind who has no commitment.

If you give up your life working against your own karma for "their" approval, you are blinding yourself every day to be liked and to be loved, to be embraced, to be

popular. Where will "they" be in the moment of your death. Since you have lived so congenially and so hard that all of your resources have flipped in on a body that has bulked into conformity. Where are they when you die? Will they lay down their life and die for you? Why should we sacrifice our lives for "them" for those who mold us in to their mediocrity? Why should we conform to the ways that will not allow our freedom?

When we stumble upon a fellow who knows these things and allows us to forgive and grow, who allows us on our journey and yet is our companion. In such Love we are in the Midst of Someone in their Eternal Wisdom, Allowance, Stability and Greatness which allows them to Liquify you into the permission to be who you are and allows you to make that journey until such a day when the wisdom that you are leaving may become a light to someone else.

What is it that we achieve before man? Victory is a fleeting thing. For what we pursue we to be victorious in the eyes of men. But that we be victorious in the eyes of our self.

Surely there is a person unto which glory is a substantial existence and then how great we bless our day.

Without resistance we are allowed to dissolve it without re percussion.

Are you loved always in this journey by an Eternal and Ambitious God whose ambition is NESTLED IN YOU and that is a Glorious Thing. Every omnion of your being is God. Behold Christ in the Mirror.

Only the presence of Joy is here. We dissolved all of the past and become anchored in the moment.

WHEN THE WRONG PEOPLE GET THE RIGHT INFORMATION

**Dr. Angela Barnett
Crystal Magic Orchestra.com**

The importance of being programmed by mediocrity in the world is the subject that think tanks in the government know very well. They no not give people knowledge. They only give them products and they down size their brain and make them so busy at surviving every day that they create the colosseum of entertainment in which to entertain them and they always highlight the first three seals of survival, sex

and control in the entertainment to keep the focus on 1,2,3 while they enjoy the fruits of 4,5, and 6. Yes, they have always had access to 5 and 6 and 8. And yet, they made sure we would never have time to even become interested in that.

There has been a long known social attack on those who the powers that be have created to make serve only the special few. Soon, we will know the truth about who they are and the rest of us will be treated as the ones who will inherit the Earth. The knowledge that is known is kept by a few in high places. When the wrong people get the right information, they re-write it in a way that they know will put the masses to sleep.

They will make sure that the information dilutes the truth that will allow the kingdom of heaven to appear on Earth and allow Instant Manifestation and Ascension.

The exact same patterns available within the brain that have always been used by those who have become the great powers on Earth have always been to use a part of the Mind that is available to all, but only known by a few. Those of us who have chosen to tell you that you are god, you are Christ, behold you are the second coming of Christ. Behold, Christ has appeared on the Silver Screen. The Radial Body screen that allows your mind to see through the Veil and allows your spiritual twin Christ self to look into your eyes and then to become one with that self that allows you to know all

that is, and yet you have never seen it before. And you awaken and realize that the only reason that you didn't know that you are Christ and you are the god of your creation is because those few who control the world through your three seals have made sure you will always listen to the wrong teachers.

Those who say, Behold you are Christ, will be called the blasphemers, and those who tell you that there is only one Christ will remain with you for this life journey, just so you can return to Earth to become a reflection of them and replay your life again in a new movie, so that you will learn to know yourself better next time.

When the Christ appears before you is the time when you have walked through the Atomic Mirror of that radiation field that separates the visible from the invisible. When you walk into the Land of Wa and begin to see the Glorious Magic of the Kingdoms within kingdoms of the great unknown. When you realize the greatness of all you are, you will awaken on to the Ascension Aurora Earth where you will see great Beings standing in the Clouds as I have, and great beings meeting you in your garden and great beings landing space ships in your drive way.

And there will be those who will tell you that it is all a holographic illusion staged by the Illuminati in order to take control of your world. And those who choose to believe that will miss out on the Big Party.

The old dooms day stories are only an echo that is still sounding through the brain waves of the neo cortex which is re playing all of the old movies from the old Net Earth. We have the choice to remain in those old movies or to MAKE GOD's MOVIE by allowing the Christ to appear on the Silver Screen in front of you when you walk through the Atomic Mirror.
