

Magical StarDust Energy of Manifestation

Dr. Angela Barnett

Mary Magdalene

Mary Magdalene's Cosmic Bible

God's Musical Creation of Eternal Harmony by Mary Magdalene

<https://CrystalMagicOrchestra.com>

During spring 2009 starburst activities will be as strong as they were when Ursa Major was created. I might add the star bursts for the creation of the Islands of Light will be transmitted through crystal light energy sent by Zorak.

Zorak explained to me that creating Islands of Light is an extremely complex process that takes millions of Entities continuous work for many years. The preparation for the present incoming light energy was begun about one hundred years ago. These Cosmic Entities actually have to braid and strand and align each stream of electromagnetic light energy together through the Consciousness of millions of other Entities who are on the same wave length. These light streams create our conscious union with our higher selves to become established.

This magical stardust energy is like a movie screen that

allows us to create our movies- god's movie- onto it. This is what was called prana, bread of life, this is what was in the vessels that were given to MM and her sisters from their father Job. The story goes that Job climbed the stairway to heaven to collect this magical stardust. The substance contains the crystal light energy of creation, the crystal dust of healing and the crystal gel of transformation. It is the magical energy of ascension.

Mary (MM) is symbolic of the Mother of the Milky Way Galaxy. In the center of the Milky Way are the suns-- many suns. Sun Alcyon was the sun that created the etheric Ajaho. Ajaho was blown out of the Milky Way to become the Earth as we know her. So, you see, in a way, it is our mother, the Milky Way and our father- Sun Alcyone who are the parents of all we are. These are the great creators, the great entities who will bring us back to our star essence from which we came.

Near the center of the Milky Way there are also a few stellar super clusters of massive stars and many other magnetic phenomena. Within the Milky Way is Sagitarius A, which is the Radio Source of our frequency communication back to the Milky Way.

Those of us on Earth who are from the Blue Dolphinoid family have this same sonar capacity to communicate through this radio source in the milky way--our original home. Mary, of the Magical Magdal Tower was known to stream this magical stardust frequency from the Milky Way into the water tower and into Carmel where the underwater cities of light containing her magical

Dolphonoid family lived then and now. The Dolphonoid family of mermaids, dolphins, orcas and whales resonated in exact harmonic convergence with the crystals in the crystal core of Mother Earth--her Heart. As we align our Crystal Hearts into this same frequency we collect the standing wave pattern that transforms our consciousness and bodies into the Cosmic Frequency Channel.

This is the frequency station that allows me to pull in the highest frequencies to Earth and record them on to Cosmic Wave files. I have worked on many frequency teams over the eons together with Kuthumi in creating the Music of the Spheres school. I also work directly with my starry brother who was the creator of the starburst energy field that came from the Milky Way. According to the way our angelic families think about families, the Mary Magdalene who was said to be the Mother of the Milky Way in ancient literature would be like the mother energy that streams through me to bring the highest frequency to Earth through the magical stardust energy that my Starry Brother creates when he streams an electromagnetic funnel through the place where I stand.

It is the electromagnetic frequency of the star burst energy that is being drawn into our bodies and into Mother Earth through this starburst activity that will create a golden mean harmonic convergence of oneness of the etheric and the physical to blend us into all that we are.

Each time the Milky Way goes in to starburst in the galactic center, there are many stars forming rapidly and

undergoing supernovas at a rapid rate. The starburst also forms galactic jets that fall into the black hole. Galactic jets are plasma that spray from the centers of active galaxies. The jet is created from sub atomic particles and magnetic fields in the accretion disk of the black hole in the nucleus of the active galaxy.

These disks also develop around the neutron stars. We can collect these plasma jets from the neutron stars in the 14th dimensions and stream them together with the suns energy in the galactic 8th dimension in order to create this magic transformative substance and bring it into our bodies to create the neutron body.

This magical substance is ejected during starburst events. There was such a starburst event in the starburst galaxy located in Ursa Major. This is known as the Great Bear. Those who have called themselves the Bear People or the Dankooks in South Korea believe they are the entities from this system. It is interesting to note that Mt. Sorak in South Korea was created by my Starry Brother, Zorak who is also the creator of his own stars in Ursa Major.

Zorak guided me into a Korean Restaurant when we lived in Monterey and when I sat down and looked up to see a picture of Mt. ZSorak as large as the entire wall. Zorak said to me, "Do you remember when we created this mountain together?"

I was also recently told that it was Isis who created Chejudo Island. For those who know the story of Isis and

Osiris, you will know that Osiris lost one of his important bodily parts and that part is displayed all over Chejudo Island to represent that part that was found and restored by Isis. I am the only one who truly understands what all of this means because I have relived the mission of Osiris and Isis and Jesus and Mary. I have watched my husband get broken to bits and pieces, put him back together though the stardust frequencies of Zorak and the Mary line, and only I understand the true meaning of the missing part.

I was told all of these things are put here so that we will remember what we are supposed to do at this time. My starry brother and co-creators have explained to me that my higher self Zeena has been the co-creator of many of the Entities in the Mary line. The co-creators think of the Mary line as the Princess line. These are the female sainted ones who are all a part of the same mission of completing the ascension of Mother Earth. Mother Earth often thanks me for creating the portal of her ascension as we connect our Crystal Hearts into Oneness and then I connect my crystal heart out to the 24th dimension to stream in the stardust frequencies of Zorak that activate her ascension. Many of us are here for this type of purpose because we are related to certain entities or we are from certain Councils that came here as angelic representatives to perform specific duties at this time.

It is the Cosmic rays from this starburst transformational substance that bathe Mother Earth in the Cosmic Energy needed for her Ascension.

This Ursa Major is like a stardust factory that sprays subatomic particles and souls onto Mother Earth to reactivate her into returning into her original star system.

My starry brother Zorak sends this stardust substance to me to create islands of light, which are the star gates that allow our complete alignment into that cosmic frequency of our normal immortal selfhood.

This celestial substance that is streaming through me from my starry brother Zorak is the same celestial substance that Mary Magdalene used to wrap Jesus body in before his crucifixion and resurrection. This star dust magic plasma energy contains three rays or spheres of crystal rays- crystal light energy, crystal dust and crystal gel. This is the magical energy that was termed prana and bread of life in the bible. This is the magical ingredient that Mary and Jesus used in their teachings and manifestations.

We create the Christ tone or tone of home when we stream this Christ Light Energy into oneness with the supergalactic frequencies of star dust from this super nova creation. We can align our consciousness and our frequencies into this magical essence by streaming two rings of helium through the spark of source in the center of the crystal heart and spinning them at the speed of light out into the 24th dimension of Zorak's star dust.

The enigma of the pyramid was explained to me by Zorak as he guided my hands to form pyramid into pyramid as

angles formed into crystals and diamonds. Zorak guided me to Monterey to live on the spot where a portal and a pyramid have existed for eons waiting for the angles of this pyramid to be reconnected with all other angles on Earth.

Zorak spent many days with me using my breath and my hands as he streamed his crystal light energy through my breath and through my hands to create the sacred geometry that permits an Island of Light to form. From this point in California he led me to several other points where he wanted these light angles connected. This was the completion of the mapping for the Island of Light in California. Zorak told me that I can now create an Island of Light where ever I stand.

Zorak's stardust is encircling our Cosmos through the connection of the Sagitarius Radio Station. I am the other end of the sagitarius radio station. I was given the Christic Breath of transformation. I breathe the highest frequency into earth from Zorak's stardust. I was sent to Earth from the Crystalai Council to bring the highest frequency to Earth. I can do this because I was the daughter of Zorak many millions of years ago. Yes, it is possible to be an entity's daughter at one point and for him to be my starry brother at a later time. The Star Dust from our parallel Christic Brotherhood is the frequency- the crystal light- dust and gel needed to transform, heal and raise the entire matrix into alignment with its star essence.
