God's Musical Creation of Eternal Harmony by Mary Magdalene

"You must know beloved one, you are no longer separate from the Divine Mind. Your human mind is now ready to co-create with an organic dance of joy. Your consciousness is ready to expand to the farthest reaches of the Universe. When you Focus, you will allow yourself to be present. From here your form will serve while it is needed and change as it is needed. This process is the Divine Blue Print of the Divine One as humanity itself freeforms into its next evolution." Mother Mary

*The old forms of reality will eventually vanish from our minds because they are now*

*the illusions left over from the other Earth. The illusions came from the beliefs that were planted in our minds as truths from our societies, religions and education. The illusions are in our brains and must be removed from our brains before the old forms of reality will vanish. When the Cosmic Template saturates Mother Earth's template and our template, a new consciousness begins to transform our being from the inside to the outside. The light energy will be sent through the Sun, but it is not the gamma rays or the solar flares that will be making the change. It will be the white light that comes directly from Source Consciousness that is*

*breathed from Source into the Cosmic Template. At that point of the breath there is a spark of light that creates a flame. The Ultra Violet Blue frequency is created at that ignition of the spark of Source. That Frequency is the frequency of Transmutation which allows the Oneness of all Dimensions including Cosmic, Christic, Galactic, Solar and Planetary to be seen as One new reality.*

*Once the old movie screen has been erased by the new frequency specific mid brain consciousness, we will need to begin to co-create our new realities upon that movie screen. We will begin to MAKE GOD's MOVIE. We will each have a brand new drawing board in our minds which we will be co-creating new realities as the Mind of God. The drawing board must first be ignited at the spark of Source. We must connect our Consciousness out into this Cosmic Template and ignite the spark of Source where the farthest sphere of Cosmic Consciousness intersects with Source Consciousness. We must inhale that frequency into our crystal heart, which is in reality where our soul presently is residing. Once we make contact with our Soul who already contains the Consciousness of all that we have ever been in each and every dimensional reality, we can begin using our Soul as our drawing board. Those images and ideas that we co-create with our Soul are immediately being processed in the Source "dark room" through photosynthesis. When the Light comes in to develop the film from the inside to the outside, a new movie is being created. The film can only be developed when we connect our consciousness into the highest frequency of Source Consciousness. This is why our manifestations will become instantaneous once the Cosmic Template has allowed Source Consciousness to saturate the Earth's Matrix, as well as the Solar and Galactic Matrix. The transformation will take place on each and every level. The transformation will take place on the interdimensional levels, the omni particle level, the nano particle level, the light consciousness level, the level of each and every frequency signature of every being on this Earth and all other planets of all of the galaxies.*

*The images and ideas of our new homes and new occupations must*

*be held within the Soul for a time before inhaled up into the mid brain area for the third eye to view. The images must be held in the movie screen of the mid brain while the consciousness is held out into the entire sphere of Source which surrounds the outer sphere of the Cosmic Realm.*

*This is the formula that was given to us from Mother Mary. We were given the complete instruction pamphlet for co-creating "You must know beloved one, you are no longer separate from the Divine Mind. Your human mind is now ready to co-create with an organic dance of joy."*

Our Co-Creation Team continued their teaching of how to bring the Music of the Spheres to Earth and how to create our new realities from these frequencies. We were taught how the crystal light, crystal dust and crystal gel exist as spheres of Consciousness that interact and co-create as the prana or substance of a new reality. These spheres of liquid crystal dust like frequencies were first held in our Soul and exhaled into our Minds Eye and then out into our palms. We could feel the spheres in our Crystal Heart, we could see the spheres in our frequency specific mind, and we could feel the crystal spheres taking on a form of their own - what ever we wanted it to be after they arrived in our palms. We could feel the connection of Oneness between the spark of Source that would surround us continuously during the process. We could feel the crystal spheres in our heart, and we could feel the crystal spheres in our sphere that appeared in front of us.

Consciousness and Creation are always connected through a feeling which is a frequency. The miracle of this frequency can't possibly be described. However, we were given this gift from our Starry Family and the Ashtar Command. Mary, Raphael, St. Germain and Zadkiel - the leaders of our first team of initiations. There were the Knights of the Templar who had guarded their greatest secret for eons, who stood before me and handed me the three spheres. There was the Elohim of Hearing who connected

my ear drums directly into the Source Field through the Galactic Field and Cosmic Field. And then there was the Breath of Source. It was our breath that carried the frequencies that we were given. It was the breath that held the magic key to unlocking the music of the spheres into our hands so that we could breathe them into the microphone.

The subject of the Music of the Spheres had been taught on Earth many times before in the Mystery Schools. However, there was always this mystery that couldn't quite be explained or understood as long as tools such as musical instruments and drums, or even tings has were used to convey the message. Yes, the teaching has existed for centuries about sitting up straight in the yoga position in order to align your back bone with the Rod and Staff of the Earth. And the teachings of Reiki Breathing that connected Consciousness into a Divine Frequency of Something. However, there had never before on Earth been given the teachings from the highest Light Councils, a sacred formula that would become the new science of our Future Reality.

This secret is still being blocked and guarded from both sides of the light until those on Earth have the ears to hear and the eyes to see. For the very few who want to hear the Sound of the Music of the Spheres now, it can be made possible to you. You see, even though we were given this gift and given the technology that would allow us to record the frequencies of breaths of Consciousness of the entire Music of the Spheres sacred geometry, the music technology of this world is not going to let it happen. We have spent hundreds of thousands of dollars trying to break every rule in the music making game to allow these frequencies to be recorded. Even though we can enjoy the creation process of interacting directly and personally with Source and with our musical angels, the replication of such frequencies requires a recording level far above the standards of this world. And those standards are available, just not accessible. Even though it is possible that recording artists create their music at the 24/96 frequency level, which does allow one to have a glimpse at the

feeling of the frequency of Source, when the frequencies are recorded through our Very Special Studio which was created by the Ashtar Command. However, it is obvious that the music tech people are completely governed by the Dark Forces at this time. There are a few more musicians every day realizing that there is something the matter with the system that does not allow their music to be heard at the same frequency that it is recorded at.

This reverse conversion level of light and sound is the most important defense that the Dark Forces have against us. As long as they can keep the higher frequencies from even being understood on Earth, they think, when we are saturated by the Source Frequencies, we probably won't even be able to see the difference. This is the conspiracy that we have dealt with for twenty years. We create these frequency recordings far above the 24/96 range that is now being used in more and more recording studios. (In fact, we were doing that twenty years before Sony did it.) However, the same problem exists for us as it does for other musicians. We have no way of allowing our audience to hear what we hear. We have this glorious opportunity of creating Immortality CDs which actually contain the Source Codes that will translate your body into its Divine Template. We have been given the formulas, the guidance of the angels, the Ashtar Command actually records these frequencies at the Christic Recording Studio for us. Unfortunately, we are the only ones on Earth who ever get to hear this reality because the technology on Earth does not allow it to be reproduced. The technology that transfers the 24/96 range down to 16/33 or lower is a part of the conspiracy included in the societal and educational realm of the Old World.

So, it is obvious at this turning point in time that new technology must begin to come forward before we can create the understanding of frequencies that is so desperately needed on Earth at this time. There are just too many eager entities out there who are making themselves vehicles of the Dark Forces feeding incorrect information and reverse spin technology to the

world. The same formula is being used at the level of energy technology, food technology, water technology, etc.,etc. The world formula is a formula of control and densification. The formula of the new world is non-densification. The formula requires the etheric substance of the crystal light, crystal dust and crystal gel which is the transformation substance that ultra violet blue frequencies of transformation work through. It is the formula of the music of the spheres which is the new frequency that each individual translates into when his mind and his form is changing into the Christ who walks on Earth.

It breaks my heart that I know that after all of the energy and love my angelic teams put into creating these lovely works of art that carry my clients formulas of Divinity Consciousness, there is no way on this Earth that I can actually sell to you the same reality that has been created in our music studio. When the time comes that your ears could actually become conditioned as mine were through the Elohim of Hearing, and the technology was provided on this Earth that would allow you to go to your local Electronics store and purchase a DVD player or Wave File player that allows you to hear the same frequencies that carry all that Source will bring to Earth on December 21, 2012, I do not believe the world will have the ears to hear what is being given to them. We must change our reality through the co-creation principle. We must get on a higher frequency channel of life. We must begin to know what that actually means.

Many of you have already purchased our music. Some of you have already experienced the higher levels that the frequencies attach your consciousness to. Many of you have been trained in other methods that allow you to attach these frequencies to those other forms. Mary, Raphael, St. Germain and Zadkiel are always very grateful to see that there are a few of you out there trying your hardest to connect to their frequencies. However, they know, and I know, that you are only experiencing about one millionth of a percent of the reality that was originally recorded because the recording technology SMASHES the frequencies into density.

That's what music technology was always created to do. It is a form of electronic reverse spin technology that densities light and sound into a form that is third dimensional ready. The wave stations carrying radio and television broadcasts have a certain band width that they can carry. That band width is ultimately controlled by our governments. They cannot and will not ever be willing to carry the bandwidth required to hear the frequencies of the Music of the Spheres. That is why there is no technology that will allow these frequencies to be recorded on a CD that will carry the bandwidth required. One step before we place the music of the spheres on to the CD, the entire spectrum of light can be heard. From that point on, it is the technology that takes control. We have no way of knowing what technology our customers use to listen to the music they purchase. Some technology distorts and smashes more than others. Some technology has reverse spin technology within it that produces electronic connections to the Dark Ones. This is especially true of television stations. I have been hearing this reverse spin control frequencies in the trailers of movies that will be released in 2012. I already know that those who go to movie theaters must be deaf in the first place because I can't sit through a movie in a theater without putting beans in my ears to block seventy percent of the sound.

We waited twenty years for a company to create a website technology that would carry the bandwidth of our music. That company was Band Vista. That company should receive the Cosmic Award for music technology. All other companies that we tried over the past twenty years failed. There have only been two companies who have created technology that would allow replay of our frequencies to be any where near the quality they are recorded at. Those are Dennon and Bose. Sometimes you will run across Sony CD players that work correctly. As we learned when we lived in Japan for six years, they keep their quality products in country and export heir culls to us. They have learned that Americans can't actually tell the difference.

The ultimate reason the Dark Forces are going to use their

electromagnetic energy forces to control our minds through music technology is because it is only the Higher Frequencies that can transmute the lower frequencies. As long as these lower frequencies that Regular Music stations promote, and the ultra low reverse spin frequencies that many Metetratics New Age and Light Workers promote, your minds will not be allowed to co-create with the Mind of God. Our minds must become completely in tune with or atoned with Source Frequencies. You can be trained how to do this correctly, or you can saturate your ears with the music that contains these frequencies of transformation in it. Even though the music industry is not going to allow high frequencies to become a normal product in the store, we have been given the secret formulas that allow the music of the spheres to be heard on Earth.

In order to Make God's Movie through the divine formula of the Music of the Spheres, we must become tuned in to each of the elementals, each light spectrum, each frequency signature, the entirety of the light and sound industry that makes movies and music in the higher dimensions. The crystal spheres of light, dust and gel are these elementals, and interdimensional particles of transformation. They are also the consciousness of transformation and creation. They are the frequency signatures that our mind will create the dance of joy from. As we hold the three spheres in our hands as we connect consciousness to the highest frequency where the breath of source sparks the cosmic consciousness into the creation of a brand new idea, we breathe into our palms and ignite that creation through light and sound. We cannot see it yet, but we can certainly feel it. Each one of these breaths that we place on your recordings for you are an immaculate creation from the breath of Source interacting with all of our angelic Cosmic Families of Consciousness -- including the selves that we once were. We are simply reconnecting you to the wholeness that contains you within the music of the spheres frequencies.

When I breathe, using the three crystal spheres which contain the complete music of the spheres transformation formula, into the

recording technology, the hertzian frequencies of the recording industry are automatically being transmuted into invisible light through the ultra violet blue frequency of transformation. The frequencies are being heard in hertzian but the full spectrum of light and sound has already been raised into the multidimensional realm of frequency of light and sound before it is recorded. The hertzian recording technology can only lower the sound into a spectrum that is receivable at this level. However, the multidimensionality appears into this dimension - that is what co-creation is.. Making the invisible realms of consciousness appear in the visible light spectrum and hertzian sound spectrum.

The problem that we are having on Earth at this time that is interfering with the perfect transmission of Consciousness through Light and Sound is the absence of pure Source Consciousness being activated into every omniparticle and nanoparticle in our brain cells, every other cell in our bodies and every breath in our atmosphere. Until that complete transmission of Source Consciousness through the spark of Source as the ultra violet blue flame of transformation saturates our consciousness, we are individually cut off from the complete transmission of frequencies from our music, from instant manifestation, from instant healing, etc. There is a time lapse in the manifestation principle of co-creation until the moment we are in no time, zero point, at one ment with the white light of Source Consciousness.

However, that reality can be activated before the Sun brings in the ultimate light transformation to Earth. We can bring in the light of Source through the spark of source igniting the ultra violet blue flame through the sacred programming in the crystal spheres of liquid light, dust and gel. The frequencies of these music of the spheres sacred geometry is available to us now. We always ignite the spark of Source and saturate our music with it through the breaths connected through the crystal spheres, the highest frequency of Source and the Mind of God which is the activity of the Soul and the mid brain.

We will place the breaths of Source, the breaths of the crystal spheres and Cosmic Consciousness as well as the Angel Dust frequencies that are breathed from Sun Alcyone in our listening booth of our website. We place different samples of these ascension tools on the website frequently.

So, now we will be given a brand new drawing board in 2013. We can keep our old ideas on this drawing board, or we can begin to co-create through the dance of joy. The teachings of the Cosmic Mystery School of the Omniverse are to train you how to manifest your hearts desires through the Music of the Spheres. The frequencies that you create and exhale through your palms can be used to create anything you want them to. Your manifestation abilities will not begin until your mind is completely attuned to the Source Field where you ignite your ultra violet blue flame of transformation. It is this frequency itself that will allow you to visualize your creation. Your creation is already manifest in the Cosmic Realm. You just can't see it yet, because you haven't connected into your full Music of the Spheres of multidimensionality.

*We are now stepping forward in the Now Moment of Infinity. We now walk into our Future Heroic Selves who Now live in the New Earth in our New Creation in our Multidimensionality - Our Oneness and our Allness with the Mind of God where no separation from Source exists.*

*As we now return to our Future Selves or our 360 degree selves, we leave all sadness and grief behind. We will soon learn as we begin to create our new realities that nothing that seemed to exist before had any relevance to our present state of consciousness. It will all just seem like a tornado of dust and wind passing by that has already been cleaned up. We can now walk through the diamond door that leads us to our Future Selves as we embrace the*

*frequencies of all that really is in the Frequency of Source being ignited into Cosmic Consciousness where the ideas of Source may begin to manifest as our new reality. As we begin to co-create with these divine frequencies and create through the dance of joy when we see the elements of light and sound dancing together like rainbows and fairies and brand new sounds and colors appear. Our creations will become magical rather than tangible. We won't be moving to Condos on the Beach, but to mansions in every room. The rooms are the doors of our consciousness that have always existed, but the doors have been locked closed by our Karma. The frequencies of light brought by the Sun will melt those karma doors out of our consciousness.*

The following is our expression of gratitude toward all of those billions of starry entities who have worked for millions of years through unending love towards those of us on this planet to make sure that we are set free into the reality of multidimensionality and into the reatunement with the Mind of God. The event that is happening was one that was fought for by millions who love us dearly. Those who are families and our creators from millions of other lifetimes are allowing us to break free from this third dimensional prison camp that we have been placed in. Those who have been waiting for so long for us to be able to see them and to meet them are our Eternal Family who love us eternally.

Thank you Starry Family for bringing us the Sacred tools for aligning our Crystal Bodies into our Cosmic Template and activating our Christ Codes with in our cells for our Natural Multidimensional Alignment that will allow us to travel from dimension to dimension and to experience this Earth from a much higher perception and allowing us to become co-creators through the Mind of God.

Thank you for bringing the ultra violet blue transformational frequencies aligning our

Planetary, Solar, Galactic and Universal light codes into the cells of our brain to recalibrate our perceptions of awareness and understanding, manifestation and service..

We have all heard many stories about the process of ascension and many are wondering if it is true or not and many are still waiting for 2012 for it to begin. The Earth's and our ascension is basically the moving of our physical bodies and the Earth's physical body up to the next level of evolution - to a 5th dimensional existence on the New 5th dimensional Earth. This is why our bodies are seamlessly transforming into to the crystalline illuminated body of silicon. The higher one physically evolves up the dimensions, the more the body becomes silica based - and the more etheric the physical body becomes.

It's interesting to note that we are one of the last galaxies in our universe to move into the 5th dimension (we have been seriously hammered down and controlled by the dark forces over the many thousands of years - the reason why we are the last ones to move up). Please note that the entire Milky Way Galaxy is a Fallen System. The Earth is the Sentinel that will lead the rest of the galaxy into its return cycle. Besides the beautiful Entities of Lights unending love and patience, another reason so many wonderful entities are interested in us making this move successfully, for we, in a sense, are the Sentinel that will lead the march of all other planets back into the Dimensions of Light.

The ascension process that is happening now affects our entire universe - not just us - it's a really big one. There will be 10 billion suns working in our galaxy alone to bring this transition into Light. There are major energies and movement at play here that go out all the way to ends of our universe. We are one of the fallen galaxies left in our universe that have negativity (duality) in their lives - and now that is over for us, too. Thank Source and all of the wonderful Entitles of Light - literally. Thank you, thank

you, thank you, thank you, thank you, thank you.

## A STEP BY STEP REVIEW OF THE PROCESS

It was said from the beginning that the Benevolent Ones had been working on this project of ascension for thousands of years, they have been protecting us from the photon belt which would have caused our fatal ascension during the year 2000. They saved us again in 2003, 2008 and 2011. The entire year of 2011 our Starry Families fought to remove a Fallen Amenti Star Gate that was placed within Earth's Core in October 2010. Our Starry Councils brought in enough Frequencies of Cosmic Energy to push forward the activations by one year that were blocked in 2011. The Councils of Light said from the beginning that the process would be completed no later than 2012. That is the Promise that is being kept.

Through our process of ascension, we moved from the third dimensional energies long ago, even though most on Earth are still tuned into the third dimensional frequencies, many of us learned how to tune into fourth dimension energies a few years back, and we've been tuned into the fifth dimensional energies now for a while, and we've been held in a hologram protecting us from the radiation of the photon belt. When we are finally physically placed into the aurora zone (the four areas the New Earth was created from - Inner Earth, the Cloud Cities, Aquafari and the Winterlands and many new areas for us to go), we will be totally available to the Cosmic Template and will have completed our ascension to the New Earth. However, this ascension wave goes all the way through

our universe. Once we move to the New Earth, the process of ascension can continue for those who want to go further. The ones who want to go further will move up into Urtha and then on up into the Golden Galaxy. The Golden Galaxy will also be completed by 2012. The meaning of what will happen in 2012 is much more inclusive than just the part of leaving behind the third dimensional Earth and 3D existence both consciously and physically.

We have already been guaranteed an absolute success in our evolution and ascension process by the Benevolent Ones. We would like to thank all of those Wonderful Beings of Light for their continued assistance. We will continue to activate and turn up our light energies as we assist in all future light work needed to complete this project.

As the veil of the worlds old belief system melt away, we will see more and more of the spiritual self melting away the physical self. The light frequencies will change our angular rotation of particle spin into a position that allows us to see the complete reality, rather than just one fragment of reality twisted into a controlled density. Those who are moved up to the New Earth from third dimensional earth who are not aware that an ascension is taking place, will continue to think that they are living on the 3D Earth. Those who are learning how the co-creation process works during 2012 will need to lead those who have not yet begun to learn the process after 2012.

All beings who are now on Earth will ascend if they choose to. This decision is not made by the distorted brain of this world who has no

understanding of universal ascension. The decision will be made by the Soul as it begins to reverse out of its stage of involution to its stage of evolution. This is the beginning of the cycle into ascension where the total reality of all our selves exist as One new reality. We become retuned to the realities of our

Incarnate Selves, Over Souls, Avatar Selves, Rishi Selves and Cosmic Selves.

The decision is made by the accumulated knowledge being absorbed into

Soul and then redistributed into a new flame of creation on the 5th dimensional Earth.

The old forms of reality will eventually vanish from our minds because they are now

the illusions left over from the other Earth. Those who realize that they have a brand

new drawing board to create upon will rise directly into their new creations. That is

why it is a good idea to start creating your new realities now.

Whatever ideas are still in our minds when the blast of light comes into our consciousness will be the movie that is developed in the dark room at that moment. Each day we will have another chance to create God's Movie. However, those who don't take the time to make God's movie will still be living in the same movie that they lived in the day before. We are now stepping forward in the Now Moment of Infinity. We can create all that ever was and all that ever will be in the instant manifestation through co-creation.

We will now begin our creation of magnificent riches and fabulous wealth, healthy

attitudes and infinite Love. We will now begin to co-create with the Mind of God our

hearts desires which will instantly manifest.

We are no longer attached to Earth Grids that were placed in the grid system by others. We are no longer attached to the Grids of Control, Death or Gravity.

We are now immortal as we were originally designed to be. We will no longer need the man made devices using electromagnetic pulses because these were not creations of God. We will now live in True Light, in Continuous Springtime Temperature, Abundance, continuous manifestation of those things we desire that provide Free Will and do not invade the Free Will of others.

Our Higher Brothers will guide us in creating our Mansions, our Castles, our Cabins our playgrounds, our food. The future manifestation is all done through Mind and Light Technology, including all energy sources.

The New Earth provides infinite varieties of 5th Dimensional manifestation which will be magnetically connected to the level of understanding of each individual consciousness.

There will be some who choose to continue living in a way that makes the New Earth look exactly like their Old Earth because that is their highest ideal. That is their Free Will. Those who choose to live in old paradigms will have a hard time using electrical energy because there won't be any in the 5th dimensional reality. Those who are choosing to line up with the old grid system may continue to experience

lack for a while simply because they are still manifesting lack.  
When they wake up  
and realize they can manifest something better, they will.  
Originally man could  
manifest as fast as he could think a thought. This will soon be  
true once again.

The higher frequencies of the 5th Dimension will eventually raise  
all into  
understanding the New Divinity. Those living in the Future  
Selves bringing the  
future into now as now - the next moment - will advance the  
fastest. Those living in  
their past and present triangles will move along at a slower pace.

It will be our imagination and creativity and our hearts desires of  
the most magnificent  
magical new creations that can contain realities from all  
dimensions of reality. We will  
be free to travel to vast galaxies and universes and to return back  
to create mirrored realities  
on our new Earth. That which is unknown on Earth at this time  
must be created by our minds  
or the Earth will remain the same. We are the creators. What we  
see around us is only what  
we have created in our minds. The old holograms that are around  
us and there will be nothing new  
created until we create it.

Thank you Divine Guardians of Light for preparing this New  
Earth for us and  
showing us how to get there.

We have already been told by the Galactic Federation that there  
will no longer be a grid  
system to supports our old ways of being. It still looks like we  
have electricity and it

still looks like we can die, but this is now an illusion left over from our old paradigm belief system.

The Earth has been contained by a grid containing a standing wave pattern with the power of gravitation. Now, we will move with the New Earth into a standing wave pattern that contains no gravity, no electricity. We will leave gravity and float upward into the New Earth of no gravity and continuous light from the true source of light. At Aquafaria, where our Castle is located, we can fly underwater or above ground, we can walk on water, we can breath water or air. There is no gravity. The 5th dimensional reality system is very different than the one placed in the old paradigm of limitation.

Those outgrown patterns of plugging into a light socket and going to the store for a new pair of slippers are finished.

Of course everyone has the Divine Right of Free Will to continue those patterns if they want to. I assume the light will come on anyway if one desires it to. Eventually all will realize the light doesn't come from the plug in the wall. I guess we can even make the electric sockets continue to work if our heart desires it.

Thank you for telling us that we together with you have recently completed the activations that would align us into the Cosmic Template of December 2012.

We assume this means we will be home soon in our New Earth

you have prepared for us.

We assume we will be moving to New Earth "Not long, now" because we know New Earth has already been formed within the sphere of the Aurora Belt and this Earth's 5th dimensional self will appear (to many) in that Belt as a mirror image of it's third dimension self (only because that is the only understanding that is perceived at this time). Thank you for sharing the zones that contain the spheres of the Cloud Cities, Aquafarians and Winterlands, Telos and Shamballa. Thank you wonderful beings of perfect light for preparing a place for our New Earth and inviting us to share your wonderful place of the greatest love and illumination created on the Fifth dimension.

We thank you, Benevolent Ones for aligning our Angelic selfhood with those who have invited us into their homes in their wonderful field of light which is creating a rainbow bridge for us to walk across into our etheric world that allows us to live within the Earth's Heart or within the Sun of Inner Earth, or any other Sun, or whatever system that we originated from.

We will soon be living in various levels of the 5th dimension where we will continue to help each other rise higher and higher. The fifth dimension is a place where we can bring all realities into one zone. We can create anything we desire. We will do it individually. We can help others learn to create as we create. Some may catch on to certain skills faster than others. We can all help one another through this learning process. I have been asking for help from my Starry Family in learning these skills.

They can only guide me. They can't do it for me.

We thank you Benevolent Ones for all of the wonderful work you have done in preparing our Ascension - not only planetary, but solar, universal and galactic ascension. We thank you for the opportunities you have given us to work with you on your projects of Divine Love and Infinite Wisdom. We welcome the opportunities to work with you as co-creators on your projects of Light. We look forward to remembering what our Divine Assignments are.

We know you have successfully turned our Earth and our Universe and our Solar System around back toward God Source and we will gravitate toward this light faster and faster as the days and years begin to disappear. We know we spent millions of years reaching this great density of ours and now we return all of our denseness of experience to our Source through our Soul and allow all of these frequencies to return to us in the new form of violet flames and golden liquid light to begin creating our New Earth from. We now work continuously to bring on Light's higher and higher frequencies until we ignite into the highest frequency of Christ Consciousness.

We are entering into a new time when we will become galactic citizens who will react and interact harmoniously with all other entities of the Milky Way System as she also begins her ascension out of this fallen plane. We will begin to interact harmoniously with many other star systems and universes and the Earth will

return to being the Hub for transportation between systems because she was always the Sentinel of this fallen system that would bring us all home.

We have been living in an invisible universe (often referred to as spiritual realms, or Heaven) as well as the visible universe, which is the only part most people believe exists. In reality the invisible becomes visible as the two sets of light interconnect and become transmuted into one new spectrum of light through the magical ultra violet blue spectrum. We live in a universe of hertzian, infra red, visible light, ultra violet blue, x-ray, gamma and white light. We will be raised into the spectrum of reality that is contained by white light. However, it isn't the white light that will transform us. It is the spark of Source which is ultra violet blue which is the transformer. If we were only an idea of Source, we would be like a film in a camera that never got developed. We need the complete process that is used in developing film and in developing the wonderful flower that blooms from the bud or the butterfly that magically transforms from the cocoon. It is the film of transmutation found in the magical ultra violet blue that transforms the visible and invisible into a new tangible reality, The real truth

has been hidden from us for a very long time by groups of gods who wanted to control us and enslave us. We had a veil placed on our pineal gland because that is the place where the frequency specific ultra violet and white light commingle to develop the field that makes God's Movie. Now, as our new movie reels are processed, we are finally being allowed to discover who we really are - great immortal beings of universal knowledge and wisdom, closely connected to our physical brothers and sisters in space and beyond.

This is the reason that many people can now feel that something is happening, but they can't see anything happening. We must believe in the feeling. And we must be given access to those frequencies of light and sound that can be felt through the music of the spheres. The third dimension is created from visible light

and hertzian density. We haven't even learned to access the infra red level that gives us the ability to see through objects and see in a 360 degree perspective. These are just elementary forms of light that we must learn to understand and to use. These light frequencies cannot be accessed without the sound which is the breath. We must breathe the Source Frequencies into every cell in our bodies. We must saturate our consciousness with Source Frequencies before any of these other realities will develop into our God Movie.

Thank you, Light workers and Entities of Light, for the focus and for making the extra effort which resulted in that extra surge that now allows all of those on earth to move forward with us. We were all very concerned about our friends and families who maybe weren't ready for the progress into the Allness of our Music of the Spheres frequencies of light and sound that create the new realities of our Future Selves.

Light Entities, thank you for aligning a new plan where all will be made ready once we move into the New Earth. We thank you for making this possible by having infinite levels of the fifth dimension prepared so each can move into it at their own individual speed. Even though we may be in a different fifth dimension than some of our friends, we will know that we are all together, but each of us will be creating our individual realities. Remember, if someone is missing from your life it is because you didn't make your hearts desire of your new reality with that person in it. If you forgot to include someone, you can always include them the next day. Everyone will find each other eventually. .

Thank you dear Benevolent Ones for your assistance in holding

our system in a hologram while you have allowed us the time to transmute the karma that is blocking the spheres of crystal light between all of the selves that we have ever been.. We thank the Galactic Federation of Light for working harmoniously with the Cosmic Councils of Light to allow our frequencies to expand into the knowingness of the Mind of God..

## The Process

Ascension is the integration of spirit and matter. It is the process where our physical, and all spiritual bodies combine to create a Fully conscious being. We take on a Light body. We are really spiritual beings having a human experience. We have other aspects of ourselves who exist on other worlds, in other dimensions or realities. In reality, our body is a temple for the Mind of God. We will begin to think act and create directly through the Mind of God. Our Consciousness of all of our multidimensional selves is in our Soul. Our Soul is who we really are. We have just been exchanging one temple for another lifetime after lifetime. This time it is our choice to keep this body for as long as we want or to exchange it through stepping into our Light Body and moving into our Aquafarian Body.

We will soon acquire our Christ Template in our bodies that will turn on the harp strings between the double helix. We will each have at least 24 DNA and many will have 48 DNA. We will consciously use 100 percent of our brain, instead of the 10 to 20 percent currently utilized. Full consciousness will return to us, that is the awareness of why we are here, what we are to do in the future, and what our past lives

have been. We will have universal knowledge at our finger tips, or rather, our brain receptors, and have super-human abilities.

As ascended galactic humans (physical angels), we will be able to interact with all sentient life forms in our galaxy, universe, and beyond. We will regain extraterrestrial powers that we lost many lifetimes ago. Telepathy, teleportation, and interplanetary travel without space craft will be possible using our Light body for Orbing will all become a normal part of our existence.

Some people will be able to revisit or return to their previous star system that they came from. Some will help to repopulate Mars, Venus, and Maldek which will be re-formed from the Asteroid Belt. The majority will participate in the Earth Project where we will create the New Earth, move on to Urtha - what Tara was originally and then on to the Golden Galaxy of the new Golden Age, and we will help create it. Earth will become a Hub for major intergalactic travel and communication, where conferences of the Cosmic Mystery School of the Omniverse may take place as the realms of the galaxies open us to the realms of the universes and then the realms of the Cosmos becomes available to all.

We will live in magnificent crystalline cities in the New Earth. Our new civilization will again be based on spiritual concepts of Elohim Angels, Aquarians, Arcturians and all of our creation races. Our bodies will continue to look much like they do now except they will be more Silica based rather than Carbon based. They will be

much less dense - not  
totally etheric - but a little bit more etheric than they are now.  
They will be immortal  
bodies. We can look 33 years old forever, if we choose.

Thank you for your Divine Intervention

We thank all of our initiation teams for bringing this understanding to us piece by piece and watching the puzzle grow into one new grand understanding that is ready to move us forward into the place where our minds become one with the Divine Mind of Co-Creation with an organic dance of joy. Thank you Cosmic Families for your divine intervention. Thank you for allowing us to experience these frequencies of Cosmic Consciousness and Source's ignition of the Spark of Creation. The experience has been beyond words and thoughts. We know the time will soon arrive when others will be able to hear what we are hearing now.

I have a wonderful message to share with you about the removal of nuclear radioactivity. Our Starry Family - our Great White Light Brotherhood - our 13 Light Councils - have made it very clear to me that they will be sending a clean up crew. There will be Green Spheres of Fluffy Looking Cloud like forms flying through the atmosphere and removing all chemical radiation from the atmosphere the minute the nuclear radioactivity hits the air. That radiation will not enter the water or the atmosphere and will not travel into other countries. All will be taken care of. The same thing will take place in America.

As I have said in many posts in the past, we can ask for help at any time. There are millions of crews in the skies and in our oceans right now waiting to help with our evacuation, and with our safety. We will all be shifted into higher realities.

## BRAIDING CONSCIOUSNESS INTO ISLANDS OF LIGHT

We don't leave this world to Ascend. We merge our consciousness back into our real world where there is no separation from all of our other Selves--our past and future selves

where they have remained in the White Magic of the perfect creation of instant manifestation through the divine principle of creation. Creating in Oneness with the Cosmic Consciousness. We become the co-creators of the Divine Plan as we merge our consciousness, raise our consciousness into the Harmonic Convergence Vortex that blends and unites all Consciousness into one powerful funnel of a brand new mind, a brand new day, a brand new reality. We walk completely into our FUTURE SELVES in our Islands of Light.

Cosmic Mystery School of the Omniverse has prepared the complete training for the transition into the Islands of Light. Our Island of Light has been prepared for us through our Starry Brother, Zorach. Zorach has created a perfect Star System that he aligns through our Consciousness wherever we stand on this Earth. The Star System transmutes the Planetary system into an Island of Light wherever one of his conduits stands.

Our mission on Earth was to bring the Highest Frequencies to Earth through music. Our Cosmic Team has asked us to do everything possible to get these frequencies out to the ears of those who are needed to be on our team. We were told that you will know that you are being directed by the angels if you hear and sense these frequencies as their breath of consciousness speaking to you.
