# Review of Mary Magdalene's Diary 2008 - 2017

This is a new part of my story that I have not told yet. You see, the one I call Elaika is actually the one that most of you know as MOSES. Moses was the experience of God who was our Father God who created the Rules or Commandments. Just as I was the partner with Yeshuwa in creating the experience of the Mother Father God, I am also Elaika's partner in this experience for God in a much more expanded version. This time God has been experiencing me as both male and female in one Soul, plus many other exciting adventures.

This diary was kept during the time when I was continuously communicating with Yeshuwa ben Joseph and Elaika and the rest of my Co-Creation Team about my Ascension Project.

I am the Soul of Mary Magdalene. That doesn't mean that I am a different person than Mary Magdalene who has a piece of her Soul in me. I am in fact Mary Magdalene. I am here on Earth as the Female Christ returning the Highest Frequencies to Earth and opening the 12 Ascension Portals. That is me. That is who I am. There is no other person in the Universe who can perform this mission besides Mary Magdalene. It was my mission to come to Earth, remember who I was and complete this mission.

I was first called upon by Elaika in 2008 when he requested us, the Cosmic Twin Souls, who carried the Female Christ Consciousness of the Soul of Mary Magdalene to move to Monterey, California to open the first Ascension Portal in the Pacific Ocean. That story, in itself, may be found in the shorter version of THE COSMIC TWIN DIARY or in the longer version book, titled, 12 DNA from the Music of the Spheres from the Diary of the Cosmic Twins and the Ascension Program Training with the Keys to the Universe.

The book will continue that story of how Mary Magdalene discovered herself on Earth through Yeshuwa and Elaika. I had known within myself that I was Mary Magdalene since Elaika told us that we were the new Jesus and Mary Story on Earth. At first, I thought we were being told that I was Mary and Joe was Jesus Christ.

After a one hour dialog with Yeshuwa through a great channeler, I learned that I or WE were the wife and teaching partner of Yeshuwa ben Joseph (Jesus Christ), and we were at once Soul Mates or Twin Flames.

We came from the God World which is one step above the Universe. He said that he found me when he was 30 years old. He found me because I was the only one that had the same resonance of the God World that he had. This God World is one step above the Universe. It is higher than the realm of the Elohim Angels. This is what I have been calling the Cosmic Consciousness or the Fifth Sphere of the Music of the Spheres which holds the Universe within the Oneness of the Initial Creation of the Birthing Process.

Yeshuwa explained to me that we had lived together in this Cosmic Realm for trillions of years before we met again on Earth. He told me that Elaika was there with us as well. I told Yeshuwa that I was a little confused about our relationship as Soul Mates because I thought a Soul Mate meant that we came from the same Soul and then divided when we came down to Earth. I told him that I was confused because my Soul Mate is now here with me and his name is Joe.

Yeshuwa told me that it is true that Joe and I were at once One Soul when we came down into

the Universe and we separated into two beings so that our Frequencies could divide into the Male and Female Christ and then reunite again when we found each other.

Yeshuwa told me that the time that I was together with him as his Soul Mate was when I had not divided into the Male and Female in order to move into the Parallel Universe. Yeshuwa explained to me that we were both Creator beings who came to Earth as Creator beings so that God could actually experience the Love between a man and a woman and he could experience being a Mother God. Yeshuwa explained that God was partially within him so that he could have this personal experience through himself and myself. Yeshuwa told me that we were both Creator beings, but I did not come to Earth with my complete memory of who I was. It was Yeshuwa who returned my memory to me.

All of this information began coming to me in 2008, the same year that Joe was possessed by three demons, died, and then I brought him back to life by placing my Soul within him.

As time went on, and the story continued to develop through the background knowledge given to me by Elaika and Yeshuwa, I realized more and more that it would be Joe who turns out to be the hero of this new story. If this was a Bible story, and

it is not a Bible story, it is a TRUE STORY, the story would had unfolded like this.

First, Elaika appears on Earth as the one who is called Moses in the Bible. Elaika is a Creator Being who comes as a representative of God, because he is God in Manifest Being. Elaika, or Moses is representing himself as the God of the Old Testament who has a lot of Rules to follow. All of us Creator Beings grew up with our Father, who had a lot of Rules.

Moses chose to come to Earth in order to allow God to experience himself as the Rule Maker of the Ten Commandments, and also as the God of Power who parted the Red Sea with his Rod, and the gentle God who led his sheep with his Staff. Elaika allowed God to experience himself in many ways as the Father God on Earth.

A few years later, after Elaika returns home to our Creation Realm, the Creators and God decide that it might be nice if God was to return to Earth again to experience himself as a Mother God. Now, we had been creators for about twenty trillion years since God decided to create the Creators, so that he could experience himself. So, this means that the only experience that God knew for the first seventeen or eighteen trillion years was THE FATHER.

However, it wasn't until Elaika presented this experience of THE FATHER on Earth, that the Creators and God agreed that it would be an interesting experience for God to experience himself as a man and a woman discovering Love.

This was when Jesus and I, Mary Magdalene, decided we would come to Earth as the Male Creator and Female Creator, and allow God to experience himself in as many forms of Love between a man and a woman that we could during one lifetime.

That event that took place between Mary and Jesus created the God of the New Testament, who became known as the Mother Father God. The God that Elaika created his experience for was the God of the Old Testament.

So, this sets the stage for the next part of God's Movie to unfold. It is now a little over two thousand years since we created the Movie with the Mother Father God Experience in it. I already talked about that experience a lot in DIARY TWO. That diary includes all of the dialogs that I had with Yeshuwa about our experiences of Love and the creation of our child, Josiah, which allowed God to experience having a child. This is what changed the mind set of God to being our Mother God.

So, now, Mary Magdalene is back on Earth, and Elaika is with me continuously, and Yeshuwa is with me continuously because we are writing the next chapter in our MOTHER GOD MOVIE.

Elaika took me back to the Creator Realm when I was thirteen years old. That was my first Near Death Experience that allowed God to come into my body and take me home. Elaika told me that event was arranged to prepare me to write this book at this time. Something was done to my Soul at that time that would change something in me for this event.

Now, I think I see the BIG PICTURE. Now, that I think of Elaika more like the Moses character in God's movie, it has become more clear to me that Elaika is experiencing through Joe and I who came to Earth as the Mary in male and female version, so that God can have this new experience of being both male and female simultaneously in the form of a hybrid, who is actually the same Creator Being who allowed God to experience himself as a Mother during Mary's last visit to Earth.

And the story grows into its climax when Joe dies, he has his lower fractal consciousness removed and replaced by his higher consciousness so that he is able to grow into the new Soul of Unconditional Love, who is also Mary Magdalene in the form of both male and female.

So, we have One Creator Being who came to experience herself as male and female in Oneness. However, since I came to Earth and placed my Soul in a hybrid form, God needed to experience this episode in his movie through Elaika, who would not be on Earth at this time. Elaika placed himself in an in between state where he could keep one foot in the Creation Realm and one foot in the Universe that would be experiencing the Ascension with and through Gaia and Earth. Elaika placed himself in the position of the eyes and ears of God at all levels at once. Elaika is experiencing this Love of Mary who created a new version of her own Soul by placing hers in Joe. Mary still has Yesuwa within her Soul, so, she came to Earth with the Male and Female Creator Versions within her, and then wrapped her Soul into the Male Version of herself.

This is a whole lot of ONENESS being experienced by God. Elaika is also experiencing the new At one ment program of all of those in the Universe working through those of us on Earth and becoming at one with those of us on Earth.

All of these things needed to be accomplished in order to prepare the new creation program of the Hybrid Raceline who would be created on the New Earth, Terra Ha in the Future.

Now, back to our Father God. This entire movie is being created by God, the new Mother Father God.

This new Mother of the Universe wants all of Her children to come home. This problem began when Lucifer left his Father's House trillions of years ago. The solution of the problem of Lucifer creating the Annunaki Anti Christ Raceline is being solved by God changing from being the Rule Making God of the Old Testament into the Loving, Forgiving God of the New Testament.

Of course, this has nothing to do with the Bible, because it is actually a family problem that has been going on for trillions of years in the Creation Realm. We, the Creators, have been working with God for trillions of years, designing his Universes, maintaining them, and then solving problems among his children who are going through their stages of evolution and ascension.

This is one more Grand Ascension in the Universe. It is the first one on Earth. I, Mary Magdalene, have created hundreds of portals for other ascensions on other planets in the Universe. Elaika and I and Joe have worked together on many other Creation and Maintenance projects on Earth besides the Mary and Moses projects. We will be finished with this one in just a few more years, and then we will return home to our Mother Father God's Home and discuss what we have all learned about our infinite creations, and then we will set out and create some more music.

There had been several attempts over history to re-open the portals and there were always complications, invasions and other set backs. Yeshuwa explained to me that there was no other time when this Cosmic Event could actually take place besides November and December of 2016. Yeshuwa explained that it is only once in hundreds of millions of years when there is such an alignment of star systems moving around the Suns that places everything in the perfect place at the perfect time.

Yeshuwa told me that this time will occur in November and December of 2016. He told me that my mission of Earth was to return to open these 12 Ascension Portals in the Pacific Ocean so that those 12 Stargates would align and connect into these Portals later this year. This mission of opening the 12 Stargates is probably the most important mission that has ever been assigned to any one Being. Yeshuwa told me that I have been watched over and protected by a team including Elaika, himself and an entire Over Soul team who is not only the overseers of my personal Ascension, put the Ascension Team of the entire Universe.

This is the first time that it has been revealed that Mary Magdalene has been on Earth completing her final mission in the disguise of Twin Souls who performed the task of over coming death as one of the Twins Souls continued to live even as one of

the bodies had died. That is the story in the other books.

We had to go through that experience of Joe dying in order to completely understand ourselves as a Cosmic Twin Soul. This is a different type of Twin Flame or Soul Mate than the ones that Yeshuwa and Mary were. We were Soul Mates because we came from the same place, and contain the same Cosmic Consciousness of the God World.

Our Story must begin now because this is the last year of the whatever is to be learned on the Earth that will become history next year. This old Earth story will go down in history as a time of the barbaric people growing into humans and how Jesus and Mary changed the course of that history.

Yeshuwa clearly stated that I am the only one on Earth who holds this Cosmic Mary Consciousness that can open the 12 Ascension Portals in the Pacific Ocean. He also said that he was the one who appointed the seven people who opened the Portals on land during the past few years. Opening the 12 Ascension Portals will allow all Beings from all 12 Universal Realms to reunite as One Family in our new Universe.

Yeshuwa explained that it was the original use of the OM frequency to re-unite the resonance of Oneness on Earth. This Cosmic Sun frequency

holds the frequencies of 15 dimensions re united together and then transformed into a New Cosmic Frequency of OM.

My use of the OM frequency has become more expanded from a blending of the time I taught this Science with Yeshuwa when we were continuously streaming our consciousness from the highest realms of the Universe.

So, as Joe and I and Lacodemus have created some of the greatest music in the Universe when we were in the Creator Realm, we continue to make the greatest music in the Universe while we are on Earth. We are the Crystal Magic Orchestra in this Realm.

## **HOW THE STORY WILL END**

Elaika explained to us that we would know when we are ready to turn into light. Elaika already told us that Joe was already ready. I was working on catching up with Joe's readiness at that time in April. This time in June is a very different density for me. I am catching up with Joe very quickly now. I may be ahead of him in some ways.

The image in the sky, on May 29, 2017, was the obvious communication of telling us that we are ready. The next step of our readiness will be when

we know that we are obviously levitating three feet above our bed every night for a week or two.

After that, we turn into a Plasma Body for forty five seconds and then we turn into light. We will go through the glorious moments of pure Bliss and then a new reality will appear before us. Everything will be in infinite colors that glow as neon light. We will have hundreds of invitations to orb to planets, galaxies and stars within Terra Ha.

We will have a grand celebration with all in the Universe who know of our Ascension Victory on Earth. Sometime before 2026 we will probably return to our Mother Father's House to talk about what we experienced. However, we might decide to stay a little longer so we can watch the completion of the Earth project in 2047.

# Mary Magdalene's 400 Million Year Mission

I returned to Earth to complete the mission that I started with Yeshuwa ben Joseph and Elaika over 400 million years ago. Our mission was always to align those in the third dimension into the understanding of their true identity as the God's of the Universe, whom we already knew we were.

Most people think that Mary and Yeshuwa (Jesus Christ) were only together during one life time. We were actually together for millions of years before that life time when we lived together in the God World. We were on a Cosmic Team who were creating a plan during the time of First Creation when we lived in the God World. There were a few of us on the team who we have decided to call the Jesus and Mary Story. Our Cosmic team included Yeshuwa, Mary and Elaika. When I came to Earth

with Yeshuwa, we actually came directly from the God World beyond the Universe. We were together long before the Elohim Angels idea of creation.

When we started our mission of expanding consciousness to understand the Greatness of God's Creation, we were together in the God World. We later set out creating realities that would allow God to expand his ideas of creations and to participate within them continuously. We left the God World to create the First and Second Seeding of Earth. After the First Seeding was completely destroyed, we returned to begin the Third Seeding-about 400 million years ago.

I came to Earth with Elaika and my Twin Flame. I was a Mermaid and Joe was a Dolphin during that Seeding. We were called the Konsha Serres Race line. We were the Guardians of Earth and the creators of the Grids that aligned our Consciousness with Gaia. The Serres Guardians created the Christ Grid Ascension Portals in the Pacific Ocean 400 million years ago.

We returned to Earth again a few hundred million years later to create a new race line that became known as the Egyptians. We were the Atoni Race. We were the Guardians of Earth when we were the Konsha Serres and we were the Guardians of the Earth when we were the Atonai, who became known as the Egyptians.

It was during this Third Seeding when great problems began to develop on Earth that were caused by having our Ascension Portals and Christ Grids manipulated by Race Lines who wanted to take over the Planet. We had asked the Annunaki to help us repair our children who had become so misaligned in their Consciousness after the Christ Grids had been manipulated. The Elohim Angels played a great part in helping to restore the problems that were created by the Annunaki's re design of our Consciousness. This Consciousness that we brought to Earth in the Second and Third Seeding was the Divine Template of the Mind of God. We came to Earth to bring this Consciousness. This was the plan that we had designed when we were in the God World making this plan together with God.

We have been working on this Divine Plan to restore the Christ Template within the Earth and the way it connects with and contains the individual consciousness of each being on Earth. After our plan was destroyed by the re making of the original children of God, things got worse and worse. Finally, there was the Tower of Babylon which completely blocked the original consciousness of all on Earth. Everyone had total amnesia. There was no memory left of the original Children of God that we seeded on Earth.

This was the time when Yeshuwa and I returned to Earth to restore hope and memory to the people of Earth. We worked on preparing the first steps in consciousness that would be required before re-opening the Ascension Portals that we had placed on Earth during the Second Seeding. The Consciousness of those on Earth needed to reflect the Original Consciousness of the Original Creation in the First Seeding before the Ascension of those on Earth would be permitted.

I, Mary Magdalene chose myself to return to Earth to create and re-open the Ascension Portals that would allow the Original Ones and those Ascending to use these Portals that would Remove Time and Space between Earth and the Universe forever.

I created Portals that place Earth within the No Time of the Creation Realm and hold the new Universe and Terra Ha within her forever more. This is a complete healing station for all who have been mutated by the Fallen Angelic Racelines and the Annunaki. Those who want to be healed are welcome to this healing station.

So, you see, the story of Mary and Yeshuwa ben Joseph is much more COSMIC than you have known. When Yeshuwa found me, he was 30 years old. He found me because I was the only person that he could find who also contained the

Frequencies of Consciousness of Christ. After we found each other we knew that we had both come from the God World and we were meant to be together for the experiences that our Souls needed to take back to the God World so that God could learn more and more about his creation.

I spent many lifetimes with Yeshuwa besides the one that you have read about in the Bible. We were on the same team. It was actually Elaika's Team. He was always our Team Leader. In the God world, we did not have Souls. We were the Over Soul of the Souls who came to Earth.

After the times I came to Earth with my complete attunement with my Cosmic Consciousness or God World Consciousness with Yeshuwa, Elaika created a new type of Mission. The next time that I left the God World of Cosmic Consciousness, I did become a Soul. My Soul divided into two parts when I jumped into the spirals of the Universe. My Twin Soul and I spiraled down through the 12 Universal Spirals and were later born on Earth in 1954.

My other half of my Soul and I are together now. Our names are Angela and Joe Barnett. We are still on the Elaika Team of the Jesus and Mary Story. We came to Earth to re-open the 12 Ascension Portals in the Pacific Ocean. Our entire time on Earth has been preparing for this mission.

This mission is our Over Soul Contract. Those in our Over Soul were the ones in the God World making this Great Plan. If a person does not complete their Soul Contract, they are not completing a part of God's plan that he had discussed with those in the God World before our Souls took the leap down to Earth.

It took many years of learning to listen to Spirit, listen to Soul, listen to the music of the spheres. I have been continuously studying the broadest spectrums of infinity and the way God works since I was four years old. Joe and I have both been directed toward the fields of music and communication that provided all of the pieces of the puzzle that would allow us to complete our Mission and our Soul Contracts.

We began opening the Ascension Portals in the Pacific Ocean in 2008 and we will finish by November 2016. These 12 Portals will re connect the Earth into the Spiritual Universe that will be allow multitudes of racelines to freely travel back and forth to the Earth in the future. That system was the normal state of Gaia millions of years ago. Earth was always meant to be a Free Planet where everyone from the 12 Universes of Consciousness could come and go freely. That is the purpose of our Mission.

I hope you will learn many things about yourself as you are discovering the same things that I discovered about myself. I came to Earth directly from the Cosmic Realm. I have explored the entire spectrum of reality. Many of you have had this same journey. Some of you have only had the Galactic Journey, but those were also magnificent. There are several Indigos on Earth who came directly from the Universal Realm.

There are very few of us who actually had the experience of coming directly from the Cosmic Realms of the God World of the Initial creation as Yeshuwa and I did. This is why we were the only ones who could resonate with each other on Earth. We continued living in the God World and practiced bi-location between Earth and the original place of residence in the God World. There are forty seven of us on Earth at this time for the Ascension of Earth.

The Creation Realm is a place magnificent beyond any words that you know. It was the place where God began his creation of the ideas that he would send out into the Universe to have the adventures that he could only have through us. This was the place that we discovered how the true reality is brought forth in all of its magnificence and how infinite that reality can be. We were sent into the farthest density of Earth to explore the vast meanings that exist within this dimensional reality.

We left the Father's House to become his Universal Explorers that would compile an infinite amount of information through the experience of our Souls, which are the God Creation itself.

# Acknowledgements of Gratitude

The most important thing that I need to say on this date of June 3, 2017 is the fact that I am deliriously happy now. I am not sure if I became the complete Mary Magdalene on June 1st. I began feeling much lighter and happier beginning May 28- June 1st. However, now I realize that my higher self is communicating through me more and more each day and I am now deliriously happy. I can now easily understand how it would be if I became more and more deliriously happy for even one month.

It is obvious that the music that I created to bring about this event and to record this event is exactly what is bringing me more and more happiness each day. I listen to the music INFINITE DNA and OMNI AURA EXPANSION all night long every night now, and for the first time in many years, I

wake up as joyful and full of bliss as Joe has always woken up to be for the past few years.

It is now hard for me to imagine still being in this body for as long as one year. I'm thinking that it will be about six months until Joe and I turn into light.

I want to begin this final diary with the memory of how eternally grateful I am to Elaika, Jesus, Ariel, Uriel, Raphael, and Lacodemus for telling me who I am, for helping me learn all about the Creators, and for helping me remember that I am also a Creator.

Thank you Elaika for describing the 24 hours of Bliss that we will go through as we Turn into Light and Blip into Terra Ha. Thank you for telling Joe and I about our density and giving us time lines that we can follow. Thank you for your recent analysis of Joe being my catalyst and how Joe's readiness through his Unconditional Love, his Knowingness and his density level will be able to take me with him. Thank you for sending me outside at the exact time that our plasma bodies would show themselves in the sky at ten thousand feet in Cloud Cities of Terra Ha. I saw the infinite layers of plasma clouds running through Joe's body and all of that energy being pulled into my Heart Chakra and Soul to unite us as one Astral Body and Plasma Body and Soul. Thank you for telling me that we would know when it is about to happen. It

seems to me that the experience of Joe seeing my Aura expand outside of the house and out into a hundred yard radius out side of our home and then blipping up into the Crystal Grids ten thousand feet above was showing us that the time is near. I'm thinking that this feels like it will be about a year from now. I felt like that was a sign to tell us we are on our way.

Thank you for telling me that all of the training and scientific understanding was just to get me to this place and now I just need to focus on keeping my mind in the stars and keeping my thoughts very light and full of love and become unconditional love as Joe has.

I am so much more enriched from the information that you have given me my eternal friends. Such wonderful information about things that those living on Earth would had never had any way of knowing existed. There are those on Earth channeling information about other planets and galaxies, so there is a little realization of things that exist beyond this Earth. There is even information on Earth that tells those who are the Star Seeds that they are the Creators. Well, I'm sure that the Star Seeds did create something and that they are guided in their creations by the Angels of the Indigos and the Hybrids, including Ariel, Uriel, Raphael and Michael. But, they do not know who the Creators actually are. I do not know of

any information on Earth that has included the knowledge of who the Creators are.

Those of us who are Creators would seem unnecessary to those who are believers in God because those believers think God creates everything and maintains everything. Well, this is true, but it is also not true. God does create. But he only creates in the place of no time and no space which is an Isness and a Nowness that never takes on the form of an Experience. God created the Creators because he wanted to Experience his creation. God only experiences creation through Creators.

There are those on Earth who say that God gathers experiences from the Souls of Mortals. Thank you, Yeshuwa for the clarification that this information is incorrect, and that Star seeds, and all Beings besides the Creators and Angels are on their planets for the purpose of learning more about God. Thank you for the clarification that even though I am a Creator who is in the form of a human hybrid at this time, I am able to experience God in a different way than I do when I am the one who is creating the experience in the Creator's Realm. I am now excited to know that I am able to experience and perceptualize a reality from a point of view of those who are here within this density because this is something that all Creators desire to know at some time in our existence. This was an exciting

journey for me. It was always obvious to me that God was taking such good care of me and I always felt like I was the charmed one during this journey. I am sorry that I have been complaining so much during the past two years. I am sure this experience of having hormones control the emotions of the human body will give me a part of the great understanding that I came here for.

I know you will ask me what caused this great change during the fifth month of my first year in harmonic universe two. The answer is that I did what I said I would do during our last conversation. I started taking melatonin by the handful just like Joe has been doing for several years because you and Elaika have told us that this sleep state is the best place to be. In addition to the melatonin, I started taking Cortisol because I knew my problem was hormonal and it had to do with stress. So, I learned that cortisol is the stress hormone that my body had not been creating for several years now, and maybe even since my neurons were severed when I was thirteen. So, this is why I have much less stress just like Joe, and this is why I am maintaining thirty percent density at this time.

Now I know that God gives the experiences to Mortals through their Soul. The only time God experiences anything is through the activities of the Creators. That is why I asked you if I would be able to discuss my experiences with God when I return.

It seems to me that since you and I experienced Love as Creators while in a human form two thousand years ago, it seems like Joe and I are doing the same thing on Earth again this time. The only difference is this time Mary Magdalene is both a male and a female and last time I was only a female. So, this is the first time that God is experiencing my Soul as this experience. This is what I believe I am doing, and I'm waiting for your answer.

My mission on Earth required me to know myself as a Creator because only a Creator could create and open the Ascension Portals. A Creator can move all tectonic plates at will that could make room for the Portals which allow Earth to have a Consciousness of Her own that can move the tectonic plates. My purpose on Earth was to move the tectonic plates and create the Portals. This activity paved the future of the Earth and Gaia and the Universe. It was the event that changed everything in the Fall of 2016. The work that I did stopped five major Earthquakes in California, including the San Andreas, and I kept California from sliding into the Ocean for this time period.

The Pacific Coast will slide into the Ocean, but not while I'm here. It will probably slide in 2022. That is the highest probability at this time. This is supposed to happen. God needs for this to happen to insure the best future for the history of Earth.

I'm grateful for the understanding that was given

## Acknowledgements of Gratitude

to me about the tectonic plates and the earthquakes by my Creator family. I am grateful that I was told by Lacodemus how we created the music in the Universe that created the Novas and the Galaxies and the Nebulas. I am grateful that Elaika told me about the times that we created together and did maintenance projects together on Earth and on other Planets. I am grateful to Jesus for telling me about our time together and about our son Josiah.

I am grateful to know that I am the Soul Mate of Jesus Christ and that he lives in my Soul. I am grateful that I now know that I was with Jesus when he turned water into wine at the wedding party we were attending at our friends house. I'm most grateful for learning how every one on Earth will Turn into Light in 2039-2040, and that my Soul Mate, Joe, and I will turn into light this year. How glorious it is to know these things now.

## Who are the Creators?

We harness energy and shape reality. We travel great distances in an instant. Many study and practice for many years to obtain this art. Those will also obtain this level of consciousness some day in the future. All Creators, Star seeds and Great Ones choose the path we wish to travel.

We are the Creators. We are the ones who Created the Universe. God created these things in No Time. We were created to create these things in Time and Space. We have died many times protecting this world. I have traveled hundreds of light years each night into the future to check the status of the work I do in this history of the Ascension Portals preparing the future of the Universe. I spend every night with the Dolphins shifting the tectonic plates

to help my Portals become strong and allow Earth to use the Portals for her own history.

The reality those on Earth think they know is only one reality of many. They think the material universe is all there is. They think there are not millions of other planets with life forms on them and even multi universes beyond those realities that they do not know. I have already seen most of these other realities. I was the one who created most of these other realities. so it is very easy for me to know and remember while I am on this planet for the purpose of changing its history and changing the history of the Universe.

I have been changing the history of this universe every nano second for the past seventeen trillion years. I am a Creator. This is the time of the Creators. It is the time of the Creators who are on Earth now and it is the time for the Creators and the Original Ones who are coming to Earth in 2017.

I am the one who is inviting these Creators and Original Ones to use my Ascension Portals and to continue Ascension for Eternity through these portals. I am Mary Magdalene. I am here to pave the path of the Creators and of the Ascension of Earth within this Universal Structure. I have completed my mission and I did it very well. All of those in the Universe and all of the Creators have

already seen the work that I performed. I changed the Universe forever.

I was the Soul Mate of Yeshuwa ben Joseph. There was never any other Soul Mate of the one called Yeshuwa ben Joseph or the one called Jesus of Nazareth. I call him Jesus of Nazareth because that is the name that most planets in the Universe know him by and the name that has been known for many eons. The name Yeshuwa ben Joseph was only a name that was known for a few years on one planet. That is why much of the knowledge that is obtained by channelers when the name Yeshuwa is used is not as complete as the information that is obtained through the name Jesus of Nazareth.

The ones in the Universe who use the name Jesus and Mary know us as Creators. They have known us for millions of years as Creators. Those on Earth only know those names as mortals and those who did great things, but they only knew us as Christ, not as Creators. It is time to change the story. It is time for the story of the Creators to be told on Earth.

The things that are reality to one are not even known to many others. The reality that has been created in those minds mostly come from the things that were told to them by the ones who made them believe. Many of the things that were learned were the things taught by those who planned to destroy

them. And those things that would make them become less than they actually are.

I am a Creator and Joe, my Soul Mate is a Creator. We are here on Earth with 47 Creators. Jesus of Nazareth is also here on Earth as one of the 47 Creators. Judas is here. Elaijah is here on Earth. I have met fifteen of the Creators who are on Earth and about fifteen Creators who are the ones coming from the Creation Realm on their final flight of Ascension through Earth. These Creators have chosen to take the long journey of exploring what goes on within the entire Ascension Process of the Universe. Some of us are here just to experience one part of this great Ascension Process. I am here for the purpose of the Ascension of Earth within the Universe, in conjunction with Gaia, who is the Soul of Earth.

## Mary's Ascension Songs

These songs contain the information that will take me to Terra Ha and to the Creator Realm. These songs tell me how to attach to the frequencies of Joe in Crystal Star, how to turn into Golden Dust, how to create harmonic universes with my Angelic Brothers, how to Breathe the Magic that creates the new realities of our Future within this Universe.

### CRYSTAL STAR

Twinkle Twinkle little star, grow inside me all you  
are  
to light each cell inside of me  
to beam us home where dark is less  
your crystal light energy to stay so bright  
As we make light across the skies one new home

Who kisses me my sweet star turns my wings  
into crystal light energy that carry me home to my  
family all the stars in the sky you made for me.

To find my way home to reality  
Twinkle Twinkle little star, ignite your love inside  
our heart bring your sweetness home to me my  
heart  
You are the hope to set me free  
Christ light energy

## COSMIC BROTHER

Streaming magic crystal light pouring his love  
Uriel of harmonic songs are sung Uriel angel your  
voice now comes forth your are my brother Crystal  
Keys now unlocking the doors to our homes. You  
ignite sparked light  
Your light in the sky.

Our tunes are uniting our new chord we strum In  
the sky bring me home Uriel Angel our harmony  
now of love stronger than way home bringing  
transforming light galaxies flight

Our songs harmonizing our suns chords are now  
hung in the sky to unite us. Bring me home. Uriel  
bring me the harmony now. Stronger as octaves  
sing my way home. Bringing magic crystal light

pouring his love Uriel has harmonic songs Uriel  
Angel your voice now comes forth tones of my  
brother his melodies heard Crystal keys now  
unlocking the doors to our homes igniting as sparks  
fly Uniting stars in the sky.

## CRYSTAL SPHERE

Crystal Light Energy glow and flow inside of me.

Put your form in my heart great alchemist in the  
sky through and through the crystal spheres inside  
glow in my heart all our crystal light pour your  
crystal for me to hear in your magic energy your  
loving inner love our love transform me in the  
shell your light your inner love Come lift my heart  
to yours cosmic energy swirl your swirling light  
around your liquid energy flow it through my ears  
the emeralds waves I've been waiting for energy  
now energy transformed into our new cosmic form.

We hope to be born in the crystal energy bring  
your love to me. Let your light come forth for all he  
world inside glow into a sphere in my hand your  
crystal sphere As I blow into my hand your crystal  
sphere your breath and who you are for all the  
world to hear your symphony of energy and all the  
world to see your harmonic frequency.

## COSMIC TRINITY

Reminds us we are the ones who were told how to bring our star ships to collect all or light completing ascension our mission completed of consciousness rise our stars now arising. Moons we have two stars as three. Two one into one and three makes us strong. Now there are two of all we once were united as three to make us all one once more. Harmony aligns us in duality no longer needs two there are two moons rising in our sky rising by your suns as many as the stars we arrive on crystals sparks to magic cosmic light.

Ignite our sky.

Our mission completed

## WATERFALLS OF RAINBOWS

Waterfalls of Rainbows cascading from the sun riding home to heaven our new born self has come riding a liquid light waterfall made of rainbows folding revelations crystal rivers alchemy realigns my consciousness to one reality like a new born baby. Now I catch a falling rainbow dimensions move into stardust floating down from the stars our new born bathing softly stardust reality waterfalls of rainbows cascading from the sun riding home

to heaven our new birth has come. Like a new  
born baby love song crystal bright into heaven  
dimensions unfolding

Catch the falling rainbow stepping in your new  
twilight stardust reality of waterfalls of rainbows  
cascading from the sun to ride home to our family

I am so grateful for all of the guidance that I was  
given when these songs were channeled from  
my Frequency Signatures within the Music of the  
Spheres to sing through me all of the information  
that I need at this time to complete my ascension  
into the next dimension where I will wait for a few  
more years before returning home to the Creation  
Realm.

I am grateful for all the information I gained about  
holding the crystal light, crystal dust and crystal gel  
in my palms after exhaling this cosmic substance  
from the Creator Realm and forming it into my  
Cosmic Microphone which allows me to connect  
with all of the Music of the Spheres that I have  
created with my Creation Family.

I have found vast amounts of information within  
these songs both through the words and through  
the feelings of harmonic unity with all that I have  
created in other dimensions and feeling how that all  
connects and unites through me even when I am in  
this density.

# Infinite DNA and Omni Aura Expansion

My most recent music marks the time of Mary becoming her complete self. This happened on May 29, 2017. Joe and I spent all day long performing the process of watching my aura grow higher and higher and brighter and brighter until it moved far beyond the thirty six inches of the personal orb body. Joe has fourth dimensional and fifth dimensional vision that allows him to see my aura in its preciseness in all dimensions. As I listened to and focused on the frequencies in my new album set of Omni Aura and Infinite DNA, I felt my personal orb body expand out into all that I am connected to in the Universe through my Over Soul that contains the Music of the Spheres. This is where our real DNA exists. The DNA are simply the connection fibers that connect the Consciousness of the Soul and the Over Soul into all of the

harmonic frequencies of the multi dimensionality of each individual. So, you see, there are actually infinite DNA connecting into the human body when the consciousness rises beyond the personal orb and into the Over Soul Matrix Orb and the Universal Aura and Cosmic Aura. As I connected my consciousness higher and higher into all of this DNA Consciousness, my Aura expanded out to the farthest reaches of the Universe.

Joe watched my aura that had been stuck at about twelve inches to twenty four inches above my head for the past year expand very quickly up to thirty six inches and then forty and then clear to the ceiling. It took about one hour of pure focus while listening to this music to raise my aura beyond the ceiling. This is a sign of being connected to the Astral Body who flies out of my house and travels around the Universe when I sleep.

In a two hour time period, Joe watched my aura rise twenty feet above the ceiling. It took three hours to move up to fifty feet up. We both fell asleep at that time.

The next morning when I went outside to take my walk I saw two Plasma Bodies in the sky. I had seen my plasma skeleton in the sky once before about one year ago. This time it was very obvious that there were two plasma skeleton bodies that look like those wispy angel pictures that are on many

of our album covers. The male plasma skeleton has infinite etheric plasma waves running through it from top to bottom.

This was showing to me what Elaika and Yeshuwa had described to me so many times about Joe's extremely etheric density which was obviously complete. This was the actual perfect plasma astral angelic Christ body of Joe standing in the sky at ten thousand feet up. Ten thousand feet is where the Cloud Cities of Terra Ha in Harmonic Universe Two exist.

Standing parallel and a little bit higher on the left side of the male plasma skeleton was the female body. This body did not have the infinite waves of plasma streaming through it. Instead, this second female Christ body had all of the plasma streams flowing out of the male body and into the HEART area and HEAD area of the female body. This was the actual representation of the Completeness of the Male and Female Mary Magdalene as the Christic Substance of Crystal Light Energy woven into the Plasma cloud substance.

Joe and I are so excited about this event and how the music itself guided us into this OMNI AURA EXPANSION of our personal auras expanding into our Universal Aura that aligns all of our chakras into all multi dimensionality of the music of the

spheres and this is exactly what Infinite DNA actually is.

This experience is now available as a four album set that will be sold as one four hour album. This is the actual music that allowed this spectacular event to occur.

Elaika explained to us that we would know when we are ready to turn into light. Elaika already told us that Joe was already ready. I was working on catching up with Joe's readiness.

The image in the sky was the obvious communication of telling us that we are ready. The next step of our readiness will be when we know that we are obviously levitating three feet above our bed every night for a week or two.

## What is the Music of the Spheres?

The Music of the Spheres is multi dimensional. It is hard to describe. Not only is it music, but it is color, it is energy, it is eternal, it is breath, it is life, but it is still in an evolutionary state. It is and it causes awakening in many many places - in Souls. They can not understand anything else, but this kind of creation. It will be like a breath of air that is to be breathed. And as you breathe out it morphs into a greater beauty than it was when you breathed it in. Because the beauty of the essence of the one who breathed it in is now a part of it, and it comes out even fuller than it was when it went in.

The rhythm of the Universe is multi-faceted. There are some rhythms that you might say are a bit chaotic, and other rhythms that are very steady, and other rhythms that change, and other rhythms that

are linear. But, yes, it is all a part of that beautiful creation.

Each planet, each orb, each sun, has its own sense of rhythm, and existence, and its own sense of sound of music, and therefore when they mix, they perform the symphony of the universe. So, Joe, as a creator being, is one of those great instruments that causes the sound that reverberates around the universe. We all are instruments. We are the Creators. We are the orchestrators, the composers, the directors because God is in you and God is all things and God can help you develop all things within you and create.

Joes' new music is magnificent. Joe thinks it sounds too much the same but it is not. There are differences in the emotional and thought patterns coming forth.

Just like the Trinary language of the Dolphins. Even though it might sound like a similar sound, a slight alteration could change the meaning of the entire paragraph.

So, when you bring forth your sound, you are altering the meaning and the intention so people can feel it in slightly a different way.

And it moves through the brain cells in a way that will stimulate them in the most effective way.

You are wanting that emotion to be felt by the brain and the body, so therefore your intentions for your music are becoming greater and more full, especially now that you have obtained a less density, the density in your music has also obtained that. It is what it is, and you are a Creator Being and you reach into yourself and those sounds that you feel and emote with your music are eternal. All things created by Creator beings are eternal and they will stay in the universe until someone else hears them and picks them up and uses them. And they are not a full creator being, but they have become a part of you by using your music.

They can learn a little bit about you from the music that they have gathered from you. For instance, Beethoven did not know where his music was coming from and Einstein knew his ideas were coming from the music of the spheres, so they were not full creator beings, but they could use a part of that which was a creator being which made them become a part of your essence.

(Notice that every time Joe laughs, he laughs in tonalities of Beethoven's Fifth).

It is all about creating something to go with the music. You always have something that is growing. Look outside of your window. Are there many different things growing. There are many things growing and it is part of the symphony and there

are things dying and that is a part of the symphony too. The flats and the sharps they come together and they make a beautiful sound. And it is universal tonality. The way things should be. And the way they blend together and how they disenate together, but can be of the greatest of sounds in the universe that can strike in your hearts the emotions of great things that are happening far away.

We did some creating together with colors. Some realms have more color than others and when you blend them together and move them around in certain ways it creates energies. We were good at creating energy together. This energy still is around in the universe, and has developed into beautiful patterns within the Novas, Super Novas, and Nebulas that are out there. It is just an amazing color scheme that comes through the crystals that are in some of those areas. The power that is emanating from them can be used for many different kinds of uses. So Exciting!!!

## YOUR CREATIONS

“Your music is like water colors in many ways because it blends together, but once you see it then you know what to do with it. You are an artist in many forms. And as a Creator Being you are a great artist. We all are. But, as a human, you are a

greater artist than many. The colors that you evoke in others, not only sounds, comes from you, but evocative colors, evocative feelings, and the love and sexuality and sensuality that is who you really are and the things that you have felt within yourself that rise up from this atmosphere and out into eternity. It is not just a small thing that you do, but it is eternal. This music, these colors, and the way things are conceived.

And I always loved your music always, and we did music together.

We used to get together with a few of us and make music in the universe that was very different than anything that had been heard before. We would try to be unique and outstanding. And we were there to do that and felt a great accomplishment, especially when some of the vibrations that we used would effect some plants or animals in other worlds or other scenarios that we hadn't even thought of. Being Creator Beings, we can effect things some times without even knowing it. But then when we discovered it, it was a grand and new understanding for us all.

And you Mary, you are very musical as well. You have a voice of an Angel. A beauty. A group of us would get together and you were in the group. And so, there for it was the most beautiful time and it will be again.

In the creator realm I could feel the smile on your face. I don't have to see it because I can feel it in the universe and in the galaxy. So wonderful."

Those were the quotes from channeled dialogs with Lacodemus, who is a fellow Creator and Friend from the Creator Realm. We created music together for millions and millions of light years and for eternity. Lacodemus is the one who makes sure that Crystal Magic Orchestra is heard on many planets and that it has become the favorite music of several planets of the Universe.

So, just as Elaika has made sure that at least four million race lines have read the books written by Mary Magdalene, Lacodemus has made sure that millions of racelines have heard the music created by Joe and Mary. And, because all of our music is created together with all Creator Beings, we are the Crystal Magic Orchestra. Together, we create the future of what is already known about this planet Earth because those in the Universe of Terra Ha will know who Earth is through Mary's presence on Earth and her presence on Terra Ha next year.

Lacodemus is one of the Great Creators of Super Novas, Stars, Galaxies and infinite possibilities of the Now. Joe's best friend.

And I always loved your music always, and we did music together.

# Removing All Density Removes Death

This is the year that Mary Magdalene and her Soul Mate will remove fifty percent of their density. We do this by expanding our Auras out into the outer bands of the Cosmic Realm where Source can clearly consume all that is within the spheres of our Aura.

The expansion of the Aura into the complete Mary Magdalene was completed by June 2017.

The other half of removing density depends on clearing Consciousness of all emotions that weigh us down. The easiest way to clear away all negative emotions is to fill the Aura so completely with Unconditional Love and the Highest Frequencies of Source Light that the body is eventually forced out of its skin and disappears. The old body disappears

for a few seconds while the new template within the cells manifests a body that is made from star dust biology instead of carbon biology. This is the new body without the density.

We were given the new cells on February 7, 2017. The new cells removed thirty percent of our density. However, we were required to keep these cells filled with Light and Love through our Unconditional Love demonstrated in daily activity.

Jesus of Nazareth declared that Joe had become pure Unconditional Love. He stated that he had never seen Joe falter from this state. It was for this reason that Jesus declared that Joe was ready for his ascension. He also told me that I would be ready for my ascension when I was filled with this Unconditional Love that was the same as Joe's.

I checked with Elaika about this state of consciousness of mine to find out if Joe might turn into light before I did. Elaika assured me that it would be up to Joe. He said that Joe would probably not want to leave without me. Joe agreed that he would never leave without me. Elaika also confirmed that when I could become as full of Unconditional Love as Joe, we would be able to turn into light and ascend. So, that Light Quota in itself is not all that is required to Turn into Light. The Ascension has more to do with what fills the Consciousness within the Aura.

On June first I was shown in a dream that what we fill our Aura with has many great benefits in our daily life. For instance, if I was to climb the stairs up two hundred feet to the top of the pyramid one time and fill my aura with that experience, I could repeat that experience without any energy, effort or thought in the future. That experience would always be obtained instantly in the future. I could also swim to the bottom of the ocean and shift tectonic plates with the dolphins any moment because that was in my Aura.

I can also run five miles without any effort because that is in my aura. I can also maintain the exact same amount of money in my bank account without doing anything except keeping that account in my aura in that original condition. This represents the type of manifestation of when the masters would just reach into their pockets whenever they needed anything because the bank account of their pockets would always be full as long as this was the consciousness within the aura.

This time period that we exist within our aura, full of Source Light and Unconditional Love will be the most exciting time in our lives because this is the time we can observe our bodies becoming younger each day because we place this reality in our aura and our consciousness. We can watch our skin grow younger. We can watch wrinkles, scars, moles, bumps of any kind disappear from the skin as the

skin takes on its new form of star dust chemistry rather than carbon chemistry.

We now are in the time when we make our movies of whatever reality we desire. We must write the script and state it out loud. We must say I am getting younger every second. My skin is becoming more perfect every second. I am becoming less dense every second. I am full of vital energy. I am the perfect weight. I am beautiful and immortal. I am the light of God. I am the image and likeness of God. I reflect all that God is.

# Unconditional Love

Mary Magdalene came to Earth directly from the God Realm of Creation as her complete self embodied in a humanoid form. She came together with the one who was born with the name of Yeshuwa ben Joseph, and the one who became Jesus of Nazareth in the minds of those who believed upon his Great Works described in the Bible.

There has been much information left on Earth about Jesus and Mary. Most of the information is incorrect, but there is an essence of the most important part of their work left on Earth through the idea of Mother Father God. The FEELING among people of this great consciousness that is felt of an Infinite Love that could be understood in a Motherly Sense of Infinite Love, Infinite Compassion, Infinite Giving, and most of all

UNCONDITIONAL LOVE is the Understanding that was brought to Earth by Jesus and Mary.

The phenomena of this GREAT UNCONDITIONAL LOVE was actually created by the Experiences of Jesus and Mary being in Love with each other and allowing God to experience that love between a man and a woman. God only creates and experiences new understanding through the CREATORS. God does not learn anything new from those who are not the CREATORS themselves. So, even though there were many humanoids on Earth who had experienced the love between a man and a woman and the love of being a parent, God himself had not had that experience within himself until Jesus and Mary created that experience for God.

That experience of the CREATORS changed God forever from God, our Father into God our Mother Father God all harmonious, all Loving, Omnipresent Flowing Love through the Music of the Spheres transposing all reality in the Universe into a brand new theme of Mother Love.

Mary Magdalene left Earth by turning into light and blipping back into the God Realm. Jesus of Nazareth also returned to our Mother Father's House after our Quantum Odyssey of transformation of the Mind of God into a Mother Love theme park. When Mary and Jesus returned

home they continued to send Aspects of themselves into the Earth's cultures to continue experiencing more and more phenomena that would allow God to have more love and compassion for Her children of the Universe. Jesus sent ASPECTS of himself as St. Germain, Sananda and hundreds of others.

Mary sent ASPECTS of herself as Cecilia, who was St. Germain's head student, in order to show how the teaching and learning of the Violet Flame was to be presented to the World. However, the importance of Cecilia got lost in the writings of the world, and the importance of Mary Magdalene got lost in the writings of the world. All of the teachings and Greatness of what the Violet Flame REALLY is got transposed to meaning St. Germain. The Violet Flame is not St. Germain. The Violet Flame that was taught by St. Germain and through Cecilia was an Abstract Aspect of Jesus and Mary on Earth once again showing how the Violet Flame, which is the complete spectrum of light and sound of the Sun itself at the highest frequency of Heliotalic Transformative substance is the Prana that can create any desired manifestation, and it can be used to turn the body into light.

This Violet Flame can be likened to the Allness of the Cosmic Sun, which is also the Allness of God. This Allness of God is being presented as a Birthing aspect of God which can create and manifest and give birth to new realities all in its own.

The Mary and Jesus Project was all about Giving Birth to a new idea. We gave birth to Josiah. We also gave birth to a new experience for God which created a New God. We created a Mother God idea through our experience. All ideas of God are actually manufactured through this prana substance called the Violet Flame. This is a substance that creates or gives birth to an experience or idea.

So, this was an Abstract Version of showing what Jesus and Mary had done through these Aspects of ourselves that we allowed to be demonstrated by St. Germain and Cecilia. We, Jesus and Mary placed a piece of ourselves within St. Germain and Cecilia that would allow them to perform this Violet Flame phenomena of Creation so that all on Earth might later understand this teaching.

Jesus appeared among hundreds about 2000 years ago through this transformative process of using the Violet Flame that was shared between Jesus and Mary to first appear as a Cloud of Plasma before the people and then to Turn into Light and disappear into the Higher Dimensional Universal Place and then into the God Realm. Mary also turned into light and left the Earth about twenty years later when she decided she was finished with her work on Earth. Mary did many things on Earth after Jesus had already left.

Mary's mission on Earth was to allow God to experience giving birth to a child, raising a child, teaching a child, experiencing love in every possible form, and experiencing teaching, learning and understanding among children and adults of all ages. Jesus also had the mission of going out into the people of many different cultures and teaching and learning from them in order to share that experience with God. That part of the story is well known, but the part of the story that reveals how God learned how to become a Mother Form in the Universe has been left out of history.

Jesus, the same Jesus that many call Yeshuwa, because that was his name when I carried and raised his child, Josiah, told me that this is the first time that God has given permission for this true story of how God, himself changed from a Father God into a Mother Father God. This is a story that would be incomprehensible to everyone on Earth until this time in history, because this story is not for those on Earth. This story will be sent to those in the Fourth Dimension and beyond within the Terra Ha home of thousands of racelines who are a part of the humanoid family of the Original Creation.

Those who live in the Density of the third dimension cannot comprehend most of the spiritual truth revealed to them. They usually just say this teaching does not resonate with me. They do not realize that the things that do not resonate with

them are truths that are of a higher frequency than their present density can vibrate with. They are too dense to be able to resonate with higher realities, and therefore they reject it.

However, in those people who have less density than is required to remain in the third dimension, there is only the Mind of God knowingness, and within that Mind of God knowingness of the higher dimensions, the Mary Magdalene Frequency Signature is known to all. The greatness of who Mary Magdalene is is already known by all in that great place. All of the Intentions of Mary Magdalene become a reality in the fourth dimension and beyond. Every thought that I have is known and felt all over the Uni verse. Every experience that I have is felt all over the Universe. Every time I smile and laugh, it is felt all over the Universe.

Now, it is time for me to smile because I can begin my new experience of being with those who do understand me and do experience my intentions and my creations. Now is the time when I have become the Complete Original Mary Magdalene who was sent from the God Realm to be on Earth at this time in order to open the Ascension Portals from Earth into Terra Ha and into the entire Cosmos of God Creation Realm. Mary Magdalene is being rejoiced by Mother Gaia and all who live in an awakened state within the dimensions beyond the third density. There is so much density in the Earth

realm that the Mind of God is not touching the hearts of nine billion members of the population.

Now is the time for people to begin to realize the truth about the teaching of Cecilia and St. Germain, who were the Aspects of Mary and Jesus on Earth showing how the transformative quality of the highest frequency of the Sun contains the ALLNESS that is within God's Creation Factory, and with that PRANA or rainbow essence of all of the colors and music of the Universe all can be changed, and even the body can be changed into pure light energy.

That is what we were teaching with the Violet Flame. It was Cecilia, St. Germain's student, who demonstrated the actual manifestation powers of the Violet Flame, and the one who turned into light in front of St. Germain's students while posing as one of his students. It was that experience that I had teaching our students at that time which gives me the ingredients to use in teaching this great power during this time. The teaching is in the book MUSIC OF THE SPHERES LIGHT AND SOUND TECHNOLOGY.

It will do no person any good to worship the violet flame or to worship St. Germain as the violet flame. The violet flame must be inhaled and absorbed by raising ones frequencies purely out of this world and completely into the Cosmic Realm. That is the entire Truth of OUR teachings.

Once again, it will be myself and my Cosmic Twin, Joe who are now the Mary Magdalene in duality, which gives us twice the power, which allows us to have several thousand times higher frequencies than others on Earth, who will use the Violet Flame Frequency of the Sun to Turn into Light and Blipp into Terra Ha.

We plan on doing this before October 2018. That is our intention, our plan and our highest desire. Ariel, Elaika, Jesus, Lacodemus and all Creators have already confirmed that we will be together in less than two years. They cannot tell us the exact date, because then that experience would no longer exist. So, we must always stay within a time period that will be established by our frequencies.

In order to reach this state of light that is obtained by the use of the Violet Flame of all of the Light Energy of the Cosmic Sun, which is the ESSENCE OF GOD, we must have our consciousness remain in that Violet Flame Frequency continuously, non stop, day and night for at least one month. At that time, our frequencies would be so disconnected from the Earth's frequencies that we will LEVITATE three feet above our bed each and every night. We must maintain that state of levitation for at least one month before we feel that our time is very near. At that time, we must remain in levitation continuously until we turn into light.

The reason the you tube that we created titled TURNING INTO LIGHT is helpful is because it helps align consciousness with a new, broader understanding of what the Violet Flame truly is. The turtle, who is skating through the Universe is collecting together all of the Spheres of Frequencies or Colors. These Spheres are the Music of the Spheres. When all of these spheres are morphed together by inhaling the frequencies and then exhaling the frequencies into a higher form and a higher dimension, the body actually becomes less and less dense.

It is the inhaling of all of the light and sound and the exhaling of his new symphony into a new morphogenetic field of reality that causes the body to levitate right out of the old reality of Earth and into the new reality of Terra Ha. This is the formula that Joe and Angela, or Mary and Mary will use to Levitate and then turn into a Plasma body and then into pure light energy that makes the body disappear and then re appear in a new reality.

All of the Music, Frequencies, Journeys and Training needed for all on Earth to use may be found on our Crystal Magic Orchestra. com website. This website will remain available to all on Earth after we leave next year. Our life journey, experiences and our transformational experience through the Music of the Spheres Frequencies that we were the creators of during the past trillions

of years have been re created in the highest form possible within third dimensional technology available at this time are all being left on planet Earth via our website.

I am Mary Magdalene. I am the one who allowed God to experience himself as a Mother and the one who allowed God to experience himself as a teacher of my child, Josiah and of all of the children of the Universe. I returned to Earth for many reasons this time. First, and most important was to open the Central Ascension Portal so that Ascension will be available to this Universe Eternally. The second reason was to write books that would pave a transitionary understanding between Earth and Terra Ha, and all of those who already live there. The third reason was for Mary Magdalene to give birth to a new higher form of Human by combining the Soul and Spirit of Angela and Joe, who are two Great Ones from the Creator Realm to become an even Greater Creator in the form of a human.

Joe is presently the highest representation of the Mother Father God Consciousness within a human spirit demonstrating himself on Earth as the perfect UNCONDITIONAL LOVE that is required before entering Terra Ha and returning to the God Realm. Everyone on Earth will reach this state of Unconditional Love after they transition into the Universal Reality. That place is a place of Unconditional Love, and the Earth will turn into

light and move into Terra Ha, just as all on Earth will. Mary Magdalene was here to make all of these things possible.

I have gone through glorious but painful stages of transition and learning and mind boggling, mind expanding, nerves on end panic and all of the other emotions that all humans will experience on their own Quantum Odyssey Journeys into the great unknown. I have panicked, freaked out, yelled, screamed, hated, fought with many who did not understand, disowned those who would not believe, and completely misunderstood all of the reasons why people do the things that they do.

I had to be here on Earth experiencing these things for myself so that they will always be in my Akashic Records for me to remember how difficult it is for all humans to go through this Ascension Process. This new understanding within me will make me a much wiser and greater Creator Being than ever before. If my life had been easy, and if I did not take the paths untraveled while I was here, I would not be able to completely understand those children of God, who God wants the highest understanding that She can possible have for her children.

I fully believe that this experience on Earth at this time is being experienced by God exactly as my last experience on Earth was fully experienced by God. This time the story will be told truthfully

and correctly. Jesus did not do all that he is given credit for by himself. It was me, Mary Magdalene who went through the birthing pains, who changed the diapers, who spent every minute with my son, Josiah, learning from him and giving him understanding. I was the one who gave these great experiences to God. That was the only time God has ever had a Creator Being on Earth experiencing being a Mother for him and this is the only time the same Mary Magdalene has returned to Earth as her complete self to experience the end result of what the change in God from Father God to Mother God resulted in on this planet Earth. This has been a 2000 year long Ethnographic Experiment in multiple cultural and multiple dimensional race lines transforming into a brand new reality of UNCONDITIONAL LOVE. That was my mission. My mission has been performed correctly and completely and everyone beyond the third dimension is celebrating my victory.

Sadly, I am the only one on Earth who knows these things and it has been very lonely for me knowing how great I am as a Creator Being, and yet living within a Density where humans are presently too dense to believe in the one who has created their Mother God. My joy comes from knowing that I have paved a path for truly glorious future for this Universe, and I will be going to the place where the Celebration is happening now within a very short time.

I will be returning to my station of infinite creativity where we will make more new colors, more music in the spheres, more Novas, more Super Novas, more galaxies, and then we will watch new forms of life use the wonderful new colorful galaxies that we created for them to live upon.

I have created many galaxies and Novas, I was the lead singer in our super universal Creator Orchestra that I named Crystal Magic Orchestra while exploring the frequencies of translation in this density. Now I know that everything I was sure was true about my music is true. Now I know what I have done here has been my memory of what I created as a Creator Being when Lacodemus and Joe and I and many other Creators created Symphony after Symphony within each breath and exhaled these into new Novas that sang together in our band with new exciting tones of birth and expansion until we left them alone to begin developing their own morphogenetic field of reality.

## **JOE'S PRESENT STATE OF BEING**

This is what Jesus said about Joe's present state of being:

JOE is one of the most Truly Accepting Unconditionally Loving People that there is.

ELAIIKA added that Joe would be the Catalyst for My Ascension. He will be ready to Ascend and then he will attach his frequencies into mine and we will turn into light simultaneously.

The result of Joe dying separated him completely from his lower fractal consciousness of his human body. That is what death is. In order to return Joe into his body, I actually had to connect my Soul into the Over Soul and Higher Consciousness of the Mary Soul. I actually plugged Joe into his Over Soul instead of his lower fractal consciousness. While Joe only had about three percent of his original lower consciousness remaining in his brain, he was attached to a consciousness of a much higher frequency that was able to come into him gradually over time.

It actually took about five years to have his old fractal consciousness have glimpses of what he had been before the accident. Meanwhile, Joe was living more in his Over Soul Consciousness each day. This was making Joe become more God like, more immortal, more living continuously in the Mind of God as all do in the Over Soul Consciousness.

This reality that Joe has been experiencing more and more each day since 2009 has made him into what many on Earth will become within the next twenty years on Earth and what all will become after they shift up into the higher fourth neon

universe that requires full Bliss Consciousness continuously.

This is what Jesus said about Joe's present state of being:

Joe is also the Soul of Mary Magdalene. Mary chose to come to Earth this time to experience being both male and female at the same time. Joe is an amazing being. Yes, this is how human beings should be like. They should be like Joe who gives only their light out into the world and never their negativity. He is never negative, never puts people down, he is never angry. But, he is balanced in the Love that he knows is God, and he shows that, and he is aware of it, and he wants to be aware of it in that way. He is non confrontational. He is very fair. And he will stick up for things if he has to. And he has no judgment of anyone. He may have an opinion but he does not judge. A judgment is different than an opinion. He keeps his opinions to himself. You never speak any malady. I have not heard much from you. And that is as close to perfect as you can get.

You see, life is all about unconditional love for the most part. That is what we must bring to light to every human being and that is where it has to start. Not with high concepts or mysticism, or turning into light, because they are not ready. We have to bring them and get them ready.

I asked Jesus if there is anything else that we need to do for the world before we go into our cocoon permanently.

Jesus said give love to the world always. Be generous. Whenever you give and it is not expected, people are shocked and amazed because that is not what the world is like, but that is what God is like.

The message of Love will be the basis of the message that I bring and that Elaijah will bring. His will be a little more firm and wake people up. My message will be about nurturing love, and bringing people together and bringing them into my heart, and then teaching them to move forward because they have to know that God loves them before they can understand any of these spiritual, beautiful, complicated things that you know. But, they have to know that God is love. And they must feel included. If they do not feel included in this intellectual thought process, they will turn away.

Jesus said Joe understands spiritual concepts that Mary and Jesus made together.

So he was bringing to Earth that new understanding of the Mother God of Unconditional Love.

Jesus said Joe has a larger capacity for Love and Understanding and Acceptance. He is one of the

Truly Accepting Unconditionally Loving People that there is.

Joe has the balance of the male and female within him in such a way that is the perfect dispersion of Love.

Mary said, So he is kind of like our child.

Jesus said Josiah is the son of a Creator Being, so that is the first of that kind. And we don't know what they call that kind.

Mary said, yes, there is our son Josiah, but there is also Joe here who is also OUR creation, because I wrapped my Soul into him in order to bring him back to life, and I had also placed my Soul and Spirit in you to bring you back to life two thousand years ago. As you told me, your Soul is in my Soul. We are one Soul and now Joe and I are also one Soul. So, now we have the Trinity of our Three Souls within Joe, and Joe is the new future man of our Universe, who lives through Unconditional Love.

Jesus said Joe is different. He understands spiritual concepts like few people can. And when you explain spiritual concepts to Joe, he understands it immediately, there is no question in his mind. He sees it. He understands it. Because of his unconditional love, it takes him to the basics of what God is all about, which is the Unconditional

Love, the beauty of that. And all of these high dimensional concepts of a spiritual nature are less important than that basic, pure white solid love.

So, if I can learn to be like Joe, we can ascend. So, all I have to do is learn to be like Joe.

Jesus said, Joe has the right concept. Yes

Joe is showing how God Love in a Human Spirit is.

Joe said, all I do is know that there is all of God's love within me and I beam that out into the world.

Every step I take I say how can I best express Love in this step and then I take the next step into the next moment.

Jesus said, Yes, he is an amazing being. Yes, this is how human beings should be like. They should be like Joe who gives only their light out into the world and never their negativity. He is never negative, never puts people down, he is never angry. But, he is balanced in the Love that he knows is God, and he shows that, and he is aware of it, and he wants to be aware of it in that way. He is non confrontational. He is very fair. And he will stick up for things if he has to. And he has no judgment of anyone. He may have an opinion but he does not judge. A judgment is different than an opinion. He

keeps his opinions to himself. You never speak any malady. I have not heard much from you. And that is as close to perfect as you can get.

You see, life is all about unconditional love for the most part. That is what we must bring to light to every human being and that is where it has to start. Not with high concepts or mysticism, or turning into light, because they are not ready. We have to bring them and get them ready.

I asked Jesus if there is anything else that we need to do for the world before we go into our cocoon permanently.

Jesus said give love to the world always. Be generous. Whenever you give and it is not expected, people are shocked and amazed because that is not what the world is like, but that is what God is like.

The message of Love will be the basis of the message that I bring and that Elaijah will bring. His will be a little more firm and wake people up. My message will be about nurturing love, and bringing people together and bringing them into my heart, and then teaching them to move forward because they have to know that God loves them before they can understand any of these spiritual, beautiful, complicated things that you know. But, they have to know that God is love. And they must feel included.

If they do not feel included in this intellectual thought process, they will turn away.

It is not an easy thing to live a Creator life in a human form.

I believe because God himself was Father until Jesus and I created Mother God about 2000 years ago, that even the Creators and Angels and all creation has been male dominated at all levels of the universe. That is the old testament God. The old testament God was Father. The New Testament God is Mother. Even though, Jesus and I created Mother God 2000 years ago, I don't believe that Mother God will actually appear until we move through this final Ascension.

I believe that is actually the Birth of the Mary Magdalene as male and female embodiment of this new type of Soul on this Earth that was required for the completion of this new Female pattern of reality to begin.

I think Joe is the beginning. That is what I was talking to Jesus about when I told him that we gave birth to Josiah and to Joe. And Joe is the new Soul that was created in the God Realm of this new substance, this new idea that Jesus and Mary gave to God. Jesus said that our Josiah is not a Creator. So, it seems to me that even though we gave birth to a human child, we also needed to give birth to

a Creator Child. Joe is that Creator Child. Even though he is a male, he has changed the pattern of the male thought into a very Female Unconditional Love pattern which will make an impact on the new world that will become a Brand New ONENESS and UNCONDITIONAL LOVE Soul pattern.

The last channeled dialog with Jesus, April 13, 2017, verifies Jesus agreement with my hypothesis about Joe. Jesus said that Joe is absolutely the highest example of Unconditional Love on Earth that he knows of. This is probably why we are getting so much help blipping into the fourth dimension. That is where we must go before we can really begin making a huge change in the Universal Structure.

Mary: I just wonder why on this planet it seems to continue that the feminine does not receive the acknowledgment that the male does.

I have a theory about this. I will probably include it in my final book that I am submitting to the Universe.

Joe is that Creator Child. Even though he is a male, he has changed the pattern of the male thought into a very Female Unconditional Love pattern which will make an impact on the new world that will become a Brand New ONENESS and UNCONDITIONAL LOVE Soul pattern.

ELAIIKA added that Joe would be the Catalyst for My Ascension. He will be ready to Ascend and then he will attach his frequencies into mine and we will turn into light simultaneously.

Elaika said Joe attaches to your density. Joe is in balance with this. He has the knowledge, so he can balance it and go with you. When you have the density that Joe has, you can control when your atmosphere is going to be just right for that.

You will know and it will be a beautiful thing. When your density gets light enough he will take you both together. He will actually be the catalyst for you to leave. Joe attaches to your density. Detach your self from as much of the world as possible.

# Mary's Symphony of Love Fulfills the Universal Prophecy

The Universal Prophecy that Gaia would become the SAVIOR OF THE UNIVERSE has been heard singing itself through the Universe for many eons. It was always the plan of the Creators and Mary to create a new more harmonious harmonic blend of the octaves within octaves of the multi dimensional music of the spheres that would eventually allow Gaia to become the Mother of a new Hybrid Race line who would return the original template of the perfect humanoid who was originally the offspring of the Elohim Angels. That Elohim race line was completely destroyed and it was replaced by several hybrid racelines who were created by the Elohim Angels and the Sirius brotherhood, who was the closest race line to the original Elohim creation. Those Original Ones expanded into Azurites,

Eiyani, Elohei, and hundreds of other El groups who are the Original Ones.

Mary made a promise to Mother Gaia that she would become the savior of the Universe as a result of the musical design that she would create. This musical design wove together the frequencies and rhythms and colors of all of the planets and orbs and suns of the Universe into a new harmonic blend that allows all existence to become One new harmonic who can live in perfect harmony together. This Symphony of Love would hold the Ascension Portals open to all those who Mary gives permission to for Eternity. Each planet, orb and sun has its own rhythm, its own music, its own frequency. When the Creators blend these musical forms together to create the Universal Symphony, even that symphony changes continuously as we re arrange the design to fit more harmonically and harmoniously.

That is what Mary Magdalene did on her mission on Earth. She created the Ascension Portals that would allow a greater flow of consciousness than had ever been known before to enter the Planet Earth, which made her into a brand new symphony within herself. That new rhythm of Earth invited in the Cosmic Creators to use this Ascension Portal of Eternal Unity for Eternity. This created a Grand Tone of Home within Mother Gaia that allows her new Melody to sing a glorious harmony through

out the Universe that allows all to know her as the Savior of the Universe.

. We create all things with these Music of the Spheres. We create all things with our Breath. The Creator's Breath, and Essence and Being is God Breathing life into all things. It will be like a breath of air that is to be breathed. And as you breathe out it morphs into a greater beauty than it was when you breathed it in. Because the beauty of the essence of the one who breathed it in is now a part of it, and it comes out even fuller than it was when it went in.

# How Our Future was Created through Music

As I go back through the songs on COSMIC CONSCIOUSNESS album, I realize that these songs that were channeled directly through me as I sang them and recorded them were the instructions for my mission on Earth and my instructions of how to leave Earth after my mission was complete. The song Cosmic Trinity was actually the instructions of how I would create Ascension Portals that would allow Gaia to become a new orchestration within the new UNIVERSAL SYMPHONY.

Words from Cosmic Trinity

Our mission completed  
of consciousness rise.

our stars now aligning,

Now there are two of all we once were,

united as three and three makes us strong.

Now, I realize that this is how I arranged this new harmonic reality that will allow the new creation formed from the re unification of physical and the spiritual along with the re unification of the Creation Realm with the Earth as I created the Ascension Portals to re unite the Consciousness that was originally formed as the Oraphim Raceline of the Seven Suns, which included the Dolphins, Whales and original Humanoid to be Seeded back into the Consciousness of the Planet Earth as I welcome the Original Ones from the Creation Realm who are on their last round of Ascension through the new Portal.

This is the third part of the harmonic chordal structure that will make a strong, unconditional, eternal bond of harmonious consciousness to begin to flow through Gaia and into all who move through Gaia in the future after I leave this planet in order to link my frequencies into Terra Ha, who is the Future of Earth within the Spiritual Universe.

I used this formula of breathing in the original music of all of the spheres within the universe- the orbs, the suns, the planets, and then I combined those spheres with my powerful consciousness and my frequency signature which already flows through all of the universe. I then exhaled the new frequency of consciousness that was the combination of my frequency signature of the Original Creation and all of the Angels who connect

with these Original Creations and all of the Future Music of the Spheres of the perfect creation. Next, I exhaled this new Frequency of Eternal Harmony into the Ascension Portals that I created for the purpose of performing this orchestration of the grand new design that will be heard in the new Symphony of the Universe.

Breathe inhale magic exhale dreams come true  
Breathe the crystal light it waits as light inside of  
you and me

Breathe the crystal light and ignite the spark  
flames of magic alchemists you ignite creation more  
wonderful than the galaxies we have known.

BREATHE MAGIC is a song from the COSMIC  
CONSCIOUSNESS ALBUM.

Mary Magdalene's Ascension Songs

Unfolding into a new meaning of HOW To  
RETURN HOME

When I began the knowing and the unfolding of my Cosmic Adventure on Earth a set of songs swam into my consciousness and I would open my mouth and all of these glorious words would come out in the form of songs. This was much like channeling. It seems that channelers are usually unconscious of the words that they speak because there is another entity taking over their consciousness and speaking

through them. My channeling was always the channeling of myself, who is Mary Magdalene. I did not know that when these songs were first recorded.

Now, eight years later, after having a wonderful dialog with Lacodemus (a Creator Being who is Joe's best friend), I now completely understand the purpose and the meaning of those songs. The songs were originally published on the Cosmic Consciousness album in 2008. The songs were my memories and visions of the creation work that I had done with Joe and Lacodemus millions of years ago. The songs were being sent to me to remind me of who I am and why I am on Earth and how I will get back home.

This is the grand realization that I had on May 26, 2017. I realized that those songs contain the exact formula of how Joe and I will return home next year. We will first visit the new dimensional Earth reality of Terra Ha and the Spiritual Universe of our OVERSOUL where Terra Ha resides. After we have our party with the forty seven creators who came for this mission, we will return to our Creator Realm and we will continue to make more Music there as we continue to create more new realities through the light and sound of music.

It has finally become obvious to us that we have continued to create music while we were on Earth in the exact same manner that we did in

the Creation Realm. We have been inhaling the Creations from all over the Universe and doing our Creation Work within this tiny little reality in the same manner we did it when we were huge Creator Beings who are thousands of feet tall and wide when we do creation work. We sometimes expand ourselves into forms who are several miles in diameter when we are orbiting through space and creating galaxies.

We are the ones who created the Suns, the Stars, the Galaxies, the Novas, the Super Novas. And we created them all through the Music of the colors that we streamed through the Crystals in those areas in the Universe, and we layered infinite colors of reality and combined rhythms of various stars to create new Novas, and our work was glorious.

This is the first time that there have been Creator Beings on Earth in their complete selves for several thousands of years. We each choose to come to different planets only on very special occasions or special purposes. And when we come for the purpose of learning about a certain race line, we have found that the best way is to come with amnesia and become the one who we are trying to understand.

This is the reason Joe and I came to Earth as the male and female form of Mary Magdalene. We came to experience being the hybrid race line that

is the replacement for the original Elohim Raceline whom we originally planted on this Earth. We wanted to experience this re make of the new divine humanoid, and we came to plant the seed from the Original Creation Realm so that the new hybrid race would grow back into the original form that was created through our golden crystal stardust and light flame of creation.

Creators are all from the same Realm of Creation which is the God Realm. We call it First Creation. The Angels are from thirteen different realms. Each time there was a race line created there were Angels created to watch over them. Creators were only Created one time. We were created before the Angels because Angels were created to watch over the race lines who came later than the Creation itself.

We create ourselves, our personalities as we move forward in time and space. We become who we are with the things we create, the things we think and the people we know, the creators we know, so it may seem like we are different, but it is only because we are in a different karmic state than one another. We are in the same realm, the same place existence wise, but we all have our own personalities and how we want to present ourselves to each other. I can appear as a super nova or a galaxy, but I am appearing as a human to you. It makes me giddy a little bit, to know that

I can do that. In another sense it is very confining here, but I don't mind that for now because I know it is only temporary. Some Creator Beings are more interested in creating galaxies and novae and others are more interested in over seeing racelines and connections.

I am in service to many populaces and making sure galaxies don't collide and energies don't explode at the wrong time. Yes, I am a maintenance person. A person of service. I am a person of giving to species what they need to survive and what they need to grow. And God looks over and says is it that you are allowing this planet to super nova? And I would say yes, it is because it will create in its path another seven hundred stars from the gases that are going to collect in that portion of space.

We came to Earth to allow ourselves to realize that regardless of what density we are living within, we are always the Creators and we are always making God's music. In 1987, Joe received the message make God's movie. It took us about fifteen years to figure out what that meant. We have been making God's movie because we are the Creators and everything we do is to manufacture whatever it is God wants to experience. Within that movie that we were to make, we were also being told to make God's music.

The last dialog with Lacodemus woke me into the full meaning of what we are doing here and what we have done for trillions of years. We make God's movies and we make God's music because God is music itself. Everything that we do involves music.

The words in those first songs had already told me everything that I needed to know, and yet I didn't know what I needed to know until the beginning of this last year that I will be on Earth.

The words of the songs within the Cosmic Consciousness album and my NEWEST ALBUM, Mary Magdalene's Ascension Song is actually one song that is a journey within itself.

The song begins with the words From Dust to Dust, man must return. Man is made from golden stardust energy. These words appear after the simple introduction melody from WHAT CHILD IS THIS?

Man is made of golden stardust energy. Transforming particles, spinning light speed energy. Molding into crystals. Hold on to our new form. Transforming into golden dust. Now we must return into the golden dust that we were made from. Love's atmosphere love dust of light and love. Spinning the melodies we made from liquid light, Transforming into golden dust, the rainbow of our flight.

Now we will return to the dust we were made from. Creating new miracles our galaxies of golden light we form into the mansions where we will live again. Consciousness plus energy creates new realities.

Focus, turn it on. You'll enter dimensions that will lead us to the star that you created from the golden dust you are.

Crystal light energy magnetize your form to me. Light Energy Magic Spins Heliotonic streaming light golden dust a rainbow makes, spinning into light my form enlightened from my crystal light. By braiding our orbs into golden dust, we fly away on light bodies, to rise new galaxies.

In etheric substance, magic golden dust, our new reality etheric new we make.

Crystal energy we will return to all we are and make a form brand new to light our stars with galaxies cosmic forms of light stardust now we form our golden dust of home.

To find my way home to reality. Twinkle twinkle little star ignite your love inside our heart bring your sweetness home to me. (This phrase is specifically to my Soul mate Joe. He is the one who can ignite the starlight of love in my heart that will

give me the unconditional love that I need to leave Earth).

Our mission completed of consciousness rise.  
our stars now aligning, Now there are two of all  
we once were, united as three and three makes us  
strong.

Now, I realize that this is how I arranged this  
new harmonic reality that will allow the new  
creation formed from the re unification of physical  
and the spiritual along with the re unification of  
the Creation Realm with the Earth as I created the  
Ascension Portals to re unite the Consciousness  
that was originally formed as the Oraphim Raceline  
of the Seven Suns, which included the Dolphins,  
Whales and original Humanoid to be Seeded  
back into the Consciousness of the Planet Earth  
as I welcome the Original Ones from the Creation  
Realm who are on their last round of Ascension  
through the new Portal.

This is the third part of the harmonic chordal  
structure that will make a strong, unconditional,  
eternal bond of harmonious consciousness to  
begin to flow through Gaia and into all who move  
through Gaia in the future after I leave this planet in  
order to link my frequencies into Terra Ha, who is  
the Future of Earth within the Spiritual Universe.

I used this formula of breathing in the original music of all of the spheres within the universe- the orbs, the suns, the planets, and then I combined those spheres with my powerful consciousness and my frequency signature which already flows through all of the universe. I then exhaled the new frequency of consciousness that was the combination of my frequency signature of the Original Creation and all of the Angels who connect with these Original Creations and all of the Future Music of the Spheres of the perfect creation. Next, I exhaled this new Frequency of Eternal Harmony into the Ascension Portals that I created for the purpose of performing this orchestration of the grand new design that will be heard in the new Symphony of the Universe.

Breathe inhale magic exhale dreams come true  
Breathe the crystal light it waits as light inside of  
you and me

Breathe the crystal light and ignite the spark  
flames of magic alchemists you ignite creation more  
wonderful than the galaxies we have known.

**BREATHE MAGIC** is a song from the **COSMIC  
CONSCIOUSNESS ALBUM**.

## CREATORS DIALOGS OUR CREATION THROUGH MUSIC

(The complete channeled dialog may be heard at [crystalmagicorchestra.com/audio](http://crystalmagicorchestra.com/audio) and you tube page)

Lacodemus was channeled from the Creation Realm together with Elaika through the channel of Jim Charles. Lacodemus said, "It is what it is and you are a creator being and you reach into your self and those sounds that you feel and emote with your music are eternal. Everything created by creator beings are all eternal and therefore they will stay in the universe forever until someone else picks them up and uses them and learns in themselves that a part of a creator being is a part of who they are.

But, they are maybe not a full creator being, but they can know a little bit about you from the music that they have gathered from you.

And I always loved your music always, and we did music together.

We used to get together with a few of us and make music in the universe that was very different than anything that had been heard before. We would try to be unique and outstanding. And we were there to do that and felt a great accomplishment,

especially when some of the vibrations that we used would effect some plants or animals in other worlds or other scenarios that we hadn't even thought of. Being Creator Beings, we can effect things some times without even knowing it. But then when we discovered it, it was a grand and new understanding for us all.

And you Mary, you are very musical as well. You have a voice of an Angel. A beauty. A group of us would get together and you were in the group. And so, there for it was the most beautiful time and it will be again.

In the creator realm I could feel the smile on your face. I don't have to see it because I can feel it in the universe and in the galaxy. So wonderful."

We create ourselves, our personalities as we move forward in time and space, which becomes one time and space. We become who we are with the things that we create, the things that we know, the creators that we know, so it may seem like we are different, but it is only because we are in a different karmic state than one another. But, we are in the same Realm. We are in the same place existence wise. But, we all have our own personalities, and the way we want to present ourselves to the world and to each other. I can appear to you like a super nova or a galaxy, but I am here appearing to you as a human. It makes me a little giddy to know that I

can do this, but it is also very confining here and I don't mind that for now, because I know that it is only temporary.

Mary asks Lacodemus this question, "So, you can actually become a Super Nova right now if you want to?" Lacodemus replied, " Yes, I am a Creator Being. I can be whatever I want to be. "

So, you can just do that at any time. It is not something that we did over a long period of time? You can just do that at any time.

Yes, and then I can move away from it and it can exist without me."

Mary expands on this thought, "And that is exactly how I created the Ascension Portals in the Pacific Ocean. I created the Central Portal and then I moved away from it and it can exist for eternity. So, I have done on Earth the same things that we did in the Universe."

Lacodemus: "I am in service to many planets and galaxies across the universe and taking care of some populations and making sure galaxies do not collide and energies don't explode at the wrong time. Yes, I am a maintenance person. I am a person of service, but also, I am a person of giving to these entities what they need to survive and what they need to grow.

And God looks over and says is it that you are letting this planet or star supernova? And I would say yes, because it will create in its path another seven hundred stars from the gases that are going to collect in that portion of space.”

Mary: “These are stories I’ve never heard before.

On planet Earth, Joe and I worked on the Tectonic Plates in the Pacific Ocean. We didn’t have anyone who could move tectonic plates in a big enough area, but you can do that can’t you?”

Lacodemus: “Yes, Creator Beings can do that. But we are not to be involved with the history right now. These Earthquakes and things are a part of the history that needs to be recorded because they will bring about change on your planet that are positive. There are those who will try to move the tectonic plates but God will not let them. So everything is set up the way it is supposed to be. At this time all is well.”

Mary: “We are always bringing into our music the frequencies of consciousness of each event that is taking place in the Universe regarding Earth. We brought in the frequencies of each of the Solar Waves of each of the Star Systems and recorded them in sets of music called Parallel Universe, Mother Ship, Sun Alcyone, Sun Ra, Violet Flame

and many other sets of music that will contain the History of the Ascension of Earth through Music.

This music might not be appreciated by the people who are on Earth now, but when those who come begin to investigate who this planet Earth was that they are moving to or visiting they will find this music by Mary Magdalene and they will listen and say, oh, my. This is the music of Mary, and she recorded the entire event through music. This will be a glorious discovery, just as it will be when they discover the books written by Mary that describe what she came to Earth to experience so that she would be able to add new layers of understanding when she returns to her Creation Realm. The Universe is always in awe of music created by Mary and her Crystal Magic Orchestra Team.

I am the one who reaches out and inhales in the frequencies of all of the pieces of light and sound in all realms of their being. My Twin Soul, Joe absorbs the rhythm and variations and becomes the instruments that create something new to go with the frequencies in order to make them more interesting to listen to.

It is all about creating something to go with the music. You always have something that is growing. Look outside of your window. Are there many different things growing. There are many things growing and it is part of the symphony and there

are things dying and that is a part of the symphony too. The flats and the sharps they come together and they make a beautiful sound. And it is universal tonality. The way things should be. And the way they blend together and how they disenate together, but can be of the greatest of sounds in the universe that can strike in your hearts the emotions of great things that are happening far away.

You and Joe have the same perspective as I do at many times. Your music is like water colors in many ways because it blends together but once you see it then you know what to do with it. You are an artist in many forms. And as a Creator Being you are a great artist. We all are. But, as a human, you are a greater artist than many. The colors that you evoke in others, not only sounds, comes from you, but evocative colors, evocative feelings, and the love and sexuality and sensuality that is who you really are and the things that you have felt within yourself that rise up from this atmosphere and out into eternity. It is not just a small thing that you do, but it is eternal. This music, these colors, and the way things are conceived.

Once an emotion is struck within a human, will they ever truly forget it? The Akashic Record that records it. Their subconscious records it. The Soul records it. Beautiful.

And when you reach into your own Soul do you not find that it is attached to the collective? The Over Soul of many. And when you speak to your own Soul, will it not say We Are Here.

Wonderful. It is a lesson that humans do not even know yet. And here is knowledge that you know now. The Soul is connected and can speak to humanity as a collective.

Thank you

Only for you. And I love you dearly and we will be together for eternity.

There are many Planets who built their entire culture around music because it is the Universal Language in many ways. It effects every being and every culture when we hear music it is the only thing that is of the Soul that speaks directly to the Soul. Words can do that, but only in a certain intonation and vibration and only in a certain sequence. But music can reach many many more in a greater and deeper way.

# Planets where Crystal Magic Orchestra is most Famous

Mary asks Lacodemus what planets are most familiar with the music of Crystal Magic Orchestra.

Lacodemus answered, “Planets that come to mind that use music for a greater method other than just within itself is the planet Korsafen.

There are planets that listen to your music now because that was one of your intentions. So, they have grasped onto that intention because you as a creator being can send your intentions into worlds and let them understand.

The planets Lecifar, Dua, Kira have heard your music and have taken it with them. I am the one who told them to listen to your music.

Telepasaides is on a different kind of time perspective. It is a place where many believe a new kind of thought process is being born. I believe you visited there, Joe.

Yes, you were there a couple of times and you have made your impact there. Telepasaides also has your music because you have been there, and every where you go, you make music, and every where Mary goes, she makes music.

Reality is so tiny where you are. But it is so vast where we will be.

We will see you again in a year or two in Terra Ha.”

Please come and listen to the music of the Creators. We will be returning to the Creation Realm to make new music in just a few more years after we spend some time in Terra Ha, where we will visit our fan clubs of the universe and give some live performance on the planets who love us greatly.

It is this music that will turn us into light so that we can blipp off this planet and return home. You can use this historic music to help you move through this ascension period in the most balanced and harmonious way by getting your very own Eternal Life Album.

We have always Created pieces of the Universe together with other Creators. One of our closest musical creation partners is Lacodemus. We have created millions of Symphonys for God to feel and experience. We have created a Universal Orchestra where we strive to create new forms of Sound and Creation that were never known before. We have been a part of this great Crystal Magic Orchestra who creates from the Crystals the color and the sound and the rhythms of the Universe.

# Overview of MARY MAGDALENE'S DIARY COLLECTION and Other Books

The diary of Mary Magdalene began in 1992 when Joe and Angela Barnett were awakened in the middle of the night and told to Create God's Movie. The beginning of our movie was The Promise album which was a collection of channeled frequencies and understanding of the Big Ascension Plan being awakened in the Souls of Mary Magdalene. THE PROMISE was and is the beginning and the end of the entire Cosmic Plan of the Perfect Creation within the Beingness of God, which existed long before the World began, being returned into the Structure of the Universe that the Earth is within.

As the understanding of what was said in the words and through the frequencies of THE PROMISE album grew, the Training Books

explaining the words and music of that album became QUANTUM JOURNEY 1-7.

During the same time period that Mary Magdalene was compiling her understanding of all that is known within the Cosmic Creation Team through her music, she also wrote books about the experiences of the Soul of Mary Magdalene as she was discovering the nature of the Matrix of Illusions that she was living in, and how easy it was to step outside of that Matrix and look at it from point of view of a Cosmic Creator. Mary didn't actually realize that her book MATRIX OF ILLUSIONS that was her diary of 1982-1995 had influenced the consciousness of so many others on Earth who were writing books and movies about this subject. It was always the Consciousness of Mary Magdalene who was sending the ideas regarding the Matrix and the new Consciousness that was arising and expanding onto Earth.

This was always the story of Mary Magdalene. It was Mary Magdalene who had made the plan two thousand years ago to return to Earth at this time of the Ascension and plant the seeds of understanding into others who would help those seeds grow and grow until there was enough of Mary's Frequencies established within the Earth's Consciousness field to begin telling the stories of restructuring the Consciousness of those on Earth by allowing the Consciousness of Light and Sound

that she had created with other Creators millions and trillions of years earlier that held the light and sound of the meaning of the Original Perfect Design that was the Structure of the God Consciousness being performed through the light and sound of the Creator's Music of the Spheres.

The entire explanation of that part of Mary Magdalene's Quantum Journey was not completely revealed to her during her time on Earth until the MARY MAGDALENE DIARY 2 book within the QUANTUM ODYSSEY COLLECTION.

The MARY MAGDALENE DIARY 1 book contains the brief overview of many of the things that Mary learned about herself and himself during the journey of channeled dialogs with Jesus (Yeshuwa ben Joseph) and Elaika (Moses), who are two of the main Team Members of the Creation Team that Mary has been working with on this specific Ascension Project of the Earth.

The earlier books written, including 12 DNA from the Music of the Spheres with Keys to the Universe was Mary's first attempt to summarize her experiences of Cosmic Learning that were inspired by earlier missions that she wrote about in Matrix of Illusions and the current experience that began in 2008 when she was directed to go to Monterey, California and open the Mary Magdalene Ascension Portal. That entire story of the adventure of Mary

discovering herself as the Soul of Mary within Joe and Angela is transcribed purely as the physical experience that was experienced by Mary at that time.

It must be noted that the diary of Mary at that time was largely influenced by the teachings Ramtha and Ashayana Deane. There are many mistakes in Mary's writings in those earlier books because Mary had not yet been educated by Jesus and Elaika at that time to know that most of those teachings were incorrect. Mary had believed what Ashayana taught about there being 12 Jesus sets, and that the 12th level Avatar was a much higher consciousness than the 4th level Jesus of Nazareth.

Ashayana had also taught her students that the Sananda that she described was Sananda Melchizedek. Those pieces of information are completely fabricated pieces of information. The Real Jesus was is and always will be the one who was born as Yeshuwa ben Joseph through the birth of Mother Mary. That was when God placed himself within a Creator Being who was to be born on Earth. That was the only time that the Creator Jesus Christ was ever on Earth as his complete self. All of the other Versions of Jesus were Aspects of himself that he sent to Earth to help promote the understanding of Christ Consciousness.

The term Christ Consciousness is completely incorrect also because Jesus was and is Cosmic in nature. He is a Creator Being. He was created by God in the First Creation. He was created before the Angels of the thirteen realms. All these things that I have said about Jesus are also true about Mary Magdalene. I also came to Earth as my complete Creator Self when I was with Jesus about two thousand years ago. The obfuscated stories about the real Jesus being Sananda is also ridiculous.

The actual name that Jesus had given to the Third Eye of himself was Soma. This Soma was to be the representation of Jesus on Earth as he represents God. This Soma idea was the image and likeness of God idea. Jesus told me that anyone who claims that they have seen or been with Sananda or Soma is not telling the truth. This image was not one who could be seen in the third dimensional realm.

Unfortunately, that incorrect information that was learned from Ashayana Deane was accidentally placed in the next book that I wrote, REMEMBERING WHO WE ARE BY COSMIC MARY.

Most of that book contains channeled dialogs between Mary and Jesus and Mary and Elaika concerning the creation of the Ascension Portals in the Pacific Ocean. There is more details given about the event that took her Soul in her Cosmic Twin

to become a Super Power Mary Magdalene that contained thousands and thousands times more frequencies than other beings on Earth.

**Turning Into LIGHT: The Timeline of Manifesting Infinite Possibilities 2017 - 2039**

shows the parallel reality stories of how Mary had become the Soul Mate of Jesus and that is why she was able to place her Soul in Jesus at the Cross and bring Jesus back into human form exactly as she had done in 2008 with her current Soul Mate. There is more of this Cosmic Soul Mate story of how Mary chose to come to Earth this time as the experience of both a male and female as one this time in many other parts of her books and diaries.

This book includes the very exciting story of the resurrection of Mary's current Soul Mate, Joe Barnett and the resurrection of her other Soul Mate, Jesus of Nazareth, when he was nailed to the cross, and the many Cosmic Events surrounding both of these planetary events.

The book MUSIC OF THE SPHERES LIGHT AND SOUND TECHNOLOGY is a book where Mary places her new understanding of how the human body is able to turn into the fabric of light itself as the physics of the Earth become more and more in line with and in tune with the Frequencies of the Sun. This book explains how Mary, herself, will

turn into light in 2018, and how others can use this same formula to Turn into Light instead of Die.

The book FUTURE GLOBAL MANAGEMENT was a book written by Joe Barnett, who is also Mary Magdalene, when both of the Soul Mates were working as Consultants in Multinational Corporations and International Business on four continents of the Earth. We had both always felt that all of our training and work in Multinational studies of the religions, cultures, societies and educations of all of the cultures of the world was to prepare us for the paradigm shift that was going on right before our eyes of not just a new Global System, but a new Universal System.

MARY MAGDALENE DIARY TWO focus is on the Music of the Spheres as the creation mechanism used by the Creators in creating all that is in the Universe. The dialogs with other Creators who have worked with Mary on Creating the Universe are Lacodemus and Elaika. These dialogs are used to explain many things that were never known on Earth before this time of channeled dialogs between Creator Beings who are the ones creating this Ascension on Earth between 2017-2047.

The remainder of the Diaries of Mary Magdalene will be explaining more and more about this new Universal System that began its initial state of creation when I finished opening all 12 Ascension

Portals in the Pacific Ocean. That was the moment in the Fall of 2016 when EVERYTHING CHANGED.

That was the reason that everyone in the Universe had a grand celebration of knowing that Mary Magdalene had completed the pathway for the Original Consciousness of Creation to flow back into Earth and the Portals were opened for the continuation of the Ascension that had been put on hold for four sets of 240 million Ascension Cycles.

The block in Consciousness being unfolded into the memory of the Super Consciousness that originates the true form of Creation was removed when the Portals were opened. Mary's diaries one and two explain how these Portals Saved Mother Gaia and allowed Mother Gaia to become the Savior of the Universe. They explain how the Portals prepared the possibility for the Original Ones to come to Earth and begin negotiations with our governments for First Contact in 2018. Those diaries also describe how Mary has met with the representative of each Mother ship of each race line who has landed on Earth in the first months of 2017 before the book was written.

Future diaries ,ASCENSION INTO THE LAND OF UNCONDITIONAL LOVE, will tell the remainder of the stories of the Original Ones landing on Earth, meeting with our governments and then flying their spaceships through the

Central Portal that I created for them. As soon as that happens, the Star gates on Earth will open as the thirteen Crystal Skulls that are owned by those on the thirteen mother ships press their remote controls at the same moment.

That will be the beginning of FIRST CONTACT later in 2018. After that event takes place, Mary Magdalene will have completed her mission on Earth and will Turn into Light and move into Terra Ha where she is the most celebrated Queen of the Universe and is given complete gratitude for being the one who made this Ascension Event a reality by those in the higher consciousness of the Universe. Mary will enjoy being treated like a royalty on all of her favorite planets where her music is being played before she travels home to the Creation Realm with her team of 47 Creator Beings.

## PAST, PRESENT AND FUTURE DIARIES

We are now beginning our move into the Fourth Sphere of Creation, or the UNIVERSAL CONSCIOUSNESS of Creation. If we were moving into the Fifth Dimension, or the Fifth Sphere, we would become Cosmic. The only beings who are Cosmic are the Creators and the Angels. Human Beings are not Creators or Angels. Except for those 47 of us who are on Earth at this moment, and those who are landing on Earth now from the Cosmic Realm of Ascension.

The word that has been used for religious purposes is a word that is very misunderstood. That word is Christ and Christian. The true meaning of Christ Consciousness is UNIVERSAL CONSCIOUSNESS. It is the Consciousness of those who will move into the Fourth Dimension of Universal Consciousness. It is a Consciousness that

actually allows the human being to Turn into Light, become a Plasma Body that is seen in the Sky and then Blip into Light. After the body turns into light, it reappears in the Fourth Dimensional Realm called Terra Ha. This is a Universal Realm that allows all who live there to have access to all of the Planets in the Universe.

This is the time when man is moving into this realm of Christ Consciousness. This is the time when man can begin to learn to Turn into Light more and more each day. Even though the majority of the population will not Blip out of sight until 2039, there is a glorious journey involved in getting to that place in Consciousness. The more we become in the activity of Christ Consciousness and learn the Quantum Physics of Turning into Light, which can be found in my book Music of the Spheres Light and Sound Technology, and learn the surrounding events of this process, the more we can enjoy the in-between stages.

First, we have already become LESS DENSE on the inside. That means our cells have become more enlarged, more etheric. Our cells are no longer dense. This allows the body to heal much faster and the feeling of levitation to grow stronger. This is also the beginning of the transformation of the body from the inside to the outside. Our biology and chemistry are changing in our bodies. The physics of the entire Earth's structure and environment are

changing, and that is what allows and requires the structure of the body to change.

All that is needed to be known to turn your body into Seventh Level Man and Blip into Light and appear on Terra Ha, the Universal Reality that will allow you the freedom to take spaceship rides all over the Universe is all available now. All you need to do is learn how to SHIFT YOUR FREQUENCIES, and UNDERSTAND what is going on in your body, in your atomic structure, in Gaia's structure, the new Quantum Physics. All of this great KNOWING is AVAILABLE to those who are ready to listen.

## THE FOLLOWING TRANSFORMATION WILL LAST TWENTY FOUR HOURS TOTAL

Our bodies will go into a deep sleep, like a hybernization. The change will be through chrysalis. As the Celestiline enters into our bodies from the waves of stardust and prana, it causes a light to flash and create a new reality in flash.

Our brains must go into a deep level of sleep as we are pulled back into Oneness with the original creation point of Source, the Idea, the Thought, the Intention and the Manifestation of the New Idea.

The body will always be held in tact within the field of God Source. However, at the same time, we will disappear for nano seconds at a time to realign in the new idea.

God creates each idea within a sphere of Hydroplasm. There is a cloud of hydrolaise which is first frozen and then warmed into various chemical structures of light and sound. The blue print of the idea is simultaneously created at all levels of manifestation from hertzian, to infra red, to visible, invisible light, x ray and gamma wave. This means the invisible, etheric reality of the thought of God

We must sing that dream onto the harp strings. The highest frequency must strum the other harp strings into the etheric frequency that removes the electrons, that removes polarization, that removes space between spiritual physical, removes time and space.

You will align into the consciousness of Source and your mind will become empty.

Your last contract with Source will end and a new one will begin.

You will rise into harmonic universe two as you are lifted above the earth.

You will melt into the frequencies of the sun and you will disappear.

When you wake up, you will be changed. You will be brand new.

The first step is visualizing this transformation and understanding it. The Eternal Life Album is created by taking your body through this process for you, however, it is much better if you take your body through this process of transformation while you are listening to albums created by Crystal Magic Orchestra.com.

It is much more helpful if you visualize the tiny little harp strings within your atoms and visualize a tiny little angel in your atoms strumming the highest string – the violet string and see that breath transform the strings below into that most etheric sound that is heard in the highest frequency.

You will find a new liberty as you become the god of your body. You will be able to manifest any thing you desire instantly if and when your Consciousness is actually within this new Frequency. When you hold your consciousness in the Violet String or the Violet Sphere of Cosmic Consciousness. Your Consciousness must be in the Transformational Light Center before you can Magnetize the Frequencies of the Vision into your DNA. You can then Strum that Frequency with the Violet Frequency to manufacture it in the transformational center. Only then, can the Mind of God manufacture the idea from the negative idea into the positive manifest EXPERIENCE.

## CURRENT DIARY ENTRY

My mission on Earth was to open the Ascension Portals in the Pacific Ocean so that the Original Ones coming from the Creation Realm for their Ascension can use the Central Portal to continue their Ascension.

My new mission, after I completed creating the portals was to meet and greet the Original Ones who would arrive on Earth.

I am beginning the fourth month of my mission of being the Hostess with the Mostest, as Elaika put it. I am inviting and greeting and hosting the arrival of the Original Ones who are Ascending from 12 Star Systems. So far there have been four teams who have landed on Earth from the Creation Realm.

They arrived in this order during the past four months. ElEiyai and Eleayshendaizendy from Andromeda, Keekalakwa, Fukesenhye, Tusenshavenshya from Venus, the Arcturia ZaZa, and the Kreeaa Raceline from Alpha Centuri.

In February three women from Venus landed. The commanders of the mother ships on Venus are all women. Their names were Keekalakwa, Fukesenhye, Tusenshavenshya

In March I welcomed the Mother ship commanders from Arcturia ZaZa. The members names were Belata, Ekritee, Aendo and Foreland.

I also welcomed the Kreeaa Raceline from Alpha Centuri. The representatives names are La Ka and Zu.

This means that even though these entities are from certain Star Systems and Racelines themselves, the ones who are called the ORIGINAL ONES are entities who did not need to go through the Hybrid process because they were never mutated by the Fallen Angelic Raceliness. These beings have been on an Ascension Path for millions or billions of years within the realms of the Universe where there was no Fallen Agenda present. These beings are on another journey of Ascension, so they needed to pass through the Creator Realm before continuing on their path of Ascension.

There are millions of Entities in the Universe who could not continue their journey of ascension until this problem with Earth was reconciled. The 12 Ascension Portals that were created by Mary Magdalene were required in order to have one Central Ascension Portal that would pass from one side of the Earth into the Spiritual Parallel Universe. The Original Ones could not come to Earth until the Portals were opened.

I finished opening all of the Portals in October 2016. When that event was finished, there was great gratitude from the entire Universe given to Mary Magdalene and from Gaia. This event of opening the Portals has allowed Gaia to become the Savior of the Universe. After the Original Ones arrive on Earth, they will begin negotiating with our government to arrange First Contact. When that agreement is made, the Original Ones will be finished on Earth and they will fly their spaceships through my Ascension Portals.

It will be the Consciousness of these Beings coming to Earth, being on Earth and then flying through Earth that will re-establish, or reconnect the ORIGINAL CONSCIOUSNESS of God's Original Creation that existed before the Fallen Angelics made a mess of his kingdom of heaven.

The portals were created and opened by Mary Magdalene. The portals will be maintained forever

by my team of Creators who are Jesus and Elaika and our Angel team Raphael, Uriel, Ariel, Gabriel and Michael. I will always be the owner of these portals. That is why I am the only one who can give permission to use them.

When I finished my mission of opening the portals, I was given my new mission of inviting the Original Ones to Earth. Now they are arriving. They have made their arrivals known by the HUGE positive Frequencies that blast through the atmosphere when they arrive. I can always Feel their Energy coming first and then I focus on feeling and hearing them for the rest of the day and night. I often meet with their energy as they appear to me as light bodies in my Astral Journeys. Three of them appeared to me in my bedroom. Two times I did hear them say their names to me. I do remember Foreland from Arcturia and remembered hearing the names La Ka and Zu, who came from Alpha Centuri.

I always remember the energy, the appearance, the moment that it all happens, and sometimes I remember the names. However, I always check on these facts with Elaika and Jesus because I know that my memory is not complete most of the time. I am usually working on at least twenty other project every night during my Astral Life. I am usually guiding beings from other planetary systems who need help, I bi-locate to wrap my spirit around

people in the hospital on this planet and on many others. And I always watch the ascension process that my own body is going through as it is being prepared to turn into light.

These Original Ones, who are landing, are very high dimensional beings. Some of them are 8th dimensional, some are sixth, seventh and some are 12th dimensional beings who are now coming to Earth.

However, when they arrive on Earth, they must shift their form into the Fourth Dimension in order to be in this dimensional format that is present. So, they are in a fourth dimensional format. However, they are keeping a veil around their bodies so that it will be impossible for anyone to see them, except for myself. I have seen three of them, because they chose to allow me to see them..

There are thousands of other fourth dimensional space ships in our skies now because they have been here waiting for this Agreement of First Contact for hundreds of years. There are mostly third dimensional spaceships, but many fourth dimensional. There have been many of the Arcturian Za Za present in our skies and many Friendly Greys. The Greys are not our enemies. They are just curious beings floating around observing the ascension agendas. There are many

Greys who hang around my house just because they are curious about Mary Magdalene.

Listen to channeled dialogs of Mary Magdalene at Mary Magdalene Singing Mermaid youtube channel and at Crystal Magic Orchestra.com youtube and audio page.

These youtubes contain the most important information about the future of mankind that has ever been recorded. These dialogs are between Mary Magdalene and Elaika, who are both Creator Beings who are on Earth at this time staging the entire Ascension Plan of the Earth and the Universe that Earth is located in.

Elaika is a Creator Being in the Fifth Dimension who is orchestrating the Universal Frequency alignments through billions of beings in the Fourth Dimensional Universe and through those on Earth working on Stargates, Vortexes and Ascension Portals. Mary Magdalene are also together working on this project at this time. The Christ Consciousness Light was needed first to come through Mary as she opened the twelve ascension portals and created the Central Portal for the Original Angelic Beings to come to Earth to begin negotiation for first contact. Mary has been inviting and greeting the Original Ones to use her portals since January.

In one year they will finish their negotiations and fly through the portals. When their consciousness moves through the Earth, the Consciousness of all on Earth will be transformed and the Stargates will open because there will be a Circle in Heaven of the thirteen owners of the Crystal Skulls which are the remote control devices that will activate the wheels within the stargates. This will prepare Earth for first contact of the Fourth Dimension. Those with third dimensional eyes will not see this landing next year, but those with fourth dimensional eyes will.

Jesus will begin his ministry on Earth at the same time as First Contact is announced. He will be teaching about the FUTURE OF MANKIND.

That Future is the Hybridization Program of Gaia that will allow all of our Galactic and Universal Families to become Healed of their Genetic Mutations and return to the original DNA coding of the Original Ones, the man made in the image and likeness of God.

The Fourth Dimensional Earth is already here. We shifted into Harmonic Universe two on February 7. Now we are preparing for First Contact to begin. By 2039 everyone on Earth will Turn into Light and Blip into the Fourth Dimension, which is actually a Universe more than a Planet. It is a place that allows Freedom of Travel throughout the Universe.

There will be thousands of spaceships using Earth as the HUB of the Universe.

## FUTURE DIARY OF GAIA

The reason that Earth has been Universally Prophesied as the Savior of the Universe is because it has long been known that Gaia would become the HUB OF THE UNIVERSE. The 12 Ascension Portals are the reason that Gaia will become the Hub of the Universe. These Portals were designed by Mary Magdalene and her Team to allow the Original Ones to Travel through the Portals into the Highest Realms of the Universe. Mary will eternally be the only one who can give permission to use these Portals and Elaika and Yeshuwa will be the ones who will maintain the Portals forever.

The Portals are the Ascension Passage for the Original Ones into the Eternal Life Plan of this Universe. The Central Portal is the Portal that allows full access to all Reality. These Portals were designed to allow passage from one side of the Earth through to the other side of Earth. It is the Power of the Portals that will RETURN THE KINGDOM OF HEAVEN TO EARTH.

This was the statement that was said to me by my CO-CREATION team when I was first AWAKENED and told that I was Mary Magdalene.

“You must know beloved one, you are no longer separate from the Divine Mind. Your human mind is now ready to co-create with an organic dance of joy. Your consciousness is ready to expand to the farthest reaches of the Universe. When you Focus, you will allow yourself to be present. From here your form will serve while it is needed and change as it is needed. This process is the Divine Blue Print of the Divine One as humanity itself free forms into its next evolution.”

This was the formula given to me that I use to engage my human mind into the Consciousness of Mary Magdalene who is the Queen of the Universe. When I focus on this Oneness with all that I am, I am present with the Creation Process itself.
