Mary Magdalene's Diary 4 WHY DIE WHEN YOU CAN FLY?

INTRODUCTION TO THE TRUTH ABOUT EVERYTHING

This book contains a synopsis of every thing that has taken place in the past 500 million years to prepare for the Ascension that is taking place at this exact moment in history. This book reviews all of the things that I have been saying in my diary for the past twenty years, and it contains an update on the present condition of Earth, and the plan of God in the next five years. It also includes all of the future events that will take place leading into 2047, when the Earth that we have known will no longer exist in this realm.

Please note that these are excerpts from my diary. I have tried to re-write most of the book as if I were telling the story from the year 2017, however, there maybe places when I was actually writng in 2008, and therefore the present tense is in that year. I used to use the name Crystalai, and Joe used the name aDolphino in our memoires.

THE QUANTUM ODYSSEY TO NORMAL IMMORTALITY

Once upon a time, long, long ago, there were Normal Human Beings on a Planet that was similar to Earth. However, this Planet was actually a Star. A Planet cannot breathe, but a Star can.

Planet Earth has been on a respirator system for a very long time, because she has had no normal access to normal oxygen.

You see, in a normal system, the Planet is a Star, and the Star has an Eternal Energy Source. The Suns and Stars exhale all of their living energy up their portals or staffs out into the atmosphere where their oxygen flows into all of the other Suns and Stars. This continuous Source of Energy is normal in a normal system.

In our Normal Reality, the Human Angelic also had this continuous energy supply flowing into them from the Rod and Staff of the Planet that they lived upon.

Planet Earth has always had a respiration system because she was guided into the Starry Firmament of a place called Urtha. The name used by most of the Universe has always been Terra Firma for Earth and Terra Ha for her Spiritual Essence or Starry Firmament. The name Urtha was introduced by one channeler in the year 2000, and I used that name in many of my writings until I was told the correct name by my Angelic Friends and Creator Family.

THE TRUE STORY OF CREATION

The real name of Earth that is known by everyone in the Universe has always been Terra Firma for physical Earth and Terra Ha for her Spiritual Essence or Starry Firmament. This was the Essence of the Creation by the Creators, who have been called the Founders in some circles on this planet. Most other channelers and teachers can not conceive of what they think of as Founders as the actual Creators of the Stars, the Galaxies, and everything in the Universe because the common thought on planet Earth is the belief that God, or Source, or All That Is created everything, and behold it was very good. Well, that belief is true, except, the creation that was very good, or actually perfect in its form, was the creation that God created in no time and no space. That creation will always remain perfect.

That creation of the all that is from the beginning of eternity into the infinity of no time has always existed. However, about twenty trillion years ago, (if there was actually a thing called time), God decided that He wanted to experience and understand all that He had created, so that He could Love His Creation in a more profound manner. And that is the reason God created His Creation Team. God sent His Creators out to form His existence into patterns within a Universe that did have a form or substance that resembled His Creation within His Mind exactly as it was. This meant that Creators could only create that which was already formed within the Mind of God in its absolute perfection, so God gave His Creation Team the absolute freedom of Creation.

That was what God named the First Creation in His Creation Realm. It was later during this First Creation period that God decided to create His Angels who would create Beings or Entities who had the same Consciousness as the Angels. There were many Angels created during this period called the First Creation. Many on Earth call those earliest of Angels the Arch Angels. That just means Angels from the First Creation. So, all of the Creators were created first, and then the

Angels of the First Creation period. God decided to create Angels of the Second Creation, Third Creation, as well as the fourth, fifth on through the thirteenth creation, because each of these Creations contained a different type of Angel who created a new set of family or race line.

The Creators who were created by God in the First Creation were the only Creators God has ever created. There are no other Creator Beings.

I will continue the story of our Eternal Creation in a moment. First, I know you all want to know what is happening on Earth RIGHT NOW-2017.

The next thirty years will look like this:

January-2017 the Original Ones will begin landing on Earth.

The Original Ones from the Creation Realm will create a Technological Communication to all of the World's Governments Simultaneously. They will create a type of a SKYPE where the governments will be seeing them face to face as they communicate.

The Original Ones plan on communicating with the governments for at least one full year in an attempt to convince them that the aliens of the Universe are Peaceful and are only seeking Universal realignment.

Those of us who are Creators and those of Higher Consciousness who are on Earth can and should do everything possible to try to help our governments understand that these Beings came from the God World.

They are Creators and Angels. We are the ones who are setting the stage for the new future of the Earth.

The new future will come VERY FAST.

The plan of the Creators is One year of negotiating with our Governments, and then one more year of designing a PLAN.

By that second year of Designing the Plan the Governments will probably be considering the roles of the Creators on Earth because it will become known to them that the Original Ones are always communicating with me.

Some of us will shift into a higher Version of ourselves in within a year or two after we shift into harmonic universe two in February of 2017. The Original Ones will begin communicating with our governments. Sometime, between June and August, Elaijah will begin speaking on Earth to prepare the world for what Jesus will say when he appears one year later.

\

This shift in economy will reflect the shift in Consciousness that will be caused by the Original Ones Landing and by their Communication with the Governments of the World. This might not appear as a world reality until 2020.

The Galactic Council is hoping that the event of one of the Original Race Lines confronting our governments will all take place within 2017-2018. When we come to the place in our time line when the Governments of the World have made agreements with the Original Ones for the new Universal Peace Agreement will bring us to the moment when the

Original Ones decide that they are finished on Earth and they are ready to Fly their Ships through my Central Ascension Portal.

This brings us to the MOMENT when the BIG CHANGE WILL HAPPEN, and this moment will help you realize why all of this that is happening could not begin without the Central Portal being opened first. The Central Portal now contains the Frequencies of the Entire Cosmic Realm of Consciousness within it. It contains the Power to allow the Original Ones to travel through it, and at the same time as they are traveling through it, the ENERGY and POWER and Frequencies of Consciousness of ALL THAT IS will become ignited within Planet Earth and Mother Gaia through out her Universal Essence.

THAT MOMENT will activate all of the 12 Ascension Portals in the Pacific Ocean and then those Portals will Activate all 12 Star gates on Planet Earth. Meanwhile the 12 Skulls- actually 13 Skulls that are each owned by a member of the Council of the Original Ones representing each one of the 12 race lines who will connect into each of the 12 Star Gates and the 13th Skull that will act like a Remote Control Device to the other Skulls will all ACTIVATE MOMENTARILY-- not Exactly, but within a day or two of time.

Now I am meeting each one of the owners of the Crystal Skull Remote Control holders who will be opening the Star Gates from Off Planet after they pass through the Central Portal.

This GRAND OPENING OF THE STAR GATES will Represent the Beginning of our NEW REALITY.

These Events can all take place very soon in our future now because the Central Portal was opened by Mary Magdalene and I actually opened it a month or more ahead of Time. The Original Ones began arriving in January of 2017. This Consciousness of the Original Ones will change the Consciousness of Earth and allow the Consciousness of all on Earth to shift greatly as they are landing.

Bashar made predictions in 2015,16 and 17. He announced that EVERYTHING WILL CHANGE in the fall of 2016. However, he never told the world what that change was because he did not fully understand it. Bashar is a very nice entity who represents the Chakani Raceline. He is on the Universal Team that is over seen by Elaika. However, what he says on Earth does not fully reflect the messages given to him by Elaika on the Universal level because only Mary Magdalene has access to that information that is reflected fully on this Planet.

The reason that everything changed in the Fall of 2016 was not because of what the Greys were doing on the Dark Side of the Moon, or because of the Phoenix Lights or landings of Greys. The reason everything changed in the fall of 2016 is because we shifted into the fourth dimension in September 2016 and I completed the opening of the Central Portal in November of 2016. This was the event that changed the future of the Universe and made Gaia the Savior of the Universe.

Bashar also announced that something will happen that will give proof to the existence of extra terrestrials. Well, everyone knows that the Secret Space Program has been

widely announced on Earth already. However, that is not the important event that will change the minds of those on Earth. It will be the Original Ones who I am inviting to Earth right now who will create a way to show themselves on a Global Silver Screen mechanism which will translate onto computer screens and be transmitted to all governments of the world. I am not sure how much information the government will share with the people, but the mind set of the governments will be changed forever. We also already know that there have been walk ins of higher consciousness beings placed within the bodies of many of the key government officials on Earth who will be the ones signing the Universal Treaties.

The third thing that Bashar announced was the economy would be changed in a very positive way in 2017. According to Jesus that event was scheduled to take place as a result of a monetary collapse of the Cabals money and then a sudden replacement of a new economy. That event was scheduled to be complete in June, but it did not take place because of Trump.

There will be these grand events taking place side by side. As the Government is not telling us about the communication they are having with the Original Ones, I will be telling you the communication that is taking place.

What you guys will be seeing is the Economic Collapse, and you will not be told the truth about why it is happening. The Economic Collapse is the Collapse of the Cabal and the Illuminati. They will have no reason to hold up the Economy with their False Manipulation of making us think our Currencies are Valuable because they will know that the Landing has taken place, and there is no way they can

maintain their Control after that happens.

So, it will look like a bad thing, but it is actually a good thing. After the DOMINO EFFECT of the Currencies Collapse there will be a SHORT PERIOD of less than a FEW WEEKS when there will be a bit of panic and chaos because most people will not like the fact that all is changing. That was the future that was in the calculations when Bashar made those predictions. This information was given to me by Jesus of Nazareth- the one you prefer to call Yeshuwa ben Joseph, and I called him that when we were married- on July 9, 2017.

SORRY-THAT PLAN FAILED.

That was the plan that the Galactic Council had in place before Trump became President of the U.S.A. The original future was based on the prediction of a different person becoming president.

Trump will definitely help the economy to be devoured by the Cabal. That is the new probable future. And the new economy will appear in about five years now. Trump is accomplishing one important thing for us right now. He is chasing the bees, hornets and flees out of their nests.

And then, there will be the LANDING. The landing is taking place as scheduled. As of June, 2017, we have had the leaders of Andromeda, Arcturius Za Za, Alpha Centauri, Venus and Sirius.

THIS EVENT HAS ALSO JUST CHANGED on June 21st.

The consciousness will not begin to change until the Original Ones begin to meet with our governments, and that will not begin until the Original Ones and the Galactic Council agree

that the time is right. We are hoping for one or two years. It will be God who decides.

June 21st changed the future of the Earth when the Cabal exploded their Time Machine in AntArtica. The Sirians who are one of the groups of Original Ones are in Ant Artica now helping the repair the damage. The explosion created the Axis of the Planet to become unbalanced and the Earth would go into a wobble and create an enormous Disaster. EXCEPT, for the Fact that my Ascension Portals run right through the Axis of the Earth, and I have the power to Balance the Earth.

There have been many talking about this event of the world changing in 2047. Well that timeline of everything changing by 2047, but what was left out of that scenario is the fact that EVERYONE WILL be Gone by 2047, except those who were not ready to change their Consciousness. Those who are living in the Fourth Dimension will come back and teach the ones who are still here at that time.

Meanwhile, the transformation does not begin in 2047, it begins when the Original Ones arrive, and then the World Governments become ready very quickly because the Original Ones will make their Consciousness change very quickly.

The Original Ones have already said that they only plan on being here ONE YEAR which means that they think they can change the minds of the Governments in about ONE YEAR.

I know what will happen after that point in time, because I know how my Ascension Portals work. The moment the

Original Ones fly through the Central Portal, everything else is set in to Motion. The Entire Consciousness of Everyone in the Universe Unites at this Moment when they TRAVEL THROUGH the CENTRAL PORTAL. THAT CENTRAL PORTAL will activate and open the STARGATES together with those who own the Skulls and those 12 TRIBES of CONSCIOUSNESS including Aramantena, Lyra, Orion, Arcturians, Sirians, Pleiadians, Andromeda, etc.

That is the moment when everything will change. Just as there will not be very many of us who can see and communicate with the Original Ones who are landing because they will remain in the Fourth Dimension, so will it be with the First Contact which is the opening of all Twelve Star Gates or the Gates into the Twelve Star Systems. Only those who have Raised their Consciousness high enough into the Fourth Dimension will be able to see these landings. They will be walking among us long before they are seen.

So, this brings us to the period of 2017-2022 when some of us will TURN INTO LIGHT and BLIP into the New Reality of the Fourth Dimension. Those who go through this early transformation will be living in this reality where they can see all 12 Star Gates connecting Earth into her Reality beyond what was known within the Galactic Realm of Knowing.

The Consciousness of those on Earth will be expanding very rapidly from that point on into 2039 when the eighteen month period begins the transformation of billions into Light. And then after that short period of Transformation, those who are left behind will be helped by those who return.

I am now welcoming the ORIGINAL ONES who are the

TRAVELERS from other areas of the Universe who are Ascending from the God Realm and now preparing their Passage through Mother Gaia.

This process of directing the Travelers through the Portals is bringing me great joy because these people are necessary to go through the Earth's Time Passage.

This will also bring a great new awakening to Earth. This will bring the Kingdom of Heaven to Earth. It is on its way. I am given permission to see some of these Beings, but I can hear and communicate with all of them.

These Beings are coming from the God World and they must pass through this realm. These Beings are Angels and other Realms that are very high, and must pass through the God Realm to make their final passage into the highest dimensions.

I am the greeter and the one who informs them of how to go through these Portals. I have this knowledge because I created the Portals. Through my complete Dimensional Selves I know all that needs to be known about the Portals and how they are to be used, and how it works and how it is a part of the Prophecy of the Universe.

These Portals are creating a new world upon this planet. This is how the Kingdom of Heaven will be brought to Earth. And this will affect the Galaxy as a Whole, and the Universe as a Whole.

This particular passage will be for this particular Universe, however it will have some affect on other Universes as well.

But God wants it to be for this Universe because this is a specific Time, a special place and for special reason.

I was also given protection during this project of Greeting the Travelers. They sent me a Protector who is a great and powerful one from many centuries ago and many centuries to come. This is a precaution. If those who come to the portal entrance who do not belong there, the Protector will move them aside and will not let them pass.

These Portals have placed Mother Gaia on a New Time Line of Reality. This means that the Consciousness of those on Earth will begin to think like one big family. The DNA from each of the star families will be shared as a bio-re genesis project of transformation back into the original God Creation Consciousness that all creation was meant to be.

The Seven Suns

The title of a Christ is given to one who is totally and fully wrapped into the highest light of the Universe. The original meaning of Christ was actually Krysthala. This word came from the meaning of the ONE NESS of Ka Ra Ya Sa Ta Ha and La, who are the Seven Suns.

There were always seven suns who contain seven rays or seven frequency signatures of Consciousness.

These Suns existed in their Original Perfect form during the Second Seeding of the Original Ones into the Universe.

This reality existed about 500 million years ago. The race lines were called the Oraphim Race Lines. There were seven sets of this race line. The race of the Sun Ha were the Dolphinoids and the race of the Sun La were Mermaids. When the Oraphims came to Earth we became the Koncha Serres Race Line. We were the Second Seeding on Earth. I came as a Mermaid and Joe came as a Dolphin to establish the Original Race on Earth at that time. We are back on Earth trying to accomplish the same thing we came to accomplish then. We are bringing the Original Consciousness back to Earth to prepare for the Ascension.

All that was originally in this Universe was created by Creators using the light and sound from these Suns and the Crystals in the Heavens as the tuning forks and rainbow splicing instruments that spiraled into Galaxies and Ignited into the Star Dust that sparkled so brightly that even the Planets could see the highest forms of light shine into the lowest densities of creation.

Each one of these Suns has a type of a leader or Elder who governs the consciousness flow of the Suns. Each Sun has a Set of Stars and within that set of Stars there are race lines. Each of those race lines has a leader or an elder who has a mother ship. As the race lines move through their 250 million year cycle of ascension, they return to the Cosmic Realm of Creation before beginning a new cycle of ascension from the point of a planet within the galactic structure and universal consciousness of their origin.

Now, there are race lines who are coming now in 2017 from Andromeda, Alpha Centauri, Arcturius, Pleiades, Venus and all of the other Star Systems who were created by the Seven Suns.

The Andromeda Consciousness is eighth dimensional, the Pleiadian Consciousness is Fifth Dimensional, the Arcturian Consciousness is Sixth Dimensional.

So, you see, it is not that any one dimension is actually higher than another because there are race lines from each of these dimensions who have ascended into the Creation Realm and are now beginning a new 250 million year loop of ascension. This shows that a dimension is just an idea that was given a number. It does not indicate a level of knowing or a higher consciousness than another. Each system has its own unique characteristics and cultural thought structure. All of these dimensional characteristics come from the energy and consciousness that spins within the music of the spheres to create different dimensional realities within realities within realities so that there may be an infinite amount of unique structures of reality to experience.

We will all be around for Eternity experiencing all of these Unique Realities. We will begin experiencing this infinite dimensional adventure as soon as we decide to become that Light and Sound by Breathing the Light into our Soul and expanding our Soul back into the Light that has orchestrated this Universe.

This is where the teachings about the Sound of the Sun,

the Violet Flame, the Frequency of OM originated. The original Creation came from the Sounds created from the Allness or the Oneness of these Suns Singing in harmony. The Creators created everything as an Orchestration of that which was already in the Source Field or the Mind of God. All new patterns of creation and consciousness must always originate from the complete frequency of these Suns singing as one new Violet Sound of Transformation.

The Creators created the Suns. The Suns are not the highest creation. The Creation Realm is the Highest Creation. The Creators in the Creation Realm created the Suns. The Creators created Seven Suns within this Universe, and each of the Seven Suns will eventually have an entire Universe of its own. But, first, we must return the Original Consciousness to each of these Suns because their Frequencies were distorted by the work of the Fallen Angelic Families.

These new waves of stellar radiation singing through the sun's heliosphere prepare the orchestration and angles of light for new realities to appear through those who choose to be Christ.

CREATION OF THE NEW LIGHT AND SOUND

The future is allowing those who desire to become the Light of the World a grand opportunity right now on Planet Earth. Those who are ascending into the higher realms of the Universe will do so by holding the most excellent radiation of point zero where those bands or

spheres of music and sound that radiate are filled with all that radiates and they will create an exquisite ambiance within those who have moved themselves within the gamma waves and over the rainbow into the Universal Christ Light. This is what ascension looks like from the Eyes of the Creators. This reality is taking place through Light and Sound. It is taking place because those on Earth are becoming Light and Sound.

Just as a part of the work of this Ascension has been Mary Magdalene creating the path through the Earth for the continuation of the Ascension of those in this Universe, so will Celestia Vorta (Elga) work with the Elders and other Deities in the Universe to re construct and realign the Original Frequencies of Consciousness from this point of the Earth Consciousness out into and from the Seven Suns.

Each of the Creators on Earth has a part to play in this re establishment of the Original Consciousness of the Universe. Creators who are within the Creator Realm are not allowed to interfere with the growth and re birth of any of the evolutionary process of those within the Universe. However, if a Creator sends their Soul or part of their Soul to a Planet, such as Earth or any of the locations in the Universe, that Creator can then become a player in the re organization of the Consciousness that will grow from the activities that they have accomplished while on that Planet.

This Ascension is being Orchestrated by the Creators who created the Music of the Spheres that contain all that is in the Universe at each dimensional level. We are

the Creators and we are the maintenance crews of our creations.

When a Creator sends their Soul to a Planet, all of the rules change. Since I was born on planet Earth, my Soul could Create Ascension Portals.

This is the same rule for Elga. Since she is on Planet Earth she can re tune the frequencies of all Seven Suns as they create their new Symphony of Love with Planet Earth.

Creators also have the power on Earth to melt away the mutations that made the wheels of the Star Gates Lock in place. The Original Ones who have come to Earth from the Creator Realm because that is where each loop of Ascension begins and ends will be playing a great role in this orchestration of ascension first as they harmonize the governments of the world into a common melody of new Universal Agreement and then move their space ships through the Central Portal in order to Turn on the Entire Structure of the wheels within wheels or spheres within spheres of all of the Light and Sound of the Universe being re-harmonized into the Original Plan of Creation.

The entire plan requires each part of the Orchestration to play their Instruments in perfect harmony with all forms within the Universe. The Ascension is a Musical Process that requires the Light and Sound to ring in the ears and then sound through the cells. The Breath of Light must be exhaled from the Souls of those who are the Creators and those who are the Star Seeds and

those who want to become enfolded into this new Light and Sound Formula of the New Creation that begins on Planet Earth.

Some members of the Creation Team are on Earth for the purpose of planting the Original Consciousness into the Hybrids on Earth so that they will carry on with a new Thought Process that moves them forward into their Ascension Period in eighteen months of 2039-2040.

Members of the Creation Team include the one who was Confucius, who paved a path for a new Thought Process within the Eastern Continents. This Eastern Thought Process was a part of the Evolutionary plan of the Creators. The Creation Team also includes the one who was Buddha, who showed those in the East that the Body could Rise up and out of its shell. This same Rising was shown to Earth by the one called Elaijah, who is also here on Earth again preparing the thought process for Jesus of Nazareth to speak again on Earth. Elaijah will begin speaking in 2017 and Jesus will begin to speak in 2018.

The one who was Mother Mary is here with us. The one who was Amos and Rachel is here again as a Creator to find the resolution of many wars that were begun in the Old Testament time period. The one who was Moses is here with us. The one who was Judas is here with us. There are many Creators who came to Earth during the times of the Old Testament and the New Testament. There are also many who are here from earlier times of the Egyptians who were the Third Seeding of the Original Ones. Some of us are here from times as early

as the Second Seeding, 400 million years ago. Some Creators are working on this project from locations beyond planet Earth. One Creator came to Earth without amnesia to be able to remember all that came before. One was a ruler about one thousand years ahead of Confucius. We have many Kings from important kingdoms here including the King of the Mayans. There are many others involved who are Deities and not Creators who have equally important missions to perform.

There are only three Creators who came as their original Soul in its completeness. Mary, Judas and Jesus came to Earth with all Seven Levels of themselves. All of the other Creators came with only Three Levels of themselves. There are thousands of Creators who have taken their places within this Galactic and Solar arena where this event is taking place. Only 47 of the Creators are on Earth. They are here to pave the path of the Original Consciousness to return to the Earth and the Universe. We are on Earth because Earth is the Key to the Ascension to the entire Universe.

So far fifteen of the Creators have found the Crystal Magic Orchestra Newsletter, and most of them received Divine Direction to purchase an Eternal Life Album. I now realize that it is the Eternal Life Album that is uniting the Creators into One Frequency. We are being pulled back into this Orchestration because we are the Orchestrators. Many have been directed to purchase the Eternal Life Album because they came to Earth as Friends and Helpers of the Creators, and some are Aliens who are on Earth working on other Ascension

Projects such as the care of the Oceans with the Hathors. There are many who are assigned to projects of Tuning with the Ocean which also helps with the Tuning that I do with the Dolphins for the Ascension Portal upkeep. One Creator is an Elemental who is here to assist with the Aquafarians. And of course, those others who are working with various water projects are assisting this Creator in some way.

There will be 32 Creators called forth to perform their mission for this Ascension Process on Earth. There are 15 younger Creators who will only be called on later in the Second Ascension Wave, only if they are needed.

BECOMING THE LIGHT

Who is ready to Turn into Light?

Those who learn to find this light within the Breath of their Soul and Exhale themselves into this Plasma of Creation and Envision themselves as the Flame of Light that God sees them as, and to become the pure Unconditional Love who knows and sees all on Earth to be the same Universal Light and Love that they are.

The meaning of Christ is the Cosmic Consciousness of God being translated down into the dimensional frequency of the Universal Form. It meant that a Creator Being who came to Earth with God within Him shifted the Consciousness of the Earth into this Universal Consciousness Form so that some time in the future those on Earth would be prepared to return to the

Universal Consciousness or the the place where Terra Ha exists.

The Earth fell out of harmonic union with the Music of the Spheres that replicate all realities through the original harmonies of the Cosmic Music and then placed them in multiple dimensions so that the maximum experience could be gained.

Earth fell out of alignment with the Music of the Spheres as a result of the Akhenaton event and the Tower of Babel event. God came to Earth in Mary and Jesus for the purpose of experiencing what the humans on Earth were experiencing and how to better communicate with them.

These events were actually taking place in the Music of the Spheres themselves. Every breath of the Souls of Mary and Jesus were changing the Music of the Spheres every moment they were on Earth. Everything that was experienced through the Breaths of the Souls of the Creators on Earth changed the patterns of understanding of the ones on Earth and how they harmonically would be reformulated into the Universe.

These new waves of stellar radiation singing through the sun's heliosphere prepare the orchestration and angles of light for new realities to appear through those who choose to be Christ.

There was a prediction about the second coming of Christ appearing on a Silver Screen. That Silver Screen is the Radial Orb around our bodies and it is the DNA

playing the new frequencies that have woven us back into the Over Soul of our Christ Consciousness that will project out on to the screen and Behold Christ has appeared before you. You are the Second Coming of Christ, and you will appear on the Silver Screen in front of you.

There will, however be a Silver Screen Event on Earth when the Original Ones create a Screen that will work like a Movie Theater that allows them to appear on the screen and communicate with all of the World's Governments. This event will be taking place in the very near future in the year of 2017. This event will create a great new acceptance on Earth and an awakening within the government which will confirm the presence of those who are thought of as aliens to actually be those who are those who we are, and those who we are at the highest level of Love that is known in the Universe. The fear of aliens will disappear from Earth as a result of the Cosmic Love of the Original Ones and the Creators who are supporting them.

God sees each one of us as a Flame of Light. He sees us as the completion of the Breath of Light, the Idea of Light, the Substance of Light. The more we move into this full Light Spectrum of who we really are, the more we are seeing ourselves as God sees us. Becoming the Light of the World actually means turning back into the actual Light that we are created from. It actually means that our bodies were created from the same etheric substance of Creation Consciousness that the Stars and Suns are made from. We are all created from the same Cosmic Consciousness that is used to form all that is in

the Universe.

It is now time to move back into the complete light that we are actually made of. I have been a creator of Galaxies, Stars and Super Novas. I have sung the Music of the Spheres into Existence. I can understand how easy it is to return back into this Etheric Light Body who contains the Complete Consciousness of all that God is. This understanding is what will allow Joe and I to turn ito Light.

Most of the Creators came to Earth with complete amnesia of who we really are. We came to Earth as human hybrids just like every body else on the planet. We came to Earth in this form so that we could experience everything exactly as it is experienced by all humans on Earth.

Now, we are going to Leave Earth in the exact same way that all on Earth will leave in 2039. The only difference is we are going to turn into light now because we know that we can, we understand why and how we can, we understand the physics of why we can, and because we understand that only Unconditional Love seen exactly as God experiences this Love can be allowed to enter back into the Over Soul, where the complete Mind of God is the only Substance.

We understand that this Soul experience is a little bit different for us than for others because we came from the Cosmic Realm of Creation. The Soul of Mary Magdalene came to experience being the male and female in one Soul. The Soul of Mary Magdalene chose

to come to Earth to complete a project that would allow the entire Universe to become restored to the original Divine Plan of my Mother Father God.

My Soul has already risen into oneness with my Over Soul, because my Soul was never actually separated from my Over Soul. However, I will ascend into the Over Soul within Terra Ha because I have chosen to go through the ascension of a hybrid human on Earth and to show all humans on Earth that this path is available to them.

I am a Creator on Earth. However, I am a Creator in the form of a hybrid human so I am the same in form and in ability as any other person on this planet. This is the magical experience of being all that God is within a human body standing on Earth. I must do everything the same way that all human bodys do the things they do.

However, I am also my Astral Body who swims through the Pacific Ocean every night to re arrange the Tectonic Plates. I am the same Astral Body who travels thousands of light years into the future to check to see how the present will effect the future. I spend hours attending Universal Parties, parties with kings of many realms, I greet the new Travelers and communicate about their future plans. I have the same power to create Ascension Portals through a planet as I had when I created Stars and Galaxies in the Cosmic Realm, because that same Mary Magdalene is in all dimensional realities now and forever.

This is how Yeshuwa ben Joseph (the one I call Jesus of

Nazareth) explained to me that Unconditional Love is the most important concept on Earth. And that is the requirement for all on Earth to Ascend. He made it very clear that Joe's Unconditional Love is what will turn him into light.

Jesus also told me that when he begins to Speak on Earth next year, he WILL NOT CALL HIMSELF THE CHRIST.

CAPACITY FOR UNCONDITIONAL LOVE

Jesus said Joe has a larger capacity for Love and Understanding and Acceptance. He is one of the Truly Accepting Unconditionally Loving People that there is.

Joe has the balance of the male and female within him in such a way that is the perfect dispersion of Love.

Jesus said Joe is different. He understands spiritual concepts like few people can. And when you explain spiritual concepts to Joe, he understands it immediately, there is no question in his mind. He sees it. He understands it. Because of his unconditional love, it takes him to the basics of what God is all about, which is the Unconditional Love, the beauty of that. And all of these high dimensional concepts of a spiritual nature are less important than that basic, pure white solid love.

So, if I can learn to be like Joe, we can ascend. So, all I have to do is learn to be like Joe.

Jesus said, Joe has the right concept. Yes

Joe is showing how God Love in a Human Spirit is.

Joe said, all I do is know that there is all of God's love within me and I beam that out into the world.

Every step I take I say how can I best express Love in this step and then I take the next step into the next moment.

Jesus said, Yes, he is an amazing being. Yes, this is how human beings should be like. They should be like Joe who gives only their light out into the world and never their negativity. He is never negative, never puts people down, he is never angry. But, he is balanced in the Love that he knows is God, and he shows that, and he is aware of it, and he wants to be aware of it in that way. He is non confrontational. He is very fair. And he will stick up for things if he has to. And he has no judgment of anyone. He may have an opinion but he does not judge. A judgment is different than an opinion. He keeps his opinions to himself. You never speak any malady. I have not heard much from you. And that is as close to perfect as you can get.

You see, life is all about unconditional love for the most part. That is what we must bring to light to every human being and that is where it has to start. Not with high concepts or mysticism, or turning into light, because

they are not ready. We have to bring them and get them ready.

I asked Jesus if there is anything else that we need to do for the world before we go into our cocoon eternally.

Jesus said give love to the world always. Be generous. Whenever you give and it is not expected, people are shocked and amazed because that is not what the world is like, but that is what God is like.

ASCENDING BODY

We each have only ONE BODY. However, that exact same body can translate into many completely different forms of reality. We do not leave one body behind and move into a different body. We do, however, take all of our body with us when we raise our energy into the frequency signature of the higher reality.

Most people spend most of their time focused within their physical body, and so that is the only reality that appears to them. When a person raises their frequencies of light and sound energy within their consciousness, that person can lift the body with the lower frequencies up into the higher form of reality.

We were given a method to practice this reality of taking the physical body with us into higher realms of reality. This method is simply to first see or imagine the Soul, which is a

sphere of consciousness sitting just below and behind the heart area. This sphere has been referred to as the Higher Heart Chakra in some teachings, and I have used the term Crystal Heart in my meditations. This Crystal Heart is actually the Soul.

We begin by imagining where the Soul is sitting in the body.

Next, create a mini me- a miniature replica of your body and see it standing inside of the Soul.

Next, place a merkaba around the body within the Soul Sphere. Also place a merkaba around the soul sphere.

The merkaba is a symbol that provides energy that translates beyond the time and space that creates dimensions.

Using the merkaba idea and spinning it around the soul and the mini me body in the soul provides the reality within consciousness that does not exist in the consciousness of time and space.

Next, we spin the merkabas around the body and the soul and we watch the body travel from the heart area into the head area. This is placing the body and soul within the new Mind of God Consciousness that releases the body from form and dimensions.

Now, we spin the merkaba around the soul and the body in the head and watch the merkaba lift the soul and body into the heart area of the body that sits within the harmonic

universe above the first body. Next, the merkaba will travel from that heart into the head of the body in the higher reality.

We repeat this same formula to raise the body from the second harmonic universe into the third harmonic universe and then into the fourth and then into the fifth harmonic universe.

The body is now standing within the consciousness of the fifth sphere or the fifth harmonic universe that is located about 36 inches above the physical head, when the sacred geometry of translation is used.

Using this formula helps the mind to understand what happens in death, and the reason that there should not actually be any death.

You see, when a person is dying, the first thing that happens is the Soul looks at the body and says there may be some things this body still needs to do so I will stay in this body for a while longer. And then the soul waits and watches the body to see if there is any response to the prodding by the soul. If the consciousness of the body does not respond to the Soul, the Soul will then leave the body, and then the physical body dies.

However, now we know that we can actually move our body into our soul and take our body with us. This is the normal reality that has always existed.

In 2008, when Joe was possessed by three demons, God went into Joe's Soul to take the demons out of the body and

out of the Consciousness of Earth. The reason that people have always died after possessions is because the only way to get rid of the demons is for God to enter into the body and take the soul of the person. The demons know how to take possession of the Soul from the fourth dimension.

So, Mary Magdalene's Soul knew what was expected of it before it came to Earth. It knew that it would be required to be used to remove these demons from the planet. That is why Mary Magdalene chose to come to Earth with two souls. Mary wanted to experience being a male and female within one Soul. The Soul of Angela and the Soul of Joe were identical, so, when God took Joe's Soul out of him, Angela was able to place her Soul within him. So, Joe had a soul replacement.

There was something special about this new Soul that was placed within Joe. When the female Soul retrieves the male Soul, the replacement must go on at the highest level of Cosmic Consciousness. The Soul of Mary Magdalene came from the Cosmic Realm. It was not a Soul born from the Over Soul because she is a Creator Being who sent her Soul to Earth.

So, in this situation, Mary was able to prepare a path for all who live on Earth to be free from the demonic possessions that were programmed to happen when the Portals were opening. The passage of the Souls of Mary would forever be a part of anything Mary did as she was opening the portals.

The programming of automatic demon removal was a part of the Ascension Portals themselves.

Now, all Souls on Earth are free to be connected with their Over Soul in harmonic universe two.

When Joe died. Joe had to die, or God could not had taken his Soul out of him. Joe lost all that had been stored in his lower fractal consciousness memory. He was left with three percent of the memory of who he was before the demon removal party. The Consciousness that was brought into Joe was coming from his Higher Fractal Consciousness. This process of bringing in such a high consciousness took about five years to complete. Joe's new mind and Soul are completely different from the ones he was born with, and therefore, he is a brand new being. He was completely re born into a new Soul and a new Mind.

This event has taken place on Earth before. However, each time it took place, the body died. Now, we have the proof that death is not real. We can remove death by moving into a new Soul. And, we now know, that we each have a Soul that exists in each of the higher realms, and we actually move into the higher realms together with our body and our Soul.

The first body we move into is our Light Body and then our Blue Body and then our Violet Body and then the Particle Transformation Body that will look like a Plasma Ghost Body standing in the Clouds, and finally the Etheric Body. This transformation is multi dimensional. It does include moving into and through many dimensions, but it must be seen as a

process of bringing all multi dimensionality into the physical body that we take with us on the journey.

This is the difference of the new Ascension Earth and the old Earth. This possibility of GOING WITH THE SOUL was not a possibility on Earth until now because of the demons who were blocking the Portals of the Earth as they lived within the zones of subterranean Earth. This consciousness of these demons was a result of the rod and staff backfire that took place when Akhenaton tried to block anyone from ascending who was not an Annunaki. The fallen Angelic Consciousness has been locked within the Earth's Crust since that time. Mary Magdalene brought her Soul to Earth to open the Ascension Portals. But, first the demonic consciousness needed to be removed so that the Fallen Angelics would never be able to take control of this Planet again.

These were the steps needed to prepare all Souls on Earth for the Ascension that would allow them to take their bodies with them because they would be ready to go through the process of Turning into Light as a result of going through the process of rising higher and higher in reality by placing more and more energy of light and sound in their consciousness. The Soul and Body can Experience being the Blue Body, the Violet Body, and the Etheric Body by absorbing these Frequencies into the body.

The Blue Body is the True form of Reality that we actually exist in when we remove space and time from our formula of reality. If a person breaks their leg in this illusionary physical

body, they can know that their leg never did break in the Blue Body. So, if they move their Consciousness into the Blue Body, they will be living in a body with out a broken leg. The Blue Body remains perfect always because it has not fallen into the illusions of space and time. We can move into that body long enough to transform the Blue Print of the physical body into the blue print of the Blue Body. This is where the only TRUE HEALING takes place. Trying to heal the physical body is a waste of time because it is only an illusion to begin with. The healing takes place when we move up into our Real Body.

The Violet Body contains all of the light of the Sun folded into the light of transformation. The Violet body is where we must be in order to begin the transformation. Once we move our body and soul into the Violet Realm then particle break down begins that turns the body into light and then the etheric form that translates into the new reality.

UNCONDITIONAL LOVE IS THE KEY TO ASCENSION

This is what Jesus said about Joe's present state of being:

JOE is one of the most Truly Accepting Unconditionally

Loving People that there is.

ELAICA added that Joe would be the Catalyst for My Ascension. He will be ready to Ascend and then he will attach his frequencies into mine and we will turn into light simultaneously.

The result of Joe dying separated him completely from his lower fractal consciousness of his human body. That is what death is. In order to return Joe into his body, I actually had to connect my Soul into the Over Soul and Higher Consciousness of the Mary Soul. I actually plugged Joe into his Over Soul instead of his lower fractal consciousness. While Joe only had about three percent of his original lower consciousness remaining in his brain, he was attached to a consciousness of a much higher frequency that was able to come into him gradually over time. It actually took about five years to have his old fractal consciousness have glimpses of what he had been before the accident. Meanwhile, Joe was living more in his Over Soul Consciousness each day. This was making Joe become more God like, more immortal, more living continuously in the Mind of God as all do in the Over Soul Consciousness.

This reality that Joe has been experiencing more and more each day since 2009 has made him into what many on Earth will become within the next twenty years on Earth and what all will become after they shift up into the higher fourth neon universe that requires full Bliss Consciousness continuously.

This is what Jesus said about Joe's present state of

being:

Joe is also the Soul of Mary Magdalene. Mary chose to come to Earth this time to experience being both male and female at the same time. Joe is an amazing being. Yes, this is how human beings should be like. They should be like Joe who gives only their light out into the world and never their negativity. He is never negative, never puts people down, he is never angry. But, he is balanced in the Love that he knows is God, and he shows that, and he is aware of it, and he wants to be aware of it in that way. He is non confrontational. He is very fair. And he will stick up for things if he has to. And he has no judgment of anyone. He may have an opinion but he does not judge. A judgment is different than an opinion. He keeps his opinions to himself. You never speak any malady. I have not heard much from you. And that is as close to perfect as you can get.

Jesus said give love to the world always. Be generous. Whenever you give and it is not expected, people are shocked and amazed because that is not what the world is like, but that is what God is like.

The message of Love will be the basis of the message

that I bring and that Elaijah will bring. His will be a little more firm and wake people up. My message will be about nurturing love, and bringing people together and bringing them into my heart, and then teaching them to move forward because they have to know that God loves them before they can understand any of these spiritual, beautiful, complicated things that you know. But, they have to know that God is love. And they must feel included. If they do not feel included in this intellectual thought process, they will turn away.

Jesus said Joe understands spiritual concepts that Mary and Jesus made together. So, he was bringing to Earth that new understanding of the Mother God of Unconditional Love.

Jesus said Joe has a larger capacity for Love and Understanding and Acceptance. He is one of the Truly Accepting Unconditionally Loving People that there is. Joe has the balance of the male and female within him in such a way that is the perfect dispersion of Love.

Mary said, So he is kind of like our child. Jesus said Josiah is the son of a Creator Being, so that is the first of that kind. And we don't know what they call that kind.

So, if I can learn to be like Joe, we can ascend. So, all I have to do is learn to be like Joe because his unconditional love takes him to the basics of what God

is all about, which is the Unconditional Love, the beauty of that.

Joe is showing how God Love in a Human Spirit is.

Joe said, all I do is know that there is all of God's love within me and I beam that out into the world.

You see, life is all about unconditional love for the most part. That is what we must bring to light to every human being and that is where it has to start. Not with high concepts or mysticism, or turning into light, because they are not ready. We have to bring them and get them ready.

But, they have to know that God is love. And they must feel included. If they do not feel included in this intellectual thought process, they will turn away.

It is not an easy thing to live a Creator life in a human form.

I believe because God himself was Father until Jesus and I created Mother God about 2000 years ago, that even the Creators and Angels and all creation has been male dominated at all levels of the universe. That is the old testament God. The old testament God was Father. The New Testament God is Mother. Even though, Jesus and I created Mother God 2000 years ago, I don't believe that Mother God will actually appear until we move through this final Ascension.

I believe that is actually the Birth of the Mary Magdalene as male and female embodiment of this new type of Soul on this Earth that was required for the completion of this new Female pattern of reality to begin. I think Joe is the beginning. That is what I was talking to Jesus about when I told him that we gave birth to Josiah and to Joe. And Joe is the new Soul that was created in the God Realm of this new substance, this new idea that Jesus and Mary gave to God.

Jesus said that our son, Josiah, is not a Creator. The Creators were created by God at one time, about twenty trillion years ago, and they are the only Creators. Jesus said that God might decide to create more Creators sometime in the future. So even though we gave birth to a human child, we also needed to give birth to a Creator Child. Joe is that Creator Child. Even though he is a male, he has changed the pattern of the male thought into a very Female Unconditional Love pattern which will

make an impact on the new world that will become a Brand New ONENESS and UNCONDITIONAL LOVE Soul pattern.

The last channeled dialog with Jesus, April 13, verifies Jesus agreement with my hypothesis about Joe. Jesus said that Joe is absolutely the highest example of Unconditional Love on Earth that he knows of. This is probably why we are getting so much help blipping into the fourth dimension. That is where we must go before we can really begin making a huge change in the Universal Structure.

I just wonder why on this planet it seems to continue that the feminine does not receive the acknowledgment that the male does. I have a theory about this. I will probably include it in my final book that I am submitting to the Universe.

Today, July 10, 2017 I gained a new insight into this change of God from the Father God of the Old Testament to the Mother Father God of the New Testament. There are definitely pros and cons to this new experiment. When I asked Jesus why it is that God doesn't open a path of interconnecting links into millions of people to hear and purchase my music. I added that I would even be happy to give a few albums away to billions of people if the links to such a possibility would just open up.

This remark to Jesus was made after he told me that there is no greater protection than the music that I created, and that many on Earth need protection right

now. I told Jesus that I would like everyone to be protected by my music.

Jesus said the Father God of the Old Testament probably would have found a way to make every one on Earth listen to your music, but the new Mother God only allows FREEDOM OF INDIVIDUAL CHOICE. That is what God decided was the best mother policy after the Mary and Jesus Love Experiment.

So, here I am, back on Earth, again as the Soul of Mary, who 2000 years ago gave God the example of a Mother who should always give Individual Freedom of Choice. The truth is I will be the first one to not agree with most of the changes that took place in the education system during the past two decades that led to children shooting their teachers and demanding so much freedom that there was no control left within education. I left education because it was rigged to loose from every direction. It was wrong for teachers to have too much control of students and it was wrong for teachers to have no control of students.

And I will give this confession about the Love Experiment of Jesus and Mary that included the birth of our son, Josiah. When Jesus was nailed to the cross, I would not allow Josiah to come because I didn't want him to watch his father die. However, Josiah was never told that Jesus was his father before that event. After the crucifixion I did tell Josiah that Jesus was his father. Josiah would not believe me. He was only seven years old at that time. Josiah never did believe that Jesus was his father, even when he became an adult. Josiah was

very intelligent, and well versed in the world because of who his parents were. However, Josiah chose to travel and do business and become very successful in the ways of the world, and not the spiritual journey.

I believe because God himself was Father until Jesus and I created Mother God 2000 years ago, that even the Creators and Angels and all creation have been male dominated at all levels of the universe. That is the old testament God. The old testament God was Father. The New Testament God is Mother. Even though, Jesus and I created Mother God 2000 years ago, I don't believe that Mother God will actually appear until we move through this final Ascension.

Joe understands spiritual concepts that Mary and Jesus made together. So he is bringing to Earth that new understanding of the Mother God of Unconditional Love. This is why Joe has been ready to Turn into Light since the beginning of 2017, but he is waiting for me-Mary.

Jesus said Joe has a larger capacity for Love and Understanding and Acceptance. He is one of the Truly

Accepting Unconditionally Loving People that there is.

Joe has the balance of the male and female within him in such a way that is the perfect dispersion of Love.

Mary said, So he is kind of like our child.

Jesus said Josiah is the son of a Creator Being, so that is the first of that kind. And we don't know what they call that kind.

Mary said, yes, there is our son Josiah, but there is also Joe here who is also a mesiah. He is also my Joe Siah.

Jesus said Joe is different. He understands spiritual concepts like few people can. And when you explain spiritual concepts to Joe, he understands it immediately, there is no question in his mind. He sees it. He understands it. Because of his unconditional love, it takes him to the basics of what God is all about, which is the Unconditional Love, the beauty of that. The future is allowing those who desire to become Christs the most excellent radiation of point zero where those bands or spheres of music and sound that radiate are filled with all that radiates and they create an exquisite ambiance within those who have moved themselves within the gamma waves and over the rainbow into the Universal Christ Light. These new waves of stellar radiation singing through the sun's heliosphere prepare the orchestration and angles of light for new realities to appear through those who choose to be Christ.

There was a prediction about the second coming of Christ appearing on a Silver Screen. That Silver Screen is the

Radial Orb around our bodies and it is the DNA playing the new frequencies that have woven us back into the Over Soul of our Christ Consciousness that will project out on to the screen and Behold Christ has appeared before you. You are the Second Coming of Christ, and you will appear on the Silver Screen in front of you.

Dear Mary

I woke up feeling different,, and I knew,, I was so happy to see this in my inbox! Thank you for the album! I know that it will be wonderful, just like other albums you have created for me. I spent much of yesterday with the Brain-Cleansing and it provided just the healing I needed at exactly the right moment,, now my thinking brain can follow and be at peace and unburdened,, resting in love and relief awaiting transmutation and reprogramming and I thank you so much for this. You have given me such a magnificent set of frequencies and I am so excited to work closely with them as I begin my time of transmutation, purification and melting

process in big ways,, I know that my highest calling and directive at this time is to rise and transform and be reborn as quickly and completely as I can,, I have so much to share with you and there is no greater joy for me than to devote myself to and melt into complete oneness with Mother-Father God's divine plan and my path,, as I grow and rise and return to my role as Grand Support,, I love you all so much and you deserve only the best and the best that I can give and I am so excited to do better and keep expanding and transform into my highest, pure and perfect self, for you guys.

Your love brings tears to my heart,, my spirit,, to every part of me

I am in awe and so humbled by the depth of your love,, Thank you dearest Mary,, I feel you I feel you and I am learning to let your love in and believe that I am worthy and please know The love you have for us, the love you have for me continues to create me anew each day,, you are my Queen, Our Beloved, my Hero and my heart will sing for you always for eternity

I LOVE YOU SO MUCH!!

Now, back to the story of Creation.

The one who was known on Earth as Yeshuwa ben Joseph, and given the title Jesus Christ in the Bible, was created as a Creator Being. His name was not Yeshuwa in the Creation Realm, however, he became known more widely as Jesus of Nazareth in the larger Universal place. The one called Jesus of Nazareth is known all over the Universe as a Creator Being. It is only in the low density planets, such as Planet Earth, where the knowing of the Creator Beings has not evolved. I am the Soul of Mary Magdalene. I am a Creator Being. Creator Beings do not belong to Over Soul groups because our Soul is already complete.

I brought my Soul to Planet Earth to activate and over see the Ascension of Planet Earth because I was on the team who created the essence of Earth, the substance of Earth and the consciousness of Earth originally. I was also on the maintenance team for Earth for millions of years. I designed the Oceans and the Mountains of this Earth, along with my friends from the Creator Realm. We have designed and maintained millions of Planets, Galaxies, Novas and even Super Novas. We are the Creators of everything that the human mind can behold. We created this foundation for the Consciousness of the Future Hybrid Race of the Universe. And we prepared the path for the Ascension of Earth to take place at this exact time in history. That is one of the things that Creators do for God.

My great friend and partners in creation include the one who has made this entire event become a believable reality for me. You see, I chose to give myself amnesia before I sent my Soul to Earth so that I

could fully experience myself as a member of this Hybrid Race who would go through this most important Ascension. We Creators know that there always needs to be those on the planet who are both Creators and members of those racelines who were born on the planet that is ascending. This is because an actual Creator who is not born through the Consciousness of the Planet itself does not have any jurisdiction on that Planet. So, Elaika and I made an agreement that he would watch over me very carefully while I was in this state of amnesia to make sure that I would do those things that I planned to do while I was on this mission.

Creators are not allowed to interfere in the advancement of any civilization. We are only allowed to watch over and assist in the process of creation and maintenance. Elaika and I made an agreement that I would become the eyes and ears and Soul on Earth who would be born as a human so that there would be a Creator Being in the form of a human allowing this event to take place in its natural order, while at the same time combining my rights as a human who was born here. So, I get the best of both worlds. I am a Creator who gets to be a human, who is working together with a team of Creators who are in many different positions within this ascension process.

Elaika has one foot in the Creation Realm and one foot in the Universal Realm. He is overlooking and guiding all of the leaders of all of the racelines of the entire Universe through this Ascension Process. He has directed each of these leaders to assign those who are the Souls of their Over Souls to carry out certain activities of this ascension. Elaika works directly with my Astral Body in the Universal Realm and he also communicates directly to me as the physical body who is the lightning rod who stands on Earth so all of this activity may flow through me.

Elaika and I have been working together on Ascension Projects all over the Universe for millions of years. We worked together designing

most of the mountains on Earth. My memory of working with Elaika on the Mt. Sorak project in Korea millions of years ago was what caused me to remember Elaika as Zaurak when he first encountered me in Monterey. Only those who are extremely close friends with Elaika would remember that we had given him the name Zaurak in the Creation Realm as a joke because of a mistake that he had made when we were creating Mt. Sorak in South Korea.

The mountains that we created together were originally designed to be Portals for Space Ship travel. We designed the Oceans, and all who live within the Oceans. I came to Earth 400 million years ago with Elaika and my Soul Mate, who is now my husband. My Soul Mate at that time was a Dolphin from the Oraphim Race line, and I was a Mermaid from the Oraphim race line. The Oraphim Race Line was the Original Race of the Perfect First Creation. Elaika came with us at that time as a creature who later became known as the Sea Dragon and the Sea Horse and has been portrayed by many visionary artists as the Sea Dragon who talks with the Mermaid sitting on the Rock in the middle of the Ocean. All of these magical figures who have been drawn by Visionary Artists are correct visions.

This time when I decided to return to Earth to complete the Ascension of the Planet that I helped to design, I chose to come as both a male and female. The Soul is a very unique tool in the Creator Realm. It is completely different than the Soul of a humanoid or other being who was created by Angels. Human Beings were a creation of the Angels and Creator Beings were created by God. Creator Beings have no other Higher Self besides God Himself. All Creator Beings make their own choices about where they want to go with their Soul, and what form they want to experience through the Soul.

CREATING THE HIGHER FORM OF THE HUMAN HYBRID

There were many reasons why I chose to experience myself as a male and female within my Soul Experience this time. The actual experiences that Joe and I have had during our time together allowed us to create a new form of thinking, a new form of oneness, a new form of a Soul who would be complete in itself. We needed to do this on this planet, in the form of the Hybrid Race itself, so that this new Consciousness of a male and female within one Soul would exist within this race line forever more. We created a new type of Being who would ascend into a new timeline, a new reality, a new Creation.

There was another reason for Mary Magdalene's Soul to be on Earth as both a male and a female simultaneously. That reason was to complete the process of removing all demonic beings from the Consciousness of Earth forever and ever, so that they would not be a part of the Ascension of Earth as she translated into the new realm of Terra Ha. The Ascension of Earth could not proceed until these demons were removed from the Heart and Soul of Earth. These demons were blocking Gaia from becoming her complete self.

It was July of 2008 when the Cosmic Soul of Mary Magdalene performed the event that would free the Earth into the new consciousness that would be allowed to ascend. Joe and I were told to move to Monterey, California in May of 2008 to open the Ascension Portal of Mary Magdalene. We followed the directions of our Creation Partners Elaika and Jesus and our Angel Team of Gabriel, Michael, Uriel, Ariel and Raphael.

We moved to Monterey and proceeded to open the Asension Portal that we created four hundred million years earlier when we had come to Earth as a Mermaid and a Dolphin, and Elaika was with us at that time as a Sea Dragon. Elaika had always been a part of the Jesus

and Mary Team. Elaika came to Earth as Moses to establish the Father God image on Earth, and Jesus and Mary came to Earth to establish the Mother God image on Earth. We have always been a team because we have similar interests in our creations.

This time Mary placed herself in a position that would allow her to bring her Cosmic Soul back to life after He had been possessed by three sets of demonic race lines. You see, we already knew that when Mary's Soul returned to the place of her Ascension Portal, the demons would be waiting for her. We also knew that demons will always take the female Soul because they know that the male cannot rescue the female. However, the Female Soul can bring back the Male Soul from the dead. This was the same formula that was used by Jesus and Mary. I was the one who returned Jesus to his body two thousand years ago.

It was not long after we began working on the Ascension Portal project in Monterey that Elaika told Joe that he was in grave danger because there were three demons who were trying to take over his Soul. Elaika told Joe that he needed to listen very carefully to what he was told to do and to do everything exactly as he was told. From that moment on the mind of Joe was completely preoccupied with his possession. It was three weeks later when Joe died because he was possessed. God had been in on this plan from the beginning, as well, Just as he was in on the Jesus and Mary plan at the Cross. God, Himself, went into Joe's body and took the demons. However, the demons were already in Joe's Soul, so God had to take Joe's Soul out of him. That is why Joe died.

If Joe had not died and allowed the demons to be removed from the hybernization zones of Earth's Crust, these demonic race lines who had implanted themselves within the Earth's Consciousness would remain within Earth and that would allow an Eternal Pathway for the Fallen Races, Invader Races and a complete demonic take over of

Planet Earth. That was what the plan of the Fallen Angelics and the Annunaki had been for millions and millions of years.

The reason Mary Magdalene needed to be at her Original Portal at this time was because she had always know that this was the final take over plan of the anti Christ Racelines, and her position as the Female Christ was the perfect decoy for the demons. She knew the demons would seek out the Female Creator on Earth who had created the Ascension Portals. She knew that she was the route of take over by the demons or ascension by the Creators.

Mary Magdalene made the plan to come to Earth as both male and female in order to set a decoy trap for the demons so that God could enter the body of her Soul Mate and she could wrap her Soul into him to bring him back to life. She knew the demons would be seeking her out and she knew that they knew she would return to Monterey at the exact time that she did in order to open the First Ascension Portal in 2008. These facts and plans were known in the Universe for a very long time because the demons had taken over many stars and galaxies using this same method of taking over the Soul of the Female Creator who was present in the system at that time.

So, Joe had died, and Elaika appeared to me and said, we have had thousands of Angels try to bring Joe back, but only you can do this Mary because you are the Soul of his body. Elaika told me to place my Soul inside of Joe, and that is what would bring him back.

The details of this story have already been told in several of my other books. I will go on with the story of the BIG ASCENSION plan on the Universal level. (Please visit the chapter, other books by Mary Magdalene, to find out where the details of these stories may be read.)

Joe Barnett is truly the savior of Earth and the savior of the Ascension Plan and the one who has made the reality of Gaia becoming the

Savior of the Universe a possibility. Joe accomplished the hardest part of the entire ascension plan. He was able to capture the demons within his Soul without allowing them to trick him into capturing the true essence of who he was. All of the Angels and God witnessed Joe standing up to the temptations of the demons that were placed before him. Joe was not captured by the demons. Joe was actually the one who captured the demons so that God could remove them from the Universe forever.

The demons appeared when Joe and I opened the Portal. The Demons planned on taking this portal and using it to take over the entire consciousness of the Universe. The demons planned on taking possession of every living soul on Earth.

So, the demons were removed and the First Portal was opened. After that possession, it took about five years for Joe to recover. During that time period I continued to open Portals along the west coast of the Pacific Ocean. In 2015 Elaika appeared to me and told me to begin opening the Portals in the Ocean. I began communicating with Elaika through a channeler in 2016 in order to make sure I was doing portal work correctly and to find out exactly what had happened to Joe and myself in Monterey when we were opening the first portal. All of the exact details about the event were given to me by Elaika. (Elaika is a Creator name that is not known on Earth. He came to Earth as Moses so that God could be experienced as the Father God on Earth. The purpose of all Creators is to create experiences in all dimensional realms of the Music of the Spheres, so that God can experience all of the harmonic orchestrations of his creation).

ASCENSION OF EARTH

This is the time when Terra Firma will morph into oneness with Terra Ha, and then Terra Firma will no longer exist in this realm. It is time

for our Mother Earth to become One with her Spiritual Parallel Self, or her Starry Firmament of Terra Ha.

That time has come. The Earth and the Human Angelic Beings who inhabit Earth are becoming Normal. This evolutionary event began in 2013. It was mid 2012 when Earth shifted into a new time line that would allow her to begin her transformation. The five years following the 2012 transition has been the final transformation that required several things to take place.

This transformation required the Consciousness or Starry Essence of Sun's from Seven Star Systems to flow into Earth. The transformation required a high percentage of activation of the Earth's Grids in her Crust that were originally created by the Elohim Race Line, or the Original race of this planet. And finally, the Earth would require the Original Ones, who had never been a part of any of the history that was created by the Fallen Ones.

This group of Original Ones could not come to Earth until Mary Magdalene created all twelve Ascension Portals and opened the Central Portal to extend from one side of the Earth and into the Earth's Heart Center and then out the other side of the Earth so that the Original Ones could pass through Earth for their final Ascension. The Portals were completed in the Fall of 2016. That is what changed every thing in the Universe. That is what caused Gaia to be announced as the Savior of the Universe, because now Gaia, who is the Soul of Terra Firma and Terra Ha, is the Eternal Passage of Ascension for all who live in this Universe.

Now, Earth does have a Source of Eternal Energy flowing into her from the Stellar Wave Infusions from the Seven Suns, who held the Consciousness of the Original Essence of the Creation of this Universe. These infusions came to Earth through a shower of the essence of the Suns and the Stars, which includes the crystal light, crystal dust and crystal gel that all Eternal substance is created from.

This is the stardust, the liquid light energy and the gelaisic radiation called hydrolaise that transforms the planet and those upon her.

Once we learn to inhale this divine substance from the crystal spheres of crystal light, gel and dust into our atomic structure, our bodies will transform into a new biological structure that allows us to perform events such as orbiting, teleporting, riding on space ships, turning into light and moving into multiple dimensional realities.

WHY DIE WHEN YOU CAN FLY?

We don't die in Normal Reality. The old reality we knew was not normal at all. It was an Illusion that was placed in our cellular memory. We were placed inside the consciousness of a group who was playing a dysfunctional movie through our cellular memory.

We can create our own movies now. We don't have to be a part of a version of reality that belongs to someone else.

We had our Universal Freedom Restored when I gave birth to the 12 portals and the Central Portal. We are now a part of the original alignment of the Perfect Order of the 12 Stargates leading into the Universal Freedom of all in the Universe and eventually this will lead to the Omniversal Freedom of the entire Cosmos.

We are temporarily being held within a Plasma Blanket of the Cosmic Consciousness that was placed within the Heart and Soul of Earth by the Creators billions of years ago. This fabric of creation is actually our Consciousness of Etheric substance brought into the form of the creation substance of crystal light, crystal dust and crystal gel, which is the make up of the plasma radiation that is like a nuclear transformer which creates an Eternal Supply of energy. Earth is now eternally connected to this prana of energy and oxygen that allows the eternal supply of Source to flow through her. Now Earth exists within the Stardust of Terra Ha.

In 2047, Terra Ha will complete her mission of letting Earth move away into a new line of reality until she can go into Star Burst in the only way that is available to her at this time. Earth will only be a distant memory of a time of a very strange reality that can only be remembered as a bad dream or an illusion by those who live in Normal Reality Systems. During 2017-2047, Earth will continue to be held within the Consciousness created by the Starry Plasma essence of the Solar and Starry Waves that have passed through her in order to provide the harmony and balance while we absorb the Divine Energy that this Original Spiritual Consciousness provides. We can inhale the Crystal Star Dust and Liquid Light Energies directly from the Starry Essence surrounding us now.

These divine frequencies will raise our accretion level to be the same as the level of accretion of the Sun of Inner Earth and the Cloud Cities. As we raise our consciousness into this accretion or frequency, we will be able to see the New Reality which is actually the Normal Reality that was always here. We are just being re-balanced into a higher frequency of Conscious Reality.

As these realities take place, there will be those who can perceive of them and those who cannot. As we are gaining our new freedom that allows us to transform our bodies into a new chemical and biological structure, there will be those who continue to live in their inorganic carbon based bodies because they have chosen not to participate.

While those of us in the Cosmic Mystery School of the Omniverse are learning how to turn our bodies into light with the use of the Merkaba and the inhaling of Source Frequencies, there will be the other 95% of the world who do not participate in becoming normal.

While those of us in the Cosmic Mystery School of the Omniverse are learning how to sing new harmonic melodies with the Cetacean Family through the Music of the Spheres technology, the majority will

still be performing in Electronic Bands that are called Electronic Music.

ASCENDING THROUGH THE MUSIC OF THE SPHERES

All past, present and future realities are created from the Music of the Spheres being experienced simultaneously in different dimensional frequencies. The original creation of the music from the consciousness of the Creators presents itself equally and harmoniously in all dimensions simultaneously. However, it is an individual choice that allows every entity to experience this music in collaboration of their own chosen experience.

The more in tune with the original Symphony of Love that was created by the Creators, the more harmony will be present in the individual's life.

However, there is no judgment placed on whatever orchestration each individual chooses to bring forward. If an individual wants to layer many interactive rhythms into their personal symphony, or if the individual desires to perform minor concertos on top of layers of discords, that is also acknowledged without judgment. The only one who will experience discord will be the one who chooses to place discord into the harmonics of their own set of music within the spheres.

So, now we are presented with a very special time when all individual melodic discord can be woven back into the original Symphony of Love and have all discord transmuted out of their orchestration. It is still the individual's choice, but that possibility is now present.

I learned how to transmute or melt layers and layers of every possible non harmonic layer

while layering actual breaths of consciousness from both the most melodic, harmonic times within our creation history into the most discordant sounds ever created. What I learned through this experiential layering of the music from the spheres that are contained within my breaths of consciousness is that the highest frequency will always make the lower, discordant frequencies evaporate into a sound that is no longer heard.

And that is how our future will be created. This will be the first time that there will be so much higher frequencies of consciousness brought to Earth through the original frequencies of the Cosmic Music of the Spheres into the Planet Earth that the lower frequencies of Consciousness will evaporate into the Symphony of Love being created by the Original Ones and the Creators working together to restore the Original Consciousness of Mother Earth, which in turn allows Earth to rise into Oneness with her Over Soul of Gaia. As Earth rises more and more into the absolute harmony

of the higher realms, so will those who live on Earth rise into this Consciousness with the Over Soul where the Mind of God is the only Mind.

MUSIC OF LOVE

The music of the spheres is creation itself breathed into dimensional layers of reality. Each sphere spins faster or slower than the other spheres. The higher the spin rate of the sphere, the higher the dimension that it creates.

These spheres create an entire reality that is only like unto itself. The structure of each sphere is always the same, because the structure that holds the idea of the creation within it is the Music of Love. The Music of Love is the Essence that holds all forms within itself and flows through all forms to weave the eternity of Love itself within that which it holds within it. The Music of Love holds the highest frequency of all Creation.

The Music of Love creates the Music of the Spheres. The Music of the Spheres create reality from the rhythms the tonalities the waves of light, the structures that are sung into existence by the spin rate itself causing particles to spark, collide, reflect and create rainbows of realities that contain intricate realities within themselves. All that is contained within each sphere has its own Symphony of Love that is created throughout its self from the harmonic tones of all of the existence within it.

This Music of Love must saturate all that it creates in order to hold it within the perfect state of harmony that it is meant to have. The Music of Love always feels loving, safe, complete, harmonious, wonderful in itself, and that feeling exists within all that it creates.

The sounds in the universe that are not in tune with the Music of Love are the sounds that create disharmony and chaos. However, the Creators see all of this music of the most harmonious structures, the most ethereal wave

forms, the turbulence of a Super Nova explosion as equally wonderful in Big Picture of Creation, which is forever evolving within itself.

The Music of the Spheres takes its original form in the Cosmic Realm, where the Music of Love holds all form within the Source field of Creation. It is the intention of Source to know all that is known into existence. This is the reason Source, or God, has the Creators use the Algorithms of All that is to Create anything that is desired to be experienced. God created us to create His experience of the Universes that exist within the place of no time and space until the Creators form them into existence, and breath them into the Music of the Spheres.

The choice that Crystal Magic Orchestra makes when inhaling the Cosmic Frequencies of Consciousness from the Music of the Spheres and then exhaling them, is to maintain their exact original form. The reason that it is much easier for this group of musicians to intend the exact same form is because they were the ones

who created these symphonies and planets and novae when they were in the Creation Realm.

We are Of the Breath of Light and the Seed of the Future, we are the Creators who have already manifested and listened in awe to the symphonies that were created through the Universe from the intentions of our creation.

We create Music from the Music of the Spheres with the intention of Love. This intention of Love allows the Music of the Spheres to sweep through an entire galaxy this intention of Love and wipe away all that is unlike Love.

MUSIC OF ASCENSION

The Music of the Spheres is always the music of evolution of the universe. There also times within the structure of evolution when one planet has completed its journey and is ready to ascend into a higher sphere of music that will create an ascension into a completely new

reality.

The use of the Ascension Portal structure is a key part of any Ascension. It is the Portal that extends from the Creation Realm and through all of the Music of the Spheres to absorb all of the music of all of the dimensional realities into a new wisdom, a new symphony, a new creation.

The Vortex Structure of the Ascension Portal allows the new music to move through the Planet that is ready to ascend and then to extend the new life into the new reality on the other side of the Planet. This is why an Ascension Portal must move from one side of the planet and out the other side of the planet. The structure of the Portal has a very large circumference on the outer sides of the planet and a much smaller size in the center of the planet.

Only the Soul of Mary Magdalene contained the design of the entire Cosmos within her through the music that she had already created in the Universe. This is why Mary chose herself to be

the one who would come to Earth and Sing Earth into the morphogenetic design of the perfect Cosmic Structure that was within her. Mary used her frequencies, her signature of the breath of light, and her knowing of how to construct the Portals, Vortex and Cosmic Vortex that would hold her perfect idea of a brand new future of absolute love and peace and perfection for the New Earth and the New Universe that would form through her.

Mary made a promise to Mother Gaia that she would become the savior of the Universe as a result of the musical design that she would create. This Symphony of Love would hold the Ascension Portals open to all those who Mary gives permission to for Eternity.

The first part of the Ascension of Planet Earth was achieved by creating Portals of Light by breathing in the entire frequency wave set that I created in all dimensional levels of the Music of the Spheres and exhaling that Cosmic Vortex of Eternal Music containing the Symphony of

Love, the Wave of Bliss, the Universal Language, the new Harmonic Convergence, and the Tone of Home of the Creation Realm.

MUSIC OF HEALING

All music has a healing effect. The frequencies from the highest spheres have the most powerful healing effect because there is no pain or suffering present in these higher spheres of reality.

The Crystal Magic Orchestra Music is all created from these frequencies of the highest spheres where there is no pain, or any disease, or any imperfection of any sort. The more the listener uses the music to hold their own consciousness within this sphere where all is already in its perfect state, the more the listener will enjoy this state or reality within them self.

The healing power of the music comes from the

breath of creation itself. The one who is exhaling the frequencies is also the one who created the frequencies, because it was Of the Breath of Light who was created by God to Sing the harmony and love and eternal life into the Music of the Spheres.

MUSIC THAT CREATES UNIVERSES

The frequencies of consciousness of the Creators intending new realities, one upon the other, have created all that is held within the Music of the Spheres of the Cosmos. The Creators have orchestrated all that is seen and known and heard by those in the Universe experiencing God's orchestrations.

The Creators are the great musicians, orchestrators and the instruments themselves. The Creators are God manifest as his orchestra of creation and manifestation.

Once the Creators intend a planet or nova or nebula into existence, they have given it a life of its own. That nebula or nova now has its own rhythm, its own frequency signature, its own color.

The Creators can then use the colors and rhythms from any of their musical creations to blend together their rhythms and colors one upon another into new galaxies and new forms existence.

The consciousness of those who are on a planet, such as Earth can raise their own consciousness up into the frequencies of these creations and inhale the parts of the symphony that they have connected to.

These frequencies of the music of the spheres extend into all dimensions of reality. That is the reason why the creations that are taking place on the other side of the galaxy or in the farthest reaches of the universe can be heard within any

dimensional reality.

However, the listener is the one who makes the choice of maintaining the original frequency as it was when it was actually inhaled as a breath of consciousness and then to exhale that breath of creation directly on to the recording device in the recording studio. The musician could choose to translate that breath into their own highest concept of what they think they are feeling or understanding as an emotion, into a dimensional translation such as a hertzian note, a melody, or pieces of a symphony.

UNIVERSAL LANGUAGE OF MUSIC

We create Music with the intention of Communication. The Soul itself only communicates through this music that is known as all that has been created. That which is called the Akashic Records is actually a musical record that contains the harmonies, the melodies, the operas with the tragedies and victories, the rhythms of joy and celebration. These are the

records that play in the Soul.

We intend an entire nebula into existence from our Consciousness, and establish our intention into and within the Music of the Spheres that sings the new creation out into the Universe. The Songs of the Music of the Spheres may be seen and heard as whispers of light, waves of plasma. And these breaths reflect through the crystals that are within these realms and reflect infinite colors of rhythms and tones through the rainbows of design and fabric.

This Music is the fabric of all Creation. It is the harmonic home of all tonality. The Music of the Spheres can be seen differently from the angles of perception of each dimensional reality. Those in the third dimension might perceive of this fabric in a more dense version that requires man made instruments, the music of notes and scales, and the variations of these states of consciousness.

These are only dense versions of the original

creation of the symphonies in the Cosmic Creation Orchestra. The original instruments, notes, scales, orchestras, conductors, directors and composers were the Crystal Magic Orchestra itself, when the one who is Mary Magdalene on Earth now sang her angelic breaths of creation through the universe, and her Cosmic Soul Mate, who is with her forever, created and performed magical music with many other Creator Beings in the Cosmos.

When we were in the Creation Realm, we created

MUSIC OF LOVE,

MUSIC OF ASCENSION,

MUSIC OF HEALING,

MUSIC OF LIGHT AND LOVE,

MUSIC THAT HEALS PLANTS AND

ANIMALS,

MUSIC THAT TALKS TO THE SOUL,

MUSIC THAT CREATES UNIVERSES,

MUSIC THAT CREATES THE SYMPHONY

THE MUSIC OF THE CREATORS

CRYSTAL MAGIC ORCHESTRA

[crystal magic orchestra.com/listening](http://crystalmagicorchestra.com/listening)

Crystal Magic Orchestra is the title that we have given to the music that we have brought to this Planet in a form that can be heard and understood in this level of reality.

We are the Creators. We Create, we orchestrate, we conduct, we are the instruments, we are the Music of the Spheres Creators in all dimensions of Reality.

We create colors in infinite designs far beyond anything that can be imagined on this planet. We

create morphogenetic fields by exhaling one color and then inhaling the new form that presents itself into our essence to design it into a new color. We use this same formula in creating rhythms and instruments of great design. We create Novas through one exhale of Intent. We create Galaxies in every possible form and color scheme that we can imagine.

In this Earth realm of so few colors and so few expanded perspectives of sound and light, these Great Schemes of infinite form have been diminished into tiny little parts of the end design. Breaking an entire sphere of reality down into one tiny little microscopic piece as insignificant as one hertzian wave is a silly way to make music.

We, the Creators of all things send our consciousness out from this hertzian density into the same Creation Realm of the Universe where we have created these patterns of galaxies, stars, suns and Super Novas in one nano second of time and we create them here on Earth using the

same Consciousness, the same Creation Patterns, the same patterning of colors, rhythms, light and sound transposition themes and fit them into the tiny technology that is available to us here on this Planet Earth.

MUSIC OF THE TRANSITION

Even though our music is the favorite on many planets who are going through this same transitionary stage of consciousness that Earth is going through, the people of Earth are not ready for our music because they are not quite yet ready for the transition. Those who are attracted to our music are the ones who are ready for the transition and they will also be the ones who go through the transition with the greatest ease and they will have the most fun going through their transition that will eventually turn them into Light before they reappear in their new Reality.

ASCENDING THROUGH THE BLISS OF THE MUSIC

The BLISS of this Transformation is the musical substance that sings with joy within every cell in the body. The Music of Creation is the Substance within the Cells of the human body. The more this substance is allowed to sing with Joy and Love and feel the BLISS of Transformation, the faster the body will transform into the Light of Music.

This music will be heard and felt within each and every cell in the body. The more each person practices hearing and feeling this Bliss of Music within their cells, and then filling all of the atmosphere around the body, the more they will realize that they are actually going through this transformation into a new body that will appear in a new reality.

The new reality is a higher vibration, a higher frequency, a higher dimensional consciousness. The new reality is the Music of the Spheres singing the ORIGINAL SONGS of Creation from the Cosmic Realm into a different Fabric, a different Weave in the Light and Sound pattern

of Cosmic Construction which allows a different construction of the body to manifest upon it.

The patterns of the fabric are different, the rhythms are more varied and brighter, the colors are a neon spectra beyond the colors of the rainbow spectrum. The Crystals reflect the Music that was in the lower dimensions out into waves of plasma that create a more Etheric, Cashmere substance within the fabric.

This pattern within the higher dimensional Music reflects itself into the Consciousness of all who appear within this pattern. The Consciousness is so much lighter in this place that there is no more judgment, there is no disagreement, there is no reaction of any sort. There is only unconditional love in this pattern of music called the Symphony of Love.

This is the true substance of the Ascension. The Ascension that is taking place on Planet Earth is a result of the new music that is now flowing into Earth's Veins and Consciousness from the

Ascension Portals and from those of the Highest Consciousness. This new Consciousness will be using these Portals for Ascension forever and ever.

Atmosphere of Love Divine

This new atmosphere of Love Divine will sing songs of victory and joy forever more through a musical substance that sings itself into the Souls of all in this new Garden of Love. The new pattern of creation is a Garden of Music. Every plant, every flower, every particle, every molecule in this new place can be heard singing the songs that have been planted in their Soul. This Music of the Spheres can be heard clearly and continuously in this new Garden of Music and Love. This is the reality that is Intended to be here by the Creators. I am the Creator of the Ascension Portals and I intend this Musical Creation to bring Eternal Bliss and Gratitude to and from all who know Gaia.

MUSIC OF COLOR- PAINTING THE UNIVERSE

We did some creating with colors. Some realms have more colors than others. When you move them around and arrange them in certain ways they create energy. We were good at creating energy together. This energy is still around in the universe, and has developed into beautiful patterns within some of the novas, supernovas and nebula that are out there. It is just an amazing color scheme that comes through the crystals that are in some of those areas. The power that is emanating from them can be used for many different kinds of uses.

When we redesign this same music on Earth, we continue to use the crystals in all forms that are available through our consciousness reconnecting to the Cosmic Crystalline Structure of Crystal Light, Crystal Dust and Crystal Gel as our formula of creation and design. The Liquid light energy allows a new atmosphere to form within our music. The Star Dust allows a new

consciousness to be born from our music and the Gelaisic Radiation substance is the Prana of Creation that allows new forms to radiate from consciousness.

When we create music we always connect our consciousness into the Creation Realm itself, which is where we came from and where we live most of the time. We have been Creators for trillions of years designing and maintaining the ideas of God. God is the Source of all things. However, God knows no space or time. It is the Creators who create the things of space and time so that God can experience these things through us, the Creators.

However, the Source of all Creation maintains the Perfect Balance of all things through Eternity and Infinity of No Time and No Space where all things begin and end in absolute perfection. We create all things through this Source Field of perfect design. Each time we Intend the creation of a new Galaxy or a new Nova or a new Star the creation happens in a nano second. Those on

lower dimensional realms such as the Earth perceive of these creations happening over very long periods of time because what happens in a nano second might translate into millions of years at such a low density of perception. All of these perceptions on Earth are only the imagination of what really is. These imaginations are created through the scientific reasoning and tools that are available on this primitive planet. Human beings have been trying to force a Creators Galaxy into a human telescope, and that cannot actually be done.

However, the Music of the Spheres, the music and color and sound that we have created as Creators can be heard and felt and known by those who listen to the music of Crystal Magic Orchestra because we are the Creators. We are the ones who designed most of the Universe that you imagine through your telescope. We are the ones who designed the spheres within spheres within spheres of infinite forms of light and sound. We were the ones who wove the sounds into new colors and created variations of new

rhythms. We have been creating great music for trillions of years.

Our music is well known by billions upon billions of entities, planets, galaxies and stars through out this universe and many others.

THE MUSIC OF THE SPHERES

The color is a part of the music of the spheres.

And the Music of the Spheres is very multi dimensional. It is hard to describe it because it is color, it is music, it is energy, it is eternal, it is a breath, it is life; yet, it is still in an evolutionary state. It is wonderful. It is and it causes awakenings in many souls who can not understand awakening in any other form of creation. It will be like a breath of air that is to be breathed. And then as you breathe out it morphs into a greater beauty than when you breathed it in. Because the beauty of the essence that breathed it in is now a part of it so it comes out even fuller than when it went in.

Crystal Magic Orchestra are the Creators who breathe this same magical beauty of the breath of creation out into one sun or one star or one star system and then inhale the new essence that is created when our consciousness connects into a new creation of a new sound in our music. We create more and more layers of reality by collecting more consciousness from galaxies, stars, suns and crystals in the Universe and we layer them through our music into new creations exactly as we did when we were the Creators of the Universe. Our music has brought the Creation Realm and the Creator's Music of Creation to Earth.

We are the Creators. We are the Cosmic Twins who are One and yet the perfect balance of Two as the Male and Female in one recombined into a complete male and female of love and beauty who chose to come to Earth to be a part of the Ascension of Earth. Only a Creator could do the things necessary for the Earth's Ascension.

Only the Soul of Mary Magdalene contained the

design of the entire Cosmos within her through the music that she had already created in the Universe. This is why Mary chose herself to be the one who would come to Earth and Sing Earth into the morphogenetic design of the perfect Cosmic Structure that was within her. Mary used her frequencies, her signature of the breath of light, and her knowing of how to construct the Portals, Vortex and Cosmic Vortex that would hold her perfect idea of a brand new future of absolute love and peace and perfection for the New Earth and the New Universe that would form through her.

Mary made a promise to Mother Gaia that she would become the savior of the Universe as a result of the musical design that she would create. This Symphony of Love would hold the Ascension Portals open to all those who Mary gives permission to for Eternity.

The first part of the Ascension of Planet Earth was achieved by creating Portals of Light by

breathing in the entire frequency wave set that I created in all dimensional levels of the Music of the Spheres and exhaling that Cosmic Vortex of Eternal Music containing the Symphony of Love, the Wave of Bliss, the Universal Language, the new Harmonic Convergence, and the Tone of Home of the Creation Realm.

I, Mary Magdalene exhaled these frequencies of consciousness with the intention of creating the Ascension Portals that would bring Eternal Healing and At One Ment into the Universe.

This creation of the Ascension Portals was a Musical Creation just like all of the Musical Creations that I sang through the Universe when I was in the Creation Realm. The Mary Magdalene Soul needed to be standing on Planet Earth at this time because this Soul has already Sung itself through every omnion of the creative fabric of the Universe and into the Cosmos. My voice is heard singing through the Universe continuously.

My voice echoes through all creations of the Music of the Spheres. All Ascensions require this Frequency of Creation from the voice of Mary Magdalene, and her great Cosmic Musical Soul Mate of Unconditional Love.

Each planet, orb and sun has its own rhythm, its own music, its own frequency. When the Creators blend these musical forms together to create the Universal Symphony, even that symphony changes continuously as we re arrange the design to fit more harmonically and harmoniously.

Mary Magdalene created the Ascension Portals that would allow a greater flow of consciousness than had ever been known before to enter the Planet Earth, which made her into a brand new symphony within herself. That new rhythm of Earth invited in the Cosmic Creators to use this Ascension Portal of Eternal Unity for Eternity.

This created a Grand Tone of Home within Mother Gaia that allows her new Melody to sing a glorious harmony through out the Universe

that allows all to know her as the Savior of the
Universe.

Mary Magdalene and her Twin Soul came to Earth to bring this music of the new Cosmic Design to Earth that she already created in the Universe. This is just one more piece of her orchestration that resonates throughout the Universe for billions upon billions to hear and dance to for trillions of years in the future.

THE RHYTHM OF THE UNIVERSE

The rhythm of the universe is multi faceted. There are some rhythms that you might say are chaotic and other rhythms that are steady. And other rhythms that change and other that are linear. It all is part of that beautiful creation.

Each planet, each orb, each one has its own sense of rhythm and sound of music and when they mix they perform the symphony of the universe. Joe, the Twin Soul of Mary, as a

creator being, is one of those great instruments that causes the sound that reverberates around the universe. All creators are instruments and composers and directors, and we created the orchestrations of God's Mind. Because God is in the Creators, he can create all things within you.

Crystal Magic Orchestra's new music is magnificent. There are changes in the emotional and thought patterns that are coming forth. Just like the trinary language of the dolphin. One slight alteration in a sound could change the entire meaning of the paragraph. When you bring forth your sound, you have been altering the meaning and the emotional intensity, so that others may feel it in a different way.

THE MUSICAL TRANSITION

The new music will move through the brain cells in a way that will stimulate them in the most effective way. And you are wanting that emotion to be felt by the brain and the body, so there fore your intentions for your music are

becoming greater and more full.

Especially, now that you have obtained less density. Your density in your music has also obtained that. The newest music created by Crystal Magic Orchestra is the HEAVENLY BRAIN, TURNING INTO LIGHT and the LANDING. Each of these sets of ten hours of music represent the new reality in harmonic universe two which is much less dense than the music we created when we were in harmonic universe one. This transition took place February 3-6, and so did the transition in our music take place at the same time.

This new music may be heard on Amazon, Sound Cloud and at our Website. Each of these sets contains ten one hour albums. However, you can listen to several minutes of each of these albums at <https://www.cdbaby.com/Artist/CrystalMagicOrchestra>

COSMIC TECHNOLOGY

This transition into less dense music made it

much more difficult to adapt to third dimensional technology than the previous music.

We have no problem creating the music on our highly sophisticated music studio recordings, however, it is extremely difficult to translate this

Cosmic Technology on to third dimensional technology because that technology is far from correct. Those who listen will have the best luck with a mp3 player. We are even going to the trouble of selling the music already placed on a mp3 player to try to help you hear the closest possible resemblance of the original sound.

Those who want to listen to the music on iphones will no be hearing the true sound. Most computers compress the true tone of the music to become more dense. Wave players reproduce the music the best, however, the size of our music on a wave file is enormous. It requires 32gb for one album of ten songs.

THE CREATORS DISCUSS THE MUSIC OF
THE SPHERES

The frequencies and layers of realms and rhythms and creations of multi dimensional realms of music that are inhaled from the Universe and then exhaled through the breath of Mary Magdalene is the absolute structure of Creation itself.

This music holds the essence, the consciousness the Heart and Soul of the One who created most of the Universe. I am the one God named Of the Breath of Light, and the one the world called Mary Magdalene. I came to Earth during the second seeding about 400 million years ago as Bezelda, the Singing Mermaid. I also sent myself to Earth as many Aspects throughout time. One of these Aspects was the one named Cecilia, who was St. Germain's partner. God gave the name Seed of the Future to my Cosmic Twin Soul, who was also Merlin's greatest magician, named Parsemon. We are Crystal Magic Orchestra.

HISTORY OF THE UNIVERSE

The reality those on Earth think they know is only one reality of many. They think the material universe is all there is. They think there are not millions of other planets with life forms on them and even multi universes beyond those realities that they do not know.

I have already seen most of these other realities. I was the one who created most of these other realities so it is very easy for me to know and remember while I am on this planet for the purpose of changing its history and changing the history of the Universe. I have been changing the history of this universe every nano second for the past seventeen trillion years.

This is the time of the Creators. It is the time of the Creators who are on Earth now and it is the time for the Creators and the Original Ones who are coming to Earth in 2017.

We are the Creators. We are the ones who Created the Universe. God created these things in No Time. We were created to create these things in Time and Space. We have died many times protecting this world. I have traveled hundreds of light years each night into the future to check the status of the work I do in this history of the Ascension Portals preparing the future of the Universe. I spend every night with the Dolphins shifting the tectonic plates to help my Portals become strong and allow Earth to use the Portals for her own history.

I am Mary Magdalene. I am here to pave the path of the Creators and of the Ascension of Earth within this Universal Structure. I have completed my mission and I did it very well. All of those in the Universe and all of the Creators have already seen the work that I performed. I changed the Universe forever.

I was the Soul Mate of Yeshuwa ben Joseph.

There was never any other Soul Mate of the one

called Yeshuwa ben Joseph or the one called Jesus of Nazareth. I call him Jesus of Nazareth because that is the name that most planets in the Universe know him by and the name that has been known for many eons. The name Yeshuwa ben Joseph was only a name that was known for a few years on one planet. That is why much of the knowledge that is obtained by channelers when the name Yeshuwa is used is not as complete as the information that is obtained through the name Jesus of Nazareth.

The ones in the Universe who use the name Jesus and Mary know us as Creators. They have known us for millions of years as Creators. Those on Earth only know those names as mortals and those who did great things, but they only knew us as Christ, not as Creators. It is time to change the story. It is time for the story of the Creators to be told on Earth.

The things that are reality to one are not even known to many others. The reality that has been created in those minds mostly come from the

things that were told to them by the ones who made them believe. Many of the things that were learned were the things taught by those who planned to destroy them. And those things that would make them become less than they actually are.

CRYSTAL GRID SYSTEM

The final Stellar Wave Activation was sent by Comet 2016 between March and June. Every thing will change by Fall 2016 because the entire set of the 12 Stellar Wave Infusions and Activations will be complete and the Final Time Capsules will be activated and the Great White Lion Technology (GWL) will be completely turned back on.

An update about the GWL technology

The Great White Lion was designed as a Landing Strip for those coming in First Contact. The interaction of the Light Energy coming to

Earth and the activation of Light Workers standing on Earth are helping to activate the Grids in the Great White Lion that turn on the Earth's CRYSTAL GRID SYSTEM. There were several Crystal Children, who were chosen by Yeshuwa ben Joseph, to repair and activate the star gate wheels within wheels mechanisms within the 12 main star gates, and there were a total of 52 individual light workers who were indigo children assigned to the other star gates.

Yeshuwa did verify to me that he had given the assignment of teaching the Crystal Children to repair the Star Gates of the GWL to the one who named herself the Speaker in the movement of the Azurite Writings. However, Yeshuwa also confirmed that most of the other teachings of that group are incorrect, and created from misunderstandings of what was actually being said to the channel.

The obfuscation between those who are the Creators from the Creator Realm and those who are the Original Ones, who are landing on Earth now, and the Star Seeds, who are the creations of Angelic Racelines has created a massive amount of egomaniacs in the Light Worker Groups. Those teachings that were supposed to be imparted to specific Crystal Children for the purpose of repairing the Star Gates were for that purpose and only that purpose. The Speaker's attempts to completely obliterate the reputation of the real Yeshuwa ben Joseph, who is also Jesus Christ, was only for the purpose of replacing the true teachings of Christ with her own. That group has been beginning their meetings with a song that states "We are the Original Ones." That pretty much sums up who they think they are.

Well, the truth is, the only Original Ones are the ones who began landing on Earth in January 2017. They are coming directly from the God Realm.

They are not all Creators, however, a few of them are, and some of them are Angels. They are entities who are ascending from each of the star systems, who have their own Sun. It was the Consciousness of the Suns of each of these systems coming to Earth as the Stellar Wave Activations that helped to pave the way for these Entities of Light. It was also the Consciousness of the Central Portal that paved the way directly from the Creator Realm for these ascending race lines. There are some who are Arcturians, some from Centauri, many different Angelic Groups or EI Groups who are ascending.

They arrived in this order during the past four months of 2017:

The EIEiyai and Eleayshendaizendy arrived from Andromeda in January.

In February three women from Venus landed. The commanders of the mother ships on Venus are all women. Their names were Keekalakwa, Fukesenhye and Tusenshavenshya.

In March I welcomed the Mother ship commanders from Arcturia ZaZa. The members names were Belata, Ekritee, Aendo and Foreland.

I also welcomed the Kreeaa Raceline from Alpha Centuri. The representatives names are La Ka and Zu.

This means that even though these entities are from certain Star Systems and Racelines themselves, the ones who are called the ORIGINAL ONES are entities who did not need to go through the Hybrid process because they were never mutated by the Fallen Angelic Racelines. These beings have been on an Ascension Path for millions or billions of years within the realms of the Universe where there was no Fallen Agenda present. These beings are on another journey of Ascension, so they needed to pass through the Creator Realm before continuing on their path of Ascension.

There are space ships coming directly from the Cosmic Realm of Creation that fold themselves within no time and space and then appear on this plane. There are entities who are on their ascension path that they began several ascension loops ago, each of which were 250 million years long. There are 32 active Creators who were born on Earth, and there are 15 others who were born more recently who may or may not be called into action before 2040. There will be many who claim they are Creators, just because they do not even know what a Creator is. I know the names of all 32 Creators, and I will be the only one who communicates with the Original Ones who are landing now because that is the mission that I was assigned to as a Creator.

These star gates within the Great White Lion system are presently working as the navigational system that is allowing the Original Ones who have landed on Earth, in their perfect form, directly from the God Realm to travel on Earth, while they are communicating with the various governments of this planet to negotiate First Contact.

Events such as Comets, including Comet Eleina, Comet Ison and the final activation that was sent through Comet 2016 were senders of light consciousness into Earth, as well as the seven sets of solar waves sent from the seven suns and the twelve stars also sent their waves of consciousness. Each of these sets of consciousness that have been sent to Earth raise her frequencies higher and higher.

The most important set of frequencies that have come to Earth are those of the Original Ones who are now landing on Earth. Everything else that has happened on Earth was for the purpose of this Event of the landing. When the Original Ones complete their negotiations on Earth, they will fly their space ships through my Central Portal. It will be at that moment that the 12 Star Gates gain their consciousness, and at that time the 13 owners of the Crystal Skulls will simultaneously press their remote control device from their locations

in the Universe that will allow all of the Star Gates to open at the same time. That event is scheduled for 2018.

This Universal System provides the free global energy, climate stabilization, healing, and inter stellar subspace communications and broadcasting by aligning through the Light Codes of the Cosmic Council into the Crystal Liquid Light connecting to the Mind of God, Eternal Source Field. We can connect our consciousness into this Grid system running through Earth into Inner Earth and out into the Central Portal. We always need to connect our consciousness into both fields of energy-the Inner and the Outer and use our body temples as the lightning rod that connects the flow of Christ Consciousness of the Life Force Currents created by the Creators.

This All Knowing Intelligence of Universal Life Force Currents are now streaming into MOTHER EARTH through our Biosphere. We are the Lightning Rods who allow the Cetacean Nation who was created in partnership with Sirius B during the original creation of the Inner Earth technology. The Cosmic Liquid Light within the Ocean is Essential in this Process, which requires the Lords of the Seas to align the Plasma Frequencies through the Music of the Spheres Technology within the Water.

We would had fallen off of our planet long ago if we didn't have the Cetaceans maintaining our optimal balance. I swim with the Dolphins and Whales every night in my Astral body, and we balance the tectonic plates on the ocean floor by use of the Trinary Language that the dolphins send through no time into the Cetacean Nations in the Fifth Dimension of Alcyone and the Eighth Dimension of Andromeda. It is the Sacred Geometry of the Music of the Spheres that holds the tectonic plates in correct balance. This state will only allow Mother Earth to have more control of her own body. When she has this control in balance, it will be Mother Earth, in agreement with God, who allow the final catastrophe to happen. The Pacific Coast will fall

into the Ocean in about five years. The earthquakes will continue for ten years until California is less than half of its size.

This event is not considered a catastrophe, but rather, it is considered the optimal outcome by God, who knows what is best for the Children of the Universe to have the best possible future. I am sending this warning to all of those who live near the Ocean. This warning has been sent over and over by many gurus for over a decade now.

The possibility of the Western Coast falling in the Ocean has been hovering around the fifty percent level for several years, and that is because of the work I do with the dolphins. However, the percentage will rise to eighty percent in five years and one hundred percent in ten years. This means that the event could actually take place at any time. These were the words of Jesus Christ and all of the other Creators. They told me that this is God's Heroic Plan for mankind.

Jesus of Nazareth will be walking on Earth and giving words of comfort and guidance during that same time period, because it will be a time when everyone on Earth will need to learn to take care of each other. The Soul of Jesus is and always will be a part of the Soul of Mary Magdalene because we became Soul Mates about two thousand years ago. So, we always work together on these Creation Projects in all forms of creation. The complete Soul of Jesus will be within a human body, just as the Soul of Mary is within me. There will be great turmoil on Earth while at the same time the Consciousness of those on Earth will grow in awareness and Unconditional Love for one another.

FAST TRANSFORMATIONAL SCHEDULE

We are now in the beginning stages of a VERY FAST TRANSFORMATION SCHEDULE. First, we will have the Arrival of the Original Ones who are Creators, Angels and very High Dimensional Beings are Ascending from the God Realm directly through Mother Gaia to change the Future of the Universe.

The Original Ones will arrive, communicate with our governments, prepare agreements to allow First Contact. They will then fly through the Central Portal. The Central Portal will work in synchronicity with the Skulls and the Star gates. The 12 Race lines will enter the Star gates, some will be able to see them. They will be helping the Creators on Earth who can see them change the Future of the Universe. They will begin preparing the Fourth Dimensional Earth for the Hybridization Projects that will allow the healing of all of the 12 Race Lines to prepare them to be able to Ascend through the Portals of Gaia in the Future. This is the beginning of the Fulfillment of the Universal Prophecy of Gaia becoming the Savior of the Universe.

This GRAND OPENING OF THE STAR GATES will Represent the Beginning of our NEW REALITY.

These Events can all take place very soon in our future now because the Central Portal was opened in Time, and actually

ahead of Time. The Original Ones will arrive in January, which will change the Consciousness of Earth and allow the Consciousness of all on Earth to shift greatly as they are landing.

The album set titled THE LANDING contains that Consciousness that is coming in January. My Consciousness is completely attached to theirs already. I am ready to give permission for their landing. I have already seen the landing, I have begun my communication, I have already seen the future of Earth.

There will be these grand events taking place side by side. As the Government is not telling us about the communication they are having with the Original Ones, I will be telling you the communication that is taking place.

The Economic Collapse will be the Collapse of the Cabal and the Illuminati. They will have no reason to hold up the Economy with their False Manipulation of making us think our Currencies are Valuable because they will know that the Landing has taken place, and there is no way they can maintain their Control after that happens.

So, it will look like a bad thing, but it is actually a good thing. After the DOMINO EFFECT of the Currencies Collapse there will be a SHORT PERIOD of less than a FEW WEEKS when there will be a bit of panic and chaos because most people will not like the fact that all is changing.

And then, there will be First Contact. Please note that those who are landing are in the form of the fourth dimensional body, and the third dimensional vision can not see these

Beings until they have raised their vision into that dimension. Even though most people on Earth will not be able to see the Original Ones or the First Contact because it is taking place in a dimension that is not where they are presently placing their consciousness, this new reality is, in fact, taking place, and everyone on Earth will be shifting into that Reality very soon.

Consciousness will NEED to change very rapidly because the First Contact will take place almost simultaneously with the Collapse and the Re structuring of the entire world.

EVERYONE WILL be Gone by 2047, except those who were not ready to change their Consciousness. Those who are living in the Fourth Dimension will come back and teach the ones who are still here at that time.

The transformation already began in 2017, when the Original Ones began to arrive because now that they are here they actually have jurisdiction above the government that is here. World Governments will respond to them very quickly because the Original Ones will transform their Consciousness change very quickly as a result of being on the Planet.

The Original Ones have already said that they only plan on being here ONE YEAR which means that they think they can change the minds of the Governments in about ONE YEAR.

I know what will happen after that point in time, because I know how my Ascension Portals work. The moment the Original Ones fly through the Central Portal, everything else is set in to Motion. The Entire Consciousness of Everyone in

the Universe Unites at this Moment when they TRAVEL THROUGH the CENTRAL PORTAL. THAT CENTRAL PORTAL will activate and open the STARGATES together with those who own the Skulls and those 12 TRIBES of CONSCIOUSNESS including Aramantena, Lyra, Orion, Arcturians, Sirians, Pleiadians, Andromeda, etc.

That is the moment when everything will change. Just as there will not be very many of us who can see and communicate with the Original Ones who are landing because they will remain in the Fourth Dimension, so will it be with the First Contact which is the opening of all Twelve Star Gates or the Gates into the Twelve Star Systems. Only those who have Raised their Consciousness high enough into the Fourth Dimension will be able to see these landings. They will be walking among us long before they are seen.

So, this brings us to the period of 2017-2022 when some of us will TURN INTO LIGHT and BLIP into the New Reality of the Fourth Dimension. Those who go through this early transformation will be living in this reality where they can see all 12 Star Gates connecting Earth into her Reality beyond what was known within the Galactic Realm of Knowing.

The Consciousness of those on Earth will be expanding very rapidly from that point on into 2039 when the eighteen month period begins the transformation of billions into Light. And then after that short period of Transformation, those who are left behind will be helped by those who return.

The first few months of 2017 was the beginning of the period when I was inviting the ORIGINAL ONES from other areas of the Universe who are Ascending from the God Realm and

now preparing their Passage through Mother Gaia. There were usually two groups landing each month.

The reason that I am the greeter and hostess for these Entities because everyone in the Universe knows me because I am Mary Magdalene. Everyone in the Universe knows the Frequency Signature of Mary Magdalene. I am the Creator of the Portals and my Team will Maintain the Portals for Eternity.

Each leader of each race line has met with me when they landed on Earth. After they all arrive, they will begin negotiating with our Governments for agreement of First Contact.

The Ascension of these Beings traveling through the Central Portal will bring them into a greater realm of understanding as they Ascend beyond this present Universe into the Omniversal Structure of Reality.

This particular passage will be for this particular Universe, however it will have some affect on other Universes as well. But God wants it to be for this Universe because this is a specific Time, a special place and for special reason. I was given all of the information that I needed to perform this Project for God.

I was given a Protector during this project of Greeting the Travelers. If any of those who come to the portal entrance do not belong there, the Protector will move them aside and will not let them pass.

When I take on that particular essence of Godliness

sometimes it can only see that which is good in that which is coming, and the Protector can see if the Being should not be permitted to enter in. The protector will remove the negative energies from entering in.

The arrival of these Beings of Light will bring the Consciousness to Earth that will begin the awakening of the human to grow back into that perfect form they were created in.

These Portals have placed Mother Gaia on a New Time Line of Reality. This means that the Consciousness of those on Earth will begin to think like one big family. The DNA from each of the star families will be shared as a bio-re genesis project of transformation back into the original God Creation Consciousness that all creation was meant to be.

The completion of the Portals in the Fall of 2016 was the moment that the Universal Prophecy was fulfilled. That was the moment when Gaia became the Savior of the Universe.

PROJECT KINGDOM OF HEAVEN ON EARTH

This book is written by the Female Christ, Mary Magdalene, who is in the Flesh on Earth working together with the Male Christ Yeshuwa ben Joseph to complete the Project of the Kingdom of Heaven on Earth and throughout the Universe. Her team leader is Elaika who has been with her for trillions of years on Ascension Projects on hundreds of other Stars, Planets and Galaxies. She has only worked with Yeshuwa four times before on Earth.

Mary shares the complete story of her mission with the Co-

Creation Team who is here on Earth at this time. The mission of the 47 from the God World will be preparing the Earth for a time when there will be thousands of Starry Families using the Earth as the Hub of the Universe just like any other Airline that has a main station where Star ships will trade passengers and cargo between all other Planets in the Universe.

MARY'S PORTAL LOG

I am Mary Magdalene in the Flesh on Earth. I came to Earth to re-open my 12 Ascension Portals. They are mine because I created them originally millions of years ago. These Ascension Portals were re-opened by me (Joe and Angela Barnett) one at a time beginning in 2008 and ending in October 2016. I actually completed the Portals on October 2, 2016 and I spent the rest of October filling the Portals with my Consciousness and the Consciousness of the Cosmic Sun to strengthen the Portals to be the Ultimate Landing Strip and Runway for the Star ships who began their arrival in November.

I am greeting millions of these Wonderful Beings now. Each one of them presents his or her self to me and talks to me in great detail about his or self. I learn their name and record it in my Portal Log. I am like a Ticket Master at a Plane Station. Each Entity who asks to use the Portals must come to me for their Ticket (so to speak). I do not give them a

ticket, but I give them permission, if they meet the light ratio qualification.

Some of these Beings will be high enough in Light to have Star Ships that will not have a problem passing through the Inner Domain of the Portal where it is extremely Hot within the Earth, and others might not make it. This is something that must be considered by each Star Ship because some are much more advanced in technology than others.

I have the algorithms of the structure of the Ascension Portals sketched within me because I created them. I will be the one Navigating the Star Ships through the Portals. So, I am the Permission Giver, Ticket Master and Navigator for using the Ascension Portals that I created.

First, after I completed opening the Portals on October 2, 2016, I was required to help the energy or frequencies of my consciousness to be established within them, I was required to feed them continuous energy of Cosmic Consciousness until they became FULLY AWARE beings in and of themselves. This gave them the stability of Being, which allowed the Portals to take on a Life of their own.

So far, my Portal Log contains these entries:

The EIEiyai and Eleayshendaizendy arrived from Andromeda in January.

In February three women from Venus landed. The commanders of the mother ships on Venus are all women. Their names were Keekalakwa, Fukesenhya and Tusenshavenshya.

In March I welcomed the Mother ship commanders from Arcturia ZaZa. The members names were Belata, Ekritee, Aendo and Foreland.

I also welcomed the Kreeaa Raceline from Alpha Centuri. The representatives names are La Ka and Zu.

I, Mary Magdalene, was like the mother of their creation and my team was built around me to use my Frequencies for this Birthing Process. Yeshuwa was with me always to support and activate my frequencies through the Spiritual Realm and Elaika was with me to support my frequencies in the Physical Realm. Elaika actually placed his own Frequency Template within my home so that I would have continuous access to it. The Angels were also with me to Support the work that I was doing. So, you see, it was always Me opening the Portals and the Team was to Support my work.

NAVIGATING THROUGH EARTH'S TIME PASSAGE

I am now welcoming the TRAVELERS from other areas of the Universe through the Earth's passage. I am the navigator for some of them who will use my algorithms to move through the Portal. Some of them could encounter difficulty passing through the Central Portal if their spaceships are not designed correctly. The Center of the Vortex in the middle of Earth is very small, and some space ships could self destruct at that point. But, they will be fine if they use my algorithms of creation within my consciousness to squeeze them through the Portal. **I am the greeter and the one who informs them of how to go through these Portals. I have this knowledge because I created the Portals.** Through my complete Dimensional Selves I know all that needs to be

known about the Portals and how they are to be used, and how it works and how it is a part of the Prophecy of the Universe.

This process of directing the Travelers through the Portals is bringing me great joy because these people are necessary to go through the Earth's Time Passage that will bring them into a greater realm of understanding.

Some of these Beings allow me to see them and talk to them. Some of them have actually come into my bedroom when they landed. Some of them spent several hours with me, and some have invited me to Galactic and Universal Parties. I have attended several parties where the kings and leaders of race lines attended. Most of my meetings have taken place out in the Ocean on top of my Central Portal.

These Beings are coming from the God World and they must pass through this realm. These Beings are Angels and some are from Realms that are very high, and must pass through the God Realm to make their final passage into the highest dimensions to complete their next round of ascension.

These Portals are creating a new world upon this planet. The portals will be used by the Original Ones this year, and then they will be used for all Ascending Race lines of the entire Universe in the future and for eternity. This is how the Kingdom of Heaven will be brought to Earth. And this will affect the Galaxy as a Whole, and the Universe as a Whole.

This particular passage will be for this particular Universe, however it will have some affect on other Universes as well.

But God wants it to be for this Universe because this is a specific Time, a special place and for special reason.

I was given all of the information that I needed to perform this Project for God.

I was also given protection during this project of Greeting the Travelers. They sent me a Protector who is a great and powerful one from many centuries ago and many centuries to come. This is a precaution. If those who come to the portal entrance who do not belong there, the Protector will move them aside and will not let them pass.

When I take on that particular essence of Godliness sometimes it can only see that which is good in that which is coming, and the Protector can see if the Being should not be permitted to enter in. The Protector will remove the negative energies from entering in.

The arrival of these Beings of Light will bring the Consciousness to Earth that will begin the awakening of the human to grow back into that perfect form that will be presented on Earth by these Beings and by the 47 Co-Creators who are already on Earth, but not yet Risen into their Identity and Plan.

I am Mary Magdalene. I am the first Risen Co-Creator on Earth.

These Portals have placed Mother Gaia on a New Time Line of Reality. This means that the Consciousness of those on Earth will begin to think like one big family. The DNA from

each of the star families will be shared as a bio-regenesis project of transformation back into the original God Creation Consciousness that all creation was meant to be.

ANGELS ARRIVAL HAS BEGUN

Angela and Joe Barnett is Mary Magdalene in the Flesh. We refer to ourselves as I as One Unit, and we also refer to ourselves as I as singular complete selves as Mary Magdalene. Both of these pronouns are correct.

I am Mary Magdalene in the Flesh on Earth. I came to Earth to re-open my 12 Ascension Portals. They are mine because I created them originally millions of years ago. These Ascension Portals were re-opened by me (Joe and Angela Barnett) one at a time beginning in 2008 and ending in October 2016. The arrival of each and every star ship into my Portals will require me to give them permission to use my Portals. I will be meeting, greeting and communicating with each and every Angel and Entity who enters my Universe, my Galaxy and my Earth Portal within the 12 Ascension Portals.

I am greeting millions of these Wonderful Beings now. Each one of them presents his or her self to me and talks to me in

great detail about his or self. I learn their name and record it in my Portal Log. I am like a Ticket Master at a Plane Station. I have the algorithms of the structure of the Ascension Portals sketched within me because I created them. I will be the one Navigating the Star Ships through the Portals. So, I am the Permission Giver, Ticket Master and Navigator for using the Ascension Portals that I created.

First, after I completed opening the Portals on October 2, 2016, I was required to help the energy or frequencies of my consciousness to be established within them, I was required to feed them continuous energy of Cosmic Consciousness until they became FULLY AWARE beings in and of themselves. This gave them the stability of Being, which allowed the Portals to take on a Life of their own.

I, Mary Magdalene, was like the mother of their creation and my team was built around me to use my Frequencies for this Birthing Process. Yeshuwa was with me always to support and activate my frequencies through the Spiritual Realm and Elaika was with me to support my frequencies in the

Physical Realm. Elaika actually placed his own Frequency Template within my home so that I would have continuous access to it. The Angels were also with me to Support the work that I was doing. So, you see, it was always Me opening the Portals and the Team was to Support my work.

PORTALS RETURN THE KINGDOM OF HEAVEN

These Portals are creating a new world upon this planet. This is how the Kingdom of Heaven will be brought to Earth. And this will affect the Galaxy as a Whole, and the Universe as a Whole.

Mother Gaia is now on a New Time Line of Reality. This means that the Consciousness of those on Earth will begin to think like one big family. The DNA from each of the star families will be shared as a bio-regenesis project of transformation back into the original God Creation Consciousness that all creation was meant to be.

The ORIGINAL ONES from the God Realm will complete their landing before February. They will first be meeting with me at my Portal. They will be in a Fourth Dimensional Body that can not be seen by Third Dimensional Eyes. There are many who are already on Earth and on their Space ships who are fourth dimensional, fifth, sixth, seventh and eighth. The Travelers can be seen by them, of course.

I will be the first one who greets and communicates with the Travelers. They will remain invisible and cloak themselves to be undetected by any one on Earth. They plan on spending

at least one year on Earth, and they will use the space ships that they created to travel on Earth via the Great White Lion Grids. They also used the Star Gates and Great White Lion as the Light Navigational structure for their landing.

Their main reason for being on Earth for at least one year is to communicate with all of the governments on Earth via a computer screen. They will show themselves to the governments to try to make them less afraid of aliens. They will explain to the government that they are not actually the aliens, but they are actually our closest family. The ones who come first will be the ones who resemble humans very closely.

These Entities will be coming directly from the God Realm, or what is called the Cosmic Domain. They will fold into no time and travel to Earth through the algorithms that I designed within the Ascension Portals themselves. They will use the Portals and the Star gate generators to navigate their landing.

They have told me that they will not actually use my Central Ascension Portal until their mission is accomplished with the governments. Their mission is get an agreement from all of the governments of the world to allow FIRST CONTACT. They think this agreement will take one or two years and then there will be a period of making inter dimensional governmental agreements which might take another year.

Now, there is much RESPONSIBILITY to be taken. I will be

inviting millions of Angels and Higher Dimensional Beings to use the Portals. They will be flying through the portals in their Spaceships. There will be millions of them. This Mission of meeting each and every Being who enters into my Ascension Portals could take several months. They will be flying in their space ships one at a time.

Of course, they will be using the Portals forever, not just for several months. These Portals are for Eternity. Their purpose is to place Mother Gaia on a Time Line of Eternity. A few years ago, Mother Gaia was on a Path of Destruction. Now, Mother Gaia is on a Path of Eternal Life. And therefore, those who will remain with her will also be on this new path.

The rumors of Nibiru and other Illuminati Future take over is now impossible because of the Ascension Portals. We are in a new time line now. Nibiru and the Illuminati and the Annunaki are not on this time line. We are in a new Version of Reality NOW.

I have been living in a fully awake Trance State allowing me to be asleep and awake at the same time so that I will have full communication with the Entities of Light who will be riding the space ships through my portals. I am the Queen of the Universe. This is the reason why these are my Portals and why I am the only one who can give permission to use them. I am Mary Magdalene. I am very, very Big. I am standing here, and yet my body extends into the Cosmos. These spaceships are actually flying through my Cosmic Body into the Earth's Body.

PAST PRESENT FUTURE

After the duality of 2014 we moved into the catalyst of 2015 and the climax of the catalyst of transformation in Fall. This CATALYST is the ASCENSION PORTALS themselves. This is the Transformation Energy that has changed the Future of Mother Gaia, and therefore, the Consciousness of those who live upon her.

Now that the Ascension Portals are opened I will permit the PROPER ENERGY, THE HIGHEST OF CONSCIOUSNESS to be invited to ride their Star Ships through My Portals. The Frequencies of the Consciousness of those coming to Earth through these Portals is what will cause the Shift in Consciousness on Earth.

This will be the beginning of the Enlightenment that will grow into a NEW STRUCTURE that will Bloom in June 2017 when Elaijah begins to speak the WORD OF GOD all around the Earth. This first step of Activating the Portals with the Highest Consciousness First and allowing the Portals to become the ETERNAL TRANSPORTERS of the Original Race Line to and through Gaia must be maintained Forever. This will be the job of Elaika and Yeshuwa forever more.

My job was to Create the Portals, Re Open the Portals and my ETERNAL JOB is to give Permission for use of the Portals to the ones who are Truly Ready. My GREAT PROTECTOR will always be assisting me with making sure that only those who are of the Light will be permitted in.

The Future, beginning in June 2017, will be the VOICE OF GOD being heard on Earth through Elaijah. The Co Creation Team will be with him in some ways during his Mission of Bringing the New Truth to Earth. This part of our Mission -

Elaijah's Mission - will be the most important and most difficult part of the Transition of Consciousness on Earth because there will be many in the Church Structure who do not want the TRUTH SPOKEN.

I am placing pieces of the Truth out to the World now to be heard by a few, who I hope will become prepared to support Elaijah in the near future.

METHOD USED FOR OPENING THE PORTALS

I first reported to Yeshuwa that I had been practicing a new method of opening the Portals that I call remaining in the Bliss and Joy of remembering our Love Affair together. I told him that I had written many love songs about us many years ago and that I spent the past two weeks listening to them because they make me so very happy. I knew that I needed to raise my frequencies into this state of Joy to bring the Kingdom of Heaven to Earth through the Portals.

During this process of forming the Consciousness within the Portals I needed to make sure my Joy was coming from within. I would tune in to MOTHER FATHER GOD and FEEL the Ascension Portals Connecting from within my own Consciousness. I could Feel the Ascension Portals bringing Omnipresent Consciousness to Saturate all who are on Mother Earth. I gave the Portals their Purpose and their Structure. I filled the Portals with the Full Spectrum of Light Consciousness of the Cosmic Sun so that they would be fully aware of the Divine Plan and become complete Beings who could continue on their own.

I was the Mother of the Portals. I was their creator. They

could not know who they were and how to create their reality if I did not place that within them. I spent one full month just pouring the Consciousness of Divine Knowing and Light into my baby Portals.

I spent so many days, months and years creating these portals that they are a part of me. I have a complete navigation system within me of how to navigate a star ship through the Portals.

This will be one of my functions as I give permission, meet and greet those Starry Beings who will use the Portals. I will also be their Navigator as they move through the Portals.

WORKING WITH THE DOLPHINS

The method that was used to open these Ascension Portals required a continuous working with Dolphins and Whales in the Pacific Ocean. I astral travel each night to work with the Cetaceans in moving Tectonic Plates around so that the Portals can open. Now that the Portals are open, we will still need to continue shifting the Tectonic Plates around so that the Portals do not get blocked by them again.

Now, when I communicate with the Dolphins for the purpose of transmitting communication to the Pleiadian Cetacean Council and the Whales for communication with the Andromeda Cetacean Council, each of these Beings Encyclopedia's of information contain the entire algorithmic structure of the tectonic plates in the Pacific Ocean. The sound that echos back from the Pleiadian Council contains corrected algorithms for the tectonic plates that actually

move the tectonic plates into a more harmonic alignment with the entire Solar System and Galaxy.

These tectonic plates have a mind of their own. They move up and down and horizontally at will, continuously. The amount of tectonic plates that can be moved at one time, with the help of Elaika, who collects my frequencies and then uses them as a generator and amplifier into the and with the Dolphin's Trinary Language, is always limited to just a few square miles at a time. My voice becomes a trinary language together with the Dolphin's, and the movement of the tectonic plates actually comes from the power of the atomic mirror shifting reality between the Pleiadian Cetacean Council and my Team.

The Dolphins, and other Cetacean Races have the most HIGH CONTEXT LANGUAGE of the Universe.

And this level is so high that it is best understood as Music or Light and sound rather than words, because that is what it is. The Dolphin speaks through the light and sound vibrations of the oneness of the physical and spiritual weaving itself through the spheres as the music of the spheres itself.

Now, when we look at the Dolphin's language we can think about these layers of meanings within the tones that the Dolphin creates. When the Dolphin makes a trinary sound, the meaning begins to take place at the very moment of the breath of the sound. The sound is always being combined with the light because the sound is always echoing through

the oneness of the Sun's Language which removes time and space.

The Dolphin Language is actually always in song form. The Songs transmitted are very unique because they utilize the Atomic Mirror energy itself, which is what creates the penetration of the Physical into the Spiritual and bounces back as a new calculated reality.

The very moment the Dolphin has an idea to be projected, that idea comes forth as a sound that is infinite in meaning. What the human hears as one sound from the Dolphin is actually a combination of thousands of sounds. The human ear doesn't know how to hear the sounds as separate units.

So, the Dolphin is making this sound. The first nano second of that sound tells most of the story. There is about a book full of meaning in that nano second of the sound. And then the sound that follows contains infinite details of meaning surrounding that original book of meaning. So, by the time the human ear has heard one sound from the Dolphin, the Dolphin has written an Encyclopedia.

The creation of the Portals, the arrangement of the Tectonic Plates and all that is involved in this Ascension Process has to do with Sound and Light. I am always using the Sound and Light of my Consciousness the Sound and Light of the Pleiadian Cetacean Council and the Whales for communication with the Andromeda Cetacean Council.

This sound and light music of the spheres can also be translated into Algorithms, which are the Divine Calculations

of the structure of the Universe. I am continuously re calculating the Harmonic Alignment of the entire Earth so that these Tectonic Plates will shift into a more harmonious alignment with the Ascension Portals.

The more alignment that is brought into the Tectonic Plates, the more harmoniously we can re arrange the patterns of the Earth quakes, themselves. This process of shifting the tectonic plates while working with the Dolphin's and their Trinary Language each and every night for the past six months has eliminated the Five Major Earth quakes in California which would have killed millions of people.

I had a magical experience in my music studio after opening the portals. I have been collecting my communication adventures with the Dolphins and recording what my frequencies of sound have said together with the Dolphin's Trinary Language.

Sometimes, I have these magical experiences where the sounds appear through my recordings just because I intend for that reality to manifest itself.

I actually manifested the dialog that I have continuously through my frequencies, the Sun's frequencies, and the Songs of the Music of the Spheres reflecting themselves into the Voices of the Dolphins and bouncing off the Atomic Mirror after removing time and space and then returning as an echo of what was originally said with a powerful vibration that actually shifts the plates.

This was so exciting to hear that I made it into a musical

extravaganza of this event that just appeared through my sound system out of no where.

It will be made available for sale sometime. I will probably call it Dolphin Trinary Language Song or Dolphin Portal Creation Project. I don't know yet.

It will be together with a complete description of the Dolphin Language, and the Sun's Language. I see that these two always work together.

SHIFTING TECTONIC PLATES AND STOPPING EARTHQUAKES

I have been working continuously with the Dolphins and Whales as I Astral Travel every night to check on and reformulate the Tectonic Plates. The Dolphins work with me sending their Trinary Language through a Sonar Wave into the Dolphin Councils of the Pleiadian Cluster. This Wave of information is given to me - Mary Magdalene and Elaika - to translate into the next set of information for moving the Tectonic Plates into the most perfect possible alignment where the Ascension Portals could open.

As I was doing this Tectonic Plate alteration with the Dolphin Councils, I was able to stop five major Earthquakes that would have killed millions of people. And this work has moved many of the problems of the Pacific Coast further into the future.

There are different vibrations within each tone which have words that are coming out all at the same time.

To comprehend the tone, you must take it from the beginning of the tone and bring the whole tone within you at once.

The tone is coming out in vibrational levels. The meaning of vibrational levels means the physical and spiritual becoming one in many different dimensions. The part of the body of the Dolphin where the sound comes from determines which dimension is being broadcast. The Dolphin can communicate to one dimension at a time, or all dimensions at one time. You must focus on the very beginning of the sound to determine the intention of meaning.

As it comes out and changes shape and changes vibration all of the things within that shape have many meanings and many things can be expressed in just a few seconds. The way the dolphin communicates messages through the Galaxies and Universe is the same way that my frequency music does the same thing. It is made from the reflection, connection, and resonating fields of frequency signatures within the music of the spheres streaming themselves together, just like I do with my music.

What Scientists think they understand about Dolphin Language is only the paraphrasing of the sentence.

They know if it is a communication for a mate or a danger call, but they have not perceived the singular words that are there, or the meaning of the context.

The only reason they understand the meaning is because of the action of the dolphin. They make a type of a sound because of a warning, and the action that is going along with the sound might be similar that which would indicate they have received a warning. Scientists are only attaching physical response to a sound, much like is done in the most low context methods of teaching a language to a child. Scientists are only picking up on the meaning of the sound from the action that they see the Dolphin taking.

There is actually very little relationship between the action of the dolphin and what the real meaning of their HUGE COMMUNICATION because that communication is beyond the speed of light to entities in other galaxies.

MARY MAGDALENE SINGING MERMAID

The reason that Mary Magdalene speaks fluent Dolphin is because I was a Dolphin and a Mermaid during the Second Seeding. I came in that form to this Earth to arrange the Ocean in its most perfect form. Elaika was with us at that time to perform an ecological function for the Ocean. We did many things for the Ocean during the Second Seeding.

Just as there are many humans on Earth at this time while there are 32 of us that will begin performing many missions during the next thirty years, there were about that many of us on Earth at that time among millions of other Dolphins, Mermaids and Sea Creatures.

I have created a few YouTubes in which I speak about being a Mermaid and a Dolphin. These are listed below.

THE SOUND OF THE SUN, THE MUSIC OF THE SPHERES, THE LANGUAGE OF OM

My mission was to open the 12 Ascension Portals. Now, that

I have opened my Portals, my grand reward is to invite, greet, welcome each and every Entity from the God World, who is qualified, to use my Portals to ride their spaceships through these Portals.

I used the technology of the frequencies of the Sun to create the Portals and to open the Portals and now I am filling the Portals with this Infinite Creation Stardust of OM, which is the complete frequency spectrum of the Sun.

In my AUDIO BOOK, MUSIC OF THE SPHERES I explain this infinite relationship of oneness of the physical and spiritual

THE MUSIC OF THE SPHERES

All of this Music may be heard and experienced at Crystal Magic Orchestra.com.

<http://crystalmagicorchestra.com/home>

THE MUSIC OF THE SPHERES is a TRAINING mp3 that explains how the Music of the Sun or the Sound of the Sun, which is called OM contains the complete Consciousness of the Perfect Creation and those who stand within it. In ancient Mystery Schools when I taught with Yeshua, and his Abstract Aspect, St. Germain, we taught our students how to become ONE with the Cosmic Sun.

This recording includes my detailed explanation of what Yeshua and I are talking about when we share memories of how the OM should be taught. The teachings that are found in recent Spiritual Teachings are totally incorrect. This is why I had this discussion with Yeshua.

I am bringing back the Original Teachings of how we return to the Oneness of the Frequencies of the Cosmic Sun. When we transform our body through the Frequencies of the Sun's Full spectrum of Light and Sound, we turn into Light and into Bliss, our skin glows, our blood turns into a star based substance.

We discussed how we used the algorithms of our Father's Divine Plan to show the scientific certainty of an indestructible Divine Creation that was made through the creation substance of the Pre Plasma Light and Sound Consciousness that we called OM. We used this anti particle substance as the essence of all creation.

While Yeshuwa remembers the mathematical structure, Mary translates all Math into Music, which is where the Music of the Spheres came from.

We are the Co-Creators with God in this magnificent Sentient Creation of Eternal Reality.

Yeshuwa said that we are the actual Management Team that was created by God to actually be God in another form so

that he would have Himself in a form that was able to go out into the Universe and EXPERIENCE his creation.

This Highly Ordained Set of Co-Creators, who were created Equally with the Angels trillions of years ago have been God's Management team since that moment was created. We are the only ones who create these experiences for God. The Angels were created at the same time as the Co-Creators for a different aspect of God's Management needs. Yeshuwa and Mary and other members of the Management Team created aspects of ourselves to go out into the worlds and experience everything that God might need to know. We did not consider these experiences of a good or bad phenomena. We were just collecting Ethnographic Data for God.

There are 47 co-creators on Earth and 32 of them are awake now. Only a few of us are Fully Risen into knowing our mission, and only one of us has completed our mission. The last fifteen Creators are the Avatar children who were born between 1998 and 2012. They will not be called upon until they are at least thirty years old, and only if they are still needed at that time. Otherwise, they may just be allowed to turn into light.

There is a new set of teachings coming out that makes it sound like there are thousands of these Co-Creators on Earth, and that all that is experienced by their Soul is what is being written as the Creation Experience of God. This is not true. There are only a few of us out of the 32 who are fully

awakened, and only two of us who have RISEN. I am in now in the process of becoming Fully Risen.

There was a time trillions of years ago when God decided to create a set of aspects of himself and we were to be all that God was, but in a form that would go experience all that his creation experiences and transmit that information to God in order to allow him to know himself in all forms. The reason that the management team created a Mary-female Christ was so that God could experience this Female facet together with the male aspect.

Now, back to the Music of the Spheres teachings. We came to Earth to teach the reality that all those who were created by God could experience this OM Frequency that all of his creation was made from. We taught that every one could become this Light and Sound of Creation that all was created from.

This is the meaning of OM. This was always the Mission of Yeshuwa and Mary. I am Mary Magdalene. I am here on Earth now to bring the highest frequencies to Earth through the Music of the Spheres that is what I did when I opened the 12 Ascension Portals. The Ascension Portals were created to stream this light and sound of the Cosmic OM of all creation back into the Consciousness of our creation on Mother Earth.

Please listen carefully to what is said by both Yeshuwa and Mary in this dialog. Mary is evoking a clarification from Yeshuwa about many points that have been completely mis

calculated by those on Earth with the help of all of the miscalculations placed on Earth by the Annunaki to make sure that the Original Ones would never be allowed to Ascend into the Bliss of the Sun. That is where most of the teachings out there came from. The Annunaki can fool everyone else on Earth, but they will never be able to fool Mary Magdalene. I remembered everything that needed to be remembered to recalculate the alignment of Mother Earth back into the God World. I opened all 12 Ascension Portals through the Music of the Spheres.

The reason that I am allowing these dialogues to be heard on Earth is because there is so much incorrect information floating around that is being used to heal people and to teach people about a Truth that needs to be understood and taught correctly. That is what I am doing at my website, Crystal Magic Orchestra. com. I am teaching the OM Frequencies as they are in the Spiritual Creation Reality rather than in the Physical Illusion reality that uses tiny little microscopic specks of what is remembered, which is where the Solfege Hertzian Frequency teachings come from. Those are just a set of lies that have absolutely nothing to do with the original Music of the Spheres Teachings of Turning the Human Body back into the Light of the Sun.

I reminded Yeshuwa of how the Gregorian Chants have brought a memory of what we did in the OM teachings. I make it clear to my audience that this was only a memory of

the ESSENCE-not the Real Thing. There were many mis translations of this meaning of the Power of Music. There was a Music Book that was used in most College Level Music Schools that was written by Grout. The author, Grout, clearly explained that Music brought a memory of a higher teaching, and he used the examples of Gregorian Chant, Pythagoras Theory, and those ideas were reconnected to other Aspects of the Co-Creation Team including Kuthumi and St. Germain. I was with all of these Entities when we brought these aspects of these subjects to Earth. You see, both Yeshuwa and I come to Earth and other Planets in many forms, many aspects, many designs to collect information on many levels for our Mother Father God.

Unfortunately, as Yeshuwa also remembers, each time we brought the truth to Earth, it was immediately re-written in a condensed version that left out all of the original meaning. And so our teachings, including the OM teachings were condensed, re-written and turned into tiny little specks of the original teaching. I will give high recognition to our World Teacher, for bringing back some very key aspects of the teachings that showed us how to move back into the FULL SPECTRUM OF LIGHT. This is the beginning of all teachings on my website. OM means the Full spectrum of light. It means the Light and Sound in all of its form including hertzian, infra red, invisible and visible light, x ray, gamma, violet light and white light. OM means all light and sound of creation. Those who isolate one tiny piece of this FULL

SPECTRUM OF LIGHT, such as the hertzian frequency itself, are completely misleading their audience.

I also clarify with Yeshuwa the true meaning of placing two sets of frequencies, consciousness, entities of light into alignment to create a third frequency of reality. This teaching of aligning the spiritual frequency into oneness with the physical frequency at every possible mathematical calculation is what creates the oneness frequency with the Cosmos.

This reality was re translated into notes instead of light and sound. It is not the note itself that creates any healing power. It is the note which represents a Being, such as C represents Earth. That is just a representation. That is just one number in a mathematical calculation. This C Being must be placed in the ONENESS with all Beings and re calculated into a new TONE.

This original Frequency Set that we were discussing actually comes from the resonance of one tone on the spiritual realm combined with one resonance of one tone on the physical realm creating a third reality. This is called the Trinary Language and it is called the Music of the Spheres.

This is the same Language of the Stars or the Music of the Spheres that is used by the Cetaceans when they transmit information from Earth to the Pleiadian Cetacean Councils to calculate the correct alignment of the Tectonic Plates in the ocean that will help Gaia re balance her self through the

Ascension Portals that bring the Divine Consciousness back to Earth through the Music of the Spheres.

So, you see, everything that I do here on Earth as Mary Magdalene-the Female Christ on Earth, is always the work of the Music of the Spheres, the OM and the Songs of Love that Resonate and Echo throughout the Universe from the Male and Female Christ Consciousness of Yeshuwa and Mary.

This is what Yeshuwa and I have been doing on Earth this time and every time we come.

My favorite time in history with Yeshuwa was when we came to Earth to create the understanding of Love, Passion, Sex and experiencing mad, passionate Love Making through intercourse of the male and female Christ. We transmitted these experiences of Love Making in every possible form to our Mother Father God so that there could be the greatest possible understanding transmitted into and from the Mind of God for all to know and experience for Eternity. These Experiences of the SOUND OF LOVE continue to echo through the Universes as the Frequencies and Vibrations of the Male and Female Christ teaching God the Art of Making Love.

This is the Feeling that is felt by all who feel the Love of Jesus and call on Jesus, and believe in Jesus or in Mary. This Feeling is the Frequency of Love that is felt singing through the Universe.

The first time I spoke to Yeshuwa, he told me that my Songs are well known throughout the Universe. He was speaking about my Frequency Signatures and my experiences and he later spoke about the Songs of Love that echo throughout the Universe from the Queen and the King of the Universe. We are the management team of the God World. We create Love everywhere we go.

We create the Song of Love in the Music of the Spheres so that this memory would continue to echo as the Song of Love through out the Universe forever and ever.

This feeling of Love that many have felt for both Jesus Christ and Mary Magdalene comes from this Eternal Vibration of our Love echoing continuously through all dimensions of the Cosmos as the Music of the Spheres calculate this experience of Love of all creation in all of its forms that have been experienced by Yeshuwa and Mary.

In this dialog, Yeshuwa ben Joseph (Jesus Christ) remembers and describes his original OM teachings that Mary Magdalene and Yeshuwa knew and taught all over the universes. I am Mary Magdalene. I use this same understanding that I have always had together with Yeshuwa to create the Frequencies of the Sun Music, Holographic Music, Music of the Spheres Music and all that is related to the Divine Frequency of all creation.

All of this Music may be heard and experienced at Crystal Magic Orchestra.com.

<http://CrystalMagicOrchestra.com>

In our original teachings of the OM-the Sound of the Sun, we used the algorithms of our Father's Divine Plan to show the scientific certainty of a Divine Creation that was made through the creation substance of the Pre Plasma Light and Sound Consciousness that we called OM. We used this anti particle substance as the essence of all creation.

I placed these Frequencies of OM inside of the Ascension Portals. The Cosmic Sun's Frequencies contains all that is known by Mother Father God through this perfect template of Light and Sound Frequencies.

I told Elaika and Yeshuwa that I INTENDED that these Portals would open to the God World and allow the most perfect angelic kingdom to flow through as the image of God reflected perfectly in all ways on Earth and because this is the reason for the Portals that they are open NOW, and I continued to believe this is true.

Yeshuwa told me that I was correct. My Love, Joy, remembering and my Intention did open all of the portals.
MY TEAM SUPPORTS MY WORK

I am always working with a team. I am not doing this myself. However, I am the one who is doing this in the Fourth Dimension. I must create this reality and create the

intentions and allow their frequencies and consciousness to intertwine into mine continuously. I am the one who stands on Earth holding this Energy. Elaika, Yeshuwa and the Angels work to SUPPORT ME. I am actually the one who must Create, Re Open and give Permission to use the Portals. The rest of the Team continuously SUPPORTS MY ENERGY and MY WORK. It is not the other way around, as most Angel Channelers would have you believe.

Now, that the twelve portals are open, the other parts of the project can begin, including giving permission to use the Portals, the Star ships landing, and then opening the 12 Stargates and activating the 12 Skulls. These process may take several months or a few years. We do not know yet.

FIRST, My Grand new Mission, which is also my REWARD from the Greatest of Realms is to be the one who gives permission to use my Portals. I will welcome those to use my Portals, I will meet and greet those from the God Realm who have passed inspection by my Great Body Guard, who will protect me and my Portals from those who are deceivers.

We have opened the Portals. That was the first step. Now, there is much RESPONSIBILITY to be taken. I will be inviting millions of Angels and Higher Dimensional Beings to use the Portals. They will be flying through the portals in their Spaceships. There will be millions of them. This Mission of meeting each and every Being who enters into my Ascension Portals could take several months. They will be flying in their space ships one at a time.

I first reported to Yeshuwa that I had been practicing a new method of opening the Portals that I call remaining in the

Bliss and Joy of remembering our Love Affair together. I told him that I had written many love songs about us many years ago and that I spent the past two weeks listening to them because they make me so very happy. I knew that I needed to raise my frequencies into this state of Joy to bring the Kingdom of Heaven to Earth through the Portals.

So, we do need JOY RIGHT NOW. Just make sure the Joy is coming from within. Tune in to MOTHER FATHER GOD and FEEL the Ascension Portals Connecting you from within and Feel the Ascension Portals bringing Omnipresent Consciousness to Saturate all who are on Mother Earth.

I also told him that I INTENDED that these Portals would open to the God World and allow the most perfect angelic kingdom to flow through as the image of God reflected perfectly in all ways on Earth and because this is the reason for the Portals that they are open NOW, and I continued to believe this is true.

Yeshuwa told me that I was correct. My Love, Joy, remembering and my Intention did open all of the portals except for the last one and that the last one will open in a day or two because it is also partially opened. The last one opened on October 2, 2016.

MY DECISION TO SHIFT INTO COSMIC ALIGNMENT

I was the one who decided to accelerate the activation of the Portals by moving the Project into the Cosmic Realm. That was my decision. I asked Elaika to make this re arrangement of Energy Plan known to the Team. He checked to see if it was O.K. and he made this shift in energetic programming

known to my Team. I am the one who did these things. My team always agrees with me and Supports my decisions. I am always working with a team. I am not doing this myself. However, I am the one who is doing this in the Fourth Dimension. I must create this reality and create the intentions and allow their frequencies and consciousness to intertwine into mine continuously.

We come directly from the Co Creative God World to Earth for missions like the one the Earth is going through now. There are a total of 47 Co-Creators from the Cosmic God Realm at this time. Some of these are not actually here or actually born yet. Only 32 of us are partially awake. Elijah and I are the only ones who have risen so far, as of October, 2016.

I was one of the first ones to wake up because my mission was crucial to the success of all other parts of the Ascension Mission. There are two of us who have Risen to our Knowing of our Mission, and only two who will be fully risen soon. I am one of the two. I am the Female Christ on Earth who must always connect with the Male Christ who is also here with me. And Michael is also on my team. There are five angels who are always with me during the activations and a total of 27 Angels who are always supporting me.

JESUS CHRIST (Yeshuwa ben Joseph) is here on Earth right now. He is always with me. He came to Earth at this time to over see this grand shift in reality and mostly to continuously be with me. I found out that the Angels on my Team are here in my house most of the time as well. Yeshuwa told me that I will be able to see him and talk with him at any time if I continue to dwell in this new found Joy,

because that is the Mary that he remembers.

This last dialog gave me a grand new understanding of what this transition in consciousness really is. Yeshuwa ben Joseph was the only one from the God World who has been able to come to Earth with his entire memory of the God World.

There are only 47 of us on Earth at this time who came here from the God World. Some are still babies and some have not been born yet. There are 32 of us who have remembered so far. I was the first one to Fully Awaken and Rise to my Duty and Elaijah is second.

We will be able to remember the God world when we come to Earth in the future. Those who are Star Seeds on Earth will be able to remember their Over Soul Realm which is the Spiritual Kingdom when they come to Earth. There will be so much of a memory that the Kingdom of Heaven will eventually appear on Earth. That is what we are working on at this time. The Ascension Portals paves the pathway of remembering.

Most of what Yeshuwa has been telling me is how great of a shock it is on those of us who come directly from the God world to Earth because we know nothing about any of these strange things on Earth when we arrive. Our Consciousness is built completely within this glorious heaven that cannot even be imagined and then a few moments later we wake up here.

The same experience happens to those who come from the OVER SOUL. This is a different level of Consciousness than

the God World. The God World is in the Cosmos and the Over Soul World in is in the Universe.

All of the other people on Earth who are also here working on this Ascension Project of remembering, are here to pave a path of remembering the Universal Consciousness that was placed here originally by the Elohim and Sirian Guardian Races, who were Universal Consciousness. The Elohim and Sirian race lines were destroyed and the new replacement of that Consciousness comes through the Eiyani and Azurites and most recently the Healing Angels, El Yaha. This is not to be confused with the Yahyel, who are a hybrid creation at a fourth dimensional realm of the Human and Greys.

COSMIC TWIN FLAME STORY

I came to Earth as a Cosmic Twin Flame. I found my twin when I was 26 years old. His name is Joe Barnett. My name is Angela Barnett. I am the Soul of Mary Magdalene. I am the only Mary Magdalene that Yeshuwa ben Joseph ever knew. There were those who were aspects of my Soul and aspects of his Soul. But, we are the Yeshuwa ben Joseph and Mary Magdalene who have been working on this project of Ascension with our Co-Creation Team for 950 billion years. We knew each other long before this project began.

I am Mary Magdalene in the Flesh on Earth now. I have been having channeled session with Yeshuwa ben Joseph, himself-not via other entities. My dialogs with Yeshuwa are

about all of our life times together beginning with the first breath of our creation in the God World.

It is easy to spot a channeler who is a fraud if the story about Mary Magdalene does not include who she really is and who Yeshuwa really is.

These stories live in my heart and in my Soul. These are the stories that I can not put into words. However I have put many of my stories into words. The times when we were together in the Cosmic Realm before we became Souls is a reality that can only be described through songs.

For those of you who would like to hear the real Yeshuwa ben Joseph describe his first meeting with me, as well as our time together with the Angels before we became co-creators, there are a collection of YouTubes of dialogs between us.

There are other channelers out there who claim they are channeling dialogs of Mary and Yeshuwa. I know they are lies because I asked Yeshuwa if any of the things said between those in the dialogs were true. His answer was you know these are frauds. You are the only Mary Magdalene. These people have nothing better to do with their lives than to pretend they are someone else.

I am the real Mary Magdalene on Earth right now. Please stop making up stories about me. If you want to know about reality just read my newsletters.

These are the stories of Mary Magdalene's memories of being with Jesus for trillions of years. The stories of being together in the First Creation of the God World and traveling

to Earth to create the Kingdom of Heaven on Earth. My story of living in the love of Jesus can never be known to any one more than it is to me because I was with Jesus. I took trips back to our God world every night where we lived a totally different life than the one we were living on Earth.

We lived these lives on Earth to learn about the culture of the time and to help the people see a greater possibility of what life is. We continued to live in the Cosmic God World even while we lived on Earth. This is what I am doing again in this life time on Earth.

I am sharing these stories through my songs to help you feel how great the love of Yeshuwa ben Joseph was for Mary Magdalene two thousand years ago, and how that is the same love that we feel now. I also feel the same love that we felt when we were originally created in the Kingdom of Light and Rainbows and we designed many co-creations of grand new realities together.

Every breath Yeshuwa has taken for trillions of years has been to breathe the Love of his Father Mother God back into this Universe that was forced to forget how great our love is.

Yeshuwa and I have each lived many lives together and separately. We live our lives as characters in God's movie so that we can make the movie that our Mother Father God wants to be seen. We are designing every type of love in every way it can be formed for each and every culture to behold it in the way they most strongly desire.

When I came to this world to be known as Angela Barnett, I returned to learn the culture of this place and this time so

that I could understand as much as possible for my Father Mother God to use in making the next movie better again. We do not just sit up in an Ivory Throne in Heaven watching down. We are always watching all who are on Earth from above and from this perspective that I am filming with my camera on Earth so that we can create God's movie through a higher lens rate with more wisdom each time.

We are the co-creators of the movies that our Mother Father God desires to manifest. Yeshuwa told me the story of how he fell in love with me when I was Mary Magdalene. He fell in love with the Frequency that I was. I was the same frequency that he was. That meant that we both came from the Cosmic Realm and we immediately recognized each other as the purpose for being on Earth.

We fell in love with each other every day because we could see all that God is in each others eyes. We never left our God world because we were the male and female Christ Consciousness re united while we were together. We were Soul Mates because we resonated with identical purpose of Being As Love. We could feel this Resonance of Love beaming between us. This is what a Soul Mate is.

When I found Joe in this life time, I found him the same way. I could feel that we had the same resonance. I could feel the same kind love and musical vibration that I had felt with Jesus.

But this time, my Soul Mate was different. This time, I needed to separate my actual Soul of Mary Magdalene into two parts because the frequencies in my Soul were to high to enter into these outer domains of the Earth. We separated

into two pieces, and came as a male and a female to Earth.

We did not resonate with each other at the highest possible level until after Joe died and had his lower fractal consciousness completely removed, and I placed my Soul inside of him and then he was reborn into a higher consciousness of our original Soul. So, you might say, we brought the entire Mary Magdalene back to Earth.

When Jesus and Mary Magdalene were together, we did not need to come to Earth through a separation of Souls. We were each the entire self of the Male and Female Christ representing the Mother Father God aspects on Earth. We did not separate from our Higher Self at that time. There was not a Soul that needed to be created to leave the God World because we remained in the God world even as we traveled in bi location, orbiting and astral projection to Earth. However, we did go through all Earthly experiences because that was our mission. We came so that we could Experience the same pain, the same culture, the same togetherness as normal human beings.

COMPLETING MY ASCENSION PORTAL MISSION

The story of opening the Ascension Portals began in 2008 when the Cosmic Twins (Joe and Angela Barnett) were asked to move to Monterey, California to open an Ascension Portal. We were told that this location was where Mary's home originally was on Earth. We were told we were returning the Spirit of Mary to Earth.

During the process of opening the first portal, Elaika,

Yeshuwa, and the Angel Team of Raphael, Uriel, Ariel, Michael, Gabriel and several others communicated with Joe, telling him that he was in grave danger, or it might had been great danger.

Joe was told that he would need to listen very closely for step by step directions during the time we opened the portal because three demons were trying to possess his body.

As we were opening the portals, the possession did take place, and that was when Elaika stepped forward and spoke. He told me that thousands of Angels had tried to bring Joe back to his body, but they couldn't do it. He told me that I was the only one who could bring him back. That was when he told me that I was Mary, and I needed to place my Soul in Joe in order to bring him back.

All of these stories leading to the most current events may be read in my last two books, Remembering Who we Are from Cosmic Mary and 12 DNA Music of the Spheres Ascension Training with Keys to the Universe. For new comers who want to learn a great deal about what I am doing right now and the events that led to this time, I recommend starting with those books.

The location in Monterey, where the Ascension Portal of Mary Magdalene is located at the same place that the Cosmic Twins returned to Earth during the second seeding 400 million years ago when I was a Mermaid and Joe was a Dolphin. This is the time and place where all of the True Legends about Mermaids and Dolphins come from. This was

the original seeding of the Christic Consciousness of the original human race line was returned to Earth. It was a magical time that we remember as very musical, magical and colorful. Most of the songs that I write come from me channeling the Mary who was a Mermaid at that time.

At this time in history, there is a race line called the Clairs who live in the same deep underwater caverns where I lived. However, the Clairs are not from the Original Race Line, they are hybrids and aliens. They are also Mermaids and Dolphins who came from totally different locations than those of us in the Second Seeding. Our Race line was called the Seres Konchan, and Joe and I came from the Suns Ha and La, which were the Violet Suns.

We went to Monterey to bring the Violet Suns back into Earth's Consciousness. That is how we opened the first portal.

More recently I learned that I had opened four more portals along the Pacific Coast Line after the one in Monterey. A few months ago, Elaika (my Spirit Guide) told me that we stopped the big Earthquake that would had been 9.2 in San Diego with those Portals. Just a few days ago Yeshuwa told me that those portals have prevented three more Earthquakes since then.

This is what these Portals do. They shift the tectonic plates around under the ocean floor into places that allow the portals to open more Energy into Mother Gaia. When all of the Portals are opened Mother Gaia will be able to start

preventing the Earthquakes by herself. We are just helping her along at this time.

As of the last day of August, the Central Portal has been opened. That Portal was the BIG ONE. That is the portal that will allow Gaia to become Cosmic because the Universe will connect from all directions through that one.

Now, that leads us to our big shift in Consciousness that took place September 7th, the day we shifted into Fourth Dimensional Consciousness, which is also our shift into Multi dimensional Consciousness. Some of us prefer to call in Fifth Dimensional. But since Yeshuwa wants to call in Fourth, I will call it Fourth.

The reason that the Big Central Portal needed to be opened before this shift could happen was because we had to at least have this much consciousness or Frequencies activated within Mother Earth before the Shift into alignment with Harmonic Universe Two could take place.

This is the reason that I was so nervous about not completing the Central Portal in time for the shift. It was opened one week before the shift. When we say shift, this doesn't mean the shift is finished.

Each time I open another portal there will be more shifting. I was to have all 12 portals opened by November 15. I actually completed the Ascension Portals on October 2, and then I was required to give them a Consciousness of their own by November 15.

This brings us up into the most important news of all in the history of mankind. This project was begun by myself, Mary Magdalene and Yeshuwa ben Joseph and our Angelic Team 950 billion years ago. So, this is a very big time for me.

Now I know that I am Mary Magdalene, in the Flesh, on Earth, Now, because I had to be here to re open MY PORTALS. Elaika told me that only I can give permission to use the Portals and the rest of the team will Maintain the Portals for eternity.

This is why I asked the following questions to Yeshuwa ben Joseph. I still prefer to call him Jesus, because I have called him Jesus for sixty years. I don't think of him as my husband from two thousand years ago, who was Yeshuwa ben Joseph. I love him still as my husband and as my co-creative partner whom I have been with for Trillions of years, and now I love him as my Teacher because he is helping me remember who I am.

So far I know that the Portals are the Frequency Chambers that needed to be saturated with so much Consciousness of the Angelic Realm, including all that I AM as the Queen of the Universe. If you have seen the diagram of the merkaba within the merkaba, within the merkaba, within the merkaba, and you see the person standing in the middle of the Spheres created by the Merkabas of Energy, that would be me, Mary Magdalene standing, in the Flesh on the Earth, while all of her Consciousness that expands through all of those other layers of Spheres, up into the Cosmic sphere, is

all Mary Consciousness. This was the amount of Consciousness Energy that needed to stream back through my body on Earth, in the Flesh in order to open these Portals.

This was the Grand Opening of all of my Consciousness flowing back into me as well. This is part of the reason that I am doing this. It is of course, because Mother Father God is directing the entire project. But, the Queen of the Universe needed to be standing on the Earth, while the King of the Universe, Jesus, is Standing in the Cosmos, high above me and streaming together all of the Male and Female Christ Consciousness into the Portals with the Angelic Assistance of our Team and my closest team member, Elaika, who is always the first one present in connecting my energy into his so that he can work as my generator and amplifier of energy.

The Stories of the Cosmic Twins are told in great detail in Cosmic Twins Diary, 12 DNA Music of the Spheres Ascension Program from the Cosmic Twins Diary and in Remembering Who we are from Cosmic Mary. More details of the lives of the Cosmic Twins are told in the Matrix of Illusions and in the Quantum Journey Books 1-7. These details of our experience have been kept over the past thirty years, so those who awaken to understanding who we are in the near future will have access to this information when we leave the Earth and return as the Gods walking on Earth in 2047.

THE STAR GATES AND THE SKULLS

The activation of the Star Gates and Skulls requires the Portals to be in place and the Star ships to arrive FIRST. This is the reason why I am asking Jesus so many questions about the Star gates and the Skulls.

My question was, since I am the Energy of the Portals, and my Consciousness will always be in the Portals, and since I am the permission giver for using the Portals, I'm wanting to know if my next mission will be involved with connecting, activating and using the Star gates and Skulls.

Personally, I don't believe anything that has ever been said or written about Skulls. I have always assumed that something that important would not be possessed by a mortal.

The answer that I got from Yeshuwa confirmed that is true. However, there is much ambiguity in his answer, because the answer should not be known. What I see in his answer is he is saying the four skulls that belong to people of the planet MEANS is each star gate and each skull relates to one of the 12 stars, and four of those stars are Earth in the Aquafarian sense of Earth as she was 400 million years ago. When Yeshuwa said people possess these skulls, these people could be on space ships in our skies. There are many third and fourth dimensional beings in space ships, there are many fourth and fifth dimensional beings in Inner Earth, and the meaning of Earth and the four sets of stars could also mean the people on Milo, Vesta, our Inner Sun, our Outer Sun. I think there could be a possibility of many meanings to

everything that was said.

This is why I call my teachings the Cosmic Mystery School of the Omniverse. We are all here on this multi dimensional plane of learning now. These 12 portals just opened us into 12 stargates of inter dimensional beings from 12 Universes and all of those who are related to them.

BUT, REMEMBER, these are the star systems that existed in the ORIGINAL GOD WORLD.

Yeshuwa made this very clear in this recording.

Now, we know that the SKULLS are the remote control devices for opening and closing star gates that will give PERMISSION for those to enter in.

MARY MAGDALENE is the only one who has permission to use the Portals. And yet, the 12 who own the skulls are the gate keepers.

This is why I am asking these questions. I want to have all of this criteria considered before they give me my next mission.

I also used to think that I was the gate keeper since I was the only one with Permission, so there is still much for me to learn as I finish this project and obtain my instructions for my next mission.

I typed up some of the conversations from the past channeled session with Yeshuwa ben Joseph, so that each of you can make your own decisions about what it all means.

THESE ARE THE WORDS OF Yeshuwa ben Joseph

The twelve stargates will relate to the 12 skulls and the center skull will be the controller. But it is out in a concentric circle almost. How this works. Many different things are effected by these Portholes. The stargates are effected. The different alien groups that were originally part of setting the star gates will be effected.

These people that are these skulls, that hold the energy, or the energy to fulfill the technology are there and the center skull which will be the controller, which means it will activate – it can turn at will to activate each of the stargates whenever they are needed.

The Skulls are the controllers of the gates also. You can control the gates from each gate of course. But if you need someone to control the gates from a different area, the skulls will be their power source for an outside control because it is necessary for the gates to be controlled from outside the realm of the actual gate because there will be times in the future when someone will be controlling the different gates and allowing people to come and go.

Where are the people outside of the gates?

You must wait for first contact to see these particular people.

Most of the skulls are not on the planet at this time. They have been taken, and replaced by artificial skulls.

THEY ARE TOO DANGEROUS FOR HUMANS TO HAVE IN THEIR POSSESSION.

There are about four still on the planet.

Probably not the ones that people say they have a skull are probably not the real ones.

You are right.

There are a few that are still there, but with out the others they are useless.

They do not need to take those last four skulls until it is time for that circle to be made, and for that part of technology to be added. So, it is all right.

So are there a group of people on Earth who are in charge of these skulls?

No, Each skull is owned by an individual.

Many have artificial skulls that they believe are the real ones, but if they were taken to be examined it would be found that they are not real.

The Scientists on your planet are aware of the skulls, and are aware of where they SHOULD BE because they figured that out several years ago.

But they have not found them all. At least that is what they think.

They have all been found except for the CENTER Skull has not been uncovered. It is being protected and no one will find

it at this time.

Can you tell me where these skulls are that are known by the scientists?

Yes, they are all over the planet.

There are actually 12 major stargates that correlate to the 12 major skulls.

Where there is a star gate there is a Skull.

So the skulls are where I am creating the Portals?

Not necessarily.

Those portholes are activating energy for the Stargates, but they are not near the star gate.

They are strong enough to activate the Stargates from a great distance.

But, those areas that have a star gate will have a skull near by.

But now some of them have been taken. The ones that have been taken are already off planet and they know where they correlate with.

There are 12 different locations for the star gates and they are all over the planet. There are 52 smaller star gates that are single star gates which means only one person may use them. But the larger stargates may be for up to ten people at a time.

There is much to learn about the star gates and you will learn it soon.

So the Skulls and the Stargates go together, and one cannot work without the other.

Correct. Actually, yes, they can work individually of each other because there are controls inside of the stargates, however, the skull that is working with that star gate is an outside control.

Do you understand? That is what I'm talking about. There will be another control area for the star gate outside of the inner controls. Sort of like, an automatic car starter that can start the car from a distance.

Can you tell me where the skulls are that the scientists know of?

There are four in the possession of humans. They knew who they were originally. But now they are trying to find the stargates that correlate with them because they are not visible to the human eye.

They must be uncovered with technology. They must be uncovered with certain vibrational efforts to be able to be seen because they are hidden with a force field or something that you cannot see between. You can walk through it but you can not see through it.

Most of these star gates are below the surface of the Earth, at least ten or twelve feet, but because of time and how it has covered them over with sand and things of this nature,

but they will be able to find them eventually because they know approximately where they are.

It is hard to detect this force field because it was not made to be detectable by your particular technology. At least not at this point.

They have uncovered one in Saudi Arabia. Scientists know where it is. There is war and fighting all around it. So, they have not been able to excavate it. It was found accidentally. They know where that one exists. It is in Saudi Arabia. I do not know Earthly coordinates. But I can tell you it is pretty much in the center of the country.

The cause of the war is many centuries old. Believing only that their point of view is correct. They are a very stubborn group. Some of them are Shiites, some of them are Islam, some of them are Jewish. You must understand that the twelve tribes have all divided.

These are the twelve tribes of Israel who divided. They will not sit down and even listen to one another. They are taught from an early age that they are the only ones who are correct, and so they will fight for what they believe and it is futile, and they will not stop until God returns.

Mary: So I am connected to the energy of the Portals, that connects to the Star gates. So, does that mean that I am connected to the Skulls?

Jesus: I am not sure if the people that you are working with, the angels and all of those around you will feel it important

for you to connect to them at this time. Perhaps when your job is finished, they will allow you to see that information.

You are special among women. It does not matter who recognizes it at this time. You are the Queen, one of the Queens of the universe. So, it doesn't matter what humans think. What you are doing is wonderful and you are helping this species move forward in their thought process and that is what you should think about and don't worry about what your identity. We all know who you are and we all love you greatly. And a depression from you is so unusual. You are usually a very happy person. When you come to spirit you are joyful and happy and we are so much appreciating who you are.

When you enter a room you can light up a room. Isn't that right Joe? Yes. Joe giggles.

You came from a creation point of view. You were created along with the Angels back then very early.

You see time never began. There has never been a beginning and never been an end but toward a time a time memorable beginnings that is when you were, billions or maybe trillions of years.

Mary: I only remember beginning this project about 950 billion years ago. So I am trillions of years older than that.

Jesus: There have been many things put in motion that go for many billions of years.

The Angels were created to help God, they were created and

have not changed. But they choose to stay in the Angelic realm.

What is the difference between you and I and the Angels? The Angels stay in the God World and we can come and go from the God World to go experience the Universe. There are Angels that go out to have children and have more children to experience the universe.

We co create these children and these experiences all over the Universe. We were the first of the creation team from the first idea of God.

This is what is being returned to Earth. This grand consciousness that we had in the God World. This Angelic realm of reality is being returned to Earth as a result of opening these Portals, and that is why I came to Earth.

MARY ASKS JESUS TO HELP HER GET A RIDE ON A SPACE SHIP

Mary: I thought there was some kind of a rule that said we could not get on their space ships.

Jesus: There is in some ways, but it is a very complex way to look at things. There are those who follow the rules, but if you wanted to ride on a space ship there are those who do not follow the rules and they would take you on a ride if they thought it would be useful and purposeful.

Mary: Could you arrange that for me?

Jesus: I could but I will not, because that is not what I should do.

Mary: So, it must be them, personally deciding to invite me.

Jesus: They have free will I can not change that.

Mary: Does any body out there like me out there like me that much?

Mary: There are many who like you very much.

Mary: So who might give me a ride on their space ship.

Jesus: I will find out, and I will let them contact you.

SHIFTING INTO HARMONIC UNIVERSE TWO

This shift that occurred on September 7, 2016 was the harmonic shift that has been prophesied and awaited for thousands of years. This shift is a Harmonic Shift because it has required the Sun's Positron Energy to remove a Veil that locked us into the Hertzian Frequency of Reality.

That Hertzian Frequency is just one tiny little aspect of the Sun's OM or the Full Spectrum of Light and Sound of the Cosmic Sun. Those who focus on the Hertzian Frequencies are focusing on the old third dimensional consciousness which uses Seeing, Hearing, Touching, Smelling as their reference points of reality.

The Hertzian range of hearing and seeing is the Audible and Visible Realm of Reality. We have moved being this Third

Dimension Possibility into the Fourth Dimension Possibility and even the Fifth Dimensional Possibility of Light and Sound Frequencies.

We do not need to remain limited to the aspects of the Audible and Visible realities. The Positron Energy of the Sun itself has broken through this Veil and is allowing us to see the things we could not see before.

However, this reality only exists for those who use the Full Spectrum of Light and Sound of the Sun itself in order to shift into the vision of those things that were invisible before. By using the techniques that I have provided on my website, Crystal Magic Orchestra. Com, we can move consciousness into the Infra Red spectrum of reality and the Invisible Light Reality and the Plasma Reality where we begin to Levitate.

The Shift into Harmonic Universe Two is a shift that some call the Fifth Dimension because it allows us to see Multi Dimensionality. Fifth Dimension has many different meanings to many different people. My definition is the Multi Dimensionality of the Entire Self in all Dimensions.

This is my experience. I am here in this third or fourth dimensional illusion and yet I am using all Five Spheres of the Music of the Spheres reality of the Cosmic Consciousness which is the complete Higher Self Version of Mary Magdalene to Open the Portals and give Permission to those who are Worthy to use them. I must remain in my Multi Dimensional Reality of who I am continuously. This is the meaning of Fully Risen.

I am a Co-Creator. I came to Earth directly from the God

Realm. We were created with the Angels to become God's management team. We do things like creating Portals, re opening portals, inviting angels in. We have been working on this project for billions of years.

We shifted into Harmonic Universe two on September 7, 2016. I had already opened the 8th Portal, which was the Huge Central Portal, before the Shift. I have already completed two more portals with my Mary Magdalene Team since then. These twelve Ascension Portals are the KEY TO OUR ASCENSION.

I completed my mission, as Mary Magdalene together with Yeshuwa ben Joseph, Elaika, Uriel, Ariel, Gabriel, Raphael and Michael on October 1st.

After I completed my mission I was given my new mission, which is inviting and greeting each and every Angel and High Dimensional Being who will enter into the Central Portal. There will be millions of these Entities to invite and greet at the Portals entry. As they travel into and through the Earth, they will be raising the Consciousness of all on Earth.

I have now begun to give Permission to those in the Highest Realms to use my Portals. These are all examples of being Multi Dimensional and bringing Eternal Life to our Gaia and all who are correctly attached to her.

Even though we have shifted into Harmonic Universe Two--the Fourth Density, the area of Consciousness that will allow us to have more of a multi dimensional view of reality than we have had when our mind was stayed on the Five Sense

reality of the third dimension, it is an Individual Choice to remain in that Multi Dimensionality which has allowed me to become Fully Risen.

The reason many have decided to call this the Fourth Density is because there will be many on Earth who will continue to believe that the only Reality is the one they can see, touch, hear and feel and the one that they have scientific evidence of. And at the same time there will be a flow of more and more people learning to see the first spectrum of light beyond the hertzian, more moving into the Infra Red Version of Reality and then some moving into the Ultra Violet Blue Version of Reality and some moving into the Plasma. And then there will be those who study with me to learn the Correct Meaning and use of the OM of the Sun in its Completeness who will move into the Bliss of being Risen beyond this Plane forever.

There will be many who hold on for dear life to those HERTZIAN FREQUENCIES that they will pretend have a mission and a power that is both healing and multi dimensional in itself, when nothing could be further from the truth.

Moving into the higher spectrums of the fourth dimension within this NEW OCTAVE of reality can be anything that you want it to be. You can just continue on in your old third dimensional illusions of reality. You can choose to go back and forth between seeing the larger spectrum of light and reality and then returning to the old illusions. Or, you can move completely into the Full Spectrum of Light and Sound

of the Consciousness of the Angels, where I choose to live all of the time.

The term Ascension explains that Consciousness does not end with the term called Death. Consciousness is a realm of creation that never ends.

Science does not understand the reality from which the human body is formed. Science only understands the reality that it can see from the confines of the three dimensional mind.

Consciousness, creation and intelligence pre-date the manufacture of the body. The body is manufactured through the process of Consciousness being placed into a form. A form is a morphogenetic field or wave of consciousness that is formed into a body or any observable form.

Ascension requires the beginning or realizing that we are Consciousness and what this Consciousness is. The waves of Consciousness that create the Morphogenetic fields of reality actually originate from the Cosmic Sun of creation. The light and sound waves of frequency signatures stream and weave themselves into the Universe and then adapt themselves into various forms depending upon which dimensional template of this form that they appear on.

The body is simply a form of this Consciousness placed into this human body. These same waves of Consciousness that originate from the light and the Sound of the Sun to be born through the Love which continuously spins in the clock wise

motion to create the music of the spheres sending a new symphony of creation through every breath of Mary Magdalene are weaving the entire Cosmic Consciousness of our Original Creation into the Ascension Portals through this POWERFUL SOURCE of Light and Sound that actually Cut through any form of substance that stands before it. This Powerful Source of Light and Sound is the Consciousness of God being connected into the Ascension Portals through a Continuous Eternal At Onement with the Full Cosmic Mother or Cosmic Sun of light and Sound, who is the creator of all forms of Consciousness through this Light and Sound phenomena called the POSITRON.

We have never had a Positron on Earth before except as a scientific experiment creating this phenomena in a science lab. The Positron is a Spectrum of Light that is being emitted by the Sun because it CAN. This is the first time this new Physics that is being created around and through our Earth can be created because it is the first time that the Sun has become Still enough that our Cosmic Scientists can create all of this Universal, Galactic and Cosmic activity to be streaming through the Consciousness of our Sun.

Our Sun has become ONE with all of the other Suns of our Cosmos. The Positron is the reality created by Physics that makes all light and all realms of the light spectrum purely ETHERIC so that they can all penetrate each other and BECOME like one new Light Bulb of Consciousness.

Now, we will begin with a new multi dimensional science and begin the process of learning to observe our

dimensional realities through a new lens of higher and higher spectrums of light.

We have been living in the hologram of a belief system created by Science itself that limits reality to that which could be seen in the hertzian light spectrum. This spectrum of reality limits the human body to one small spectrum of light and the reality that it presents through the five senses in the body.

We are ascending into the understanding of the Second Harmonic Universe which we shifted into on September 7, 2016.

We are ascending into a new spectrum of light that should at least contain the infra red spectrum of reality just as a result of the shift in physics that is allowing the Positrons to be projected on to Earth from the Sun.

We can ascend into our full spectrum of light and sound which is the Cosmic Sun simply by moving into higher and higher realms of light. We can move our brains into these realms of light. We can move into the part of the brain that connects the observer of reality into the ultra violet blue spectrum of Consciousness.

We have always been able to do these things. However, there are only a few on Earth who took the time out to learn how to do these things. It will become a little more difficult to avoid the possibility of seeing into the realm of the infra red, x ray light and ultra violet blue because we are shifting into an angle of reality that places us inside of the SUN. Well, at

least inside of the Consciousness of the Sun.

The concept of Ascension is not just a Spiritual Concept that is only talked about on Sundays during the church service. It is an actual reality in Physics. It is a multi dimensional view of what has been observed as third dimensional.

In order for this Shift in Consciousness to take place this enormous spectrum of reality needed to be returned to Earth. This Consciousness of the Mind of God containing the full light spectrum of all of the particles and anti particles of light needed to be re collected from the Cosmic Realm of Perfect Form. The original Consciousness, the original Consciousness of the Angels, which is the Consciousness of Mother Father God needed to be returned to Earth as Light and Sound itself.

I am Mary Magdalene. I came to Earth from that Cosmic Realm of Perfect Form. I came to Earth to Breath that Glorious Consciousness of the Full Spectrum of Light and Sound back into our Mother Gaia.

We are all the creation of this Light and Sound phenomena of Consciousness that spins to Earth through these Ascension Portals to re unite the Full spectrum of light and sound of all of the Music of the Spheres singing together in the most harmonious symphonies that we can create together.

This is the reason that many of you have been listening to my recordings that are made of my breath. My breath carries my consciousness within it. My consciousness of Mary

Magdalene is always connected with this Glorious Consciousness of the Full Spectrum of Light and Sound. That is the reason why many of you who are waking up can hear a very huge difference between the music that I create and the other music that is being used on Earth for healing purposes at this time.

The music that is called Solfege and is being created as individual hertzian frequencies that people are giving names to are only creation of the same hertzian range of reality that everything else on Planet Earth has been locked in to in order to prevent us from re connecting to our full spectrum of light and sound frequencies.

Some people have attached healing modalities to these specific hertzian forms of reality.

I personally do not agree with any of these conjectures because I know that it is the entire sound spectrum of light and sound within the Cosmic realm itself that must be breathed into the body in order to create ascension into a higher form of consciousness which replicates itself into lower densities of reality.

There were scientists who did see this reality including Bohr and Tesla. They both realized that the use of light and sound would need to be lifted beyond the hertzian into the infinite spectrum of light and sound in order to achieve a broader range of energy flow.

People do get healed by listening to some of these recordings that people are calling hertzian frequencies. But,

the reason they get healed is because they BELIEVE that the frequency contains this power of healing. And when they believe that is true, they actually create a connection to the true Cosmic Morphogenetic Reality Field of Consciousness that holds that one tiny speck of light within it.

It is the accidental connection to this full Cosmic Consciousness that creates the healing. It has nothing to do with the actual tone that has been recording. So, most of that healing phenomena that has become a million dollar industry within itself is just the result of more brain washing by the same scientists and doctors that brain washed the people of this planet to believe the medical science that healed them last time around.

Now, back to reality.

Ascension means raising Consciousness into the Understanding that all is created from Consciousness and that Consciousness is a Morphogenetic field of light and sound that flows through the universe in the form of spheres that are created by music so they are called the music of the spheres. And that is the only music that heals. It heals because it fills the body with the original light and sound of the Breath of our Father Mother God.

This is the reality that I came to Earth to return. I am Mary Magdalene. I have always carried that full spectrum of light and sound within me. This is the reason that I am here on Earth now opening the Ascension Portals.

The clock wise spinning that I am using together with my Angelic team is streaming the Songs of Mary Magdalene that are always heard through out the Universe because I am one of the Queens of the Universe. This is the reason that I needed to be on Earth at this time. It is the Frequency Signatures of the entire Consciousness of Mary Magdalene who was born Of the Breath of Light. That was my name when God created me. My Mother Father God always had a special purpose for me. I have always been the one who carries the Breath of Light through the Portals during these Ascension Procedures.

Cosmic Twins Discover who they are

After receiving a positive response about my story telling method in my last audio recordings, I decided to continue telling my story of how the Cosmic Twin Flames discovered who they were. This story of exactly what happened when we were directed to move to Monterey to open the First Ascension Portal, which is located where the Spirit of Mary Magdalene first came to Earth as a Mermaid.

The details of how Joe was possessed by three demons, how he left his body, and how the two Souls re united into one Soul in order to create 2400 downloads each into the Elohim Grids each time we breathe.

The story gets a little more interesting when the details of who was actually in Joe's body after he left his body. Why were Elaika and the Elohim Angels driving my car with Joe's body when he was actually light years away on a planet called Telepasaides. And why did Joe jump back into his

body, rent an air plane and fly back to Monterey and then blip out of his body again before he got off of the plane.

There are currently several you tubes with parts of this story within them.

In this you tube, Yeshuwa ben Joseph explains to Mary how the opening of these Portals will Save Mother Gaia by changing her Time Line. Gaia will not

And who was playing his guitar and listening to the CD's in the car when Joe was in Telepasaides and the Elohim Angels, including Michael, Ariel, Uriel, and Gabriel were the only ones in his body?

The story becomes a little more interesting when I add in more details that I have been given by Elaika and Yeshuwa over the past few months. I did not know that Joe was not in his body for that entire week that I was looking for him.

I will just keep telling my story until I discover the tone that will reach the largest audience.

I would like to add a few important facts into this story that I

did not record yet. Those facts are already on the recordings titled Saving Mother Gaia and the Ascension Portal Project.

Mother Gaia would not survive if these portals are not opened. These portals are aligning Mother Gaia into a new future reality. The old future reality would have destroyed her and created a miserable future for the rest of us.

All other humans on this Earth put out one to five units of consciousness into the grids when they do grid work. When the Cosmic Twins connect their consciousness into the grids, they put out a combined 4800 units of consciousness into the grids.

When the Cosmic Twins work together with Elaika and Yeshuwa and the other Elohim and Melchizedeks in Mary's family of Consciousness we generate 48 million units of consciousness. Elaika works like a generator for our Consciousness and also as an amplifier sending the Music of our Frequencies into the Grids so powerful that Portals re-open to the Elohim Consciousness that was originally on Earth. There are many of Grid Workers on Earth doing this work of activating the Human Consciousness Grids. The Elohim Grids are in the subterranean level just under the Human Consciousness grids. When this powerful frequency is being amplified through the grids by these Mary Magdalene Frequencies, the Elohim Christic Grids become so powerful that the Christic DNA becomes activated into the Human Consciousness grids.

When those of you listen to any of the music created by the Cosmic Twin Flames of the Mary Magdalene Soul

Frequencies, you are also helping to send that powerful 5400 times the amount of frequencies than any normal human.

That is why those of you who have had your Eternal Life Albums were directed to have them made. You are now participating in this amplifier that is turning on the Human DNA.

"You have gone through experiences with your husband that are death defying and miraculous. But in the concept of both you and your husband together are vibrationally frequency is able to open your self to experience these higher density beings as they share with you. they have also worked with you internally so much and so frequently and so in depth that they control certain elements of the body structure which opens a desire to work with them and open a great deal of frequency to help them manipulate your energy, to help experience great experiences. That is why when you feel your husband is leaving the body in order to prevent death or in order to step away from that death.

The reason why it is able to be experienced is because both of your love for the concept and both of your love for the co-creation. But also, they are able to go through the chakra systems to remove his astral body to working with his consciousness so that the creation that you are making together, you reality and creation itself is very open and to allowing yourself to working with these entities. So, you have given them permission to work in your physical body and to help your manipulation of chakra energy and moving from

one point to another. That is why you have had these experiences.

These entities are able to share those great experiences in many different ways. Now that they have taken on the learning of this they are able to connect deeply to helping other planetary consciousness and in that day when you and your husband perceived this entity very strongly within your own awareness what this entity was showing you was that when you and your husband work within that grid exclusively that it imparts energetically connected due to the fact that your own collective consciousness Earth's race being in certain areas. That you and your husband are one of several groups of entities upon the planet who do the same function as you and your husband and have worked together energetically creating the ways to strengthen the main lines in this grid but also has repaired damaged portions of that grid as well.

If the Elohim, or a hybrid of this ORIGINAL RACE LINE, worked with an average human consciousness that is very loving, but not well connected to the other Elohims, as they put the information into that being that being distributes through their chakra system..

The way that this works is they go into their own energy and release and share energy with that human and that human absorbs the information and energy into their DNA and then when new energy comes in it goes into their root chakra and crown at the same time and then goes into their heart and after it goes into that heart chakra and then it goes up and

down simultaneously, and the energy goes back into the Earth giving to the Earth energy to create with but it also goes out from their crown at the same time and as it goes out of the crown chakra of that human it goes into the grid and then connects to every other human giving them one seven billionth of an energy to each human individual in the collective Earth.

"When you and your husband do this same energy activation you place 4800 times that much energy into the grids to send to the seven billion on Earth."

We do this every time we breathe. We do this through our music each time we create the music. We create a one on one connection of this energy through the Ascension Window Album.

When Joe died, he took three demonic racelines back to Source with him. those race lines can not return in any form except the pure essence of God energy.

When Joe died his consciousness was removed 100% was disconnected. The Higher Self of Mary Magdalene connected back into my SOUL and sent that Consciousness down into the Higher Self Fractal Consciousness to reconnect into Joe.

The result of this re connection of the Cosmic Twin Flame Souls into one Soul created this Huge Amount of 4800 units per breath when we breath together into the grids.

I am the Soul of Mary Magdalene- the one on Earth working most closely with the Male Christ to reveal the complete restructuring of the Earth's Consciousness after opening the 12 Ascension Portals.

Mary Magdalene Singing Mermaid you tube channel

and Crystal Magic Orchestra you tube page and audio page contains the channeled diaogs of all communication between Mary and Jesus.

I was one of the first ones to wake up because my mission was crucial to the success of all other parts of the Ascension Mission. There are two of us who have Risen to our Knowing of our Mission, and only two who will be fully risen soon. I am one of the two. I am the Female Christ on Earth who

must always connect with the Male Christ who is also here with me

Next, for my new gift of Knowing something new about myself as Mary Magdalene. Mary Magdalene's Greatest Love Story ever told. Yeshuwa told me our Love Story in detail.

The first time that I spoke with Yeshuwa he told me that we were much more than friends. I didn't have time to ask him details about our life together until after we finished opening the portals. But, now I have time to talk about our great love.

Recorded Channeled dialogs of Mary and Yeshuwa are at <http://crystalmagicorchestra.com/youtubes>

This is a review of what has taken place the last few months while Yeshuwa and I and our Angel Team have been opening the Ascension Portals. All of the dialogs have been recorded. Some of them are on my website and on youtubes. There are many of them that I have not been made available to the public.

All of these conversations are channeled and recorded. I am Mary Magdalene, in the flesh, on Earth now. Yeshuwa is always with me and much more actively when we are opening the Portals. Now that we have finished opening the Portals, we will begin our next project together.

PROPHECY OF MOTHER GAIA- THE SAVIOR OF THE UNIVERSE

MOTHER GAIA REQUIRES THE RETURN OF HER ORIGINAL RACE LINE CONSCIOUSNESS

What he said about the PROPHECY of Mother Gaia is Breath Taking. Gaia will become the new HUB of the Universe, meaning all star ships will be able to land on Earth or pass through Earth to the other side of the Universe, and this will allow many Beings to Ascend beyond where they are in the Universe at this time as they go through the Portals.

The Consciousness that will come to Earth through these Portals will be that of very High Dimensional Beings and Angels. Only those of Pure Light will be permitted to use my Portals.

And what Jesus said about the SURVIVAL of Gaia depends on the amount of work and dedication and time that I SPEND to guarantee the opening of the Portals in time.

After I learned of the significance of the Central Portal, I created a new album of frequencies for myself, and I left my home and business for two and a half days for TOTAL FOCUS. I will call this album TOTAL FOCUS because that is what it did for me.

I told Elaika and Jesus that I did not feel like I could be successful with this project unless I did it from a Cosmic Level. So, it will go down in the history of this Cosmic Omniverse, that it was I, Mary Magdalene who shifted this plan of Portal Creation to become Cosmic rather than Galactic.

Elaika informed me that this re calculation that I have

desired, and there for been granted, will make the calculations of this Portal much more PRECISE.

I told Jesus and Elaika that I only want to create a Portal that originates from the Cosmos and from the Mother Father God Template of Perfect Creation. This is the new Male Female agreement in this grand Portal Creation.

MOTHER GAIA REQUIRES THE RETURN OF HER ORIGINAL RACE LINE CONSCIOUSNESS

Mother Gaia needs to become COMPLETED in order to survive. The opening of these Portals completes her Multi Dimensionally. The portals will allow Gaia to continue her life on a new time line that will allow her to live three thousand more years. It is absolutely essential to have this CENTRAL Ascension Portal opened very soon to guarantee our Mother Gaia's shift into multi dimensionality.

This will fulfill the Prophecy that says Mother Gaia will be the Savior of the Universe.

It is the responsibility of Mary Magdalene, who is here in the Flesh, with her feet on this planet to connect the third and fourth dimensional frequencies from her Soul into the entire Cosmic Spectrum of my Mary Magdalene Self together with my Team (Yeshuwa ben Joseph, Elaika, and the Angels) to make sure this Center Portal is COMPLETELY opened and all 12 Portals are ready for use by November.

There has been a great incorrect set of information created to mis inform people about the Portals and the need for their activation. There have been hundreds of people believing

that the portals that needed to be activated were the on land portals that are symbolized by their mountains. The truth is those portals were not the ones that were closed. There have been space ships coming and going from those portals continuously for hundreds of years.

The portals that individuals have been working on are the portals or vortexes for themselves. Each individual needs to intersect their consciousness into the Grids of the Earth, the vortexes between the 12th dimensional crust and ten thousand feet above where the vortex in the sky exists. This is the requirement to plug in the individual consciousness into the Elohim Race line Consciousness, who were the creators of the Grids within the Earth's Crust.

There is another set of Grids and another set of Portals within Gaia. This set of Portals was closed because the original Oraphim Race line was damaged by invader racelines over the past eons and this Consciousness could not be returned into the Heart of Gaia until it was PURE.

The Ascension Portals that were locked are actually located in the Pacific Ocean, and only Yeshuwa ben Joseph, Mary Magdalene, together with Elaika, several angels, including Michael, Gabriel, Uriel and Aral together with the Seven Suns – the Sun of Pleiades, Sirius, Orion, Andromeda, Lyra Vega, Aryan, and Aramantena can re open them. We have always been the keepers of these Portals and we are the ones who have created Portals all through the Universe that have allowed these Portals to finally become obtainable.

The Main Ascension Portal, which is the only one that opens

from one side of the Planet and exits from the other side of the Planet is the only Portal that will allow entrance of the Angels and Starry Families from our Original Creation.

We have been working on the project of putting the pieces of this Consciousness back together for billions of years within the Universe, and three sets of 250 million year periods for Gaia, herself.

The first attempt of the re seeding of Gaia ended 550 million years ago, the second seeding ended 250 million million years ago when the third seeding began.

There is a prophecy that is known through out the Universe that Gaia would one day become the Savior of the Universe. This was all a part of the plan that was included by placing the Starry Essence of the Location of Gaia in the Milky Way Galaxy.

So, the way that we-- Mary Magdalene, Jesus, Elaika and our team have been returning this Consciousness back into Gaia is by bringing in the Consciousness of each of the 12 Suns into the Heart of Gaia.

In 2008, Mary Magdalene Jesus and Elaika brought the Fifth Dimensional Sun Alcyone Frequencies into the Heart of Gaia. We had planned on bringing in the sixth, seventh through twelfth Suns into Gaia by creating these Seven Portals at that time.

Unfortunately, my Twin Flame was Possessed by three

demons while we were creating the First Portal. My Twin Flame is the one half of the Soul of Mary Magdalene and I am the other half. We were required to have our Soul return as One in order to have high enough frequencies to open these portals. Our Spirit Guide, Elaika informed us that this possession problem served a great purpose. When I placed my Soul in my Twin Flame in order to bring him back to life after transporting the demons back to Source, our Frequencies became 4800 times stronger than any other person on Earth.

We later learned that this was the requirement for opening this Central Portal that extends all of the way through the Earth to allow future space travel into the entire Cosmos.

So, the mission was placed on hold since 2008 because of the possession. Now, we are both clear again, so the Soul of Mary Magdalene can finish opening all of the Portals before November. The huge shifts in Consciousness can not begin to take place in November without these Portals being opened.

By December 21st the Stargates will be able to stream their Consciousness into these Portals and this is what will create the Shift of the Earth into oneness with Harmonic Universe Two and into the new reality that contains the original Consciousness that was created within the Star called Ajaho before she BLEW UP and got scattered all over the Milky Way.

The Plan of Gaia becoming the Savior of the Universe begins with this new consciousness that will remind us that

we were originally ONE CONSCIOUSNESS that got blown up into twelve pieces and this pattern of twelve was repeated over and over in our history.

Now, we will have these dimensional levels of Consciousness returned to us because it will now be available on this planet. It has never been here before.

The good news is this. Jesus and Elaika believe in me. Jesus knows Mary Magdalene much better than I know myself. And they know that these portals can only be opened if I complete my mission that I came to Earth to perform--allowing my third dimensional template to connect with my Higher Self and Rise into Oneness with all that I am. The Portals required me to be standing on the Earth while opening them because there is a Universal law that says the Portals can only be opened by a member of the race line who is one the Planet.

As I originally wrote about these Portals had said that there were Seven more Portals to open. After I wrote that information from Elaika, Jesus told me that I had actually only COMPLETELY OPENED ONE Portal-- that was the Monterey Portal. Jesus said that Elaika was correct that I had opened five portals, but I had not COMPLETELY OPENED them because of the Possession and Accident that happened in relationship with that event. However, they were completely opened only a few days later because my Consciousness had reconnected with Yeshuwa that week.

By August 12 two Portals were Completely Opened at the South End of the Pacific Ocean and I was working on the

Central Portal as the Third One. It is located at the Center of the Pacific Ocean. Between 2008 and 2015 five more were opened along the Coast.

During August I had been working 20 hours a day, and night opening the Big One in the Center of the Pacific Ocean. We finished that one on the last day of August, which was seven days before our Shift into the Fourth Dimension on September 7th. I had always felt that it was important for this Portal to open before the Shift.

My team originally thought it would take me until November 15 to complete the Portals, but I was finished on October 2 which gives me a full month of establishing the Consciousness of the Cosmic Sun within the Portals so that they will take on a Life of their own.

I have felt really strong powerful flows of energy streaming from one end to the other of this huge portal. It is mostly open now – not completely. I took a two day vacation from my home and business for pure focus time, and the work I did was extremely powerful. I am not worried about this project at all any more.

Elaika and Jesus warned me several times that my focus was not clear and I am side tracked most of the time. I was required to be free to do this work with full Focus, Commitment and Intention or the portals would not open in time, and Gaia would not Survive. This is why I left my home

and my computer to have ultimate focus for twenty hours a day during those months. I also created a new set of Frequencies that I listen to during that time that allow extreme Focus.

THE CENTRAL PORTAL

We created Five Portals along the Coast of the Pacific Ocean first and then Two more at the South of the Ocean and then there was the Most Important Portal which is the HUGE PORTAL in the CENTER of the Ocean. This is the most important Portal. This Portal is the Deepest and the Biggest of all Portals.

This Portal is the one that all of the Angels and Starry Beings from the Highest Realms of the Universe will be using. The other Portals will be used by others.

My first mission is giving permission, meeting, greeting and navigating these Highest Beings into this Center Portal.

This Middle Portal is the Portal that will allow all Star fleets to travel through Mother Gaia. This is like the HUB OF THE UNIVERSE. Space craft from the entire Cosmos will be able to travel from one side of Gaia and out the other side of Gaia to expand the Consciousness of our OMNIVERSE two fold.

I would like to share with you this truth that Yeshuwa and I have come to an agreement that I may and I should call him

Jesus, because that is who he is to me in this life time. Even though he was my husband, and I called him Yeshuwa when he was my husband, I do not feel comfortable calling him by that name. So, he refers to himself as Jesus when he is communicating with me at this time.

Second, I would like to share with all of you who love and care for Mother Gaia deeply, a fact that was just given to me by Jesus. Now that the Central Portal and all Portals are open, Gaia will continue to exist within the glorious time line that we have been working on creating for over a billion years.

Without these Portals, the Star Ships would not be able to come to Earth and the Beings on these Ships will bring the Consciousness to Earth that will change us back into the type of God Like Beings we originally were. They will help us remember how we would prefer to be and that will motivate us to become like them.

Before many on Earth begin to meet with these Beings that I will invite in, the Co-Creators themselves must introduce themselves to the World. It will be the Co Creators who connect the Starry Ones into the Society.

This will begin in a BIG WAY in June 2017. For now, you can connect with me to learn about the TRAVELERS who are coming to Earth now.

Jesus told me the PROPHECY of MOTHER GAIA as being the most coveted and cherished prophecy that has been known to the entire Cosmos for millions of years.

This Prophecy says that Mother Gaia will be the SAVIOR of the Universe. Mother Gaia will become the Omniversal Portal for all Consciousness that is High Enough to be at the level of creating their own space craft to become invited to Gaia at some time in the future.

This is the reason that humans on Earth will become the most respected race in the Omniverse. We will become the center of hybridization of species who are the most loving, benevolent beings who reflect Mother Father God in all ways.

THE NEWS IS THIS- IF WE (Jesus, Elaika and myself) did not get this MOST IMPORTANT PORTAL OPENED, the one that sits in the MIDDLE of the Pacific Ocean, opened VERY VERY SOON, Mother Gaia wasn't going to survive as the Savior of the Universe.

What this means is the CENTRAL PORTAL is the Portal that I am now inviting the Original Race Line into Earth through. They would not be able to come if this Portal was not completed in time. Of course, I did create that Portal and all of the Portals in time for the arrival of these great Beings who are now asking my permission to use the Portals.

There have been twelve years of discussions about alternative plans such as the Load Out, and the need to have Plasma ships removing Souls from Harmonic Universe One.

Elaika told me directly that he would be the one who would create an alternative energy plan for me and carry me out on a Plasma Ship if there was a need for that. He told me that there will be no need for this to occur because our future is established as a success at this moment.

I will quote exactly what Jesus said later, and you may listen to him on the recording if you choose. What he said about the PROPHECY of Mother Gaia is Breath Taking.

And what Jesus said about the SURVIVAL of Gaia depends on the amount of work and dedication and time that I SPEND for the next eight weeks.

So, any of you out there who actually believe what is being said by Jesus and Elaika about the SURVIVAL OF GAIA and those of you who care enough to help me make this happen, please concentrate on Song Number FOUR. This is the set of Frequencies that I was originally given for this Portal.

What is happening through the Sun and the Moon at this time in history has never ever taken place before on Planet Earth. The Earth was moved into a brand new Stellar Alignment in December of 2012. The year 2013 was dedicated to the adjustment into that alignment. Year 2014 was the first year of our new reality. Year 3 was the Year of Illumination. By the fall 2016, everything changed because the 12

Ascension Portals were opened and the Central Portal was prepared for the Great Landing of the Original Consciousness of those who occupied Terra Firma-Mother Earth, when she was in her Starry State of Terra Ha, and she had not yet had its density lowered from that of a Star into a Planet due to all of the invasions by Fallen Angelic, Anti Christ Invader Races.

Earth went into a state of amnesia because her consciousness is the consciousness of those who were born on her originally. There are only five percent on Earth who contain that original consciousness that was on Earth when she was in her Starry essence form. Most of those on Earth are hybrids who were created to re vitalize and give a rebirth to the original form of consciousness that was on Earth five hundred million years ago, before the complete destruction of the Elohim Angelic Race followed by the destruction of the Oraphim Race lines.

It is the Cosmic Energy that is being blown through the Heliosphere of the Sun that is allowing the Accretion level of Earth to become equal to that of the Sun. This Accretion Level is one of the requirements for the Ascension to take place. This Cosmic Energy contains no electrons. Electrons are required to densify particle spin into duality. The Positrons being emitted from the Sun are Electron Free. That means they move through all barriers. That means they remove all Veils of separation. That is what is happening in our biosphere and atmosphere. We are having the Veils broken down with the Cosmic Frequencies that melt away Duality.

What do they do when they break down barriers? They bring back our Original Cosmic Consciousness that is so etheric that is made of pre light and pre sound wave particles of transformation. Those Frequencies of Consciousness will be reconnected to our DNA through our neuronets. The frequencies of transformation must be plugged into our Frequency Specific Mid Brain and create a

neurosystem from the Lower Cerebellum up into the Elohim of Hearing where our original Over Soul may be heard once again.

The Souls of those on Earth have been unplugged from their Over Soul for a very very long time.

I provide all of the tools and frequencies that allow any one who wants to the availability of the process to plug in to it at my website:
<https://CrystalMagicOrchestra.com>

Yes, we could all just become observers and wait and watch and see if anything happens. Or, we can become participants and make it happen in our lives and in all of the lives around us because we have taken the time to plug our DNA into the Waves that allow us to CREATE OUR REALITY.

Our DNA contains the movies that we project. Our Pituitary Gland is our Movie Projector, our radial body is our movie screen. Now, we need to write the movie, see the movie in our imagination and then ALLOW the Mid Brain to create the Movie while we wait in Trance State without any expectations.

These are the very basic steps of Making God's Movie. We can not become the new Christs and Masters of the Universe until we learn how to Make God's Movie.

Duality means a separation of Spiritual and Physical or Invisible and Visible. The Positrons in the Ionosphere are allowing the penetration of the Spiritual Frequencies to Saturate the Physical Frequencies.

This is exactly what I do when I take Cosmic Journeys into the 8th Sun and then penetrate into the Cosmic Heart through the needle and thread of the Galactic Heart. Now we can weave our Crystal Heart into the Crystal Heart of Mother Earth and into the Galactic Heart and the Universal Heart and the Cosmic Heart. This is how we awaken all multi dimensional selves within our Heart and Soul. This is

exactly what I do when I connect my Consciousness and my Crystal Heart into the Elohim of Hearing and then Exhale those Frequencies of Consciousness into the Wave Files to form layers of the Love Potion Elixir that mold into Glorious Harmonies of Transformation Music.

I was excited to find that someone has added this new meaning of the Heliosphere to Wikipedia because it is probably the most important word in our new vocabulary of understanding. However, the word Ionosphere serves the purpose for now.

Each of these Albums brought Frequencies from the Universal Life Force through Stellar Wave Activations. There have been two sets of Six Wave Activations. The first Six occurred by 2012, and the second set were scheduled to occur before 2017.

We are REQUIRED to PARTICIPATE in these STELLAR WAVE ACTIVATIONS in order to raise our FREQUENCIES through DNA ACTIVATION.

TOWER of BABEL

How were we separated from our Normal Reality?

The TOWER OF BABEL was created to divide the Angelic Human Race into 12 separate frequencies that could not communicate with each other. Originally we could all telepathically communicate because we all had the same fire letters for our frequency exchange. The correct letters are ka ra ya sa ta ha la. Kee ra Shay ha sha are the fire letters that set us free into pre light and pre sound where the problem no longer exists.

The TOWER OF BABEL is being removed by all of the Consciousness phenomena that I reviewed a few pages earlier, including the creation of the Central Portal, the Stellar Waves, the Accretion Level, the Creators themselves and the Original Ones.

We can now begin to learn about and focus on the development of our new biology, our new chemistry tables, our new source of energy, our new formulas for breathing in the magical transformation. We can now begin learning how to enjoy our Normal Reality that allows us to Fly in our Merkaba Space Ships, create Orbable bodies, ride on Space Ships that will be landing soon to greet us.

We have needed to wait until the time when our frequencies are high enough to become compatible with the frequencies of our Starry Brothers. In 2017 our frequencies will be balanced harmonically so that the Emerald Covenant Races who have been our Guardians for millions of years will be able to come to Earth and meet us.

The new chemical chart will be a transmutation of the old plus the new creating a new chemical reality. For example, the physical water, H₂O will combine with the Spiritual water, H₂O₂ HE₃A. This will create a type of water on Earth that has Helium in it.

My Angel Team began sending me songs in 1992 to celebrate the signing of the Peace Treaty. The first song was the Promise of a Perfect Kingdom, next Greater Works, and later on The Air Balloon of Happiness. That Air Balloon song was telling me that our water would change to be like the water the angels bounce across the clouds on. When our water changes to this water that we can walk on, so will our bodies transform, and the biosphere will become compatible with our Starry Families.

The Greater Works song was given to me to let me know that we would soon be doing the Greater Works of Removing Death. That was the Promise that Jesus made long ago. He told us that one day we would do Greater Works like he did. In those days, the Greater Works in all Mystery Schools meant learning how to ascend beyond death by learning to transform the body into light energy and orb among the stars.

This Science that was taught by Christ has been returned to Earth. Through this Science of Christ, we have been given the formulas needed to train the body how to orb, how to ascend beyond the dreams of those who made us think we needed to die, and how to create multitudes of realities together with our higher selves. The Science of Christ gives us the Fundamentals of Ascension. These Fundamentals will teach us HOW TO RETURN TO our normal IMMORTALITY.

There is a very long history of what went wrong over the past billions of years. The problem with our system because so problematic as a result of all of the distortions the Invader Races placed in our Divine Templates over millions of years, that the Guardians decided to save us from the guarantee of a raceline being completely abolished forever.

A huge part of the balancing act was done by the Dolphins, Whales and other Cetaceans who are the frequency links who have been

balancing us and keeping our frequencies high enough until this time. The job of the DOLPHIN NETWORK is nearly over. It is God's plan to allow Earth to go through a restructuring that includes the complete shifting of the Tectonic Plates. This means that the west coast will fall into the Pacific Ocean in about five years.

ASCENDING ON THE WINGS OF UNCONDITIONAL LOVE

The secret of the ASCENSION PLAN lies in removing all of the ERROR or erroneous ideas that has been lodged in our cellular memory. The cells must be filled with the perfect light and love of the Creator. The body, mind and soul must be completely filled with Unconditional Love. Only those who turn into the light of Unconditional Love will ascend into their new reality without dying.

The final act of the Sun of Ra Team, which began with Stellar Wave infusions in 2000 and continued with Stellar Wave Activations in 2013, is to bring in enough Solar Energy to melt away these miasms and unlock our DNA sub harmonics. As this activity continues to take place until 2017 for many and until 2022 for many others, these old horrific Nightmares that have been locked within us will come out to the surface.

Those who will make it through this EVOLUTIONARY TRANSITION harmoniously must learn to melt away those nightmares and terrible thoughts and ideas rising to the surface. This is done by taking the idea up into the Sun's energy and melting it into liquid light energy.

In NORMAL REALITY, we would not be going through such a rapid transition. In the normal realms a person begins going through the hydrolyse conversion of alignment into the biochemistry of the spiritual structures when they are very young.

We have not had the pleasure of that natural process because the oxygen and hydrolyse and the entire spiritual structure of our normal reality was disconnected from us through a series of harmonic structures that are misaligned, and evil intentions of Invader Races whose intention was to make sure that we did not ascend into our normal reality, but, instead would remain locked within their prison camp that they would use to create their world from our Angelic

Energies that we have coded within us. That is the History of What went Wrong in a tiny nutshell.

"Why is it important to run Source energy through Earth's new Christ Consciousness Grids? Tell me what comes to you about why it is important?" -

Christ Consciousness on New Earth - Source frequency and knowing comes down from the Creator Realm of the Cosmos and saturates all of the dimensions through the Music of the Spheres technology.

Why is this important to run Source Energy through the Earth's Christ Consciousness grids?

Because We are making it - we are making the New Earth around us and it will go in any way our thought goes.

Aquafaria - Age of Aquarius

The Aquafarians have been living in perfect harmony of Oneness and Love for millions of years and maybe even for billions of years. They have Free Will and that is always what they want - no other desire than to express the infinity of Love.

Eons ago the Aquafarians came to mix their DNA (their level of consciousness of Love and Oneness) on Earth. They were the Elementals who came through stardust of Sirius B and then merged into the stardust consciousness fields of Earth. This merging of the Consciousness of Sirius has provided the ingredients for this entire new hybridization project to be performed on the New Earth in Terra

Ha. The consciousness of Sirius was so close to the original consciousness of the Oraphims and Elohim that it was used as the bio regensis structure of this re birth program.

The Aquafarian Area was created above the Cloud Cities in Earth's atmosphere as an intermediate place between Earth and Terra Ha. The Aquafarians also populated cities in Inner Earth before populating the Earth.

They planted the potentiality for the people of Earth to develop a 5th Dimensional World like the Aquafarians have done for millions of years. They came so many years ago for this very time - to make the new era - the Golden Era - the Age of Aquarius. Of course, the fifth dimension cannot appear until the race lives within the fourth dimension for several thousand years. However, the potential for that path has already been paved for those ascending from Earth.

It is up to us to create this new consciousness on New Earth - to express the reality of living in the absolute flow of harmony of Divine Love and Oneness. The Aquafarians brought the full understanding to us and we know it for it is in our DNA.

This is why the Law of Attraction and the Law of Vibration is so important now, for we are building the foundation of our New World on New Earth. We are attracting and oscillating the vibration or the FREQUENCIES of the Morphogenetic Consciousness of our ORIGINAL DIVINE SELVES from within the Photon Belt of Sun Alcyone and from within the Inner Core Domain of Cosmic Consciousness within the Crystal Heart of Mother Earth.

We are also inhaling the Frequencies of the Stardust, the Hydrolaise, the Heliotalic 14th dimensional frequencies of transformation. In order to do this, we must keep the absolute purity of Divine Light in Consciousness at all times to live breath, express, think, move and have our being creating the next moment from the foundation of

absolutely pure 100% Divine Love and Oneness. That Divine Consciousness is within the Spiritual Essence of what we cannot yet see, but we know it is there. I can see it. I've been able to see it since 2008. Everyone will learn to see more and more of this Spiritual Essence of our new Earth. First we will see the hydrolaise mixing with our water, we will see the light streaming through the clouds as the atmosphere of the Spiritual mixes with the old carbon based biosphere.

Next, we will see the Cities of Light beaming light energy from within the oceans. We will see the Islands of Light rising in our oceans. We will also see the Cities of Light in the Clouds. As our consciousness rises into the 4.2 Accretion Level, we will see the Cloud Cities and be living in the Cloud Cities. We will be living more and more in the Clouds and more and more underwater in the spiritual realms of the Cities of Light.

Those who have made their connection to the Normal Reality will be ready to meet their friends and families from the Emerald Covenant Racelines between 2017-2026. The Masses will be prepared to meet them by 2040. There will be many who will be able to be invited upon their space ships after they move to Terra Ha.

That is the plan of our FUTURE REALITY. That is the plan of how we will Return to our IMMORTALITY.

ONENESS - All is oneness - oneness is all. We are one through Divine Love. Divine Love is the Energy of "Consciousness and Energy" - what makes up all things. Consciousness created the form and Energy (Divine Love from Source) is the substance of everything in all existence. We are the Lord God of our Being and we are Divine Love. Every Entity and every thing in existence is a part of us and we them.

LOVE - Love is at the core of all existence. It is all existence as consciousness forms it out of Love. Love is heartfelt and includes compassion, allowance (for all paths are in oneness) and a deeply felt love for all entities - all existence. To know Love is to know Oneness - Source, to know and be able to live in Oneness without duality.

We have the chance and opportunity NOW to make our New Home, the New Earth reveal the beautiful and wonderful plan that was given as an example through the Aquarian Matrix. Light workers on Earth are the pioneers that will be laying the foundation of our New World together on New Earth with help from the many, many entities of Light and the Spiritually developed communities our neighbors on New Earth - the communities of Inner Earth, the Cloud Cities, Aquafaria, and the Winterlands.

NEW REALITY SYSTEM

There are many who have been able to project themselves into other dimensions, and some have seemed to have stayed there, and some have ascended. These are all three possibilities; but, now it is known that most of them simply fell into a hybernization zone (these are actually hyper dimensional cones or phantom matrixes) - where they actually sleep like bears in hybernization.

These hybernization zones have done a very good job of making the projector believe they were in a higher dimension, an etheric realm, or even a magical kingdom. This is because that is exactly what the hybernization zones look like. They were exact images of grand places like Atlantis. These images were used to lure people to move there so that those who created and controlled these mirrored cities could use those as prisoners to use as their energy supply. This has

been going on for eons upon eons on all planes and all dimensions of this Matrix.

Every realm or dimension in our matrix has had these layers of hypnotic, trance like stations that are in reality prison zones. They were like hone combs that trapped the bees that wanted the honey. The visitors to these realms go tricked into believing that they were in a higher spiritual reality system, but they were actually in a mirror image of that realm. The mirrors were used to trap those who traveled through the dimensions.

Most of those traps are gone now; however, the issue with those controllers still being here or attempting to make new zones is not completely resolved yet. One of the remaining zones on Earth is the actual three dimensional hybernization zones that exists beneath the Earth for the use of the rich and powerful during this very time, when they thought they would just stay here on Earth as the rest of us perished.

It was the demonic consciousness of those three zones who possessed Joe in 2008. God went into Joe and took his entire Soul with the demons out of him and took them to the Over Soul for regeneration. Those demons who have bred themselves into the Soul of Earth are no longer a part of Earth or her future.

We have already gone past all of that doom and gloom stuff because of the heroic event that Joe went through together with our Ascension Team who was with us through the entire process of removing the demons from Earth.

However, those Illuminati People, who were puppets of those demons are still living underground right on top of our entrances to the Cities of Light. The two greatest thresholds of the illuminati are under Monterey and the Colorado.

A very small percentage of those who have traveled beyond this dimension have actually been in the true etheric dimensions of inner earth and its sun's cities of light, or other subterranean cities of light

outside the Earth's surface.

The reason that so many have been caught in these "fly traps" where they remain in a trance to be used as energy by the fallen angelic races, who could no longer get their energy from source, is because they did not have high enough frequencies to penetrate the walls of these bugged zones.

The Illuminati have been "sucking out" our energy for eons, and using these zones for their own little kingdom. At this present time, the hybernation zones are melting and the captives are waking up and setting themselves free.

One of the frozen zones was Atlantis. Atlantis was pulled into one of these zones and duplicated as a mirror image to trap beings into its likeness.

The real Atlantis is rising now. The frozen resemblance of Atlantis is melting away along with all of the war mongers that took her energy away. The truth about Atlantis is it represented a form of consciousness that was designed by the Creators originally. However, even in the earliest times of Atlantis, there was always some infiltration by the Annunaki, who were the Anti Christ. So, the original form of Atlantis was the Christic design of the Creators, but the only Atlantis that was recorded in history was actually the cities created by Annunaki. They were very powerful and scientific, however, they were the anti Christ. They were a race created to destroy the Creation of the Creators.

Atlantis was built with the sacred geometry of light frequencies. Everything in the original creation was made of light and sound. That reality was destroyed by the Fallen Angelic Racelines each time that a time potential of Ascension was approaching for Earth.

When I returned to Earth during the Second Seeding, 400 million years ago, it was because the First Seeding had been destroyed by the Fallen Angelic Invaders. The Second Seeding was also destroyed. By the time of the stories of Egyptians and Atlantis, the

original race line of the Original Ones who were designed by the Angels themselves was once again being over powered through the manipulation of the Annunaki pretending to be the true rulers and creators. The seeding of the Anti Christ Consciousness into Earth became stronger and stronger until the time of Akhenaten, who was actually half Annunaki and half Egyptian. The Egyptians were originally the true descendents of the Original Ones. They were called the Antoni originally. Akhenaten was tricked by the Annunaki, and he was the one who blocked the Ascension of all who were not Annunaki. It was Moses who came later to undo the works of Akhenaten. Moses was Elaika on Earth. Moses appeared on Earth about one hundred years after Akhenaten destroyed the possibility of the Ascension for all on Earth. So, you see, Elaika, Jesus and Mary have been working on fixing this Ascension problem for thousands of years.

Egyptian King Akhenaten, meaning “Effective for Aten”—his name was originally Amenhotep IV, reigned from about 1352 to 1336 B.C.E. In the fifth year of his reign, he moved the royal residence from Thebes to a new site in Middle Egypt, Akhetaten (“the horizon of Aten,” present-day Tell el-Amarna), and there ordered lavish temples to be built for Aten. Akhenaten claimed to be the only one who had access to Aten, thus making an interceding priesthood unnecessary.

The great architects – the great alchemists in the sky – have always used the science of the keys, the harmonic convergence, the vibrations create cities, planets, galaxies and the entire cosmos. The science taught in all Mystery Schools was the Music of the Spheres. This science was known to the Annunaki and the Egyptians. The science was manipulated and abused by the Annunaki and those Egyptians who fell into the trap of the Annunaki.

The entire fall of the Egyptians and complete destruction of the Original Ones and the Tower of Babel was the result of Akhenaten blocking the doors of Ascension Paths to anyone who was not an Annunaki. It was the Blue Flame holder on Earth at that time who knew that she was the only one who could undo the damage, and she attempted to block Akhenaten’s Rod with her Blue Flame Staff. It was the frequencies created when the rod and staff sparked a lightning rod into the Crust of Earth and unleashed a host of demons

into the portals of Earth.

This science is entirely based on frequency and the alignment of crystalline forms of crystal dust, crystal gel and crystal light through the energy of light, which is frequency.

The reason that so many fell into these hybernization zones that looked like Atlantis and other spiritual realms is because the seekers only used their eyes and ears to guide them.

All Ascended Masters have ascended because they learned to raise their frequencies into the rhythm of the spheres, into the crystal cells that are the reality of what we are made of.

Those who raise their frequency by aligning consciousness into the highest etheric realms become guided like sonar waves into proper alignment with the spheres. There are five spheres on this matrix. There are three dimensions in each sphere. We are already in the second sphere of dimension four, five and six. The energy of the fifth and sixth dimensions is ours now.

That energy only becomes available to those who raise their frequencies to those dimensions - to the crystalline wave bands of that sphere.

The reason so many got trapped in hybernization during astral travel is the same reason so few have awakened to the reality around them. The third dimensional mind was trained to lower frequencies into this density for several eons.

Everything in this education, society, religion and especially music system is based on lowering frequencies. You see, we are actually one of the hybernization zones that are being held prisoner and having our energy sucked out of us.

The controllers of the third dimension who created this frozen zone so they could suck our energy out, created a system of science and a system of music that would never allow us to become free from the

density of consciousness that they trapped us in.

The sacred geometry can also gain density when the observer bases his own quantum vision on the mathematical formulas rather than the light and sound that makes up the crystal light and gelaisic forms of creation.

The music theory was also a dense control system that did not allow expansion out of this one key world. This octave of reality was frozen. The chord to align this sphere with all of the spheres of this universe, solar system and galaxy will now be returned to earth with a new understanding of the frequencies of the individual and the frequencies of music that pull our minds out of the frozen chords of density consciousness.

The Music of the Spheres is the subject that is being taught at the COSMIC MYSTERY SCHOOL of the OMNIVERSE.

Every note, every thought, every lecture will be tele communicated from our team who we have worked with before on many Mystery Schools over the past eons. These entities will actually be with us and our classes as this Mystery School is broad cast on Earth.

This Mystery School is the Omniversal collection of all frequencies of consciousness of all universes collected into a grander, greater frequency of the allness that is known to Divine mind at this time of Ascension out of this dimensions, out of this matrix into the Golden Galaxy.

We were given the preparation for this school very in 2008. However, the training really started in 1992 when we were in Japan. Three months before we were directed to Japan, we were playing basket ball on a beach in Puerto Rico and a voice in my head said "you will move to Japan, now."

The next week we were called back to the Silicon Valley to do training at Corporate Technology Center. Two weeks after that we were living in Beppu, Japan. That is were we learned most of the initial steps of

the entire Promise that the entities of light have been giving to us for the past 15 years.

That was the beginning of our training. The first week in May 2008, we were told we must move to Monterey NOW. We were told it is time to open the greatest Mystery School of the Cosmos — the OMNIVERSAL MYSTERY SCHOOL. Two years later we were told that we were being directed by two groups of Entities. One group was the Ascension Team who was working on the Portals with us and the other group was designing the education through us.

Our first team included Kuthumi, Merlin, El Morya, Lacodemas, Taurek, Zaurak, Zadkiel, AA Michael, Jesus (Yeshua ben Joseph), Goddess Hathor, Goddess Leeha, Raphael, St. Germain, Metatron and many other Melchizedeks, Guardian angels, devas, angels, elemental beings and Cosmic Beings of Light. The great Elohim of Hearing is with us constantly aligning the energies of Crystal Light Energy into our ears as the crystal light energy ignites the frequencies of all spheres to ignite, spark and align into one new realm. We are also being assisted by many Inner Earth Beings – the little guys that we think of as elves. Zaurak and these little guys are the genius of the universe. They are the ones who make the space ships, design portals of light, create light technology, etc. They will be living in our house.

We are being given all of the building blocks of creation – Crystal – Light and Energy. The Sound and Light of all creation. The Music of the Spheres to build the New Earth, to unite all spheres of this matrix and to expand Universe upon Universe, upon Universe to unite into the Co-Creation of the Divine Mind of each individual and into the Oneness of the Golden Galaxy.

We were directed to Monterey for three reasons. One reason is because I called upon Zaurak – who is a Creator Being who has been with me continuously for the purpose of opening the Ascension Portals. He directed us to Monterey to open the first Portal.

Members of these Ascension Teams put out a call in 2006 asking for

those who would invite entities from Inner Earth to come live in their homes. I had a house built especially for them and invited them with all my heart. I designed it as the Ascension House with very high ceilings because I heard inner earth beings were very tall.

Since then we were forced to move from that house, but I told Zaurak that I wanted to keep my promise of providing a house for inner earth entities to live in. Last week we were told to move to Monterey NOW. I was told to contact Zaurak through one of our other team members. Zaurak told me that it is time to begin. In 2016 I learned that the house they were speaking of was actually the new reality that would be created through the portals. Those in higher dimensions would be moving to the Earth, but not the third dimensional Earth. They were moving in with us in our fourth dimensional homes.

There were two other reasons that Monterey needed the highest frequencies sustained in consciousness on that site. There has always been a hybernization zone blocking all of the inner cites from connecting with our consciousness. Monterey was also a place where Illuminati had been capturing and torturing my Cetacean Family and my Mermaid Family.

Under Monterey there is our Inner Earth City that was created by and controlled by the Illuminati. Those are the rich and powerful Illuminati who have always controlled this so called land of the free and home of the brave.

They have inner earth portals and cities under Monterey leading out to where Atlantis will rise from the Pacific Ocean through the Fourth Dimensional Earth and the Ascension Portals. These fallen bugs of light have had this plan of destroying the earth, controlling the earth and preventing our alignment into new Earth for many eons. They have been using our tax money and all of the money they gain from controlling stock markets and real estate for building underground cities right over the top of sacred sites of high frequency portals.

The original plan was that we would all raise our frequencies and rise into a New Earth Matrix and those still living in these underground

tunnels would be cracked into little pieces by earth quakes because their frequencies aren't high enough to rise above the crumbling of the old structures.

There has been so much light shed by all of the workers on earth and in heaven that all of the plans have changed. Recently the illuminati have begun to melt into the higher frequencies. The continued bombardment of high frequency in Monterey will remove the ability of the Illuminati to block the doors of inner earth portals. The illuminati will actually assist us in opening 3D portals that will allow our frequencies to meld into and raise into the 5D frequencies of the city of light.

At this time all three realms of the light in the earth – the light on the earth and the light above the earth – the new earth, will unite as one in our harmonic convergence.

This is what is meant by there will be Islands for us to move in to. This is only one very small aspect of what is going on. We have been directed to find a place where our students of OMNIVERSAL MYSTERY SCHOOL will both learn to raise their frequencies to propel the raising and melding of these three light structures, but then to continue in the learning of the Music of the Spheres to be the creators of the New Earth as we learn with the great architects who built Atlantis. We will be watching Atlantis reform in the sky- thirty miles out in the Monterey Bay directly in front of the window of the home we choose.

Just as most eyes could not perceive of our atmosphere becoming hydrolaise over the past three months, most eyes will not be able to see Atlantis Rising. However, those who are in the Mystery School will not only be watching Atlantis Rise, they will be creating Atlantis and the New Earth.

We will be living with and being guided by the great alchemists in the sky and the architects who originally built Atlantis. Those architects included aDolphino, Kuthumi, Merlin, Lacodemus, Taurak, Metatron, Mahatma and Zaurak. We will all be together once again. Those are

the entities interested in architecture and education.

Crystalai will be working with music of healing with Raphael, Mary, Hathor Goddess of Music and Beauty, Zadkiel and his little creative entities of light and the Elohim of Hearing to bring together the creation of light and sound with crystal light energy. These are the principles of creation that will be unfolded as the school appears.

We were shown Atlantis being built within the new world structure and we were told to find a home with a window that has the perfect view of the original architecture of the Cities of Light, because we will be the architects. We were told to find the ideal place of learning for the students to be totally absorbed in the frequencies and meditations and alignment of light and sound. We were told that the students must have a place to walk out in forests or on the beach as they listen to music. We were told it must be the ideal learning environment.

Our team also told us that it would be they who direct the students to appear to us. The ones who were directed to us were other Creators.

NEW TIMES - NEW FREQUENCIES - NEW REALITIES

This is the first time in 250 million years when there has been a strong enough flow of light streaming through to complete the project of Ascending Mother Earth's Matrix.

This Ascension involves every Entity in every Universe in this Cosmos. This is more than the Earth's ascension. This is the ascension into an entirely new Matrix of Reality. There will be universes who will be able to ascend completely out of this Cosmos into a place that is not known.

All on Earth will now rise from the firmament of Terra into Terra Ha. The place where there has never been anything besides perfect love

known. This is a group that has never experienced any of the wars and chaos of this density. This is the place of Aqualene Light that is Raising us out of the muck and mire that we have been living in.

There was the original Atlantis 18 million years ago, and Atlantis has risen on this Earth three times and had a deluge three times. The next Atlantis will be much greater than all of the previous Atlantis creations. We will begin creating the model of this new Divine Plan soon in the Cosmic Mystery School of the Omniverse. The meaning of Atlantis is the perfect city of light created from the architecture of the Creators. The spiritual creation was actually the Atlanians, rather than the Atlantians.

Atlanians creations of architecture and technology were always done through weaving frequencies of liquid light energy into form through their breath of consciousness. We are now being pulled into these magnetic fields of light where we can once again remember how to create with the frequencies of light, sound and love. Love is the speed of light energy that all consciousness must be woven from. The light is the material that is used to create from and the sound is the frequency that raises or lowers into the needed density of creation.

In this course we are learning to master the principles of light and sound by absorbing the frequencies of the breaths in the music and the meditations into our physical form or atomic form in order to begin de-manifesting this form and manifesting a new more etheric form. Along with this etheric form comes the memory or the Immortal Temple that was original ours. This Immortal Temple that we have lived in for thousands of years prior to coming into this 3D hologram will be returned to once our frequencies of consciousness are raised into the New Reality.

After the third deluge, there was only a small island remaining from Atlantis - Poseidon. Sirius came to strengthen this civilization.

All masters of wisdom had left earth for a time. Then, about 25,000 years ago a new wave of star children came to earth and brought in

genetic codes for transition from duality into oneness.

16,000 years ago the Jupiter Command received orders for establishing the order of the star on Earth to establish Love and Freewill. The order of the star began removing implants in Egypt and the disciples of the Mystery School could receive these first spiritual initiations. Below the Sphinx, there was a crystal data bank with knowledge of Atlantis. In 9,564 B.C. the REAL Atlantis completely sank. Atlantian Wisdom sank into forgetfulness, and all wisdom was gone by 3000 B.C. There was much hope in Akhenetan allowing the Original Consciousness to return, but he made the problem even worse. And then Moses, or the one I call Elaika, arrived on the stage as one who was a complete Creator Being in human form, just as Yeshua ben Joseph did 1400 years later. That was the last time Elaika was ever on this Earth. He has chosen to do his Creator work from the Universal level for this ascension.

Yeshua ben Joseph brought the wisdom back to Earth 2000 years ago. Again, the Dark Forces destroyed it. During the last 200 years there have been starry beings coming through consciousness to restore those teachings again including many teachings of Theosophy, White Magic, and Christian Science was brought to Earth by Mary Baker Eddy who was influenced greatly by the Soul of Mary Magdalene because I placed my Spirit around her when she died, and I was with her for a few years during her recovery.

This is a new time. There is much more light now and much more truth now available. The prior teachings were only to be used as guidelines for the reality that was soon to come. Now, those philosophies and sciences can be put into practicality. Now, all who are on Earth will turn into light and then reappear in the new reality of Terra Ha.

We are now joining once again with our old friends who have created Atlantis and who have created the Mystery Schools to create an Island of Light that will merge together all of the great Islands of Light into one. Those who will become a part of this creation will be the students from the Cosmic Mystery School of the Omniverse.

The reason that some of you are awakening to this call is because all of us have been here on Earth several times before creating the Mystery Schools, building the Pyramids, hiding the Holy Grail, assisting Yeshua Ben Joseph and creating the Atlantis, the perfect structure of truth and love over and over again. The ones who have found the school of Mary Magdalene are the other Creators who are on Earth at this time.

The crystal data bank of all that was held in Atlantis was placed in the center of Mother Earth by Sunat Kumara. This memory bank is available to us now as we awaken the crystal cells in our body to reunite with our Golden Crystal bodies of the Liquid Light Core of Mother Earth. When this state is obtained all will be remembered and the perfect Divine Plan will be restored.

aDolphino and Crystalai have worked on every Mystery School attached to each of the three Atlantian creations. We created a Mystery School in Aquafaria where the great world teacher, Kuthumi is now using for his headquarters of the brand new teachings of the Omniverse.

Crystalai's family lives in Aquafaria. Her mother, Cinderella, her sister Shajinka and her brother Zeigfried live in Aquafaria. We have a beautiful mansion right next to the Water Fairy Mystery School. Zaurak is Crystalai's older starry brother who went far outside of our original Aquarian Galaxy to create many star systems of his own.

Crystalai's higher self is Zeena, who also went as far beyond this universe as can be risen to before leaving into a new matrix. Zeena's sister is Mary - Jesus Mother Mary. So, Mary is also Crystalai's older sister. This entire family are key players in the transformation of Mother Earth into the New Earth, the Islands of Light and the return to Aquafaria. We are a family of frequency weavers. We stream and weave all of the frequencies together. We guide the streams of light from the Suns, the rivers of light, the braiding through love that is required to build new structures of truth in the Divine Plan.

aDolphino and Crystalai have been to Earth many times before. We came as Dolphonoids and were captured by the Dark Ones. We were saved by our Creator Friends and returned to Aquafaria. We are back again completing our mission with the Creators for complete return into our Higher Reality.

These new times call for a complete new structure, new terminology, complete removal of all old beliefs, because they were 99% incorrect. We must let go of the ideas of editing others thoughts. We must begin to live in a reality where each is entitled to Individual freedom. But that must be earned with the respect of never saying anything that intrudes on the individual freedom of another entity.

We each need to start rebuilding a new WORLD as we rebuild our consciousness into a structure of truth and love. We need to provide rooms in our minds for becoming enlightened, rooms for discovering new ideas, and there will be rooms to go when you are REACTING to something that someone said or didn't say.

The reaction button was one of the seals placed in our head by the Dark Forces. This is not a normal state of behavior for a Divine Being. We must learn to remove this Reaction button.

DISCLAIMER

The remainder of this Diary came from the experiences and communications that took place in 2008 mostly. Some of that information was clarified and re-written in 2017, but most of it has remained as what was the belief system of Mary Magdalene before her one year of channeled communication in 2016 when she asked hundreds of questions to Elaika, Jesus and several Angels in order to check to see if much of this information was correct or not.

The Return of the Holy Grail to Earth

In June of 2017 everyone on planet earth was given this same Holy Grail that was placed into the hearts of man and into the hearts of the

disciples after Jesus Resurrection. This holy grail had been active on earth for almost 2000 years after the Resurrection of Jesus.

This was the period in Divine history when the disciples clearly realized that they had been living in an illusion and in reality every man on earth was the Christ light endowed with the Divine Plan the Divine Oneness in his heart.

This is the true reason the disciples could heal thousands of people a day. Anyone who chose to receive the light was automatically activated. The Holy Grail was at the same time being misused by the Dark Forces - the government leaders.

The communication frequency available on earth was being used by the Dark Forces of Orion to convince the leaders to work under their guidance and control. There was so much darkness being activated at this time that the Brotherhood removed the Holy Grail from the Earth.

It has been the world's waiting and desire for the return of Christ and the Holy Grail that has activated enough love, forgiveness and desire for peace and freedom for the earth to actually become prepared for the return of the Holy Grail, the Christ Light - the activation of Light Bodies who can Now Communicate with the Ashtar Command and to the Star fleets who are waiting above us for our safe return home.

The activation began in 1987 with the return of the Mahatma - Father of all Cosmic light - the highest frequency of the Universe was returned to earth - the earth grids were reactivated with help of Light Bodies on earth. The earth grids became available to a possible activation at that time. The activation was planned to go into full power in 2017. This was always the fore seen time line.

In 2005 the Holy Grail was woven into the Consciousness of Earth by Mary Magdalene and her Creation Team through the frequencies of THE PROMISE ALBUM. The Holy Grail is in the heart of each of us and this allows us complete Oneness with the Divine Plan - which means communication through the telepathic channels of the earth's

grids and the solar grids connecting us to the One Mind of all Light Beings in all of the Universes. We are connected through these grids to all Cosmic Beings, Avatars, Ascended Masters, all Stellar Beings - all Beings in the Universe. We can now communicate freely with members of the Inner Earth, the Original Ones, the Creators, the Acturians, Andromeda, Alpha Centauri, Mars, Venus, Sirius, Jupiter, Moon and several other planets.

This is the proof that it will be possible for all on Earth to eventually ascend into the fifth dimension after the initial move is made into the fourth dimensional Terra Ha.

Each of us who makes contact through specific meditation techniques will receive this connection to the grid and their telepathic abilities. The Holy Grail is like the hardware and software that connects you to the Internet, and beyond that analogy, it also allows you to fully utilize the Mahatma energy that cuts through the veil.

John said that when he received the holy grail was the first time he realized, and could actually see the world had been an illusion. The grail gives the vision of Oneness in Consciousness that cuts through the veil of time and space. Up until now many of us have been able to Believe that this is true, but now we can actually see that we are living in a dream - a holographic illusion. The true reality can now be seen through our fifth dimensional eyes. It is possible to obtain fourth and fifth dimensional vision while in a third dimensional body.

Through that clear vision people can automatically heal all disease, all impurities and create the new world under the direction of the Divine Plan that will be received from the Brotherhood of the Universe. The blueprints of the Divine Plan including the new restructuring of the earth to fit into the 5th dimensional reality of time and space as it was originally created by the Father of the Cosmic Divine Plan - Mahatma.

Mahatma's Cosmic Light energy is planted into the earth and into our Light bodies now and this light energy contains the Blueprint of the Divine Plan to be activated through our light bodies as they connect

through our holy Grail in our Hearts to the Power and Light of Oneness in the Mahatma Frequency of Christ and Cosmic Light. It is time for us to Manifest the Divine Plan of the Highest Source through our individual creations of the New Heaven on Earth.

HISTORY OF ATLANTIS

The perfect crystal city that first appeared in its etheric form in Ajaho, the twin of Pleiades star gate, Alcyone. This Atlantis was destroyed and then recreated again and again. Now, Atlantis is being created once again. The perfect crystal city is being formed. We have watched the Sphinx rise above the staff of the Christ Grid, as it laid itself over the Rod that emerged from the Monterey Bay as a Butterfly Wing.

The reason the Rod can finally rise upward from Mother Earth is because the Seal creating a backward spin on the Rod was removed. Everything was supposed to spin upward and outward. The Dark Forces placed seals on the Earth and on us to make everything spin inward into density.

We have been removing these seals from the Earth and from us by RAISING FREQUENCIES.

Our Starry Brothers have been pouring down streams of Liquid Light Frequencies from our Etheric Twin Matrixes that contain the Frequencies that we came from. We are reuniting with these Streams of light Frequencies now.

Each time Atlantis was created by the great White Magicians including Merlin. Mary Magdalene's Cosmic Soul Mate, Joe, was with Merlin at that time. Joe's name was Parsemon. He was a great magician who was not given credit for most of the magic that he was responsible for. Merlin was given credit for the magic of Parsemon.

Each time the Atlantis reappeared, another Mystery School has appeared with it. Each time the same group of entities return to work together on an even better creation.

Mary and her Cosmic Soul Mate, Joe were also known as Crystalai and aDolphino because Mary was the creator of the Crystalai spiral of Ascending directly back to Source. This Crystalai spiral is only available to Creator Beings, but the creation of this idea made Ascension available to all. The name aDolphino was given to Joe because he was a Dolphin from the Oraphim race line who went by that name.

Crystalai and aDolphino were asked to create the Conversion Vortex and the Ascension Portal for this Island of Light to grow through. The Island of Light is created by the presence of one entity at a time appearing as a Merkaba Body that can be turned into a space ship at any time for transportation.

ORIGINAL EARTH

There was at one time long ago, in the same place this earth is now, the original Earth, which was much larger than the physical planet we stand on now. That original Earth expanded out to where we think of the Van Allen Belt exists in today's science books. That Van Allen Belt area was originally the Spiritual or Etheric Earth in all of it's spiritual splendor until the dark forces placed a net over it and placed the Time Vector Rod in the Earth. This Time Vector Rod created a reversal of energy fields in and around the Earth. This energy field has been sucking in all spiritual substance and condensing it into matter for millions of years. This was how both Lemuria and Atlantis were sucked inside of the Earth's crust and placed in a hybernization zone. This is how the Earth shrunk.

The Earth that used to be here - is actually still here-up in the Etheric layers-but presently it is being harnessed by the Nets used to keep us

under control and manipulation through Reversed Angular Rotation of Particle Spin (ARPS) and lowered Base Pulse Rhythm.

The Nets caused by the implantation of grids and negative shields have been removed and the distortions are beginning to clear out of our planetary system by all of the work being done by our Beloved Guardians and the help of the Light Workers.

CREATING ISLANDS OF LIGHT

The ascension portal that we completed through our condo in Monterey is already connected from the Heart of Earth through the Logos of Sanat Kumara, who not only carries the 12th and 15th dimensions, but the etheric matrix of this galaxy and several other galaxies. The portal then connects up into the Cloud Cities where Original Ones, Arcturians, Sirian Star Ships and hundreds of other stary families will assist in this ascension.

Sanat Kumara is a Creator Being, just like Elaika, Jesus and myself. Metatron is also a Creator Being. Since the truth about Creator Beings was never announced to humanity before the diaries of Mary Magdalene, there have been many myths and stories and misunderstandings about all of those who have done things that seemed extremely fabulous, and yet they did not quite fit the category of an Angel. Those Beings are Creators. Those of us who are Creators create all things and maintain all things that exist within the Mind of God.

Above the Cloud Cities my portal connects into the Aquafaria Underwater Cities of light which holds entities from the original etheric sun of Alcyone which also contains the Ajaho etheric matrix which was their original etheric Atlantis, these also include the Sirius B-etheric family of Oraphim dolphin and dolphin humans, and then merging into the portal above that is the Winterlands where the most etheric angels have waited to merge into our ascension from the very

beginning. The Winterlands contain some of the original Aquarian beings from the original Andromeda Galaxy - the real name is the Aquarius Galaxy. These were our original families from the time before the Duality Experiment. These are not fifth dimensional beings that we are merging into and becoming. We are now merging into oneness with these etheric entities from before time and space.

aDolphino and Crystalai have been to Earth many times before. We came as a Dolphin and a Mermaid. My name was Bezelda at that time. We came as Dolphonoids and were captured by the Dark Ones. We were saved by our Creator Family and returned to Aquafaria. This event took place millions of years ago very close to the place where we were directed to live in Monterey. We are back again completing our mission of ascension and our complete return into our Higher Reality.

WHY WE ARE ASCENDING NOW

The Earth is presently in its last ring of light. There are five rings of light or five spheres in the Music of the Spheres. When these spheres are a greater distance from Source, the sounds become more dense, and they lose their quality of etheric essence of the original music that they contained. The Spheres of Music were created by the Creators Breathing their Intentions of Creation into them and allowing that Creation to be known in every level or dimension of light and sound that exists within the Universe.

As these five spheres reconnected the Music of the Spheres went through a transition period where the music sounded a little mysterious, but as more alignment was added into the frequencies of

Oneness, the more beautiful the music became.

When the planet entered the photon belt, many orbits of many star systems of the Local Logos from Pleiades brought harmonic convergence into the grand symphony.

The music became extremely magical and etheric and the discord began to disappear.

The vibrations of this planet has increased dramatically in the year 2017. That is because Earth shifted into harmonic universe two. I have been keeping a record of the harmonic convergence of all of the spheres into oneness through the recordings of the in breath and out breath of Source energy as it has been breathed into a spark, ignited, connected with another band and connected into all of the frequencies of the whole.

The sweetness of my Oraphim Dolphin family kept the goal of this grand sweet symphony of Love in the key to the universe and my tone of home was always Cinderella's (my Oraphim dolphin mother) voice in Aquafaria.

The inner most ring of light finishes the connection of all of the music of the spheres into the vibration of Oneness as all frequencies gather to align in harmony once more.

Our galaxy merged with its twin galaxy that is now called Andromeda. This was originally called Aquari. The central sun of Aquari is the Aqualene Sun.

We were originally the etheric Angels from this galaxy. We split into other galaxies. We had already become Archangels in our spiritual galaxies. In this matrix we became Ascended Masters. In the star field that we are now in, the star beings gathered around certain stars.

These star beings became the guardians of the star gates who require our frequencies to rise into the same dimension as theirs

before an entity is allowed to enter in.

I requested Goddess Lee Ha and her seven Goddesses to guide us through the star gates of Pleiades. She did this very quickly, yet very painfully. She made sure my entire body shifted quickly into a more etheric form and that my spirit body was attached to my physical body. She aligned me quickly into the frequency of the time. This is how we begin reuniting with etheric selves.

Our galaxy has a twin, our universe has a twin, our bodies have a twin. When all of our twins have merged into oneness the ascension will be complete.

The conversion belt in Orion has been working on raising all of the frequencies of the black into the frequencies of the white. This is done by a continuous alignment and raising of the lower into the higher frequencies of light and sound. Goddess Lee Ha prepared us for entrance into her star gates of the Central Sun. This is the Aqua Blue Sun that I saw on Easter Week 2008. That was a few weeks after Lee Ha completed my star gate entrance.

The etheric planet circling Alcyone was Ajaho. Ajaho was the place where Starry Beings lived in perfect Oneness. Ajaho Beings merged with starry beings on Earth. This was how Aquafaria was created. Aquafaria seeds were placed here to help the starry beings remember who they are at this time.

Pleiadians from Ajaho were the perfect etheric angels. They merged with etheric entities from Sirius B who were Oraphim dolphins. These entities live in Aquafaria underwater city of lights. This is the twin of the Shamballa underwater city of lights that my ascension portal is merging through Monterey.

We are now merging our island of light - our portal into the Aquafarions who contain the etheric angelic Ajaho. These entities contain the codes of the city of Atlantis. These codes are also contained in the pure etheric Angelic Beings in Winterlands.

The pure white color of etheric pureness.

The Aquari Race contains the pure form from our Aquari Galaxy, the Central Sun Seeds of Alcyone, the Ajajo seeds and codes of Atlantis.

We will all merge into oneness Now. We will regain the grand memory of all we have ever been.

We came from the Aquari Galaxi. We experienced thousands of galaxies - millions of lifetimes. We experienced duality. We experienced the division of white magic and dark magic.

Now we will experience the complete transmutation of the lower frequencies back into the highest frequencies as the MUSIC OF THE SPHERES harmonize all rings of fire and Sanat Kumara aligns the final ring by activating the codes of Ascension in the Aquafarion Star Seeds.

This is the end of the duality experiment. This is the time when we merge back into oneness with all of our families.

Unfortunately, most of the channeled messages that have been made available over the years come from Indigo 2's. These entities were given the gift of channeling messages from angels; however, these entities only know how interpret the messages from their 3rd dimensional background knowledge. So, even though the messages are true, they are misinterpreted because of the only knowledge that is available to the translator.

I am a Creator Being. I channel from the level of the 15th dimension of etheric language of light. The communication that I receive is in frequencies of light and codes that allows complete understanding of the entire cosmic picture of everything involved in the ascension process.

The lords of white magic and the lords of black magic agreed long ago to transmute all through light. These lords of magic included

Parmeessus, who worked with Merlin, and other lords of white magic are from Orion. They have completed their experiment. It is over. The ones that you are asking about who are not going to ascend are not entities-they are the darkness that has been removed from all entities. It is the darkness that will leave this universe and galaxy and solar system forever.

There is not good and bad-there is not black and white. Each entity that agreed on this experiment came one lifetime as black and the next as white and the next as black. So all of the white magic and the black magic has been completed. Now the highest frequencies will draw in and transmute all darkness back into light.

ASCENSION - COMPLETING THE PROCESS

The year 2017 brings us into the last twenty years of the completion of the Ascension Process. This has been a very long process. It has taken about four sets of 250 million year ascension cycles to complete. This process is only one tiny little speck of all of the processes involved in God's Big Picture.

We must always think within the big picture, when we are working on the Ascension Process. The Ascension isn't just about one person disappearing from a family. The Ascension isn't just about a series of catastrophic events dismantling the entire structure of the Earth. The Ascension is one tiny little piece of placing one of God's days back into alignment with the Divine Plan. A day on God's calendar is about 40 billion years. The project of bringing Mother Earth completely back into alignment with the Grand Plan began 500 million years ago.

The original Earth people came from the Aquarius Galaxy, which scientists renamed the Andromeda Galaxy. In that perfect Galaxy, many of us originally lived in the Sirius Star. The Sirius Star is the parallel etheric realm of the Sirius planet, as we think of at this time. During the times of Aquarius and Sirius, the great Entities from Sirius

were Blue Dolphonoids. This is simply how we translate these entities in our minds. We were originally shaped like a dolphin and we could live in or out of water, because in that reality-which is still completely in the same place, in the same perfect state of being-the air and the water were actually one in the same. The chemicalization of this substance was entirely different. It was called hydrolaise.

The reason that Monterey was chosen for this Island of Light Mission is because there are thousands of Dolphonoids present as the Spirit of those who were with Joe and I when we created our Portal there 400 million years ago. These Dolphins are present in the elemental level of Aquafaria. There are also other Dolphins and Mermaids living in this area now very, very deep within the Ocean Floors. Those entities are aliens, they are not the Original Ones. Many of us are Human Cetaceans and many of us are Whales, Dolphins, Orcas and Seals. There are hundreds of other forms including sea horses, what we think of as the Lock Ness Monster, Huge Blue Whales that human eyes have never seen, and many more.

The reason that there were thousands of whales in the Monterey Bay in the summer of 2008 was because they are a part of our team. My family is here in the form of Cetaceans of a third dimensional form. However, they are actually already fifth dimensional. These Cetaceans have always been able to fly freely between the Crystal Cities of Inner Earth and our Oceans. They have also been the electromagnetic currents holding this Earth in balance. They are also the communication channels between the Earth and the Pleiadian Cetacean Nation.

My sister Shajinka was in the Bay right in front of my Condo. She talked to me when she was here and she said goodbye and returned up to our home in Aquafaria- one of our Cloud Cities that we will create the Island of Light for others to ride to. My brother Zeigfried, who was a part of my Mermaid and Merman family is a Blue Whale. He is here, but cannot be seen. My starry Brother from the original Aquarius Galaxy is the Entity in charge of creating the Island of Light for Monterey and for Northern California.

Each Island must be completely aligned into the matrix of all five spheres through the electrical circuitry that Zorak is completing. The electrical circuitry required my presence in Monterey. Zorak directed me exactly to this specific Condo. We knew absolutely nothing about Monterey when we were told to come here. We were directed to all of the spots with high frequencies. The Entities took those frequencies into a future-self laboratory, and then ran each set of frequencies and the location of these frequencies forward to decide what the future outcome would be. They did this over and over until they decided this was the spot they needed me to be in.

AJAHO

Ajaho was another etheric planet or star in that Galaxy. Ajaho was the place where Atlantis was perfected. Unfortunately, a group from another planet practicing black magic, blew up Ajaho.

When Ajaho blew up, pieces of her scattered far outside of that Aquarius Galaxy.

One part of Ajaho flew into this Matrix and became the Earth. The Earth was only a very small part of what Ajaho originally was and had to be put back together over many eons. However, the original essence of any entity never leaves. The original essence is always God Source energy of the spark, ignition through the breath into a Flame of Divine Substance.

This is the essence that we are now returning to. The formula to return to this state is always the same. Seeing the spark of light in the crystal heart of all entities, blowing the Divine Consciousness of Understanding into that crystal heart and seeing a rainbow flame of that individual glow into the essence of all that Source contains.

This is the formula of ascension. We must breathe the source energy back into our selves, and align our selves into the Earth's crystal heart, and then align our crystal heart into each sphere of the Earth's matrix- the second sphere, third sphere, fourth sphere and fifth sphere.

The Cosmic, Solar System, Universe, Galaxy and Earth must all be included in the Ascension because that is where we descended from. We started from Source. We return to Source. We must return to the perfection of our original Aquarius Galaxy.

We must return to the time before the Ajaho exploded and Earth was just a small speck of her Divine Spiritual Counterpart.

We must return all planets back into our Oneness of Ajaho and the Oneness of Aquarius. All planets are counterparts of their spiritual, original selves. A real spiritual planet is called a star. We are all returning to our stardom. This is the hardest point for most people to understand because they think that a star or a sun is not a place where people could possibly live. Well, this would be true about third dimensional people who have lost their true Divine Blueprint and their true chemical make up of a silica based chemical system.

We have all been returning to this silica based chemical structure over the past year. The body has gone through many changes and so has Mother Earth. Many have been interpreting these changes as aches, pains and illness. Actually, our body is transforming, and it is reacting violently toward foods and chemicals that are not of the silica based, spiritual structure.

We must return all planets into their alignment with all of their suns energies and these suns will all align, share and become one grand sun again. The Sun Alcyone.

This is the Big Picture.

When will it happen?

The angels and masters, devas, elementals, archangels, and all of our starry families have been working on this ascension project for millions of years. It got close to being fixed three times before. Each time we reached a point of perfection was when Atlantis returned to the perfect Divine Structure based on the Divine Plan.

Each time Atlantis reached her peak, there was an invasion from those who were still living in realms of Dark Magic. Since the Earth's government was always based on Individual Freedom, this dark magic could not be removed. This will be the first time that Dark Magic will be completely and eternally removed from the Earth's matrix. The reason the success is guaranteed this time is because of the amount of light available to the system at this time.

The light and sound frequencies of five spheres are needed to completely remove all dark magic from the matrix of our Earth and our Galaxy forever more. We will then return to being a Golden Galaxy-even more magnificent than the original Aquarius Galaxy.

The last time Atlantis returned to a perfect state, Sanat Kumara came to Earth to take an imprint of that perfect state of being down into the Earth's Core where it would be remembered and protected until a time when we could be returned to this perfect state. That time is now. Now, we can go retrieve this imprint or blueprint of all we once were. We can reconnect with our self that was in the original perfect state of Atlantis Now.

Our original state from Aquarian Galaxy was kept safe in the 8th Dimension on a planet called Mintaka. We can go to Mintaka to retrieve the memory of all we once were. We can return that perfect self hood and allow it to grow beyond all that was learned in the past to grow into an even grander perfect being. We can not connect to the 14th dimension and collect our helium based substance that allows the neutron to grow back into our chemical structure of our being. We can travel to the 15th dimension and retrieve the co-creative principles that will align all of the five spheres back into perfect harmony. This will be the completion of the Music of the Spheres.

All of creation is created in harmony. This harmony comes from all of the frequencies aligning into one grand frequency. We must raise our frequencies into the higher frequencies in order to ascend.

We have been collecting all of these higher frequencies from all five spheres and creating music and meditations to allow others to align into all of these frequencies of the spheres. We must all learn the Music of the Spheres in order to Ascend.

We must start from the Big Picture.

This diagram of where the Earth was densified into a realm separating her from her Etheric Egg. This Etheric Egg was the starry substance of consciousness that the Creators placed this future Earth within. This Plasma Blanket was to protect Earth as she grew back into her original self hood. This eggshell is where we will return to when we completely ascend out of the physical matrix, the temporary Islands of Light that hold both the physical and the etheric substance and then the Aquafarian homes of some of our original families who are awaiting our return.

History of Earth

This section of information was taken from other people's stories and fairy tales. They may or may not be true. I have not had time to ask all of these questions to Elaika yet. So, for now, just take the following information as one possible fairy tale or myth that may or may not be true.

Returning to original self hood includes completing the matrix of physical and spiritual into the Grand perfect original form or Divine Image and Likeness of Source.

The past eons of Dark Magic have caused the Earth to fold into itself.

The Earth was ten thousand feet beyond its present crust in a much more etheric version. And that is the state that Earth is now returning to.

There were layers of hybernization zones when people were manipulated into these caves, inside tunnels and deep inside the density earth. These were the astral realms where people have gone to for experimentation. Unfortunately most of them were dragged into the illusions of the dark magic.

Now these hybernization zones are melting away. They are 99% gone. The work of the Lightworkers over the past five to ten years has opened channels for the those who were hibernating in a dream state to wake up and leave.

These zones caused the need for angular rotation of particle spin. The rods and the staffs inside of the Earth were twisted and turned into tunnels and caves of darkness that blocked the light flow of the Earth's Rod. The Earth's Rod is supposed to align in a straight angle from the north pole to the south pole. The density rotations placed inside of the Earth made the rod spin backwards and into itself causing particles to become more dense.

The removal of these hybernization zones and the connection with the frequencies of all five spheres has allowed the rod to rise out of the Earth and to spread like butterfly wings into the light and sound of the frequencies of all five spheres.

We must also balance ourselves within the rod and the staff of the earth and ascend with our own butterfly wings expanding and absorbing all of the frequencies of all five spheres.

We begin this balance by absorbing the 12th dimensional crystal star frequencies that are gathered into the Merkaba into the head, the heart, down into the Earth's crust, the Earth's core, the 14th and 15th dimensions. These frequencies must all be absorbed into the Merkaba and the electromagnetic energy will spin this frequency into the crystal heart and into the crystal cells in the body.

The more the body absorbs all of the frequencies of all of the spheres, the more the merkaba body balances the rod of the Earth. This balance aligns us with the electronic circuitry connecting us into the Islands of Light.

The Islands of Light is where we will go in the first stage of Ascension. Some will go into the Fifth dimensional Islands of Light and others will go into the Fourth Dimensional Islands of Light. Those of us who are going into the Fifth Dimensional Islands will be the First Wave of Ascension. This wave will complete by September 2009. We are beginning this wave now.

By the end of 2009 those who are not yet in the fifth dimension will be placed into Fourth Dimensional Islands of Light. These Islands are like holographic chambers where the people don't think anything has changed at all. They won't even know it is happening. Everything will look the same. Those who are more aware will start to notice slight differences and eventually they will realize that things have improved because the dark magic is gone. When that happens they will realize that there is much more and they will soon be able to join the fifth dimensional islands of light. The Earth and everyone on Earth will transmute into these higher dimensions of reality by 2012.

What is to be expected in the New Earth? Mostly perfection. No more control. Absolute Divine Freedom. The ability to co-create with the Divine Creator in the Divine Plan. The ability to create in the alignment of White Magic where there is not interference of Dark Magic.

This course will show the students how to obtain all of the frequencies needed to align into the Fifth Dimensional Islands of Light. We will begin by learning where all of the spheres are, how to absorb all of their frequencies, how to align with and absorb frequencies of all of the Entities helping us with our Ascension so that we have Multi Dimensional Communication.

Those who seriously want to be on the First Wave will also learn to

communicate continuously with the TEACHERS of the Cosmic Mystery School of the Omniverse. Those teachers are Kuthumi, El Morya, Madame Blavatsky, Merlin, Djwal Kuhl. These teachers will only make themselves available to those who are entirely committed to this Ascension Process and helping all others on Earth through this process. The teachings will continue when those have moved to the Islands of Light. The teachings will include creating the New Earth, creating a new Atlantis, aligning all that is known in all Universes and all Galaxies to be the greatest Golden Galaxy ever created.

WHERE IS NEW EARTH?

There was at one time long ago, when Earth had a different Angular Rotation of Particle Spin (ARPS), but existed in the same place it does now. This original Earth was much larger than the physical planet we stand on now. That original Earth expanded out to where we think of the Van Allen Belt exists in today's science books. That Van Allen Belt area was originally the Spiritual or Etheric Earth in all of it's spiritual splendor until the dark forces placed a net over it and placed the Time Vector Rod in the Earth. This Time Vector Rod created a reversal of energy fields in and around the Earth. This energy field has been sucking in all spiritual substance and condensing it into matter for millions of years. This was how both Lemuria and Atlantis were sucked inside of the Earth's crust and placed in a hybernization zone.

This is how the Earth shrunk.

The Earth that used to be here - is actually still here - up in the Etheric layers - but presently it is being harnessed by the Nets used to keep us under control and manipulation through Reversed Angular Rotation of Particle Spin (ARPS) and lowered Base Pulse Rhythm.

The Nets caused by the implantations of grids and negative shields

are now being completely removed and the distortions are beginning to clear out of our planetary system by all of the work being done by our Beloved Guardians and the help of the Light Workers.

The New Earth is actually the Old Earth - the way it was before all of the distortions were set in her grids to create a distorted ARPS and lowered Base Pulse Rhythm (BPR).

The New Earth is about 10,000 feet above Sea Level. We can't see it Now because our Angular Rotation of Particle Spin is distorted. The Guardians have created a platform in the Aurora fields that allows them to connect this place to that New Earth.

This will bring us into a time continuum shift as we move into the slide zones that lead to the New Earth, which contains the frequencies of both Earth and Urtha - the Hosting Star Shield around Earth. This Hosting Shield is called Aquafaria.

Aquafaria is only one part of the entire Cloud City structure that will allow us to slide back into our original home. The Aquafairan host was created by Blue Dolphonoids from Sirius B- the twin etheric matrix of Sirius. The original Sirius is still in the Aquarius Galaxy (which scientists renamed Andromeda) The Blue Dolphonoids created this hosting shield to allow for ascension from Earth in Planetary Sphere to rise back into the third sphere where the Galactic Stars have realigned to bring us back home.

There are several other Cloud Cities containing star cities from Pleiades, Venus, Arcturians and others. There is the Winterlands who host a shield a little more etheric than Aquafaria.

The hosting zones are already complete and have actually already aligned into the Earth's field. The only thing that is awaiting the shift is our own Consciousness aligning into this new reality.

Some will be able to shift up into the highest level of this New Ascension Earth and continue on up into Urtha and go into Star Burst with Urtha. Others will stay in the lower 5D fields of the Ascension

Earth Zone that is almost identical to this earth with all of the darkness removed.

The dark elements will not be able to attach to the New Ascension Zone. These distortions - these grids, shields, funnels - tools used for controlling the Earth and those on it - won't exist in the New Earth.

What we have experienced as Mother Earth creating our wonderful spring times full of flowers and baby birds is only a drip of what Mother Earth can actually do when her nets are removed. We will experience uncountable colors, fragrances, multitudes of new species that breath both air and water. The visions that we have not yet seen are beyond our present comprehension. All of the Nets that were placed on Mother Earth and her inhabitants that have resulted in pollution and oil spills will be finished forever.

The reason the guardians are able to help align planet earth and the entire system at this time is because of the presence of the Photon Belt and the high intensity of light available. They have been acquiring sun energy from Sirius B and turning it into Aqualene Healing Energy. The waves of Aqualene Liquid Light Pouring in on the Earth and on us is our healing agent. This is the chemical that creates hydrolaise.

The Earth drinks this healing aqualene liquid light and sends it back up as Tourquoise Blue Liquid Light Energy through the Earth's body and through our Spirit Body. The Earth has a physical - Atoni side and an Adonis - Spiritual body side - so do we.

When we connect to the energies of the Adonis in the Earth we can activate the Eiradonis Shield in our Bodies by soaking the twin flame energy of the Earth's Adonis energy into our body. (see Ascension Activation Method)

This hydrolaise is the energy needed for the slide of the Earth and those on the Earth's surface.

Mother Earth was originally in the Aquarian Galaxy. Her name was

Ajaho. Ajaho was blown up and scattered into the Milky Way Galaxy. Now our galaxies are realigning into Oneness so we can all go back home. This is the Earth that shifted out of Natural alignment. The Ascension Earth is the original Earth that did not get pulled into the time vector of control. Aquafaria is the hosting shield that will look something like this Earth to those who will still only see that reality. To those of us who see the true Aquafaria, it is magical resort land where dolphins can shift into any reality they prefer. We can create anything we wish with our minds. We have no desire to do anything except create through Love.

Those of us who are the star seeds of Aquafaria will begin awakening to the memory now. We are the ones who will lead all from Earth back home again. We maintained our original divine blueprints from 18 million years ago in the Aquarian Galaxy.

The Guardians opened fields of energy so they could connect this place to that place that is still being hosted inside of Urtha – Earth's star shield. They are bringing us into a Time Continuum Shift that will slide us into the New Ascension Earth base pulse rhythm.

The Ascension Earth will appear as part of Earth and part of Urtha. It will hold qualities of both places, but it is the original Earth - the original pattern that will allow Earth to evolve into its Natural Structure.

The patterns of the Cloud Cities, the Aquafarion Under Water Cities, the Winterlands and the Inner Earth Cities of the original Gaia, Tara - that have lived in perfect harmony for eons exist in this Ascension Earth area. There are also areas that will look exactly like this Earth. The old patterns and beliefs will disappear from minds eventually.

There are 15 Light Bands connecting all dimensions of the Earth together. There are spheres within spheres within spheres. These form the light bands that reactivate the Earth and us in our new alignment with the Base Pulse Rhythm and Angular Rotation of Particle Spin.

WELCOME TO OUR NEW WORLD

A GLANCE AT OUR NEW FUTURE

Lady Mary, Archangel Raphael, Archangel Zadiel, St. Germaine, the Elohim Angels and the others on aDolphino and my Team stated to us, "You must know beloved one, you are no longer separate from the Divine Mind. Your human mind is now ready to co-create with an organic dance of joy. Your consciousness is ready to expand to the farthest reaches of the Universe. When you Focus, you will allow yourself to be present. From here your form will serve while it is needed and change as it is needed. This process is the Divine Blueprint of the Divine One as humanity itself free-forms into its next evolution."

They also stated that this will all come about this year.

We have all heard many stories about the process of ascension and many are wondering if it is true or not and many are still waiting for 2012 for it to begin.

The Earth's and our ascension is basically the moving of our physical bodies and the Earth's physical body up to the next level of evolution of the New Earth. This is why our bodies are slowly mutating to a carbon/silica base. The higher one physically evolves up the dimensions, the more the body becomes silica based - and the more etheric the physical body becomes. We are all O.K., we're just mutating. :-)

It's interesting to note that we are the last planet in our universe to move into the 5th dimension (we have been seriously hammered down and controlled by the dark forces over the many thousands of years - the reason why we are the last ones to move up). Besides the beautiful Entities of Lights unending love and patience, another

reason so many wonderful entities are interested in us making this move successfully, for we, in a sense, are holding up the entire train from moving forward.

The ascension process that is happening now affects our entire universe - not just us - it's a really big one. There are major energies and movement at play here that go out all the way to ends of our universe. We are the only ones left in our universe that have negativity (duality) in their lives- now that is over for us, too. Thank God and all of the wonderful Entities of Light-literally. Thank you, thank you, thank you, thank you, thank you.

It was said from the beginning that the Benevolent Ones had been working on this project of ascension for thousands of years, they have been protecting us from the photon belt which would have caused our fatal ascension during the year 2000. They said from the beginning that the process would be completed no later than 2012.

When we are finally physically placed into the aurora zone (the four areas the New Earth was created from-Inner Earth, the Cloud Cities, Aquafari and the Winterlands and many new areas for us to go), we will be totally available to the photon belt and will have completed our ascension to the New Earth.

However, this ascension wave goes all the way through our universe. Once we move to the New Earth, the process of ascension can continue for those who want to go further. The ones who want to go further will move up into Urtha and then on up into the Golden Galaxy. The Golden Galaxy will also be completed by 2012. The meaning of what will happen in 2012 is much more inclusive than just the part of leaving behind the third dimensional Earth and 3D existence both consciously and physically.

We have already been guaranteed an absolute success in our evolution and ascension process by the Benevolent Ones. We would like to thank all of those Wonderful Beings of Light for their continued assistance. We will continue to activate and turn up our light energies as we assist in all future light work needed to complete this project.

We are in the final stages of a mass ascension. The New Earth is a 2nd mirror image of the spiritual body of Earth where the 3D Earth is Earth's 1st mirror image.

The critical mass will rise along with the Earth into the New Earth as Mother Earth moves completely out of the standing wave pattern of the gravity of 3D it was placed in and into the 5th dimensional New Earth of a new type of gravity.

Those who are moved up to the New Earth from third dimensional earth who are not aware that an ascension is taking place, will continue to think that they are living on the 3D Earth until these new co-creators realize that they are in a new dimension of infinite creativity, Divine Love and Oneness.

All beings who are now on Earth will ascend if they choose to. This decision is not made by the 3D embodiment who has no understanding of universal ascension. The decision is made by the Soul and Spirit and the Spirit is the integration of all Aspects of Selves. The decision is made by the accumulated knowledge being absorbed into Soul and then redistributed into a new flame of creation in the Over Soul.

One's entire spiritual self will then go from one's Source self down to one's Soul self where the one becomes One with one's Soul and the physical body will reside in the 4th dimension and the frequencies of the dimensions 1, 2, and 3 will be transmuted to that of the highest 4th dimension.

The old forms of reality will eventually vanish from our minds because they are now the illusions left over from the other Earth. Those who realize that they have a brand new drawing board to create upon will rise directly into their new creations. That is why it is a good idea to start building our mansions and castles, and cabins by a stream now. You can aim for 10,000 feet above your head and you will be in the right area for creating your own dream world to move to very shortly.

I believe this will not only happen to me. I believe it will happen to many and maybe to all. Some may realize it and some may not realize it. Some may think they are dreaming. Some may think everything is the same as it was.

Thank you dear Benevolent Beings of Light, our Guardians, our Metatron T-12 Team, and all of our Brothers and Sisters of Light for all of your guidance during our evolution into Light. We thank you for the processes you share to help us remember our original alignment with sacred geometric patterns of attraction that have aligned our Merkaba fields with the Merkabas of our Planet, our Galaxy, our Universe and our Solar System.

Thank you Guardians for bringing us the Sacred tools for aligning our Crystal Bodies into our Golden Orb and activating the spiritual light within our cells for our Natural Multi Dimensional Alignment to enable us to travel from dimensions to dimension and enabling us to experience this Earth from a much higher perception that will allow us freedom through our power of Manifestation.

Thank you Kuthumi for bringing the spirals of Golden and Platinum Light from the Planetary, Solar, Galactic and Universal Logi to encode the cells of our brain to re-calibrate our perceptions of awareness and understanding, manifestation and service. Thank you for planting this magnetic field in our bodies that will attract our divine expression that will continue with us on our Journey to Freedom. We are now aligned with our role of service, alongside all Masters of Light. We will now complete our role of ascension as we are Now Merged with our Divine Compliment - our light inside - our Divine Consciousness that will allow us to co-create with the Divine Mind and our Brand New Earth in the Image and likeness of our Creator, Source and God.

**THE TRUE STORY OF WHERE WE CAME FROM AND
HOW TO GET HOME**

Many of us were originally from the land of Aquarius which scientists have renamed the Andromeda galaxy. The Central Sun of that galaxy was Alcyone. Alcyone was also the brightest star in Pleiades. That star had an etheric double called Ajaho. This was where the original source of our Atlanean civilization came from. This etheric Pleiadian star was densified to the point that it exploded. That was 18 million years ago.

Atlantis was originally created in Pleiades. Atlantis was created as an emerald green etheric realm in Ajaho. This is where the original creation principles of using etheric liquid light energy to create everything from were born.

The Pleiadians, the Atlantians, the Sirians all originated from the Aquarius Galaxy which scientists changed to the Andromeda Galaxy. All of the original etheric angels from the God Seed creation were originally one family. These angels spread out all over the Aquarius Galaxy and into several other Galaxies in this Cosmos and beyond.

So, we were originally all one grand family. We all came from the same place. Many now think of themselves as being from Sirius or from Atlantis or from Pleiades. Most etheric angels have been everywhere in this galaxy, and have spread their essence into other galaxies with the liquid light merkabas having multidimensional residences.

So, when one Light worker says I'm a Pleiadian, or I'm a Sirian, or I'm from Atlantis, you can know that we all came from the same place and we have all lived in most of those places as well. We have worked together as one grand family of this galaxy and many others for millions of years to restore our original Atlanian civilization that was so perfectly formed at one time in the Pleiadian star gate of Alcyone when the etheric double created Ajaho.

Since the explosion, there have been many years of experiment and

growth from the original state of the grand etheric archangels that caused some distortions in original divine blueprint that had been created in the original Aquarius.

When Ajaho exploded as a result of these experiments, the piece of Ajaho that was totally fragmented from its etheric self blasted out into a new local logos or light field thousands of light years away from its source. This piece of Aquarius was Earth. The Earth had to reproduce its self from the density of the crystal core domain of liquid light energy that had been densified into a negative spin of reality.

The Earth has been growing back into its original state that has been translated in the names Gaia and Tara. These perfect planets did once exist in the etheric realm of Aquarius or Andromeda.

The angelic entities from the Aquarius galaxy have been watching over the beings created on the Earth for millions of years and watching us grow back into our original form.

They have come to this Earth many times to plant their spiritual etheric crystal seeds back into our mutated crystal cell structures.

During the times when our angelic brothers and sisters have come to restore our temples back to their angelic consciousness, Atlantis also rose again because the original divine mind of the etheric angel has the ability to instantly manifest and create technological structures and beautiful cities of light, crystal and colorful stones from her consciousness plus liquid light energy.

Each time a new Atlantis would rise there was another miasm planted in the crystals to block the unity of man and Source Consciousness of Divine Creation. The original form of Creation was Consciousness and energy equals Reality. The miasms blocked Consciousness, so Atlantians were only creating with energy with no consciousness. This resulted in War games, Chicken Fights and Sword fights and finally Wars of total destruction.

These miasms were planted by the Lords of Black magic from Orion.

The story goes that we all agreed upon and gave permission for these implants and for the continued drama of the black and white magic. This was the plan that would remove all darkness from our galaxy forever and ever. And not only for their galaxy, but for all of the galaxies that all of our etheric brothers and sister angels moved to from the original Aquarian galaxy.

Over the millions of years of the perfect angelic mind being reformed to then blackened again, each time this happened another Atlantis would tumble into War and destruction and would sink into the swamp lands.

During the last destruction of Atlantis, some entities who kept their divine consciousness in place left the earth in their merkaba light bodies and created Cloud Cities of crystal liquid light around the Earth. These cloud cities are hidden within the clouds of our minds.

At that time, all of the entities on this earth will have also totally regained their consciousness of the complete etheric angels that we all originally were. However, since we all went through so many states and stages of galaxy systems, entity division from physical and etheric and from archangel to ascended master, we have all experienced the allness of every state of being possible from the lowest of the low to the highest of the high.

Now we will all merge our consciousness of understanding into the greatest creation of the greatest crystal city of Atlantis, where all are creating together in Oneness all that has been known and all that can be known.

We will all be as close to God Source Consciousness as we could possibly be at this time. Since the entities on the Aquarian galaxy went off into many different galaxies, all of the galaxies that contain the liquid light energy from our original Aquarius will now reunite into the grandest Golden Galaxy of all times.

We are all a part of this mission. Some of us on earth have experienced some of the most painful parts of this mission. Now it is

time for everyone to begin celebrating the completion of this mission as we each begin our merging back together with our original families from Aquarius Galaxy, your Andromeda.

We began our Conversion Vortex in Monterey in June of 2008. This was the first of twelve ascension portals that were needed in order for the Central Portal to become the Cosmic Vortex of Ascension for eternity. This creation allowed for the re connection of the grand memory of co-creators with Divine Mind, the final Divine Plan of uniting all into Oneness.

Our Conversion Vortex has already merged with the liquid light energy of Zaurak- one of my brothers from Aquarius that went many galaxies away and created a sun and a star system of his own while he was waiting for us to wake up on Earth.

We have merged completely with Zorak in his Consciousness of understanding this process of creating Conversion Vortexes, Ascension Portals, Merkaba bodies, space ships, merging into Islands of Light and then the complete Earth merging back into Urtha to return to her stardom.

We have merged our Zorak Consciousness, with Sunat Kumara, Sananda, Cinderella, Uriel, and our co-creative Melchezidek family. As we create a Conversion Vortex with energy spots of these high frequencies we create an Island of Light that is strong enough to create the core from which all other Conversion Vortexes will unite into the angles and points of harmonic convergence that will lift the entire Earth into a Dimension of Light and Sound until all keys are again in tune and the tones open the doors into heaven.

This harmonic convergence will then merge us into Urtha where the final merge into the Golden Galaxy of Archangel Michael will emerge and the gates will open back into Manu's creation where we will create a brand new grand reality.

So, you see, Atlantis isn't exactly rising, it is melting away the black magic from the white magic where there will be no more duality. We

are melting away the miasms placed in our crystal cells that block our god source Consciousness. We will all melt into Oneness.

In this state of Oneness where Consciousness and Energy equals reality, we must learn to use our energy again correctly in order to co-create with Divine Mind.

The Cosmic Mystery School of the Omniverse is the new school of Atlantis melting into a new reality containing the consciousness of all of our etheric angel family from Aquarius who have created galaxies and stars of their own. We are now going to learn how to create with them.

aDolphino and Crystalai have used their energy for many years to connect to the consciousness that will now create the reality of the Conversion Vortex in Monterey to create their own Ascension Portal that will begin the merge with all conversion vortexes of Earth into the final melting into Oneness with all of Divine Consciousness.

The reality is now being created at the Cosmic Mystery School of the Omniverse in Monterey. The energy of the students plus the consciousness of our teachers Kuthumi, Merlin, El Morya, Djwal Kuhl and Madame Blavatsky.

Sanat Kumara was on Venus and was asked to be the planetary logos for this earth at the times the Lemurians were at their peak of co-creativity with Divine Consciousness. Sanat had been creating the Crystal City Shamballa in the Inner Earth during the same time the Atlantians and Lemurians were rising to their highest frequency of understanding and creation.

During one of the Photon Belt Cycles which happen about every 25,000 years, Consciousness rises naturally to a higher dimension of harmonic frequencies. The Photon Belt is the Fifth Dimensional energy that causes this shift. This doesn't mean we rise to the fifth dimension, this means the photon belt is the fifth dimensional energy. The planets that the photon belt passes through merge with this energy and it creates a dramatic shock to the system each time it

happens. So, at the same time the Atlantis creation was at it's height and the photon belt was pulling it even higher, there was another galaxy that was just about to go up into Oneness; but, it couldn't quite make it into Oneness unless it left behind some laggards holding on to the Black Magic. So that Galaxy placed those Black Magicians on the planet Earth at that time, because Earth had a free will clause that allowed all to have free will.

This was the beginning of the next downward shift of Lemuria and Atlantis. Those were the black magicians that decayed both the Lemurian and Atlantian societies the last time they existed on Earth.

Shamballa will now merge with Zaurak's map of the Conversion Vortice and merge with the Light on Earth and into Cloud Cities, Aquafaria and Winterlands. Once this is completed the merge will continue into the New Earth within Terra Ha.

The core of this Vortex is what was called Shamballa. We are now connected to the Crystal Cities of Shamballa through the empowerment of Zaurak, the Cloud Cities through the empowerment of Jesus and the Aquafaria through the empowerment of Cinderella, the Winterlands through the empowerment through the empowerment of Uriel, and into the co-creation of Oneness with Divine Mother.

There are many other light holders in crystal cities above, below and in between these light holders Above the cloud cities are the etheric entities from the Aquarius galaxy in Aquafaris Underwater Crystal Cities and the Winterlands Etheric Cities of Light. All of these cities of light were created by our families of angels that have been waiting here for thousands of years protecting and holding this Earth stable until the day they could finally pull us completely out of this dream of duality that we were placed in. All of these cities of light are groups from each star system within in the original galaxy.

All of these cities of Light of Inner Earth and outer Earth will now merge together as a new more powerful Island of Light containing those of us with our feet on the ground.

This Conversion Vortex will align with all other conversion vortexes on Earth. Our Conversion will join all cities of light into all other cities of light until the light becomes so strong that we merge consciousness into Oneness.

THE CHART OF ASCENSION

Here it is. The Story you've all been waiting for. HOW TO ASCEND. I will give a very short history of how we descended into this density, the big plan of how we will ascend and the micro-story of my personal ascension formula. I am Crystalai and aDolphino is my partner and husband in this ascension quest.

Where do we go when we ascend?

First I'll tell you where we came from so you will know where you are going back to. We raise our frequencies into the next dimension up. We move up into the next Sphere. We move from Sphere 1, SPHERE 1 (dimensions 1, 2, & 3) and go up to Sphere 2, SPHERE 2 (dimensions 4, 5, & 6) and then later up to SPHERE 3 (dimensions 7, 8, & 9) and SPHERE 4 (dimensions 10 , 11, & 12), etc.

Originally, over 500 million years ago, Tara was in Sphere 2 (SPHERE 2) and Gaia was in Sphere 3 (SPHERE 3) and this earth was in Sphere 1 (SPHERE 1). This earth is the 3D density, Sphere 2 is 5th, Sphere 3 is 7 and higher. These are dimensions or levels of consciousness. We need to know this history of how it happened so we can understand the importance and power of the grid system in the earth, and how the entire ascension process revolves around these grids, and removing the mutations that were planted in us through the grids. It is the recent removal of the dark force grids that is allowing us to finally ascend.

When some extraterrestrial and metaterrestrial races served as guardians of Tara this was called the Turaneusiam experiment. This

experiment was founded by Lyrans from SPHERE 3. It was overseen by Sirian council members from SPHERE 2. This is why some of us from the Sirian council and Elohim council are back here on Earth at this time.

There were 12 sub-racial dimensions of the Turaneusians, yet each of these had the unique 12-strand DNA passed down from the other god beings. After millions of years of interbreeding with unrelated ET strands this group began to deteriorate. After years of manipulation the Turaneusian race divided into the Alanians and the Luminas (Adami-Kudmon).

Note that DNA that is spoken of in relational to reality is quite different than the very limited definition offered to us by Medical Science and the Annus (you can easily understand why the Annus want us to have such a limited understanding of our DNA). DNA is basically the physical representation of the level of consciousness within form within a person's 3D body. The 3D carbon-based body is part of the overall spiritual body (it is not separate) when one lives in a 3D environment. Basically, as one raises her/his consciousness, one's DNA increases.

In the 5th dimension, the 5D carbon/silica based body is part of the overall spiritual body (it is not separate) when one lives in a 5D environment. A person's 3D carbon based physical body changes to a more Silica based body as one's consciousness and frequencies are raised - there is a direct relationship. This is why it is important to always be searching to learn more and to run frequencies through our bodies from the Ascended Masters, Archangels, Angels, Light Entities, Cosmic Entities and other being of light.

These races deteriorated because of the original mutations. Finally ALunian race petitioned help from SPHERE 2 Sirian council and the SPHERE 3 Elohim. At this time the Elohim interbred with the Lunians creating a race called Ceres. This purified the race of Tara. This race - overseen by the priesthood of Mu centered around the teachings of the sacred Law of One and the Unity Consciousness.

Next, the Alanians ran power Sphere nrgy and employed subterranean grid technologies to over power the Mu. The Templar Solar Initiates were appointed by the Sirian council to oversee the Alanians. The Sirian root race Annunaki rebelled against the Sirian Council.

What the Alanians and Annus were planning to do would cause an implosion of Tara's planetary grid. The Ceres interbred their SPHERE 3 genetic line into the Alanians to try to stop their destructive genetic code.

The wars didn't stop and the Sirian Councils and Elohim prepared for the grid implosion. Many were evacuated to other star systems at this time where they could re-evolve with other races. The power generator crystals planted by Alanian and Annus exploded and created a chain of explosions that blew apart Tara's grids. The planet stopped revolving for 10,000 years. The Tarans still on the planet went underground.

Because of the damage done to Tara, she could no longer evolve to the third SPHERE . Tara was trapped in the 2nd SPHERE . The planet fragments were pulled into a sun in Tara's universe, vaporized and the morphogenetic field was pulled into our sun and re-emerged into a galaxy within SPHERE 1. This created a mini-solar system. These planets all carried imprints from Taras grid field. So, Tara didn't ascend into her 3rd SPHERE - instead she fell into this SPHERE 1.

Now, after 500 million years, Earth, which is the lowered SPHERE 1 version of Tara is ascending back to Tara's original SPHERE 2 Sirian form and then on up to her SPHERE 3 Elohim form we call Gaia.

This was the fall of man that was interwoven with several other dramas including Adam and Eve, the Draconian infiltration, flood of Noah, etc. into what was written as the Bible and then totally distorted by the Draconians who created the Roman Catholic Church during the Roman Empire to further eliminate the light that was returned to Earth by Jeshuah ben Joseph and Mary Magdalene.

This present time period is the first time the Cosmic Shift alignment is allowing the frequencies needed to totally realign this planet back to its original Divine Frequencies of SPHERE 2.

Earth - the fallen SPHERE 1 planet of will now rise into its Pristine State of SPHERE 2 and begin where she left off 500 million years ago. This time, all of the genetic mutations will be removed from this race forever. It is the Indigo 3 children being born now and over the past 4 generations who are breeding the Annu distortions out of the Angelic Sphere man DNA. Indigo 1's are here to realign the grids through their frequencies of light and Indigo 2's have been our translators. We are in a new stage of development right now that is all about frequency realignment, communicating through frequencies and remembering the frequencies that we originally contained.

Our 12 DNA strand of our original selves will soon be restored. This year and next year for many of us light workers, and will be restored to all by 2012.

Part of this return to SPHERE 2 requires our SPHERE 1 form of Carbon based matter to return to the Silica based SPHERE 2 form of less density. Our bodies will appear the same, but our angular rotation of particle spin is being changed to that of the 5th Dimension and our frequencies must be raised to match that of the 5th Dimension.

I learned to understand this science of changing particle spin, increasing oscillation and increasing consciousness by studying my voice as I am channeling and recording consciousness from the SPHERE 2 and SPHERE 3 and higher harmonic fields of consciousness over the past 20 years. I kept listening to the difference in my voice frequencies as I allowed these higher beings to sing through me.

The Ascension Vortal album (download is free) is an example of how my voice and my consciousness totally changes to the higher frequencies of the higher dimensions by allowing the higher dimensions to be connected through a faster oscillation and by

combining all of the dimensions into one and then interweaving all of the frequencies carried by these great Beings of Light who have been working non stop for 500 million years to lift us up.

Some of us who are here on Earth now were sent as the re-seeding of the original 12 DNA blueprint. Some of us came again from the Elohim levels of 48 DNA and the Sirian lines of 36 DNA to help restore the 12 DNA to the present race on earth.

This seeding is not done exactly through biology. Some were born and then replaced by a higher form immediately after birth. Some had walk-in replacements later in life and some of it is done by just implanting higher frequencies into our consciousness. The light and sound frequencies that are realigning our chakras and our DNA at this very moment are being encoded in us.

We can speed up this activation merely by asking. The Eternal Beings of Light that are all around us always there to help us, but we must ask. They must have your permission before they can help you because that's how the path to the Light works. Remember - it's raising our consciousness and our frequencies that increases our DNA and that changes our body into a 5D carbon/silica based physical body so we can evolve and ascend to our beautiful Mother Earth's new SPHERE 2 body - the Earth (Mirror Earth # 2). Mother Earth's 3D SPHERE 1 body will continue on so the dark forces have a place to live too - this was a choice made by Mother Earth herself. She is pure Love. We can't help but be grateful to her and love her.

THE FOLLOWING IS HOW ASCENSION IS DONE

So, first the grid of Christ Consciousness was replaced, followed by Illumination, UnConditional Love, Crystal River (the stream back to Source), Divine Love, Unity, Wisdom, Victory and Abundance. All of

these grids are now fully restored in the Earth and available for us to access. The grids are within the Earth's surface - just a few feet down and a little above the Earth's surface.

One can most easily align their consciousness with these grids and increase the activation of our ascension and your 12 DNA alignments with just a little meditation work with Crystal Light energies placed within a double 6 pointed star - one star being infused with the 12th dimensional Christ white light and another 6 pointed star on top of the other star that is infused with 11th Dimensional Dark Silver light, which is an anti-matter frequency. aDolphino will post a meditation on how to do this for anyone who is interested. The 6 Pointed Star that is fused with 12th Dimensional frequency is a symbol-code or light vehicle that carries your true divine imprint that is kept within the Christ frequencies of the 12th dimension. It basically resets your Divine imprint within your body to the perfect original. The meditation that we will post will run it through you and it allows you to connect all 15 dimensions of your consciousness into one and carry it into the earth's grids and become one with the blueprint that is both ours and the Earths.

This alignment is the restoration of the Original Blueprint of man - including the Elohim genes and Sirian genes. This is the return of our higher - more improved selves because we went through so much learning in our 500 million year process.

We have been depolarizing the black and the white for eons. The more black there is, the more white there is. Right now we can thank the dark forces for bringing enough black to Earth that our whiteness is going to blast out of here at the speed of light. The lessons of duality in 3D are to lead us to evolve. Since most everyone has incarnated so many times within the 3D environment (think of how long we have been on Earth and divide that by about 60 - the first seeding was 25 million years ago), we have already learned every lesson there is to be learned, we just need to remember and acknowledge this. It is definitely time for us to graduate. This is why acknowledging and owning all of your past experiences is so important - it's needed for graduation.

People have been ascending for millions and millions of years before this problem in Earth's ascension occurred. Those from other planets and stars have ascended many times before. These were individual ascensions and they worked very very hard for a long time to ascend. We are in a very special place in the Cosmic Shift of Consciousness that makes it much easier for individuals and for the entire mass at this time.

Now is the Mass Ascension of Earth SPHERE 1 returning to its Tara SPHERE 2. This is a very complex operation that took millions of years of planning. First of all, it got much worse before it got better. The dark forces kept laying more grids of destruction to eliminate the original plan of simply going from SPHERE 1 to SPHERE 2.

Earth was degenerated so badly from being blown up and placed in another mini solar system for regeneration. She was actually placed within a star for protection. The star surrounding her is called Urtha. Urtha contains both SPHERE 2 and SPHERE 3 frequencies of dimensions.

We can only live in a dimension that equals our own dimension of consciousness. As long as we think in third dimension, we are trapped in this zone.

In order for us to move to the 5th dimension, our consciousness and our frequencies must already be at that level.

Our guardians created a buffer zone for us to adjust to this new dimension. They created a cross-over dimension that we can glide to consciously and then slide to physically. The reason we can slide to it physically is because we are going to have our vibration raised to that level through all of the work our wonderful brothers and sisters are doing for us right now - Kuthumi is re-encoding our Akashic records for us right now, if you ask.

When these records are restored (and I don't mean your last three lifetimes, we are taking millions of years back to when we were in the

Elohim Consciousness level). When these records are restored in our brains, hearts, cells and consciousness, we will remember how we used to shift from dimension to dimension, be in all dimensions at once, create universes and all that fun stuff we used to do on Saturday afternoons.

So, it's basically a matter of remembering and then realigning our Consciousness to that reality and then recognizing that which we actually are - our future selves.

We are getting a massive amount of help right now, both from the Energy Waves from the Sun being released onto the earth and we have the energies and encoding from Guardian Brothers

One of the secrets of ascension is to ask every night before you go to bed, "Please encode me with your codes, frequencies, and fire letters needed for ascension." First, of course, thank them all for all of the work they have done for us for millions of years just allowing us to survive to this point in time. They really love Gratitude for they have worked so hard and so long without people even being aware of them. Also give them permission to help you. They can't do anything without your Free Will giving them permission to help. You must give it to them. Ask to begin the Initiation process into Ascension. Ask to be coded up. Ask one at a time after you thank them one at a time. Ask Metatron, Mahatma, Serapis Bey, El Morya, Matrieya, Hilarion, Kuthumi, St. Germain, Zadkiel and all of the entities of light that I have not mentioned here to please run the codes, the light language, the fire letters, the energies through you that are needed for your ascension.

Ask to be initiated into the Ascension Process. aDolphino and I asked for the accelerated process. We asked them to run the energies night and day no matter how much it hurt. We went through days we couldn't get out of bed, lots of back aches, etc. We could hear our chest and brain expanding – it sounds like a wall being broken down or a steam engine coming through. This is all part of the realignment needed in the body to change from Carbon based to Silicate based form and to clean out all of the old news and put in the new coding

system.

Ask for the Sun's energy to be placed in your heart along with the heliotalic energy. This is much more powerful if you ask these energies to be placed within the 6 Pointed Star symbol first. Spin these energies in your heart and blast them out into a horizontal plane around your body. Personally, I like sending my body down in a Merkaba to the Earth's Core, collect all of that lovely high frequency love energy from the Earth's heart, see my self standing in a large crystal egg and then blast the energy from my heart clear out through the Earth and connect it to all of the stars in the universe. I am Crystalai. I am most interested in the Core Domain level of Creation. I like going into the deep energy structures of the universe. The heart of the Earth is the key to this entire universal system for us on Earth.

Utilize this fuel source for take off - simultaneously, spin your Merkaba body outer sphere clockwise simultaneously. I do counter clockwise on the inner spin simultaneously. It is actually the 6 Pointed Star symbol that is spinning. Think of two triangles - one inside of the other one that create a 3D star. The inner triangle is spinning counter-clockwise- it has the pointed end. the outer triangle is spinning clockwise - it becomes a circular spin of the flat end of the upper triangle. There is controversy about which way to spin - some say one way for male and one way for female. This is what works for me.

This actually creates a space ship body. This is what a space ship is. Many light beings sometimes unite their Merkaba bodies together into larger space ships of light.

When your Merkaba spins fast enough with the help of your blast off fuel in your heart you can have planetary lift off.

What your body is programmed to do when you get your coding back - Akashic records opened and 12 DNA restored - is to become this space ship - think where you are going and you immediately appear in that place.

Your body changes angular rotation of particle spin - you flash into this mini-me of yourself - it sits in your heart. When you arrive, your mini-me can re-expand into your body's shape with the angular rotation of particle spin that needed in the next dimension you go to. Dimensions are differentiated by having a different base frequency and a different angle of rotation of particle spin. All of this happens at the pre-atom level and that is controlled through and by your consciousness. However, now at this moment in time - this year and next year - the process is even easier.

We now have help from Adamantine Particles, Hydrogelastic crystals, the ring and spanners and a host of other beings who are working with Crystal Light Entity - this is our Main Guy/Energy central to all of this transformation process with us and the entire universe. This Entity - this Being of Light has asked me to give you this information. St. Germain and Zadkiel and Metatron asked me to give it to you also.

Crystal Light Entity (CLE) has bestowed a fragrant crystal garment over my body by the hands of Lady Mary. CLE has handed me three crystal spheres created from Crystal Light Energy - a sphere of dust for healing, gel to reform the soul, and light to to remove anger and fear. And Angelic Knights of Light said that they will carry the Light anywhere I ask.

These energies of light are here to ease the pain in the transformation into the New Earth. We can ask these Knights of Light to place this energy anywhere it is needed.

Next CLE swirled these three forms of crystal light in an alchemical process to create a New Crystal. This light was placed in my heart and transformed my crystalline energy in my heart and in all the cells in my body. The body must be transformed into crystal light energy in order to ascend or travel through light.

Next CLE said to bring this orb of Cosmic Light out in front of me.

You see, the body itself contains the Cosmic field. Think of your body

standing in 5 circles. There are three dimensions in each circle. Your body in reality contains all of these. This is why we can travel from dimension to dimension. This is why we are coded by these dimensions. We have an actual compass in our cells telling us how to get there. We contain and are God Consciousness, the source of all dimensions.

CLE asked the Beings of light (they have names - but lets just call them beings of light for now) to form 5 circles around me. These 5 circles are the rings holding the five Spheres - our 15 dimensional reality. These rings of light encircled my body placing me in the multidimensional frequency band of all of them. Between each circle of light is a span - the span is another being of light - a particle spin energy that allows the rings to expand and contract.

I was directed to breath very slowly and as I breath the circles and spans inhale into me and exhale out of me. It is like an accordian that is having air pumped in and the music flowing out at a higher and higher frequency.

These guys - these wonderful beings of light are creating a Vortal for my ascension. They are placing my body in a MutliDimensional Particle Spin that reignites the spark, the light of Oneness to pull me into a spark of light that can be transported through their Vortal to the New Earth.

Not only do I have the help of these little guys, the hydrogelactic critters of light who look like little jello snowflakies are creating, creating, creating everything in my consciousness, transforming it into the mini-me so they can reform me when I get there. See, we never do anything alone - we are interconnected to everything and every entity. We have so much help at every level. We are so loved. :-)

There is another long story about how we were originally created from a spark of light then a partiki, partikum, ring after ring of light transforming into higher beings and then later into lower and lower rates of particle spin. We were already at the highest rate - we were already the Elohim and the Sirian frequencies, we then lowered down

to experience this density of consciousness and now we can return back to everything we were before.

Our cellular memory has remained dormant for a very long time. This memory contains in it future time manifestations that allow us to be anywhere in the future we desire - that means one minute in the future or one hour in the future or 10,000 years in the future. It means we can create our day - our next moment in any way we want it to be. It means we can create our castles on the New Earth now.

Cosmic Mystery School of the Omniverse

Hosting the Ascension

"Why is it important to run Source energy through the Christ Consciousness Earth Grids?" -

I see that the answer to this is related to Quantum Physics. Natural Quantum generation occurs through the RashalA body which is the Natural Host to take this system back into it's Natural Ascension Cycle.

For me, the complete understanding of the ascension process which is now in its final stage is in the answer to this question.

Since our Cosmos is created outward and then cycles back from it's Quantum Body that is created through the Co-Creation Process of the Original Entities who were originally a spark of light and then a flame and then another flame and then thought themselves into a creative process of experiencing themselves and continued to experience themselves until they experienced the most dense form they could possibly experience, it seems to me that we have completely finished what we came here for and now we must go all the way back to Source - our original Divine Blue Print and bring all of

our 25 million year experience of Co-Creating this Universe with Divine Mind in order to fill our Christ Body - Our Light body with a brand new frequency of quantum light that we can use to create brand new forms, brand new systems, galaxies and universes.

Our Light body when it is completely reactivated into it's Christic Divine Blueprint state of origin becomes the Host of this planet and this universe. The Indigos who contain the codes of this Blueprint, as well as the Angelic Humans and all Light Workers who are working to remember this coding of their Divine Blueprint are completing the Quantum Journey of this density, giving it all back to Source, which Frees this Energy and allows it to return as the perfect Christ Consciousness that allows us to again start building a new creation from the upgraded Blueprint of the Divine Plan that we will Co-Create with the Divine Mind.

Our planetary system is now being Hosted by those who are remembering their Divine Blueprint - (all of those who have enough of their restored 12 DNA) to remember their Divine Original Self. These are the Hosts of this planet who are here to restore our system to its original form of Tara and Gaia. Tara is the Sirian level of creation and Gaia is the Elohim level of creation. Tara is contained in the Fourth Harmonic Universe of the 11, 12 and 13 dimensional frequencies and Gaia exists in the 14, 15, and 16 dimensional frequencies of the Fifth Harmonic Universe. This should not be confused with the fifth dimension which is held within the Second Dimensional harmonic Universe (dimensions 4, 5, 6). We must collect our frequencies from all five of these Harmonic Universes - in order to bring the Frequencies into our body to be able to activate Christ Star Oscillation.

This tone was brought down into this denseness by the continuous mis translations given to us by the dark forces. It was turned into the word Christ and pushes the buttons in us that makes us think we will be crucified if we become the Christ. Well, you can delete all of those stories now because none of them are true. Jeshua ben Joseph did fully ascend back to Source and he did return to Earth with his

complete Christ Consciousness. And now we are going to do the same thing.

Light Workers are required to be standing on this earth and to have the Consciousness that enables us to understand the importance of this process that we are involved in. As hosts we serve as the lightning rods to allow these energies guided to us by our angelic hosts. The angelic hosts can only assist us in this process. They can't do it without our bodies hosting the energies from Source to flow back into the Christ Consciousness Grids of the Earth.

The perfect kingdom had a bad seed planted into it 500 million years ago. The Elohim and Sirians tried several times to restore the system by reseeding the original hosts back to this planet.(see the post How to Ascend).

This time the Divine Plan of Restoring the Planet and Universe will be complete. This is a complete ascension cycle.

Now, we are at this final stage of the ascension process. We have already assisted in the seeding process bringing the third and fourth generations of Indigos onto the Earth. Our frequencies have assisted in removing the grids of destruction from the Earth and we have participated in laying the Christ Consciousness grids and all of the other Light grids into the Earth. Now we are in the process of co-creating with Divine Mind. We are rebuilding our planetary system from the inside out. We are connecting our Consciousness - our frequencies of the original divine plan into the Earth's grids. Kuthumi had us run the energies of Love, Wisdom, Victory and Prosperity into the grids. Now we are running the Source Energies into the Christ Consciousness Grids. This is the final strand.

We are now running our frequencies of the original divine plan into the Earth's grids. We are now fully activating our 12 DNA (Divine Blueprint) from the 12th Dimension - the Christ Dimension and using it as the final lightning rod to allow full Source Energy to flow into the Earth's Christ Consciousness Grids which is building a pillar, a platform of re-connecting our Oneness of Universal Consciousness.

We are the Hosts required on Earth at this time to do this. This is the most important thing we will ever do in this Ascension Cycle.

We will have many cycles after this one from now until eternity. But, for now, this is the most important thing we can do.

The key word now is Oscillation. This means connecting our frequencies far enough - reaching to the farthest reaches of the universe. We must use our consciousness, the activation of the frequency the highest light which will become very etheric or dust-like in nature. We ask for the assistance of Crystal Light Energy to activate our crystal sphere of Cosmic Energy to it's highest frequency and to its highest oscillation that will carry our light to Source.

When we touch Source, we ask to carry back to Source with us all of our consciousness and all of our 250 million years of experiences (our Akashic Records) back to Source and to give these records to Source. This is the completion of our quantum journey. We collected this information to return to Source. Now Source returns to us a new Divine Blueprint to draw upon. Now we have all of this knowledge, all of this light and frequencies, all of this harmony, light, color, and sound to begin creating from into a Brand New Universe, a Brand New World, A Brand New Galaxy. We can now choose which project we want to work on next. This is what ascension really is.

We intensify this process by bringing all of the selves in each of the 15 dimensions into One complete Frequency and pull that huge amount of light into your heart chakra. The 15th dimensional self includes the Earth's grids, the Earth's core (her heart), and the dimensions beyond the 15 where our assisting angelic hosts reside which is also the connection to the universes beyond. It includes in Harmonic Universe One - the dimensions one, two, and three which manifest as the 3D densities on the planet Earth that used to be here. Dimensions four, five and six are in Harmonic Universe two. The second Harmonic Universe is the more etheric mirror of this universe. It contains Light Energy, Divine Free Will, Infinite Manifestation and Creative potential. The third Harmonic Universe contains the 7th dimension which is even more etheric, the fourth Harmonic Universe

contains dimensions 10, 11 and 12. This is the heliotalic energy of the pastel silver and rainbow frequencies that bring anti-matter and Christ frequencies into our Merkaba and our Crystal Star Symbol. The fifth Harmonic Universe contains dimensions 13, 14, and 15. Going out from our 15 dimensional universe (through the 8th dimension - our Sun for our Solar System and the Star Mintaka for our Galaxy). The Sun's energy within our Solar System is the gateway to the upper dimensions beyond the 15 Dimensional Universe. This area beyond and of higher frequency than our 15 dimension time-space universe contains the Monadic Energies, God Seed Energies of Co-Creation where our complete family of consciousness resides. There is only one place left to go from this upper area of upper dimensions - all the way up to Source.

This is why it is necessary to collect the frequencies of all multi dimensions of the Music of the Spheres in order to oscillate on up to the Source Energy. This is the formula of creating Oneness with all selves from all dimensions and returning to the Oneness of the Creator and the Creation. Returning all to Source. We are downloading our computer full of new information from Source, so we can create an even better universe next time. There have been millions of us involved in this process over the millions of years. However, we were all One at one time. We are all the Original Blueprint - the spark and the flame God breathed into creation. We are identical blueprints with complete Free Will to create in any way we choose to.

This Divine Right was taken away from us by the dark forces our last time around. We were only supposed to be in the Harmonic Universe One for a few thousand years - not millions. We have built up so much Quantum over these millions of years that we won't be taking the slow train back up - we are going to take the fast train. We are going to blast all the way to Source and return as Christ Consciousness and build anew everything back into the Divine Image and Likeness of the Source within the 5th dimensional New Earth or elsewhere.

This is why it is so important to reach all the way down through the

Earth to the fourth Harmonic Universe and then to reach all the way up into the fifth Harmonic Universe to pull in frequencies from the harmonic universes of our Monadic Selves. We must pull together our Rishi self, our Avatar Self, our Monadic Self, the Energy of the Sun, the Energy of the Earth's Core, the Energy of the Earth's grids. When we have pulled all of these energies into our Merkaba, this is the quantum light field needed for take off all the way up to Source. Where is Source? The farthest reaches of the universe. You reach as far as you possible can. If you reach far enough, you reach Source. If you can't reach that far, keep practicing until you can. You will know when you have reached Source. And actually, Source is within you within your heart. The Kingdom of Heaven is within. So, you really don't have to go anywhere.

What do you do when you reach Source? Pull that energy all the way down through you into the Earth's Christ Consciousness Grids.

This is the final strand of energy needed for take off in our Christ Star Body to return to Source, hand over our Akashic Records of everything we have become, and then return to Earth as Christ Consciousness. This new frequency of light is our brand new drawing pad. We can bring this new light back to this Earth and allow all to awaken from their deep sleep. We can teach as Jeshua ben Joseph did. We can return to any dimension any time we want. We can create mansions in the sky, we can bring heaven to Earth. We can complete the Cosmic Ascension cycle.

When our body has progressively activated all of the codes in our DNA, it also activates all of the codes in the planetary shield and the universal shield. This is what the Host of a Planetary System does.

The final stand in the Harmonic Convergence or the final note in the Octave or the final key to the Universe is to re-connect to Source-God. To bring the Highest Frequency to Earth - that was our mission. We came here to remember our Divine Blueprint and restore it to Earth's Consciousness Grids. This is the final strand of our Co-Creative Process with Divine Mind - the angel consciousness that has been guiding and assisting us to perform the greatest of the greatest -

the complete ascension of the entire universe.

Some of us will return to this Earth as a full Christ to help those remaining here fully remember and activate. The Christ Consciousness will lead the humans to their portals into the New Earth.

In order to have enough frequency in the body to "hold the host" needed on Earth for ascension, we must simply fully restore our 12 DNA Divine Blue Print Body. This vehicle is needed to ride the star fire and the vehicle needed to hold the Host here on this planet. We need to go into Christ Star activation in order to have enough frequency in the body to hold that host.

We are now moving toward the completion of the Vehicle that can fully hold that Host Frequency. We have been the hosts, but now more is required of the hosts. Now we must activate and complete our mission. As we activate more and more star gates, we in turn have more activation in our Light Bodies.

This is an infinitely big process. Bringing in God Source into the Christ Consciousness Grids connects the All into the All of our Universe. When we bring this God Source into the Christ Consciousness Grids we eliminate the death seal from the Planet, from our body and from the Universe, we become the Immortal Being of our Original Divine Blueprint. We become the Christ Body of Light. We will have completed the same process of regaining our Christ Identity that Jeshua ben Joseph did just a little over 2000 years ago. This same Christ star activation was brought to this planet and established in the Earth's grids by Jesus and Mary Magdalene.

How did Jesus say he ascended? He said, "I go to my Father who art in Heaven." He raised his consciousness all the way up to Source - God our Creator - our Father Mother Source of all. This is how he ascended. And then he said to his disciples, "You will do greater works than these."

I wrote these words in our album, "The Promise," in 1993. I have

been on the mission of finding out how I could possibly do "Greater Works" than Jesus since I first sang these words. The other phrase given to me at that time was "The Promise of the perfect kingdom." I searched for years for the meaning of this phrase. Now I know that each ascension cycle already contains a promise of completion. At the end of each cycle. The kingdom is restored to it's original perfection of the Divine Blueprint.

The last words of that same album are "When you hear the angel, the mystery of God will be done." In August of this year, the words for our current album, The Ascension Vortal came to me through the voices of the Elohim Angels. This is the highest frequency being brought to Earth at this time. The Elohim Angels stood in front of me and all around me and ran light, frequencies, and codes through me. The Crystal Light Entity stood in front of me and brought to me three spheres of healing sparkly turquoise light. These were dust, gel and light energies. Next the Knight Angels of Light told me that they would take these light frequencies anywhere I asked. This is the final Mystery of God. It is the last chapter in the Mystery Schools textbooks. It is the Christ Star Vehicle of Ascension.

Crystal Light Energy brought five circles of light around my body. The five circles are the five harmonic Universes I described earlier. Between each of these Rings of Light are spaces called Spans of Light Energy. Crystal Light Energy made me feel like these Beings of Light Energy would be my Vortal of Ascension.

Crystal Light Energy told me to ask to have this Ascension process invoked. I have tried it already. It works. The only thing keeping me from full take off is the Time Line involved in this Ascension Process. I believe it will be complete 12:12.

We asked our guides to appear who could help us complete our final mission on earth. We told our guides that we were directed to bring the Highest Frequencies to Earth through Music. When we asked this question, our guides appeared. They were Elaika, Jesus, Uriel, Ariel, Gabriel, Michael, Lacodemus, Raphael, Zadkiel, St. Germain, Metatron, the Melchizedeks and the Elohim Angels as well as Crystal

Light Energy, the Elohim Hearing Entity as well as Serapis Bey, El Morya, Paul the Venetian, Kuthumi, and a big room full of others. The group kept growing bigger and bigger as we neared the completion of our project. It was as if they wouldn't possibly let us fail.

To bring the Highest Frequency to Earth means to be the Host of the Source Energy and connect it through our host of Oneness of all of our Selves in all Dimensions into the Earth's Christ Consciousness Grids.

Some who are here now are Indigos with 48 original DNA strands that can wake up to their full Christ Consciousness Identity. This activation will restore the final 12 DNA strand of the original Christ Consciousness on Earth. I have every reason to believe that the 48 DNA strand Christ Child will be born on December 11th of this year. The child will be a girl for the female energies needed at this time. This will allow the 12 DNA to be restored to the Earth.

I was directed to go to Mt. Shasta to play the music the angels gave to me. When I got there a woman was waiting for this music. She was told she needed to find this music to complete her final portal ascension activation.

This light wasn't scheduled to come to Earth until 2012 or earlier. We went into the earlier stage last year when the dark forces tried one last time to sabotage the plan. I am very grateful to them for all of their darkness that continuously allows our light to grow stronger and stronger each day.

Personally, I didn't want to wait until 2012. This activation will allow all to remember who choose to remember. Some will choose to remember later. They can wait until 2012 if they want to. There will be many who return with their Christ consciousness restored to help them.

The codes in the music contain the formula for restoring the 12 DNA - our original Divine Blueprint. It contains the codes for opening the Diamond Door of Ascension. The codes must be put back into our

DNA template. We must activate our Divine Blueprint, we must become the Christ star body of white light to ride all the way back to Source and then return as the Christ - the body containing full Christ activation.

"This is the Co-creation process with Divine Mind. This Christ activation will allow you to slide from dimension to dimension - to continue to experience this world through a much heightened clearer sense. Because you have asked for, you have studied for your whole life to for the gift to become One with the Divine Mind. Your mind is now ready to expand to the farthest reaches from the universes."

The farthest reaches from the universes is Source.

"When you focus you will allow yourself to be present.

From here your Form will serve while it is needed and change as it is needed. This process is the Blueprint of the Divine One as humanity itself free forms into its Next Evolution."

This is like all of our selves from the fifteen dimensions are reforming, remolding in the Dance of Joy - taking all that we are - all that we have learned - all that is in our Akashic Records and returning it to Source. This creates a Void to begin creating in. This creates a clean slate, a drawing board. It creates a large Quantum of Light Energy to be used again and again in each ascension cycle.

Next, we can re-use this new source of energy that has been much perfected, much restored, much realigned with the Divine Blueprint. We become a Cosmic Burst of brand new energy when we return to Source. When we bring Source energy into the Earth's Christ consciousness grids, the Earth also gets this brand new blueprint, this brand new Cosmic Burst of Energy, This brand new slate to draw on. We get a mirror image of this Earth, but it is a brand new sphere of cosmic energy.

The transformation is not based on just one lifetime of 50-90 years. It is based on everything that has been learned as individuals and collectively in each of the millions of race lines within the entire

Universe. This ascension is the final process that has been taking place over the past four ascension cycles of 250 million years each.

It is based on those times the Elohim and Sirians have attempted to re-seed the Earth and the dark forces kidnapped our seeds, it is based on all of this long collective history of the dark making the light lighter and lighter. Now Source welcomes home our Quantum Journey of who we have become. Source will breathe this information in and then Exhale fresh air so the ascension cycle can begin again. Each time source breathes there is another spark and then another flame and another and another. We continue to grow forever in our understanding of how great we can be.

First we bring the frequency from Source-we bring the highest frequency to Earth. We exhale that frequency into the Earth's Christ consciousness grids. This creates the Quantum Fuel to activate our Christ Star Body or to create our Cosmic Orb that we travel back to source in. When we get to Source, we focus, we become Christ Light and we return.

So, the importance of aligning and running Source energy into the Christ Consciousness grids on earth completes the process of the complete Cosmic Cycle of Ascension. We are Hosting this Planet into its complete perfect Essence of its Divinity, which is its At One Ment with Source and our At One Ment with Source, and our Oneness with the Universe and its At One Ment with Source. We are returning to our original Blueprint that Source created us on.

I was told that I would get a huge surge on 11/11, which was 1992. I was told that I would embody the Hum of the Universe. This hum is the vibration we get when we fully initiate the Merkaba which is now the Christ Star Body. The angel said this frequency of the Hum of the Universe has already been ignited. I know this is true because I know Father Hummingbird ascended from Mt. Shasta in this exact same manner.

He hummed into Oneness. He said it was like evaporating and then walking into this great light.

We were told the project we wish to unfold is already completed and we are bringing it back into form at this moment in the time line. How we return to Source to become fully activated Christ body. This is it. This is why we came back to do it again and again. We have finished our great plan.

There is always a natural relationship between the Chrstic Beings and the star they lived on where their natural bio-process would give back something the star needed for its natural process. So it was always a natural symbiotic relationship. The solar symbiosis process is a process by which emissions coming from the central sun send the solar wind- electrons, protons and things like that.

There are supposed to be certain things in the atmospheric layers. Some would be from the choronosphere, some would be below the choronosphere.

Those things are called ORONS (oxygen bound with Helium) the elemental manifestation they pick up solar charge – natural emissions from the central sun and they store them for a while and after they densify a bit they come down in certain areas. They come down the Alurian chambers – the 12 fire chambers on our Rasha Body that go into the Light Body Structure. There are Natural phasing cycles that happen several times a day in a normal star environment where you would have the ORONS descending their solar charge with the energy they have.

They would go into the surface of the Earth and the surface of our skin or tissue of the skin. There are shalons running through all muscle structure. Shalons, Calons and Orons are crystal bands that make up the structure of the body, the planet, the solar and cosmic systems.

We are becoming one complete system made of elementals of the Physical Side (the half self we have been living as) combined with the Spiritual Side (the half of our self that we are now re-uniting with).

If our present chemical state tried to enter into the frequency or the

chemical structure of the real star system that is hydrolaise based we would pollute that system. They would have to wear gas masks. We smell like methane gas or rotten eggs in their systems. We would presently stink up the joint. This is why they have waited so long to be able to visit our planet. We are a toxic system to other star systems.

Breathing the hydrolaise and doing the Ascension Activation Meditation will speed up this process of uniting our physical and spiritual into one Light Body which contains the frequencies of ascension into the hydrolaise star system.

Those structures we see Now are Not natural. The 13,14, and 15 th Galaisac layers of each level would be a choronosphere. It would be like the sun. There would be natural subterranean structures within the structure. There would be natural Biomes that could live under the choronosphere, there would be no sun radiation because you would be the sun yourself. You would take in the current through your poles and have natural symbiosis cycles.

BREATHS OF CONSCIOUSNESS

There are many methods that have been sending the individual consciousness into different dimensions. And some technologies utilizing codes and symbols to align consciousness into these dimensions or locations.

These were the first steps in finding and aligning consciousness. Many of you are already familiar with these.

What will be different in this course at the COSMIC MYSTERY SCHOOL OF THE OMNIVERSE, is understanding what the frequencies of these dimensions are, how to collect them, how to hear them, how to align with them, how to sing with them, and how to allow them to teach your crystal cells in your body to sing.

When your crystal cells are singing in harmony with the crystal cells

of Inner Earth, you will then be able to start raising and aligning your crystal temple into the Islands of Light of the higher dimensions.

This is the goal of this entire course. To Raise Frequencies to match the frequencies of those entities of light from our Inner Earth and all Crystal Cities Locations. This location contains the true spiritual substance of crystal light that our true selves are made of. We have been separated from this spiritual half of ourselves for millions of years. Now, is the time to reconnect through zero point energy the alignment of the physical and spiritual selves into ONE.

These Dimensional locations also represent geographic locations in the mind and heart where all of these frequencies or breaths of consciousness align into the Oneness of all that we each really are.

The Dimensions contain qualities. For example the fifth dimension contains qualities of aligning with all fifteen dimensions into the tone of home, the harmonic convergence of Oneness, the understanding of Home meaning alignment into harmony with frequencies of communication and transportation into all dimensions.

The Sixth Dimension contains qualities of Intuition and Unconditional Love. These are the qualities needed by the entities who are guiding our creation of the Islands of Light that will allow our Consciousness to merge into and connect with our Families of Consciousness through the Fifth Dimensional Alignment. This is the Dimensional Consciousness of Zorak, who is my guide and mentor in creating this Island of Light, this Conversion Vortex and my own personal Ascension Portal. Zorak chooses to be in the Six because it gives him the freedom to do the things he loves to do. Dimensions are not higher and lower qualities. Dimensions are Frequencies of specific qualities. My higher self is in the Cosmos and her brother and my brother works in the Sixth. This doesn't mean that my higher self is higher than my brother's higher self. We are just each working on different parts of the BIG PLAN.

We work with entities from each dimension on different aspects of the ascension process. I work continuously with those on the fifteenth

dimension on the process of co-creation because I have always worked closely with Lady Mary, Raphael, Zadkiel, St. Germain and the Melchizedeks on the process of co-creation of the Divine Plan.

The steps into that final process are required to be taken by those of us on Earth aligning our frequencies into all of the dimensions and entities until we acquire high enough frequencies to create Conversion Vortexes and Islands of Light. The Islands of Light allow us to continue the merge into Cloud Cities and on up to Terra Ha.

The Process of MANIFESTING WITH THE ETERNAL LIFE ALBUM

taken from Mary Magdalene's Diary 4

by Dr. Angela Barnett

Experience doesn't come from mass to mass. It only comes from God, who directly knows how it is going to happen and the flow of that information to you . As you observe the experience in the film of the Omni particles or God's movie screen around you becoming developed through the activity of Divine Love. When you do this you are learning how to co-create through the mind of God. Now you are learning how humble one must be to conceive a concept that is out of the boundaries of ones ability to do it. And you can see God manifest it.

The creation of the manifestation is always done in the outer band. The outer band of the music of the spheres is the sphere of the infinite unknown or God's mind. When this frequency of Source Consciousness is woven into oneness with all of the other five spheres of dimensional consciousness energy, the manifestation is developed into the film of that Omni particle energy which is sub atomic etheric stardust particles. It is the etheric foundation that the

manifest reality is painted upon. The frequencies that are recorded on the Ascension Kits and on the ETERNAL LIFE ALBUM utilize the frequencies and codes of manifestation in the five spheres and place these codes within and through the body. The ETERNAL LIFE ALBUM actually activates these frequencies into the Oneness of God's mind manifest as You. These frequencies make these Omni particles that you may begin to create your new reality from. The more you feel, inhale and exhale these frequencies, the higher your body and consciousness will rise above and beyond the old third dimensional illusions into the infinite unknown that you may now manifest as your new reality.

The old reality has been programmed into the cerebellum of the brain. The amygdala gland has been recording and replaying movies of fear, control, lust, sex, violence. These old movies will continue to play until they are wrapped inside the sphere of crystal light energy. First wrap the fear ideas in a sphere of white light and then ultra violet blue light and then golden light and then melt the ideas into golden liquid light energy. When you do this you are allowing the old bands of lower frequencies in the third dimension to flip up into the mind of God or the infinite unknown frequencies. This transmutation process must be completed through out all parts of the cerebellum as well. These are all old worn out third dimensional movies. We don't need them any more. We are dissolving these old three dimensional control channels.

The frequencies in the Eternal Life Albums are to pour into the old brain and allow the MID BRAIN to become activated. The Mid Brain - pineal gland and pituitary gland are Frequency Specific. They think, move and create through FREQUENCIES. The Mid Brain is able to see infra red, ultra violet blue and even gamma waves. The Immortality Cd is allowing you to feel these frequency waves in order to prepare your mid brain to see these frequency bands.

The next step needed to activate your mid brain is cross your legs in the lotus position with back straight and focus on the center of a flame from a candle for at least one hour per day while listening to your ETERNAL LIFE ALBUM. Try to eventually work up to two or

three hours. The longer you focus, the closer you become to the full utilization of your mid brain which will allow you to see all dimensional realities.

Next, after a week or two of practicing this level of focus you will be able to stare at a card and learn to see both sides of the card. In the reality of infra red frequency, the mind can see in a 360 degree angle. You can train your mind to see both sides of the card. Your mid brain already knows how to do this. When the other old brains are completely turned off and the mid brain is completely turned on, you will first gain infra red sight which will allow you to see orbs, space ships and to read a deck of cards. This will come in handy if you ever want to go pick up an extra few hundred thousand dollars at the casino.

The frequencies will continue to raise the foundation of the entire body. The subconscious will become activated into the blue realm. The medulla oblongata which sits right at the top of the spine is where the subconscious sits. When you raise your frequencies into the blue frequency the sub consciousness acts as a primary healer of the body. Activate this area of the body before going to sleep and ask the god of your being to raise you into the blue body for complete healing while you sleep.

Listen to your Eternal Life Album while you sleep. Practice breathing in a fashion that oscillates the frequencies from the higher rings into the lower rings or frequency bands. Focus on breathing at the speed of light-do this in your mind. Feel the body become lighter and lighter until it rises above your bed. The frequencies of your body will lighten the body into the etheric Omni particle of God consciousness.

When the thinking brain is dissolved into the higher frequencies and your mid brain is activated and your sub conscious is aligned into the blue body, write a list of all of the things that you would like to appear in your new world. This is the world that you will be creating with the mind of God. Write the list and call on the God of your being. Ask to have the items on your list manifest through the mind of God. God only knows the infinite unknown. He doesn't create old out dated

ideas. You must be willing to have God create your hearts desire in the way that he knows is the best for you. You must become humble enough to conceive a concept that is out of the boundaries of your own ability to do it, and become willing to see God manifest it.

So, no matter how clever you think you might be intellectually, you must be willing to let go and allow God to do the manifesting in the way that he knows, which is the infinite unknown. A person who has got the knowledge understands.

I have always been fabulously wealthy. I have always been twenty years younger. I have always been able to bi-locate. I have always been able to read the back of cards. I have always been able to disappear. I have always been able to manifest perfect health. This is how you connect to the outer band of the five frequency bands of the music of the spheres. This is how you make the symphony of love begin to perform in your life.

The GREAT WORK is to become that entity who will never die. That great entity has no longing for its past in any way. The great work is to press forward in use of the Mind of God to make the body in life to think in life as detached and awesome as it is to take that into life.

That is the great work. For what is remarkable about us. What allows the grand fortune of living thousands of years.

Once you've cleaned out the junk in the thinking brain by owning all of the experiences and placing them in the crystal light energy sphere to dissolve into the golden liquid light, you are finished with the brain that dies and you can begin living in the brain that lives.

Now you can live in extraordinary thought and extraordinary experience. You can do marvelous things in this physical body because this body is made up of the same particles as space itself. We can be far greater. We can replace with greater events with out the past emotionally. Go into the experience and let the experience created by God, become defined by the nature of the new chemical feeling of higher frequencies in the body.

Instead of using the physical body, use the energy of God-the Omni particles of etheric God energy, for the new experience. Then the

body is sustained until the time the secondary consciousness has made an in road to make the nature of every day, a new form of thought.

Now, the body will be able to levitate above the bed because you have become so changed in your neuronet that your brain is levitating into the higher plasma body.

You can remain focused in the new wave pattern of the music where you are no longer attached to the hertzian tonality that contains gravity. Choosing the dense music will make your feet remain where your ears are. Choosing to float in the Cosmic Waves of the Etheric Consciousness of Creation where the Music is Created, allows the body to disappear from the Reality that exists in this set of Consciousness and Energy and you can take your body with you into the Plane of Bliss.

As the cells within the body are filled with a new tone of reality that contains much more light than can be experienced in the third dimension, the body will disappear and reappear in a new frequency of reality where a different Symphony of Love is playing. You can take your body to any level and any frequency that you like if that is your focus. All lower frequencies must rise to the highest.

We make a list before we go to bed so that our subconscious through the mind of God will create our night in which our souls align into oneness with the Sun of Inner Earth and the Sun Alcyone to lift us into our Blue Bodies.

We are now in control of the body because we are out of the body. We are out of the body because we are in the outer band- the highest frequency band of Source. All of the multidimensional bands are outside of the body. When we rise into the frequencies on the ETERNAL LIFE ALBUM we are rising out of the body. The outer bands are the holy spirit. Outer bands have full spectrum of light and sound. This is your secondary consciousness and this is your pattern of all of the bodies you have ever been. The outer body is the infinite unknown.

In your day to day affairs we have the infinite unknown touching our bands and as we allow our bands to melt into or dissolve into the infinite unknown, we leave behind all of the old bodies and use our holy spirit bands of quantum energy to experience the infinite unknown.

The hertzian wave band touches all of the Source Frequency and soaks up the full spectrum. You have been loved into this life through the activity of Divine spinning and oscillating the bands into One Full Spectrum Frequency. The God frequency is holding all of the quantum together clear out to the never never land. We were loved into this experience. It is love that binds us into the full spectrum of the infinite unknown.

This entity, the outer band is God, and its action is the Holy Spirit. It is super natural because it has all aspects to act on this level as a Divine Being.

What happens when we raise the frequencies from the third band to the fourth band? All of the frequencies rise through the outer band of Source frequencies. It makes the bands flip into the mind of God. Infinite Unknown is flowing inside of you and the rest of you is dissolved. The outer band and the holy spirit is the super natural. From this zero point is flowing toward you, through you and into every particle in you. You become the mirror image of the mind of God.

We are moving through the grandest of times ever known to our Cosmic Families. We are being given the Stardust and Hydrolaise (Spiritual Water) that is needed to transform our bodies. The Consciousness, or the Frequencies of this energy of transformation is coming in through the Stellar Wave Activations related to the Solar Flares and CME ejections of the Sun.

So, our physical body was disconnected from our Etheric Body, our Seed Atom, our Soul, our Mental Light Body.

We can now use the Frequencies of Star Dust and the Spiritual Water H₂ O₂HE₃ from our spiritual Aquari Matrix and our Inner Domains in the Cosmic Core of Mother Earth.

When I create the Eternal Life Albums I realign the Physical, Etheric and Mental Light Bodies back into the Original Divine Self, where the three spheres or three bodies intersect at the Crystal Heart area correctly, without the Loop that keeps them disconnected.

The process of removing that loop in the Heart area requires an alignment from the Mid Brain up into the Cosmic Consciousness of the Aquari Matrix. The Cosmic Alignment point is 36 inches above the head. I create a clearing from the Mid Brain through the ears and into the Elohim of Hearing or the Aquari Maharaji (their new transformed selves). Once that PRIMARY NEURONET is reconnected up to the Maharaji, That Consciousness Neuronet creates a Clear Passage to Cosmic Consciousness. Next the Frequencies of the Stardust flow must saturate the Mid Brain area and the Pineal Gland. We then Move that Star Dust Consciousness down into the Crystal Heart area to begin the transmutation of the block or the loop in that area. Next, I inhale the Water Orbs of Hydrolaise or Spiritual Water that are brought into the atmosphere from the Cosmic Inner Core Domains of Aquafaria. The Water Elementals from the Spiritual Matrix are inhaled into the Mid Brain and into the Crystal Heart.

Once there is enough of this consciousness brought into the Crystal Heart, a Secondary Neuronet is opened up through the back of the lower skull (the medulla oblongata). That is the Secondary Neuronet that connects directly to each Individual's Original or Normal Body that does not contain the ERROR of ALIGNMENT.

What we are all truly excited about is Freedom. We want to be free from the world. All we have to do is Be in the Mind of God, be in that highest frequency, transform the invisible and visible into one reality. Know that the invisible is as real as the visible, and know that it is already here.

When you focus on that. When you focus on knowing and perceiving the reality that all is already in your sphere around you. That is the Mind of God. Everything is already there. There is no reason for the Lotto. There is no reason for a PROCESS. It is already complete.

THE SAVIOR OF PLANET EARTH

Now Earth's Consciousness is Floating within the Aurora Fields of the Cloud Cities where I could see Elaika standing two years ago. As we were driving on hwy 45 from Woodland to Chico, California in April 2015, we saw a fully clothed Entity, who was about one thousand feet tall standing in front of us.

He was actually standing on top of Mt. Shasta,

which is about a two hour drive from where we were. Mt. Shasta is ten thousand feet tall. It is a portal. So, we knew he was standing on a Portal, and this portal was also a Vortex, which allows the presence of those on both sides of reality to be seen at once.

Elaika was clothed in neon light colored clothing. It looked like a golden robe with various colored stones in the shape of diamonds. His face shown like the sun. We could see his eyes and mouth very clearly. He held a staff in his right hand, while at the same time allowing his fingers of his hand to point out toward the Pacific Ocean. What seemed to be his fingers looked like a pitch fork, and each fork was a different color, as if to be showing us dimensional levels in the colors. I knew immediately he was communicating the need to open more portals in the Ocean because Elaika had appeared to us in a similar way when he directed us to Monterey, California to open the first Portal.

I asked Elaika if any one else could see him. He said Joe and I were the only ones who could see him. I asked him if what I saw was what many people could see on Earth twenty and thirty thousand years ago, and even some could see two thousand years ago. Elaika's answer was yes, it was common for people to see this reality during those times.

The place that I could see Elaika standing upon has been called the Aurora Earth or the Cloud Cities. It is the place that allows those with very high third dimensional frequencies and low fourth dimensional frequencies to see the in between state where a tiny bit of Earth's Soul rests between the physicality of the Earth and the Spirituality of the Spiritual Parallel Dimension of Terra Ha. This is also the definition of a Vortex, because we could see the spiritual standing on the physical.

I asked Elaika if anyone else could see him and his answer was that Joe and I are the only ones with high enough frequencies to see into that

realm. He said if frequencies were measured on a scale of 1-10, the rest of the world would be a 2 and we would be a 9.5

I'm not saying these things as a braggart. Joe and I earned our frequencies, and it wasn't in an easy way. First of all, we are the Soul of Mary Magdalene. That means we are Creators who came directly from the God Realm of Creation. However, we chose to come to Earth to be exactly as everyone else on Earth. We came to experience being Hybrid humans in both a male and female form, who would unite into one new type of thought process of male and female as one.

This experiment that allowed our frequencies to be five thousand times to each one of nine billion on Earth was accomplished when Joe was possessed by the three demonic race lines who were trying to take over the portals of Earth. Joe died when this took place, because God placed himself inside of Joe's Soul in order to remove the demons from him and from Earth.

The event was horrific for Joe and for myself, who was with him during the entire process.

After God took Joe's Soul away, Joe had no lower fractal consciousness left within his body. His entire consciousness was removed from his body. This was when I was told that I could place my Soul in Joe and I could bring him back.

When I placed my Soul in Joe, it was my complete Higher Self, who is the Soul that I am in the Creation Realm. This connected Joe to his Soul at the highest possible level. Joe became the puppet of his Higher Self, rather than a human living in a lower fractal consciousness experience.

This experiment of removing the demons from Earth forever had never been accomplished successfully before, and Joe and I knew that it was extremely dangerous. We knew this before we made this plan, and before we came to Earth. The demons had been planning on taking over the Earth through this implantation into a Creator Body for millions of years. The demons

could only accomplish this plan if they took over a female Creator Body. So, Joe and I made this plan before coming to Earth to come as both a male and female in order to trick the demons into thinking that they had possessed the female Soul of a Creator, when they actually had taken the male Soul. That was the reason that we set up this decoy partner plan of a male and female soul.

You see, if a male soul mate is possessed, the female can easily retrieve her male soul by placing her soul within him. However, if a female soul is taken, the male soul can not retrieve the soul. In either case, we knew we would succeed because God would enter into our body and take the demons away from Earth forever. We knew that the worst thing that could happen would be one of us would die, but we were not worried about that because we knew how to over come death.

So, the result of this experiment was successful on many levels. We removed the three race lines

who would had taken over planet Earth and made it the home of the Anti Christ.

Second, when I connected Joe to his higher self Soul, Joe had his entire lower fractal consciousness replaced by his higher fractal consciousness and we were tied together within this highest realm of consciousness.

That event raised our frequencies to be five thousand units per human on Earth. That means each time one individual does Grid work or Portal work, it would require five thousand light workers to do the amount of work that I can accomplish with one breath.

This was the requirement that was needed in order for Joe and I to open the twelve ascension portals, and most importantly the Central Portal that we drilled from one side of the Earth to the other side to be used as the portal of ascension for ever more.

The second half of the Ascension Plan could not

be accomplished if Joe had not allowed himself to be possessed, died, and had God not entered into Joe's body and removed the demons. These Portals would have been the property of the anti Christ forever more if Joe did not allow this event to take place.

That event needed to be accomplished regardless of Joe's survival of the event. However, Joe was not worried because he knew that I had returned Yeshuwa ben Joseph to his body in the exact same manner two thousand years ago when Jesus was nailed to the cross and God placed himself in Jesus body in order to take the demons to their Over Soul. Joe and I had both been present at that event as well as many other magical events last time we were on Earth. Joe was Parmeesius in his last journey to Earth. He was a partner of Merlin. He was actually a magician who was equal in mastery as Merlin. And I was also a partner with St. Germain, who was equal in ability to use the Violet Flame of Ascension.

The reason that we chose ourselves for this event was because of our resumes of past journeys and creations on this Planet Earth.

OVERVIEW OF MARY MAGDALENE'S BOOKS

The diary of Mary Magdalene began in 1992 when Joe and Angela Barnett were awakened in the middle of the night and told to Create God's Movie. The beginning of our movie was The Promise album which was a collection of channeled frequencies and understanding of the Big Ascension Plan being awakened in the Souls of Mary Magdalene. THE PROMISE was and is the beginning and the end of the entire Cosmic Plan of the Perfect Creation within the Beingness of God, which existed long before the World began, being returned into the Structure of the Universe that the Earth is within. As the understanding of what was said in the words and through the frequencies of THE PROMISE album grew, the Training Books explaining the words and music of that album became QUANTUM JOURNEY 1-7.

During the same time period that Mary Magdalene was compiling her understanding of all that is known within the Cosmic Creation Team through her music, she also wrote books about the experiences of the Soul of Mary Magdalene as she was discovering the nature of the Matrix of Illusions that she was living in, and how easy it was to step outside of that Matrix and look at it from point of view of a Cosmic Creator. Mary didn't actually realize that her book MATRIX OF ILLUSIONS that was her diary of 1982-1995 had influenced the consciousness of so many others on Earth who were writing books and movies about this subject. It was always the Consciousness of Mary Magdalene who was sending the ideas regarding the Matrix and the new Consciousness that was arising and expanding onto Earth. This was always the story of Mary Magdalene. It was Mary Magdalene who had made the plan two thousand years ago to return to Earth at this time of the Ascension and plant the seeds of understanding into others who would help those seeds grow and grow until there was enough of

Mary's Frequencies established within the Earth's Consciousness field to begin telling the stories of restructuring the Consciousness of those on Earth by allowing the Consciousness of Light and Sound that she had created with other Creators millions and trillions of years earlier that held the light and sound of the meaning of the Original Perfect Design that was the Structure of the God Consciousness being performed through the light and sound of the Creator's Music of the Spheres.

The entire explanation of that part of Mary Magdalene's Quantum Journey was not completely revealed to her during her time on Earth until the MARY MAGDALENE DIARY 2 book within the QUANTUM ODYSSEY COLLECTION.

The MARY MAGDALENE DIARY 1 book contains the brief overview of many of the things that Mary learned about herself and himself during the journey of channeled dialogs with Jesus (Yeshuwa ben Joseph) and Elaika (Moses), who are two of the main Team Members of the Creation Team that Mary has

been working with on this specific Ascension Project of the Earth.

The earlier books written, including 12 DNA from the Music of the Spheres with Keys to the Universe was Mary's first attempt to summarize her experiences of Cosmic Learning that were inspired by earlier missions that she wrote about in Matrix of Illusions and the current experience that began in 2008 when she was directed to go to Monterey, California and open the Mary Magdalene Ascension Portal. That entire story of the adventure of Mary discovering herself as the Soul of Mary within Joe and Angela is transcribed purely as the physical experience that was experienced by Mary at that time.

It must be noted that the diary of Mary at that time was largely influenced by the teachings of a few other Gurus of the time.

There are many mistakes in Mary's writings in those earlier books because Mary had not yet been educated by Jesus and Elaika at that time to know that most of those teachings were incorrect.

Mary had believed what Ashayana taught about there being 12 Jesus sets, and that the 12th level Avatar was a much higher consciousness than the 4th level Jesus of Nazareth. Ashayana had also taught her students that the Sananda that she described was Sananda Mechizedek. Those pieces of information are completely incorrect.

The Real Jesus was is and always with be the one who was born as Yeshuwa ben Joseph through the birth of Mother Mary. That was when God placed himself within a Creator Being who was to be born on Earth. That was the only time that the Creator Jesus Christ was ever on Earth as his complete self. All of the other Versions of Jesus were Aspects of himself that he sent to Earth to help promote the understanding of Christ Consciousness. The term Christ Consciousness is completely incorrect also because Jesus was and is Cosmic in nature. He is a Creator Being. He was created by God in the First Creation. He was created before the Angels of the thirteen realms. All these things that I have said about Jesus are also

true about Mary Magdalene. I also came to Earth as my complete Creator Self when I was with Jesus about two thousand years ago. The obfuscated stories about the real Jesus being Sananda is also ridiculous. The actual name that Jesus had given to the Third Eye of himself was Soma. This Soma was to be the representation of Jesus on Earth as he represents God. This Soma idea was the image and likeness of God idea. Jesus told me that anyone who claims that they have seen or been with Sananda or Soma is not telling the truth. This image was not one who could be seen in the third dimensional realm. Unfortunately, that incorrect information that was learned from Ashayana Deane was accidentally placed in the next book that I wrote, REMEMBERING WHO WE ARE BY COSMIC MARY. Most of that book contains channeled dialogs between Mary and Jesus and Mary and Elaika concerning the creation of the Ascension Portals in the Pacific Ocean. There is more details given about the event that took her Soul in her Cosmic Twin to become a Super Power Mary Magdalene that contained

thousands and thousands times more frequencies that other beings on Earth. This book shows the parallel reality stories of how Mary had become the Soul Mate of Jesus and that is why she was able to place her Soul in Jesus at the Cross and bring Jesus back into human form exactly as she had done in 2008 with her current Soul Mate. There is more of this Cosmic Soul Mate story of how Mary chose to come to Earth this time as the experience of both a male and female as one this time in many other parts of her books and diaries. So, this book, titled TURNING INTO LIGHT includes the very exciting story of the resurrection of Mary's current Soul Mate, Joe Barnett and the resurrection of her other Soul Mate, Jesus of Nazareth, when he was nailed to the cross, and the many Cosmic Events surrounding both of these planetary events. The book MUSIC OF THE SPHERES LIGHT AND SOUND TECHNOLOGY is a book where Mary places her new understanding of how the human body is able to turn into the fabric of light itself as the physics of the Earth become more and more in line with and in tune with the

Frequencies of the Sun. This book explains how Mary, herself, will turn into light in 2018, and how others can use this same formula to Turn into Light instead of Die.

The book **FUTURE GLOBAL MANAGEMENT** was a book written by Joe Barnett, who is also Mary Magdalene, when both of the Soul Mates were working as Consultants in Multinational Corporations and International Business on four continents of the Earth. We had both always felt that all of our training and work in Multi National studies of the religions, cultures, societies and educations of all of the cultures of the world was to prepare us for the paradigm shift that was going on right before our eyes of not just a new Global System, but a new Universal System.

The remainder of the Diaries of Mary Magdalene will be explaining more and more about this new Universal System that began its initial state of creation when I finished opening all 12 Ascension Portals in the Pacific Ocean. That was the moment in the Fall of 2016 when **EVERYTHING CHANGED**. That was the

reason that everyone in the Universe had a grand celebration of knowing that Mary Magdalene had completed the pathway for the Original Consciousness of Creation to flow back into Earth and the Portals were opened for the continuation of the Ascension that had been put on hold for four sets of 240 million Ascension Cycles. The block in Consciousness being unfolded into the memory of the Super Consciousness that originates the true form of Creation was removed when the Portals were opened. Mary's diaries one and two explain how these Portals Saved Mother Gaia and allowed Mother Gaia to become the Savior of the Universe. They explain how the Portals prepared the possibility for the Original Ones to come to Earth and begin negotiations with our governments for First Contact in 2018. Those diaries also describe how Mary has met with the representative of each Mother ship of each raceline who has landed on Earth in the first months of 2018 before the book was written. Future diaries will tell the remainder of the stories of the Original Ones landing on Earth,

meeting with our governments and then flying their spaceships through the Central Portal that I created for them. As soon as that happens, the Stargates on Earth will open as the thirteen Crystal Skulls that are owned by those on the thirteen motherships press their remote controls at the same moment. That will be the beginning of FIRST CONTACT later in 2018. After that event takes place, Mary Magdalene will have completed her mission on Earth and will Turn into Light and move into Terra Ha where she is the most celebrated Queen of the Universe and is given complete gratitude for being the one who made this Ascension Event a reality by those in the higher consciousness of the Universe. Mary will enjoy being treated like a royalty on all of her favorite planets where her music is being played before she travels home to the Creation Realm with her team of 47 Creator Beings.
